Complete

THE LOCAL NEWS

Full report of the death and burial of Governor Hammond will be found on page two of this issue.

The annual meeting of the Highlanding Creamery Association, will be held at the Highlanding Creamery, on Monday January 10th, at 10 o'clock a.m.

The homestead lands of the Mud Lake bottom, in Marshall county, will be opened for homestead entry the coming spring. Notice of date of opening will undoubtedly be given by the U. S. Land Office, at Crookston.

Lars Hyland and Carl Narveson started up their gasoline saw rig Tuesday, and will saw up the years supply of fire wood for Walter McAndress, James O'Brien, Stiner Johnson, John Quirk, E. Klemmetson and W. G. Hunt.

Wednesday was the first genuine winter day that we have had. Our thermometer blew down from the side of the building, and was broken early in the day, and after that it got just as cold as it had a mind to. In fact the day had the appearance of the weather clerk having a vacation, and the boys running the business, and they made about as bad a muss out of it as the Democratic party does running the mail routes.

A man was found on Christmas eve sleeping in a snow bank, at Thief River Falls, in a beastly state of intoxication. As Thief River Falls is now a temperance city, the question naturally arises, where did he get his "jag?" We will venture that the fellow who sold it to him never paid any license or taxes into the city or county treasury, and could not have been located if the man had frozen to death. Fine temperance law, that county option law.

The mail carrier on the Plummer route took a vacation and did not drive on New Years Day. With their present mail service from Sunbeam post office on this mail route, the former patrons of Malone post office got the news of Governor Hammond's death yesterday, as all their Tuesday's daily papers were stacked up in Sunbeam post office from Tuesday until Thursday. But you know the route was not put in that way on the petition of the people, or to accommodate them, but to gather up cancellation for Democratic "pap sucker" politician post masters.

On Tuesday evening the small saw rig house of Carl Narveson caught fire at about eight o'clock and as it was standing near the granary of Mrs. Narveson, there would have been a big loss of the granary and grain, had not Walter and Lenard McAndress noticed the fire and ran down, as Mrs. Narveson's folks had not noticed the fire, as there was no window on that side of the room in which they were sitting. As it was the only damage done, was to the saw rig, which was slight compared to what it might have been.

Goodridge is soon to have a mail service on their railroad, and maybe there will be a complete rearrangement of all mail service on the north side of Red Lake river, so as to reduce the expense to the government, and give the people a better mail service. But if the people up that way do not have any better success, in taking the control of mail routes from the finger trio, than the people have had on this side of the river, they will have to put up with any kind of service that throws all the cancellation of the stamps into the Singer post offices.

AFTER COUNTY OPTION.

The county optionists of Red Lake county are getting up a petition to submit the question of county option to a vote. Those who favor it know that there will be less possibility of carrying county option in that county than there is now, after the people of Polk and Pennington county begin to see the results of the workings of county option in these two counties, both from a temperance and a financial stand point. All the difference it would make so far as temperance is concerned, to vote Red Lake county dry, would not amount to anything, but it would simply transfer the revenue derived from the sale of intoxicating liquors from Red Lake to Hennepin county, and the tax payers of Red Lake county need it more than those of Hennepin county do.

DEMOCRATS IN THE TROUGH

With a postal deficit of eleven million of dollars staring the officials of the post office department in the face, the modest Daniel C. Roper, first assistant postmaster general, puts in a provision for a salary increase of $2,200 per annum, in the departmental estimate of appropriations for the coming fiscal year. Inasmuch as Mr. Roper now gets $5,000 a year, this increase will make his place at the public trough worth $7,200 annually, or $300 less than the salary paid a United States Senator. Increases are also asked for the three other assistants.—Norman County Index.

You cannot blame them for trying to dig every dollar they can out of the public trough, as their time will be out March 4th 1917, after which time they will be looking for another job.

The Mid-Winter Fair

The mid-winter fair and home-product dinner, to be given under the auspices of the Thief River Falls Commercial Club at the handsome Auditorium in that city on Thursday, January 20, promises to be an interesting and entertaining event and a cordial invitation is extended by the club to farmers and residents of this locality to attend.

The different manufacturers of Thief River Falls, as well as attractive booths of local merchants, will be shown, and a dinner "fit for a king," at the nominal price of 25 cents are features.

Addresses by prominent agriculturists, music by the commercial club quartette and the Thief River Falls band, and other special attractions are on the program.

An auto show in connection is being planned and it is expected that a number of the 1916 models will be shown. It is probable that there will be a large representation from this locality present, and one big day and evening is promised by the live wire organization of business men under the auspices of which the affair is planned.

Oklahoma City, Okla.—Bootleggers here have a regular code for ordering their goods by long distance telephone. One recently got the wrong man on the wire. The bootlegger said: "I have plenty of big pipe, but am entirely out of little pipe, and you may send along some soup." "Big pipe" means quart bottles of whiskey, "little pipe" means pints and "soup" means beer.—National News Bureau.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL	24 large or 36 small	$3.95
(Brewed Specially for Family Use)		
WHITE SEAL	24 large or 36 small	3.70
RED RIBBON	24 large or 36 small	3.45
		PER CARTON
WHITE SEAL SPECIAL	12 large	$2.00
WHITE SEAL	12 large	1.75
(No refund on cartons)		
		PER CASK
WHITE SEAL SPECIAL	72 large or 120 small	$11.25
WHITE SEAL	72 large or 120 small	10.50
RED RIBBON	72 large or 120 small	0.75
SUNSET	36 small (case)	3.50
SUNSET	120 small (cask)	0.75

A refreshing and wholesome drink, containing less than one-fourth of one per cent of alcohol. Put up in quarts on request. Can be sold in all places where soft drinks are sold.

CREAM OF MALT TONIC	25 bottles (case) Refund for Empties, $1.00	$2.75
CREAM OF MALT TONIC	12 bottles (cartons) (No refund on Cartons)	1.50

Cream of Malt tonic is universally endorsed by physicians as a mild and beneficial drink, and tired, overworked or nursing mothers will find it a treasure as it supplies strength and vitality.

KEG BEER	one-half Barrel	$5.25
KEG BEER	one-fourth Barrel	3.15

Rebate On Empty Packages.

We will allow $1.20 rebate on empty cases and bottles, and $3.00 on empty casks and bottles. Refund of $1.00 for each ½ and ¼ bbls. When returning empties, be sure to mail us shipping receipt and voucher covering amount of empties you have shipped.

Kiewel Brewing Co.

Plummer, Minnesota.

Additional Locals.

Miss Ella Causin visited with Miss Myrtle Hunt on Wednesday and Thursday.

Mr. and Mrs. Tom Omlid visited with Mr. and Mrs. Lars Hyland on Sunday last.

Sheriff W. J. LaBree was transacting business in this locality to day, and made this office a pleasant call.

The Wednesday's storm packed the snow into solid drifts that will carry a team, and the roads are now in first class condition.

Miss Annetta Klemmetson who is employed at Thief River Falls, has been visiting with her parents Mr. and Mrs. E. Klemmetson, the past week.

Caution!

When you skin your cattle be careful to not cut the hide. Then take the hide to C. H. Melby, at the Oklee Meat Market, and he will pay you a first class price for it.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle. It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

Nothing better than
Dr. King's New Life Pills
All Druggists 25 cents
SATISFACTION OR MONEY BACK

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Address: F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

FOR SALE: a farm near Red Lake River, for about half value. Inquire at this office.

The Real Thing.

Fred, aged three, had been a naughty boy, and his mother had punished him. He felt very much hurt and complained to his auntie about mamma's spanking him. Auntie said, "It is not you that mamma spanks, but a little devil inside of you who makes you do naughty things." After sitting very still for five minutes he said, "It beats all how it hurts me when that devil gets spanked."—Delineator.

Changed His Mind.

When Charles B. Towns, author of "Habits That Handicap," first began his practice in curing drug victims he had great difficulty in securing patients in order to prove the efficacy of his cure. His claim to have discovered a cure for drugs was reverberating through the New York underworld; but, though speculation was lively, volunteers were timid. Finally, not knowing what else to do, Towns actually kidnaped a race track tout and put him through the treatment against his will. "When I get out of here and tell the boys what you've been doing to me," threatened the tout, "your life won't be worth 20 cents. They'll croak you in a minute." But five days later the tout told his friends quite another story. He sent, not gun men to kill, but confidence men to be healed, four of them. Towns had squared himself with the underworld as much by his courage as by his skill.

To Erect a Tent in Winter.

Instead of using a rope bridge, tents should be set in winter with a pole between two trees or supported on forked sticks, and the tapes along the ridge should be tied to this pole, says All Outdoors. If the tent has no tapes run the pole through the tent from end to end, and support it at each extremity with a forked pole. Better still are two forked poles at each end, the bottoms of which are spread far apart. When the tent sags it can be tightened by drawing the bottom close together and thus raising the ridge. Poles spread apart in this way also add much to the stability of the tent in a wind. While this method requires five poles instead of three, it is nevertheless the best way to erect an A tent. It will be difficult to drive stakes in winter, but logs, to which the ropes may be tied, will serve nearly as well.

DEFECTIVE PAGE

Doctors Insist on Operation---Not Necessary

I want to write and tell you what your Swamp-Root has done for me. During the years of 1900 and 1907 I was troubled with what the physicians pronounced "Gravel of the Kidney." I was under the care of one physician for six months and two months with another without securing relief or a cure. The physicians insisted on an operation claiming that would be the only thing that would help me. My wife being bitterly opposed to an operation I did not consent, but continued under their treatment for some time. When I was most discouraged believing that my end was near, I heard of Dr. Kilmer's Swamp-Root and at once began taking your medicine and noticed almost immediately that the medicine was having its effect. After taking seven bottles of your Swamp-Root I was entirely cured and have not had a sick spell for over a year.

When a person has been flat on his back for six months, suffering untold agony and spent considerable money with physicians without any benefit and then to be cured at an expense of not over $8.00, you can well understand how grateful I feel toward you and your preparation. In appreciation for what your remedy has done for me I am willing that you use this letter as a testimonial.

Very respectfully yours,
ROBERT E. HENDRICK,
4708 East 27th St., Kansas City, Mo.

State of Missouri }
County of Jackson } ss.

On this 9th day of August, 1909, personally appeared before me, a Notary Public, in and for said County and State, Robert E. Hendrick, who subscribed the foregoing statement and made oath that the same is true in substance and in fact.

HENRY C. EMERY, Notary Public.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

A Question.

Nurse—The new patient in our ward is light-headed.

Doctor—Delirious or blonde?

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

The Lack.

"Ah, Jones, are you here?"

"You don't need an answer; you need an oculist."

CARE FOR YOUR HAIR

Frequent Shampoos With Cuticura Soap Will Help You. Trial Free.

Precede shampoo by touches of Cuticura Ointment if needed to spots of dandruff, itching and irritation of the scalp. Nothing better for the complexion, hair, hands or skin than these super-creamy emollients. Also as preparations for the toilet.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

A muscle from a frog's leg is utilized by a French inventor to receive and record wireless signals.

For a really fine coffee at a moderate price drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00. —Adv.

He who starts out to meet trouble has a short journey.

Sometimes Apply It Lightly.

For cuts, burns, scalds, sores and open wounds always apply Hanford's Balsam lightly, but be sure that it covers and gets to the bottom of the wound. A few light applications are generally all that is needed to heal this class of difficulties. Adv.

A hot temper warps a man's better judgment.

Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.—Adv.

Love and coins can be tested by the ring.

HAMMOND'S BODY LAID TO REST; MINNESOTA, STATE OF MOURNING

Thousands in St. Paul Pay Last Honors

Funeral Services Held In St. James —Masonic Ritual Is Said at the Grave.

St. Paul, Jan. 3.—Thousands looked Sunday upon the face of Governor Winfield Scott Hammond as he lay in the serene majesty of death in the rotunda of the capitol in St. Paul.

In a magnificent setting of flowers and greenery, the body reposed in state under the great dome. High overhead flew, at half staff, the national emblem, betokening the grief of Minnesota over the passing of its chief executive.

Pay Personal Tribute.

From 10 a. m. till 10 p. m. the doors of the capitol were open. During those hours any who wished might pass by the bier and pay personal tribute to the dead.

The Capitol is draped in mourning, an expression of the universal sorrow that enshrouds the state which loses its governor.

Governor Hammond was the second governor of Minnesota who died in office. To many who were drawn to the house of death came memories of that other day in September, six years ago, when they saw the still form of Governor John A. Johnson lying in the same station of honor.

Service at Capitol.

The capitol was not open to the public Monday. A short service, heard only by relatives, officials and close friends, began at 9 o'clock. Half an hour later the funeral cortege moved to the Union station for the journey to St. James, home of the governor, where the final impressive rites took place at 2:30 in the Methodist church and at the graveside in Mount Hope cemetery.

Saturday the body was transferred from the black broadcloth casket in which it was brought from Louisiana, to a new one of heavy carved mahogany, copper lined and sealed. When all was in readiness the friends of the governor who had remained about the building assembled, and the active pallbearers chosen from the national guard bore the casket to the rotunda, where it was placed with the head to the north, surrounded by flowers.

Honorary Pallbearers.

A list of honorary pallbearers who followed the body of Governor Hammond to its last resting place included three former governors, personal friends and men prominent in the Democratic party from all parts of Minnesota.

Cortege Starts for Station.

Services in the capitol rotunda were brief, consisting only of a prayer by Rev. H. C. Swearingen of the House of Hope Presbyterian church, St. Paul. The services were private, and the capitol was opened only to state officials, relatives and intimate friends of Mr. Hammond. They gathered in the rotunda for the prayer at 9 a. m., and promptly at 9:30 the cortege started for the union station.

National guard sergeants again acted as active pallbearers, taking the casket on their shoulders and bearing it outside to the artillery caisson which was used as a carriage. Drawn by eight horses and escorted by the entire Twin City complement of the national guard, a regiment of infantry and one of artillery, by the governor's staff and a division of G. A. R. veterans, the cortege proceeded through the streets of St. Paul to the station, where it was placed aboard a special train on the Omaha road.

St. James in Funeral Attire.

In addition to the military escort that went from St. Paul under the command of General Wood, there was the Second Regiment band and Company A of New Ulm. The New Ulm escort met the funeral train at St. James.

The city of St. James was in funeral attire, all places of business were closed, and the people of the city attended almost to a man. Windows of the stores displayed portraits of the dead governor draped in mourning. Theaters and other public buildings of the city were at the disposal of the public as rest rooms.

Services at Methodist Church.

Funeral services took place in the Methodist church, which has a larger auditorium than the Presbyterian church, where the governor worshipped, but Rev. H. W. Fisher, the Presbyterian pastor, officiated. The funeral was a Masonic one, in charge jointly of Libanus lodge No. 96, A. F. & A. M., of St. James, B. F. Clement, master, and of Demolay commandery, New Ulm, Emil Hage, eminent commander. Mr. Fisher is a Mason and took part in the ritual features of the ceremony. State officials of the fraternity were present to assist in the ritual.

Masonic Ritual at Grave.

The interment was in Mount Hope cemetery, about a mile from town. Masonic ritual was said at the grave. A military escort went all the way, in addition to the members of the governor's staff.

WINFIELD SCOTT HAMMOND

Governor Dies Suddenly of Apoplexy in Southern City

MINNESOTA CHIEF EXECUTIVE BECOMES ILL WHILE IN CLINTON—EXPIRES IN HOTEL, A FEW MINUTES LATER.

New Orleans, Dec. 31.—Governor Hammond, entirely unwarned that fate threatened him with any serious malady, died in his hotel in Clinton, La. Apoplexy, aggravated by a slight attack of ptomaine poisoning, is given by the Louisiana physicians as the cause of his death.

The governor, believing himself in splendid health, went South December 23, just two days before Christmas, with Mr. James A. Nowell of St. Paul, to seek rest, pleasure and to look over some of his lands and lumber interests in the East Feliciana parish, Louisiana.

Found Lying on Floor.

In the South the governor ate something which disagreed with him but believed his illness to be but a slight attack of indigestion. Seemingly entirely recovered, he stepped into the washroom of his hotel in Clinton about 9 a. m. Mr. Nowell a moment later heard him groan. Mr. Nowell burst into the room and found the governor lying on the floor in a state of collapse.

"Jim," the governor exclaimed, and that was his last word.

He was carried to his room but was dead before doctors reached him.

South Honors Memory.

From that moment the South did all in its power to honor Minnesota's dead governor and to express its sympathy with those who mourn him.

The Clinton lodge of Masons assumed temporary charge. Governor Luther E. Hall of Baton Rouge, some 30 miles away, was notified. The body was sent to Wilson, La., and a few hours later started northward accompanied by Governor Hall, a Louisiana military escort and more than 100 Louisiana Masons who, on first call, laid aside their respective duties and hurried to the side of their noted Masonic brother.

This Louisiana did in honor of the governor of Minnesota and to lighten the burden of Mr. Nowell, the sole companion of the governor when he was stricken.

Louisiana's Example Followed.

The example set by Louisiana was followed through the night journey northward by the other Dixie states. The Louisiana delegation stayed with the funeral car until it reached Vicksburg, Miss., where Governor Earl Brewer of Mississippi at the head of another military escort and with another Masonic guard, took over the duty of escorting northward the body of the stricken governor of a sister state.

"This same beautiful example of Southern courtesy was taken up by Tennessee when the Mississippi escort arrived in Memphis to deliver over the body to the governor of Tennessee, who was prepared to provide it with an escort over the line into Kentucky.

Minnesota Sends Delegation.

While the South was showing its homage to Minnesota's governor, who had died practically as a stranger in a strange land, Minnesota was sending a delegation of its most prominent public officials of both parties to Chicago to meet the body.

WILSON PAYS TRIBUTE TO LATE GOV. HAMMOND

Hot Springs, Va., Jan. 3.—President Wilson sent the following telegram to Charles A. Andrist, who was private secretary to the late Governor W. S. Hammond of Minnesota:

"Will you convey to Mr. Hammond's family, and publicly express for me my profound sympathy and sincere regret for his death? I am sure this must be the sentiment of the whole country and of all who knew his sterling character."

In fact, the first official act of J. A. A. Burnquist, after taking the oath of office as successor to Governor Hammond, was to appoint this delegation to hurry to Chicago to escort the body of the stricken executive back to the state capitol.

The party was constituted of Samuel D. Works, Carlos N. Boynton, C. M. Andrist, A. H. Turrittin, J. A. O. Preus, Julius A. Schmahl, Frank E. Ford, T. J. McDermott, J. G. Armson, J. F. Farrell, A. J. Rush, Judge Ira B. Mills, J. C. Nethaway, Justice Albert Schaller, A. L. Sorter and Adjutant General Fred B. Wood.

Milton Hammond, the late governor's brother, found himself unable to make connections at St. Paul with this party and went direct from St. James, the governor's home, to Chicago.

The whole state of Minnesota is striving with poignant regret to comprehend the news which came over the wires from the little Louisiana town, where the noted governor of Minnesota met his death.

In Congress Four Times.

St. Paul, Dec. 31.—Governor Hammond's political career in Minnesota has been a most remarkable one. Four times he was elected to congress from the Second Congressional district of Minnesota, a strong Republican district. In congress he forged steadily to the front and finally took his place on the national ways and means committee. When it was proposed that he become a candidate for governor of Minnesota a year ago last spring, objection was made by Democrats, who declared it impossible to elect a Democratic governor and that to make him a candidate for governor would be but sacrificing the lone Democratic congressman in Minnesota.

Washington Deeply Grieved.

Washington, Dec. 31. — Official Washington was deeply grieved at the sudden death of Governor Hammond. Members of Congress with whom he had served, felt the loss most keenly. The expressions of regret came from both sides of the House, Republican House Leader Mann joining with Senator Underwood, former Democratic House leader and Speaker Clark. Representative Mann was especially close to Governor Hammond, notwithstanding their differences in politics.

Burnquist Ill, Assumes His Duty as Chief

Refuses to Make Statement as to Future Plans or Possible Changes at Minnesota Capitol.

St. Paul, Dec. 31.—Only a few hours after Winfield Scott Hammond, Minnesota's bachelor, Democratic governor, had been stricken by death in far away Louisiana, Joseph Alfred Arner Burnquist took the oath of office as governor of Minnesota. So fate thrust the governorship of Minnesota on Mr. Burnquist, young St. Paul lawyer, Republican supporter in a somewhat conservative manner of the doctrines of temperance and reform.

It was not a gorgeous spectacle, this inauguration of the young governor fate decreed to give Minnesota. He had been in bed in his home sick during the morning.

There were hardly more than a score in the room when Justice George Bunn called upon Mr. Burnquist to raise his right hand to receive the oath.

Becomes Minnesota Governor.

When Mr. Burnquist took that oath he became at once the fully qualified governor of Minnesota and George H. Sullivan of Stillwater, president pro tem of the state senate, became lieutenant governor.

Governor Burnquist would not make any statement as to his future plans or possible changes in his official family.

Tells of Last Minutes.

The Minnesota delegation which went to Chicago to meet the funeral train was the first to hear in detail of the governor's fatal illness. James A. Nowell, exhausted from lack of sleep and depression at his friend's passing, told them of the governor's last minutes.

"Governor Hammond had been suffering from ptomaine poisoning the night before," Mr. Nowell told them. "He had so far recovered, however, as to eat a hearty breakfast. He went into the wash room of the hotel after breakfast and there I heard him fall. I rushed to his side but he became unconscious immediately, after calling me once by name. A doctor gave him an injection within eight minutes but death was inevitable."

Andrist Is Overcome.

St. Paul, Dec. 31.—C. M. Andrist, Governor Hammond's private secretary, was almost on the verge of collapse during the afternoon and finally had to be taken to his home in Minneapolis by friends. He was the first to receive the news of the death of the executive and it was some time before he recovered from the shock. So intense was his grief that he had to be led to a couch and induced to lie down.

Development Plans Thwarted.

Minneapolis, Dec. 31.—According to A. L. Shorter of Minneapolis, chairman of the Democratic state central committee, the sudden death of Governor Hammond probably will thwart plans which he had practically completed for the greatest development propaganda for Minnesota ever attempted.

GOVERNOR J. A. A. BURNQUIST

Joseph A. A. Burnquist of St. Paul, who has been elevated to the governor's chair by the death of Governor W. S. Hammond, is an attorney, born 36 years ago in Dayton, Ohio, of Swedish parentage. He graduated at Carleton college, Northfield, Minn.; took a course at Columbia university, New York, and graduated in law at the University of Minnesota.

He was elected to the lower house of the legislature in 1908 and re-elected in 1910, being a candidate in that year for speaker. In 1912 he was nominated in the first state-wide primary election for lieutenant governor on the republican ticket, and re-elected in 1914, presiding over the state senate in the sessions of 1913 and 1915.

BILIOUS, HEADACHY, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

No Faddism.

"Do you believe in telepathy?"

"No; our doctor is a good old allopath."

CURED OF BRIGHT'S DISEASE.

Mrs. A. L. Crawford, Medfield, Mass., writes: "Dodd's Kidney Pills cured me of Bright's Disease, and I am healthy and strong to-day and have been blessed with good health ever since my cure. When the doctors pronounced my case Bright's Disease I was in such a serious condition that they could not do anything for me. I kept getting worse. My limbs from my ankles to my knees swelled and my eyes were so swollen that I couldn't see. As a last hope I thought I would give Dodd's Kidney Pills a trial. I gradually improved and kept on taking them and they cured me thoroughly."

Dodd's Kidney Pills, 50c per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y. Dodd's Dyspepsia Tablets for Indigestion have been proved. 50c per box.—Adv.

The cross was in some sense a religious symbol among the heathen before the Christian era.

Only One "BROMO QUININE"

To get the genuine, call for full name, LAXATIVE BROMO QUININE. Look for signature of E. W. GROVE. Cures a Cold in One Day. 25c.

You can easily convince a loser that it is wrong to gamble.

For frostbites use Hanford's Balsam. Adv.

Nine thousand Scotchmen went to Canada last year.

It's Foolish to Suffer

You may be brave enough to stand backache, or headache, or dizziness. But if, in addition, urination is disordered, look out! If you don't try to fix your sick kidneys, you may fall into the clutches of kidney trouble before you know it. But if you live more carefully and help your kidneys with Doan's Kidney Pills, you can stop the pains you have and avoid future danger as well.

A Minnesota Case

James H. Abbott, 402 Q St., South, Alexandria, Minn., says: "Exposure in the army weakened my kidneys. My ankles and feet swelled almost twice normal size and my back was lame and stiff. The kidney secretions passed too freely and I felt tired and worn out. Doan's Kidney Pills corrected these ailments."

TRADE REVIVAL IN WESTERN CANADA

Not a Myth but an Actuality Shown in the Returns of Agricultural Statistics and Every Department of Trade and Commerce.

The trade revival in Manitoba, Saskatchewan and Alberta is an actuality and not a myth. There is today a spirit of optimism in the air, just as two years ago there prevailed the opposite spirit of pessimism.

A general trade revival has been felt in every department of business in the Prairie Provinces. The agriculturists are in better shape than they have ever been before in their lives. No farmers of any country are in better financial condition and in a more general state of prosperity than are the farmers of Manitoba, Saskatchewan and Alberta. The farmers have harvested a record crop—a crop which enriches them to the extent of something over $400,000,000.

In the cities the prosperity of the country has been reflected. Everywhere business is on the hustle. The wholesalers and the retailers and the implement dealers find business good. The banks and other collection houses find collections satisfactory, and financial men declare that westerners are paying up their debts. In Winnipeg the bank clearings have been the largest in history, exceeding some weeks the figures of Montreal and Toronto. The grain shipments have been the biggest in the history of Winnipeg and in the history of the twin ports, Fort William and Port Arthur. The mail order houses have had a big year, the rush of fall orders exceeding all previous years and taxing the capacity of these establishments, whose most sanguine expectations have been exceeded by the actual business done.

The tide has turned in western Canada. The people of the West are forging ahead, forging ahead in actual production and in creation of wealth, giving generously to charitable and other funds, paying up their back debts, while going along carefully as regards any creation of new debts. They are economizing but not scrimping, acting cautiously but not miserly. The financial heads of eastern Canada, of the United States and of Europe are no longer criticizing western Canada: rather they are unstintedly offering their praise and their compliments. The financial press recognizes that the tide has turned in western Canada, and it has been published to the world.

The condition of western Canada at the close of 1915 is one of optimistic prosperity, backed by the same determination of western people to go on increasing their productiveness and maintaining the records which they have already established.

The trade revival of western Canada is the happiest feature in the business survey of the whole Dominion for 1915 and in the outlook for 1916.—Advertisement.

Natural Conclusion.

He—I see the West fears a horse famine.

She—Why? Haven't they automobiles out there?

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS

Says Too Much Meat Forms Uric Acid Which Clogs the Kidneys and Irritates the Bladder.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

LINER TORPEDOED WITHOUT WARNING, REPORT OF CONSUL

ROBERT N. McNEELEY, NEW AMERICAN CONSUL AT ADEN, ARABIA, IS MISSING, SAYS DISPATCH.

AUSTRIAN ENVOY ASKS U. S. TO WAIT FURTHER REPORTS

Zweidinek Indicates That Dual-Monarchy Will Be Quick to "Satisfactorily Adjust" the Matter If Austrian Commander Disobeyed Instructions.

Washington, Jan. 4.—Anxiety over the news of the sinking of the British steamship Persia increased in official circles here when a consular dispatch brought the information that the ship had been torpedoed without warning and that at least one American citizen, Robert N. McNeely, new consul at Aden, Arabia, was missing. At the same time officials were much gratified at the indication, emanating from Baron Erich Zweidinek, charge of the Austro-Hungarian embassy here that the Vienna government would be quick to "satisfactorily adjust" the matter should it develop that an Austrian submarine commander had disobeyed instructions in regard to torpedoing passenger carrying ships without warning.

United States Asked To Wait.

"Judgment should be witheld pending receipt of the real facts surrounding the sinking of the steamship Persia," said Baron Zweidinek. "It may have happened in many ways. In the first place, it is not yet proved that a submarine sank the Persia. If it was an Austrian submarine, it must be determined whether the circumstances were such as to warrant the action taken.

"I am confident, at least I hope that the final explanation will be quite satisfactory. If the commander of the submarine disobeyed his instructions, I feel sure my government will not hesitate to satisfactorily adjust the matter.

"From the answer made to the last note on the Ancona alone, it is quite evident that the Austro-Hungarian government will not countenance any act which is wrong."

Would Disavow Sinking.

Complete confidence prevails in Teutonic diplomatic circles that if an Austrian submarine sank the Persia without warning the act would be disavowed promptly, reparation made for Americans lost and the submarine commander severely punished.

It is understood that Baron Zweidinek will call upon Secretary Lansing at once for the purpose of informally conveying his views on the subject and endeavoring to gain an understanding of the views of the United States for the information of the government.

One Dispatch Received.

Only one dispatch concerning the sinking of the Persia was received by the state department. It came from Consul Garrets at Alexandria, Egypt, and indicated that Consul McNeely on his way to his post had been lost. He was last seen in the water before the steamship went down. Consul Garrets reported also that Charles H. Grant, of Boston, another American who was aboard the Persia, was among the survivors. No submarine was seen by the survivors, according to the consul's report, but an officer of the ship said he saw the wake of a torpedo. The Persia went down in five minutes. This dispatch was immediately forwarded to President Wilson at Hot Springs.

Lansing Is Silent.

While Secretary Lansing declined to comment upon the situation, confronting the United States, it became known that he and other administration officials were awaiting full information before forming an opinion and determining upon any action.

SIMON LEAVES THE CABINET

British Secretary of State for Home Affairs Retires, Is Definite Announcement.

London, Jan. 3.—The Chronicle announces definitely that Sir John A. Simon, secretary of state for home affairs, retires from the cabinet, "thus breaking his brilliant ministerial career, for conscience."

When the co-allition government was formed last May, Sir John refused the great prize of the post of lord high chancellor, made vacant by Viscount Haldane's retirement because he preferred a political career and became a home secretary.

Kaiser Calls War Council.

London, Jan. 3.—It is reported from German sources that Emperor William has summoned a great war council and a similar naval council to be held in Berlin on his birthday, January 27. The war council will be attended by the crown prince, Field Marshal von Hindenburg, Field Marshal von Mackensen, Field Marshal Limon von Sanders, Count Zeppelin, Crown Prince Rupprecht of Bavaria, the Duke of Wurttemberg and other leading generals.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your druggist or at the store. It is inexpensive and almost tasteless, except a sourish tinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.—Adv.

Even the worm will turn—perhaps into a butterfly.

Pneumonia? Apply Hanford's Balsam. Rub it on and rub it in thoroughly, until the skin is irritated. Adv.

Inevitable.

"I saw stars in that railroad collision."

Harry—And he won't do it, eh?

Grace—No; says he'd be lonesome away from his work. He's a chiropodist, you know.

Harry—A chiropodist? Why don't you suggest his spending a few days at the foot of a mountain?

Harm Done by Hertzian Waves.

Ever since the extensive commercial employment of wireless telegraph, there have been many who believe that the powerful Hertzian waves seriously affect organic life. In fact, some have even suggested that laws or regulations should be enacted to protect organic life against wireless waves. With a view to determining the extent and nature of the radio waves' influence on organic life and climate, Dr. C. Abel-Musgrave recently asked several questions on the subject to be answered by a number of prominent German scientists. The summary of their answers was that wireless waves have no influence on organic life, nor do they alter climatic conditions, although it is true that certain electrical stresses are capable of accelerating rainfalls.

LACK OF MONEY

Was a Godsend in This Case.

It is not always that a lack of money is a benefit.

A lady in Ark. owes her health to the fact that she could not pay in advance the fee demanded by a specialist to treat her for stomach trouble. In telling of her case she says:

"I had been treated by four different physicians during 10 years of stomach trouble. Lately I called on another who told me he could not cure me; that I had neuralgia of the stomach. Then I went to a specialist who told me I had catarrh of the stomach and said he could cure me in four months, but would have to have his money down. I could not raise the necessary sum and in my extremity I was led to quit coffee and try Postum.

"The results have been magical. I now sleep well at night, something I had not done for a long time; the pain in my stomach is gone and I am a different woman.

"Every time I had tried to stop coffee I suffered from severe headaches, so I continued to drink it, although I had reason to believe it was injurious to me. But when I had Postum to shift to it was different.

"To my surprise I did not miss coffee when I began to drink Postum.

"Coffee had been steadily and surely killing me and I didn't fully realize what was doing it until I quit and changed to Postum." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

State News

Important Doings of Past Few Days Throughout Minnesota. Edited & Arranged for Our Readers.

Moorhead. — The Trinity Lutheran church, which cost $40,000, has been formally opened for services.

Brainerd. — Falling into a dishpan of hot water, Clyde Gilmer, the infant son of Mr. and Mrs. John Gilmer, was scalded and died 18 hours later.

Fergus Falls. — Martin Engen, 34 years old, who lived near Garfield, was frozen to death Sunday night. His body was found near his home. He had been drinking.

Red Wing. — Surrounded by children, great-grandchildren and neighbors, Mr. and Mrs. A. B. Johnson of Welch celebrated their golden wedding day at their home.

Albert Lea. — Curtis B. Kellar, 70 years old, president of the First National bank of this city, died here after a short illness of arterial sclerosis. He had been connected with the bank since 1867.

Brainerd. — Fire at 11 p. m. destroyed the Barclay hotel and the general store of R. E. Snell at Pine River. The Snell store loss is estimated at $10,000. The hotel was a two-story structure lately remodeled.

Winona. — Mrs. Walter Sprecher, 30 years old, wife of the cashier of the State Bank of Independence, Wis., was killed when an automobile in which she was riding alone plunged from a bridge. Death was instantaneous.

Minneapolis. — Building operations in Minneapolis during the past eleven months of 1915 exceeded in volume those of St. Paul and Seattle combined, those of Baltimore, Indianapolis and New Orleans combined, or those of Newark, Portland and Denver combined, according to a statement by James G. Houghton, inspector of buildings.

Albert Lea. — As the result of a double explosion of gasoline, Mr. and Mrs. Harry Howe were mortally burned at their farm home near Alden. Bert Howe, a brother, suffered serious burns from attempting to rescue them. When Harry Howe started to move a five-gallon can of gasoline from its position near the stove the contents exploded.

Tracy. — One thousand acres of rich corn land will be drained and 2,000 acres benefited by a large tile ditch to be dug in the spring, which will drain Lake Sigel, one mile south of Tracy, Telephone slough and much other wet land in the same vicinity. This will be a great benefit to Tracy, since the land has been non-productive, although it has rich black soil.

Worthington.—The Minnesota Crop Improvement Association will hold its annual meeting and seed show at Worthington, Minnesota, February 15-18. F. C. Tripp, instructor in agriculture at the Worthington High School, has arranged with the Extension Division of the Minnesota College of Agriculture for a series of stock-judging demonstrations for the forenoons of each day.

Breckenridge. — The Wilkin County Farm bureau is entering upon a campaign for more and better work this year. This campaign will include a membership contest, as a preliminary step to a movement for a more productive soil, for better paying crops, for more livestock and increased profits from livestock and for better rural organization.

St. Paul. — This city has just closed one of the best building years in its history. In the number of permits for buildings issued the twelve months drawing to a close surpass any previous year, and while the value of the buildings erected is below that of the past year, in the number and class of small and medium-priced structures built 1915 outstrips any other.

St. Paul.—Oscar Larson, a 12-year old boy of Viking, Marshall county, won the potato-growing contest of the Northern Minnesota Development Association, and made a record for potato-growing by boys at the same time. He grew 75⅔ bushels of potatoes upon ⅛ of an acre. Had he grown an acre of potatoes at the same rate, his yield would have been 605⅓ bushels. The potatoes grown were of the Green Mountain variety.

Red Wing. — Picture a solid square business block filled to a depth of 12 feet with carp and other rough fish and you get an idea of the immense haul made by David Gantenbein of Diamond Bluff in a single sweep of Lake Elysian with a seine 1,500 feet in length. Mr. Gantenbein estimated that fully fifty carloads of fish were caught in the net, but as there is no market for that quantity of fish at this time, all but a few carloads of carp were released in the lake.

Minneapolis, Dec. 31.—George H. Partridge refuted the charges of the St. Paul Equity Co-operative Exchange that the grain and milling interests of Minneapolis are unfair to the wheat farmers of the Northwest, at the "traveling men's" dinner under direction of the Civic & Commerce association in the rotunda of the West hotel. Important results in expanded business of Minneapolis wholesalers and manufacturers is expected to follow.

Winona. — The epidemic of grip which has swept this section of Southern Minnesota, caused the death of two nonagenarian pioneers in Winona

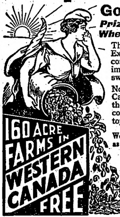
Bumper Grain Crops



Good Markets—High Prices

Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. **There is no war tax on land and no conscription.**

Send for illustrated pamphlet and ask for reduced railway rates, information as to best locations, etc. Address Superintendent Immigration, Ottawa, Canada, or

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

Missouri's law code is to be revised by a commission of 15 persons.

ANURIC!

The Newest Discovery in Chemistry

This is a recent discovery of Dr. Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric" manufactured by Dr. Pierce, or even write Dr. Pierce for a large trial package (10c). If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Dr. Pierce's chemist will examine it, then Dr. Pierce will report to you without fee or charge.

NOTE.—"Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Dr. Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 1905, at the post office at Sunbeam Minn, under the Act of Congress of March 3, 1879

Complaints Of Mail Service

The Crookston Times of December 28th, has an editorial regarding the complaints of people about mail service, which they conclude as follows:

"The patrons should keep in mind the enormous cost of the service and be careful not to ask too much. It is, of course, desirable for business reasons that a farmer should get his mail in season to answer important letters the same day. But in most cases this is not vital. Even if the lonely farm house does not get its newspapers and mail until the evening lamp is lighted, the government is still rendering it a wonderful and incomparable service."

Until the evening lamp is lighted, would be time enough, for the farmers to get their mail. But, Mr. Times, what do you think of a fourth assistant post master general, who sits in Washington, and issues an order for a tri-weekly mail carrier to drive the wrong way on a loop mail route, and compel sixty three farmers to let their mail lay at a post office five or six miles from them, from Tuesday until Thursday, and from Thursday until Saturday, and from Saturday until Tuesday! when it would not be a dollars expense extra to the government to drive the way the route was petitioned for and deliver the farmers' mail to them at least three times a week? Yet, that is the kind of mail service that the people of this locality have got, because it was recommended to be put in that way by a Democratic politician post master. We are glad to hear of complaints from other localities, as it is a pretty sure indication that the people will vote to clean up that post office department at the first opportunity that they have.

No true Republican can afford to start any mud slinging campaign against any honorable man who seeks the nomination for any office within the gift of the people. The defeat of the party in the last national campaign, and in the last state campaign was brought about by factional fights within the party, and wise Republicans will profit by the experience of the past.

The sudden death of Governor Hammond, last week, was a shock to the people, and a big loss to the Democratic party in this state. It changes the governor's office from a Democratic to a Republican administration, but Governor Burnquist will undoubtedly carry out the policies of Governor Hammond during the term for which he was elected.

The last democratic convention to be held at St. Louis renominated Grover Cleveland—who was defeated at the ensuing election. The next convention at the same place will renominate Woodrow Wilson.—Bemidji Sentinel.

Yes, and he will not only be defeated, but "skunked."

Albert B. Cummins, Republican candidate for the nomination for president, is entitled to receive the Minnesota support, as an act of courtesy to our neighbor state of Iowa, and we believe that I. A. Casswell will successfully carry the state for him.

Several men returning from the pineries east of here report that there is a surplus of laboring men for the lumbering camps and that wages are very low. Times are rather poor for the laboring class at present, owing to the large number of factories that have been closed in the eastern states, and if it had not been for the European war, wages would be even lower than they are now. The war has furnished employment for a large number of men making ammunition, and raised the price of farm produce, so the farmers are able to employ some of the surplus idle laborers. But should the war suddenly close, and the present party be returned to power, the country would have a greater boom in the free soup house line, and tramping laboring men than they had during the administration of Grover Cleveland. However we do not anticipate that there is any danger of the present party being kept in power any longer than the people get a chance to vote them out of power, as their management of the postal mail routes is enough to put them out of power, without any further argument.

The post office department have asked for an increase of 44 per cent in the salaries of the four heads of the departments. Judging from the arrangements of mail routes in this locality that 4th assistant P. M. General had ought to have something done for his head.

FOR RHEUMATISM

As soon as an attack of Rheumatism begins apply Sloan's Liniment. Don't waste time and suffer unnecessary agony. A few drops of Sloan's Liniment on the affected parts is all you need. The pain goes at once.

A grateful sufferer writes:—"I was suffering for three weeks with Chronic Rheumatism and Stiff Neck, although I tried many medicines, they failed. Fortunately I heard of Sloan's Liniment and after using it three or four days am up and well. I am employed at the biggest department store in S. F. where they employ from six to eight hundred hands, and they surely will hear all about Sloan's Liniment.—H. B. Smith, San Francisco, Cal.—Jan. 1915. 25c. at all Druggists. —Adv.

HOW TO CURE COLDS

Avoid exposure and drafts. Eat right. Take Dr. King's New Discovery. It is prepared from Pine Tar, healing balsams and mild laxatives. Dr. King's New Discovery kills and expels the cold germs, soothes the irritated throat and allays inflammation. Search as you will, you cannot find a better cough and cold remedy. Its use over 45 years is a guarantee of satisfaction.—adv.

MANY PEOPLE DON'T KNOW

To Increase His Height

Percy—They say a person is nearly half an inch taller after a good night's sleep.

Dolly—Really? Then why don't you consult a hypnotist?

Percy (in surprise)—What for?

Dolly—Why, he might be able to put you to sleep for a couple of weeks or so.—Boston Journal.

The King Is Dead, Long Live the King

A biographer of Louis XIV. of France says his death was announced by the captain of the bodyguard from a window of the state apartment and that, "raising his staff of office above his head, he broke it in the center and, throwing the pieces among the crowd, exclaimed in a loud voice, 'Le roi est mort!' ('The king is dead!') Then seizing another staff he flourished it in the air, shouting, 'Vive le roi!' ('Long live the king!')". The phrase was used in announcing the death of other French kings and for the last time at the death of Louis XVIII. It is often quoted to signify the quickness with which official authority and popular admiration are transferred from a dead ruler to a living one.

The Judge's Hint.

A young Irish barrister began his speech to the court in these terms: "The eagle soaring high above the mists of the earth, winning its daring flight against a midday sun, until the contemplation becomes too dazzling for humanity, and mortal eyes gaze after it in vain." Here the orator was noticed to falter and lose the thread of his speech. He sat down after some vain attempts to regain it. The judge then said, "The next time, sir, you bring an eagle into court I should recommend you to clip its wings." No doubt the hint was taken.—Westminster Gazette.

Life In New York.

In commenting on the "spenders" of the Great White Way a writer in the American Magazine asks if the improvident habits of the average metropolitan are due to a shorter life.

"The grocer on the corner told my wife that he didn't try to save anything because 'we all die before we are sixty, anyway. * * * What's the use?' he said. 'You never see many old people around. I won't live to be old, and neither will you.'

"That last statement stuck in my mind. It is a fact that in the streets of New York you see few people past sixty. The actual dangers connected with street traffic must keep the old indoors to a certain extent, or else it drives them away to the little towns. Anyway, I am sure you see a smaller proportion of old people in great cities than you see in small towns.

"Does this fact influence a good many, like the grocer, to spend all and to save nothing because of an unconsciously formed opinion that almost everybody works along and dies in the harness before sixty? Is this one reason why city people are more improvident and extravagant than country people?"

Weeds.

The earlier you get the upper hand of the weeds the more you lessen their later power for mischief. This is true of other soil besides that of the garden.—Youth's Companion.

THE SUNBEAM

MINNESOTA HISTORICAL SOCIETY.

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JANUARY 14, 1916 NO. 44

THE LOCAL NEWS

Dr. Tessier of Oklee, has made several trips out into Deer Park township to treat measles.

To-day is a bright sunshiny day, which makes us forget the extreme cold weather of the past few days.

Lars Hyland and Carl Narveson sawed up our years supply of fire wood with their gasoline saw rig Tuesday and Wednesday.

If you can spare the time, and slight expense it will pay you to visit the mid-winter fair, at Thief River Falls, next week.

Lenard McAndress drove down to St. Hilaire Wednesday afternoon to visit relatives. He certainly had a cold ride.

According to newspaper reports the cold wave of this week reached far enough south to give Iowa a touch of genuine Minnesota winter weather.

J. A. Duffy, president of the Merchants Bank, of Red Lake Fall, will make a business trip to San Antonia, Texas, and will be absent for the next four weeks.

Carl Narveson and Abel Bost slightly frosted their cheeks on Wednesday afternoon, while sawing wood with a gasoline saw rig, at Sunbeam postoffice.

This has been an extremely cold week, Wednesday being the coldest day, with a strong north west wind to blow 38 degrees of zero weather into your face.

This locality is suffering from an epidemic of measles. The children of Ole Overvold and C. L. Clark are now having them. One of Mr. Overvold's children caught cold, and is in a serious condition. Children who have had the measles, should not be allowed to mingle with those who have not had them, for some time after their recovery, as the disease is very contagious.

The Thief River Falls News-Press takes exceptions to a little peevishness of the Cass Lake Times. It is no wonder that occasionally an editor gets cross over the tremendous amount of gratis matter that floats into a printing office, that is always to be published free to boom the other fellow, while the fellows who pay the expenses of setting the type look over their past due bills, and dun their delinquent subscribers.

The Annual meeting of the Bray Mutual Fire Insurance Co., was held at St. Hilaire, Minn. on the 3rd day of January 1916.

The following officers were elected:

Nels K. Anderson president, John O. Swanson secretary, N. A. Nelson treasurer. Ed. Aubol, Ferdinand Goether and A. Aug. Erickson were elected directors. The following were elected as agents: Emil Larson, Bray, P. A. Hallstrom, Polk Centre & Wylie. Alfred Dahlstrom, Black River, Brown's Creek & Sanders. Aug. Erickson River Falls, River and Gervais. Anton Peterson, Wyandotte, Smiley and Mayfield. A. A. Rolandson, Deer Park and Hickory. Nels P. Johnson Garnes and Equality. A. J. Hemstad Emardville. Mathias Skala Red Lake Falls and Louisville. Peter Engelstad, Rocksbury, P. O. Sorlom, Silverton. E. J. Olsen, Goodridge and River. Peter C. Wold, Star, Kratka, Higlandine and Clover Leaf. Olof Larson, Numedal. C. E. Aas, nurden. John S. Smith, North.

The date of holding the annual meeting after this was changed to the 2nd Monday in January.

John O. Swanson, Secretary

Let Them Feed.

The St. Cloud Journal-Press charges base ingratitude on the part of the Democratic bosses in turning down Harvey Grimer for United States Marshall. Does look like a raw deal, and it is possible that the party will not profit greatly thereby. But what's the dif, the Dems are all through anyway, and the distribution of a few plums here and there won't cut any figure one way or the other.—T. R. Falls News-Press.

Sure they are through, their management of the mail service is enough to put any party out of power, without any other assistance, and they might as well let their friends feed at the public crib, while their time lasts.

County Printing Let.

The county printing has been let to the St. Hilaire Spectator, for this year, and the Thief River Falls Times is trying to prove that the Spectator is not a legal publication. We have always been opposed to the letting of the county printing as it is done in this county, instead of having the financial statement and the delinquent tax list published in all of the papers, as is done in other counties. But if the printing is to be done and circulated by only one paper in the county the economical commissioners might as well play the game to the limit, and get the work done by one paper, that will do it the cheapest. There is not, nor can there be any question of doubt about the legality of the St. Hilaire Spectator, and any attempt to prove it otherwise, will meet with dismal failure.

Mid-Winter Fair.

The Commercial Club of Thief River Falls are taking every effort to make their farm crops show a success on next Wednesday and Thursday, as there will be no prizes given for any farm produce grown outside of Pennington county, it is up to the farmers of their home county to take hold and help them. Liberal prizes will be given for all exhibits of farm produce.

The list is as follows:

Products—Prizes:

Best peck of potatoes, any variety, 1st and 2nd.

Best dozen onions, any variety, 1st and 2nd.

Best dozent turnips, any variety, 1st and 2nd.

Best squash, any variety, 1st and 2nd.

Best pound (or more) dairy butter, 1st and 2nd.

Best pound comb honey, 1st and 2nd.

Best sample can Pennington County grown canned fruit, or vegetables, 1st and 2nd on each variety.

Best sample oats, any variety, (seed), 1st and 2nd.

Best sample barley, any variety, (seed), 1st and 2nd.

Best sample red clover seed, any variety, 1st and 2nd.

Best sample Alsike clover seed any variety, 1st and 2nd.

Best sample timothy seed, any variety, 1st and 2nd.

Best sample alfalfa seed, any variety, 1st and 2nd.

Best sample Marquis wheat, (seed) 1st and 2nd.

Best sample Macaroni wheat, (seed), 1st and 2nd.

Best sample Blue stem wheat, (seed) 1st and 2nd.

Note—Only residents of Pennington County may enter products, and all entries must be grown in Pennington County.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, it's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the deposits money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

Dr. King's New Life Pills

All Druggists 25 cents
SATISFACTION OR MONEY BACK

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

FOR SALE: a farm near Red Lake River, for about half value. Inquire at this office.

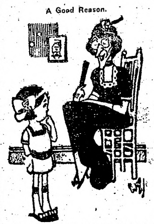
A Good Reason.



Miss Oldgirl—So you are five and a half, are you, Ethel? How old do you think I am?

Ethel—Sixteen!

Miss Oldgirl—Oh, you quite flatter me—

Ethel—I can't count any further than that—Philadelphia Evening Ledger.

Twelfth Century Football.

In the twelfth century football was a game for the streets. The chronicler of that period tells how after dinner the city youths "addressed themselves to football" and how the scholars of each school and the apprentices of particular trades would each have their peculiar ball. There were spectators, too, in those days, enthusiastic spectators. Fathers would come to watch their sons and "become as youthful as the youngest, their natural heat seeming to be revived at the sight of so much ability."

In later years there was a famous ball game played in Hyde park. In 1854, then, "there was a hurling of a great ball by fifty Cornish gentlemen on one side and fifty on the other; one party played in red caps, the other in white". And—here the historical value of the contest—Cromwell was a spectator and applauded the "great ability of body" displayed.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of drinking phosphated hot water each morning, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate from any druggist or at the store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

Business Man.

Despite his illiteracy, Mose Belt, a leading citizen of an Alabama town, has gathered quite a competency from his whitewashing and calcimining trade

Recently, during the course of some business with a notary, the latter produced a document, saying:

"Sign your name here, Mose."

"Look heah," said Mose, with offended dignity, "I doesn't sign mah name, suh. I'se a business man, an' has no time for dem trifling details. I always dictates mah name, suh."

STOP EATING MEAT IF KIDNEYS OR BACK HURT

Take a Glass of Salts to Clean Kidneys If Bladder Bothers You—Meat Forms Uric Acid.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and uninary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

Belgium's Lost Children.

There are so many little children alone in this big world! One day a young Belgian official called my attention to his white hair. "That turned in a month," he said, "because I could not find the parents of frightened children, nor the children of agonized parents."—Mabel Hyde Kittredge in the New Republic.

NEW TREATMENT FOR SWOLLEN VEINS

Swollen veins are dangerous and often burst. Sufferers are advised to get a two-ounce, original bottle of Emerald Oil (full strength) at any pharmacist and start to reduce the veins and bunches at once.

Physicians recommend Emerald Oil; it is used in hospital practice and a small bottle will last a long time, because it is very concentrated. Apply night and morning with the soft brush as directed until the swelling is reduced to normal.

It is so marvelously powerful that swollen glands, and even goitre disappear when used steadily.

Indulgent mothers are those who permit their children to annoy others.

The Quinine That Does Not Affect Head

Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary quinine and can be taken by anyone. 25c

The success of a nurse girl depends on her attention to little things.

GALLIPOLI NOW IS CLEAR OF ALLIES; TURKS TAKE CAMP

BRITISH AND FRENCH, AS RESULT OF VIOLENT BATTLE EVACUATE SEDDUL BAHR, SAYS DISPATCH.

CONSTANTINOPLE REPORTS ENEMY VESSEL DESTROYED

All Positions Held by Entente Troops on Peninsula Abandoned With Wounding of Only One Man, According to British Official Statement.

Amsterdam, via London, Jan. 11.—The British and French, as a result of a violent battle have completely evacuated Seddul Bahr, with great losses, says a dispatch from Constantinople, and that Gallipoli peninsula "is now clear of the enemy."

London, Jan. 11.—A semi-official report from Constantinople, according to an Amsterdam dispatch to Reuter's Telegram company claims "the capture by the Turks of a great enemy camp and nine guns and the sinking of an enemy vessel with troops near Seddul Bahr."

London, Jan. 11.—All the positions held by the Allies on the Gallipoli peninsula have been abandoned with the wounding of only one man among the British and French, according to a British official statement.

This news has been expected for several days by the keen observers of the near Eastern campaign, for the retirement of the troops from Anzac and Suvla Bay three weeks ago, left no strategic advantage to the retention of the tip of the peninsula.

Final Act of Tragedy.

Nevertheless the news will be received with a pang of regret by the people of the British Isles as well as the colonies.

Renewed activity of various kinds noted by the Turkish official communications in the past few days has presumably been in the nature of preparations for the final act of the Dardanelles tragedy. The Turkish official statement covering the period from Thursday to Saturday records increasing effectiveness of the reinforcements sent and of the Turkish batteries which have been drawing in and concentrating on the Allies' remaining positions.

With the withdrawal of the British and French forces from the southern tip of the Gallipoli peninsula after the evacuation of the Anzac cove and Suvla bay positions on the western coast in the middle of December, there has come to an end a movement that was begun with expectations of achievements which would have a great bearing upon the outcome of the war.

Thousands Lost Lives.

Thousands upon thousands of men lost their lives in the effecting of landings on the Turkish coast and in the fighting that has been in progress since.

In addition a number of battleships and smaller war craft of the Allies have been sunk or damaged as they poured a rain of shell against the Turkish fortifications in an endeavor to aid their own forces on shore.

The chief military purpose of the Dardanelles campaign which was begun in February, 1915, with the bombardment of Turkish forts at the entrance to the straits by Allied warships, was the capture of Constantinople and the opening of the Bosphorus which connects the Mediterranean with the Black Sea so that Russia might have an avenue for the receipt of arms and ammunition and also for the exportation of Russian grain. For England, success meant the prevention of another Turkish invasion of Egypt, and the permanent safety of the Suez canal and English communications with India.

PLOT TO KILL HAITI CHIEF

Black Party Prepared to Assassinate President D'Artiquenavo, Admiral Caperton Reports.

Washington, Jan. 11. — A well-organized plot by the Haitien black party to assassinate President D'Artiguenavo and set up a new government under either Paulin or Bourand, former senators, was behind the revolutionary outbreak at Port-Au-Prince last Wednesday, Rear Admiral Caperton reported in a radio message to the navy department.

Previous advices said that the marines at Port-Au-Prince were attacked, and that in the fighting they followed Corporal Weder was seriously wounded, one Haitien was killed and another wounded.

Russians Advance on Kovel.

London, Jan. 10.—Fierce fighting on a 20-mile front along the bend of the river Styr was reported in dispatches from both Petrograd and Vienna. The Russians are assailing the Austrian lines 50 miles east of the important railway town of Kovel, objective of the offensive in Volhynia. Petrograd reported that after capturing the town of Czartorysk, the Slavs pressed on and captured a range of hills west of town. They are now assailing the main heights barring the advance on Kovel.

THIRTEEN KILLED IN EXPLOSION AT DUPONT COMPANY

SEVEN SERIOUSLY BURNED AT THE BOCHER PLANT—STEAMER BLOWN PARTLY OUT OF WATER.

OUTSIDE INFLUENCES ARE SUSPECTED; TWO ARRESTED

Force of Blast Is So Great That It Is Heard in Philadelphia, Twenty-five Miles Distant—Wire Communication at Carney's Point Is Cut Off.

Philadelphia, Jan. 11. — Thirteen persons at least are reported to have been killed and seven seriously burned in an explosion at the Bocher plant of the Dupont Powder company at Carney's Point.

The steamer Long Beach, which was just leaving its docks was blown partly out of the water. None of the passengers were hurt according to reports here.

Blast Heard 25 Miles Away.

The force of the explosion was so great that it was heard in this city, 25 miles distant.

Later reports said that the blast was caused by outside influences and that two men had been arrested.

All wire communication to Carney's Point was cut off by the explosion.

The explosion occurred in the Boscher plant mill where the finest grades of smokeless powder are prepared for shipment. It came shortly after the force of workers had changed at midnight.

COMPULSION BILL INDORSED

House of Commons Passes First Reading of Measure—Labor Members Quit Cabinet.

London, Jan. 8. — Amid scenes of wild enthusiasm the House of Commons passed the first reading of the government bill for compulsory military service by the decisive vote of 403 to 105. The vote came shortly before midnight, with the House packed.

General Election in Sight?

The question on every tongue at the political rendezvous clubs was whether the momentous events of the day had brought a general election in sight. An appeal to the country and a break-up of both the coalition government and the Labor party are contingencies of the near future, and while the government has secured what in ordinary circumstances would be regarded as a satisfactory majority, 298 for its bill, the defection of a large section of the Labor party, with the loss of four members of the cabinet admittedly places the government in a critical position and many doubts are expressed that it will succeed in weathering the storm.

MAY NEVER PROTEST SINKING

United States Still Lacks Evidence That Austrian Submarine Sank British Liner "Persia."

Washington, Jan. 8. — The United States may never protest the sinking of the British liner Persia.

Only on a startlingly frank opinion by Austria that a submarine flying her flag deliberately torpedoed the Persia without warning, two high state department officials declared, could an American protest be made.

Such an admission, unless accompanied by unquestionable evidence that a submarine attack was justified, would mean a virtual renunciation of the last Austrian note on the Ancona sinking, in which Austria conceded every American demand.

WHITLOCK REACHES HAGUE

American Minister to Belgium Visits Dr. Van Dyke on Way to Post at Brussels.

The Hague, Jan. 10.—The steamer Rotterdam arrived at Rotterdam after a tempestuous voyage from New York. Brand Whitlock, the American minister to Belgium, who was a passenger, left immediately for The Hague where he visited with Dr. Henry Van Dyke, the American minister. He will leave for his post shortly, taking a train as far as the Belgo-Dutch frontier, where an automobile in which he will travel for the remainder of the journey to Brussels, awaits him. German permission for the journey through Belgium already has been obtained.

Lord Burnham Passes.

London, Jan. 10.—Lord Burnham is dead, after an illness of more than a month.

He was the proprietor of the Daily Telegram and was the last of the old school of London newspaper owners. Through his working years, from young manhood to an older age than most men remain in harness, he controlled the business affairs and the editorial policies of that paper. He made it one of the greatest properties among newspapers, as well as a great paper from a news standpoint.

WESTERN CANADA'S GREAT HARVEST

Decidedly Encouraging From Every Standpoint.

Speaking of conditions generally in Canada, the most encouraging feature of the year, from a trade and financial standpoint, has been the bountiful harvest of the Northwest, where a greatly increased area under cultivation has given the highest average yield in the history of the country. It is estimated that the grain crop of Manitoba, Saskatchewan and Alberta has a market value to the producers of approximately four hundred million dollars, in the use of which we may anticipate not only the liquidation of much indebtedness, but the stimulation of current trade.

The annual reports of the various banks throughout Canada are now being published. They savor of optimism all the way through, and, contrary to what might be generally expected in war times, business is good everywhere.

The General Manager of the Bank of Montreal at the recent annual meeting said: "The position of Canada is a highly favored one, with an assured future of growth, development and general prosperity."

In the same report it is said that the Canadian West "has recovered to a marked extent from the economic dislocation of a year ago."

The season's wheat and other cereal crops have exceeded all previous records in quantity and quality, and; despite the enormous yield, prices have been uncommonly well maintained.

It would be difficult to exaggerate the importance of these results to the Prairie Provinces—and the Dominion at large.

The prosperity of those engaged in mixed farming and ranching is most encouraging.

The flour mills in Manitoba, Saskatchewan and Alberta are busy and are doing well. Their combined daily capacity is about 27,000 barrels.

The large advances of the Dominion Government to farmers in certain districts, principally in the form of seed, were made very opportunely and have been amply justified by the very large crop yield in those districts.

Business in many important lines is good and should continue to improve as returns from grain yet to be marketed are received.

The general business outlook has been transformed by the large crop.

The returns of the gross earnings of Canadian railroads for November show those of the Canadian Pacific increased $1,796,000 or 78 per cent for the last nine days of the month. Compared with same month year ago, increase no less than $5,291,000 or 67.6 per cent against a 45 per cent gain in October, and a decrease of 4½ per cent in September.

H. V. Meredith, of the Bank of Montreal, in a recent address delivered at Montreal, declared that the most encouraging feature from a trade and finance standpoint had been the bountiful harvest of the Northwest, where the greatly increased area under cultivation had given the highest average in history of the country. He estimated the grain crop of the three provinces at a value of over $400,000,000, and said that such remarkable results would have the effect of attracting the tide of immigration to our shores, when the world is again at peace. The restoration of a favorable balance in our foreign trade is a factor of supreme importance at the present time.

It is the general opinion in the East that the 1915 grain crop in the Prairie Provinces not only put the whole Dominion in a sounder trade and financial standing, but that it will also result in a big increase in immigration to the West of agricultural settlers, who will include capitalized farmers from Europe and the United States as well as homesteaders.—Advertisement.

FARM MACHINERY WASTE

More machinery rusts out than wears out. More machinery is thrown away on account of a few parts giving out than because of the wearing out of the entire machine.

Who pays the bill?

Who keeps the many large machinery concerns in business?

The farmer.

When other lines of business are slack or dead, there is practically no decrease in the manufacture of farm machinery, because the farmer is a steady buyer and always in the field for another machine or for some new type of farm machine.

How waste may be stopped:

1. By more careful selection.
2. By buying from reliable dealers and manufacturers.
3. By keeping machinery in repair.
4. By sheltering machinery when not in use.—F. M. White, University of Wisconsin Bankers' Bulletin.

CONTROLLING FLOW OF MILK

Cow Is Necessarily Delicate Piece of Mechanism—Nervous System Must Be Developed Highly.

There are many conditions that may affect the flow of milk from the dairy cow. Part of these may be controlled by man and part cannot. It should always be borne in mind that an animal capable of consuming large quantities of grass or rough feed and turning it out in the form of milk must necessarily be a delicate piece of mechanism. The nervous system must therefore be developed very highly.

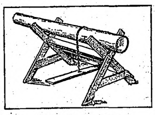
Milk secretion is involuntary, but may be affected indirectly by several factors. Incomplete and irregular milking and long periods between milking, even the presence of a stranger or a dog is sufficient to affect the milk flow of many cows. Such practices as sending the dog after the cows at milking time should never be encouraged, as it is a regular source of excitement and irritation.

WOOD HOLDER FOR SAWBUCK

Log Held Tightly by Means of Chain Attached to Lever—Comfortable Position for Sawyer.

Sawing wood on a buck is a very fatiguing job because the leg, in holding the log in the crotch of the buck, is in a very unnatural position. With an improvement on the ordinary sawbuck, as shown in the illustration from Popular Mechanics, the foot is placed almost on a level with the ground in a position as if standing in front of the buck, not only making a natural and comfortable position, but also causing the log to be held much more firmly and without effort.

A piece of hard wood is nailed firmly on the two back legs of the buck near the bottom, a heavy eyebolt is screwed into it in the center and a chain attached. The chain should be long enough to reach over the largest log and down to the ground in front of the buck. A lever is hinged to the hardwood crosspiece near the center and extends to the front side of the buck. A hook is fastened in the front end of the lever in which to hook the links of the chain.



Holder for Sawbuck.

A log is placed in the crotch of the buck in the usual manner and the chain is brought over the log and a link placed in the hook of the lever while the latter is raised several inches from the ground. The lever is then pressed down by the foot and the sawing started.

GANG PLOW IN GREAT FAVOR

Large Number of Implements Have Been Introduced in Recent Years —All Give Satisfaction.

No farming implement of the larger capacity is more favorably regarded than the gang plow. It is a satisfaction to note that in recent years a large number of these plows have been introduced and all are giving excellent satisfaction.

The usual types carry either 12-inch or 14-inch bottoms. The plows do good work and can be set to run as deep as may be desired.

In the absence of a tractor four horses are hitched on to a single gang, but if the ground is hard five are better, using the strung-out hitch and having three in the rear and two in front. The latter hitch is entirely practicable and with two lead horses in the furrow it is possible to do accurate plowing.

Gauge of Milk Production.

Food is the only material from which a cow can make milk, therefore, the right kind of food and as much of it as the cow will properly use, will be the gauge of milk production.

DO YOU GET UP WITH A LAME BACK?

Have You Rheumatism, Kidney, Liver or Bladder Trouble?

Pain or dull ache in the back is often evidence of kidney trouble. It is Nature's timely warning to show you that the track of health is not clear.

Danger Signals.

If these danger signals are unheeded more serious *results* may be expected; kidney trouble in its worst form may steal upon you.

Thousands of people have testified that the mild and immediate effect of Swamp-Root, the great kidney, liver and bladder remedy is soon realized—that it stands the highest for its remarkable curative effect, in the most distressing cases. If you need a medicine, you should have the best.

Lame Back.

Lame back is only one of many symptoms of kidney trouble. Other symptoms showing that you may need Swamp-Root are, being subject to embarrassing and frequent bladder troubles day and night, irritation, sediment, etc.

Lack of control, smarting, uric acid, dizziness, indigestion, sleeplessness, nervousness, sometimes the heart acts badly, rheumatism, bloating, lack of ambition, may be loss of flesh, sallow complexion.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are among the most common diseases that prevail, they are sometimes the last recognized by patients, *who very often content themselves with doctoring the effects, while the original disease* may constantly undermine the system.

Regular fifty-cent and one-dollar size bottles at all drug stores.

Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., which you will find on every bottle.

SPECIAL NOTE—You may obtain a sample size bottle of Swamp-Root by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y. This gives you the opportunity to prove the remarkable merit of this medicine. They will also send you a book of valuable information, containing many of the thousands of grateful letters received from men and women who say they found Swamp-Root to be just the remedy needed in kidney, liver and bladder troubles. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample size bottle. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention this paper.

Emperor Francis Joseph of Austria has an opal weighing 17 ounces, which is valued at $150,000.

"CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience; and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Promissory notes are in reality nothing but paper waits.

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

Perseverance Rewarded.

A prominent writer, who likes a drop of two with his meals, goes occasionally to a cafe on Broadway for luncheon. He makes a point of sitting at the same table whenever possible, so that he has become fairly well acquainted with the waiter in charge of that table. This particular cafe is one of the few in New York where the waiters are colored men.

The other day he slipped into his favorite place and reached for the menu. In an instant the waiter, whose name is Gabe, was hovering over him.

"I s'pose you wants a little Scotch and worter to start off wid?" said Gabe, remembering mighty well his patron's habit.

"No, Gabe," said the patron; "no Scotch today. I've finally found the kind of liquor that suits me."

"Well, suh," said Gabe in tones of honest admiration, "you suttingly kep' on twell you found it, didn't you?"—Saturday Evening Post.

Not His Fault.

"How long did you work in your last place?"

"Three months."

"Only three months! Then you were not able to hold down your job?"

"No, sir."

"I thought as much."

"I was working in a powder mill. Several tons of powder exploded under my job."

PUZZLED

Hard, Sometimes, to Raise Children.

Children's taste is ofttimes more accurate, in selecting the right kind of food to fit the body, than that of adults. Nature works more accurately through the children.

A Brooklyn lady says: "Our little boy had long been troubled with weak digestion. We could never persuade him to take more than one taste of any kind of cereal food. He was a weak little chap and we were puzzled to know what to feed him on.

"One lucky day we tried Grape-Nuts. Well, you never saw a child eat with such a relish, and it did me good to see him. From that day on it seemed as though we could almost see him grow. He would eat Grape-Nuts for breakfast and supper, and I think he would have liked the food for dinner.

"The difference in his appearance is something wonderful.

"My husband had never fancied cereal foods of any kind, but he became very fond of Grape-Nuts and has been much improved in health since using it.

"We are now a healthy family and naturally believe in Grape-Nuts.

"A friend has two children who were formerly afflicted with rickets. I was satisfied that the disease was caused by lack of proper nourishment. The children showed it. So I urged her to use Grape-Nuts as an experiment and the result was almost magical.

"They continued the food and today both children are as well and strong as any children in this city, and, of course, my friend is a firm believer in Grape-Nuts, for she has the evidence before her eyes every day." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

What's Doing in Minnesota

St. Paul. — The Democratic state executive committee has decided to call a state conference February 1 to select delegates and alternates to a national convention.

Bemidji. — An appeal will be made to congress to abrogate the Indian treaty of 1855, under the terms of which the Indian bureau at Washington found opportunity to apply a liquor "lid" affecting 16 counties in Minnesota.

Minneapolis, Minn. — Telegraphic reports from Washington declared that influenza is spreading over the country from coast to coast in the most serious epidemic of the disease ever known, taking many lives and incapacitating workers.

Tracy.—The new $40,000 high school building in this city, used for community purposes, was crowded with persons attending the annual corn, grain and poultry show. Most of them were farmers and their wives, but the interests were broad enough to include others.

Litchfield. — Citizens of Litchfield held the last rites for Vincent Coombs, who died here, at the age of 76. He is survived by his wife and six grown children. Mr. Coombs came to Meeker county with his parents from Crawfordsville, Ind. The family traveled the entire distance in a prairie schooner.

Ball Club. — A delegation consisting of Sam Lyons, Sr., Dave Remway and Charles Wakefield, representing the Chippewa Indians of this district, has left for Washington to appear before Cato Sells, the commissioner of Indian affairs, and a committee of congress, in the interest of Chippewa claims now pending.

Kelliher. — Despite the fact that Kelliher is in the Indian lid territory, the village council here has granted a saloon license to J. O. Harris, hotelkeeper. Other applications have been made for licenses. This is the first saloon to be licensed by a village in the dry zone, where liquor can be confiscated wherever found.

Minneapolis.—At least six persons in Minnesota are able to snap their fingers at the high cost of living and the increasing price of gasoline and fresh eggs, according to the figures given out by the commissioner of internal revenue at Washington. Each of the six enjoyed an income of $250,000 and upwards in 1914.

Lakefield. — The Jackson County Farm Bureau association, organized about six weeks ago, is making full plans for the solution of important agricultural problems in its territory by concentration upon certain projects. It will promote drainage projects, crop improvement, better livestock breeding and farmer boys' and birls' clubs.

Bagley.—At the request of residents of Clear Brook, Judge C. W. Stanton in district court issued an order restraining the Clear Water county commissioners from buying the school building at Bagley to be used as a court house. Clear Brook residents asked for a permanent injunction, and the case was set for hearing January 13.

St. Paul. — Minnesota's high rank on stock and dairy production was recalled when more than 150 of the state's successful stockmen, members of the Minnesota Stock Breeders' association, met and banqueted at the Commercial club. The belief that Minnesota is on the crest of a development wave in stock production was generally expressed by the speakers.

Duluth.—Handlings of grain were in record volume at Duluth during 1915. Receipts of all domestic grains at this point during the year aggregated 122,459,501 bushels, as compared with 90,751,289 bushels in 1914. In addition, 4,792,119 bushels of bonded grain came in. Receipts of domestic wheat showed an increase of 30,757,000 bushels over 1915, amounting to 91,098,170 bushels, as compared with 60,341,506 bushels.

Fergus Falls. — The Northwestern college of this city began the new year free from debt. The college, which is under Swedish Lutheran auspices, has had an indebtedness of $20,000 and a few months ago James J. Hill agreed to give $2,500 toward clearing this up provided $17,500 was raised by popular subscription. The subscriptions have just been checked over and have been found to amount to $19,000, which, with Mr. Hill's contribution, will leave a small surplus.

Duluth. — Three fishermen near death in their frozen-in skiffs near Horseshoe bay, south shore of Lake Superior, were rescued by Captain W. J. Johns of the fishing tug Crescent. Two rescues were made. In the first instance a fisherman was found with his nets entangled and unable to escape from his predicament because of the ice. He was taken to the fishing station and revived. Near the mouth of the Brule river two men were found unconscious in skiffs which had frozen in the ice.

St. Paul.—Business was the chief order of the day at the ninth annual meeting of the Minnesota Retail Monument Dealers' association in St. Paul. Reports were made at an executive session. K. T. Soland, of Spring Valley, vice president of the association, presided.

Brainerd.—Charged with attempting to blow up the Mississippi river dam of the Northwestern Paper company with 100 pounds of dynamite November 7, William Fischer, 34 years old and unmarried, was arrested by Sheriff Theorin and lodged in the county jail.

PREDICTS ATTACK ON ELECTION LAWS

COMMISSIONER WORKS SEES PARTIAL RETURN TO CONVENTION SYSTEM.

STATE CAPITOL HAPPENINGS

Events of General Interest in Minnesota Condensed and Revised for The Greater Convenience of Busy Readers.

In the opinion of S. D. Works, state insurance commissioner and close political adviser of the late Governor Hammond, the present primary election laws will be attacked at the next session of the legislature. Mr. Works says he sees in present demands a partial return to the convention system.

"Reports to the contrary," said Mr. Works, "the meeting of the Democratic state central committee held recently, was unanimous in favor of a convention to name delegates to our national convention. We will hold our convention as of old."

James A. Peterson, who withdrew from the Republican nomination for governor, is reported to be drafting a plan for a convention system of which he will ask approval. I. A. Caswell, maanger of the Cummins presidential campaign, has suggested to the district that candidates for the several delegateships be named in mass convention.

* * *

Selects Route of Highway.

The Minnesota Highway Commission has selected the route of the Jefferson Memorial highway from St. Paul to Bemidji on the route to Winnipeg. The Jefferson Highway association designated the road leading from Albert Lea to St. Paul known as the Capital National highway which passes through Owatonna, Faribault, Northfield and Farmington. The association authorizes the Minnesota Highway Commission to select the rest of the route through Minnesota.

The route selected is through Osseo to Anoka, Hennepin coutny, to Elk River in Sherburne county, thence north on the east side of the Mississippi river to Little Falls, thence northwest to Staples in Todd county, west and north through Wadena and Park Rapids to the source of the Mississippi in Itasca state park, thence northeast to Bemidji. At this point the selection will be postponed until engineers have had an opportunity of picking out the best route from Bemidji to St. Vincent, where the highway will connect with the Canadian division.

* * *

No Venison as Free Lunch.

Carlos Avery, state game and fish commissioner, has announced that he has a ruling from the attorney general declaring it illegal to serve venison or any other game as a free lunch, on the ground that the wild meat is offered as an attraction to bring customers. St Paul saloons and saloons in some northern Minnesota towns have been serving venison, wild duck, and other tidbits. The legal limit of time in which birds might be kept in cold storage expired Jan. 1.

* * *

Plans "U" Extension.

More extensive training for business comparing with that for law and medicine training for social and public service, and short courses for newspaper men are among projects the University of Minnesota will take up, according to the president, George E Vincent's report. The demands placed on the university by the rapid development of Minnesota and which have not been met are enumerated by President Vincent.

* * *

Thousand Lakes Stocked.

One thousand lakes and streams of Minnesota were stocked with 190,027,442 fish from state hatcheries during 1915. Carlos Avery, game and fish commissioner said. The numbers of each kind of fish follow: Brook trout, 5,609,624; brown trout, 872,372; lake trout, 91,110; steelhead trout, 59,256; pike, 183,227,000; bass, 29,285; crappies, 122,727; sunfish, 7,897; perch 8,087.

* * *

Health Work Curtailed.

The failure of the 1915 legislature to appropriate sufficient funds to carry on correctly the work of the State Board of Health from April 1 to August 1 was a set-back to public health work in Minnesota, said Dr. A. J. Chesley, head of the division of preventable diseases, in his annual report. Beginning in April the division was compelled to curtail its field work.

* * *

Gift to State Blind School.

The Minnesota school for the blind in this city, with the legal department of the state as custodian, has come into the possession of the estate of the late Samuel C. Brown, of Luverne, amounting to about $20,000.

* * *

Opposes State Life Insurance.

The establishment of state life insurance would be a step in retrogression rather than one in advance, according to J. A. O. Preus, former state commissioner of insurance and now state auditor. Mr. Preus maintained, however, that the state should maintain its rights to govern the conduct of life insurance companies and indicated that a statute is in contemplation giving the insurance commissioner power to question all prospective agents for companies as to their fitness for the work.

How to avoid Operations

These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ills peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

Marinette, Wis.—"I went to the doctor and he told me I must have an operation for a female trouble, and I hated to have it done as I had been married only a short time. I would have terrible pains and my hands and feet were cold all the time. I took Lydia E. Pinkham's Vegetable Compound and was cured, and I feel better in every way. I give you permission to publish my name because I am so thankful that I feel well again."—Mrs. Fred Behnke, Marinette, Wis.

Detroit, Mich.—"When I first took Lydia E. Pinkham's Vegetable Compound I was so run down with female troubles that I could not do anything, and our doctor said I would have to undergo an operation. I could hardly walk without help so when I read about the Vegetable Compound and what it had done for others I thought I would try it. I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Lydia E. Pinkham's Sanative Wash and used them according to directions. They helped me and today I am able to do all my work and I am well."—Mrs. Thos. Dwyer, 989 Milwaukee Ave., East, Detroit, Mich.

Bellevue, Pa.—"I suffered more than tongue can tell with terrible bearing down pains and inflammation. I tried several doctors and they all told me the same story, that I never could get well without an operation and I just dreaded the thought of that. I also tried a good many other medicines that were recommended to me and none of them helped me until a friend advised me to give Lydia E. Pinkham's Vegetable Compound a trial. The first bottle helped, I kept taking it and now I don't know what it is to be sick any more and I am picking up in weight. I am 20 years old and weigh 145 pounds. It will be the greatest pleasure to me if I can have the opportunity to recommend it to any other suffering woman."—Miss Irene Froelicher, 1923 Manhattan St., North Side, Bellevue, Pa.

If you would like special advice write to Lydia E. Pinkham Med. Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

"All right; we'll put it right next to the most sensational murder on the page."

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

Remember This, Fellows.

Most Eminent Medical Authorities Endorse It

A New Remedy for Kidney, Bladder and all Uric Acid Troubles

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—all distinguished Authors—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or sciatica or you suspect kidney or bladder trouble just write Dr. Pierce at the Surgical Institute, Buffalo, N. Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy which is thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50 cent box of "*Anuric*" put up by Doctor Pierce, or send 10c for a large trial pck'g. Dr. Pierce's Favorite Prescription for weak women and Dr. Pierce's Golden Medical Discovery for the blood have been favorably known for the past forty years and more. They are standard remedies to-day—as well as Doctor Pierce's Pleasant Pellets for the liver and bowels. You can have a sample of any one of these remedies by writing Dr. Pierce, and sending 10c for trial package.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam Minn, under the Act of Congress of March 3,1879

President Wilson is having troubles of his own now days, as Congress will not indorse his preparedness ideas.

Clearwater County are having a court house war, with the County Commissioners on one side, and the people on the other side. They now have the question in court.

Congressman Steenerson is endeavoring to get an appropriation for a new federal building at Thief River Falls which is badly needed, but the present managers of the government have run it so far behind, that they will not be able to make any public improvements.

Henry Ford's peace mission to Europe was a complete failure, but he did not leave it until the ladies of the party demanded new wardrobes to visit the Hague Court, then Henry kicked, and sailed home to America, and will again devote his attention to the manufacture of automobiles.

Congressman Lindberg has announced that he will continue in the race for the Republican nomination for governor, notwithstanding that the sudden death of Governor Hammond has given Burnquist the long end of the evener. We predict that Mr. Lindberg will be a tail ender in the race, for the nomination, and while we admire his pluck, we despise his judgement.

Bemidji Democrats are grooming Judge Stanton to make the race for governor on the Democratic ticket, but we are of the opinion that the judge will refuse to be sidetracked onto an uncertainty, as he is quite sure to be re-elected to the position that he now occupies, while the road to the governor's chair is a long and uncertain one to travel on the Democratic ticket this year.

NO REASON A-TALL.

Is there any reason why Minnesota Republicans should not send a delegation to Chicago in favor of Senator Cummins, our neighbor in Iowa, a man who is able, a man who is right, a man whose public and political life has been nearer in accord with the views of the Republicans of Minnesota than any other candidate? Minnesota Republicans will only be standing by their colors in supporting Senator Cummins. It may be that the Iowa man cannot be nominated, but a Minnesota delegation elected for him will come nearer to representing the sentiment of the Republicans of this state when it comes to a second choice in the convention, than would a delegation elected for some other man.—Browns Valley Tribune.

FROM THE CAPITOL.

By John J. Marrinan

Washington, Jan. 00.—Whatever national preparedness policy is adopted by Congress this session will be a Republican measure, formulated by Republicans and adopted by Republican votes.

This is becoming more and more evident as the preparedness issue nears the time for debate in House and Senate.

Republicans in Congress have been the party of preparedness Democrats have always opposed adequate national defense. In times past when Congress has economized on defense appropriations it has been due to a coalition of a small Republican minority with a large Democratic majority.

This year, because of the influence of President Wilson, the Democratic vote against preparedness is smaller. But there is a considerable portion of the Democratic Party in the House still opposed to preparedness. The Democrats do not possess the votes to adopt any military and naval increases without the support of the Republicans. Consequently the Republicans, although a minority in the House, hold the balance of power. The Republicans will use their power to write a preparedness policy as nearly to their liking as can be obtained.

President Wilson himself is a recent convert to preparedness. It was therefore to be expected that his preparedness program would be more or less of a makeshift plan formulated not by scientific rules but by a desire to meet the demand of popular opinion, an opinion which is not any too well informed about military matters.

GOV. J. A. A. BURNQUIST.

Announces that All of W. S. Hammond's Appointees in Office Will Be Kept on State Payrolls.

FOR RHEUMATISM

As soon as an attack of Rheumatism begins apply Sloan's Liniment. Don't waste time and suffer unnecessary agony. A few drops of Sloan's Liniment on the affected parts is all you need. The pain goes at once.

A grateful sufferer writes:—"I was suffering for three weeks with Chronic Rheumatism and Stiff Neck, although I tried many medicines, they failed. Fortunately I heard of Sloan's Liniment and after using it three or four days am up and well. I am employed at the biggest department store in S. F. where they employ from six to eight hundred hands, and they surely will hear all about Sloan's Liniment.—H. B. Smith, San Francisco, Cal.—Jan. 1915. 25c. at all Druggists —Adv.

HOW TO CURE COLDS

Avoid exposure and drafts Eat right. Take Dr. King's New Discovery. It is prepared from Pine Tar, healing balsams and mild laxatives. Dr. King's New Discovery kills and expels the cold germs, soothes the irritated throat and allays inflammation. Search as you will, you cannot find a better cough and cold remedy. Its use over 45 years is a guarantee of satisfaction.—adv.

MANY PEOPLE DON'T KNOW

A sluggish liver can cause a person an awful lot of misery. Spells of dizziness, headaches, constipation and biliousness are sure signs that your liver needs help. Take Dr. King's New Life Pills and see how they help tone up the whole system. Fine for the stomach too. Aids digestion Purifies the blood and clears the complexion. Only 25c at your Druggist.—Adv.

Effect of Familiarity.

"What we see constantly we cease to see vividly. The faces we notice less are those we know—and perhaps really love—best. Our eyes are a bit jaded by following the familiar lines.

"The same is true of pure color," says a writer in the Atlantic Monthly. "Water and sky are very beautiful, and you may suppose that you are duly appreciative of them, but lie on the deck of a catboat and look at them with your head in an unaccustomed position—sideways and upside down—and note how the colors flare out upon your vision.

"Or stay indoors for a few weeks in a room where you do not get much outlook and then go out. You will be blinded by the glory of the world, but not for long. The glory, alas, fades quickly, and habit settles upon you once more!

"With our friends' faces somewhat the same thing happens. When we first meet them they pique us pleasantly with their unfamiliar line and color. Gradually we grow used to them. The first vision has passed."

Mounting a Horse.

In mounting take the reins in the left hand. At the same time grasp a little mane halfway up the neck. Now turn the stirrup slightly toward you with the right hand and place the ball of the left foot in it. Grab the horn with the right hand and swing on. Don't pull yourself on, but swing on. Settle into the saddle easily; don't flop into it. If you want to get "your neck broke" some time mount by taking the horn in one hand and the cantle in the other, and the time will surely come when you will not be disappointed.

Just a word in regard to dismounting. First withdraw your feet from the stirrups to the ball. Take the horn in the right hand and swing off, letting the left foot slip easily and quickly from the stirrup. Remember this, for many a man has been dragged to death because his foot stuck in the stirrup. Your feet will nearly always come free if thrown from a horse, but the left one is prone to stick in dismounting unless the above precaution is observed.—Outing.

The Soft Answer.

He—Ugh! I'm going out of this, and you won't see me again until the day of judgment.

She (sweetly, getting the last word, as usual)—All right, dear, and if you aren't feeling in a better temper please let it be well on in the afternoon.—London Saturday Review.

Shrapnel Cartridge Cases.

The material used for shrapnel cartridge cases generally consists of a composition of two parts copper and one part iron. This alloy has been found to possess the best physical qualities—that is, high tensile strength and a large percentage of elongation when properly annealed.—London Standard

All About Metaphysics.

A Scotchman thus defines metaphysics: "When a mon wha' kens naething aboot any subject takes a subject that nae mon kens anything aboot and explains it to anither mon still more ignorant than himself—that's metaphysics."

First Wire Suspension Bridge.

The first wire suspension bridge in the United States if not in the world was thrown across the Schuylkill river near the falls of Schuylkill, in Philadelphia, in 1816. Its history is as follows: In 1809 Robert Kennedy and Conrad Carpenter built a chain bridge at the falls of Schuylkill, which broke down in 1811. Josiah White and Erskine Hazard, afterward prominent as pioneers in the anthracite coal trade of Pennsylvania, had erected a rolling mill and a wire factory in the neighborhood, and after the bridge fell they formed a new company, and another chain bridge was constructed in April, 1811, but this new bridge in turn gave way in 1816. White & Hazard then swung a wire suspension bridge across the river from an upper window of their factory to some large trees on the west bank, steps leading from the trees to the ground. This primitive bridge structure was intended for foot passengers only, and but eight persons were allowed to go upon the footway at one time. The bridge is said to have cost $125.—Exchange.

Career of the Levelers.

Levelers first appeared in Germany. Two men, Munzer and Storck, taught that distinctions of rank violate the rights of mankind. This was in the sixteenth century. At the head of 40,000 men Munzer commanded the sovereign princes of Germany and the magistrates of cities to resign. His followers ravaged the country until one of the German overlords defeated them in battle. Their leader was beheaded.

A party of Levelers appeared in England in 1647, where they became powerful in parliament. They determined to level all ranks and establish an equality of titles and estates throughout the kingdom. About this time Cromwell departed for Ireland. The Levelers raised mutinies in various quarters. Cromwell put them down in 1649 and imprisoned their leader.

A party of Levelers appeared in England during the French revolution. A "loyal association" was formed against them, and their efforts brought no results.—Kansas City Star.

THE SUNBEAM.

MINNESOTA HISTORICAL SOCIETY.

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JANUARY 21, 1916 NO. 45

THE LOCAL NEWS

Kayton Kratzer was admitted to full United States citizenship on Wednesday at Thief River Falls.

Christoffer Nisson's baby boy, who was born last week, died on Tuesday, and was buried on Wednesday.

Swan England and Andrew Nelson of Highlanding, were transacting business at Thief River Falls Wednesday and Thursday, and took in the mid-winter fair.

Clerk of Court Harry Ives presented each of the new made citizens of the United States with a handsome silk flag, to keep in remembrance of their admission to full citizenship.

Fred Haug had one of his famous Buick autos on exhibition at the fair, but the best advertisement that this auto firm has is Fred himself, who is an expert in the handling, repairing and taking care of autos.

The popular lunch wagon man Jack has put in a lunch and short order restaurant in the Chris Porter saloon building, where he serves soft drinks and first class lunches. He is enjoying a very liberal patronage.

Hansen and Barzen made a fine display of their famous VIVO flour at the mid-winter fair. But the best advertisement that Vivo has, is the high praise given it by the housewives who use it.

The case of an Austrian prisoner held in jail in Thief River Falls seems to be a very sad one, as the man has no charge of crime against him, but is being held on suspicion by the Canadian authorities.

We made our first visit to Thief River Falls this week since the closing of the saloons, and there is certainly a great change there, with several vacant business buildings, and numerous idle men who formerly made their living by serving drinks.

The St. Hilaire Spectator and the Thief River Falls Times, have both been designated as the legal papers of the county, and all of the official proceedings of the Board of County Commissioners, and the financial statement of the county will be published in both of those papers.

It would seem to us that a jitney car could make good money by meeting the electric train up this side of Thief River Falls and transporting passengers into the city. We hope to see the difficulty between the railway company and the property owners settled, so that this line can get a right of way nearer to the center of the city.

The Princess Theater Moving Picture show at Thief River Falls is as fine a show as any being put on in the large cities, and a farmer that is an over night visitor at the county seat can spend an enjoyable evening at the Princess Theater for the small admission fee of fifteen cents. The management is first class, and patrons are sure of receiving gentlemanly treatment.

Mr. Leimers has made some up to date changes in the management of the dining rooms of the Ogamah Hotel, by putting in a lunch counter, where patrons can order on the European plan, from a cup of hot coffee to a first class dinner. The change was made to meet the competition of the large increase of lunch counters in the city since the closing of the saloons.

The midwinter fair at Thief River Falls was not as largely attended as it would have been if the weather had been more favorable, but there was some very good exhibits of farm products, and some very nice exhibits made by the merchants and dealers of Thief River Falls. This was just a starter for midwinter fairs, and as the people, especially the farmers begin to realize the benefits to be derived from an exhibit of this kind, they will take more interest in it, and as Professor Hay said, the midwinter fair will grow in size, until the Auditorium building will not be large enough to hold them. Great credit is due the Commercial Club of Thief River Falls for their efforts to make the fair a success.

SECOND HOMESTEADS, MAYBE.

One of the broadest bills yet introduced in congress to permit former homesteaders to make a second entry is introduced by Cong. P. D. Norton, Hettinger, N. D. It provides that no person otherwise qualified to make entry under the homestead laws shall be disqualified by reason of having previously made and perfected a homestead entry, if the former entry was prior to Jan. 1, 1913, and the applicant is not at the time of his second entry owner of the land embraced in the first entry.

This law should have been passed long ago, and if it had been, there would now be no vacant homestead lands in Minnesota. There is a certain per cent of the people that are natural pioneers, and they should be given an opportunity to go to the front and settle and develop the country.

A GOOD SOAP STORY

Through accident we unearthed a joke on a lady this week, that is worth telling, to show the economy of buying goods from a Chicago house of a traveling agent. Among other groceries ordered, she ordered a box of soap, the agent telling her that he was selling the soap at the remarkable low price of $1.80 per case. She noticed that the soap was not up to the standard of that bought from the local merchants, but cheerfully put up with it for the sake of economy. Our attention was called to it by one of our merchants, who exhibited a bar of the same kind of soap sold to another party. Afterwards we asked the lady if she knew how many bars of soap was in her case, and she promptly answered "thirty-six." I then threw her a pencil, and asked her to figure how much her soap cost a case, and in about two minutes she was mad, and now I tell her that the next time I see that agent I am going to tell him to call at her house, as I guess she wants to order a case of soap. In addition to the price, she had paid freight from Chicago, Illinois.

FEED GROUND.

P. C. Wold's feed mill grinds feed on Tuesdays and Fridays of each week. Will grind any other week day that is convenient for customers, if given notice. First class and fast work done. Give us a call, at farm residence of P. C. Wold, sec. 19, town of Highlanding.

BIDS WANTED.

Bids will be received by the Highlanding Co-operative Creamery Association, up to Jan. 22nd, 1916, at 2:00 P. M., for furnishing the creamery with twenty-five (25) cords of wood. Board having right to accept or reject bids.

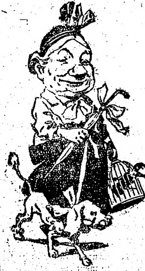
Story of a Fortune.

Peter Thelussen, a London merchant, died in 1797, leaving a fortune of £700,000. By his will £100,000 went to his wife and children. The rest of his fortune was committed to trustees, with the stipulation that it should be allowed to accumulate during the lives of the sons and grandsons. When they were all dead the fortune was to go to the oldest living great-grandson, or if there should be no great-grandson it should go to the government and be applied on the national debt. The will was contested, but the heirs were unable to break it. The last grandson died in 1859, and the fortune was delivered to Charles Thelussen, the oldest living great-grandson. At the time the will was made experts figured out that the fortune would amount to something like £1,900,000 by the time it should be turned over to the great-grandson, but the expenses of litigation and administration had been so great that he received only about the amount of the original fortune, £700,000.

A Matter of Taste.



Of course, some folks object to dogs and parrots. And then again some folks object to folks who object to dogs and parrots.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT. EDITOR
M. G. HUNT. PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 3o 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879

Taft and Roosevelt received one million three hundred thousand more votes than Wilson, and yet Wilson was elected. This year there will only be one united Republican party. Nuff said.

The failure to open up the Dardenelles and let that Russian wheat out, will cause wheat to steadily rise in price, and farmers who have not already secured their seed grain should do so as soon as possible.

The county printing will now be done and circulated by the St. Hilaire Spectator and Thief River Falls Times. This will help some to give it circulation, but in justice to the tax payers, it should be published in every paper in the county.

Nearly every state in the Union, have their presidential candidate for the Republican nomination, but the party will all unite on the nominee, after the convention is held. The mistake of four years ago is too plainly apparent for there to be any extra Republican party this year.

Red Lake County have their county option petition filed, and the fight will soon be on in earnest to make that county join the "dry belt." But we are of the opinion that the tax payers of that county will vote to allow the wave of prosperity that they are enjoying remain with them.

Some of our bachelor friends might learn how to get married by reading the trial of Prive, the Minneapolis wife murderer, who has had four wives, and is only thirty-seven years old. His method of disposing of his third wife will close his matrimonial career for a number of years, if not for life.

1916 POLITICAL DATES

Feb. 8—Last day to file names of candidates for president for Minnesota presidential preference primary.

Feb. 8—Minnesota Democratic convention to pick candidates for delegates to national convention and candidates for presidential election.

Feb. 12—Last day for candidates to file for delegates from Minnesota to national political conventions.

March 14—Minnesota presidential preference primary election.

May 19—Last day for candidates to file for state primary election.

June 7—Republican national convention at Chicago.

June 14—Democratic national convention in St. Louis.

June 19—Minnesota primary election to choose candidates for state, county, congressional, judicial and legislative offices and United States senator.

Nov. 7—General election, and on Feb. 28th a red hot county option election in Red Lake County.

The Democrats are out with a petition to get signers for placing the name of Woodrow Wilson on the presidential primary ballot. The people up this way will undoubtedly give it about the same consideration that the Democrats give their petitions for mail service. But the trio of Singers will perhaps sign it, as they ought to use every effort to hold the present efficient (?) 4th assistant postmaster general on the job, so they can continue to dictate the establishment of mail routes for their private gain, instead of having them put in on the petition of, and for the accommodation of the people.

Option Election.

The expected and the unexpected has happened. Everybody knew that in the course of time there would be an option election in Red Lake county but not everybody believed it would be so soon.

A petition asking for an election and carrying the required number of signatures was filed with County Auditor George Dupont Tuesday afternoon. The petition was presented for filing by O. H. Langlie, the Plummer merchant, and three prominent farmers, Edward E. Havik, of Garnes and J. A. Froiland and A. J. Hamstad of Emardville.

The law requires that the county auditor shall call a special election for a Monday not less than forty nor more than fifty days after the filing of the petition. Consequently Red Lake county's option election will be held February 21 or February 28. Auditor Dupont has not fixed the date definitely but it is probable that he will make Monday, February 28, the day.

The petition is signed by 296 voters of the county which is 23 more than the required twenty-five per cent of the vote cast for governor in the last election. 1092 votes were cast for governor so it required 278 signatures to the petition to make it good.

An examination of the petition indicates that the people seeking the election took the least troublesome and least expensive means of getting the issue before the people in a manner that would indicate considerable strength. They could, of course, have secured a much larger number of signatures by a thorough canvas of the county. About 225 of the signatures were secured in the townships of Garnes, Equality, Emardville and Poplar River. A few were secured in Lambert and Gervais townships and Oklee and Plummer villages. —Red Lake Falls Gazette.

FOR RHEUMATISM

As soon as an attack of Rheumatism begins apply Sloan's Liniment. Don't waste time and suffer unnecessary agony. A few drops of Sloan's Liniment on the affected parts is all you need. The pain goes at once.

A grateful sufferer writes:—"I was suffering for three weeks with Chronic Rheumatism and Stiff Neck, although I tried many medicines, they failed. Fortunately I heard of Sloan's Liniment and after using it three or four days am up and well. I am employed at the biggest department store in S. F. where they employ from six to eight hundred hands, and they surely will hear all about Sloan's Liniment.—H. B. Smith, San Francisco, Cal.—Jan. 1915. 25c. at all Druggists. —Adv.

HOW TO CURE COLDS

Avoid exposure and drafts. Eat right. Take Dr. King's New Discovery. It is prepared from Pine Tar, healing balsams and mild laxatives. Dr. King's New Discovery kills and expels the cold germs, soothes the irritated throat and allays inflammation. Search as you will, you cannot find a better cough and cold remedy. Its use over 45 years is a guarantee of satisfaction.—adv.

MANY PEOPLE DON'T KNOW

A sluggish liver can cause a person an awful lot of misery. Spells of dizziness, headaches, constipation and biliousness are sure signs that your liver needs help. Take Dr. King's New Life Pills and see how they help tone up the whole system. Fine for the stomach too. Aids digestion Purifies the blood and clears the complexion. Only 25c. at your Druggist.—Adv.

Big Spiders.

The South American bird eating spider is as big as a mouse, and its furred feet are so formed that it can walk up glass with practically no difficulty.

Rhinoceros Horn.

In Sumatra the horn of the rhinoceros is esteemed as an antidote to poison and on that account is made into drinking cups.

Notice For Publication.

First Pub. in the Sunbeam Dec. 31st 1915.

Department of the Interior, U. S. Land Office, at Crookston Minn. Dec. 21st 191

Notice is hereby given that Anders Hansen Yake, of Erie, Minn., who on March 2nd, 1912, made Homestead Application Serial No. 07306, for S. ½ S. W. ¼ Section 23 Township 153 N. Range 39 W. 5th, Principal Meridian, has filed notice of intention to make commutation proof to establish claim to the land above described, before Wilhelm Michelet, U. S. Commissioner for District of Minnesota. at Thief River Falls Minnesota, on the 2nd day of February, 1916

Claimant names as witnesses

Knute Tollefson, Ole K. Lien, Knute Danielson, Ludvig Johnson, all of Erie, Minn.

Proof made according to law under which entry was made.

Peter M. Ringdal.
Register.

His Double Loss.

"I've been robbed in that hospital!" shouted the loony ex-patient as he met a policeman."

"Who robbed you, and what did they take?" asked the policeman.

"Why, one of the orderlies took my watch, and all the doctors took my temperature."—Baltimore American.

Inherited.

They were jollying the man about his enormous appetite, but he kept "putting away," undisturbed by the taunts. Finally he said in defense:

"Well, you see, I take after both my father and my mother. One ate a long while, and the other ate a great deal."

The Old Trouble.

"Every residence should have a servants' bath," says a housekeeping magazine. Oh, what's the use? The servants don't stay long enough to need a bath.—Louisville Courier-Journal.

Easily Managed.

First Girl—I mean to be engaged when I'm nineteen. Second Girl—But supposing you can't manage it? First Girl—Then I shall remain nineteen until I am engaged.

More Effective.

Husband—I saw the doctor today He says I must go away and rest. Wife—Did you show him your tongue? Husband—No, but I told him about yours.

Trouble teaches men how much there is in manhood.—Henry Ward Beecher

Mosquitoes In Bagdad.

A round the world electrical engineer tells this story:

"We ran up to Bagdad to put over a little deal with the pasha, a former government official who had been prominent in the days of Abdul Hamid. His palace was infested with mosquitoes, and we had to plan to give him relief.

"He lived in the usual Moorish house, with high walls, flat roof with parapets, few windows and open court. The old pasha looked exactly as if he had just stepped out of a Broadway musical comedy with his shining silk robes, turban and red shoes with upturned toes.

"In the palace garden was a stream with a fall of about ten feet. It would develop about one-fourth horsepower. We built a water mill, equipped it with a dynamo, wired the palace and started up some gigantic electric fans. These fans cooled the air and also blew, through the rooms a narcotic sufficiently powerful to cause the mosquitoes to fall in a coma. All that remained was for the servants to go around and sweep them up in piles to be destroyed."—G. T. Hadley in World Outlook.

Fish Eating Cattle.

The use of fish as food for cattle is an idea more novel than agreeable. According to Nature, however, it is a common practice in various parts of the world. In Shetland and Iceland the farmers feed dry salt fish to cattle, sheep and even to horses. Cecil Wood, describing experiments of this nature, mentions that certain special cattle, kept for display at the village festivals in Nandyal, in India, are fed with mutton and adds that it is a fairly common practice to make use of bandicoots by pounding them in a mortar and feeding them to cattle. In Mr. Wood's experiments two lots of heifers were fed on dried fish diet and normal diet respectively.

The animals took a little time to get used to the fish, but they ate it readily enough. At the end of six months the fish fed heifers showed an average increase in weight of fifty-four pounds as against seventy pounds for the normally fed animals.

Beauty Merely a Matter of Health.

Not long ago a woman said, "If I could afford to have a course of treatment in a beauty parlor I might do something for my appearance." She needed to be told that the daily bath, plain, nonpoisonous food, eight hours of sleep every night, a daily walk, sensible clothing and really good books would do more for her attractiveness than any beauty parlor could possibly do, writes Dr. Maude Kent in Good Health.

To have health means to live the daily life of work and play in a state of bodily ease, mental vigor and spiritual growth. We must consider health in this threefold aspect, for mere animal health is not desirable, nor a fine mind in a stunted, pain racked body, nor soulfulness that disregards the laws of the body and intellectual attainment. It is the all round person who is the telling, efficient force in the world, and the world greatly needs every human being developed to his greatest capacity.

Chemical Dangers.

A professor of a northern university who was as remarkable for his felicity in experimenting as Rouelle could be for his failures was once repeating an experiment with some combustible substance, when the mixture exploded, and the phial which he held in his hand blew into a hundred pieces. "Gentlemen," said the doctor to his pupils, with the most unaffected gravity, "I have made this experiment often with the very same phial and never knew it to break in my hands before." The simplicity of this rather superfluous assurance produced a general laugh, in which the learned professor, who instantly discovered the cause of it, joined most heartily.—Dr. E. L. H. in Medical Pickwick.

Going the Limit.

"Tell that fellow Gingerly not to call here any more," said paterfamilias savagely.

"What's the use, papa?" Evangeline asked.

"I say tell him not to call any more," repeated paterfamilias with increased anger.

"Why, papa, he calls seven times a week now. He can't call any more than that."—London Tit-Bits.

Greenwich Hill.

Probably no hill in the world has had so strangely varied a history or played so important a part in the affairs of men as that at Greenwich. The granite line across the footpath on its summit is the meridian from which the longitude on every British map and chart is calculated.

Caviare.

As a matter of fact, not all caviare comes from the sturgeon, since, like other foods, it is woefully adulterated with the roe of inferior fishes prepared in similar fashion. True caviare, however, is only the eggs of the sturgeon.

Her Wish.

"Snoring, my dear, is the sign of an easy conscience."

"Hubby, there are times when I wish you weren't so contented with your past career."—Detroit Free Press.

THE SUNBEAM

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JANUARY 28, 1916 NO. 46

MINNESOTA
HISTORICAL
SOCIETY

THE LOCAL NEWS

District Court is in session at Thief River Falls this week.

Pay up your past due subscription to THE SUNBEAM.

The Highlanding creamery association are having their year's supply of ice put up this week.

Dr. H. B. Newell of Thief River Falls is going to put in a drug store at Goodridge soon.

W. H. Wilde is attending a famous dog show in South Dakota this week, where he has several entries of prize dogs.

We extend thanks to a large number of our subscribers for cash subscription paid the past week, again we thank you.

Very few of the people of the eastern part of the county are attending court this week, as they are all very good law abiding citizens.

FOR SALE: A prime pair of steers, coming three years old. Are fit for beef, or will make a fine pair of work oxen. By W. G. Hunt, Sunbeam, Minnesota.

The roads are very bad this week, owing to the large amount of snow that has fallen, as there is now about twenty inches of the beautiful on the level, which has banked up to five or six feet deep in some places.

Ole Overvold has had a serious time with the measles in his family, as there were five of his children sick at one time. Some of them caught cold and for a time were in a serious condition, but at latest accounts all were on the way to recovery.

The mail service for the eastern end of the northern part of the county has been arranged so the people of Goodridge now get daily mail service, over the Electric Line of railway. This will be a first class mail service, as this line has run on schedule time during all of the cold and stormy weather of the past month.

There is likely to be a warm fight made to retain Red Lake county in the wet column. The northeastern part of the county are the principal signers on the petition to submit the question to the voters. But the older settled parts of the county are more likely to vote to retain the licensed saloon and the increased amount of revenue for the county, and will No X on Feb. 28.

Every time you see an auction sale of farm stock and farm machinery it means that one more farmer has dropped the plow handles to take up some other line of business. There is no one thing that will make people get tired of the country in which they live so quick as poor mail service, and it is a wonder to us that any farmers continue to reside in southern Kratka and northern Mayfield townships. But never mind, friends, your territory will not always remain under Boss Singer rule, so try and stick it out for thirteen months more.

There is one good feature about that county option law, and that is that an election can not be called oftener than once in three years. This is likely to put some of the paid agitators of county option out of business soon and we look to see them get one set back in Red Lake County. Judging from the names on the petition, it lacks the signatures of many prominent business men and fairly good politicians in the eastern part of the county, who are likely to take a hand in the game on February 28th.

Poor Mail Service.

That part of the town of Kratka lying on the south side of Red Lake River and the northern part of the town of Mayfield, have the poorest mail service of any territory in Pennington county. There was an attempt made to give these people mail service on the Sunbeam-Rhoda route, by having the driver drive by them, on his return trip from Rhoda to Sunbeam, which would have placed nearly all of these farmers within a distance of two or three miles from a mail route, so they could erect boxes and have their mail delivered to them at least three days a week. But the mail route was put in wrong end to, which causes their mail to take from two to three days rest at Sunbeam postoffice, and they now continue to drive long distances to Kratka and Rhoda post offices, which is a source of much gratification to the postmasters at those points, as they are quite likely to have an opportunity to sell them at least a box of snuff.

They cannot use the mail route nearest them for the reason that their weekly paper mailed to them from Thief River Falls on Thursday evening would not reach them until the following week on Tuesday afternoon.

The postmaster at Sunbeam has done all that lies in his power to try to remedy the condition of the mail service for these people, and with him it is likely to be a case of, "Greater love than this, hath no man shown," but the editor and the publisher of THE SUNBEAM are well and healthy, thank you, and will continue to do business at the old stand.

GONE BEYOND.

Frank Savage Jr. died at the residence of his parents, in the town of Hickory, on Wednesday morning. He had a serious attack of the measles first, and caught a cold which brought on a relapse and pneumonia. Frank was only eighteen years old, and was a young man of good habits, highly respected by the young people who knew him. The parents have the heartfelt sympathy of the entire community in their bereavement.

Beyond Human Aid

Governor Burnquist has issued a letter in which he states that for the present at least the appointees of the late Gov. Hammond are not to be disturbed. A very worthy stand to take, and one wholly in keeping with the present governor's reputation for fairness. This action may not meet with the approval of the horde of place hunters, but it will at least appeal to the great majority as the only proper action under the circumstances.—Thief River Falls News-Press.

The above is Republican principal, but God help you, if you are even a fourth class Republican postmaster under a Democratic administration.

FEED GROUND.

P. C. Wold's feed mill grinds feed on Tuesdays and Fridays of each week. Will grind any other week day that is convenient for customers, if given notice. First class and fast work done. Give us a call, at farm residence of P. C. Wold, sec. 10, town of Highlanding.

Warned.

"She told me that I might hope."

"Better look out! I've known girls to say that when they intended to accept a chap!"—Puck.

Why the "Baltic" Sea?

How the Baltic sea got its name is unknown. It looks thoroughly classic—"Mare Balticum." But Tacitus knew this stretch of water as the Suevic sea, from the neighboring people of the Suevi, and the name Baltic does not appear before the eleventh century in the "Chorographia Scandinaviae" of Adam of Bremen. It is supposed to have some connection with the great and little "Belts." Germans, Swedes and Danes call these waters the East sea (Ostsee)—a name which is obviously impossible for a Russian.—London Standard.

SHREWD POLITICAL PROPHET DECLARES FOR ESTABROOK

Ralph Cameron Believes He is the Only Man Who Can Rally to His Support All Factions.

Ralph H. Cameron, Republican National Committeeman for Arizona and former Delegate in Congress from that state, has declared himself for the nomination of Henry D. Estabrook of Nebraska and New York, as the Republican candidate for president of the United States. Mr. Cameron is known as one of the shrewdest political observers in the country, which adds greatly to the interest in his lining up with the Estabrook movement. He said:

"I am for Henry D. Estabrook for the Republican nomination for President. I am for him because, in my judgment, he is the one man who can rally Republicans of all elements and shades of opinion to his support, and, therefore, the one man whose nomination will give us the best assurance of victory in 1916. I have made several extended trips over the country within the last few months. None of the old line candidates for the Republican nomination has aroused any appreciable enthusiasm. Obviously, the favorite son movement in the several states can get nowhere, for it can never develop a national leadership. Indeed, I see great danger in this favorite son brand of politics, for it can readily develop a situation that would mean a repetition of the disaster of 1912.

"Republicans generally welcome the new leadership idea. Mr. Estabrook is able, aggressive, sound in his Republicanism, and free of factional entanglements. To me, as a Republican, there is genuine inspiration and hope in Mr. Estabrook's candidacy."

Change of Direction.

"What became of that man who said he was going to be a candidate?"

"His opponents made him change his route," replied Senator Sorghum. "He started by running for office and ended by running for cover."—Washington Star.

DEFECTIVE PAGE

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which, if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate from any druggist or storekeeper. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do. —Adv.

Timid Rastus.

"What? Yo' calls Rastus Johnsing a brave man whats afraid of nuthin' nor nobody?"

"Dat's de kind of a pusson I always took Rastus to be."

"Lemme tell yo' something. Rastus was at de ball las' night, an' when de trouble started he didn't have nuthin' but a safety razor."

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Inexplicable.

"I understand Scribson's latest novel is a failure, although he hoped it would be a 'best seller.'"

"How do you account for that?"

"I can't explain it. The binding of the book would make it an ornament for anybody's library table, and the illustrations were done by a well-known artist."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

The Seat of Trouble.

"Toothache?"

"Yeah. Something terrible."

"Which tooth is it?"

"That new false tooth in front. I had it filled with gold so that it would look natural, and the gold doesn't show a bit. Wouldn't that give you a pain?"

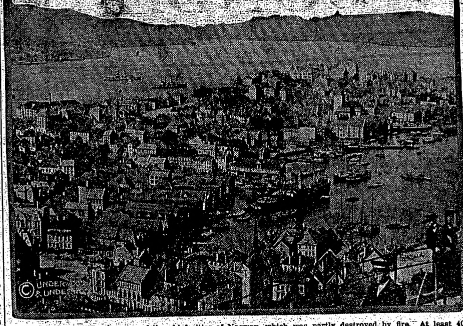
For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3-lb. Canister Can for $1.00. —Adv.

Other people's troubles bore us more than our own.

NORWEGIAN CITY THAT WAS DEVASTATED BY FIRE



General view of Bergen, one of the chief cities of Norway, which was partly destroyed by fire. At least 400 buildings were burned and thousands of persons made homeless.

AVALANCHE HURLS TRAIN FROM CLIFF

SNOWSLIDE ON WEST SLOPE OF MOUNTAINS CRASHES INTO "THE CASCADE LIMITED"

SCENE OF FORMER DISASTER

Dining Car and Coach Struck Squarely on Side and Carried Away Like Chips At Almost Exact Spot of 1910 Catastrophe.

Seattle, Wash., Jan. 24.—Caught in an avalanche of snow which roared down the mountainside, the dining car and a day coach on Great Northern Train No. 25 were cut off from the rest of the train and carried over a 300-foot cliff near Scenic Saturday. Six persons are known to be dead. The passenger train was en route to Seattle from Spokane.

Stopped by Small Slide.

The train had been stopped by a small slide, which had covered the track.

Workmen had just completed removing the debris from the rails, and the train was about to proceed when an avalanche thundered down from the mountainside above the tracks. The dining car and day coach were struck squarely on the side and carried away as though they had been chips. The other cars and the engine were left on the track.

Corea is about 120 miles east of Seattle and is at the loop of a big switchback. It is the second station down the west slope from the Cascade tunnel at almost the exact spot where a train was swept from the tracks February 28, 1910, with great loss of life.

PEACE RUMOR TO GAIN TIME

Montenegrin Prime Minister Explains Truce With Austria, According to Brindisi Dispatch.

Rome, Jan. 24. — Premier Miouchkoitch of Montenegro, who declared on his arrival at Brindisi that King Nicholas had prepared documents justifying the conduct of himself and his ministers in regard to peace negotiations with Austria, is quoted in a dispatch from Brindisi to the Stefani News Agency as saying that Montenegro arranged a truce with Austria as a ruse, to enable her to gain time.

HANNA IS ON WAY TO ENGLAND

North Dakota Governor, Who Was With Ford Peace Party, is Convalescent.

Copenhagen, Jan. 24—Governor L. B. Hanna of North Dakota, who came to Copenhagen with the Ford peace party, has left for England and later plans to go to the south of France where his physicians have advised him to remain for a month before returning to America. Governor Hanna is recovering from an attack of typhoid fever.

T. R. Going to West Indies.

New York, Jan. 24. — Theodore Roosevelt will leave February 10 or 12 for an absence of several weeks in the Leeward and Windward islands of the West Indies. Mrs. Roosevelt will accompany him.

Steel Company Declares Dividend.

New York, Jan. 22.—The Bethlehem Steel company, whose stock has been the most spectacular "war baby" on the stock exchange, has declared a dividend of $30 on its common stock. The regular 7 per cent dividend on the preferred also was declared. Both are payable in quarterly installments. The directors announced a 10 per cent increase in wages for unskilled labor. It went into effect January 16. Bethlehem common sold at $30 a share when the war broke out. It advanced to $600 at one time.

CAPTURE OF VILLA IS DENIED BY HERRERA

El Paso, Texas, Jan. 22.—Francisco Villa, whose romantic bandit career early Friday was reported to have been ended by capture, may not be a Carranza prisoner after all. Following Mexican Consul Andres Garcia's announcement that "the Mexican Robin Hood" was being brought to Juarez to be executed possibly before a great crowd at the race-track, the reported capture was denied by General Luis Herrera in Chihuahua City.

REPORTS TURKS SANK PERSIA

BERLIN STORY SAYS MINISTRY IS TO ISSUE STATEMENT.

Teutonic Powers Hope Such a Declaration Will Settle Question, It is Said.

London, Jan. 25.—An Amsterdam dispatch to the Exchange Telegraph company says:

"According to a Berlin report the Turkish ministry of marine is about to publish a statement to the effect that a Turkish submarine sank the steamer Persia.

"The report alleges that similar statements are being published by the German and Austrian admiralities, it being hoped by the Teutonic powers that such a declaration will settle the Persia question.

This dispatch has not been confirmed from other sources.

Both the German and Austro-Hungarian governments have announced that the Peninsular and Oriental steamer Persia was not sunk by one of their submarines and investigations by the diplomatic representatives of the United States abroad have failed to reveal the real cause of the disaster.

EDITORS SELECT BRAINERD

Northern Minnesota Association in Session at Sauk Center, Name 1917 Meeting Place.

Sauk Center, Minn., Jan. 24.—The eighth annual meeting of the Northern Minnesota Editorial association came to a close after a two days' session with the election of the following officers for the ensuing year: President, Peter J. Vasaly, Little Falls Herald; vice president, Will Wilke, Grey Eagle Gazette; secretary-treasurer, A. G. Rutlege, Minneapolis; executive committee, George Ericson, Spooner News, chairman; C. H. Bronson, Osakis Review; H. P. Phillips, Mahnomen Pioneer.

Brainerd was selected as the 1917 winter meeting place without opposition. Cass Lake, Fergus Falls, Tower, Bemidji, Mankato and Rochester, made bids to entertain the 1916 summer outing and after considerable discussion it was finally decided to hold the outing at Cass Lake.

Filipinos Submit to Dry Clause.

Manila, Jan. 24.—The Filipino leaders will not oppose the amendment of Senator Gronna of North Dakota to the bill of Representative Jones calling for self government in the Philippines, being fearful of alienating advocates of prohibition from the Jones bill. The amendment would prohibit shipment of liquor.

Turks Routed in Caucasus.

Petrograd, via London, Jan. 24.—The following official communication was issued:

"Caucasus front—in the coast region the Turks attempted on a wide front to drive back our troops, but we repulsed them with heavy losses. Our pursuing forces captured, after a fight, the town of Hassan-Kalash (20 miles east of Erzeum), and then drove the fleeing enemy as far as the forts of Erzeum, sabring or taking as prisoners over 1,500 Turks, and capturing a gun and much ammunition.

VILLA PROCLAIMED OUTLAW IN MEXICO

DECREE ISSUED BY CARRANZA DECLARES REBEL CHIEFTAIN OUTSIDE LAW'S PALE.

BECAUSE OF LATE MASSACRE

Mexican President Asserts Outrageous Crimes Committed by Outlaws Call for Extreme Measures of Suppression.

Pearson, Chihuahua, Jan. 24.—Francisco Villa, according to military reports, is at El Rucio, 13 miles from here and surrounded by Carranza troops. His capture is expected at any moment, military officials declared.

Washington, Jan. 21.—General Carranza has notified the Mexican embassy here that he has formally proclaimed Francisco Villa, Rafael Lopez and Rafael Castor outlaws because of the massacre of American citizens at Santa Ysabel.

Under the decree any citizen of the republic is authorized to execute the outlaws without formality. It says:

"In view of the frequency with which outrageous crimes are being committed by bands of outlaws scattered in various parts of the republic, even after the annihilation of the armies of the reactionaries by the Constitutionalist forces, I believe that the situation thus created calls for the extremity of energetic measures of suppression in order that such crimes shall be met by severest punishment to those who are responsible for them. I have seen fit to issue the following decree:

"Article 1. The reactionary leader and ex-general, Francisco Villa, is hereby declared to be outside the pale of the law.

"Article 2. The reactionary leaders, ex-General Rafael Castro and ex-Colonel Pablo Lopez are hereby declared to be outside the pale of the law.

"Article 3. Any citizen of Mexico is empowered hereby to arrest the leaders, Francisco Villa, Rafael Castro and Pablo Lopez and to execute them without any formality of the law. But the citizen performing such function shall make a record in writing, describing in detail the occurrence and setting forth the proofs of the identity of the outlaws and the proof of the execution."

LAYMAN PLEADS FOR ORIENT

Dr. Shailer Mathews Addresses Opening Session of Missionary Movement Convention.

Minneapolis, Jan. 24.—"If we don't put Christian ideals into our intercourse with the Orient, the Lord have mercy on our grandchildren," said Dr. Shailer Mathews, dean of the Divinity school of Chicago university, in an address on "America's Opportunity in a New World Epoch," before the opening session of the Laymen's Missionary Movement convention. The meeting was held in Westminster Presbyterian church, which held a capacity audience.

Col. House Is Guest of U. S. Envoy.

Paris, Jan. 22.—Col. E. M. House, accompanied by his wife, proceeding by automobile from Boulogne to Paris was expected here Friday. Colonel and Mrs. House will be the guests of William Graves Sharp, the American ambassador to France. According to present arrangements Colonel House will leave here for Switzerland on Sunday, presumably to visit Berlin and Vienna. He will return to meet personages of the French government. Much interest is taken by the French Press in his mission.

AEROPLANES RAID LONDON TWICE IN ONE DAY; ESCAPE

AIRMAN DROPS NINE BOMBS AND SCURRIES OFF TO SEAWARD —SECOND ATTACK BY TWO MACHINES.

ONE MAN KILLED AND SIX ARE SLIGHTLY INJURED

Raiders Are Subjected to Heavy Fire, But Escape After Being Pursued by British Aeroplanes—Raid Follows An Interval of Several Months.

London, Jan. 25. — Britons were again brought face to face with the danger from aerial attacks when a seaplane, believed to be German, appeared over the east coast of Kent at 1 o'clock in the morning, dropped nine bombs, and scurried off to seaward.

A second attack was made early in the afternoon at the same place by two machines of the same type.

One Killed; 6 Hurt.

The official report says one man was killed and two men, one woman and three children injured slightly in the first attack and some damage to property was caused by fire. No casualties have been reported in the second attack. The raiders were subjected to a heavy fire, but escaped in both instances after being pursued by British aeroplanes.

Raid by Aeroplane.

The county of Kent includes part of the city of London, but the wording of the official statement indicates that the aeroplanes did not reach the city.

A point of interest in the official account of the raid is the statement that it was made by an aeroplane. Heretofore Germany has relied principally on Zeppelins for aerial attacks on England. Of late, however, there has been much discussion in England of a new type of German aeroplane, the Fokker, which has been said to excel the aircraft of the Allies.

The raid comes after an interval of several months, during which England, so far as has been reported officially, was immune from such attacks. The last previous occurrence of this nature was on October 13, when 55 persons were killed and 114 wounded by a Zeppelin attack on London.

WILL CREATE TARIFF BOARD

Bill Providing for New Commission to Be Introduced in Congress at Early Date.

Washington, Jan. 25.—Creation of a tariff commission, it is learned from official sources, has been determined upon by the Wilson administration.

A bill providing for such a commission will be introduced in congress in the near future and President Wilson may discuss the subject in a message to congress.

The duties of the proposed commission or board, under the plan understood to have been agreed upon by administration leaders, would be to collect information regarding the tariff, and to co-ordinate similar powers now believed by President Wilson to be held by existing government bodies.

To Safeguard American Interests.

Aside from his belief that the tariff always should be treated in scientific fashion, the president has given consideration to the situation which will follow the European war and has been urged by many of his advisers that legislation will be necessary to safeguard America's commercial and industrial interests when that time comes.

YUMA BEGINS RELIEF WORK

Damage From Flood Estimated at More Than $1,000,000—Colorado River Receding.

Yuma, Ariz., Jan. 25.—With the waters of the Colorado river receding, work of rescuing Yuma valley flood sufferers was started by local authorities, aided by officials of the Southern Pacific railroad from Tucson, Ariz., who arrived here with equipment to supply the city temporarily with water, gas and electricity. It was estimated that the damage from the flood would amount to more than $1,000,000.

American Submarine Stranded.

San Diego, Cal., Jan. 24.—The United States submarine H-3 fouled a mud-bank in the harbor here while rising to the surface from a run under water and despite the efforts of steamers was left high and dry when the tide went out.

"Mothers" Navy Orphans

Indianapolis, Ind., Jan. 25.—Thousands of boys in the United States navy have been supplied with "mothers" by Mrs. Emma Ellis of this city. She herself has played mother to hundreds of them from time to time since the beginning of the movement a year ago. Mrs. Ellis is the president and founder of the Mothers' Correspondence Club for Orphan Sailors, which has no object in its existence but the supplying of mother interest in the boys of the navy who have no one to whom they may write.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

A lawyer doesn't know everything but he thinks a client thinks he does.

Piles Relieved by First Application
And cured in 6 to 14 days by PAZO OINTMENT, the universal remedy for all forms of Piles. Druggists refund money if it fails. 50c.

It is the man who has lived on a farm who is perfectly satisfied to remain in town.

Use Murine after Exposure in Cold, Cutting Winds and Dust. It Restores, Refreshes and Promotes Eye Health. Good for all Eyes that Need Care. Murine Eye Remedy Co., Chicago, Sends Eye Book on request.

Pretty Large.

"What big ears he has."

"So big that his head seems merely a connecting link between them."

To Ease Her Mind.

The nurse was writing a letter for a wounded soldier.

"There's something I'd like you to put in, miss," said the soldier hesitatingly.

"Well, what is it?"

"You won't mind, now? Just put 'The nurses in this hospital are all rather elderly persons.'"

"That isn't quite true," said the youthful nurse.

"It isn't, miss; but it'll ease my missis's mind wonderful. She's always been a bit on the jealous side."

The missis's mind was eased.—Manchester Guardian.

Pat's Sound Logic.

Pat was fishing in a river belonging to a rich man, over which there was a notice, "Trespassers prosecuted." Paddy ignored this statement, and after fishing for some time caught a salmon, which he brought home and cooked. A policeman passing by the door smelled the salmon and knocked.

"Well, Pat O'Hara, in whose river did you catch that salmon?"

"Well, I'll tell the honest truth. I caught it in that river near the gentleman's house over there."

"Well," said the sergeant, "don't you know everything in that river belongs to that gentleman?"

"Arrah, to be sure," said Pat. "If I went for a swim in that river would I belong to that gentleman?"

Often Food Makes or Breaks

It all depends upon the kind. A common cause of lessened vigor of body and mind is improper eating.

Food should be selected that will supply sound, well-balanced nourishment for the physical and mental forces, and this is richly supplied by Nature in the field grains.

Grape-Nuts
FOOD

contains all the nutritive elements of whole wheat and malted barley, including the vital mineral salts lacking in many foods that make up the usual dietary. These elements are imperative for building sturdy brain, nerves and muscle.

Grape-Nuts is economical, ready to eat direct from the package—pure, crisp and delicious.

"There's a Reason"

Grape-Nuts

Sold by Grocers.

THE NEWEST REMEDY FOR BACKACHE, RHEUMATISM AND DROPSY

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints it causes lumbago, rheumatism, gout or sciatica. This is the time to send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10c for large trial package of "Anuric."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. If you wish to know your condition send a sample of your water to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and describe symptoms. It will be examined without any expense to you, and Dr. Pierce or his medical staff will inform you truthfully. Anuric is now for sale by dealers, in 50c pck'gs.

The Uncertain Future.

During a theatrical engagement at Manchester, England, Kemble and Lewis were walking one day along the street when a chimney sweeper and his boy came up. The boy stared at them with open mouth and exclaimed:

"They be play actors."

"Hold your tongue," said the old sweep, "you don't know what you may come to yourself."

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

No Change.

What She Needed.

Hazel—Do you really believe that man is made of dust?

Aimee—I don't know; but the one you marry should be made of gold dust.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is ofttimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Careless.

"What brought you here, my poor man?" asked the prison visitor.

"Just plain absent-mindedness," replied the prisoner.

"Why, how could that be?"

"I forgot to scratch the monogram off a watch before I pawned it."

WHY SUFFER SKIN TROUBLES

When a Postcard Will Bring Free Samples of Cuticura?

Which give quick relief for all itching, burning, disfiguring skin troubles. Bathe with the Cuticura Soap and hot water. Dry and apply Cuticura Ointment to the affected part. They stop itching instantly and point to speedy healment often when all else fails.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Something New.

"I hear Brown has bought a house. Is it a new one?"

"No, but it has a brand new mortgage on it."

GENTLE RUBBING HELPS VARICOSE VEINS

Rubbing the swollen veins nightly for about two minutes with a gentle upward stroke brings benefit to sufferers and is mighty good advice, says an authority.

After the rubbing, which should always be toward the heart, because the blood in the veins flows that way, apply Emerald Oil (full strength) with brush or hand.

Try this simple home treatment for a few days and improvement will be noticed, then continue until veins are reduced to normal. It is very concentrated and penetrating and can be obtained at any modern drug store. It is so powerful that it also reduces Goitre and Wens

It is easy to find a man who is willing to grunt while you lift.

When Housework Drags

Keeping house is hard enough when well. The woman who has a bad back, blue, nervous spells, and dizzy headaches, has a hard lot, for the family tasks never let up. Probably it's the result of kidney trouble and not the much-feared "woman's weakness." Strengthen the kidneys with Doan's Kidney Pills. They are as harmless as they are effective and may be used for children with weak kidneys, too.

A Minnesota Case

"Every Picture Tells a Story"

Mrs. George S. Hesslin, 70 Hope St., Austin, Minn., says: "I could hardly walk on account of the awful pains in my back and limbs. When I washed or did any work that obliged me to stoop, the trouble was worse. Mornings I felt languid and tired and finally inflammation of the bladder set in. [illegible] the Kidney Pills helped me as soon as I took them [illegible] the pain and inflammation [illegible]."

State News in Brief

Doings of Last Few Days Throughout Minnesota Condensed for Hasty Perusal.

Faribault. — The Cannon Valley Poultry association held its third annual poultry show in the armory here. More than 500 birds were entered.

Rochester.—The people of Rochester will vote, soon, on the question of issuing $360,000 in bonds for the purchase of flowage rights and for the construction of a hydro-electric plant near Zumbro Falls.

Mankato.—The Southern Minnesota Teachers' association will meet here February 10, 11, and 12. Dr. H. W. Shryrock, president of the state normal school at Carbondale, Ill., will make two addresses.

Brainerd. — Fire said to have started from defective wiring in the City hotel destroyed two buildings and damaged others here, with a total loss of more than $15,000, less than half covered by insurance.

Rochester.—The Masonic temple and other buildings were destroyed here in one of the most serious fires that ever visited the city. For a time the blaze threatened to wipe out the business section. The estimated loss is $150,000.

Grand Rapids. — Mike Stuper and Sam Solvig, held on charges of assisting a fugitive from justice to escape, have been released from the county jail by an action in habeas corpus. The order was filed by Judge C. W. Stanton of Bemidji.

Brainerd. — Frozen to death in his bed, William Cherry, 70, an old settler near Emily, was found in his log cabin by neighbors. Near his bed was an old tin lardcan in which he had fed paper to keep alive a fire after he was unable to get out of bed.

Rush City.—Problems facing the cattleraiser and the buttermaker were discussed by speakers at the opening session of the Minnesota State Dairymen's association convention here. The meeting was attended by farmers and dairy experts from all parts of Minnesota.

Montevideo. — Alfa Claggett has been elected mayor here; Charles J. Anderson, O. L. Bishop, C. J. Thompson and J. W. Fisch, aldermen; J. O. Anderson, treasurer; Elias Jacobson and Thomas B. Jenks, justices. The bond issue carried by more than a two to one vote.

Minneapolis. — Alumni and faculty of the Minnesota College of Agriculture and the school of agriculture presented a tablet in memory of J. D. Scofield to the school and college at memorial exercises in the auditorium on the University farm campus. The tablet will be erected in the auditorium.

Hutchinson. — This city is celebrating the arrival of the Luce line construction train, completing the extension from Winstead through Silver Lake, a distance of twenty-one miles through a rich well settled country. This makes Hutchinson the only town in the state with the terminals of three railways.

Minneapolis.—Lester T. Banks, a Minneapolis banker, was elected treasurer of the Minnesota State Fair board to succeed A. G. Wedge, Jr., of Bemidji, resigned, at the annual reorganization meeting of the board of managers held at the State Fair offices. Private business made it impossible for Mr. Wedge to continue in office.

Winona.—When the Minnesota Supreme Court, in a decision just handed down, held that the Winona county board, in spite of an expressed desire so to do, cannot turn back after having decided to build Elwell highways, it gave assurance that Winona county will in a few years be the center of improved rural highways in the Northwest.

Inver Grove. — This village is torn asunder by a fight over the location of a site for a new schoolhouse. The latest development was the announcement that a petition remonstrating against the lending of money for the erection of the building on the Krech farm west of the village had been prepared for presentation to the Minnesota Board of Investment.

Winona, Minn.—In the series of conferences of county superintendents of schools to be held in the state in the next few weeks Winona county has associated with several other counties in a meeting at Red Wing, February 3. The counties to be represented include Winona, Goodhue, Fillmore, Dodge, Dakota, Mower, Wabasha, Houston and Olmsted.

Glenwood.—Among the skiers of national reputation who will take part in the National Tournament to be held in Glenwood February 4 and 5 are the Haugen brothers, one of whom won last year's championship, Barney Riley, Ragnar Omtvedt and a score or more of other equally well known celebrities. The ski hill and slide are in excellent condition and this year's tournament promises to be the best in the history of the association.

Cass Lake.—Ka-be-na-guay-yance, said to be 128 years old and the most famous Indian in Northern Minnesota, was seriously injured in a railroad accident here, and is in a local hospital. It is feared he will die. He is known more briefly as "Captain John Smith."

McKinley.—A recent attempt of the village of McKinley, in St. Louis county to annex adjacent territory was [illegible] by the supreme court held [illegible] the action of the village [illegible]

FOR DEPARTMENT OF PUBLIC DOMAIN

IMPORTANT REFORM SUGGESTED TO EFFICIENCY COMMISSION BY STATE AUDITOR.

STATE CAPITOL HAPPENINGS

Events of General Interest in Minnesota Condensed and Revised for The Greater Convenience of Busy Readers.

St. Paul.

One of the most important reforms the efficiency and economy commission can seek to bring about is the creation of a department of public domain with the Governor in control. This suggestion was made by J. O. A. Preus state auditor, who was summoned by the commission. Mr. Preus pointed out that the sale of lands and timber, forestry work, administration of mines and protection of game and fish should be grouped under one department

He said the Governor should head the department as attention is focused on his office and the public would be able to indicate its choice in the handling of the state's public domain at the polls. Mr. Preus said the immigration department should be coupled with this department also.

Attorney General Lyndon A. Smith, who appeared before the commission, declared that the state should have greater supervision over grainage projects. Members of the commission showed great interest in the subject, and a discussion which followed brought out ideas which may be brought to the attention of the 1917 Legislature.

It was planned to call on secretary of State Schmahl, State Treasurer Smith and Ira B. Mills, chairman of the Railroad and Warehouse Commission.

★ ★ ★

Ratifies Appointments.

The Board of Regents of the University of Minnesota, which met in President Vincent's office, ratified the following appointments: J. B. Johnston as acting dean of the graduate school for the second semester; William H. Thompson as instructor in the school of chemistry; Dr. Samuel T. Forsythe as teaching fellow in the department of ear, eye, nose and throat in the medical school; G. G. Parkin as assistant in the school of chemistry; Linwood G. Downs as assistant in German; C. P. Stone as assistant in education; B. N. Ohmstead as assistant in the department of physical education.

The following resignations also were accepted: John S. Sinclair as instructor in business law in the evening extension classes, and George F. Ghostley as pathologist in outpatient department on account of ill health.

★ ★ ★

State Banks Prosperous.

State banks of Minnesota are in a prosperous condition, as shown by the report just issued by A. H. Turritin, superintendent of banks, on their condition for the year ending December 31, 1915, the date of the last call. Loans and discounts show an increase of $14,651,352.39 as compared to the year previous, while the total increase in deposits approximately more than $20,600,000 A year ago there were 861 state banks. Now there are 971, an increase of eighty.

The total resources increased from $185,908,133.13 in 1914 to $210,275,057.44, a gain of $24,461,116.89. The overdrafts decreased $80,769.33.

★ ★ ★

Suspension Request Denied.

The attempt on the part of the Railroad and Warehouse Commission to have suspended the order of the Interstate Commerce Commission allowing Western railroads to put into effect a 2.4 cents a mile tariff for passenger rates on interstate business has failed. Notice was received from the Federal commission, according to C E. Elmquist of the Minnesota commission, that the request for suspension made by Minnesota had been denied.

★ ★ ★

Grants Only Two Pardons.

The indiscriminate making of pardon applications by those incarcerated in Minnesota's penal institutions was given a death blow when the board of pardons closed its January meeting granting only two pardons and denying the request of ninety-one. The board considered the applications of 108 prisoners who sought full pardons or commutation of their sentences.

★ ★ ★

Proposes School Reforms.

Absolute leveling of the school system in Minnesota, with equal opportunity and equal expenditure for every pupil in the state, is the proposition laid before the state efficiency and economy commission by H. H. Jeffers of Bingham Lake, former house member.

★ ★ ★

To Discuss Express Rates.

As a follow up to it's recent order reducing express rates in Minnesota the state railway and warehouse commission has called another hearing for a discussion of rates on ice cream, laundry and newspapers, patent insides. The hearing was called for February 9 at the state capitol and every express company operating in the state has been cited to appear. [illegible]

"What is your boy studying at school now?"

"Jedgin'," replied Farmer Corntossel, "from the way he keeps remindin' me of expenses, I should say it was mostly arithmetic."

BIG EATERS HAVE BAD KIDNEYS AND BACKACHE

Take a Glass of Salts at Once If Your Back Is Hurting or Kidneys and Bladder Trouble You.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

ARE YOUR KIDNEYS WEAK?

Thousands of Men and Women Have Kidney Trouble and Never Suspect It.

Nature warns you when the track of health is not clear. Kidney and bladder troubles cause many annoying symptoms and great inconvenience both day and night.

Unhealthy kidneys may *cause* lumbago, rheumatism, catarrh of the bladder, pain or dull ache in the back, joints or muscles, at times have headache or indigestion, as time passes you may have a sallow complexion, puffy or dark circles under the eyes, sometimes feel as though you had heart trouble, may have plenty of ambition but no strength, get weak and lose flesh.

If such conditions are permitted to continue, serious *results* may be expected; Kidney Trouble in its very worst form may steal upon you.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are among the most common diseases that prevail, they are almost the last recognized by patients, *who usually content themselves with doctoring the effects*, while the *original disease* may constantly undermine the system.

If you feel that your kidneys are the cause of your sickness or run down condition, try taking Dr. Kilmer's Swamp-Root, the famous kidney, liver and bladder remedy, because as soon as your kidneys improve, they will help the other organs to health.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores. Don't make any mistake but remember the name, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., which you will find on every bottle.

SPECIAL NOTE—You may obtain a sample size bottle of Swamp-Root by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y. This gives you the opportunity to prove the remarkable merit of this medicine. They will also send you a book of valuable information, containing many of the thousands of grateful letters received from men and women who say they found Swamp-Root to be just the remedy needed in kidney, liver and bladder troubles. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample size bottle. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention this paper.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30, 305, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879

Will Have The Red River Declared Non-navigable.

Grand Forks, N. D., Jan. 21.—Grand Forks and Fargo will unite in an effort to have the Red River of the North declared a non-navigable stream, this move being adopted by the two cities for the purpose of building dams which will make it possible to store up a more plentiful supply of water than is now available.

Because of the more intense cultivation of the land during the last few years, the level of the river has been gradually dropping, and the dams proposed would provide the two cities with big streams again.

No navigation is now carried by the river, though it was once one of the principal streams of navigation in the Northwest, that being in the pioneer days.—Crookston Daily Times.

It will be seen by the above that the enterprising cities of Grand Forks and Fargo are up to date and are going to take this river from under control of the government, by declaring it a non-navigable stream.

Now, how about the Red Lake River from Thief River Falls to Highlanding?

Are the enterprising citizens of Pennington county going to sit idly by, and allow this government fence to extend across their county from east to west?

It is very evident from the above that those two cities have given up all hope of getting any assistance from the government for the improvement of their present conditions, and are going to take matters into their own hands, and it is time that the people of Pennington county made a move in the same direction, and that at once.

There is only one way to remedy the condition, and this is, to have an act passed by Congressman Steenetson during the present session of Congress, declaring this a non-navigable stream, and he will pass the act if the people of Pennington county want him to.

If this river had not been under government control the supervisors of the town of Highlanding would have made a good and safe crossing at Highlanding by ferry last summer, but as long as it is under the control of the government they absolutely refuse to have anything to do with it, in the name of the town, and the county commissioners take the same position regarding the county.

Hoke Smith Democratic Senator from Georgia, made a bitter attack on the present administration's policy, in allowing England to place an embargo on cotton, and thus restrict trade with neutral countries of Europe. It seems that President Wilson in his efforts to please everybody is pleasing nobody, and now even the Democrats of the south are going back on him, and are likely to cast their votes to elect a man for our next president who will open the seas for the shipment of U. S. cotton to Germany as well as U. S. wheat to Great Britain. The American people want to be fair and neutral in the European war, but the Wilson neutrality is not the kind that they indorse.

The Commercial Club of Thief River Falls are an active body that are becoming a great factor in the progress of and upbuilding of Pennington county and the city of Thief River Falls. Their mid-winter fair was certainly a good advertisement for both the city and county.

FOR RHEUMATISM

As soon as an attack of Rheumatism begins apply Sloan's Liniment. Don't waste time and suffer unnecessary agony. A few drops of Sloan's Liniment on the affected parts is all you need. The pain goes at once.

A grateful sufferer writes:—"I was suffering for three weeks with Chronic Rheumatism and Stiff Neck, although I tried many medicines they failed. Fortunately I heard of Sloan's Liniment and after using it three or four days am up and well. I am employed at the biggest department store in S. F. where they employ from six to eight hundred hands, and they surely will hear all about Sloan's Liniment.—H. B. Smith, San Francisco, Cal.—Jan. 1915. 25c. at all Druggists.—Adv.

Sulphuric Acid Burns.

Burns from sulphuric acid are easily cured. Just remember that plain water—lots of it—must be poured on the victim of a sulphuric acid accident at once, even to throwing the party into the water if possible. This acid on the skin feels like fire. With water quickly applied in great quantity this acid is rendered harmless. Men have been burned with it repeatedly without harm through a knowledge of this proper antidote. If not treated promptly the most horrible disfigurements result. The police department of Paris exhibits wax figures of faces of victims of the foreign practice of throwing this acid in one's face. A prompt treatment of water would have rendered the acid harmless.

An Analysis of "Ain't"

"Ain't" is an improper abbreviation of "are not." British writers spell it "a'n't," which properly indicates its derivation. Americans make it an inclusive offense, using it for "am not" and "is not," as well as for "are not." It is unquestionably the worst instance of slovenliness in the common speech of today.

Yet it is by no means of universal or even of common use. It will slip occasionally from refined lips, always with a jar to the enunciator as well as to the hearer. But the habitual user of "ain't" is careless of refinement. He may be an excellent citizen who never beats his wife or kicks the cat. But there is likely to be something slipshod about him somewhere, for "ain't" is needless as well as cacophonous; it fills no void and supplies no need.—Cleveland Plain Dealer.

Mark Twain as "Attraction."

A girl who was a stranger to Mark Twain once found her way into his Bermuda home with the hope of getting a sight of the author. She came suddenly in contact with him and frankly explained her errand.

"Have you seen the crystal cave yet," he asked, "or the aquarium?"

"No; I came to see you first," she answered.

"Well, you shouldn't have seen me first," he answered. "I run in opposition to the crystal and the aquarium. But they're not shucks to me. I'm lots better. I give them their money's worth. But you should see them. Then you'll appreciate me."

This was said in his most earnest drawl and with only a sparkle of humor in his keen blue eyes.

Teaches a Lesson.

Money is never spent to so much advantage as when you have been cheated out of it, for at one stroke you have purchased prudence.—Schopenhauer.

Those who mistake evil for good or good for evil will never attain to bliss.

HOW TO CURE COLDS

Avoid exposure and drafts. Eat right. Take Dr. King's New Discovery. It is prepared from Pine Tar, healing balsams and mild laxatives. Dr. King's New Discovery kills and expels the cold germs, soothes the irritated throat, and allays inflammation. Search as you will, you cannot find a better cough and cold remedy. Its use over 45 years is a guarantee of satisfaction.—adv.

MANY PEOPLE DON'T KNOW

A sluggish liver can cause a person an awful lot of misery. Spells of dizziness, headaches, constipation and biliousness are sure signs that your liver needs help. Take Dr. King's New Life Pills and see how they help tone up the whole system. Fine for the stomach too. Aids digestion. Purifies the blood and clears the complexion. Only 25c at your Druggists.—Adv.

Floating a Loan.

"I want to see if I can't borrow a little money from the Brokers and Stokers' bank."

"Well?"

"What sort of man is the president of it? Is he one of these fellows who are impressed by a rusty suit, or does he think a man is a good risk who affects loud vests and gay spats?"—Pittsburgh Post.

How Cotton Varies.

Cotton is usually differentiated in ordinary classification by the length of its staple. "Ordinary cotton" in the United States is of several kinds, chief among them the upland cotton, with a staple of from seven-eighths to one inch in length, and gulf of Texas cotton, of which the staple is not usually quite so long. The longest stapled cottons among the "ordinary cottons" here are the bottom land or bender cotton, with a staple of from one and one-eighth to one and one-fourth inch, and the special fancy staple cotton, one and three-eighths to one and five-eighths inch in length. The sea island cotton, which is grown on the sea islands off the coast of South Carolina, has a staple of from one and a half to two and a half inches, the average length being one and three-fourths. Egyptian cotton is being grown in southern California, New Mexico and Arizona. Its staple is not so long as the sea island cotton, but compares rather with the upland cotton here.

Mystery of a Diplomat.

Of disappearances most mysterious was the case of Benjamin Bathurst, who vanished Nov. 25, 1809, while engaged on a secret mission for the foreign office. Vienna was the young diplomatist's objective, and, with his friend and valet, in a post chaise, Perleberg, a small posting town in north Germany, had been reached. Here Bathurst supped and slept, awaiting the arrival of fresh horses. Waking, he asked were the horses ready and passed out of the door to make inquiries. Eight people saw him go out, but none ever set eyes on him again. Various theories were set afoot—Napoleon's spies, robbers, illness. In 1852 in the forest near Perleberg a skeleton was discovered with a hole in the skull as from a heavy blunt instrument. Was it that of "the English lord," as Perleberg people surmised?

Investment Bargains.

The investor who picks up desirable property when everybody is selling and no one buying will have to wait only a reasonable time to secure his reward. I recall when real estate in several large cities was a drug on the market. Everybody seemed anxious to sell and no one to buy, but the buyers in those periods have realized enormous profits, far greater than one can get in the Stock Exchange.

The man who has money, even if it is but a small amount, can always turn it over to advantage if he will wait for the opportunity. Don't go with the crowd when every one is wild to buy something, but quietly abide an opportunity when everybody is anxious to unload and buyers are few. At such a time the bargain counter opens.—Leslie's.

The Spit of Ceremony.

Among the Akikuyu of East Africa, described by Mr. and Mrs. W. S. Routledge in "With a Prehistoric People," a spit upon a person or thing indicates good will. "The blacksmith spits upon the sword he has forged before handing it over to the owner. So, too, courtesy demands that a man should spit in his hand before offering it to a friend, and the female visitors spit upon the newly arrived youngster as a sign of welcome." Even in England there are relics of the same custom in the habit among the lower classes of spitting on a coin.

No Favors to Beauties.

A beautiful young lady approached the ticket window at a Pennsylvania country station and in a voice like the rippling of a brook asked the agent, "What is the fare to the fair?"

To which the thick headed agent replied, "Same as to the homely, madam."—Argonaut

A Good Plan.

"We should strive to turn our troubles into successes."

"That's what. I know an actor who did that. When people threw vegetables he caught 'em on a fork and made it the hit of the performance."—Louisville Courier-Journal.

Some Bird.

The roc, a fabulous bird often referred to in the "Arabian Nights," was believed to be of such enormous size and strength as to be able to carry even elephants in its talons.

Refining Tapioca.

This elegant and delicate starch is the product of a plant that is cultivated very extensively in the Malay peninsula, where its culture is almost entirely in the hands of the Chinese. The tubers of the plant (Manihot utilissima), which weigh on an average from ten to twenty-five pounds, are first scraped and then carefully washed, after which they are reduced to a pulp by being passed between rollers. This pulp is carefully washed and shaken up with abundance of water until the fecula separates and passes through a very fine sieve into a tub placed beneath. The flour so obtained is repeatedly washed and then placed on mats and bleached by exposure to the sun and air. It is finally converted into the pearl tapioca of commerce by being placed in a crude shaped frame covered with canvas. It is slightly moistened and subjected to a rotary motion, by which means it is granulated. It is next dried in the sun and finally over the fire in an iron pan, greased with vegetable tallow and is then ready for the market.

Brides In India.

A bride in India never sees her husband until after the marriage ceremony. The parents choose the wife for the son of the house without consulting either party. Sometimes the bride is as young as fourteen. The child is gorgeously dressed and placed on a dais behind a sheet, the women of the family being in attendance.

On the other side of the sheet are the bridegroom and many of his young men friends. The groom keeps throwing over jewels attached to flowers, which the women on the bride's side remove and place in her lap or on her person.

This first ceremony is called the shadee, and, although a man is allowed four wives, no other ever holds the same position as the first chosen for him. The others are of little importance, living their lives more or less as servants to the first wife. As the first wife gets to middle age she is known as the begum.—Pearson's Weekly.

THE SUNBEAM

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, FEBRUARY 4, 1916. 10

MINNESOTA HISTORICAL SOCIETY

THE LOCAL NEWS

We have now about two feet of snow, but consider ourselves better off than the flood swept states.

The severe cold weather of the past few weeks has moderated today, with bright sunshine, and it now looks as if old winter had a broken back.

FOR SALE: A prime pair of steers, coming three years old. Are fit for beef, or will make a fine pair of work oxen. By W. G. Hunt, Sunbeam, Minnesota.

Miss Myrtle Hunt went down to Thief River Falls Tuesday, where she is having some dentist work done, which compels ye editor to get his coat off and get into the mechanical department.

Ed. Klementson is assisting us to get up our summers supply of ice this week. It has been fine weather for that kind of work.

The snow is so deep that it is a hard job for star route mail carriers to get through with mail. It is up to the patrons of mail routes to hitch up their teams and help break out the roads, if they want regular mail service.

The weather was fair Wednesday and the ground hog could see his shadow, but it was so cold that we doubt if he stuck his head out of the hole at all, so we suppose we will have to take the weather as it comes.

If the roads do not get broken out before Feb. 28th in Eastern Red Lake County, they are likely to get tramped down some on that date, as that is the date that the voters decide whether the County is to be wet or dry.

The voters, who are tax payers in Red Lake county should read the Polk county "blind pig" article published in an other column, and vote to retain the licensed saloon on Feb. 28, instead of getting into a criminal mixup of that kind.

The Month of March is the time to get seed grain cleaned so as to be ready to put in the springs crop as soon as the ground is in fit condition. Do not wait until the land is in fit condition for seeding and then start wading your horses over muddy roads to get your seed grain cleaned ready for sowing.

It would do horses, that are not working good to hitch them up and drive them a mile or two to help the mail carriers break out the roads. A man that makes a practice of going to his neighbors and to the post office on "ski's," with four or five fat horses standing in the barn, is usually the one that does the most kicking if the mail carrier fails to make his regular trips on schedule time.

Our sympathies goes out to the farmers who have to go out in the woods after fire wood, or have not got their hay hauled home from the meadows before the deep snow came. But there will be a lot of them in the same fix next year, as they will forget by next December that January and February are cold stormy months and prepare for them, by having the hay and fire wood at home.

Next Wednesday, promises to be a record breaker for attendance at the Crookston farm Crops Show which begins next Monday and last five days. Wednesday is good roads day, and the County Commissioners from ten Counties are to be present, with a large number of Supervisors of Townships. This will be one of the biggest farm crop shows ever held in Northern Minnesota, and the people of Crookston are looking for a record breaking attendance.

"Singer It"

A good resolution was passed by the city council of Thief River Falls last week, which was to let all conventions have the free use of their Auditorium building. This action was taken largely through the efforts of Hon. D. P. O'Neil, who made a strong plea for the granting of the free use of the building, even going so far as to say, that if they were that hard up they might insure the building and burn it. Of course he did not mean just what he said but used the language to clinch argument. What he should have said was, you could insure the building for about twice its value, and then "Singer it", and of course everybody would know just what he meant. Any time that any one wants a kerosene lamp ACCIDENTLY exploded in a heavily insured building, we can refer them to an expert of experience, who stnads high in councils of the democratic party, especially in the department that have arranged the star mail routes of this part of the county, so that it takes a farmers mail, that lives sixteen miles from Thief River Falls, from Thursday, until the next Tuesday, to reach him. But the mail carrier drives by their way going out with mail so as to gather the cancellation of the territory for the Singer post office, at Rhoda.

Polks Blind Pigs

Grand Jury Busy.

The Polk County grand jury is busy rounding up blind piggers, says the Crookston Times, of February 3.

"Eleven secret indictments against alledged blind piggers were returned by the grand jury in session upon adjournment last evening. No arrests have followed and sherriff E. F. Kelly declares that because his deputies are kept busy serving subpeonas on witnesses to appear before the grand jury arrests will not be made today. It is likely that the 11 offenders, seven of whom are from East Grand Forks, one in Crookston and three in eastern Polk county will be rounded up by tomorrow night.

Several more endictments are expected tonight. These will also accuse Polk county citizens with violations of the recent county option law, and will be secret until arrests are made. From appearances the grand jury will not complete its work until the end of the week, if then."

The above shows the results of a county option law voted in to suppress crime. But it has dumped criminals onto Polk county so fast that the sheriffs office can hardly handle the situation, and they will soon have to build an addition to their large jail to accommodate the increase in their criminal population.

All these deputy sheriffs step into the county treasurers office and get their fees in cash. Who pays them? The tax payers of course, when they pay their taxes next year, who by that time will see their mistake in exchanging the licensed saloon for blind pig s.

FEED GROUND.

P. C. Wold's feed mill grinds feed on Tuesdays and Fridays of each week. Will grind any other week day that is convenient for customers if given notice. First class and fast work done. Give us a call at farm residence of P. C. Wold, sec. 10, town of Highlanding.

SATISFACTION OR MONEY BACK

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

WINGS OF A BIRD.

Compared to Them Flying Machine Planes Are but Toys.

Although the bird traveler has no trunk to pack, guidebook to study or ticket to buy, still he must make some preparations for the journey.

The warbler, which nests in Alaska and passes the winter in northern South America, should not begin an 8,000 mile voyage through the air over mountains, plains and seas unless its engine is in good order and it has a proper supply of fuel.

"But," you ask, "what is a bird's engine, and where does it carry fuel?"

A bird's engine is really its wings and the muscles which move them. It is one of the most perfect engines in the world. It is simple, but strong. It works easily, but it is powerful and rarely gets out of order.

For many years man tried to make flying machines which should have wings like those of birds. But he never succeeded. He could not make even a feather! Finally he discovered that if he would make a machine that would fly he must give it wings and an engine. So he constructed an aeroplane, which has wide, stiff wings, or "planes," measuring about thirty feet from tip to tip. These wings cannot be flapped, and in themselves they furnish no power. But to them man added an engine driven by gasoline and electricity. This engine turns a long bladed propeller, which urges the aeroplane forward, while the planes support it when it is in motion.

But a bird's wing, we must remember, is both plane and engine. It gives support as well as power. It is therefore a far more remarkable machine than the one made by man.—Frank M. Chapman in St. Nicholas.

Water Colors.

Water color painting was gradually raised from the hard, dry style of the eighteenth century to its present brilliancy by the efforts of Nicholson, Copley, Bailey and others. The Water Color society's exhibitions began in 1805 and may be said to mark the real beginning of modern water color painting. The great master, if not creator, of the art was the celebrated Turner, of whom we read so much in the works of John Ruskin.—Exchange.

THE BUILDING OF A COUNTRY

The Natural Pride of Those Who Take Part in It.

To those who have built railroads through and across the prairies of Western Canada, connecting that great empire of grain and cattle, horse and sheep with the world's markets in the east, must be awarded the privilege of looking upon their work, and its results with pardonable pride. If they reminiscence, and tell of the hardships and the privations, why shouldn't they? The broad prairies on which the buffalo roamed and fed, are now alive with cities, towns and villages, Farms—large and small—on which machinery has chased the bugaboo of laborious work off the farm, and making farm life one of the most pleasant and prosperous of occupations—are being cultivated by men of the highest stamp of manhood. Many of these have inherited from their forebears the physical strength and the high type of manliness that was theirs in the days when they hewed their homes out of the virgin forest, and made them what may be seen today, beautiful farms in the east. On the whole the western prairies breed a high type of manhood, wrest from him faults and diseases which would be his were it not for the upbuilding influence and character of prairie life.

When the builder of the western Canadian prairie looks upon the result of his work, why shouldn't his chest expand? It was probably some of this feeling of pride that took possession of Sir Donald Mann, vice president of the Canadian Northern Railway the other day in Winnipeg, when he said:

"I am not in the habit of giving advice, but I have no hesitation of advising the young men of Canada, every young man, to get out and get a piece of western Canada's land that now can be had for the asking and be their own masters."

"It was 36 years ago when I first came to Winnipeg," he said. "At that time there were less than 150,000 people west of Lake Huron in Canada. and the only bit of railway in operation was between St. Boniface and Emerson—about sixty miles. Today there are nearly 20,000 miles of railway in actual operation and the population is over two and a quarter million, a wonderful achievement in such a short period you will agree, when you have contemplated it a moment."

"At that time all the flour, meat and many other supplies for our contracts were brought from the States. Now consider what the west is doing today. You have a grain production exceeding a billion bushels and yet only a comparatively small area of the tillable land of the country is occupied. Five years hence you will be more than doubling that."—Advertisement.

Dangerous.

Frank—Yes, I am going to propose to Miss Diamonds on the ice. She is my only chance.

Harry—Your only chance? Well, don't let that chance slip.

THE PROFESSOR'S STATEMENT.

Prof. Aug. F. W. Schmitz, Thomas, Okla., writes: "I was troubled with Backache for about twenty-five years. When told I had Bright's Disease in its last stages, I tried Dodd's Kidney Pills. After using two boxes I was somewhat relieved and I stopped the treatment. In the spring of the next year I had another attack. I went for Dodd's Kidney Pills and they relieved me again. I used three boxes. That is now three years ago and my Backache has not returned in its severity, and by using another two boxes a little later on, the pain left altogether and I have had no trouble since. You may use my statement. I recommend Dodd's Kidney Pills when and wherever I can." Dodd's Kidney Pills, 50c. per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y.—Adv.

WILSON PLACES HONOR ABOVE NATION'S PEACE

GIVES WARNING THAT PLANS FOR READJUSTMENT OF ARMY MUST BE CARRIED OUT WITHOUT DELAY.

OPENS PERSONAL APPEAL FOR NATIONAL DEFENSE

"Woe to Man Who Plays Politics," Says President in New York Address—Asserts Invasion of Mexico Would Mean Loss of Confidence.

New York, Jan. 29.—President Wilson has opened his personal appeal to the country for national defense. He gave warning that plans for the readjustment of the army must be formulated and carried out without delay and declared solemnly he could not predict that the outlook for the United States would be as bright tomorrow as today.

Speaking at banquets of the Railway Business association and the Motion Picture Board of Trade, he sounded the keynote of addresses that he will deliver in the next 10 days in the Middle West.

Wilson in Fighting Mood.

Mr. Wilson was in a fighting mood throughout his addresses. In a speech delivered early in the day, he declared he always accepted an invitation to fight. Later he told the railway men he was an advocate of peace and had struggled to keep the United States at peace, but he considered the liberty and honor of the nation even more important than peace.

"Woe to any man who plays marplot or who seeks to make party politics or personal ambition take precedence over candor, honor and unselfish, unpartisan service," the President declared in speaking of his defense plan before the railroad men. He declared the country expects action.

Interrupted by Applause.

"This is a year of accounting, and the accounting must be definite on the part of every individual who wishes to enjoy the public confidence," Mr. Wilson said.

"For my part I hope every man in public life will get what's coming to him," he said amid laughter and applause.

In his speech before nearly 1,500 business men at the railway banquet where he cast aside almost entirely the text of the address he had prepared previously for delivery there, he was frequently interrupted by applause.

Need for Preparedness.

The President admitted that in a message to the last Congress he had said the need for preparedness was not pressing. He declared he had learned differently in the meantime.

Mr. Wilson cited his recent support of a tariff commission as another instance of a change on his part, but said that previously there was no need for such a commission. The business men enthusiastically cheered him.

Mr. Wilson spoke of men of high character who were clouding the preparedness issue. He said they were provincial and that the United States no longer could cut itself off from the rest of the world.

Discusses Mexican Policy.

The President discussed his Mexican policy vigorously. He asserted that to invade Mexico would mean the losing of confidence of the rest of the Western hemisphere. He cited the freeing of Cuba as an instance of good done by the United States.

"If we are drawn into the maelstrom which now surges in Europe," the President declared, "we shall not be permitted to do the high things we would prefer."

Urges Army of 500,000.

The President defended the continental army plan drawn up by Secretary Garrison, and said he did not care about the details of any plan so long as 500,000 trained men were provided as reserves under the federal government.

He advocated strengthening the National guard, but said the Constitution itself put the National guard forces under state control. He added that the United States will not turn in the direction of militarism.

Outlining why the United States should prepare, Mr. Wilson said, "we must prepare our rights as a nation and the rights of our citizens in America, and outside of it, as the consensus of civilized peoples has defined them; must insure the unembarrassed realization of our political development within our own borders, and must protect the peace and political autonomy of the Americas."

Wants Industrial Training.

Industrial preparedness, with the military training of students in industrial schools was proposed by the President. He left navy plans for later addresses.

STRIKING SENTENCES FROM ADDRESS ON PREPAREDNESS

"America is forced—whether she will or no—in the decades immediately ahead of us, to furnish the world with its chief economic guidance and assistance.

"We can no longer be a provincial nation.

"Let no man say if he would speak the truth that the question of perfection of national defense is a question of war or peace.

"There is something the American people love better than they love peace. They love the principles upon which their political life is founded. They will at no time seek a contest, but they will at no time cravenly avoid it. Because if there is one thing that every nation ought to fight for it is the integrity of its own convictions. We will not surrender our convictions. I would rather surrender territory than surrender those ideals which are the staff of life for the soul itself.

"If we should go into Mexico do you know what would happen? All the sympathy of the rest of America would look across the water and not northward to the great Republic which we profess to represent.

"More than a year ago I said this question of military preparedness was not a pressing subject. But more than a year has gone since then and I would be ashamed if I did not learn something in 14 months.

"I don't know anything about what is going to happen when the war is over, and neither do you.

"America never will be the aggressor; America always will seek to the last point at which her honor is involved to avoid the things which disturb the peace of the world.

"But America does not control the circumstances of the world and we must be ready to defend the things we love against every contingency which may aect or impair them."

Record Temperature Extremes.

Washington, Jan. 29.—Temperature extremes never before equalled in the 45 years' history of the weather bureau are being recorded by government forecasters. While the East and South were treated to summer skies, the Northwest felt one of the coldest snaps of the winter. Tampa, with a temperature of 80, was 134 degrees warmer than Havre, Mont., the coldest town in the country at 54 degrees (official) below zero. Unofficial records gave 62 [illegible]

Patients Driven From Hospital.

Denver, Jan. 28.—A panic broke out among 200 patients at St. Joseph's hospital when great volumes of smoke poured into the rooms from the spontaneous blaze among paints and medicated cotton stored in the basement. Sick men and women ran out in the near-zero air and several patients climbed down the snow covered fire escape. The heroism of the nurses saved many persons from injury. Several were overcome by smoke while aiding the firemen.

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

A Certain Way.

Goodman—How can you tell mushrooms from toadstools, little boy?

The Boy—Easy. If de guy dat eats them is alive next day dey's mushrooms. If he's shifted off de mortal coil, den dey's toadstools.

A GLASS OF SALTS WILL END KIDNEY-BACKACHE

Says Drugs Excite Kidneys and Recommends Only Salts, Particularly If Bladder Bothers You.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

Frequently Hunted.

Ichabod—Father, what is a lark?

Father—The kind some men go out after, my son, is a small, hot bird.

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparation at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

A Doubt.

"Talk is cheap."

"Hm! have you ever seen a long-distance telephone bill?"

Home Medicine Chest.

Keep your medicines in one place, out of reach of children. Be sure to have Hanford's Balsam of Myrrh on hand for emergency use. It should take the fire out of burns, heal cuts, remove soreness and be worth many times over its cost. Adv.

Spain has opened an aviation school near Madrid in which the government aids those receiving instruction.

For thrush, cleanse and dry the foot and make thorough applications of Hanford's Balsam of Myrrh. Adv.

Little aches result from the pains a man takes in enjoying his vacation.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 40 years ago. They regulate liver and bowels.—Adv.

MARINES ORDERED TO SHOOT LOOTERS IN OTAY DISTRICT

SAILORS FROM WARSHIPS IN SAN DIEGO BAY TOIL TO RECOVER BODIES OF FLOOD VICTIMS.

DEATH TOLL ESTIMATE RAISED TO SIXTY-FIVE

Three Thousand Persons Are Homeless and Much Suffering Is Evident—Morena Dam Reported to Have Burst, Releasing Fifteen Billion Gallons of Water.

San Diego, Cal., Feb. 1.—Reports that the Cuyamaca dam, 80 miles northeast of here, has broken, releasing three billion gallons of water and creating a new flood menace in a district already inundated, have been confirmed by Colonel Edmund Fletcher, owner of the Cuyamaca properties, in a telephone message to a San Diego newspaper. Details of the disaster are lacking.

San Diego, Cal., Feb. 1 (by Radio to San Francisco).—Looting, described by Rear Admiral William F. Fullman, commanding the Pacific reserve fleet, as "the worst I have ever seen," broke ot in the stricken Otay valley while sailors and marines from warships in San Diego bay toiled to recover the bodies of victims of the lower Otay reservoir flood.

Recover Thirty-four Bodies.

Reports received late at night showed a total of 34 bodies had been recovered and raised estimates of the total death toll to 65. Three thousand persons were homeless and there was much suffering despite heroic relief work.

A new flood poured down the Tia Juana river during the day standing four feet high near its mouth, which is at the foot of San Diego bay.

Of the thirty-four bodies recovered in the Otay valley only six have been identified.

Otay Valley Armed Camp.

The lower Otay valley was an armed camp today. Marines and sailors from the battleship Oregon and the cruisers Milwaukee and South Dakota patrolled all approaches and penetrated into the valley, with orders to shoot looters on sight. Each carried twenty rounds of ammunition. The marines under Capt. Charles T. Westcott, Jr., camped in the valley. The sailors under Ensign Hamilton O'Brien of the Milwaukee took quarters in the little brick schoolhouse at Otay City.

The United States destroyer Lawrence acted as base ship and a hospital squad from the Milwaukee operated in conjunction with both forces.

CHICAGO BANDITS CONFESS

Five Alleged Robbers of Washington Park Bank Held—Political Plot Charged.

Chicago, Jan. 31. — Just 36 hours after the daring $15,000 robbery of the Washington Park National bank, Chicago police who had regarded the case as extremely difficult of solution, achieved the following:

The arrest of the five alleged robbers.

Recovery of practically all the loot.

The confession of one of the bandits.

Received information that criminals had been imported at the instance of "certain politicians and policemen" to perpetrate a series of crimes for the purpose of discrediting the city administration, thus putting Nicholas Hunt, new chief of the detective bureau, under a cloud, and indirectly getting revenge on Maclay Hoyne, state's attorney, for his successful prosecution of police graft cases.

RUSSIA IS SURE OF ROUMANIA

Minister of Foreign Affairs Says Balkan Nation Will Not Fall Into German Trap.

London, Jan. 31.—A dispatch to Reuter's Telegram company from Petrograd, says:

"Sergius Sazonoff, Russian minister of foreign affairs, received a deputation of journalists to whom he gave a general review of the Balkan situation.

"His most interesting remarks concerned Roumania whose relations with Russia, he said, remain satisfactory and amicable. He admitted that some time ago the attitude of Roumania was uncertain, owing to her fear of hostile acts on the part of the Central Powers, but said that he is now convinced Roumania will not fall into a German trap."

Pacifists Home; War Goes On.

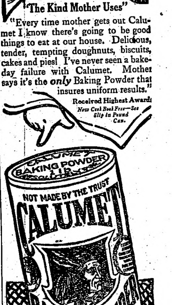
Aboard Liner Rotterdam (Via wireless to Siasconsett, Mass.), Jan. 31.—The Ford peace delegates, returning from the job of bringing the boys out of the trenches, were approaching New York, tired, but still in good voice. The Rotterdam's captain discouraged the holding of peace meetings en route to New York, fearing some of his belligerent passengers might make war on the pacifists. The tireless speakers, however, gathered knots of delegates about them and launched further attacks.

"The Kind Mother Uses"

"Every time mother gets out Calumet I know there's going to be good things to eat at our house. Delicious, tender, tempting doughnuts, biscuits, cakes and pies! I've never seen a bake-day failure with Calumet. Mother says it's the *only* Baking Powder that insures uniform results."

Received Highest Awards

New Cook Book Free—See Slip in Pound Can.



Cheap and big can Baking Powders do not save you money. Calumet does—it's Pure and far superior to sour milk and soda.

Take Flight.

"Riches have wings, they say."

"Yes, and whenever I go after them they migrate."

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00. —Adv.

The muse sometimes keeps the poet awake, but it is the mews of that cat that disturb the slumbers of other people.

Deep cuts should be healed by Hanford's Balsam. Adv.

Wise is the girl who fears a man more than she does a mouse.

Obstinate sores should be cured by Hanford's Balsam. Adv.

No man ever thinks he is as homely as he really is.

Why That Lame Back?

Morning lameness, sharp twinges when bending, or an all-day backache; each is cause enough to suspect kidney trouble. Get after the cause. Help the kidneys. We Americans go it too hard. We overdo, overeat and neglect our sleep and exercise and so we are fast becoming a nation of kidney sufferers. 72% more deaths than in 1890 is the 1910 census story. Use Doan's Kidney Pills. Thousands recommend them.

A Wisconsin Case

"Every Picture Tells a Story."

August H. Wilkens, Eighth Ave., West Bend, Wis., says: "My back was in such bad shape I couldn't lie still long. When I took cold, the backache was worse. I got so dizzy at times I could hardly work and I had to pass the kidney secretions three or four times at night. I was nervous and run down. Three boxes of Doan's Kidney Pills restored me to good health after other medicines had failed. I haven't suffered since."

BILIOUS, HEADACHY, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

Incorrigible.

"I understand you fell off the water wagon."

"No, sir," replied Uncle Bill Bottletop. "It is true I dismounted. But I did so with dignity and deliberation."

NEW TREATMENT FOR SWOLLEN VEINS

Swollen veins are dangerous and often burst. Sufferers are advised to get a two-ounce, original bottle of Emerald Oil (full strength) at any pharmacist and start to reduce the veins and bunches at once.

Physicians recommend Emerald Oil; it is used in hospital practice and a small bottle will last a long time, because it is very concentrated. Apply night and morning with the soft brush as directed until the swelling is reduced to normal.

It is so marvelously powerful that swollen glands, and even goitre disappear when used steadily.

Now He Says "Nein."

Col. George C. Wright tells the following on a saloonkeeper named McDermott:

McDermott was a very generous man, and they say he would "set 'em up" about as often as anybody else. One day a crowd had collected, and one man, a German, ordered drinks. McDermott followed suit and the customer reciprocated. Then he started out, and as he did so, he queried, "Das ist alles recht?"

Now, McDermott's education in German had been neglected in County Mayo. About all he knew in that language was "Yah," so he said it enthusiastically.

When he was gone McDermott bemoaned the fact that his customer had not paid, and was informed that he had told the man that it was "all right."

Mac made a few more inquiries and learned the opposite of "Yah." "Hereafter it is 'nein' for me," said he.—St. Louis Globe-Democrat.

Nice Enough, But—

A twelve-year-old boy, who had reigned supreme over—parents' and household all through his dozen years, was surprised one morning to hear the cry of a little baby brother.

"Isn't it nice, Tommy," said the jubilant father, "that we have another baby?"

"Yes, it is nice, father," said Tommy as he saw the end of his reign; "but what bothers me is, was it necessary?"

COFFEE WAS IT.

People Slowly Learn the Facts.

"All my life I have been a slave to coffee. I kept gradually losing my health, but I used to say 'nonsense, it don't hurt me.'

"Slowly I was forced to admit the truth and the final result was that my nervous force was shattered.

"My heart became weak and uncertain in its action and that frightened me. Then my physician told me that I must stop drinking coffee or I could never expect to be well again.

"I thought of Postum but could hardly bring myself to give up the coffee.

"Finally I concluded that I owed it to myself to give Postum a trial. I got a package and carefully followed the directions, and what a delicious, nourishing, rich drink it was! Do you know, I found it very easy to shift from coffee to Postum.

"Almost immediately after I made the change I found myself better, and as the days went by I kept on improving. My nerves grew steady, I slept well and felt strong and well-balanced. Now the old nervousness is gone and I am well once more."

It pays to give up the drink that acts on some like a poison, for health is the greatest fortune one can have. Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

Gopher State Happenings

Important Events of Various Sections of the state reported during last few days.

AT THE STATE CAPITOL

Lyndon A. Smith Honored.

Lyndon A. Smith, attorney general of Minnesota, was elected president of the Dartmouth College Alumni association of the North west, at the annual re-union of the association, at the Minnesota club, St. Paul.

★ ★ ★

Issues Fire Warning.

Realizing that the merrymakers gathered in St. Paul for the carnival were out to "make it a Hot One," R. W. Hargadine, state fire marshal, issued a warning to the people of Minnesota to be careful of fires while the festivities occupied attention.

★ ★ ★

Wants More Money For Schools.

More money than afforded by the 1-mill state school tax should be given the public schools of Minnesota and the tax should be increased probably to 5 mills, said C. G. Schulz, state superintendent of education, before the Economy and Efficiency Commission.

★ ★ ★

State Mines Yield Big Revenue.

State iron ore mines produced a total of 2,436,790 tons of ore last year, and the revenue to the state from the royalties imposed will not be far short of $700,000. This figure was only exceeded in 1913 when 2,875,982 tons of ore were shipped from state properties.

★ ★ ★

On Government Reorganization.

In order to give the public an opportunity to air its views on the proposed reorganization of the state government the new efficiency and economy commission set aside last week for those who desired to address it and asked a number of prominent citizens to make talks.

★ ★ ★

Gets Half of New Settlers.

Chattels of immigrants to Minnesota during 1915 required 2,306 cars and the number of new settlers coming to Minnesota is just half those going to all the other states of the Northwest combined. Fred D. Sherman, immigration commissioner, said that the Minnesota Transfer railway handled 4,444 cars of immigrant movables in the year.

★ ★ ★

To Show State's Advantages.

Residents of forty-eight towns in Ohio and Indiana will be told of Minnesota's advantages to the settler on the tour of John D. Deets, who will lecture for the immigration department during January, February and March. The itinerary of the lecturer was given by Fred D. Sherman, immigration commissioner. Territory in Illinois will be covered by Frank M. Eddy.

★ ★ ★

Sale of State Lands.

J. A. O. Preus, state auditor, and Walter J. Smith, state treasurer, went to International Falls last Thursday to conduct a sale of state lands in Koochiching county. Other sales to follow are: Lake county at Two Harbors, January 31; St. Louis county at Duluth, January 31; Itasca county at Grand Rapids, February 1; Aitkin county at Aitkin, February 2, and Cass county at Walker, February 3.

GOPHER STATE NOTES

Fairmont.—Three victims of the Cascade mountain snowslide on the Great Northern road recently were Martin county residents. Ed. Batterman and two children were killed.

Fairmont.—The youngest plaintiff in a divorce action in the Martin county district court is Vera Gladys Barr, 15 years old, who seeks a legal separation from her husband, William Barr, 22 years old. They were married a year ago at Blue Earth.

St. James.—The leather-covered arm chair presented to the late Governor W. S. Hammond by Twin Cities friends, following his inauguration, has been presented to the Presbyterian church here as a memorial to the Governor, who was a member of the church.

Hibbing.—Many thousands of dollars will be paid out on the Mesabi and Vermilion ranges in the pension fund announced by the United States Steel Corporation. Pensions will go both to men and to women. For men the age limit is placed at 60 years, and for women, 50.

Washington, D. C.—A bulletin on mortality statistics, issued by the federal census bureau gives the following for some of the Minnesota cities selected in respect to geographical situation: Duluth, 11.7 a thousand; Mankato, 16.6; St. Cloud, 13.8; Stillwater, 13; Winona, 15.4.

Rochester.—This city's new $35,000 armory is to be formally dedicated, and C. M. Andrist, private secretary to Governor Burnquist, will deliver the principal address and a banquet will follow. The late Governor Hammond first had been engaged to dedicate the armory, January 7.

Brainerd.—Old neighbors near his summer home at Gull lake or other personal friends of Fred B. Lynch were chosen to compose the Crow Wing county delegation of twelve to the Democratic state conference. It is strictly a Lynch delegation, according to Mal D. Clark, chairman.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from any store that handles drugs which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

Matched the Excuse.

"Lend me a fiver, old man; I'm clean broke."

"Why don't you pawn that ring you are wearing?"

"Couldn't do that; it's a souvenir of a deceased brother."

"Well, my money is a souvenir of a deceased father."

A TRIAL WILL CONVINCE ANYONE—THE GREAT KIDNEY REMEDY MAKES FRIENDS

A few years ago I was troubled with a complication of kidney and stomach ailments and although I tried two or three different doctors, I was unable to obtain a cure. Having heard a great deal about Swamp-Root, I decided to give it a trial and purchased a one-dollar bottle of Mr. Alexander, the druggist. From the beginning I could notice a change for the better and after taking eight bottles of your medicine, I felt entirely cured and have not had any trouble since.

Had I began using Swamp-Root sooner, I would have been a few hundred dollars to the good and saved myself a lot of suffering.

You may use my testimonial any time you wish. Yours very truly,

CHARLES E. HARRIS,

460 Sixth St. Marion, Iowa.

I certify that Charles E. Harris signed the above testimonial in my presence, being first duly sworn to the truth thereof, this the 12th day of July, 1909.

D. R. KINLEY, J. P.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

Playing Safe.

"So you don't guide hunting parties any more?"

"Nope," said the guide. "Got tired of being mistook for a deer."

"How do you earn a living now?"

"Guide fishin' parties. So fer nobody ain't mistook me for a fish."

ITCHING, BURNING SCALPS

Crusted With Dandruff Yield Readily to Cuticura. Trial Free.

Cuticura Soap to cleanse the scalp of dandruff crustings and scalings, and Cuticura Ointment to soothe and heal itchings and irritations. Nothing better, surer or more economical than these super-creamy emollients for hair and scalp troubles of young or old.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

That Would Fix Him.

Ella—What would yo do if you actually found a man under your bed?

Stella—I'd drop my hat on him.

His Machine.

Knicker—Has Jones a runabout?

Bocker—No, just a talkabout.—New York Sun.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. First application gives relief. 50c.

Only Difference.

Stella—What is leap year?

Bella—The year men know that women propose.

Wounds cleansed by Hanford's Balsam. Adv.

At thirty a man is convinced that the majority of men are fools; at sixty he admits that he is of the majority.

SILAGE MAKES A BIG SAVING

Among Other Advantages Succulent Feed Is Available Whole Year—Keeps Up Milk Flow.

A dozen of the more common advantages of silage are: Succulent feed is available the whole year. The digestive system of the live stock is kept in good condition during the winter months and the animals look like grass-fed stock. Silage produces cheaper and better beef or mutton, increases the milk flow about ten per cent. Corn stored as silage eliminates the 30 to 75 per cent loss of feeding value of stalks left standing in the field, or the 25 per cent loss when left in the shock. All parts of the plant are made palatable.

More feeding value is concentrated in less space than with any other coarse feed. Silage is beneficial for growing animals. It produces bone and meat and creates appetite.

Silage keeps up the milk flow when pastures are short and flies bad and during the winter months. The feed ration is cheapened and made more palatable by the use of silage. Silage can be cut and stored regardless of weather conditions. More live stock can be kept on the farm where the silo is found, hence bigger profits and more fertile soil.

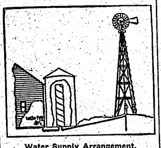
Silage is the most conveniently handled of all coarse feeds. The saving of the corn crop over the old method of handling corn, coupled with increased profits by using it in the ration, will pay for a silo in one year.

PUMPING WATER MADE EASY

Several Ingenious Devices Recently Put on Market—One Is Galvanized Steel Standpipe.

Pumping and carrying water are two of the most time-consuming farm tasks. They are done in hundreds of different ways, most of them tedious.

Several ingenious devices have lately appeared that offer relief. One is a galvanized steel standpipe that can be installed in the barn or any building that will protect it from frost in winter. An excellent place is in the middle of the silo, where the heat of the silage will keep it warm. This tank is made 20 feet high and from two to three feet in diameter. The two-foot size holds 14 barrels and the three-foot holds 33 barrels.



Water Supply Arrangement.

This standpipe was originally intended for use with windmills, but a gas engine or any other convenient power can be used.

Another interesting water-supply help for use with electric motors is a basement pressure tank filled with a motor-operated pump. The starting and stopping of the electric motor is automatically controlled by the air pressure in the tank.—Farm and Fireside.

DAIRY COWS DURING WINTER

Winter Milk Will Bring Farmer About One-Third More Per Quart Than During Summer Season.

The production of milk is now quite a different proposition from what it was in summer. Winter milk will generally bring the farmer about one-third more per quart than in summer. To offset this, it costs a lot more to produce it. Winter milk can be produced at a profit where the producer is as far away as 200 miles from market, but to do it the producer cannot go at it in a haphazard, slipshod way. He must thoroughly inform himself as to the actual cost of milk. He must keep a correct account of each item expended. There must be charged against the cow the amount of hay, silage, roots and feed she consumes, at the fair market value. Each cow should be credited with the amount of milk she produces, at market prices, and then feed and care for the cows, so as to have the balance on the right side of the ledger.

PREPARE CORN FOR PLANTING

Uniformity in Shape and Size of Kernels Necessary for Accurate Work of the Planter.

It is best to shell seed corn by hand. The tip and butt grains should be discarded, since uniformity in shape and size of the kernels is necessary for accurate work of the planter.

To still further increase the efficiency of the planter, it is well to select ears that are uniform in size and shape of kernel.

The planter should be adjusted to each grade or size of kernels to insure an even stand in the field, since this is one of the most important factors in the production of a large yield.—Ohio Agricultural College.

Not Injurious to Trees.

Prof. H. A. Surface says the use of pure white lead and linseed oil for borers and mice will not injure the trees.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine —Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. Mayme Asbach, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCasland, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. Osgood, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Bad Risk.

"Broken your New Year's resolutions yet?"

"Every one of them. I wish I'd had the doggoned things insured."

PREPAREDNESS!

To Fortify The System Against Grip

when Grip is prevalent LAXATIVE BROMO QUININE should be taken, as this combination of Quinine with other ingredients, destroys germs, acts as a Tonic and Laxative and thus keeps the system in condition to withstand Colds, Grip and Influenza. There is only one "BROMO QUININE." E. W. GROVE'S signature on box. 25c.

SUDDEN DEATH

Caused by Disease of the Kidneys

The close connection which exists between the heart and the kidneys is well known nowadays. As soon as kidneys are diseased, arterial tension is increased and the heart functions are attacked. When the kidneys no longer pour forth waste, uremic poisoning occurs, and the person dies and the cause is often given as heart disease, or disease of brain or lungs.

It is a good insurance against such a risk to send 10 cents for a large trial package of "Anuric"—the latest discovery of Dr. Pierce. Also send a sample of your water. This will be examined without charge by expert chemists at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. When you suffer from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, it's time to write Dr. Pierce, describe your symptoms and get his medical opinion, without charge—absolutely free. This "Anuric" of Dr. Pierce's is 37 times more active than lithia, for it dissolves uric acid in the system, as hot water does sugar.

Simply ask for Dr. Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the ever-famous friend to ailing women.

Worry is a frequent cause and sometimes a symptom of kidney disease. Thousands have testified to immediate relief from these symptoms after using Dr. Pierce's Anuric Tablets for the kidneys and backache.

Dr. Pierce's Favorite Prescription makes weak women strong, sick women well. No alcohol. Sold in tablets or liquid.

Three Hundred Million Bushel Crop in 1915

Farmers pay for their land with one year's crop and prosperity was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions."

Wheat averaged in 1915 over 25 bushels per acre

Oats averaged in 1915 over 45 bushels per acre

Barley averaged in 1915 over 40 bushels per acre

Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from $12 to $30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.

There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive illustrated pamphlet, address Superintendent Immigration, Ottawa, or

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 5, 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879

The grain producers of the Northwest, are opposed to the preparedness ideas of President Wilson, and there is now a prospect, and we might say a very good prospect that Roosevelt will be his opponent on the Republican ticket in the next campaign. Roosevelt goes as far as Wilson, if not farther on the preparedness of this country for defense from invasion by a foreign nation.

But there is a vast difference in the way these two men propose to get the money to increase our army and navy. Wilson under the Democratic policy has placed this country in the condition of being compelled to place a mortgage on the United States to procure the money to carry out his ideas of preparedness.

Roosevelt under a Republican administration with a Republican protective tariff would soon have the cash in the U. S. treasury to pay for his preparedness ideas, and soon remove those internal revenue stamps that have become so common since the Democratic party came into power.

William McKinley in his campaign speeches in 1896, when Grover Cleveland was President, had a fashion of pausing and making a remark outside of his regular address. In his speech at Minneapolis that year he made the following remark: "There was never a time in the history of America that the people were so anxious to vote as they are at the present time." The remark was liberally applanded, and when they did vote in November they promptly put Grover out of business. About the same condition prevails to-day, and we predict that when the clock strikes eleven on the 8th day of next November that there will be enough votes cast to put Woodrow Wilson out of business.

Washington, Jan. 27.—The United States navy would be at the bottom of the sea in less than 60 days, perhaps sooner, if this country were attacked by a first-class power, Gen. Leonard Wood told the house committee on military affairs today.

If the above is true this country may as well adopt Bryan's ideas at once, as there is no use to waste money to build navys, if a first class power can sink it in sixty days. But it appears that none of the first or second class power are very anxious to try the sixty day job. However if Taft had stepped aside and allowed Roosevelt to have been elected this country would not only been prepared to meet any first class naval power on the water, but would have had the cash in the treasury to buy a second load of ammunition. But the people now plainly see the condition of our government, and will vote to remedy those conditions on November 8th, you see if they don't.

The city of Thief River Falls are beginning to see the necessity of having another bridge built across Red Lake River, to accommodate additional additions to the city. There is no need of any bridges east of Thief River Falls, as we have got a NAVIGABLE river, so they might as well use the road and bridge money of the county to put in bridges where they have a right to put them, while the innocents of the eastern part of the county pay their share into the bridge fund, and sink or swim when they want to cross Red Lake River.

Right You Are.

Geo. G. Johnson, cashier of the First State Bank at Thief River Falls, is a candidate for a place on the board of managers for the state fair association. Mr. Johnson is a capable and efficient man and one who would take great pride in representing northwestern Minnesota and its best interest with this important state institution. We are confident Marshall county will boost for Mr. Johnson's election. —The Newfolden Review.

If a heavy fall of snow, and a severe winter indicates a good crop year, we should have a bumper crop next year, for while the winter was a little late in getting started this year, it certainly has made up for lost time during the last six weeks.

Congressman Steenerson has the right idea of preparedness, which is to pay as you go, but the trouble is that the policies of the party in power have used up all the available money of the country, and have levied an internal revenue tax, and now must bond to obtain money to run this country in time of peace.

SCIATICA'S PIERCING PAIN

To kill the nerve pains of Sciatica you can always depend on Sloan's Liniment. It penetrates to the seat of pain and brings ease as soon as it is applied. A great comfort too with Sloan's is that no rubbing is required. Sloan's Liniment is invaluable for stopping muscular or nerve pain of any kind. Try it at once if you suffer with Rheumatism, Lumbago, Sore Throat, Pain in Chest, Sprains, Bruises, etc. It is excellent for Neuralgia and Headache. 25c. at all Druggists. —Adv.

FOR CHILDREN'S COUGH.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation. Don't put off treatment. Coughs and Colds often lead to serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All Druggists.—Adv.

There Was One.

Judge—What's your charge against the prisoner? Complainant—Burglary. He stole $5 from me at the station. Judge—But for burglary there must be a breaking. Complainant—Well, your honor, when he took the five he broke me.—Boston Transcript.

LIVEN UP YOUR TORPID LIVER.

To keep your liver active use Dr. King's New Life Pills. They insure good digestion, relieve constipation, and tone up the whole system—keep your eye clear and your skin fresh and healty looking. Only 25c. at your Druggist.—Adv.

DON'T SCOLD FRETFUL CHILDREN.

That nervousness, fretting and restlessness is no doubt caused by worms or constipation. Instead of whipping or scolding, give your child a treatment of Kickapoo Worm Killer. Nice candy confections that kill the worms and are laxative enough to move the bowels and expel not only the worms but accumalated poisons. These poisons and worms bring on fever, make children nervous and irritable, reduce their vitality and make them victims of sickness. Get a box of Kickapoo Worm Killer to-day at your Druggist, only 25c.—Adv.

Japanese Houses.

A number of causes have affected the size of the Japanese house, which seems much too small for a comfortable habitation in the eyes of the foreigner. In the first place, the people themselves are small, the average height of the Japanese male adult being five feet three and one-half inches and that of the female four feet nine and one-half inches. As it is the usual custom to sit on the floors upon cushions, with the legs bent beneath, great height of ceilings is not desirable. The low ceilings may also be attributed to the lack of any heating systems other than the small charcoal brasier known as the "hibashi." The frequency of earthquakes throughout Japan has been a largely contributing cause as well, and the question of expense in a country where economy reigns supreme has also had a powerful influence.

THOS. FRANKSON.

First to File for Republican Nomination for Lieutenant Governor.

Mr. Frankson, Minnesota real estate dealer, and former representative from Fillmore county in the sessions of 1911, 1912 and 1913, is the first candidate to file for the Republican nomination for lieutenant governor. In announcing his candidacy Mr. Frankson informs the voters that he stands squarely for the following:

Good government conducted on economic and businesslike principles.

Strictest economy in the appropriation and disbursement of public moneys.

Fair and equitable system of taxation.

Rigid enforcement of the laws.

Good roads.

Progressive legislation consistent with the needs and requirements of the people.

For a greater Minnesota; for the rapid development of the agricultural and commercial interests of the entire state.

Mr. Frankson is a Scandinavian, and was born in 1869 on a farm in Fillmore county on which his father located in 1854. He received his education in the public schools, taught school thirteen terms and later graduated from the law department of the State University with the class of 1900. He practiced law two years and then engaged in the real estate business at Spring Valley, Minn. He now has large real estate interests in both Northern and Southern Minnesota, and is also heavily interested in real estate in the Twin Cities, having offices in Spring Valley, Glenwood and St. Paul.

He is in close touch and thoroughly familiar with the needs and conditions in all parts of our state, and his friends throughout the state consider him an ideal man for the office he seeks.

Mr. Frankson has always been a booster for Minnesota. His motto has ever been, "A Rented Farm Is Not a Home," and the energy with which he has brought this motto home to the farmers of Iowa, Wisconsin, Illinois, Indiana and Ohio has been the means of bringing to Minnesota thousands of farmers from those states who are prospering with the ever increasing prosperity of our great commonwealth.

Retort Courteous.

Angry Diner—Waiter, you are not fit to serve a pig!

Waiter—Ahm doin' mah best, sah!—Philadelphia Evening Ledger.

Gentle Hint.

Seasick Passenger—Steward, this vessel tips something awful.

Steward—Yes, and I wish some of the passengers would do the same.—Boston Globe.

An Explanation and a Hint.

"How do you account for his remarkable success?"

"I don't know unless it was that he was always too busy on his own work to stop and spend time trying to account for the success of others."—Detroit Free Press.

Crowd of a Million.

It has been estimated that a million persons assembled in a crowd, with due allowance of three square feet a person, would cover an area of about seventy acres.

MINNESOTA HISTORICAL SOCIETY

THE SUNBEAM

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, FEBRUARY 11, 1916 NO. 48.

THE LOCAL NEWS

George Cunningham from Pea Soup Island was an overnight visitor at C. L. Clarks on Monday evening.

50c. Karo syrup for a limited time 35c. Get a few gallons while the price is so low. Korstads at Highlanding.

If a cold winter and plenty of snow is an indication of a good crop year, we had ought to have a bumper crop this year.

Dr. Gambell was out from Thief River Falls last Saturday to visit the Overvold family, who are still seriously sick with measles.

C. L. Clark and family are contemplating visiting the state of Washington, where Mr. Clark's father resides, and may decide to locate out there.

There is to be a big public ball at the P. L. Wojnarowski hall, in the town of Hickory, on Saturday evening, February 19. First class music, and a fine time. All are invited.

You will find a big difference in our special 25c. Peaberry coffee, it is soothing and refreshing. We will give you a free sample, and you can be the judge. Korstads Highlanding.

February 21st to 26th has been designated as pay up week. If you have neglected to pay for your local paper, that is the time to pay up past dues, and a little in advance.

If we could get the Red Lake River declared non-navigable, it would not be much trouble to raise enough funds by private subscriptions in thirty days to build a crossable bridge at Highlanding. But as long as the government owns the river the people can not do anything with it.

Write the local happenings in your neighborhood, and send them into this office for publication. It is not necessary to write exactly correct or spell correct, as we have a proof reader that will fix up that part of it. Send us in the local news written up in most any old way, and we will do the rest.

If a farmer that has mosskeg land, prefers fine timothy hay for his stock instead of wire grass, he can easily turn his mosskeg land into fine timothy producing meadow. We have tried the seeding of timothy on mosskeg land, and find it a success. Our method is to mix about six quarts of timothy seed per acre with flax seed that we sow on new mosskeg breaking, and the next year cut a good heavy crop of timothy hay from the land that had been producing nothing, but wire grass before being broken up. We will be pleased to show any farmer the success of this experiment who will visit our farm this year.

If you are contemplating selling out your farm and stock, and going back to the older settled parts of the United States, remember that when you arrive there, you will find land so high that you will be unable to buy any, and in a few years will spend your little horde made by pioneering, and degenerate down to being a servant for other people, looking to eke out an existance by daily toil from seven o'clock in the morning until six at night. Consider this lot in life compared to your present independent position before deciding to leave a life of independence for a life of dependence, where you must depend on the good nature of your employer for a right to exist.

Miss Christine Kleinmetson visited with Mrs. W. G. Hunt, on last Saturday afternoon.

There was not a very large attendance at the dance last Saturday, at the Wojnarowski hall, owing to the bad condition of the roads.

Halvor Myrum, of Mayfield made this office a pleasant call last Sunday. He reports that where his father lives at Rollette, N. Dak., that they are suffering from snow blockades worse than they are in this country.

Patrons of mail routes should not be too hasty to make complaints about star route mail carriers failing to get through regular with mail, during the present condition of the roads, as star route mail carriers can not get through a six foot snow drift any better than a farmer.

Dr. Newell, of Thief River Falls has put in a good drug store at Goodridge, which will be of great convenience to the people of this territory. He is a graduate veterinary physician and pharmacist, and can fill all physician's prescriptions. He will prescribe for all ailments of horses, which may be the means of saving valuable horses for farmers that are injured, or sick from any other cause.

Goodridge are getting stock subscribed for the purpose of removing the River township creamery to the village of Goodridge. There will not be many shares taken by the farmers living south of Goodridge, as most of them have stock in the Highlanding creamery, which has always been a good paying proposition, but if any one is anxious to buy creamery shares, we think they can buy at reduced rates in this creamery, which is established and in running condition.

Whistling Courage.

In writing up a report of the Democratic convention held at Thief River Falls, the Times of that city says:

"Much enthusiasm was displayed at the local meeting and delegates from various parts of the county reported a strong sentiment in favor of Pres. Wilson and his policies. Particularly was his attitude toward the warring nations of Europe commended."

This was undoubtedly principally Singer enthusiasm, but if they want to hear the kind of enthusiasm that the people of Mayfield and Kratka have for the management of their mail service, by the present party in power, let them come out and visit them. But the Singer kind of enthusiasm will be all right, until the people vote, and then Stephon will get sat down on harder than he did when he ran for county commissioner. It is all right to whistle while passing through the timber to keep up courage, but wait until they meet the G. O. P. elephant on November 8th.

FEED GROUND.

P. C. Wold's feed mill grinds feed on Tuesdays and Fridays of each week. Will grind any other week day that is convenient for customers, if given notice. First class and fast work done. Give us a call, at farm residence of P. C. Wold, sec. 19, town of Highlanding.

The Soft Answer.

He—Ugh! I'm going out of this, and you won't see me again until the day of judgment.

She (sweetly, getting the last word, as usual)—All right, dear, and if you aren't feeling in a better temper please let it be well on in the afternoon.—London Saturday Review.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL	24 large or 36 small	$3.95
(Brewed Specially for Family Use)		
WHITE SEAL	24 large or 36 small	3.70

Inspiration In Dreams.

Coleridge must be added to the list of authors who have found inspiration in dreams, for he himself has told us that he composed over 200 lines of the "Kubla Khan" during a sleep of three hours. On awaking he wrote down the fragment now existing, but the interruption of a visitor banished the rest from his mind. The first idea of "The Ancient Mariner," too, was suggested to the poet by a dream of his friend Cruikshank. And Kipling's "Greatest Story In the World" was but the half remembered dream of a commonplace young man.—London Mail.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, it's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

Dr. King's New Life Pills

All Druggists 25 cents

SATISFACTION OR MONEY BACK

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

FOR SALE: a farm near Red Lake River, for about half value. Enquire at this office.

BUYING A DIAMOND.

If Money Is No Object You Can Get an Absolutely Perfect Stone.

The properly cut diamond has fifty-eight facets, including the table and collet, thirty-two facets above the girdle and twenty-four facets below. The surface of the table should be 40 per cent of the whole.

Perfect, colorless stones form only 5 per cent of all the diamonds produced. A diamond is considered perfect in formation when no flaw or imperfection can be detected under the ordinary "loop" or magnifying glass used by jewelers. The flaws usually found are carbon spots (where the carbon has not crystallized perfectly), feathers, bubbles, hairs, flaky formation, like that in a piece of ice when struck by a hammer. The absolutely perfect stone must be free from all of these defects and cut in the right proportions. The "clean" diamond is free from any flaws or inclosures and is most difficult to find. Many of these flaws are so small as to be imperceptible to the naked eye and really do not affect the brilliancy and beauty of the stone.

Do not expect to get an absolutely perfect stone for any reasonable figure, for they are so rare as to command excessive prices. If you want a good stone see to it that it is of good color and brilliancy and is well cut.

The real requirement of a diamond is that it make a proper effect, and the minute flaws which can be found only with a strong microscope are not worthy of consideration by the ordinary purchaser who wishes to have a good stone almost exclusively for decorative purposes.

If money is no object and you are willing to pay $500 or more per carat you may hope to secure an absolutely flawless stone, but for all usual purposes you are wasting half of the money expended.—New York American.

WHEN YOU GET ANGRY.

Influence of the Emotion Upon the Adrenal Glands.

Just above the kidneys there are two small glands, each about as big as a pea, known as suprarenal capsules or adrenal glands. They belong to that small group of glands in our bodies which have no ducts and whose secretions, whatever they are, pass directly into the blood. These two little glands play an enormous part in the physiology of hate.

The secretion of these little glands is called adrenalin, and its secretion cannot be controlled by the will. When it is poured into the blood the amount of sugar in the blood will rise in the course of a few minutes between 10 and 30 per cent.

A strong emotion, such as hate causes an increased secretion of adrenalin in the glands and simultaneously an increase of sugar in the blood, and this sudden accession of sugar supplies the muscles with a much needed food. So that one of the effects of the secretion of adrenalin would be a direct benefit to a man in a rage wishing to exercise stern, muscular effort involving fight, conflict or struggle. It has been proved that the removal of the adrenal glands has a weakening effect on muscular power, and an injection of adrenalin has an invigorating effect, and not only does adrenalin bring out sugar from the liver stock to feed the muscles, but it also restores fatigued muscles, at least temporarily. Men in a state of hatred, therefore, are in the same condition as men who are putting out their utmost physical effort. They are in a condition, should they come across the object of their hate, to exert the maximum harm upon it.—New York American.

DEFECTIVE PAGE

"CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Boston's Nocturnal Habits.

A wild pigeon that has a haunt somewhere near the old Boston City club has formed a habit of coming down into the street late at night for his supper.

Several nights lately as I have come through Beacon street I have seen the bird having its midnight meal. It strikes me as something unusual for pigeons to do so.

Shouldn't self-respecting pigeons be at roost at such an hour?—Boston Post.

KIDNEY TROUBLE NOT RECOGNIZED

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing real healing and curative properties, would be a blessing to thousands.

Dr. Kilmer's Swamp-Root, the well known kidney, liver and bladder remedy, is remarkably successful in sickness caused by kidney and bladder troubles. It is mild and gentle in its action and its healing influence is soon noticed in most cases. There is no other remedy like Swamp-Root. It will surely and effectively overcome kidney, liver and bladder troubles—and you can depend upon it. Go to any drug store and get a bottle so as to start treatment today. You will soon see a marked improvement.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Explained.

"I want to ask you a few direct questions about this institution."

KOW-KURE

W. N. U., Minneapolis, No. 7-1916.

State News in Brief

Doings of Last Few Days Throughout Minnesota Condensed for Hasty Perusal.

Brainerd.—Officers were elected at the Mississippi District Conference of Swedish Lutheran churches here.

Winona.—St. Joseph's German Catholic church has celebrated the fiftieth anniversary of its establishment here. A number of visiting priests assisted.

Mankato.—Sixty editors, including several women, gathered here for the annual meeting of the Second district of the Minnesota Editorial association.

Faribault.—A Dan Patch freight train was wrecked on the line north of Faribault, when six cars were derailed at Scott's Mill and rolled down the embankment. No one was injured.

Moorhead.—Robert W. Richards, for fourteen years associated with editorial work on the Moorhead Daily News, and a pioneer newspaperman of Northern Minnesota, died at Long Beach, Cal.

Red Wing.—The annual meeting of the Bellechester Co-operative Creamery association was held in the Bellechester hall. The reports showed a very prosperous year, the receipts being $22,000.

Hibbing.—There is a movement on foot among range Democrats to boost the candidacy of Victor Power, "Hibbing's Fighting Mayor," the man who won the tax fight for the biggest village on the range, for governor.

Faribault, Minn.—The forty-second annual convention of the Minnesota Young Men's Christian association will be held in Faribault, February 11 to 13. The theme of the program this year is "America's Appeal to Christian Men."

Minneapolis.—The thirty-second annual meeting of the Minnesota State Pharmaceutical association, which is composed of druggists throughout the state, will be held in Minneapolis February 8, 9 and 10. The sessions are to be held in the auditorium of the college of pharmacy at the University of Minnesota.

Mankato. — Postoffice Inspector George H. Drake of St. Paul has brought to Mankato, Daniel W. Vomhof, postmaster of Nicollet, charged with issuing two postal money orders without having paid into the postoffice department the full amount collected. It is alleged he received $135.45 and accounted for only $122.

St. Cloud.—Better supervision of schools, a better system of records and increased efficiency in the examination in the rural district were three desires of the county superintendents of the Sixth district expressed at their meeting here. State Superintendent C. G. Schultz and other officials attended. It was decided to continue the discussion in March.

St. Paul.—Minnesota Democracy, as represented by some 1,500 delegates to a state convention held in the St. Paul Auditorium went on record for Woodrow Wilson and all his works, for Fred B. Lynch, Democratic National committeeman, for adequate preparedness, and for government ownership of munitions plants for supplying the nation's army and navy.

Minneapolis, Minn. — "Society night" at the Auto Show broke all records for attendance, not only for the week, but for all the shows that have been given. Visitors arrived steadily all the afternoon, and even during the supper hour. Starting at 8 o'clock in the evening they came for an hour in a solid phalanx and filled the aisles so that people climbed into automobiles to get out of the crush.

Walker.—Chippewa Indians are about to share in the prosperity of the Northwest. For this is the first time the money will be spent for necessities of life instead of firewater. Attorney Ed. Rogers of Walker has returned from Washington where he represented Chippewa interests and announced every man, woman and child enrolled in the tribe soon will receive $150. About $1,500,000 will be disbursed.

Little Falls, Minn.—Behind the desire of Congressman Lindbergh to seek the nomination for governor of Minnesota, is the reported opposition to his re-election to congress by many persons who blame him for failing to urge the abrogation of the Indian treaty of February, 1855, under the provisions of which the Indian bureau, fifty years after the treaty had been forgotten, applied a lid which, business men say, is doing incalculable harm.

St. Paul, Minn.—Minnesota's county option law is valid and does not conflict with the home rule charter provisions of the state constitution, the state supreme court has ruled in an opinion written by Commissioner M. D. Taylor. The opinion sustains Judge W. S. McClenahan, of Brainerd, who enjoined the mayor and council of International Falls from issuing saloon licenses, which they contemplated doing in spite of the fact that Koochiching county had voted dry.

Fairmont.—An orphans' home costing approximately $50,000 will be built and endowed here by State Senator A. L. Ward. Bids for the construction have been opened. A Minneapolis concern submitted a bid of $22,600, which was the lowest. This firm probably will get the contract.

Red Wing.—While members of the First Methodist Episcopal and the Presbyterian churches were bowed in prayer a thief entered the lobbies and carried off several ovrcoats. Six of the worshippers went home coatless with the mercury at 12 degrees below zero.

FOR RECLAMATION OF STATE'S LANDS

COMMITTEE WORKING FOR MEASURE, PLANS EXTENSIVE EDUCATIONAL CAMPAIGN.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

Every voter of Minnesota will be asked to cast his ballot next November for Amendment No. 1, providing for the establishment of a revolving fund by the state for the development of the state lands, now wild and unproductive. Members of the committee in charge of boosting the amendment met in St. Paul, and made plans for a campaign to reach every precinct in the state.

The amendment contemplates a fund of $250,000 to be used for putting these undeveloped lands in condition to make them salable. The lands, they assert, are of no value to the state, because there are no roads leading to them, they are in no condition to be tilled. The tract amounts to nearly 2,500,000 acres.

To raise funds for carrying on the educational campaign, the committee decided to issue tags to be sold at county fairs, neighborhood picnics and political meetings at 5 cents each. It is estimated that $5,000 will be necessary to carry on the campaign.

★ ★ ★

Decrease in Three Diseases.

A marked decrease in the number of cases of scarlet fever, diptheria and typhoid fever in Minnesota in 1915 as compared with 1914 is shown in the report made by the Minnesota Board of Health. Scarlet fever cases reported in the state in 1915 were 3,813, or 2,590 less than in 1914. There were 2,610 cases of diptheria in 1915 as against 4,577 in 1914. A decrease of 808 typhoid fever cases is shown with a total of 976.

Classifications of death returns for 1915 are not yet complete, but the estimates warranted by the incomplete compilation indicate that there was a marked decrease in the death rate of 1915 from these deases as compared with that of 1914.

In 1914 there were 321 deaths from scarlet fever, 355 deaths from diphtheria and 220 deaths from typhoid fever. The estimated number of deaths in the state in 1915 are; Scarlet fever, 191; diptheria, 201, and typhoid fever, 120.

The report of the division of preventable diseases shows the number of cases reported, as follows: Smallpox 1,660; cerebro-spinal meningitis, 23; diptheria, 2,610; leprosy, 1; measles, 3,177; poliomyelitis, 104; scarlet fever, 3,813; trichinosis, 4; typhoid fever, 976; chickenpox, 1,457; erysipelas, 104; rabies (human), 1; trachoma, 19; tuberculosis, 3,869; whooping cough, 562; anthrax, 1; malaria, 1.

The prevention of smallpox by vaccination is shown by the statement that for the past three years there were 6,356 cases of smallpox in Minnesota and that 92.5 per cent of these cases were persons not vaccinated.

★ ★ ★

$1,530,495 Treasury Balance.

Business of January closed with a cash balance of $1,530,495 in the office of Walter J. Smith, state treasurer, despite the fact that the revenue fund was overdrawn $563,669. The prison revolving fund which is used to maintain the prison industries held a balance of $429,405. This fund is made up of earnings of the twine and machinery plants. The road and bridge fund contained $173,303 which will be sent to counties to aid in building roads.

★ ★ ★

Federal Aid For "U."

A check for $12,449 has been received by J. A. O. Preus, state auditor, from the Federal treasury department as government aid to the extension department of the University of Minnesota. The money is made available under provisions of the Lever bill, and covers aid for six months.

★ ★ ★

Ten Railroads Ask Stay.

Attorneys representing ten railroads affected by the common rate point order of the Railroad and Warehouse Commission asked the supreme court to stay enforcement of the order until the cases have been decided by the court.

★ ★ ★

State to Import Sisal?

That the state of Minnesota charter a steamer and make its own importations of sisal from Progreso, Mexico, for the state prison twine plant, has been suggested to the state board of control.

★ ★ ★

Would Stop Timber Sales.

The state should stop selling state timber, in the opinion of J. A. O. Preus, state auditor, who has returned from an inspection trip of county sales of state timber. "There is only about $12,000,000 to $15,000,000 worth of timber left," he said. "The state should now adopt the practice of selling as little as possible of its timber. Only that which is endangered should be sold." Sales were held in Koochiching Lake, St. Louis, Itasca and Aitkin counties, $100,000 worth of timber was disposed of.

QUIT MEAT IF KIDNEYS BOTHER AND USE SALTS

Take a Glass of Salts Before Breakfast If Your Back Is Hurting or Bladder Is Irritated.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acids of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Adv.

Cause and Effect.

"What lantern Jaws Jones has!"

"I suppose that is why his face lights up so when he talks."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

Naturally.

Noah (just before the storm)—All the animals on board?

Shem—All but the leopards, but I'll soon spot them.

GOOD REASON FOR STOPPING

Youthful Angler Not Out of Patience But of Something That Was Quite as Important.

The old man was an enthusiastic fisherman. To him there was no sport like sitting dangling a bit of string at the end of a pole. He set off in pursuit of this hobby one afternoon, and, just before reaching the river, met a lad coming back, his fishing-rod hanging limply over his shoulder.

"What's this, sonny?" exclaimed the man, in good-natured reproof. "Surely you are not giving up so soon? The fishing will be better still in an hour or two."

"I know," replied the lad, sorrowfully, "but I'm going home for all that."

"You're quickly tired," scoffed the older angler. "Next time you come out, bring more patience with you."

"'Tain't that, mister," the lad answered. "I brought plenty of patience, but not enough bait."

Might Be Different.

"Our romance began in a most romantic way. My wife saved me from drowning. She's a magnificent swimmer, you know."

"I notice you don't go out very far now."

"No. I don't know if she would save me again."

Horseshoes that are attached by bolts instead of nails have been patented by an Englishman.

FOOD FACTS
What an M. D. Learned.

A prominent physician down in Georgia went through a food experience which he makes public:

"It was my own experience that first led me to advocate Grape-Nuts food; and I also know from having prescribed it to convalescents and other weak patients that this food is a wonderful rebuilder and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and patients gain, just as I did in strength and weight, very rapidly.

"I was in such a low state that I had to give up my work entirely and go to the mountains, but two months there did not improve me; in fact I was not quite as well as when I left home. My food did not sustain me and it became plain that I must change.

"I began to use Grape-Nuts and in two weeks I could walk a mile, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life.

"As a physician who seeks to help all sufferers I consider it a duty to make these facts public."

Trial 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work wonders.

"There's a Reason." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

ARKANSAS FLOODS ENGULF SCORE OF TOWNS; 16 PERISH

LAKE FORMED BY RAGING WATERS LEAVES SEVARAL THOUSAND PERSONS HOMELESS IN SOUTHEASTERN SECTION.

ONLY UPPER STORIES IN ARKANSAS CITY VISIBLE

Levee Expected to Go Out If Mississippi Continues to Rise—Steamboats Stand by to Carry Workers to Safety—Great Damage to Property.

Little Rock, Ark., Feb. 8.—The rapidly widening lake in southeastern Arkansas formed by the flood waters of the Arkansas river pouring through breaks in the levees has engulfed a score of towns, leaving several thousand persons homeless, taking a toll of 16 lives and doing great damage to property in the rich farming territory.

If the Mississippi continues to rise as it has for several days, it is feared the levees at Arkansas City will go out.

Flood Lake 40 Miles Long.

The six or seven hundred men who remain in Arkansas City devoted the day to strengthening the levees and they were hopeful that they would hold and the town be saved.

The surface of the river is 13 feet above the town level. The flood lake is nearly 40 miles long and 20 miles wide. From it only upper stories of buildings in Arkansas City protrude. Three steamboats are standing by ready to carry the workers to safety should the levee break.

The river is still rising slowly.

Telegraph service with the town still is maintained.

On Levee Without Shelter.

The lake that extends from the Arkansas river southward with the Mississippi river levees as its eastern bank has engulfed numerous towns. At Lake Village the water rose at the rate of a half inch an hour. At Gaines Landing, four miles north of Lake Village, 400 persons were on the levee without shelter.

In Clarendon on the White river, where the levee broke Saturday night, water is six feet deep in the highest part of the town. The river stage is 37.4. Residents were being removed in motor boats.

The present flood has been the most disastrous in 40 years so far as loss of life and suffering are concerned. The property loss has not been so great because there are no crops to be destroyed.

ANSWERS FAKE CALL; ROBBED

Chicago Priest in Response to Telephone Message Hastens to Bedside—Misses $225.

Chicago, Feb. 8.—The Rev. James Burke of St. David's Roman Catholic church left the parish house hurriedly in response to a telephone call to render extreme unction to a person who was dying. The priest found no such person, but in his absence two robbers entered the house, held up the housekeeper at the point of a pistol and escaped with two bags containing $225 of contributions to the church.

LIGHTS OUT IN SUBWAY; BOMB PLOT IS SUSPECTED

New York, Feb. 7—Train service was halted in the subway twice within 20 minutes and New York's underground railway was in darkness each time for several minutes as the result of a short circuit in a cable box at the Grand Central station.

Thousands of passengers, with rumors of bomb plots fresh in their minds, became alarmed but the lights were off only a few minutes and the guards experienced little difficuty in preserving order.

Dog Guards Dead Bodies.

Seneca, Kan., Feb. 7.—County officers, summoned by one of Harvey Henry's four young children who had seen their father shoot and kill their mother and then commit suicide, found the two bodies watched over by the family dog, which paced guard up and down the narrow farm house room and snarled defiance at all who approached. Efforts to bribe the collie to cease its vigil proved unavailing and the animal had to be shot before the bodies could be removed.

Auto Show Breaks All Records.

Minneapolis, Feb. 7.—The ninth annual Minneapolis Automobile show has passed into history. It has broken all attendance, buying and space records, say the officials in charge.

Every effort was made to keep the exhibitors from taking away any of their displays before the show closed. Special trains took many of the exhibits to the Kansas City show. Others were taken to Duluth on trains leaving late Saturday night. The show closed at 11 p. m.

WONDERFUL PROGRESS IN CANADA

It Is Over the Hill—Splendid Bank Clearings, and the Crop Returns Reveal Vast Possibilities for the Future.

"There are opportunities for investment in Canada now that may prove attractive to American capital. Land prices in the west are low and wages less than on this side of the line, and whatever the outcome of the war, the future of the Dominion is assured as one of prosperity in the development of its vast resources." *Chicago Tribune.*

A short time ago the Canadian government asked for private subscriptions to a loan of fifty million dollars. Less than a month was given for completion of the subscription. On November 30th, the day upon which subscriptions were to cease, it was found that 110 million of dollars had been subscribed or 60 million dollars more than the amount asked. If there were any so pessimistic as to imagine that Canada was passing through a period of hard times the wonderful showing of this subscription should put aside all doubts of Canada's rapidly increasing prosperity.

The bank clearings of Winnipeg for 1915 were a billion and a half of dollars. Think of it. Then, in addition, there were the bank clearings of the other cities throughout Western Canada. Regina, Saskatoon and Moose Jaw also show big increase in clearings. The Winnipeg statistics show that the city has done the biggest financial, commercial and industrial business in its history in 1915. A billion and a half are big clearings, representing business on a per capita basis of over $7,000 per head for every man, woman and child in the city, and has gone ahead of big manufacturing cities like Buffalo, and runs a close second to Detroit. It has shown bigger bank clearings than the middle west cities of Minneapolis and Duluth, and has exceeded Los Angeles, Seattle and other noted shipping centers. It is now side by side with the ten biggest cities in North America in amount of bank clearings. But because the war helped Canada recover quickly from a natural economic depression it does not follow that, at the end of the war, the country must suffer a relapse, and straightway return to a state of inactivity and hard times.

A Winnipeg paper, with a well-known reputation for conservatism in economic matters says:

Canada's undeveloped fields should prove a mighty factor after the war in adjusting the country's business from one period to another. The staggering figures of this year's crop, showing increases in production of 50 per cent over last year, give a slight idea of the future wealth stored in vast stretches of prairie plain yet untouched by the plow. The Northwest Grain-Dealers' Association on September 1 estimated that the wheat crop of the three Prairie Provinces would amount to 250,800,000 bushels. On November 10 that estimate was increased to 307,230,000 bushels. The Dominion government on September 13 estimated the Western wheat crop at 275,772,200 bushels, but on October 15 those figures were changed to 304,200,000 bushels.

Monetary Returns for the Western Crop.

And the amount of money which the west is receiving for its grain has not yet been wholly appreciated. Up to the 10th of December the Canadian west had received some 170 million dollars for 182 million bushels of its grain crop, of which 149 million bushels was wheat. The average price of No. 1 Northern wheat for September was 93⅞ cents; for October 98½ cents, and for the first three weeks of November $1.03¾. On the 10th of December there was fully 120 million bushels of wheat to be marketed. This would leave about 30 million bushels for local consumption in the Prairie Provinces.

Bradstreet says:

"Confidence seems to have returned in Canada; grain crops are exceptionally large, prices pay the farmer, and the war-order lines provide work and aid in circulating much money. Credit is more freely granted, and interior merchants are disposed to buy rather liberally."—Advertisement.

Ideal Citizen.

"He's an ideal citizen?"

"What is an ideal citizen?"

"One who doesn't stop shoveling the snow off his sidewalk two feet inside his line, for fear of going six inches over."

DANGEROUS VARICOSE VEINS CAN BE REDUCED

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing.

Ask your druggist for an original two-ounce bottle of Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. So penetrating and powerful is Emerald Oil that it dissolves goitre and wens and causes them to disappear.

Sarcastic Gus—Who? The police?

Bing.

She—How I wish I were a man!

It—do you, weally.

She—Yes; don't you?

UNCONQUERABLE AMERICAN NAVY IS URGED BY WILSON

UNITED STATES SHOULD HAVE GREATEST FLEET IN WORLD, PRESIDENT TELLS AUDIENCE IN ST. LOUIS.

SAYS 500,000 MEN COULD BE RAISED IN ANY STATE

Nation's Chief Executive Demands That Steps Be Taken at Once to Back Him Up in Defending American Lives and Commerce Abroad.

St. Louis, Feb. 4.—President Wilson told an audience of 15,000, here which swayed with a tumult of cheering, that the United States should have the greatest navy in the world.

"I believe the navy of the United States should be unconquerable," he said. "The greatest in the world."

The President declared that submarine commanders abroad have instructions which for the most part conform with international law but that the act of one commander might set the world afire, including America.

"Upon the ocean there are hundreds of cargoes of American goods," he said, "cotton, grain and all the bountiful supplies America is sending out to the world, and any one of those cargoes, any one of those ships, may be the point of contact that will bring America into the war."

Must Have Ships Enough.

"America is not selfish in claiming her rights. She is merely standing for the rights of mankind while the life of mankind is being extinguished in one of the greatest catastrophies in the world.

"There isn't a better service in the world than the United States navy. But they must have ships enough and we are going to give them ships enough. We must get down to business and do it systematically.

For the first time during the tour the President told of how one set of belligerents was cut off from the world. He said this kept the United States from helping them as it would like to. He made the statement in trying to show that the United States was really neutral.

EASY TO RAISE 500,000 MEN

President Warns Kansas City Audience That Most of Munition Factories Are on Atlantic.

Kansas City, Feb. 4.—President Wilson, in his address here, demanded that steps be taken at once to back him up in defending American lives and commerce abroad. His demand met with shouts and applause from an audience of 16,000 persons who waved American flags, leaped to their seats and cheered.

When the president ceased speaking he leaned forward and asked the great throng to join him in singing "America." The band played softly the audience stood and the words of America's national anthem came in a glorious burst of song from the many throats.

Crowd Is For President.

The big crowd was for the President from the start. It waited patiently for an hour to see him and cheered itself hoarse in a three-minute demonstration when he appeared. Sixteen thousand heard him, 20,000 were turned away and 10,000 more tried to get a glimpse of him as he left his hotel for the hall.

"Why, some men in Washington are questioning if we could get the 500,000 men for which the government is asking!" he said at one point of his address.

"Would they volunteer?"

A man in the far end of the hall shouted his answer over the heads of the crowd. "Yes," he cried. A dozen, a score, fifty, echoed the word and the hall was in a turmoil. President Wilson smiled and held out his hand.

"Why, I believe," he said, as the tumult decreased, "you could raise the 500,000 men in almost any state. I believe you could get 5,000 men right here in this audience.

President Gives Warning.

The president presented a warning that most of the munition factories of the United States are on the Atlantic seaboard and that therefore the nation must be ready to repel the first big attack in order to avoid disaster.

"We are witnessing a cataclysm and God only knows what the issue shall be," was the way he prefaced his conclusion in which he asked his audience to keep cool, but to uphold the judgment of the government in its demands for a larger, more effective means of national defense.

Big Football Attendance.

According to Parke Davis, the football statistician, more than 32,000 college and scholastic football games were played this year, while more than 1,500,000 spectators saw the matches. Last season's figures were placed at 34,000 games and 6,262,000 spectators.

Dillon Whips Norton.

Jack Dillon of Indianapolis stopped Al Norton, Los Angeles heavyweight, in the fourth round of a scheduled eight-round fight at Memphis.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin drinking phosphated hot water. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your druggist or storekeeper a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish tinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Adv.

Progressive Dampness.

"Young Twobble first decided that he wanted to be a lawyer."

"Yes."

"But he thought the law was too dry, so he decided to become a doctor."

"But even that was too dry, so he opened a drug store in a dry town; and now it's the wettest place you can find in a day's walk."

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

Hitting the Nail.

Maude—Your hat's a perfect fright!

Mabel—Yes; right in the style, isn't it?

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00. —Adv.

One Kind.

"Pa, what are blood relations?"

"War stories, my son."—Boston Evening Transcript.

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

Slow.

He—And may I kiss your hand?

She—Is that the way you've been brought up?

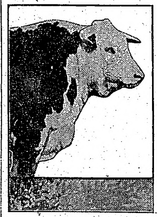
COMPARE BEEF BREEDS

Experiment Stations Unable to Say Which One Is Best.

Hereford Steers Made Daily Gain of 1.54 Pounds — Aberdeen Angus Have Won Ten Out of Fourteen Grand Championships.

A number of experiment stations have compared the different breeds of beef cattle, by steer feeding tests, with the result that they are unable to say, under the general farm conditions, which one is best.

As an average of experiments by four different stations, Hereford steers made an average daily gain at the age of two years and eight months of 1.54 pounds; Shorthorn steers in five experiments, at an age of two years and nine months, made an average daily gain of 1.5 pounds; Angus steers in four different experiments made an average daily gain at an age of two years and eight months of 1.53 pounds, and Galloway steers in three different experiments made an average daily gain from birth to an age of two years and seven months of 1.62 pounds.



Excellent Beef Type.

This is not enough difference to warrant anyone saying that any one of these prominent beef breeds gains more rapidly than another. Conditions might readily enough have been changed, and perhaps only slightly, so as to change these gains one way or another in the case of any or all of the breeds. In general farm feeding steers of all four breeds will do about equally well in the feed lot in the making of daily gains.

Neither is there much difference in the feed it takes to produce a pound of gain by the steers of these four breeds. In eight different experiments at five different stations, Shorthorn steers required an average of 694 pounds of grain to produce 100 pounds of gain; Hereford steers required 739 pounds of grain; Angus steers, 761 pounds, and Galloway, 699 pounds. Here also a slight change in conditions of feeding or management, might have produced different results in favor of one breed or another.

Does one of the beef breeds sell enough better on the market to warrant anyone making a statement to that effect? No. The Aberdeen Angus, it is true, have won ten out of a possible 14 grand championships in the single fat steer classes at the International Live Stock exposition, 11 out of a possible 14 grand championships in the carlot fat steer classes, and 13 out of a possible 14 in the fat steer carcass classes, and this has given them the edge on prices paid for fat show cattle sold during International week at auction.

PROTECTORS FOR THE TREES

Hardware Cloth, With Mesh of About One-Fourth Inch, Will Be Found Cheap and Satisfactory.

(By LEONARD G. HERRON, Department of Horticulture, Oklahoma Agricultural College.)

Most any hardware store carries what they call hardware cloth, which has a mesh about one-fourth inch square. You can buy this by the yard and cut it in such sizes as will fit your trees when is is bound around them. Make the protectors tall enough to reach the first limbs, and also let them extend down into the ground one or two inches. We use these at the station entirely and find them very satisfactory and quite cheap.

Some people use large corn stalks and tie them about the trunks of the trees. This method is also quite satisfactory.

GOOD HINTS TO POULTRYMAN

Chicks Need Plenty of Range—Feed Liberally of Variety—Avoid Contaminated Ground.

Growing chicks need plenty of range.

Soiled and contaminated ground is a frequent source of disease among the young chicks.

Feed abundance, with variety.

The chick's constitution is made before the egg that is hatched is laid.

Exercise produces warmth, provides pleasure, and promotes health.

Care for Young Trees.

In the case of young fruit trees planted about the home grounds, where they cannot be cultivated, keep the soil stirred about them with a hoe or place around them a heavy mulch of straw or stable manure.

Dire Threat.

"No, Lena," said the mistress, "I cannot give you a recommendation. You are lazy, incompetent and slovenly, and it wouldn't be right for me to give others the impression that you are a good servant."

"Listen hare, Mrs. Yones," cried Lena, shaking her fist in the lady's face, "if you ain't bane giving me das recommendation Ay bane stay here till you do."

She got it.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.—Adv.

Rapid.

Rosa—His yacht is quite fast, isn't it?

Rayne—Very fast. You ought to see how it is going through his money.

RED, ROUGH, SORE HANDS

May Be Soothed and Healed by Use of Cuticura. Trial Free.

Nothing so soothing and healing for red, rough and irritated hands as Cuticura Soap and Cuticura Ointment. Soak hands on retiring in hot Cuticura soapsuds. Dry, and gently anoint hands with Cuticura Ointment. A one-night treatment works wonders.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Part of the Obligation.

Patient—Doc, I owe you my life.

Doctor—Yes, and that isn't all.—Minnesota Minnehaha.

Dallas, Tex., 1015 postal receipts aggregated $1,132,210.77.

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2812 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

WHAT IS URIC ACID?

THE CAUSE OF BACKACHE, RHEUMATISM, LUMBAGO

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" is 37 times more potent than *lithia*, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric" Tablets.

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best store and ask for Dr. Pierce's "Anuric."

Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past fifty years.

SPOHN'S DISTEMPER COMPOUND

Puts a ... Stop to all **Distemper**

CURES THE SICK

And prevents others having the disease no matter how exposed. 50 cents and $1 a bottle, $5 and $10 a dozen bottles. All good druggists and turf goods houses.

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT, EDITOR
W. G. HUNT, PUBLISHER

Published every Friday at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30, 305, at the post office at Sunbeam, Minn. under the Act of Congress of March 3, 1879.

The Editor of the Red Lake Falls Gazette seems to be terribly excited over the county option election to be held in Red Lake county on Feb. 28th, and has stepped from the editorial columns of his paper onto the front page, with two columns of his wonderful opinion, with big headlines, next to pure reading matter, which must be pretty expensive advertising for the county optionists. But the people understand the difference between paid advertising and the editorial opinions of an editor. It also appears that it is part of the contract to have them signed by C. R. C. Baker, but whether the signer of the articles is the C. R. C. Baker whose name appears at the head of editorial columns of the Gazette the articles do not state, but we presume not, as the articles have more the appearance of being written by an escaped lunatic from a sanitarium than an editor of a newspaper, who is supposed to represent the best interests of his home county.

The preparedness speeches being made by President Wilson, are likely to stir up the American people to prepare for, and then get into war as soon as possible, and about the first move they will make is to demand that an embargo be placed on the shipment of arms and ammunition to European nations, to be stored up for use to kill American citizens. If there is as much danger of war with a foreign power as President Wilson would lead the American people to believe there is, a prompt embargo should be placed on the shipment of arms and ammunition out of the United States, and our coasts patrolled to see that the law was enforced.

In a recent issue the Minneapolis Tribune offers the following names as possible delegates from the Ninth District to the National Republican Convention: A. G. Anderson, Fergus Falls; Nels Hegnes, Argyle; J. H. Baldwin, Frazee; A. D. Stevens, Crookston; Doctor Watson, Red Lake Falls; P. H. Konzen, Hallock and Al Kaiser, Bagley. The News-Press rises to reiterate its former remarks to the effect that it believes Pennington county is entitled to a delegate to this convention, and it hopes that other counties of the district who have been honored in the past will concede the justness of this claim, and will get behind a Pennington man.—T. R. Falls News-Press.

Governor Burnquist is wise to let all appointees of Governor Hammond remain in office, as there would undoubtedly be about fifty candidates for each position, while he could only appoint one which would of course leave him forty-nine enemies.

There does not seem to be any lack of timber for lieutenant governor this year, and there are several more yet to be heard from.

There is now considerable sentiment among the people of Thief River Falls favoring a bridge across the Red Lake River at Highlanding. But sentiment is as far as they will ever get until the river is declared a non-navigable stream. We know what we are talking about on this proposition, as we got permission of the war department eight years ago to build a bridge across the river in the town of Highlanding, but they require that the bridge shall be 22 feet high from low water mark, which of course is a prohibitive height with the low banks of the Red Lake River. We wish that some people who are talking about building bridges across this river without having it declared non-navigable, or getting permission from the war department, would consult an attorney, so they would know what they were talking about.

Stephen Sieger, the Kratka post master was elected as one of the alternate delegates to the Democratic State Convention, held at St. Paul on Feb. 3rd. Stephen has grown to be quite a factor in the Democratic party, since they came into power, but he will be ready to turn his coat the other side out after he hears the election returns in November. By the way this is the same Stephen, who was always a delegate, or candidate for one in the Republican party, when they were in power, in fact he has justly earned the name of party "sneak" after political pie. This may be all right from his view point, and we have many warm friends in the Democratic party, but we like to see a man, a man in politics, or a mouse, or a long tailed rat, instead of a political nonentity.

SCIATICA'S PIERCING PAIN

To kill the nerve pains of Sciatica you can always depend on Sloan's Liniment. It penetrates to the seat of pain and brings ease as soon as it is applied. A great comfort too with Sloan's is that no rubbing is required. Sloan's Liniment is invaluable for stopping muscular or nerve pain of any kind. Try it at once if you suffer with Rheumatism, Lumbago, Sore Throat, Pain in Chest, Sprains, Bruises, etc. It is excellent for Neuralgia and Headache. 25c. at all Druggists.—Adv.

FOR CHILDREN'S COUGH.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation. Don't put off treatment. Coughs and Colds often lead to serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All Druggists.—Adv.

LIVEN UP YOUR TORPID LIVER.

To keep your liver active use Dr. King's New Life Pills. They insure good digestion, relieve constipation, and tone up the whole system—keep your eye clear and your skin fresh and healty looking. Only 25c. at your Druggist.—Adv.

DON'T SCOLD FRETFUL CHILDREN.

That nervousness, fretting and restlessness is no doubt caused by worms or constipation. Instead of whipping or scolding, give your child a treatment of Kickapoo Worm Killer. Nice candy confections that kill the worms and are laxative enough to move the bowels and expel not only the worms but accumulated poisons. These poisons and worms bring on fever, make children nervous and irritable, reduce their vitality and make them victims of sickness. Get a box of Kickapoo Worm Killer to-day at your Druggist, only 25c.—Adv.

INSECT MARVELS.

What the Hop Aphis Unchecked Would Do In One Year.

Few persons, writes James Buckland in a report of the Smithsonian institution, realize how enormous is the number of insect species or how amazing is their power of multiplication. The number of insect species is greater by far than that of the species of all other living creatures combined. More than 200,000 have been described, and probably twice that number remain to be examined. Virtually all living animals, as well as most plants, supply food for these incomputable hordes. The fecundity of certain insect forms is astounding.

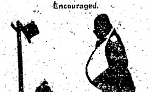
Riley once computed that the progeny of the hop aphis, which sees thirteen generations born to it in a single year, would, if unchecked to the end of the twelfth generation, multiply to the inconceivable number of ten sextillions of individuals. Supplementing that calculation, Forbush says that if this brood were marshaled in line, ten to the inch, it would extend to a point so far in the profundity of space that light from the head of the procession, traveling at the rate of 184,000 miles a second, would take 2,500 years to reach the earth.

Kirkland has computed that in eight years the progeny of one pair of gypsy moths could destroy all the foliage in the United States. A Canadian entomologist declares that in one season the descendants of a pair of potato bugs would, if unchecked, number 60,000,000.

The voracity of insects is almost as astonishing as their power of reproduction. The daily ration in leaves of a caterpillar is equal to twice its own weight. If a horse were to eat as much he would require a ton of hay every twenty-four hours. Forbush says that a certain flesh eating larva will consume in twenty-four hours 200 times its original weight. A human child, to do as well, would have to eat in the first day of its life 1,500 pounds of beef.

Trouvelot, who made a special study of the subject, affirms that the food taken by a single silkworm in fifty-six days equals 86,000 times its original weight at hatching. What destruction this one insect would cause if even a one-hundredth part of its eggs ever hatched! The facts show how great is the value to man of the insect eating birds.

Encouraged.



"So you want a job as office boy? Well, I want to inform you right now that we've had lots of office boys, and they were all worthless."

"Yes, sir; that's why I thought this was a good place to apply."—Wisconsin State Journal.

What Makes Mirrors Reflect?

Mirrors that are made of glass have metal placed on one side of the glass. The light will pass through the glass, but will not pass through the metal backing. Light has the property of bounding from a surface that it cannot penetrate, the same as a ball would when thrown against a surface that it cannot penetrate. The light passes through the glass of the mirror, meets the metal backing and then bounds from it. This bounding of the light from the metal surface is called reflection, and mirrors are said to reflect. —St. Nicholas.

A German Legend.

The Germans have a legend of Frederick Barbarossa that he is not dead, but in an enchanted sleep, sitting with his knights at a marble table in the cavern of Kyffhausen, in the Harz mountains. His long red beard has grown during this long enchantment and, covering the table, descends to the floor, and he sits thus waiting the moment that will set him free. There he has been kept for long centuries. There he must stay for ages.

One of a Pair.

The applicant for the post of butler seemed somewhat dense, but in other respects fairly suitable. Almost as an after thought the mistress of the house put a final query. "I suppose you are a single man?" she asked.

"Er—er—no, mum," he stammered. "I'm twins!"—London Opinion.

His Objection.

Scottish Bachelor—Will ye hae some tea? Visitor—Oh, please don't trouble! Bachelor—It's no the trouble; it's just the expense.—London Punch.

Hard Work.

"Pa, what is meant by literary endeavor?"

"Trying to sell the stuff, son."—Birmingham Age-Herald.

MINNESOTA HISTORICAL SOCIETY.

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, FEBRUARY 18, 1916. NO. 49

THE LOCAL NEWS

Ole Legvold of Deer Park township was transacting business at Goodridge Monday.

Brown, the Chicago Grocery Salesman, is canvassing this week.

Read the advertisement of the Goodridge Drug Store published in another column.

Ye editor and wife and daughter Myrtle visited the movies at Goodridge on Tuesday evening.

Carl and Ole Narveson have been hauling Mrs. Narveson's wheat to the Goodridge market this week.

Lenard McAndress and Willie Shosten took in the moving picture show at Goodridge last night.

Knute Dahle is finishing filling the Highlanding creamery ice house with choice Red Lake River ice, this week.

Miss Myrtle Hunt was down at Thief River Falls Monday, to have some dental work done, returning home Tuesday.

Karl Korstad, the Highlanding merchant was transacting business at Thief River Falls Wednesday, returning home yesterday.

George Baird of Erie is selling his stock and farm machinery at public auction to day and will soon leave for a visit to his old home at Erie, Pennsylvania.

The soft warm weather of this week has placed the roads in very bad condition, as the farmers begin to haul loads on them, and they are badly cut off at one side.

G. B. Tvelt of Mayfield is attending the Baird auction sale to day, It always appears that when one farmer wants to sell off his stock there is always another one ready to buy.

Wm. A. Vaughan has resigned as agent for the Minnesota Northern Electric railway line at Goodridge, and will devote his attention to his Highlanding farming interests.

There is to be a big public ball at the P. L. Wojnarowski hall, in the town of Hickory, on Saturday evening, February 19. First class music, and a fine time. All are invited.

Eddie, Lars and Henry Hyland have been hauling hay this week, from the eastern part of Highlanding township, to their homes in Deer Park township, and they find it a hard proposition to make a load of hay stay right side up on the present roads.

We had the pleasure of meeting our old friend Charles Newbury at Goodridge last Monday. Mr. Newbury was keeper of a livery barn at Thief River Falls for a good many years, but has now retired to his farm in Goodridge township where he will take life a little easier.

Municipal Judge Tarrant says that no leniency will be shown to blind piggers or boot leggers in his court. That's right Nick, go after them but you will have plenty of business next summer, but the expense for their prosecution will come on the county so that the dry advocates can pay the expenses.

There are some important changes being made in the mail routes running east from Thief River Falls. There will be a daily mail route from Mavie to Grygla running by way of Germantown, and the Highlanding route will get their mail from Mavie, instead of Thief River Falls, with Mavie as the distributing office.

Admits Moonshining In Northern Country.

Glenwood, Feb. . . E. F. Greene of this city pleaded guilty before U. S. Commissioner Whaley to having operated an illicit still and was bound over to the grand jury under $500.00 bond.

According to treasury agents this is the first case of moonshining that they have come in contact with in Minnesota.

Pope County of which Glenwood is the county seat went dry under County Option last spring and the last saloon is the county closed its doors about the first of the year.

It is understood that more cases of moonshining will be unearthed in the northern part of the state and that a number of people are under surveillance.

We have not heard of any distillery being started in Pennington county yet, as the weather has been too cold for the genuine manufacturers and sellers of booze to get in their work, but we expect the next session of the grand jury in this county will indict about as many illegal liquor dealers as the last session in Polk county did.

We do not uphold the illegal sale of intoxicating liquors, but we consider the man who sells it a gentleman, compared to the low down sneak who will go around and beg of a man for liquor that he knows he has no right to sell, and after he has got it, turn around and squeal on the blind pigger and have him arrested.

Notice!

Get your horse harnesses ready for spring's work. Call on Anderson the Goodridge harness maker who will do your repairing at reasonable prices, or will sell you any part of a harness, or a whole new harness. Goodridge, Minn.

FEED GROUND.

P. C. Wold's feed mill grinds feed on Tuesdays and Fridays of each week.. Will grind any other week day that is convenient for customers, if given notice. First class and fast work done. Give us a call, at farm residence of P. C. Wold, sec. 19, town of Highlanding.

Odd Cures For Seasickness.

Among curious remedies for seasickness is that which is popular among the mariners in the levant—the daily swallowing of iron rust, which is obtained by the simple process of scraping it off the anchor or anchor chain. But this is only part of the treatment, for a small pouch containing roasted salt and flowers of thyme must be tied upon the abdomen as firmly as can be borne, this being considered to counteract the effect of the internal disturbance caused by the rolling of the vessel. Known to the ancient Greeks as "thymian salt," the preparation has at least the authority of old age, while its efficacy is not without modern testimony. And the belt is better than salt and faith better than the belt.

Just So.

Banker—Have you ever seen a ghost?

Tecze—Well, no, but I have met lots of people who know people who have heard of people who have.—Boston Globe.

Polk County Has 1339 Autoes, and 24 Blind Piggers.

Officers of the Law all Kept Busy.

Sixty two indictments were returned by the Polk county grand jury that ended its work last evening. Of this number 24 secret indictments for violations of the liquor laws were returned yesterday afternoon.

Only two arrests were made today by Sheriff E. F. Kelly. They were Henry Brosseau, who was indicted on three counts yesterday afternoon for selling liquor illegally and William Shields who was indicted for blind pigging. Brosseau was arrainged and was releas-on $300 bonds. Shields pleaded not guilty and was released on $200 bonds.

At East Grand Forks yesterday afternoon the sheriff's department arrested Norman Anderson, who today was released on $200 bonds and Henry Keller who was arraigned this afternoon and entered a plea of not guilty. Both are alleged to have sold liquor illegally. Keller's bonds were fixed at $150 but up to late this afternoon he was unable to raise them.—Crookston Times.

It appears from the above that only one of the blind piggers arrested up to date was unable to furnish bonds, and is now being boarded at the expense of the tax payers.

This is the kind of law and order that the Red Lake Falls Gazette advises the people of Red Lake county to vote for on February 28th.

It is expected that the next session of the grand jury in Pennington county will fill our jail to overflowing, with the overflow of North Dakota blind piggers who will drift in here to do business in a dry territory. Surely that option law is some law to suppress crime.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL	24 large or 36 small	$3.95
(Brewed Specially for Family Use)

Plummer, Minnesota.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset-safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

Dr. King's New Life Pills

All Druggists 25 cents
SATISFACTION OR MONEY BACK

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Sure Test.

Brown—So you took Jake's check for $50! Can it, by any possibility, be good?

Jones—Listen! When Jake bursts into tears while signing a check it's good.—Exchange.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomaine-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from any druggist or storekeeper, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

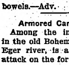
Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver kidneys and bowels.—Adv.

Armored Cars Centuries Ago.

Among the interesting documents in the old Bohemian city Saaz, on the Eger river, is a picture showing an attack on the fortress Glatz, in Silesia. 500 years ago, in which war-automobiles were used! The mechanically-driven cars were flat vehicles, protected by huge shields in front, in which the soldiers turned large cranks, the rotary motion of which was transferred to cog-wheels and to the road wheels. These fifteenth century "chauffeurs" got a speed of four miles an hour out of the armored cars.

A GRATEFUL OLD LADY.

Mrs. A. G. Clemens, West Alexander, Pa., writes: I have used Dodd's Kidney Pills, also Diamond Dinner Pills. Before using them I had suffered for a number of years with backache, also tender spots on spine, and had at times black floating specks before my eyes. I also had lumbago and heart trouble. Since using this medicine I have been relieved of my suffering. It is agreeable to me for you to publish this letter. I am glad to have an opportunity to say to all who are suffering as I have done that I obtained relief by using Dodd's Kidney Pills and Diamond Dinner Pills.



Mrs. A. G. Clemens

Dodd's Kidney Pills 50c per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y. Dodd's Dyspepsia Tablets for Indigestion have been proved. 50c per box.—Adv.

Guide—This is the Lover's Leap.

Tourist—Where she proposed to him?—New York Sun.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Yes, Yes.

"I'd go through fire and water for you."

"And how about firewater?"

BULGARIA'S PEACE OFFER TO ALLIES TRUE, ATHENS SAYS

SOFIA GOVERNMENT MAKES OVERTURES FOR LAYING DOWN ARMS, ACCORDING TO DISPATCH FROM GREECE.

GERMANS MAKE TERRIFIC ATTACK ON FRENCH LINE

Capture Front of 700 Yards in Champagne Region, Berlin Reports—Make Four Successive Drives Following Hail of Shells and Bullets.

London, Feb. 15.—The Exchange Telegraph company has received the following dispatch from Athens:

"It is confirmed in Allied circles that Bulgaria has made overtures for a separate peace to the Allied powers."

Paris, Feb. 14.—Austrian aeroplanes made a raid over Ravenna and the neighboring towns of Codigoro and Bottrighe in Northeast Italy near the Adriatic. A Havas dispatch from Rome says 15 persons were killed and a number wounded.

Several women and children were among the injured.

A hospital and the basilica of Sant Apollinare at Ravenna were damaged.

London, Feb. 15.—The Germans are fiercely attacking the French positions in the Artois section as well as in Champagne. In the latter district Berlin reports the capture of a front about 700 yards while the French admit that the Germans have gained a footing in some of their advanced trenches near the Tahure-Somme-Py road.

Germans Attack Four Times.

The Artois near Hill 140, which lies to the southwest of Vimy, the German attacks followed one another in quick succession, there being four during the course of the afternoon. Pushing forward in the face of a hail of shells and bullets the Germans on their fourth attempt succeeded in entering one of the French first line trenches, which, however, they failed to hold, being almost immediately driven out with considerable losses in dead and wounded, according to Paris.

Leave Dead on Field.

Northeast of Soissons, German attack preceded by a bombardment resulted in the capture of a French trench near the Crouy road but here also they were thrown out leaving their dead on the field.

On the British end of the line, there have been sapping operations and bombardments by both sides.

All around Soissons the German artillery was busy, preparatory to infantry attacks; but the attacks did no eventuate owing to the French use of their guns in curtain of fire volleys.

In the Isonzo region the Austrians have taken from the Italians entrenchments in the Rombon zone, while the Italian artillery has bombarded Austrian positions at various points, especially in the Gorizia sector.

FORD FIGHTS PREPAREDNESS

Plans to Spend Millions in Advertising Campaign Against War and Defense Program.

Detroit, Mich., Feb. 15.—It is announced that Henry Ford is preparing to launch a country-wide campaign of advertising against the program for naval and military expenditures now before Congress.

It was said to Mr. Ford intends soon to carry out his announced intention to devote millions of dollars to an educational campaign against war and preparedness which he declared to be the first step toward actual war.

None of the details of the plan could be obtained except that Mr. Ford had been considering the campaign for some time and that "all the people of the country would be reached by it."

RAIDERS LEAVE ZEEBRUGGE

German Scout Vessels Use Belgian Port as Base, is Report From Amsterdam.

Amsterdam, via London, Feb. 15.—The Telegraaf says the German scout vessels in the North sea are believed to have gone out of Zeebrugge, as it is known armed trawlers are stationed there and that some vessels which formerly were not at that port, have been lying there under steam.

Small German warships have been active in the North sea recently. The German war office announced last week that two British cruisers had been sunk, but the British said the vessels referred to were mine sweepers, one of which failed to return to port.

Peace Hint From Prussian.

Amsterdam, Feb. 14.—A suggestion of the possibility of the conclusion of peace soon is made by Baron von Zedlitz of the Prussian diet, according to the Vossische Zeitung. The newspaper quotes him as saying:

"As regards the discussion of Germany's aims in the war situation, the conclusion of peace in the near future is not impossible, and therefore the announcement of our fundamental aims in the war appears to be necessary, if the voice of the people is to be heard at the right time."

"CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Prepared.

"What is the baby's name?"

"John James George William Henry Archibald Ebenezer."

"That's an awful string of names for the poor child to carry through life."

"Well, he's got seven uncles, and they're all speculating in war stocks. There's no telling which one of them is going to make good."

GENTLE RUBBING HELPS VARICOSE VEINS

Rubbing the swollen veins nightly for about two minutes with a gentle upward stroke brings benefit to sufferers and is mighty good advice, says an authority.

After the rubbing, which should always be toward the heart, because the blood in the veins flows that way, apply Emerald Oil (full strength) with brush or hand.

Try this simple home treatment for a few days and improvement will be noticed, then continue until veins are reduced to normal. It is very concentrated and penetrating and can be obtained at any modern drug store. It is so powerful that it also reduces Goitre and Wens.

Uncle Eben.

"How many folks," said Uncle Eben, "is tryin' to improve de world in general an' forgettin' to have de ashes carried out'n deir own basements!"

WHEN KIDNEYS ACT BAD TAKE GLASS OF SALTS

Eat Less Meat If Kidneys Hurt or You Have Backache or Bladder Misery—Meat Forms Uric Acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

That's So.

"There is no use worrying."

"But if you don't you have no excuse for joining a 'Don't Worry club'!"

Procrastination is a banana peel that has caused the downfall of many a man.

Gopher State Happenings

Important Events of Various Sections of the state reported during last few days.

AT THE STATE CAPITOL

Obtains Place on Ballot.

Walter N. Carroll of Minneapolis has accomplished two things in his litigation before the Supreme Court over the presidential primary law. He has obtained a place on the ballot, and he has induced the Supreme Court to read something out of the law.

* * *

Highway Route Approved.

A vigorous fight was necessary to approve the Jefferson highway as originally proposed, but the delegation from Minnesota which attended the meeting at Kansas City to act on the proposed highway came home able to report a victory.

* * *

Blow to State Tax Board.

The Minnesota state tax commission received a severe blow from the supreme court when the latter body held that leases on mineral lands cannot be assessed as credits. Such leases have heretofore been so assessed. The decision will mean a heavy loss for the state in taxes, though the commission was unable to tell the amount because the leases are listed with all the other credits. The case was brought by the Royal Mineral association.

* * *

Too Many Banks in State.

Unless measures are taken in the near future to curb the number of unnecessary banks being organized, Minnesota will be overrun with weak banks, according to A. H. Turritin, state superintendent of banks. Too many banks are being started in towns where banks amply able to care for the needs of the business men and people there already exist, he said. "Something must be done by the legislature soon which will make it more difficult to organize state banks."

* * *

State Normal Board Meets.

The state normal board at a meeting in St. Paul, has laid on the table the recommendation of the normal school presidents regarding extension work and aid to rural schools. The recommendations will be acted upon at some future meeting. The presidents, in their report, expressed doubt as to the advisability of establishing either study centers or correspondence coures on an extensive scale in Minnesota, advising that the work be tried out first on a small scale.

GOPHER STATE NOTES

Red Wing.—G. E. Belin, pioneer riverman and a resident of Red Wing for more than half a century, is dead.

St. Paul.—Colonel Josias B. King, the first man in the United States to enlist in the Union army in the Civil war, is dead at his home here. Colonel King was 84 years old. He died of heart trouble.

St. Paul.—Governor Burnquist announces that he has been notified by Congressman Charles A. Linbergh of Little Falls that he will discontinue further activities in connection with his filing for the Republican nomination for governor and will withdraw from the race.

Red Wing—At the annual meeting of the Goodhue County Co-operative company, George F. Gross, general manager, submitted his annual report. It showed the aggregate business done by the company amounted to about $205,000. Net profits reported to be distributed among the shareholders on purchases were nearly $11,000.

Minneapolis.—A free trip to the Minnesota State Fair Farm Boys' Camp, Sept. 4 to 9, is to be given to 177 boys who excelled last year in the state acre-yield corn contest, state pig club contest, and Northern Minnesota potato contest, as a result of action just taken by the fair board. The 1916 Camp will be nearly twice as large as any of its four predecessors.

St. Paul.—Following a four-day investigation carried on by W. J. Stevenson, acting attorney general, and J. A. O. Preus, state auditor, these officials reported to the county attorney of Ramsey county that irregularities amounting to $28,962 have been discovered in the office of State Treasurer Walter J. Smith. The irregularities included three forged district school warrants for $18,000, $4,600 and $6,000. Robert C. Pickit, alleged confessed forger of the state warrants, is locked up in the central police station here charged with second degree forgery and first degree embezzlement, and Walter J. Smith, state treasurer, is in a Minneapolis sanitarium, under official surveillance. Pickit is held without bail.

Monticello, Minn.—That Lawrence Carr of St. Paul came to his death by suicide is the verdict of the coroner of Wright county. The discovery of burned powder in the wound in the head established the coroner's theory that the shot was fired at close range. Several witnesses were examined.

Crookston—"That the farmer is the main man of the country" was the keynote of an address by George E. Vincent, president of the University of Minnesota, before the Red River Development association here. The great hall was crowded and the speaker was frequently interrupted by applause.

New Strength for Lame Backs and Worn-out Conditions

Dear Mr. Editor:

I suffered from lame back and a tired, worn-out feeling. Was unable to stand erect and scarcely able to get around. It would usually come on at first with crick in small of my back. I took Anuric Tablets and my back commenced to get better. I did not have to walk doubled over as I did before using the "Anuric." It is the best remedy I have ever taken for what it is intended to relieve.

A. G. DRAKE.

NOTE:—When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar. Ask the druggist for "Anuric," put up by Dr. Pierce, in 50-cent packages.

Classified.

"What is Dubkins, anyhow, pro-ally or pro-German?" asked Hickenlooper.

"Oh, Dubkins is a snootral," said Blifkins.

"Snootral? You mean neutral, don't you?"

"No," said Blifkins, "I mean snootral. Dubkins spends his time turning up his nose at both sides."

PREPAREDNESS!

To Fortify The System Against Grip

when Grip is prevalent LAXATIVE BROMO QUININE should be taken, as this combination of Quinine with other ingredients, destroys germs, acts as a Tonic and Laxative and thus keeps the system in condition to withstand Colds, Grip and Influenza. There is only one "BROMO QUININE." E. W. GROVE'S signature on box. 25c.

Chopping Him Off.

"I don't want to interfere with your business, but—" began the village bore.

"All right!" interrupted Cyrus K. Snapper. "Go ahead and interfere with it!"—Judge.

Not Gray Hairs but Tired Eyes make us look older than we are. Keep your Eyes young and you will look young. After the Movies Murine Your Eyes. Don't tell your age. Murine Eye Remedy Co., Chicago, Sends Eye Book on request.

Obliging to All.

"It usually is. If people had to pay for it there would be much less of it."

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

As a Special Compliment.

"My ma's gone downtown to pay some bills."

"Pooh! The man comes to the house to collect ours."

Rub It In Thoroughly.

A sprain or strain should have immediate attention to check the swelling. Rub on, and rub in thoroughly Hanford's Balsam of Myrrh. Always have a bottle on hand for accidents. Adv.

A large portion of what the world calls good luck is composed of ninety-nine parts of ambition and one part of talent.

It always makes a man peevish when people compliment him on his success and then add that they can't understand it.

Men who have a lean and hungry look are nearly always the biggest eaters.

FROM GIRLHOOD TO OLD AGE WOMEN ARE HELPED

At the first symptoms of any derangement of the feminine organism at any period of life the one safe, really helpful remedy is Dr. Pierce's Favorite Prescription for every conceivable ailment and disease of a womanly nature. It is a woman's temperance medicine and its ingredients are published on wrapper.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrhal conditions, bearing down sensations, mental depression, dizziness, fainting spells, women should never fail to take this tried and true women's medicine.

Home Talent.

A man from "upstate" had gone to a theater in New York. In an interval between the acts he turned to the metropolitan who had the seat next to him.

"Where do all them troopers come from?" he inquired.

"I don't think I understand," said the city dweller.

"I mean them actors up yonder on the stage," explained the man from afar. "Was they brought on specially for this show or do they live here?"

"I believe most of them live here in town," said the New Yorker.

"Well, they do purty blamed well for home talent," said the stranger.—Pittsburgh Chronicle-Telegraph.

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00. —Adv.

Weak Kidneys Often the Result of Overwork

On several occasions I have been unable to work and suffered severe pains in the back, due to my kidneys. I called on a doctor of Ripon, Wis., but received no relief.

I tried Dr. Kilmer's Swamp-Root which gave me instant relief. I was then able to resume work. Swamp-Root is the only relief I can get from kidney disease which I am subject to in the spring of the year. I am writing this testimonial through my own free will that sufferers of kidney and bladder diseases will know of the wonderful merits of Swamp-Root. I recommend Dr. Kilmer's Swamp-Root whenever I can and always have a bottle of Swamp-Root in my home.

I purchased Swamp-Root of Mr. C. J. Burnside, Druggist, of 202 Main Street, Ripon, Wis.

Very truly yours,
THOMAS J. LYNCH.
525 Newbury Street, Ripon, Wis.

I have read the above statement that Thomas J. Lynch bought Dr. Kilmer's Swamp-Root at my store and made oath the above statement is true in substance and fact.

E. J. Burnside.

Subscribed and sworn to before me this 15th day of November, 1911.

F. A. PRESTON.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

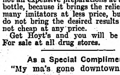
Bumper Grain Crops

Good Markets—High Prices

Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses



160 ACRE FARMS IN WESTERN CANADA FREE

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. There is no war tax on land and no conscription.

Send for illustrated pamphlet and ask for reduced railway rates, information as to best locations, etc. Address Superintendent Immigration, Ottawa, Canada, or

GARRISON BREAKS WITH PRESIDENT

SECRETARY OF WAR RESIGNS BECAUSE WILSON WILL NOT "IRSUPPORT ARMY PLAN.

DISAGREE ON FUNDAMENTALS

Opposition to Administration's Program of Setting Definite Time for Philippine Independence Another Reason for Action.

Washington, Feb. 12.—Secretary of War Lindley M. Garrison has resigned because President Wilson will not "irrevocably" support the continental army plan, and because he opposes the administration's program of setting a definite time for Philippine independence.

Resignation Is Accepted.

President Wilson accepted the resignation and has not yet selected a successor.

Assistant Secretary Breckinridge also resigned as a mark of loyalty to his chief, whose views he shared. The President accepted his resignation. Both take effect immediately.

Major General Hugh L. Scott, chief of staff of the army, automatically becomes secretary of war ad interim.

For Federal Continental Army.

It is known that one of Secretary Garrison's principal reasons for his conviction that only a federal continental army instead of a reorganized national guard could be the main military dependence of the nation was his belief that some day the United States may be called upon to defend the Monroe doctrine, and in that event he foresaw that the national guard might not be available for use outside of the United States before a declaration of war.

Mr. Garrison's contentions that only the plans of the war department could be considered seemed to the President "wholly unjustifiable."

START NATIONAL CAMPAIGN

Suffragists Hold Conference to Urge Congressmen to Support Amendment to Constitution.

New York, Feb. 12.—The first of a series of conferences by means of which suffragists plan to organize the country geographically to unify their campaign in support of the Susan B. Anthony constitutional amendment has just been held here. Delegates were present from New Jersey, Delaware, Pennsylvania, Maryland and New York.

Plans were made for raising funds to send organizers into states where women already have the vote, to induce the voters to urge their senators and representatives to support the proposed amendment in Congress. About $5,000 was pledged, bringing the eastern campaign fund for this movement up to $60,000.

PEACE CONFERENCE OPENED

Neutral Society For Continuous Mediation, Outgrowth of Ford Expedition, Holds First Meeting.

Stockholm, Feb. 11.—The neutral conference for continuous mediation, the outgrowth of the Ford peace expedition, has had its first regular meeting here.

Mayor Carl Lindhagen of Stockholm, in an address expressed hope of future accomplishments in the cause of peace.

A message of greeting was cabled to Henry Ford. Louis P. Lochner of Chicago was elected general secretary.

Montreal City Hall Threatened.

Montreal, Que., Feb. 11.—Rumors that an attempt would be made to burn down the city hall at 12:30 p. m. led Mayor Martin to call out all the police reserves and a large section of the fire department. Valuable papers were locked in the safes, employes were armed with hand extinguishers and hose was made ready to flood the building. Guards remained on duty late in the afternoon. A man phoned the mayor that he heard another man say in a street car that the city hall was to be destroyed at 12:30.

CUMMINS RIDICULES WILSON

SCORES PRESIDENT'S "VACILLATING VIEWS" ON PREPAREDNESS

Iowa Senator Makes First and Only Western Address of Republican Pre-convention Campaign.

St. Paul, Feb. 15.—Senator A. B. Cummins of Iowa ridiculed President Woodrow Wilson for what he called his "vacillating views" on preparedness and for his policies toward the Mexican and European situations in a speech before the Lincoln Republican club in the Saint Paul hotel. Although he expressed himself as opposed to the adoption of any new policy of "preparedness" until the present war is over and its lessons understood, the liveliest demonstration of the evening came when he said:

> **"This country should so prepare that it will be humanly impossible for a hostile foot to plant itself on the soil of America."**

Scores Wilson's Weakness.

There were marked evidences of approval when he declared:

> **"No real red-blooded American ever will turn to the page which records the conduct of this administration toward Mexico without blushing. I do not charge the president with wrongdoing, but weakness and vacillation are sometimes worse than wrongdoing."**

He prophesied that as a result of the president's "weakness," the United States must intervene to furnish a nucleus around which the remnant of decency and liberty can gather. One sentence on vacillation was:

> **"On his preparedness trip, the president began at Pittsburgh with a moderate appeal to the people to speed up a little, so that in five yeaors we might have a navy like Germany's or Japan's. By the time he got to St. Louis he abandoned every American conception, and boldly declared the United States should have a navy incomparably better than any nation on earth."**

Five hundred were present, some of them men from over the state who have filed as Cummins delegates.

It was the first and only western address of the republican pre-convention campaign.

Walter T. Lemon, president of the Lincoln Republican club, introduced as toastmaster Carl W. Cummins, who in turn presented Senator Cummins as "the next president."

KITCHIN WILL NOT BE OUSTED

Speaker Clark Declares House Leader Has Right to Oppose Preparedness Program.

Washington, Feb. 14—Speaker Clark has issued a statement characterizing as nonsense talk of ousting Representative Kitchin from the House majority leadership because of his opposition to the preparedness program and other administration plans. He said he expects to leave the speaker's chair whenever he feels it necessary to oppose or support any measure, but would do so without any intent to supplant Representative Kitchin or any other committee chairman or leader.

"ENTIRELY OUT OF POLITICS"

Justice Hughes Declares He Is Totally Opposed to Use of His Name as Presidential Candidate.

Washington, Feb. 11.—Representative Slemp, chairman of the Virginia Republican committee, has made public a letter from Justice Hughes, declaring: "I am totally opposed to the use of my name in connection with the nomination and to the selection or instruction of any delegates in my interest, directly or remotely."

At the beginning of his letter Justice Hughes wrote, significantly: "I am entirely out of politics."

Northcliffe May Accept Cabinet Seat.

London, Feb. 12.—Lord Northcliffe may be induced to accept a seat in the cabinet, according to a report circulated here. Although this rumor is ridiculed by many in view of Lord Northcliffe's unceasing strenuous fight against the government, it is a fact the realization would be welcomed thruout the country. It is impossible to overestimate Lord Northcliffe's power. Even so great an expert as Dr. E. J. Dillon of the Daily Telegraph, declares he is the most influential man in the country.

ARMED STEAMERS HELD AS WARSHIPS

SUCH MERCHANT SHIPS TO BE SUNK WITHOUT WARNING, TEUTONS ANNOUNCE.

AMERICANS GIVEN WARNING

Will Be Entitled to No More Protection from American Government Than if They Had Embarked Upon Allied Warship.

Washington, Feb. 12.—Germany and Austria formally have notified the United States that beginning March 1, commanders of their submarines will consider armed merchant ships of the Allies to be warships and will treat them accordingly.

Under such instructions, a commander would be at liberty to sink without warning any armed vessel, whether passenger or freight carrying.

The notifications were presented orally to Secretary Lansing by Count von Bernstorff, the German ambassador, and Baron Erich Zwiedinek, charge of the Austro-Hungarian embassy here. Notes from their governments are to follow.

In view of this situation, American citizens, it is stated by high authority now may be warned that they will take passage aboard armed merchant ships at their own risk, and be entitled to no more protection from the United States than if they had embarked upon a belligerent warship. Officials seemed not to be able to conceive that any issue could arise in the future from a submarine warfare conducted under these rules.

GOODING SUCCEEDS SMITH

Former Official in Statement Says He Is Giving Up Office in Interest of Public Welfare.

St. Paul, Feb. 14.—Walter J. Smith has resigned as state treasurer and Arthur C. Gooding of Rochester has been appointed to succeed him in that office.

George LaFond, confidential clerk to Mr. Smith placed the resignation in the hands of Governor Burnquist and the latter immediately accepted it and appointed Mr. Gooding, who is president of the Frist National bank of Rochester, as Mr. Smith's successor.

With the resignation was a statement which, it is understood, is to be folowed by another statement. Mr. LaFond persistently denied that Mr. Smith had made a confession of any sort, but there were rumors that Mr. Smith had done so and that some intimation of such action would be found in the statement which, it is understood, will be made later.

* * * * * * * * * * * * * * * *

WILSON IS CONSIDERING NEW SECRETARY OF WAR

Washington, Feb. 14.—President Wilson's return to Washington from his week-end cruise on the Mayflower will mark the beginning of a busy week of conference with leaders in Congress over the appointment of a new secretary of war, national defense plans and other pending legislation.

* * * * * * * * * * * * * * * *

Archbishop is Guarded.

Chicago, Feb. 14.—Unusual precautions were taken by the police to guard the archbishop at a big reception tendered him. Thirty detectives were scattered through the crowd and others sat on the platform during the speaking program.

Mollie Fancher, Invalid 50 years, Dies.

New York Feb. 12.—Mollie Fancher, famous invalid of Brooklyn, who had been bedridden for 50 years, is dead. Mollie Fancher celebrated her 50th year in bed on Feb. 3. She invited President Wilson to attend the celebration. Propped up in bed, she received scores of friends. Miss Fancher was thrown from a streetcar when 16 years old. Since that time she has been constantly confined in bed. She was an ardent suffragist and a great reader. Three birds have been her constant companions for years.

Etiquette Above Hunger.

A wanderer in the wilderness and without food, the hapless city sportsman was found at last in an advanced stage of exhaustion. His rescuers propped him up against a tree trunk and offered him a cup of steaming broth. Feebly he waved them away.

"Come, old man, take a little," said they, again offering the cup.

A spasm, as of distress, passed over the city man's face.

"You—you are serving on the wrong side," he corrected in a whisper.

For he had been brought up in a home where only the very best table manners prevailed, and he had often corrected a new waitress for the same fault.—Puck.

BANISH PIMPLES QUICKLY

Easily and Cheaply by Using Cuticura Soap and Ointment. Trial Free.

Smear the pimples lightly with Cuticura Ointment on end of finger and allow it to remain on five minutes. Then bathe with hot water and Cuticura Soap and continue some minutes. This treatment is best upon rising and retiring, but is effective at any time.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Punished.

"What is that horrible looking effigy they've got stuck up in the middle of the public square?" asked the city man of the landlord of the Punkville arms.

"That sir," replied the landlord, "is the statue of Silas W. Punk, the man who founded Punkville."

"Founded Punkville, eh? Well, if that's the case he richly deserved what the artist did to him."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

PROVED HERSELF A HEROINE

How Modern Maiden Realized the Ambition of Her Life, at Great Self-Sacrifice.

"Mother!" cried the beautiful girl as she burst into her mother's stateroom on the transatlantic liner Wombat, "mother, I'm a heroine! I saved 3,000 lives!"

"How so?" queried the languid lady lazily. "So how?"

"Oh, mother, to think of the times I have read Sir Walter Scott and Robert W. Chambers and the other masters of romance and wished myself in the place of their heroines! It has been the dream of my life. And at last it has come true! I am a heroine!"

"But how, Vasmaline?" put her petulant parent.

"Oh, mother, the second mate—you know, the handsome officer with the eyebrows—the second mate was talking to me on the lee hatchway or somewhere, and all of a sudden he demanded a kiss. Of course I indignantly refused. And then, O mother, he swore if I didn't kiss him he would sink the ship with all of the 3,000 passengers aboard. Oh, mother, I am a heroine!"

Horrid Man.

Katharine—He told me I sang like his pet bird.

Kidder—Hard luck. His pet bird is a parrot.

A GOOD CHANGE.
A Change of Food Works Wonders

Wrong food and drink cause a lot of trouble in this world. To change is first aid when a person is ill, particularly from stomach and nervous troubles. As an illustration: A lady in Mo. was brought around to health again by leaving off coffee and some articles of food that did not agree with her.

She says:

"For a number of years I suffered with stomach and bowel trouble which kept getting worse until I was ill most of the time. About four years ago I left off coffee and began using Postum. My stomach and bowels improved right along, but I was so reduced in flesh and so nervous that the least thing would overcome me.

"Then I changed my food and began using Grape-Nuts in addition to Postum. I lived on these two principally for about four months. Day by day I gained in flesh and strength until the nervous trouble had disappeared. I feel that I owe my health to Postum and Grape-Nuts.

"Husband was troubled, for a long time, with occasional cramps, and slept badly. Finally I prevailed upon him to leave off coffee and take Postum. After he tried Postum for a few days he found that he could sleep and that his cramps disappeared. He never went back to coffee." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.
—sold by Grocers.

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. Robt. Stopiel, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

Inspection Lamps for Shells.

A British electrical manufacturer has designed an electric lamp for facilitating the inspection of the interior walls of shells in munition works. The equipment may be described as a tubular lamp protected by a wire guard, a long metal rod, a wooden handle in which is a pushbutton switch, and connecting cord and plug. The equipment is held by the handle while the lamp, supported on the long brass tube, is lowered into the shell to be inspected.

His Prescription.

"Doctor, I have a frightful cold in my head. What shall I take for it?"

"A handkerchief, madam."

Flattery is a sort of bad money, to which our vanity gives currency.—La Rochefoucauld.

Makes Work a Burden

A bad back makes hard work harder. All day the dull throb and the sharp, darting pains make you miserable, and there's no rest at night. Maybe it's your daily work that hurts the kidneys, for jarring, jolting, lifting, reaching, dampness and many other strains do weaken them. Cure the kidneys. Use Doan's Kidney Pills. They have helped thousands and should do as well for you. Thousands recommend them.

A Wisconsin Case

"Every Picture Tells a Story"

Julius R. Diesterhaupt, Sixth Ave., West Bend, Wis., says: "I had a steady, dull ache in the small of my back and often could hardly straighten. I got dizzy, and mornings felt all tired out. It just seemed as if I couldn't move another step. Finally I used Doan's Kidney Pills, and they did me a world of good. I have felt much better in every way since."

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

If President Wilson's complete change of front, regarding national preparedness, during the past year was brought about by the ammunition and ship building interests, they are likely to find that their money and wind were spent in vain, as Congress is now getting onto their job, and propose to take over the ammunition manufacturers and ship building yards, and place them under control of the government. This is a move in the right direction, and if those corporations don't want to sell their plants, build new ones, for they have bled the government long enough.

What this country needs for national preparedness, is the government ownership of all ammunition factories and ship building yards. This may sound like socialism, but it is business just the same, and is what the great majority of the American people are expecting Congress to do. There is no question of doubt but what the large majority of the people favor a better preparedness for defense, but they do not favor large appropriations from the government, to be turned over to corporations for worthless junk.

The best way for the farmer tax payers of Red Lake County to decide what way to vote for their own best interest, is to send a representative from the farmers clubs to Crookston, and have him look up the county option issue from a moral and a business stand point. Do you think my dear friends that it increases the morals of a community to have poison liquors peddled in out houses, livery barns and lumber yards instead of in a licensed saloon, where the proprietor is under bonds to obey the law, and keep an orderly place? We do not.

Two boot leggers were arrested at Thief River Falls, last week, and bound over to the next grand jury. This is only the opening of the ball, and as luck would have it both parties were able to give bonds, and thus save the tax payers from boarding them in jail until the court sets next summer. This is only a starter, but when the farmers read the next financial statement of Pennington county, after a years expense of prosecuting illegal liquor sellers, they will see the folly of county option in its true light.

It will be remembered that at the time Walter Smith received the nomination for State Treasurer, that this paper supported Albert Kaiser of Bagley. Well you fellows beat us out and got your candidate Smith. Now, what is the matter with trying our candidate, Kaiser? His name sounds good to the German voters, and he would have the solid backing of Northern Minnesota. This part of the state is entitled to a representative on the ticket, so give us the Kaiser.

Secretary of war Garrison has resigned from the Wilson cabinet, owing to a change of President Wilson's mind on preparedness and peace. Wilson has two members of his cabinet that will stay until the end. One is Mc Adoo who will look after the few dollars that are left in the treasury, and the other one is Burleson, post master general, who with his four efficient (?) assistants, that want their salaries increased to seven thousand five hundred dollars per year, will stay on the job until they put Wilson out of business on November 8th. There is no department of the government that is so near to the people as the post office department, and when it is run on politics, instead of listening to the peoples' petitions, those people are going to kick, and as they are the ones that do the principal part of the voting they will vote to again place that department back to its old position of being run in the interest of, and for the benefit of the people, instead of being used for the private gain of "rot gang" politicians.

Round Up Pigs

Blindpiggers, four from Winger and one from Sletton, indicted by the grand jury at its recent session and arrested by Deputy Sheriff Anton Nelson, were arrainged before Judge Wm. Watts in district court and entered pleas of guilty. Each was fined $50 and costs. C. A. Vraa, Ole Moen, William Johnson, Ole Nelson of Winger, and Halvor Ekre of Sletton were the east enders who were sentenced. —Crookston Times.

These are only a few local piggers, but just wait until warm weather comes, and the professional pigger arrive from Dakota, then watch how county option increases crime.

SCIATICA'S PIERCING PAIN

To kill the nerve pains of Sciatica you can always depend on Sloan's Liniment. It penetrates to the seat of pain and brings ease as soon as it is applied. A great comfort too with Sloan's is that no rubbing is required. Sloan's Liniment is invaluable for stopping muscular or nerve pain of any kind. Try it at once if you suffer with Rheumatism, Lumbago, Sore Throat, Pain in Chest, Sprains, Bruises, etc. It is excellent for Neuralgia and Headache. 25c. at all Druggists. —Adv.

FOR CHILDREN'S COUGH.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation. Don't put off treatment. Coughs and Colds often lead to serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All Druggists.—Adv.

LIVEN UP YOUR TORPID LIVER.

To keep your liver active use Dr. King's New Life Pills. They insure good digestion, relieve constipation, and tone up the whole system—keep your eye clear and your skin fresh and healty looking. Only 25c. at your Druggist.—Adv.

DON'T SCOLD FRETFUL CHILDREN.

That nervousness, fretting and restlessness is no doubt caused by worms or constipation. Instead of whipping or scolding, give your child a treatment of Kickapoo Worm Killer. Nice candy confections that kill the worms and are laxative enough to move the bowels and expel not only the worms but accumalated poisons. These poisons and worms bring on fever make children nervous and irritable, reduce their vitality and make them victims of sickness. Get a box of Kickapoo Worm Killer to-day at your Druggist, only 25c.—Adv.

THE SUNBEAM.

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, FEBRUARY 25, 1916. NO. 50

MINNESOTA HISTORICAL SOCIETY.

THE LOCAL NEWS

Owing to a little rush of advertising we are obliged to leave out some local news.

Read the auction sale notice published in another column, and be sure to attend.

The weather has been very fine the past week, but the roads are not fit for hauling heavy loads.

Next Wednesday is March 1st, and we hope to see him come in like a lion, then start preparing to go out like a lamb.

Judging by the number of ski's at the Highlanding school house the children have adopted a pretty sure method of traveling to school, even if the snow is deep.

Owing to the efforts of Mayor Tvedt, the people of Goodridge have got a county ditch established, running north on the western line of the village that will drain the surplus water from their streets.

Speakers for consolidated schools are working for a salary to work these schools onto the people, the same as the builders of creameries are in the localities where they are not needed. We shall publish facts and figures taken from your near neighbor consolidated school, to show the farmer tax payers of this territory where they would land with a consolidated school standing on the open prairie of Highlanding, with no school children to attend it.

We understand that there is to be a meeting at the Highlanding school house to-morrow to talk consolidated schools, and regret that we are unable to be present, but their talk of consolidated schools in this territory is a little too previous, until there is some way provided for getting across Red Lake River. The people on the south side of Red Lake river that would favor a consolidated school, would not favor any proposition to treble their taxes without receiving any benefit whatever.

K. M. Kratzer, of Deer Park has sold his farm in Deer Park township, and will remove with his family to Pennsylvania this spring. He has grown discouraged over the slowness of the building up of the country, and the lack of markets for his produce. Mr. Kratzer had a large number of cows last spring, and was a good patron of the Highlanding creamery, but was unable to get his cream across the Red Lake River, so he had to haul it down in to Red Lake county to market. But we have got a good NAVIGABLE river, and if it remains so, that will be about all we will have in a few years more, as people will not continue to reside in a country with a government fence across it.

THE WAY TO MAKE MONEY.

There was a carload of flour shipped from Plummer to Goodridge last Saturday, that was manfactured by the Terrebonne Flour Mills, labelled on the sacks, "Pride of Ada." Singers were the shippers, but it seems funny if the flour was first class flour, that the manufacturing mill did not put their own brand on it. Prehaps it is to be used to fill Indian contracts, but if it is to be sold in this territory, we caution the people to beware of "Pride of Ada" flour manufactured at Terrebonne. "Surely the way of the transgressor is hard," but his sin is quite sure to find him out.

Big Auction Sale

Having sold my farm and decided to leave the country, I will sell at Public Auction on my farm in Section 7, Town of Deer Park, 1½ miles northwest of Rhoda P. O., 2 miles south of Sunbeam P. O., 3 miles south and 1 mile west of Highlanding Post Office, on

SAT. MAR. 4th

the following personal property, to-wit:

3 Head of Horses 3

23 head of Cattle

3 Pigs 8 months old

40 Chickens 40

Farm Machinery, household goods and other articles too numerous to mention.

Sale Commences at 10 o'clock A. M.

Free lunch served at noon.

TERMS: All sums under $10.00 Cash; On sums over that amount time will be given until November 1st, 1916, on bankable paper.

K.M.Kratzer,
Owner.

Ingvald Husby, Auctioneer.
W. B. Torgerson, Clerk.

NOTICE!

Your personal property tax, for 1915, is now payable at this office. If not paid before March 1st, 1916, a ten per cent. penalty is added. Any personal property taxes remaining unpaid April 1st, are turned over to the sheriff for collection.

Very Respectfully Yours,
THEO. H. LIDEN,
County Treas.

Notice!

Get your horse harnesses ready for spring's work. Call on Anderson the Goodridge harness maker who will do your repairing at reasonable prices, or will sell you any part of a harness, or a whole new harness. Goodridge, Minn.

FEED GROUND.

P. C. Wold's feed mill grinds feed on Tuesdays and Fridays of each week. Will grind any other week day that is convenient for customers; if given notice. First class and fast work done. Give us a call, at farm residence of P. C. Wold, sec. 19, town of Highlanding.

Notice For Publication.

First Pub. in The Sunbeam Feb. 25th 1916.

Department of the Interior, U. S. Land Office, at Crookston Minn. Feb. 19th 1916. Notice is hereby given that Sven Frondal of Erie, Minn., who on May 15th, 1911 made Homestead Application Serial No. 06129 for N½ NW¼ and S W ¼ NW¼ Section 8, Township 153 N. Range 39 W. 5th, Principal Meridian, has filed notice of intention to make final Commutation proof to establish claim to the land above described, before Wilhelm Michelet, U. S. Commissioner for District of Minnesota, at Thief River Falls Minnesota, on the 1st day of April. 1916.

Claimant names as witnesses

Elling Ramsey, Sivert O. Prestegaard, Tellef Bratland, James Ramsey, all of Erie, Minn.

Proof made according to law under which entry was made.

Peter M. Ringdal.
Register.

LIVEN UP YOUR TORPID LIVER.

To keep your liver active use Dr. King's New Life Pills. They insure good digestion, relieve constipation, and tone up the whole system—keep your eye clear and your skin fresh and healty looking. Only 25c. at your Druggist.—Adv.

Polk and Pennington County Farm Land Take a Slump In Value.

Iowa and Illinois Farmers Afraid of Taxes, on Account Of Blind Pig Lawlessness.

The seekers after Northern Minnesota farm lands, from the older portions of the state are beginning to get leary over the purchase of farm lands in either Polk or Pennington counties. Pennington has been pretty good up to the present time, for not doing too much blind pigging. But it seems that Polk has established a reign of lawlessness that has never been equalled in Northern Minnesota. Six are now serving jail sentences, and several more are candidates for a position to play checkers with their nose, at the expense of the taxpayers. Polk is an old big rich county that can afford to prosecute law violators, and as the farmers were the principal ones that wanted county option, they can now stay in Polk County, and pay for the fiddler that they hired, when they voted for county option.

SATISFACTION OR MONEY BACK

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Take Hall's Family Pills for constipation.

DEFECTIVE PAGE

THE EVIDENCE IN THE CASE

Results Following Settlement Show That Conditions In Western Canada Are Highly Satisfactory.

Until a few years ago Mr. Henry Lohmann lived at Effingham, Ill. He thought he would better his condition in a new country, where he would have wider scope for his farming operations. It would not seem essential to refer to Mr. Lohmann, at this particular time, as of German blood, but for the fact that so many false statements have gone out as to ill treatment of Germans in Canada.

Writing from Willmont, Sask., under date of January 30, 1916, Mr. Lohmann says:

"We are perfectly satisfied in this country, and doing well up here.

"I bought a half section of land and took up a homestead, my three sons also took homesteads, two of them buying each 160 acres of land as well. I sold my homestead, and I and one of my sons own a threshing outfit.

"The crop this year was good; the oats went 80 to 90 bushels per acre, and wheat went 40 to 50 bushels and the price is fair."

Sam Morrow, of Millet, Alta., in writing to Mr. J. M. MacLachlan, Canadian government agent at Watertown, S. D., says: "I am well pleased with the country. The climate is better than I ever thought it could be so far north; ideal climate for stock. I have some colts and cattle that have not been inside of a stable in four years. I consider this a fine country for mixed farming. I know of farmers around here who had 42 bushels of barley to the acre and 55 bushels of oats to the acre."

Jacob Goetz, of Piapot, Sask., had 43 acres of wheat from which he got 1,200 bushels, and got an average of 93 bushels of oats to the acre.

Golden Prairie, Sask., is a district largely settled by South Dakotans. Horace Blake is one of those: He says: "The crops of 1915 were immense."

Wheat in his locality went from 40 to 55 bushels per acre; oats about 80 bushels on an average. One hundred bushels of potatoes were grown on a quarter of an acre of land; twelve potatoes weighed 30 pounds. His horses run out all winter, and come in fat. He raised excellent corn, and fattened hogs on it. He concludes an interesting letter by saying: "There are schools in every district. The people here are most all hustlers and are fast pushing to the front. When I first came up here on almost every half section stood a little 12x14 shack, now almost everyone has real modern houses and barns."

Some Southern Alberta yields for 1915:

I. H. Hooker, 82 acres, 3,820 bushels Marquis wheat No. 1, 64 pounds per bushel.

I. I. Lee, 40 acres, stubble, 1,500 bushels; 40 acres summer fallow, 2,530 bushels.

Peter Brandon, 164 acres, 7,361 bushels Marquis wheat.

R. Marandi, 135 acres, 6,920 bushels, 64 pounds per bushel.

I. McReynolds, 45 acres, 1,675, stubble.

Ole Christoferson, 50 acres, 2,647 bushels.

Aruthus Gavett, 155 acres wheat, 6,642 bushels; 30 acres oats, 2,000 bushels.

Robert Mathews, 46 acres wheat, 2,016 bushels, machine measure.

D. Dunbar, 130 acres wheat, 5,925 bushels.

Ingauld Hoppy, 80 acres wheat, 2,800 bushels, all stubble.

Louis Kragt, 80 acres wheat, 4,000 bushels.

W. J. Pate, 26 acres wheat, 980 bushels.

W. Roeniche, 150 acres wheat, 5,337 bushels, 80 of this stubble.

J. C. McKinnon, 50 acres wheat, 2,536 bushels.

Gordon Swinehart, 30 acres wheat, 1,140 bushels.

Albert Hanson, 85 acres wheat, 3,760 bushels.

Elmer Hamm, 110 acres wheat, 5,158 bushels; 90 acres oats, 6,550 bushels.

John Larson, 80 acres wheat, 3,000 bushels; 30 acres oats, 2,000 bushels.

John Hecklin, 37 acres, 1,484 bushels.

Wm. Hecklin, 100 acres, 3,376, stubble and breaking.

O. Salisbury, 50 acres Marquis wheat, 1,600 bushels on breaking.—Advertisement.

By Measurement.

For half an hour the teacher patiently instructed her class in the art of telling the time.

"Now," she said at last, as she pointed to the big clock on the wall, "you may be the first to tell me the time, Full of importance, Mary turned and studied the dial. Then she faced her teacher again, her eyes shining with triumph.

"Please, miss," she said, "it's just one inch past eleven."—Philadelphia Record.

Piles Relieved by First Application And cured in 6 to 14 days by PAZO OINTMENT the universal remedy for all forms of Piles. Druggists refund money if it fails. 50c.

A plant has been discovered in Cuba bearing fruit like figs in which flies lay their eggs, to be hatched by the sun.

SEAPLANES IN RAID ON ENGLISH COAST TAKE THREE LIVES

GERMAN AIRCRAFT DROP SEVENTEEN BOMBS OVER LOWESTOFT DOING CONSIDERABLE DAMAGE.

DESTROY ROOFS AND BLOW IN WINDOWS OF A CHURCH

Two Other Teuton Machines Pass Over Kentish—Knock Light Vessel and Drop Explosives on Walmer—British Aeroplanes Chase Enemy Craft.

Paris, Feb. 22.—L'Information prints a dispatch from Basel, Switzerland, giving Vienna newspapers as authority for the statement that a large Russian aeroplane, carrying four aviators, dropped 30 bombs on Austrian staff headquarters.

London, Feb. 22.—The Copenhagen correspondent of the Daily Mail says he learns from a trustworthy source that more than 500 prominent men including ship owners and the senators from Hamburg, Lubeck and Bremen have signed a petition asking the German government to begin peace overtures so that the war may be ended in three months. They express the fear according to this correspondent, that otherwise the Hansa states will be totally ruined.

London, Feb. 22. — Four German seaplanes made a raid over the east and southeast coasts of England, according to an official announcement. The total casualties are given as two men and one boy killed and one marine wounded. Considerable material damage was done.

The official communication says:

"The first raiders, two biplanes, appeared over Lowestoft at 10:55 a. m., and circled over the south side of the town for five minutes and dropped bombs. In about five minutes they rose to a great height and seemingly vanished. At 11:50 a. m. two seaplanes were again over the town and then vanished eastward again.

Drop Seventeen Bombs.

"Altogether 17 small high explosive bombs were dropped. There were no casualties. Considerable damage was caused to the outbuildings of a restaurant and to two dwelling houses. Two naval seaplanes went up at 11:05 a. m. and pursued the raiders, but without results.

"Meanwhile, two other German seaplanes were making for the Kentish coast. The first passed over the Kentish Knock light vessel, dropping bombs in that vicinity at 11:20 a. m. The last raider made straight for Walmer. Reaching that town at 11:27 a. m., flying at less than 2,500 feet, it dropped six bombs and turned sharply to the east.

Bombs Destroy Roofs.

"Two of the bombs that fell destroyed roofs and broke windows in the neighborhood. One of them fell close to a church, blowing in the windows as the congregation was singing 'Te Deum.' A third bomb fell on a roadway running along the beach, killing one civilian and injuring one marine.

"The total casualties were two men and one boy killed and one marine wounded.

"Two of our aeroplanes which went up from Dover pursued the raider, but apparently could not overtake him."

POISONED AT CHURCH MEAL

Thirty-five Persons Made Seriously Ill—Symptoms of Arsenic, Physician Says.

Pittsburgh, Pa., Feb. 21.—Mystery surrounds the illness of 35 persons, who were compelled to ask for medical attention, after attending a church supper in Carnegie, near here.

Opinions regarding the cause differ. One physician who attended some of the victims said he believed they were suffering from ptomaine poison, while another said the symptoms were similar to those of arsenic poisoning.

It was said that all the victims would recover.

Whitman at Ridder Memorial.

New York, Feb. 21. — Governor Charles S. Whitman presided here at a memorial service for the late Herman Ridder, editor and publisher of German newspapers and long prominent in national political affairs. United States Senator James A. O'Gorman, former Mayor George B. McClellan of New York, Dr. Charles J. Hexamer, president of the national German-American alliance and Alphonse G. Koelbe were among the speakers.

Jewels Feature Suffrage Show.

New York, Feb. 21.—The most striking things about "Melinda and her Sisters," the suffrage operetta written by Mrs. O. H. P. Belmont and Miss Elsa Maxwell, produced at the Waldorf-Astoria, were Marie Dressler's dress and Miss Pam Day's undress. Miss Dressler, as Mrs. Pepper, wore a gorgeous spangled creation coming slightly above the top of her rather high boots, and made, she declares, by her own hands. The jewels which glittered on it were once part of the tower of Jewels at the Panama exposition.

CONSULS NOTIFIED SHIPS MAY CARRY GUNS FOR DEFENSE

UNITED STATES FORMALLY DECLARES IT DOES NOT ACCEPT ANNOUNCED INTENTION OF TEUTONIC POWERS.

TEN DAYS REMAIN BEFORE SUBMARINE CAMPAIGN OPENS

Germany Probably Will Ask America For Its Definition of Defensive Armament—Attacks on Armed Merchantmen May Be Postponed Through Ambassador.

Washington, Feb. 21.—Germany's response to the latest request of the United States for assurances that submarine warfare will be conducted in accordance with established principles of international law is expected here to be a flat statement that assurances previously given in the Lusitania and Arabic cases had to do only with unarmed vessels, and that the German government must feel certain that its submarines which warn a merchant ship will not be attacked.

Furthermore, the Berlin foreign office probably will ask the United States for its definition of defensive armament.

Notice to Consuls.

The United States made its first formal declaration that it does not accept as legal the announced intentions of the Teutonic powers, when the state department sent to diplomatic and consular representatives abroad, for their information notification that this government considers that merchant ships have a right to carry defensive armament.

It was admitted at the state department that the question of writing a formal note on the subject of the conduct of submarine warfare is under consideration.

New Campaign Begins in 10 Days.

Ten days remain before German and Austrian submarine commanders begin to put into effect their new instructions, unless the date for the opening of the new campaign is postponed.

EDITORS ELECT WHEELOCK

Minnesota Association Chooses Fergus Falls Man as President—Raps Primary Law.

Minneapolis, Feb. 21.—The Minnesota Editorial Association in its closing session at the Radisson Hotel elected the following officers: President, Harry M. Wheelock, Wheelock's Weekly, Fergus Falls; first vice president, Fred E. Hadley, Winnebargo Enterprise; second vice president, Farley A. Dare, Walker Pilot; third vice president, A. O. Moreaux, Luverne Herald; treasurer, H. C. Hotaling, Mapleton Enterprise; secretary, Herman Roe, Northfield News; executive committee, Frank J. Meyst, Minneapolis; E. K. Whiting, Owatanna Journal-Chronicle, and N. H. Ingersoll, Brainerd Dispatch. All were re-elected except the president and the first vice president.

To Invite National Association.

The new president named a committee of seven to represent the association in arrangements for the National Editorial association meeting in 1917, which is planned for Minneapolis.

Amendment of the primary election law of the state to attract to public life an increasingly high quality of men, and greater efficiency and economy in the administration of government by avoiding unnecessary duplication of public offices were recommendations contained in the resolution passed in its final form by the resolutions committee.

GUARDS ON APPAM SLEEPLESS

U. S. Marshals Fail to Impress German Lieutenant That Ship Is Subject to Their Orders.

Newport News, Va., Feb. 21.—Two deputy United States marshals were in distress aboard the prize ship Appam when Marshal John G. Saunders arrived from Norfolk to see how things had been going since his men theoretically dispossessed the German prize crew.

The deputies had spent the night on deck, with nowhere to sleep and nothing to eat, and had utterly failed to impress Lieutenant Berg, the German commander, with the fact that his ship was subject to their orders.

Nobel Prize Winner Dies.

Stockholm, Feb. 21.—K. F. Arnoldson, winner of a Nobel peace prize in 1908, died, aged 71 years.

Robert L. Stevenson Letters Sold.

New York, Feb. 18.—Robert Louis Stevenson admirers noted with interest prices paid for autograph letters of Stevenson in the sale here of the collection owned by Mrs. Salisbury Field of Santa Barbara, Cal., who inherited the collection on the death of her mother, who was the author's wife. The top price was $250, paid for an unpublished letter to Stevenson's mother in 1881 in which he mentions that he was paid only $100 for "Virginibus Puerisque." A letter to Stevenson's father brought $225.

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at your druggist or general store, but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.—Adv.

Vindictive.

Bobbie had been a naughty boy, and his father was about to administer the usual punishment.

"Remember, Bobbie," he said, "this is going to hurt me more than it does you."

"I hope it does, father," replied the unrepentant boy.

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Natural Revenge.

"So your town went dry?"

"Yes, sir, and if you'll believe me, the very next week we had a flood.'

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is ofttimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Italy Comparatively Small.

The area of Italy is 110,000 square miles, while the area of California is 158,000 square miles.

Frequently a man thinks he is charitable because he gives advice.

TOMATOES IN WINTER

Crop Is of Especial Importance in Many Eastern States.

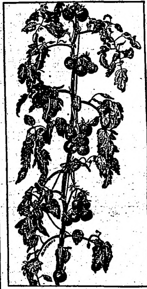
Eternal Vigilance and Exercise of Good Judgment on Part of Grower Are Essential—Product Meets Ready Demand.

Next to the potato, the tomato stands, perhaps, at the head of the list of garden vegetables in commercial importance. In Maryland, New Jersey, Delaware, Ohio, Indiana, and to a rapidly increasing extent in West Virginia, the crop is of special importance, while the greenhouses of New York and New England and the newly-developed truck fields of Florida endeavor to supply the demand for this fruit in winter.

By far the larger portion of the area devoted to this crop is employed in supplying fruit for the canning factories, and it is the demand of the canneries which more than any other has given the great impetus to tomato culture.

Successful tomato culture under glass depends as much upon the man in charge as upon conditions. Eternal vigilance and the exercise of good judgment on the part of the grower are more essential than strict adherence to set rules. The crop is one which demands constant care and intelligent management, but under suitable conditions the returns are very satisfactory, and the product meets a ready demand at good prices.

The most important conditions for forcing tomatoes are: A warm, light house—one having a two-thirds span facing the south being preferable—strong bottom heat, rich soil, careful training, uniform temperature, care in watering and pollinating, and, as before suggested, good judgment and constant watchfulness on the part of the grower. Bottom heat is not absolutely essential to success, but the crop matures more quickly if given this condition.



Single-Stem Plant in Forcing House, Showing Method of Tying Fruit Cluster.

The plants are treated in every way as for outdoor culture till handled the last time. For fruiting some prefer benches, with about six inches of soil; but, in the writer's experience, the best results have been obtained from the use of boxes 18 inches square and 12 inches deep. In the bottom of the boxes is placed a layer of charcoal, broken pots, or "clinkers" from the furnace, after which soil, consisting of three parts good garden loam and one part well-rotted stable manure, is filled in to within two or three inches of the top. Each box will hold four plants, and the check caused by the partial confinement of the roots seems to be of value in hastening maturity. If the solid bed is used instead of the boxes, the plants are set about sixteen inches apart each way, thus occupying a little more than one and one-half square feet of floor space for each plant.

Best returns usually follow where the plants are trained to a single stem. Flax cords, about the size of wool twine, are fastened to the corners of the boxes or to wires placed parallel to each row, for that purpose, and attached above to wires running lengthwise of the building, on the rafters or sashbars.

As the fruit sets the clusters should be supported by means of a small cord or piece of raffia passing around the main stem above a leaf, thus forming a sling. At this time, too, it is well to stir the surface of the soil and work in a quantity of well-rotted manure or to give frequent applications of liquid manure.

Paint Improves.

Painting aids greatly in improving the appearance and prolonging the life of machines. It should be used freely when needed. Red lead and linseed oil make a tenacious paint and one of the best for all farm implements.

Protect Horses on Ice.

Now let those who have been careful to put chains on the wheels of their automobiles every time it rained see to it that their horses' feet are provided with something to keep them from skidding on the ice.

KEEP YOUNG

As well be young at 70 as old at 50.

Many elderly people suffer lame, bent, aching backs, and distressing urinary disorders, when a little help for the kidneys would fix it all up. Don't wait for gravel, or Bright's disease. Use Doan's Kidney Pills. They have helped thousands, young and old, and are recommended by thousands.

A Minnesota Case

Mrs. Carl Leochler, 605 E. Second St., Wabasha, Minn., says: "A cold on my kidneys disordered them and my back was extremely lame and painful. I couldn't turn in bed without misery, and my ankles became badly swollen. Doctors didn't think there was any help for me. Finally, I used Doan's Kidney Pills, and they gave me wonderful relief. My kidneys have been in good shape since."

BLACK LEG

LOSSES SURELY PREVENTED by Cutter's Blackleg Pills. Low-priced, fresh, reliable; preferred by Western stockmen, because they protect where other vaccines fail. Write for booklet and testimonials. 10-dose pkge. Blackleg Pills $1.00 50-dose pkge. Blackleg Pills 4.00 Use any injector, but Cutter's best. The superiority of Cutter products is due to over 15 years of specializing in vaccines and serums only. Insist on Cutter's. If unobtainable, order direct. The Cutter Laboratory, Berkeley, Cal., or Chicago, Ill.

SHOWING CHANGE IN TIMES

Historical Researches as to Status of the After-Dinner Speaker Are Somewhat Interesting.

James C. Cleary, the well-known New York lawyer and after-dinner speaker, while speaking at a banquet of hotel men in Boston, recently, referred to the "after-dinner speech" in this wise:

"I had occasion not long ago to conduct some little research into the origin, history, cause and effect of the after-dinner speech, and I was somewhat surprised to find that during the feudal days of England and also in Rome in the reign of Nero the object and purpose of the after-dinner speech were entirely different from what they are today. In those days it was considered and used exclusively as a barometer to indicate the mental and physical condition of the speaker. In other words, if the speaker, after spending an hour or perhaps several hours at the festal board, with convivial and other spirits, could then stand upon his feet and talk intelligently, or even coherently, he was considered to have demonstrated staying qualities of an exceptionally high order. In the course of time, however, the purpose of the after-dinner speech underwent a radical change, and now, instead of being used to indicate the condition of the speaker it has become a test of the physical endurance of the audience."

Long Journey to Safety.

Three thousand refugees from the devastated provinces of western Russia arrived in Irkutsk, the capital of Siberia, recently. Some of them had been 12 weeks journeying hither and thither.

Ice-Breaker Carries Passengers.

The ice-breaking ferryboat, Prince Edward Island, plying on the Straits of Northumberland, Canada, has palatial accommodations for passengers. It is the first boat of the kind to be so equipped.

Greatest Results

often come from simplest means.

For instance—one's daily food plays a big part in deciding for success or failure.

To bring out the best mental and physical forces sound nourishment is imperative.

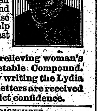
Grape-Nuts

—A FOOD

made of whole wheat and malted barley, supplies in splendid proportion all the rich nourishment of the grains, including the valuable mineral elements, lacking in many foods, but most necessary for vigor and activity of brain and body.

"There's a Reason" for Grape-Nuts

Sold by Grocers.



A Woman's Problem

How to Feel Well During Middle Life Told by Three Women Who Learned from Experience.

The Change of Life is a most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Read these letters:—

Philadelphia, Pa.—"I started the Change of Life five years ago. I always had a headache and backache with bearing down pains and I would have heat flashes very bad at times with dizzy spells and nervous feelings. After taking Lydia E. Pinkham's Vegetable Compound I feel like a new person and am in better health and no more troubled with the aches and pains I had before I took your wonderful remedy. I recommend it to my friends for I cannot praise it enough."—Mrs. MARGARET GRASSMAN, 759 N. Ringgold St., Philadelphia, Pa.

Beverly, Mass.—"I took Lydia E. Pinkham's Vegetable Compound, for nervousness and dyspepsia, when I was going through the Change of Life. I found it very helpful and I have always spoken of it to other women who suffer as I did and have had them try it and they also have received good results from it."—Mrs. GEORGE A. DUNBAR, 17 Roundy St., Beverly, Mass.

Erie, Pa.—"I was in poor health when the Change of Life started with me and I took Lydia E. Pinkham's Vegetable Compound, or I think I should not have got over it as easy as I did. Even now if I do not feel good I take the Compound and it restores me in a short time. I will praise your remedies to every woman for it may help them as it has me."—Mrs. E. KISSLING, 931 East 24th St., Erie, Pa.

No other medicine has been so successful in relieving woman's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass. Such letters are received and answered by women only and held in strict confidence.

SPOHN'S DISTEMPER COMPOUND

For **PINK EYE** DISTEMPER CATARRHAL FEVER AND ALL NOSE AND THROAT DISEASES

Cures the sick and acts as a preventative for others. Liquid given on the tongue. Safe for brood mares and all others. Best kidney remedy. Booklet, "Distemper, Cause and Cure," free. Consumers may order direct from the manufacturers. Send remittance with your order, 50 cents and $1.00 a bottle; $5.00 and $10.00 the dozen, delivered.

SPOHN MEDICAL CO., Mfrs., Goshen, Ind., U. S. A.

Railroad Ticket Many Years Old.

A twenty-nine-year-old ticket between Kansas City and Gallatin, Mo., which was used recently, had lain in the Leavenworth prison safe in the interim while the owner served a twenty-nine-year term subsequent to his arrest on the train just before the conductor came through.

SWAMP-ROOT FOR KIDNEY DISEASES

There is only one medicine that really stands out pre-eminent as a remedy for diseases of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands upon thousands of even the most distressing cases. Swamp-Root, a physician's prescription for special diseases, makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Sold at all drug stores in bottles of two sizes—fifty cents and one dollar.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Good to Them.

"Is your new servant good to the children?"

"Yes, indeed. She never tells me any of the bad things they do while I am away."

Use Murine after Exposure in Cold, Cutting Winds and Dust. It Restores, Refreshes and Promotes Eye Health. Good for all Eyes that Need Care. Murine Eye Remedy Co., Chicago, Sends Eye Book on request.

Endless.

"Paw, what's the longest period of time?"

"From one pay day to the next."—Buffalo Express.

Marriage is both an illusion and a disillusion.

Unable to Reach Bottom.

A miner lowered into a subterranean cavern opened by a miner's blast at Volcano, Nev., some time ago, was unable to discover the ends of the fissure. Stones dropped through the opening could be heard bounding from wall to wall, but there was no sound indicating that they reached the bottom.

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

Record Exports of Flour.

Minneapolis reports a record sale of flour for the last three months—a total of 6,400,000 barrels shipped, more than a million barrels ahead of any other similar period. Figured out, this means a production of more than two barrels every second of a working day.

Stop the Pain.

The hurt of a burn or a cut stops when Cole's Carbolisalve is applied. It heals quickly without scars. 25c and 50c by all druggists. For free sample write The J. W. Cole Co., Rockford, Ill.—Adv.

Differentiation.

"Have you a good cook?"

"Oh, the cook's good enough, but the cooking is atrocious."

What's Doing in Minnesota

Minneapolis.—Women of Minneapolis have enlisted in the city-wide campaign the Real Estate board has initiated to rid the city and its environs of mosquitoes.

Zumbrota.—William F. Bevers, 70 years old, dropped dead at his home here. He was born in Illinois and came to Minnesota in 1855. He was educated at Hamline university.

St. Paul. — The federal commissioner of fisheries has allotted Minnesota 25,000 land-locked salmon eggs and 200,000 lake trout eggs, according to Carlos Avery, game and fish commissioner.

Duluth. — Because his father and brother have enlisted in the Canadian forces, Alfred Cottrel, a 16-year-old boy, has been deported by the immigration officers here and will be sent back to Port Arthur to support his mother and sister.

New Ulm. — John C. Rudolph, former auditor of Brown county, is dead at the home of his daughter in Chicago. He was born in Prussia in 1828, and settled here in 1857. He took an active part in the defense of this city in the Sioux war.

Northfield. — This city has entertained the 20th annual meeting of the United Lutheran church. Seventy pastors from Minnesota, Wisconsin, Iowa, Illinois, North and South Dakota attended and a representation of lay delegates also was present.

Ponsford.—A delegation from this place attended a meeting of the Detroit Commercial club at Detroit, to consider the building of an electric line from Detroit to Ponsford. Ponsford is about 40 miles from Detroit, the county seat, and the road would mean the development of a fine farming section.

Brainerd.—The Booster club of Brainerd has gone on record by a large vote as favoring a modification of the 1855 Indian treaty. State Senator George H. Gardner praised the work of Congressman B. M. Chipperfield of Illinois "for his efforts to maintain the rights of citizens of northern Minnesota."

Minneapolis.—With $75,898 secured in signed pledges and $24,112 underwritten by the 102 teams of solicitors, the $100,000 subscription fund campaign of Minnesota college has come to a formal close. A total of $100,033, pledged and guaranteed, was reported at the closing meeting of the 500 campaign workers.

Crookston.—The jury in the J. F. Verreaux arson case here, failed to agree and was discharged by Judge Watts. This may dispose of the bribery charges against several well-known citizens made by William Richards, star witness for the state, who testified that he had been paid $75 to change his testimony.

Worthington.—The display of corn and other seeds at the annual convention of the Minnesota Crop Improvement association here is excellent as to quantity and quality, notwithstanding that 1915 was a poor corn year. Exhibits from southern Minnesota are all high grade and scored higher than the exhibits from the central and northern parts of the state.

Minneapolis.—After being present on the University of Minnesota campus for almost a week, smallpox made itself known, Stafford King of the law school being the victim. The university is taking precautions to prevent the spread of the disease. E. B. Pierce, registrar, has published notices that every student who has been directly or indirectly exposed must be vaccinated.

Minneapolis, Minn.—The editors of Minnesota went into gridiron session, were panned variously; regaled with panegyric; urged to cast off modesty and delve a little in politics; and then they cheered loudly when Michael Dowling of Olivia lighted the fuse to a preparedness bomb. It was the big social session of the golden jubilee convention, staged in the roof garden of the Radisson hotel, and graced gloriously by the presence of the editors'

Northfield.—A cow testing association is being organized by the Northfield Holstein club and Gaylord Hancock, agricultural instructor in the local high school. The decision to organize was made at a meeting of the Holstein club which was addressed by Professor W. A. McKerrow of the state agricultural college. The club also voted, following an address by Dr. S. H. Ward, state veterinarian, to have the dairy herds of the community tested for tuberculosis.

Duluth.—That John McAlpine, millionaire lumberman, committed suicide, was the decision of the jury which heard the suit of his widow to recover on an accident insurance policy of $28,000. The jury also returned a verdict in favor of the insurance company in addition to the special finding as to the manner in which Mr. McAlpine met his death. Suits for $89,000 were brought. This is the first time that a jury has given a definite answer as to how John McAlpine met his death.

Albert Lea. — The annual meeting of the patrons of the state creamery has been held here. One hundred and fifty heard the address by J. J. Farrel, state dairy and food commissioner. The annual report showed the creamery had produced 321,935 pounds of butter, which sold for $103,399.21.

St. Paul.—The annual reunion of the Read's Landing association of the Twin Cities will take place at the river spot August 26. The association so decided at the eighth annual midwinter picnic held at the Midway Commercial club quarters. All officers were re-elected.

STATE TO ADVANCE TWINE QUOTATIONS

CONTROL BOARD TO SET PRICES AT CONFERENCE SOON— SISAL COSTS MORE.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

Minnesota farmers must pay from three to four cents more for their binder twine bought at the Stillwater prison this year than heretofore. R. W. Wheelock, of the State Board of Control, stated that prices for the raw material are advancing. The prices for this year's binder twine will be set about March 1 at a conference between the board and Warden C. S. Reed.

Raw sisal bought for the prison in December cost 6.86 cents and a consignment procured February 8 cost the board 7.36 cents a pound.

"While the prices of twine will be higher this year," said Mr. Wheelock, "it will not go above eleven cents a pound and will still be lower than the prices asked by competitors of the prison twine plant."

Gives State 13,321 Acres.

To the vast domain which the Federal government gave to Minnesota in its infancy has just been added 13,321 acres of school lands, according to word received by Governor Burnquist from the general land office in Washington. The lands have just been patented to the state as indemnity for lands due to Minnesota, but for various reasons never obtained, and they are the first acres to be patented to the state in eight years.

The new state lands all are situated in St. Louis county, and the parcel is composed of all kinds of lands from timber to swamp lands.

J. A. O. Preus, state auditor, estimated that the lands, some of which are covered with valuable timber, are worth approximately $100,000, based on the price at which state lands are now selling.

The lieu lands were selected for the state by S. G. Iverson, former state auditor, in 1911, but it has taken five years for the work of patenting them to be handled through the routine of the general land office.

The lands originally alloted to Minnesota came to it through the act of Congress of February 26, 1857, which authorized Minnesota as a state and gave to the people of Minnesota sections 16 and 36 in each township which might thereafter be surveyed. These lands were given to the state as a nucleus of the school fund.

Sees Abundance of Seed Corn.

The seed corn situation in Minnesota is not so serious as predictions last fall held it would be at this time, according to A. C. Arny, agronomist at University farm. In fact, he says there is an adundance of seed corn, "such as it is," so far as seed supply goes, Minnesota's corn acreage the coming season should not be up to normal.

"There is plenty of good germinating corn in South Dakota to furnish Minnesota farmers with seed," Mr. Arny said, "in varieties that will mature here, though not of the kind that we'd like most to plant. Minnesota No. 13 and No. 23, varieties developed in this state and proved profitable, are a little more scarce; the situation as to them is rather acute, I should say."

★ ★ ★

Bracken Called to Washington.

Dr. H. M. Bracken, secretary of the Minnesota Board of health, has been called to Washington to give his views on the proposed establishment of a national asylum for lepers, before the senate committee on public health, of which Senator J. E. Ransdell of Louisiana is chairman. Dr. Bracken is considered an authority on leprosy, having had more than 100 cases under his observation in Minneosta at various times.

★ ★ ★

Would Sell Foreign Bonds.

The State Board of Investment held a meeting in the offices of Governor Burnquist to hear offers by brokers for all or a part of the $2,127,000 worth of foreign bonds owned by the state. The board is anxious to dispose of the bonds so that the money realized from them may be lent to Minnesota municipalities and school districts.

★ ★ ★

Affiliation Plan Deferred.

The proposed agreement of affiliation between the University of Minnesota law school and the St. Paul School of Law has been laid aside by the executive committee of the board of regents of the university until a full attendance of the board at a later date.

12 Bushel Yield Pays Cost.

Minnesota wheat growers must produce more than 12 bushels to the acre to make a profit, according to figures obtained at University farm as a result of study of five-year average of costs and returns on several farms. F. W. Peck, farm management specialist, says a yield of 12 bushels of wheat is necessary to pay the cost of cultivation, and that to pay such cost in growing corn a 30-bushel yield is necessary, in oats, 34 bushels; barley, 15 bushels; potatoes, 10 bushels; hay, one ton to the acre.

TAKE A GLASS OF SALTS WHEN BLADDER BOTHERS

Harmless to Flush Kidneys and Neutralize Irritating Acids—Splendid for the System.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in avoiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Adv.

Careless.

"What? You refuse to lend me a measley ten-spot? Many's the time I've tided you over when you were short."

"Well, if you hadn't been so darned reckless with your money you wouldn't be broke now."

DON'T LOSE ANOTHER HAIR

Treat Your Scalp With Cuticura and Prevent Hair Falling. Trial Free.

His Query.

"Darling, the furnace fire is out."

"Has that thing got the moving picture show habit, too?"

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

And Got Run In.

"Ever run over anything in your automobile?"

"Yes; over the speed limit."

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00. —Adv.

"ANURIC!"

NEWEST IN CHEMISTRY

This is a recent discovery of Doctor Pierce, head of the Invalids' Hotel, Buffalo, N. Y. Experiments for several years proved that there is no other eliminator of uric acid comparable. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, "Anuric" acts quickly. In rheumatism of the joints, in gravel and gout, invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Send Dr. Pierce 10c for large trial package. Full treatment 50c. All druggists.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 3, 1905, at the post office at Sunbeam, Minn., under the Act of Congress of March 3, 1879.

The Commercial Club of Thief River Falls is not only a credit to their city, but to Pennington county as well. They have gained the confidence of the farmers by taking an active interest in their welfare, and the farmers no longer consider them as kid gloved dudes, but an organization for the upbuilding of Pennington county. The people of Thief River Falls fully realize that the future growth and prosperity of their city depends on the prosperity of the farmers, and we have got the soil on which a working farmer can prosper, and we are pleased to note the encouragement that is being given them by the Commercial Club of Thief River Falls.

CUMMINS URGES UNITY OF PARTY

Says It Is Duty of Republicans to End Wilson Regime.

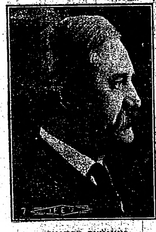
IOWAN'S LINCOLN DAY SPEECH

Points Out Mistakes of Present Democratic Administration in Address at St. Paul.

St. Paul, Feb. 13.—Senator A. B. Cummins of Iowa was the principal speaker at the Lincoln Republican club banquet here last night. He said, in part:

Mr. Toastmaster and Gentlemen of the Lincoln Republican Club:

Inasmuch as I am speaking to Republicans just entering upon an important campaign for political supremacy; Republicans who are now viewing with sadness and regret the humiliations and disaster inflicted in three years of Democratic administration, and who are profoundly convinced that the American people deserve something better, I must be permitted to recall one sentence which fell from Lincoln's lips at the very outset of the struggle of 1858. He was referring to a situation in the country at large, but it may well be invoked as the watchword for the Republican party in the months immediately before us. He said, as you will remember: "A house divided against itself cannot stand * * * * I do not expect the house to fall, but I do expect it will cease to be divided."



SENATOR CUMMINS.

The house of Republicanism, founded upon the truest principles ever espoused by the human kind and reared by the labor of the wisest and most unselfish patriots of modern time, must not fall; but to stand, it must not be divided against itself, and it has become our highest and most imperative duty to see that it is not divided, and that it shall endure for the glory of free institutions and the welfare of the people.

Wilson Regime a Failure.

The miserable failure of the present administration in managing our domestic affairs and its shameful weakness in dealing with our foreign relations have so angered the people of the country that it has become not only the imperative duty but the deepest desire of all good citizens to drive it out of power, and reinstate as speedily as the laws of the land will permit, a government that will restore the confidence and rekindle the pride which every patriot ought to feel in the strength and justice of his nation.

The president and congress began their assault upon our institutions by the enactment of a tariff law, which taking it all together is the completest compound of ignorance and indifference ever composed by a legislative body. It neither gives protection to our home markets nor yields revenue for the maintenance of the government. It defies every principle of economics ever advanced by the principles of any school of scientific thought. Had it not been for the hideous war which has paralyzed the industries of Europe, it would have put this country into bankruptcy, with no prospect of a dividend to creditors.

Tariff Hostile to Farmers.

This tariff law has no redeeming feature except the income tax, and that I may say in passing was of Republican origin, but its crowding folly and unspeakable injustice lie in the palpable and indefensible discrimination against the farmers of the country. It gives the manufacturers of the East some protection, inadequate it is true, and therefore ineffective; but it remorselessly exposes the agricultural producers in the great West to the unrestrained invasion of the whole world. It must be swept away, and in its stead there must be substituted a fair, reasonable and adequate tariff for the protection of American industries, a tariff which will enable home producers to hold their own markets in decent prosperity against all comers.

Again, the energetic but elusive secretary of commerce is insisting that we must enact an anti-dumping provision, a provision which recognizes the necessity of protective duties, but which our Democratic friends hope may be so obscured that the people generally will not perceive the admission of past folly which it clearly implies.

Why a Tariff Commission?

Again, the president and his leaders in congress are now proposing the establishment of a tariff commission. Why? For this reason and no other; they are praying that through the work of such a commission some of the disasters which their tariff law necessarily inflicts may be avoided without a frank avowal that they have imposed upon the country a policy so destructive that they dare not meet its logical outcome. The tariff commission has been for years a Republican proposal, desirable because we want to know, from time to time, the difference between the cost of production at home and abroad. We want a tariff commission in order to fix duties that will protect our home markets against unfair competition; but why does a believer in the ruinous doctrine of free trade or tariff for revenue only want a commission?

The law revising our banking system, while it has some good in it, which Republicans rather than Democrats put there, is, as a whole, a most dangerous experiment. It has not only made powerful combinations among banks lawful, but it has created a board clothed with more authority than was ever before conferred upon an administrative body.

It is a unique administration in that it abandons, without a thought of responsibility, the most vital parts of the platform upon which it came into power, and assumes that the people will be satisfied with the simple explanation that minds have changed. At this moment it is in a state of chaotic confusion. The balance in the treasury which it inherited from a Republican administration has been absorbed in the extravagance of its appropriations, and it needs money and does not know where to get it. It is blindly groping around amidst further stamp taxes, gasoline taxes, automobile taxes, income taxes, and the like, but lacks the courage to lay its hands upon anything.

Mexican Policy Shameful.

In the past three years American citizens who had a right to be in Mexico have been robbed, shot, hung and starved at the pleasure of the so called armies roving about the country; and never a thing done save a protest, now and then, to an irresponsible, cruel and lawless leader. Our government has not only failed in its duty toward our own people who are in Mexico, but it has witnessed the most atrocious outrages against Mexican men and women the world has ever known, without a decisive word or a courageous act.

At the present moment the situation in Mexico is absolutely hopeless. There was a time when in my judgment, intervention might have been avoided, but now the horrors of indiscriminate murder and the savage lust for blood and rape and all other crimes against humanity, have broken the civilized spirit of the people. They have not the strength needed to construct a government. They are starving, not by the thousands, but by the tens of thousands; and I predict that unless we are willing to stand by and see that country lapse into barbarism, and to see it ravaged day after day by the cutthroats and plunderers who are now in possession, we will be compelled to intervene simply to furnish a nucleus around which the remnant of liberty and decency can gather.

I turn to our troubles with the belligerents of Europe, strange as it may appear, with a profound relief. I believe the president was wise and patriotic in his proclamation of neutrality. Sacred as the compact of nations ought to be, and sympathetic as all right-minded men are with stricken Belgium, our country would not have been justified in declaring war because Belgium was invaded. Whether we have been in fact neutral is quite another thing. The government may have maintained, technically a neutral position, but individually, industrially, and financially we have not been neutral. Agreeing, as I think most of us do with the president in the neutrality of the nation, it is yet unfortunately true that, in maintaining the dignity of our position, and in convincing the belligerents of the sincerity of our purpose, the state department has met with ill success.

Question of Preparedness.

We are all profoundly grateful that we are not in war; but some of us are skeptical about the credit which one man claims for the peace which now prevails. The stability of the president and his administration is not forfeited when we remember that a year ago he set his face firmly against any increase in our military strength, and impliedly opposed even the maintenance of the naval program of the last few years, whereas when congress assembled last December he recommended with great earnestness an immediate addition to both army and navy and recently toured the country in advocacy of his program.

To me the course is plain before us. We ought to go quietly, firmly forward strengthening and balancing the military arm of the government according to the program universally accepted. Before any radical change is made in the policy we ought to know the outcome of the war. It may happen that conditions will arise that will compel us to stand armed ready for instant conflict, not against one nation alone but against a combination of nations; one the other hand, it may happen that the war will so close that the partial disarmament of the great countries will begin and that a long era of international peace will be assured.

Sarcastic.

Wife—All that you are you owe to me, John. John—If that was all I owed I could quit work tomorrow.—Dallas News.

To Improve Rivers

We see that Congress has appropriated money to make a survey of the Red River and the Red Lake River to improve navigation. The real woodchuck in the wood pile is where they say: "to devise plans to control lake level and stream flow in the interests of navigation and report what share land owners should contribute."

When they get through with this deal the farmers will have to pay all the expenses. People who live in this territory know the fallacy of trying to make Red Lake River a navigable stream, and they want to prepare to get into this fight to save their farms from being assessed to pay for the dredging of Red Lake River. We have repeatedly warned the people of this territory to have this river declared non-navigable and taken from under the control of the government, but one of the heavy tax payers of this town tore up one of the petitions for fear he might have to pay a few dollars extra, taxes for building bridges, but we suppose he is ready to have his land assessed for $25.00 an acre to dredge Red Lake River so they can cross it with canoes and row boats.

SCIATICA'S PIERCING PAIN

To kill the nerve pains of Sciatica you can always depend on Sloan's Liniment. It penetrates to the seat of pain and brings ease as soon as it is applied. A great comfort too with Sloan's is that no rubbing is required. Sloan's Liniment is invaluable for stopping muscular or nerve pain of any kind. Try it at once if you suffer with Rheumatism, Lumbago, Sore Throat, Pain in Chest, Sprains, Bruises, etc. It is excellent for Neuralgia and Headache. 25c. at all Druggists.—Adv.

FOR CHILDREN'S COUGH.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation. Don't put off treatment. Coughs and Colds often lead to serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All Druggists.—Adv.

THE SUNBEAM.

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, MARCH 3, 1916 NO. 51

MINNESOTA HISTORICAL SOCIETY.

THE LOCAL NEWS.

Fresh Lake Superior Herring at Ellingson's.

Ye editor is transacting business at Oklee to day.

Spring must nearly be here, as the Jew peddlers have started out.

Wm. Causin made a business trip to Thief River Falls Tuesday, returning Wednesday.

Eddie and Henry Hyland assisted Ole Strommo to drive his stock to Oklee yesterday.

There will be an auction sale, of stock and farm machinery on the farm of Roy Reiersgaard, on March 15.

People who have to go into the woods after wood, now days, certainly have some deep snow to wade.

The county optionists of Red Lake County can now say, "We have met the enemy, and we are his'n."

Auction sales are quite numerous this spring which indicates that there will be numorous changes of residents this year.

Gundor Stromme, the Oklee cattle buyer was buying up a car load of cattle in this locality this week. He ships from Oklee to St. Paul to day.

We would be thankful to those who receive bills for past due subscription, if they would remit the amount to this office, as we need the money to pay our bills.

March surely came in like a lion Wednesday morning, as it was extremely cold, but fair weather, and it has not been at all lamb like weather since.

If you have neglected to pay your personal property taxes last month, be sure to add 10 per cent to it when you make your remittance to the County Treasurer.

There was a $35.00 fur overcoat mysteriously disappeared about Kratka some three years ago, and we wonder if it would not do for a turncoat after November 8th, if it could be found.

The proposed consolidated school district of Highlanding have an assessed valuation of $156,194, which seems to take the eye of the consolidated school promoters, more than the interest of the few scattering children of this locality do.

Ludvig Larson has moved on to the Ystesund farm, so we have one more farmer. Since selling his farm in the town of Kratka, some two years ago, Mr. Larson has done considerable looking around for a new location, and finally decided to again make his home on the eleven townships.

"Mine boy Stephen will vote for Wilson in the town of Kratka; and mine boy Eddie will vote for him in the town of Highlanding, and I vote for him in Deer Park, and by gulley I bet he will be elected, so we can continue to run the mail routes."

Professor Hay spoke at the Highlanding school house last Saturday, on the advantages of a consolidated school, and his facts and figures were all right for a well settled country, but when one looks at our vacant farms and sparsely settled region, he must come to the conclusion that we have not got the people necessary to make a success of a consolidated school; and the great majority of the people of the town of Highlanding will oppose any proposition for a consolidated school, until there are more actual residents in the country.

Big Auction Sale

Having rented my farm, I will sell at Public Auction, on Thursday, March 9th, 1916, at my farm on N. E. ¼ Sec. 27, town of Kratka, all my Horses, Cattle and Farm Machinery.

Sale Commences at 11 o'clock A. M.

Free lunch served at noon.

TERMS: All sums under $10.00 Cash; On sums over that amount time will be given until November 1st, 1916, on bankable paper.

A. B. Mandt,
Owner.

Red Lake County Wet.

The county option forces were defeated in Red Lake county, at the last Monday's election by a majority of about 270 votes. Comment is unnecessary at this time, as the people have spoken and have decided to retain the high licensed saloon instead of making the county a harbor for blind piggers. Pennington and Polk, both neighboring counties have county option, which will give the people of all three counties an opportunity to see which is for the best interest of the people as a whole. We consider that as long as intoxicating liquors are manufactured and allowed to be shipped into any territory, that it is better to have it dealt out by the high licensed law abiding saloons, than to be handled by irresponsible blind piggers. The time is long since passed when a hog of a drinking man is considered a respectable American citizen, and if a man has not control enough over his own actions to abstain from getting drunk and neglecting his family and business, you cannot control him, by passing a county option law, as has already been fully demonstrated by the workings of the county option law in this county, and we consider that the people of Red Lake county took the right side of the question last Monday, when they voted to retain the licensed saloons.

We heard a prominent resident and tax payer of the county, and a man that takes a good deal of interest in the progress of Pennington county make the remark that in all of his life's experience he never saw the equal of a river running across a county, like Red Lake River runs across this county, with no way of getting across it, with the same conditions existing for ten years.

All section line roads in eastern Pennington county are now in a fairly good passable condition, during all seasons of the year, but you can not pass any great distance on them north and south before you meet that impassable Red Lake River. Last summer they used to send all strangers by way of Highlanding to get across, but when they got here they were surprised at the kind of a crossing they had; with a ferry two feet above the approaches; but there was usually some one around to tell them that this was a NAVIGABLE river. Then they would look around and say: "Where are your boats?" "Oh", would be the reply, "no boats ever run on it; but it is a navigable river, so the county won't have to go to the expense of building bridges across it."

WATCH CHILD FOR WORMS

Worms sap child's strength rob child of food and make child fretful, irritated, nervous. Watch stool and at first sign or suspicion of worms give one-half to one lozenge Kickapoo Worm Killer, a candy worm remover. Gives immediate results, is laxative. Paralyzes and removes the worms, improves digestion and general health of child. Continue giving Kickapoo Worm Killer, until all signs of worms are gone. 25c. at your Druggist.—Adv.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

WOMAN HAD NERVOUS TROUBLE

Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my oldest girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Its Place.

"What shall I do with this rasping letter?"

AMERICANS' RIGHT ON SEAS UPHELD IN LETTER BY WILSON

ADMINISTRATION'S ARMED SHIP POLICY IS MADE CLEAR IN EPISTLE ADDRESSED TO SENATOR STONE.

HONOR AND SELF-RESPECT OF NATION ARE INVOLVED

President Declares He Cannot Consent to Any Abridgment of Rights of Citizens of United States in any Respect—Says America Cannot Yield.

Washington, Feb. 26—President Wilson's determination to uphold the rights of Americans to travel on belligerent ships is made clear in a letter addressed to Senator Stone, chairman of the Senate Committee on foreign relations.

President Wilson's Letter.

The President's letter to Senator Stone follows:

"My Dear Senator—I very warmly appreciate your kind and frank letter of today and feel that it calls for an equally frank reply.

"You are right in assuming that I shall do everything in my power to keep the United States out of war. I think the country will feel no uneasiness about my course in that respect.

"Through many anxious months I have striven for that object, amidst difficulties more manifold than can have been apparent upon the surface and so far I have succeeded. I do not doubt that I shall continue to succeed. The course which the Central European powers have announced their intention of following in the future with regard to undersea warfare seems for the moment to threaten insuperable obstacles, but its apparent meaning is so manifestly inconsistent with explicit assurances recently given us by those powers with regard to their treatment of merchant vessels on the high seas that I must believe that explanations will presently ensue which will put a different aspect upon it. We have had no reason to question their good faith or their fidelity to their promises in the past and I for one feel confident we shall have none in the future.

"Our Duty is Clear."

"But in any event our duty is clear. No nation or group of nations has the right, while the war is in progress, to alter or disregard the principles which all nations have agreed upon in mitigation of the horrors and sufferings of war and if the clear rights of American citizens should ever unhappily be abridged or denied by any such action, we should, it seems to me, to have in honor, no choice as to what our own course should be.

"For my own part, I can not consent to any abridgement of the rights of American citizens in any respect. The honor and self-respect of the nation is involved. We covet peace, and shall preserve it at any cost, but the loss of honor.

"To forbid our people to exercise their rights for fear we might be called upon to vindicate them would be a deep humiliation indeed. It would be an implicit, all but explicit, acquiescence in the violation of the rights of mankind everywhere and of whatever nation or allegiance.

Would Make Efforts Futile.

"It would be a deliberate abdication of our hitherto proud position as spokesmen even amidst the turmoil of war for the law and the right. It would make everything this government has attempted and everything that it has achieved during this terrible struggle of nations meaningless and futile.

"It is important to reflect that if in this instance we allowed expedience to take the place of principle, the door would inevitably be opened to still further concessions. Once accept a single abatement of right and many other humiliations would certainly follow and the whole fine fabric of international law might crumble under our hands, piece by piece.

America Cannot Yield.

"What we are contending for in this matter is of the very essence of the things that have made America a sovereign nation. She can not yield them without conceding her own impotency as a nation and making virtual surrender of her independent position among the nations of the world.

"Faithfully yours,
"WOODROW WILSON."

Belgian Cardinal Quits Rome.

Rome (via Paris, Feb. 26.—Cardinal Mercier has left Rome for Belgium.

Clears Objection to Indictments.

San Francisco, Cal., Feb. 25.—Judge Maurice T. Dooling of the United States district court cleared away all technical objections to the indictments brought recently against Baron E. H. Von Schack, German vice consul here, and 26 other individuals and firms for alleged violations of American neutrality. Attorneys for the defendants sought to quash the indictments on the ground no competent testimony had been given to the grand jury upon which to base the indictments.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning, before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much from your druggist or at the store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.—Adv.

Hercules and the Countryman.

A countryman was driving his cart along a road filled with ruts when one of the wheels stuck in the mud and the horses were unable to draw the cart out of it. The countryman at once began to call upon Hercules to help him out of his difficulty.

"Put your shoulder to the wheel," said Hercules. "Whip up your horses and help them, for that is the only way to obtain the aid that you want."

They are helped who help themselves.—From the Fables of Aesop, the Slave.

What the Doctor Knows

KIDNEYS MUST BE RIGHT TO INSURE HEALTH

Few people realize to what extent their health depends upon the condition of the kidneys.

The physician in nearly all cases of serious illness, makes a chemical analysis of the patient's urine. He knows that unless the kidneys are doing their work properly, the other organs cannot readily be brought back to health and strength.

When the kidneys are neglected or abused in any way, serious results are sure to follow. Therefore, it is particularly necessary to pay more attention to the health of these important organs.

An ideal herbal compound that has had remarkable success as a kidney remedy is Dr. Kilmer's Swamp-Root.

The mild and healing influence of this preparation, in most cases, is soon realized, according to sworn statements and verified testimony of those who have used the remedy.

When your kidneys require attention, get Swamp-Root at once from any pharmacy. It is sold by every druggist in bottles of two sizes—50c and $1.00.

However, if you wish first to test this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Uneasy Seat.

"My," said little Alfred, as he looked up from his book, "this sailor must have been some acrobat!"

"Why, dear?" queried his mother.

"Because," replied Alfred, "it says in the book, 'Having lit his pipe he sat down on his chest.'"—Youth's Companion.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

In Backward Borneo.

According to the Horseless Age, there are only five automobiles in British North Borneo, and 2,400,000 in the United States. Now you understand why there are no gasoline millionaires in North British Borneo.—Richmond Times-Dispatch.

Throw Off Colds and Prevent Grip.

When you feel a cold coming on, take LAXATIVE BROMO QUININE. It removes cause of Colds and Grip. Only One "BROMO QUININE." E. W. GROVE'S signature on box. 25c.

If a man can afford to sit down and wait for a golden opportunity to come along he doesn't need it.

A Miss is better than a mile. No man would care to kiss a mile.

BRITISH STEAMER STRIKES MINE OFF DOVER; 40 DROWN

MALOJA WAS SISTER SHIP OF PERSIA, TORPEDOED DEC. 30 —CARRIED 119 PASSENGERS AND CREW OF 200.

THOUSANDS SEE SINKING; RESCUE SHIP IS STRICKEN

Inhabitants of English City Witness Rescue Work From Shore—Passengers on Board Ill-fated Vessel Remain Calm Until End—Tanker Empress Goes Down.

Dover, Feb. 29.—The bodies landed from the Maloja include 18 men, 11 women and 4 children. There were eleven Lascars. Among the dead is Mrs. MacLeod, wife of General McLeod. Market hall was converted into a morgue, where the police laid out the bodies of the dead on improvised biers for identification. Only two or three bodies have as yet been identified.

Dover, Feb. 29.—The steamship Maloja, 12,431-ton vessel belonging to the Peninsular and Oriental line struck a mine and sank within a half hour, two miles off Dover. More than 40 persons were drowned or killed as a result of the accident.

The Maloja, a sister ship of the Persia torpedoed and sunk off Crete, December 30, with a loss of 336 lives, left Tilbury Saturday for Bombay, with mails, 119 passengers of all classes aboard; and a crew numbering about 200, most of them Lascars. Other passengers were to join the ship at Marseilles.

High seas were running, and the captain, realizing that great damage had been done to the after part of his vessel, tried to run her aground, but the engine room was swamped and the ship became unmanageable.

The plight of the vessel was observed and dozens of craft went at full speed to her rescue.

Rescue Ship Sunk.

One of them, the British tanker Empress of Fort William, 2,180 tons, struck another mine and sank nearby.

Aboard the Maloja everything possible was done to get the passengers and crew off. All the boats had already been swung out before she struck, as a precaution against accident and those aboard had sufficient time to put on left belts, instructions in the use of which had been given the previous night. But several persons leaped into the water and were picked up by the surrounding craft. It was at first thought that all had been saved, but, later, bodies were washed ashore and their number was gradually added to during the day.

Only Meagre Details.

Owing to the fact that Dover is under strict military law, it was impossible to obtain only meagre details from the rescued. Captain C. Irving said that both passengers and crew behaved splendidly. The passengers for the most part were British officials in the Indian service, the most prominent being Judge Oldfield of the Indian high court.

Only one of the crew of the Empress of Fort William was drowned.

It was about 10:30 a. m. that the disaster occurred. Children were playing on the deck and most of the passengers were carrying life belts. Suddenly a terrific explosion blew in the side of the second saloon and 20 minutes later the Maloja sank.

Children Blown to Pieces.

Several children were blown to pieces and the deck was covered with wreckage and wounded, but there was no sign of a panic. The heavy sea made the rescue work difficult.

The majority of those saved were on rafts, of which the ship carried a large number. Most of the women and children lost their lives owing to the fact that one boat already in the water drifted under another which was being lowered, and capsized.

The captain was thrown into the water by the last lurch of the ship.

Thousands of the inhabitants of Dover witnessed the rescue work from shore. A considerable number actually saw the blowing of the ship, while almost the entire population reached the water front before the vessel went down.

French Soldiers Seek U. S. Aid.

New York, Feb. 28.—Thirty thousand maimed French soldiers are pleading for work, to be taught how to make themselves useful to their country, it is announced by Mrs. Edmund Lincoln Baylies, chairman for the United States of a movement for the organization of the American committee for training in suitable trades the maimed soldiers of France.

To Remove Uncertainty in Mining.

New York, Feb. 28.—Developments that will go far to remove much of the present uncertainty in the coal mining industry of the country are expected here this week when conferences to arrange wage scales in bituminous and anthracite fields will be resumed. Many hundred thousands tons of hard and soft coal have been stored by railroads, public service companies and manufacturing concerns as a precaution against interruption in the supply of coal, thus tying up millions of dollars of capital.

WAITING FOR THE END OF THE WAR

"Then 'Take Advantage of the Opportunities in Canada."

(Contributed by W. J. White, of the Department of the Interior, Ottawa, Canada.)

I strolled into a bank in one of the cities of the west a short time ago and the bank manager said "after the war, the Canadians should be prepared for a great influx of people. The crops that the western Canadian farms have produced in 1915, and the wealth that the farmers have had thrust upon them by the high price of grain, will make farm lands valuable and farming remunerative. After the war is over there will be thousands go to Canada to engage in agriculture and many other industries that will certainly prove profitable. Conditions will be wonderfully good. The advertising that Canada has had during the last year or two by its magnificent contribution of over 250,000 men to fight for the Empire, the wonderful sums it has given to the Red Cross and Patriotic funds, the excellent showing it made in subscribing over double when only 50 millions of dollars was asked as a war loan, the bravery, courage and hardihood of the soldiers who have fought the battles in Flanders, it is just wonderful," and my enthusiastic banker grew eloquent. One might have thought he was a subsidized booster for Canada. "But," he said, "they won't go until after the war."

"Well, now, Mr. ——, why wait until after the war? If all you say be true, and you have said nothing yet of the wonderful bank clearings of Canada today, nothing of the fact that the immense grain crop of Western Canada this year has given to every man, woman and child in that country, over three hundred dollars per head, why wait until after the war? After the war, under such conditions as you have pictured (and which are real) land values will go up, prices will increase. Advantage should be taken of the low prices at which these agricultural lands can be had today. They have not increased any as yet, and excellent farm lands can be had close to railways in old settlements, in excellent communities for from fifteen to thirty dollars per acre. The climate is good and will be no better after the war."

"What about conscription, though? Is there not a danger from conscription, and should I advise any to go there now, would they not have to face it? Then, too, there is the report that there is a heavy war tax on lands."

I was surprised to learn that these old yarns, stories that I thought had been exploded long ago, were still doing duty in many parts of the United States, and that a gentleman of the wide learning of my friend, was inclined to believe them.

"Conscription!" I said "With Canada contributing 250,000 men voluntarily enlisted, why conscription? There is no conscription in Canada, and neither will there be. It is not needed. In any case no legislation could be passed by the Dominion Parliament which would impose military service upon people who are not citizens of Canada, either by birth or naturalization. Settlers from the United States could not become naturalized British subjects until they had resided in Canada continuously for three years." I quoted from official documents.

"In the first few months of the war I clearly stated that there would not be conscription in Canada. I repeat that statement today."

"And then as to taxes," I continued, quoting again from official authority. "All taxes levied by the Federal Government take the indirect form of customs excise and inland revenue duties. It is untrue that farmers are paying direct war-tax levies and no intending settler need hesitate to come to Canada on this account.

"Official denials should convince you that all apprehensions which have been making some would-be-settlers from the United States hesitate to make a change while the war lasts are without foundation. With these misunderstandings cleared up, the present war conditions even become an added inducement to settlement in any part of the provinces of western Canada, inasmuch as war prices and keen demands for all manner of farm products afford the farmer a special opportunity to make money."

I was glad of the chance and pleased to have him state that his views had altogether changed.

I could have continued, and told him of the fortunes that had been made in the season of 1915, out of farming, wheat growing, oat growing, barley growing, cattle raising, dairying and mixed farming. I could have told him of an Ottawa (Canada) syndicate that had a yield of 130 bushels of oats per acre from their farm at Wainwright and from 60 acres of wheat field they threshed over 60 bushels per acre. These yields, while phenomenal, were repeated in many portions of western Canada. It was interesting to inform him that the average yield of spring wheat in Sackatchewan was 25.16 bushels per acre; Manitoba, 26.3 bushels; in Alberta, 36.16 bushels, and over the three provinces there was a total average of over 30 bushels per acre.

"The immense crop that has just been harvested has put millions of dollars in the hands of the farmers, and the work of distribution through the regular channels of trade has already begun. Millions of bushels of grain are still in the hands of the farmers, which means that there is a vast store of realizable wealth that will be steadily going into circulation, benefitting the thousands who are depedent indirectly on the basic industry of the province for their livelihood.

"The mock prosperity that rested on the insecure foundation of inflated real estate values has passed away, and in its place the corner stone of the country's sound financial future is being built.

"The trust and mortgage companies, the large implement concerns and the wholesale merchants all tell the same story today of marked improvement in their business. The farmers and others are meeting their just dues and paying off debts that in many cases have been long overdue. Collections are better today than they have been since the most prosperous days of our history, and obligations are being met freely and promptly.

"Now," I said, "why should they wait until the war is over?"

And he agreed with me.—Advertisement.

The Laugh That Failed.

"Laugh, and the world laughs with you," quoted the humorist with the unbarbered hair, as he handed the editor an alleged joke of the Joe Millar vintage.

"Yes," replied the editor. Then, after glancing over it, he handed it back with the comment: "But this is no laughing matter, I'm sorry to say."

Whereupon, the man of humor, with head bowed down, wandered slowly hence into the unexplored hither.

BILIOUS, HEADACHY, SICK "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

Exactly.

"Have you dyed your hair black?"

"That isn't a fair question."

NEW TREATMENT FOR SWOLLEN VEINS

Swollen veins are dangerous and often burst. Sufferers are advised to get a two-ounce, original bottle of Emerald Oil (full strength) at any pharmacist and start to reduce the veins and bunches at once.

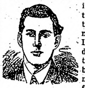
Physicians recommend Emerald Oil; it is used in hospital practice and a small bottle will last a long time, because it is very concentrated. Apply night and morning with the soft brush as directed until the swelling is reduced to normal.

It is so marvelously powerful that swollen glands, and even goitre disappear when used steadily.

Instead of wearing a laurel wreath the modern poet struggles along without a hair cut.

SUFFERED FOR FOUR YEARS.

Mr. J. M. Sinclair of Olivehill, Tenn., writes: "I strained my back, which weakened my kidneys and caused an awful bad backache and inflammation of the bladder. Later I became so much worse that I consulted a doctor, who said that I had Diabetes and that my heart was affected. I suffered for four years and was in a nervous state and very much depressed. The doctor's medicine didn't help me, so I decided to try Dodds Kidney Pills, and I cannot say enough to express my relief and thankfulness, as they cured me. Diamond Dinner Pills cured me of Constipation."



Mr. J. M. Sinclair.

No Cause for Joy.

"I am glad we do not have bullfights and bear pits in our country."

"Don't we have 'em in Wall street?"

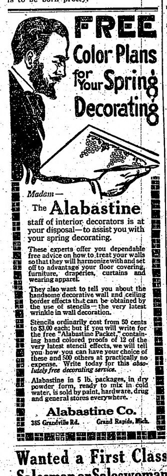
Calling a Bluff.

"My heart is a very sound organ."

"That may be, but I know a belle who can wring it."

A little nonsense then and now may stir up an awful row.

The true secret of feminine beauty is to be born pretty.



FREE Color Plans for Your Spring Decorating

Madam—

The Alabastine staff of interior decorators is at your disposal—to assist you with your spring decorating.

These experts offer you dependable free advice on how to treat your walls so that they will harmonize with and set off to advantage your floor covering, furniture, draperies, curtains and wearing apparel.

They also want to tell you about the handsome decorative wall and ceiling border effects that can be obtained by the use of stencils—the very latest wrinkle in wall decoration.

Stencils ordinarily cost from 50 cents to $3.00 each; but if you will write for the free "Alabastine Packet," containing hand colored proofs of 12 of the very latest stencil effects, we will tell you how you can have your choice of these and 500 others at practically no expense. Write today for this *absolutely free decorating service.*

Alabastine in 5 lb. packages, in dry powder form, ready to mix in cold water, is sold by paint, hardware, drug and general stores everywhere.

Alabastine Co.
385 Grandville Rd. Grand Rapids, Mich.

Wanted a First Class Salesman or Saleswoman

To call at every house in your town and the outlying districts—a high grade household necessity that every housewife wants. Quick sales—Good profits. Write at once for territory. THE MINNESOTA SALES CO., 1253 Hague Avenue, St. Paul, Minnesota

Gopher State Happenings

Important Events of Various Sections of the state reported during last few days.

AT THE STATE CAPITOL

New State Game Refuge.

The fifth game refuge in Minnesota under the new state law has been established by Carlos Avery, state game and fish commissioner, around Lakes Johanna and Josephine, north of St. Paul. The refuge includes about 5,000 acres.

* * *

Urges "Seed Corn Week."

Governor Burnquist has issued an executive letter to corn growers of Minnesota calling their attention to the fact that seed corn should be selected this year with more than ordinary care because the 1915 corn crop was under-developed. A seed corn week has been designated.

* * *

Demand For Fishing Licenses.

More money was received by the state for fishing licenses in January 1916, than in any January in 25 years, according to the monthly report of Carlos Avery, executive agent of the state board of game and fish commissioners. The fees amounted to $11,295, almost twice as much as was received in any January before, Mr. Avery said.

* * *

Funds For Highways.

According to figures compiled by State Auditor Preus the state road and bridge fund this year will realize for the highways of Minnesota $1,405,000. This estimate is made on the 1915 tax levy. Mr. Preus has certified to George W. Cooley, engineer of the state highway commission, a statement of the estimated receipts for 1916 that will accrue to the state road and bridge fund.

* * *

Not To Publish Sample Ballots.

The state legal department has ruled that county auditors will not have to publish sample ballots used in the presidential primary election. The department also holds that in printing the ballots the names of the delegates to be voted for will have to be rotated. The fact that no publication of the ballots in the official paper will be necessary will save each county considerable money.

* * *

Jefferson Route As Prize?

The Minnesota State Highway Commission may use the designation of the route for the Jefferson highway from Minneapolis to Bemidji as a prize in a road building contest. The competition plan has been suggested by R. C. Dunn, Princeton, and indorsed by several of the editors of papers along the routes not tentatively designated. The commission will meet March 7 to allot the state aid to the various counties.

GOPHER STATE NOTES

Minneapolis, Minn.—Although a score of workmen labored frantically to save him after he was caught in a cave-in at Fifteenth and Willow streets, James J. Clarkin received injuries that caused his death at the City hospital an hour later.

St. Cloud.—W. F. Houk, state labor commissioner, will secure a number of special goggles for granite workers and ask local employers to enforce their use in an effort to reduce the percentage of eye injuries. Out of 114 injuries since last July, 55 per cent were eye injuries. Mr. Houk has been interviewing all of the employers.

Minneapolis, Minn.—Directors of the Section Four Mines company of the Mesaba range, of which former State Treasurer Walter J. Smith is president and Forrest Wickey of Minneapolis, secretary, met at the Saint Paul hotel. They announced their meeting was purely routine, and had nothing to do with the state treasury scandal.

Albert Lea.—Since the farm crops class of the Albert Lea college has announced its willingness to test corn at small cost, every member has been working night and day. Tests show the 1915 corn is 30 and 50 per cent strong, while the 1914 corn tests only 18 to 47 per cent. Home-grown seed corn, tested, is selling at $6.50 to $7, but there is not enough on the market to supply the demand.

Thief River Falls.—Bringing to a close one of the most sensational divorce cases ever filed in Pennington county the court granted an absolute decree of separation to Attorney E. M. Stanton of this city from his wife, Fannie R. Stanton. The case has aroused state-wide interest because of the fact that Mrs. Stanton pleaded her own case and became known as the "Modern Portia."

Duluth.—W. J. Connors of Buffalo, who has just announced the organization of the Great Lakes Transit company to take over the package freight boats on the Great Lakes, divorced from railroad control by order of the Interstate Commerce Commission, announces that the Lake Michigan route, which has been a loser, must pay its way or be cut out.

Minneapolis.—As fruit of its Minneapolis sessions, the Minnesota Editorial association may have credited to it the crystallizing of plans for a journalistic department at the University of Minnesota.

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

Seasonal Activity.

Mrs. Knicker—What is your trade?

Said Eve unto Adam: "It gives me a pain to see you walking the floor with a Cain."

MEAT CLOGS KIDNEYS THEN YOUR BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You—Drink Lots of Water.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

He is a wise son who knows that he knows less than his father.

A dyspetic can eat his cake and still believe he has it.

CARING FOR LAMBING EWES

Weak Animals Cannot Give Birth to Vigorous Lambs—Furnish Dry, Comfortable Shelter.

The ewes that are to lamb in the spring should have good care in the winter, so they will come through strong and healthy. Weak ewes cannot give birth to vigorous lambs, and often they will die in the attempt to give birth to their offspring.

It becomes necessary, therefore, to keep the ewes under good shelter in the time of storms and bad weather, says an Oklahoma writer in Farm Progress. The ewe that must stand out in the snow or rain storm will get her wool bedrabbled and become chilled and weakened. She should have a dry, comfortable shelter, and here she should stay except when the days are bright and sunny and the ground is firm. To turn her out on soft fields may result disastrously, for she may mire down and strain herself or perish.

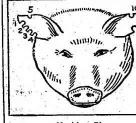
The ewe should be fed plenty of good clover or alfalfa hay, with the addition of a fair grain ration. It is not necessary for her to grow fat, but she must be kept in good flesh, so that she will be strong at lambing time. I like oats for a feed, but a little corn mixed with the oats is beneficial. A straw bedding for the sheep will be appreciated. Sheep should not be allowed to sleep on damp or wet ground in the winter. Their wool should be kept dry at all times.

Keep hogs and dogs out of the sheep pen, and when the ewes are ready to lamb separate them from the rest of the flock. One should have a comfortable stall in which the ewe may be put to bear her lamb. Here she may be kept until the lamb has learned to suck and knows the mother well.

SYSTEM FOR MARKING PIGS

Animals Will Not Bleed if Work Is Done When They Are Real Young—Cuts Are Made in Ears.

I will give you the system of marking pigs which I have used for several years. I find it much better to mark the pigs as soon as they are farrowed, writes Harry Seltz of Washington county, Neb., in Independent Farmer. They will not bleed if it is done when they are real young. Cuts in the lower part of the right ear mean 1, 2, 3 and 4; one cut in the upper part of right ear means 5; one cut in the upper part of left ear means 10, and in the lower part of the left ear one cut means 20. Thus a pig with one cut on the lower and one on the upper side of the left ear is numbered 30; with four cuts on the lower and one on the upper side of right ear is numbered 9; and an animal with all seven cuts is numbered 39.



Marking Pigs.

ARGUMENT FOR METAL POSTS

Coming Into Use on Many Farms Where Permanent Fences Are Being Made—They Will Not Burn.

There are several good and sound arguments for the use of metal posts, and they are coming into use on many farms where permanent fences are being made.

These posts can be driven, in most cases, not needing to be set. They do not rot, and will not burn. They also furnish a ground connection as a protection against lightning in case of wire fences.

Wire fences can be grounded at small cost of time and money, but as a general thing they are not. The little work and expense needed will usually be postponed until animals are killed.

Fires which get beyond control, and those set to burn out weeds and rubbish along the fences will not damage either metal or concrete posts; and all these reasons are convincing many that such posts will prove more economical than wood where wood is hard to get and replace when through service.

FEED FOR GROWING ANIMALS

Stock Seldom Recovers From Stunting Caused by Lack of Feeding During First Year.

Failure to put gains on animals during the growing season cannot be corrected by copious feeding at any other time.

Stock very seldom recovers from stunting caused by lack of proper care and feeding during the first year.

When they do, it is a costly practice to put growth and flesh on a stunted animal as compared to what could have been done when it was in a healthy and vigorous condition.

Good Grazing.

When you think of good grazing from spring to late fall think of cowpeas. They have an especial value for producing milk, growing young stock and fattening all kinds of animals.

Its Transformation.

"This," said the messenger sadly as he looked on the broken form which had been knocked out of his hands, "was once an article on electricity."

"Well, what of it?" asked a bystander.

"And now it is a piece of current pi."

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

Up His Sleeve.

Patience—Looks as if he had something "up his sleeve," doesn't he?

Patrice—He has. It's a wrist watch.

A heedless woman is fortunate in being able to talk without putting herself to the trouble of thinking.

A mean man always attributes his dislike of his neighbor to envy.

Its Kind.

"Is your husband's desire to be an aviator a trial to you?"

"Oh, it is a soar affliction!"

Its Advantage.

"Is there much in this real estate business?"

"Oh, yes; there are lots to sell."

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Blown Up.

Groans—My uncle lost his life last week in an explosion.

Grins—So? Wife or boiler?

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00.—Adv.

When a leap-year girl attempts to kiss a young man, to his credit be it said, he never threatens to call for help.

A New Remedy for Kidney, Bladder and all Uric Acid Troubles

Dear Readers:

I appeal to those of you who are bothered with kidney and bladder trouble, that you give up the use of harsh salts or alcoholic medicines and in their place take a short treatment of "Anuric." I have taken many of Dr. Pierce's medicines for the past twenty-five years with good results. I suffered with kidney trouble for some years. I recently heard of the newest discovery of Dr. Pierce, namely, his "Anuric" Tablets. After using same I am completely cured of my kidney trouble. A doctor pronounced me a well preserved woman for my age, all due, I believe, to Dr. Pierce's aid.

MRS. MELINDA E. MILLER.

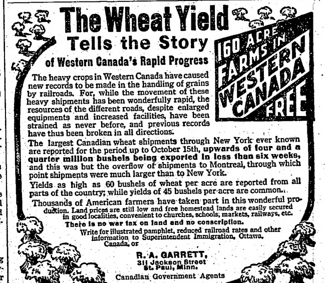
If you suffer from backache, lumbago, rheumatism, get "Anuric" now.

After Grip—Winter Colds—Bad Blood

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby—then indigestion.

Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics, is the great and powerful blood purifier of today. Extracted from American forest herbs and roots. Contains no alcohol. Ingredients printed on wrapper.

Taken as directed it will search out impure and poisonous matter throughout the system and eliminate it.



The Wheat Yield Tells the Story of Western Canada's Rapid Progress

160 ACRE FARMS IN WESTERN CANADA FREE

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, **upwards of four and a quarter million bushels being exported in less than six weeks,** and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

Write for illustrated pamphlet, reduced railroad rates and other information to Superintendent Immigration, Ottawa, Canada, or

THE SUNBEAM.

BY W. G. HUNT, EDITOR.
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 3[illegible] 1905, at the post-office at Sunbeam Minn. under the Act of Congress of March 3, 1[illegible]

PRIMARIES MARCH 14

Election supplies are being prepared by the County Auditor to be sent to township, city and village clerks for the presidential preference primary that will be held in Minnesota Tuesday March 14. At the same time voters in townships will choose their officers.

Three tickets are in the field; the Prohibition, Republican and Democratic. Eugene Foss and William Sulzer are opposing each other for presidential position on the Prohibition ticket; Albert B. Cummins, Henry D. Estabrook and Wm. Grant Webster are candidates on the Republican ticket and Woodrow Wilson alone graces the ballot of the Democratic party.

The polls of the townships will be open from 9 o'clock a. m. to 9 o'clock p. m. while the voting places in the cities are to be kept open from six o'clock a. m. to 9 o'clock p. m. The same conditions prevail as in the past June primaries when county and state office candidates were voted upon. The distribution of the supplies, the canvassing of votes, the returns and all other matters that came at the time of the June primary will be in all respects the same at this primary.

A primary for the nomination of state officials will be held in Minnesota in June.

It seems that it must be necessary for the publishers of the delinquent tax list to put in an extra supply of cap "U's" as it seems easier for the copy writers to write unknown than to give the name of the delinquents, Land is marked owner unknown on that list that has been deeded land for six years to our certain knowledge. A delinquent tax list of that kind must be gotten out to give the bankers notice to buy up tax receipts instead of giving the owner notice to pay up. We know of one case of that kind in the town of Highlanding where the owner did not know his land was advertised for taxes, but a banker knew it and paid it, and kept still about it, and let his money draw twelve per cent interest. What is the use of going to the expense of publishing a delinquent tax list, unless it is published correct?

The Wilson Democratic administration now want to appoint a tariff board, as they see the position that their tariff policy has placed the country in, with worse conditions to follow after the close of the European war, when they get ready to dump their cheap products into the United States free of duty. But the Dems need not worry about a tariff commission as the people will attend to that on the 8th day of next November, and one year from now there will be a new tariff board in control of this government.

The Duluth Herald makes its keynote attack on the Republican party, as the outs who want to get in, by presenting a united Republican party. Well they can hardly be blamed for beginning to wake up, when the "ins" have so far degenerated as to remove fourth class post masters for political reasons only.

If a heavy body of snow is the poor man's fertilizer for a big crop; northern Minnesota had ought to have a bobster crop this year, for it is pretty well fertilized.

A. A. D. RAHN.

Candidate for Delegate at large to the Republican National Convention.

Mr. Rahn, who is a resident of Minneapolis, filed for delegate at large on Feb. 4. He is pledged to Hon. A. B. Cummins for president.

The filing of Mr. Rahn created quite a stir in political circles. Early in the winter it was considered likely that Mr. Rahn would take charge of the circulation of petitions to place the name of Colonel Roosevelt on the primary ballot. The former presidented requested that his name be not entered in the primary fight, however.

Mr. Rahn is essentially a Minnesota product and has taken a keen interest in all things pertaining to the development of the State. He is a member of the general committee having in charge the campaign for Amendment No. 1, which provides for a revolving fund to be used for the development of northern Minnesota.

CONSOLIDATED SCHOOLS.

Professor Hay of Thief River Falls was up in Highlanding last Saturday explaining the advantages of consolidated schools, and there is no doubt about some of the advantages of a consolidated school as compared to our present school system.

But this territory is not ready for consolidated schools at the present time, and we are of the opinion that it would be useless for the few people who favor this proposition to make the expense of calling it to a vote.

The farmers of Highlanding already have practically three mortgages on their farms. One for school bonds, one for ditch tax and one for township bonds, and some of them an additional one to money loaners.

We are not opposed to any reasonable expense to further the interest of the country school children, and was one of the principal workers for the interest of the Highlanding school, and always worked and voted for eight months school, when some of the present advocates of consolidated schools wanted to cut it down to a five months term. We also made final proof on our homestead in this District three years before we had to, in order to give the District the assessed valuation to get a loan from the state to pay for the building of our present school house. At that time there were more actual residents in the town of Highlanding than there are at the present time, but we lacked the assessed valuation, but to day we have it; which fact has been discovered by the consolidated school advocates, and it is immaterial to them whether we have the population of children to draw state aid, so long as we have the realestate to loan the money on. We are not going into any particular campaign at this time, but if there is an election called later, we will promptly put the facts and figures before the farmers of the town of Highlanding to show them where they would land for taxes, if they were foolish enough to vote to bond their farms for a consolidated school at this time.

THE SUNBEAM.

VOL. XV. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, MARCH 10, 1916 NO. 52

MINNESOTA HISTORICAL SOCIETY

THE LOCAL NEWS

A good advertisement creates business.

Yesterday dished us up a good stiff March blizzard.

Almost everybody is complaining of a severe cough and cold now days.

We had another fall of snow on Monday evening which we had no use for.

REMEMBER that women, who are over twenty-one years of age, can vote at that consolidated school meeting as well as men.

There was a large crowd attended the dance at the Wojnarowski hall on last Saturday night and all report a first class time.

Mr. and Mrs. K. M. Kratzer, will leave for Pennsylvania next Monday, where they expect to make their future home.

Ole Overvold's children have now entirely recovered from the bad attack of the measles, that they all had.

The water in the Red Lake River is again coming up on top of the ice, and it will soon again be an impossibility to cross it.

Read the add of Dr. Tessier published in another column, and when you need a physician give him a call, as the roads are always passable to Oklee.

K. M. Kratzer's auction sale on last Saturday drew a large crowd and stock sold at fairly good prices, although the stock was in rather poor condition.

Some of the people up this way won some prizes in the Minneapolis Daily News contest. Willie Singer, of Rhoda winning the capital prize of $1,000.

Be sure to remember the date of that consolidated school election at the school house on Section 26, Town of Highlanding on Saturday, March 18, at 2 o'clock.

The weather remains steadily cold enough to not injure the heavy body of snow that we have, which may go suddenly a little later on, and give us a flood.

John Radniecki has rented his farm to Laurence Wojnarowski for the coming year, and will sell off his stock and farm machinery at public auction on March 13th. This will be the largest auction sale held in this locality this year.

The consolidated school conveyance came very near turning turtle with a load of school children, just north of Oklee last Friday evening, but it so happened that two teams came along, whose drivers assisted them to keep the rig right side up.

The merchants of Highlanding can paper their walls with auction sale bills, and if we should get that consolidated school shoved onto the town of Highlanding, there will not be room to paste the bills next year.

Voters at the primary election, next Tuesday, should be careful to not vote for more than four delegates at large, and two district delegates. If you vote for more than this number your vote will be thrown out, and not count for any of them.

We hope to not see this section of Pennington county deserted like a large tract of Red Lake county is, but it begins to look as if it would be; then the people who want a navigable river so they can run motor boats on it, can also camp and hunt deer along the banks of Red Lake River, where the wild fox can dig his hole unscared by the tread of the human race.

Big Auction Sale

Having rented my farm, I the undersigned, will sell at Public Auction on my place, the SW 1-4 of Section 19, Town of Deer Park, 19 miles north and 4 miles east of Oklee and 1 1-2 mile north and 1 mile east of Rhoda post office, on

Monday, March 13

The following described personal property, to-wit:

6 head of horses 6

34 head of cattle 34

1 Holstein cow, 7 years old, was fresh in December. 1 grade Holstein cow, 9 years old coming fresh in April. 1 cow, 7 years, was fresh in Jan. 1 cow, 6 years, was fresh in Dec. 1 grade Guernsey cow, 5 years was fresh in December. 2 cows, 6 years old, coming fresh in April. 3 cows, 4 years old coming fresh in May.

4 Sheep 4 2 Sows 2

Farm Machinery Etc.

Free lunch served at noon.

TERMS: All sums under $10.00 Cash; On sums over that amount time will be given until November 1st, 1916, on bankable paper.

John L Radniecki

Owner.

Ingvald Husby, Auctioneer.

Ole Sannes, Clerk.

FARMERS MOVING OUT.

Among the prominent farmers who have quit and sold off their stock and farm machinery in eastern Pennington county, this winter are, George Baird, of Erie, A. B. Mandt, of Kratka, Ole Ystesund, of Rhoda, K. M. Kratzer, of Sunbeam, C. L. Clark, of Sunbeam, John Radniecki, of Rhoda, P. P. Palmer, of Highlanding, Hans Peterson, of Rhoda and Roy Reiersguard, of Sunbeam. Another year of a navigable Red Lake River, and a consolidated school district in the town of Highlanding will about clean up the balance of the settlers, and leave the lands to be occupied by the bankers and money loaners. Of course this is a dark picture, but we may as well state facts as they exist, as there are no farmers coming in to take the place of those going out.

MUD LAKE LANDS OPENED

Mud Lake lands and certain cut-over and pine lands, in this district, aggregating 19,084.52 acres, will be opened to homestead entry on April 26, 1916, at 9 o'clock, A. M.

Applications may be filed within twenty days before the date of opening to entry, but will be dated as if filed on the 26th.

The lands will be opened to settlement at 9 o'clock, A. M. on April 12, 1916.

No rights can be acquired by settlement prior to 9 o'clock A. M., on April 12th. On the contrary: preference will be given to the first legal settler, after the hour of opening; or to the prior legal applicant, as the case may be.

All applications filed during the 20 days preceeding the date of opening to entry will be treated as simultaneous and, in case of conflict, the prior right will be determined by the drawing of lots, under rules prescribed by the Department.

Peter M. Ringdal, Register.

James P. O'Connell, Receiver.

Notice of School Meeting to Vote on Consolidation.

Persuant to a petition signed by at least twenty-five per cent of the resident freeholders of school districts Nos. 47, 37, 38 and 50, Pennington county, for a consolidated school districts, and requesting that a special meeting be called according to law, to vote on said consolidation, notice is hereby given that a meeting of the electors of said school districts, qualified to vote at school meetings will be held on the 18th day of March, 1916, from Two (2) o'clock to Three (3) o'clock p. m. at School House, Dist. 47, for the purpose of voting on said consolidation.

D. A. MOSTUE,
County Superintendent of Pennington County.
Thief River Falls, Minn. March 6th, 1916.

White Seal Beer for Family Use

		PER CASE

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset, safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

ADDITIONAL LOCALS.

Ben Kveste of Highlanding has bought the Wm. Swanson farm, on section 8, Town of Deer Park.

Remember you old settlers of the town of Highlanding that the consolidated school promoters were not worried about the education of your children, when we had to get up basket parties, to get a school for our pioneer's children. But it is the assessed value of your realestate that they are interested in. Turn out to that school election, and vote them out of sight.

This school election was called so suddenly, that we have not had time to look up the facts and figures for publication, but the facts as published last spring from consolidated schools in Clay county, is enough to convince you that your taxes will more than double with a consolidated school. Turn out and vote it down.

DEFECTIVE PAGE

BACKACHE, RHEUMATISM

Dear Mr. Editor:

For a long time I suffered from backache, pain in left side, frequent urination (bothering me at all times during the day and night), and the uric acid in my blood caused me to suffer from rheumatism along with a constant tired, worn-out feeling. I heard of the new discovery of Dr. Pierce, of the Invalids' Hotel, Buffalo, N. Y., called "Anuric." After giving "Anuric" a good trial I believe it to be the best kidney remedy on the market today. I have tried other kidney medicines but these "Anuric Tablets" of Dr. Pierce's are the only ones that will cure kidney and bladder troubles.

(Signed) HENRY A. LOVE.

NOTE:—Experiments at Dr. Pierce's Hospital for several years proved that "Anuric" is 37 times more active than lithia. Send Dr. Pierce 10c for trial package.

Marvelous.

"Speaking of fast men—"

"Yes?"

"It's surprising how much speed some of them can generate on a salary of $12 a week."

"CASCARETS" ACT ON LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Not a Bluff, Either.

"Say, Bill, youse ain't lookin fer work, is youse?"

"Not me, pard. I believe in de time-honored principle dat de office should seek de man."

Throw Off Colds and Prevent Grip.

When you feel a cold coming on, take LAXATIVE BROMO QUININE. It removes cause of Colds and Grip. Only One "BROMO QUININE." E. W. GROVE'S signature on box. 25c.

Discreet.

"Didn't the groundhog prophesy good weather?" inquired the forgetful man.

"Yes. But like other discreet prophets he refused to be interviewed any further."

—Run-down?

—Tired?

—Weak?

Every Spring most people feel "all out of sorts"—their vitality is at a low ebb. Through the winter months the blood becomes surcharged with poisons! The best Spring medicine and tonic is one made of herbs and roots without alcohol—that was first discovered by Dr. Pierce years ago—made of Golden Seal root, blood root, &c., called Dr. Pierce's Golden Medical Discovery. Ingredients on wrapper. It eliminates disease-breeding poisons from the blood, makes the blood rich and pure, furnishes a foundation for sound health.

Over 60,000 people in New York city own automobiles.

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

Forty per cent of the people in the United States attend church.

FOR HAIR AND SKIN HEALTH

Cuticura Soap and Cuticura Ointment Are Supreme. Trial Free.

These fragrant, super-creamy emollients keep the skin fresh and clear, the scalp free from dandruff, crusts and scales and the hands soft and white. They are splendid for nursery and toilet purposes and are most economical because most effective.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Her Pride Hurt.

"Your fashionable friend seems to be threatened with palpitation of the heart."

"Yes, she has just received a dreadful shock."

"And what happened to fortune's favorite?"

"She was sitting in an employment office waiting for a chance to look at a cook when a haughty dame swept up and offered her a job."—Louisville Courier-Journal.

Then He Left.

He was telling about all the things he owned, his prize bulldog, his bungalow, his touring car.

"But you don't seem interested," he complained.

"Yes, I am," responded the other chap, "but I'm rather occupied today. Tell you what. You just mail me a statement of your assets and I'll read it with all the admiration and awe you could possibly desire."

Stand Pat.

"Did you make any resolutions New Year's?"

"No; all my bad habits are so delightful that I don't even like to fool myself with the idea that I am going to break them off."—Judge.

Prince Joachim, youngest son of the German emperor, is a spendthrift.

King Nicholas of Montenegro has a fortune estimated at $20,000,000.

THE FIRST TASTE

Learned to Drink Coffee When a Boy.

If parents realized the fact that coffee contains a drug—caffeine—which is especially harmful to children, they would doubtless hesitate before giving them coffee to drink.

"When I was a child in my mother's arms and first began to nibble things at the table, mother used to give me sips of coffee. And so I contracted the coffee habit early.

"I continued to use coffee until I was 27, and when I got into office work I began to have nervous spells. Especially after breakfast I was so nervous I could scarcely attend to my correspondence.

"At night, after having had coffee for supper, I could hardly sleep, and on rising in the morning would feel weak and nervous.

"A friend persuaded me to try Postum.

"I can now get good sleep, am free from nervousness and headaches. I recommend Postum to all coffee drinkers."

Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled, 15c and 25c packages.

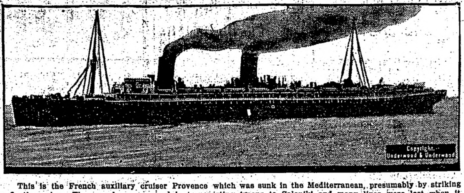
Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

FRENCH AUXILIARY CRUISER PROVENCE SUNK



This is the French auxiliary cruiser Provence which was sunk in the Mediterranean, presumably by striking a floating mine. The vessel was engaged in transporting troops to Saloniki and many lives were lost when it went down, though about 700 were saved.

3,000 PERISH AS PROVENCE SINKS

FOUR THOUSAND MEN ON TRANSPORT PROVENCE, MINISTRY OF MARINE ANNOUNCES

GREATEST OCEAN DISASTER

Vessel With Normal Capacity of 1,960 Was Transporting Troops Between Ports Not Far Apart—"No Signs of Submarine Noticed."

Paris, March 6.—It has been announced at the French ministry of marine that there were nearly 4000 men on board the French auxiliary cruiser Provence when she was sunk in the Mediterranean on February 26.

It was stated that on board the Provence were the staff of the Third Colonial Infantry regiment, the third battalion, the second company of the first battalion, the second machine gun company and one extra company, nearly 4,000 men.

More Than 3,000 Lost.

As the ministry of marine on February 29 announced that the number of survivors of the Provence disaster was estimated at 870, it is indicated by the foregoing dispatch that upwards of 3,130 lives were lost.

The loss of more than 3,000 lives in the sinking of the French auxiliary cruiser Provence, is the greatest ocean disaster of modern times. Up to the present, the largest number of lives ever lost in one wreck was when the White Star liner Titanic struck an iceberg off the New Foundland banks on April 14, 1912, and sank with a death loss of 1,595. The rescued numbered 743.

The French ministry of marine had previously issued no statement as to the number of persons on the Provence when she went down.

RUSSIANS CAPTURE BITLIS

Take City in Turkish Armenia by Storm, According to Official Announcement Just Issued.

Petrograd, via London, March 6.—It is officially announced that the Russians have captured Bitlis, Turkish Armenia, about 110 miles southeast of Erzerum, near the southwestern extremity of Lake Van. The city was taken by assault.

Bitlis is a city of about 35,000 inhabitants and the capital of the vilayet of the same name. It has numerous mosques and convents of dancing dervishes and is located 4,700 feet above sea level.

FOOD RIOT NEWS SUPPRESSED

Socialist in Prussian Diet Declares Increase of Agitations Not Known by People.

London, March 6. — In a budget speech made before the Prussian Diet by Dr. Karl Liebknecht, the Socialist leader, according to a dispatch from Reuter's correspondent at Amsterdam, is reported to have said it had become an established practice to prohibit mention of trials resulting from food riots and peace demonstrations, with the result that the people had no idea of the widespread increase of these agitations.

T. R. NOT ON ILLINOIS BALLOT

Colonel's Secretary in Letter Says Mr. Roosevelt Has No Intention of Filing.

Springfield, Ill., March 4.—Secretary of State Stevenson has received a letter from John W. McGrath, secretary to Theodore Roosevelt stating that Mr. Roosevelt "has no intention of filing a petition as a candidate in the primary of any party in Illinois."

Indictments Against Breweries.

Pittsburgh, March 6.—Technical arrests were made under 101 indictments against 100 brewing companies located in various parts of Pennsylvania and the United States Brewers' Association of New York returned by the federal grand jury, which has been investigating the alleged political activity of brewers. The indictments charge the brewing companies and the association with conspiracy in the alleged unlawful expenditure of money in the elections.

POPE MAKES PLEA FOR PEACE

DECLARES THIS WAR APPEARS AS SUICIDE OF EUROPE.

Pontiff in Special Lenten Letter Says He Cannot Sit Silent When Conflict Rages.

Rome, via Paris, March 7. — Pope Benedict has again raised his voice for peace. In a special letter written for the Lenten season the pontiff says he cannot sit silent, indifferent to the terrible conflict which is rending Europe.

He recalls all that he has done to induce the contending nations to lay down their arms, virtually throwing himself between the belligerents and conjuring them in the name of the Almighty to desist in their plan of mutual destruction.

The pontiff again sets forth the proposal which he made some months ago as follows:

Proposal to Belligerents.

"Each belligerent should clearly state his desires, but should be ready to make necessary sacrifices of pride and particular interests, thus ending the monstrous conflict in accordance with justice and re-establishing peace; advantageous to neither side, but profitable to all, and therefore a just and lasting peace.

"This paternal voice," continues the pope, "was not heard. Thus the war continues with all its horrors. I rejoice that our cry for peace has had a profound echo in the hearts of the belligerent peoples, indeed the peoples of the whole world and has aroused a deep desire to see the sanguinary conflict soon cease.

"I must, therefore, once more raise my voice against this war which appears as the suicide of civilized Europe."

FRENCH REPULSE GERMANS

Fighting Throughout Verdun Region Is Still Vigorous—Douaumont Is Storm Center.

London, March 6.—The Germans in the region of Verdun are being hard held to the positions they occupy by the French. The fighting throughout the region is still vigorous, but it consists mainly of artillery duels.

Douaumont is the storm center and here and in the wood to the east of Vacherauville, on the east bank of the Meuse have occurred the only infantry attacks. On both these sectors the Germans were repulsed by the French.

BANDIT SAYS POLICE HELPED

Defendant on Trial For $15,000 Bank Robbery at Chicago Claims Officers Participated.

Chicago, March 6.—Police circles are stirred by charges made on the witness stand by Charles Kramer, one of the four defendants on trial for the $15,000 robbery at the Washington Park National bank. Kramer named Captain Nicholas Hunt of the Chicago detective department, Sergeant Tom Sheehan of the same department, and Harry Kavanaugh, director of the bank, as participants in the alleged conspiracy which the defendants allege led them to rob the bank.

PORTUGAL SENDS FLAT REFUSAL TO GERMANY.

Amsterdam, March 3.—Germany is prepared to declare war on Portugal immediately in the event of an unsatisfactory reply to the note demanding the release of German ships, says a dispatch from Berlin.

The foreign office is reported to have dispatched an answer to the German note demanding the release of interned German warships seized by official decree. It is rumored that the Portuguese answer is very brief, but contains a flat refusal to comply with the German demands.

Hetty Green Sells Mine.

San Francisco, March 6.—The purchase from Mrs. Hetty Green, the New York capitalist, of the "Old Eureka" gold mine at Sutter Creek, Amador county, Cal., by a syndicate of eastern millionaires is announced here. The price was said to have been more than $1,000,000.

Among the purchasers according to the announcement are William E. Corey steel magnate; John D. Ryan and Tom Cole of the Anaconda group and Ambrose Monell of the International Nickel company.

GORE MEASURE IS TABLED IN SENATE

RESOLUTION TO WARN AMERICANS TO KEEP OFF ARMED SHIPS VOTED DOWN.

WILSON'S WISH CARRIED OUT

Free Expressions That Action Was in Effect a "Scotch Verdict" and Had Not Actually Accomplished Purpose of President.

Washington, March 6.—By a vote of 68 to 14 the senate carried out President Wilson's wish and killed Senator Gore's resolution to warn Americans off armed belligerent ships.

In a turbulent scene, such as is seldom witnessed in the senate, the voting proceeded with senators shouting objections, futilely demanding recognition to explain their positions and making hot retorts to each other, all of which were out of order.

At one time so many senators were shouting for the vice president's recognition that the sergeant-at-arms was called to restore quiet.

Disposed of Without Debate.

After having maneuvered for two days to get the resolution in such parliamentary position that it was disposed of without debate, the senate then proceeded to a general discussion of the subject which continued all afternoon to the dismay of administration supporters.

There were free expressions of opinion that the senate's action, because the vote actually was taken on a motion to table the Gore resolution with a correction by the author and a substitute by Senator McCumber, was in effect a "Scotch verdict," and had not actually acomplished the purpose of the president.

QUEEN DEAD; NATION MOURNS

Roumania Forgets War's Alarms When Elizabeth, Known as Author Carmen Sylva Passes.

Bucharest, March 4.—War's alarms are forgotten throughout the entire kingdom of Roumania, for the queen mother, Elizabeth, better known as Carmen Sylva, is dead. The whole nation is in mourning.

The end came after the patient had been sinking for two days, from pneumonia.

The queen mother was 73 years old, and since the death of her husband, King Charles I of Roumania, who died in October, 1914, at the age of 75, she had been gradually breaking down and was practically blind.

REPORT ON U. S. COMMERCE

Federal Department Says American Trade Again Taking Normal Direction.

Washington, March. 3. — American trade again is taking its normal direction, the commerce department reports. While war supplies keep up their phenomenal figures, lumber, naval stores and agricultural implements are gaining. They had been hard hit by the war. Biggest exports for 1915 were:

Breadstuffs, $527,900,000.
Cotton, $417,000,000.
Iron and steel, $388,000,000.
Meats, $259,000,000.
Explosives, $181,000,000.

The total exports for 1915 were $2,486,000,000 against $2,071,000,000 for 1914.

To Direct Gasoline Price Probe.

Washington, March 6. — Lewis H. Haney, economist of Austin, Texas, was named by the Federal Trade commission to direct the commission's investigation of oil and gasoline prices and production.

Message Halts Ship's Departure.

New York, March 6.—The Cunard line offices here have been notified by a cablegram from the home office in Liverpool to stop loading the steamship California and to cancel the passages of all persons who have booked on her. The California was due to sail for Liverpool today. Forty cabin passengers and 75 third class passengers had made reservations. The cablegram gave no reason for the order, but it is believed here that the British government intends to take over the ship as an auxiliary.

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told my husband if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

In the Museum.

Manager—What makes the lion tamer so late?

Assistant—He had his wife arrested for cruelty—and he had to go to court this morning and appear against her.

DEFECTIVE PAGE

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble, are urged to get a quarter pound of limestone phosphate from your druggist or at the store and begin enjoying this morning inside-bath. It is said that men and women who try this become enthusiastic and keep it up daily. It is a splendid health measure for it is more important to keep clean and pure on the inside than on the outside, because the skin pores do not absorb impurities into the blood, causing disease, while the bowel pores do.

The principle of bathing inside is not new, as millions of people practice it. Just as hot water and soap cleanse, purify and freshen the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Adv.

After putting on the boxing gloves a man realizes why it is far more blessed to give than to receive.

CANADA'S PLANS FOR WAR REVENUE

So Wisely Distributed That Taxation Will Affect Farmers to a Degree Practically Unnoticeable.

So many rumors have been circulated regarding war taxation in Canada that the statement made by Sir Thomas White, Canadian Minister of Finance, of the Government's plans for raising war revenue should be given the widest circulation. Sir Thomas made it clear that the revenue will be raised by taxing the profits of incorporated companies whenever those profits exceed seven per cent, and the profits of unincorporated firms or partnerships when the profits exceed ten per cent. On all such excess profits these companies or firms will have to contribute one-quarter to the Government. Transportation companies, banks, mining, milling, and other companies will be subject to this taxation but life insurance companies, and companies with less than fifty thousand dollars capitalization, and companies, firms, or individuals engaged in agriculture or stock raising, are exempt and pay no part of this taxation. The only other additional taxation proposed is an increase of fifty cents a barrel in the customs duty on apples, and one-half cent a gallon in customs duty on certain kinds of oils.

It will be noticed that this taxation is being applied in such a way that it does not affect farmers in the slightest degree, except, perhaps, through a small increase in cost of apples and oil. The war revenue is to be paid out of the profits of the big firms and companies with capital of over fifty thousand dollars, and even these are allowed seven per cent in some cases, and ten per cent in others, of clear profits before they have to pay any part of this taxation. It will be seen that the whole policy is to place the war expenditure taxation on those who have been making big profits and are able to pay it, and to encourage farming and stockraising by exempting farmers and stock-raisers from the taxation. This ought to set at rest every rumor that the farmer or the farmer's land is being taxed to pay the cost of the war.—Advertisement.

GERMAN RAIDER IS SAFE IN PORT; RAN BRITISH BLOCKADE

MOEWE REACHES WILHELMSHAVEN AFTER MONTHS OF PREYING ON ENEMY'S COMMERCE —SUNK 15 SHIPS.

GOLD BARS LANDED ARE WORTH 1,000,000 MARKS

Four British Officers, 29 British Marines, and 166 Men of Crew of Her Prizes Are Fruits of Long Cruise—Commander Is Honored.

London, March 7.—Count Von Dohna, the Moewe's commander, has been awarded the Iron Cross of the first class and the members of the crew have received the Iron Cross of the second class. Count Von Dohna has been ordered to meet Emperor William at headquarters.

Berlin, March 7, via London.—The Moewe is safe in Wilhelmshaven. After several months of preying on the enemy's commerce during which many ships were sunk or captured, prisoners taken and much wealth confiscated, the raider successfully ran England's blockade and landed her spoils.

Gold bars worth 1,000,000 marks, four British officers, 29 British marines and sailors, and 166 men of the crews of her prizes were fruits of the long cruise brought home by Captain Burgrave Count von Dohna-Schlodien.

Sunk Fifteen Vessels.

Fifteen vessels were sunk by the Moewe and the British battleship King Edward VII is believed to have been sent down by one of the mines she laid.

According to the official announcement of the German naval general staff the following crafts were captured by the raider. The greater part were sunk and the others sent to neutral ports as prizes.

The British steamers Corbridge, 3,687 tons; Author, 3,496 tons; Trader 3,608 tons; Ariadne, 3,035 tons; Dromonby, 3,627 tons; Farringford, 3,146 tons; Clan MacTavish 5,816 tons; Appam, 7,781 tons; Westburn, 3,300 tons; Horace, 3,335 tons; Flamenco, 4,629 tons; Saxon Prince, 3,471 tons.

The British sailing vessel Elinburgh, 1,473 tons.

The French steamer Maroni, 3,109 tons.

The Belgian steam Luxembourg, 4,822 tons.

ZEPPELIN RAID ON ENGLAND

Bombs Dropped Which Fall Into Sea, But No Information as to Damage.

London, March 7.—A Zeppelin raid took place Sunday night when two hostile airships crossed over the northeast coast of England. The official statement announcing the raid gives no information as to the damage done

"At the time of this report," the statement continues, "their movements have not been clearly defined. Some bombs were dropped which fell into the sea near the shore, but information is not yet available as to whether damage was done on land."

A further communication will be issued later.

ARMED SHIP CANVASS IS MADE

Indicates a Motion to Table the McLemore Resolution Will Be Carried.

Washington, March 7.—A poll of the house of representatives by the International News Service on the question of warning Americans off armed belligerent merchantmen disclosed nearly one-third of the members are unwilling to commit themselves.

The poll shows:
For warning—87.
Against warning—197.
Non-committal—129.
Absent—22.

The result is interpreted to indicate a motion to table the McLemore resolution will be carried.

Allies Lose 33 Submarines.

London, March 7.—A dispatch to the Exchange Telegraph company from Amsterdam says the Frankfurter Zeitung declares that the Allies have lost during the war 33 submarines—Great Britain, 19; France, 8; Italy, 4, and Russia, 2. Only three of these boats are alleged by the newspaper to have been destroyed by German warships.

Italian Ship Sunk; No Warning.

Paris, March 6.—The Italian steamship Giova, torpedoed by an Austrian submarine, was sunk without warning, according to survivors of the crew who arrived at Piraeus on the British steamer Trevelyan on March 1, a Havas dispatch from Athens states. The rescued men said that the submarine, flying the Austrian flag, was met 130 miles from Cape Matapan. The Giava offered no resistance. They describe the submarine as a large one, similar to those which sank the Ancona and La Provence.

AMERICANS GROW RICH IN CANADA

Testimony Proves Falseness of Statements as to Onerous Taxation and Conscription.

"The attempt to check emigration from the United States to our prairie provinces by publishing alarming statements about the enormous war taxes that are being paid here—$500 on a quarter section yearly—about forcing young men to enlist for the war; about the cold, no crops and any old story that by their extravagant boldness might influence men and women from venturing north to Canada, is really in the list of curios to our people. Knowing the country, we can hardly take it seriously. Our governments, however, dominion and provincial, are taking steps to expose the false statements that are being made, and thereby keep the channel open for continuing the stream of settlers that has been flowing to us for the past decade. We have thought to assist in this work, and to do so purpose giving, from time to time, actual experiences of Americans who have come to Saskatchewan during late years. We give the statements of two farmers in this issue as follows:—

STATEMENT OF M. P. TYSDAL.

I lived near Lee, Illinois, for 46 years I came to Saskatchewan in the spring of 1912 and bought land near Briercrest. I have farmed this land, 1,680 acres, ever since. I have had grand crops. In 1914 I had 100 acres of wheat that yielded 40 bushels to the acre. I sold this wheat at $1.50 per bushel.

I like the country and my neighbors. My taxes on each quarter section (160 acres) are about $32 a year. This covers municipal tax, school tax, hail insurance tax—everything. *There is no war tax, so-called.* I like the laws in force here. There is no compulsion to me in any way. I am just as independent here as I was in Illinois, and I feel that my family and I are just as well protected by the laws of the province as we were in our old home in Illinois. What I earn here is my own. I have seven children and they take their places at school, in sports and at all public gatherings the same as the Canadian born.

(Signed) M. P. TYSDAL.
February 9th, 1916.

STATEMENT OF STEVE SCHWEITZBERGER

I was born in Wisconsin, but moved with my parents when a boy to Stephen Co., Iowa. I was there farming for 50 years. I sold my land then for over $200 an acre. I moved to Saskatchewan, and located near Briercrest in the spring of 1912. I bought a half section of land. I have good neighbors. I feel quite at home here the same as in Iowa. We have perfect safety and no trouble in living up to the laws in force. My taxes are about $65 a year, on the half section for everything.

I have had splendid crops. Wheat in 1915 yielded me over 50 bushels to the acre. That is more than I ever had in Iowa and yet the land there costs four times as much as it does here. The man who comes here now and buys land at $50 an acre or less gets a bargain.

(Signed) S. SCHWEITZBERGER.
February 9th, 1916."

—Saskatchewan Farmer, February, 1916.—Advertisement.

IF BACK HURTS CLEAN KIDNEYS WITH SALTS

Drink Lots of Water and Stop Eating Meat for a While If the Bladder Bothers You.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

But a woman seldom sees the cloven hoof of a man until after she gets a whiff of his cloven breath.

Gopher State Happenings

Important Events of Various Sections of the state reported during last few days.

AT THE STATE CAPITOL

"Arson Worse Than Murder."

Arson was declared a worse crime than murder by Robert W. Hargadine, state fire marshal, in an address on "Fire Prevention" at St. Paul.

* * *

To Settle Inheritance Tax Case.

William J. Stevenson, assistant attorney general, who leaves the service of the state to become secretary and trust officer of the new Wells-Dickey Trust company in Minneapolis, will be retained as special assistant to the attorney general until several inheritance tax cases are settled.

* * *

Affects State Institutions.

The high cost of commodities used at the sixteen state institutions will make it difficult for the state board of Control to keep within its appropriation this year, C. J. Swendsen of the board says. The war has caused prices to advance. Denim probably will not be used at all in the state asylums in a short time because it cannot be bought.

* * *

Starts Flyless Farm Crusade.

Prof. C. W. Howard of the entomology department is inaugurating a flyless-farm crusade. "The rural flies are much more harmful than their city brethren," Prof. Howard said. "Why? Because the majority of the breeding places are found on the farm. These breeding places must go. Statistics tell us that every forty seconds a child dies from disease traced directly to fly infection.

* * *

To Cost Minnesota $500,000.

Warden Reed and former Warden Wolfer of the Minnesota state prison were examined by the subcommittee of the Senate on agriculture relative to the alleged combination of Yucatan farmers to control the price of sisal. Mr. Wolfer made the statement that the proposed increase in prices fixed by this combination this year alone, would mean a difference of half a million dollars to the Minnesota prison industry.

* * *

Thousands of Quail Saved.

Thousands of quail have been saved from starvation as a result of the activity of the St. Paul sportsmen, according to Carlos Avery, state game commissioner. "The best part of the work, in addition to saving the birds, was the interest that has been aroused in their welfare," said Mr. Avery. Unless we get a heavy wet snow there is little danger now but that the quail will get through the winter alright, Mr. Avery said.

GOPHER STATE NOTES

Minneapolis.—Native Sons of Minnesota celebrated the 67th anniversary of the creation of Minnesota territory with a dinner at the West hotel, followed by a program of speeches and music and by dancing. The act creating the territory was passed March 3, 1849. For 14 years the society has observed this anniversary.

Rochester. — Frank B. Kellogg's Rochester friends want him to make his opening address in his campaign for United States senator in this city and a movement has already been started for that purpose. A telegram has been sent to Mr. Kellogg as follows: "Olmsted county is aflame with enthusiasm over your acceptance. You will get almost every vote. We send congratulations, and want you to make your opening speech in Rochester." Mr. Kellogg spent his early life in Rochester.

St. Paul.—In retaliation for the threat of officers of the Republican state central committee to start suit against him for $500 claimed to have been promised to the committee, J. A. O. Preus, state auditor, has given out information tending to show that the committee violated the corrupt practices act as a result of the 1914 campaign. Mr. Preus infers that the committee spent more than the $10,000 maximum placed by section 591 of the general election laws.

St. Paul.—Charles M. Andrist, secretary to Governor J. A. A. Burnquist, practically has been offered a commission by the American Red Cross society to inspect Russian prison camps. Dr. F. A. Devine, of the Russian survey, has sent word to headquarters in Washington that he needs an assistant. The work would require three or four months and would include personal consultation with prisoners of war in the Russian camps. Mr. Andrist is considered fitted for the work because of his knowledge of languages.

St. Paul.—Dr. H. M. Bracken, secretary of the State Board of Health, has been appointed chairman of the most important committee of the American Medical association, known as the council on health and public instruction.

White Bear.—Gardening and canning, potato growing and an egg laying contest are three divisions of the school department of the Ramsey county fair to be held August 24-26 at White Bear. The premium list has just been issued. These divisions will be encouraged through boys' and girls' clubs in schools over the country.

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys cause so much sickness and suffering and when through neglect or other causes, kidney trouble is permitted to continue, serious results may be expected.

Your other organs may need attention—but your kidneys should have attention first because their work is most important.

If you feel that your kidneys are the cause of your sickness or run down condition commence taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because if it proves to be the remedy you need and your kidneys begin to improve they will help all the other organs to health.

Prevalency of Kidney Disease.

Most people do not realize the alarming increase and remarkable prevalency of kidney disease. While kidney disorders are among the most common diseases that prevail, they are almost the last recognized by patients, *who usually content themselves with doctoring the effects,* while the *original disease* constantly undermines the system.

A Trial Will Convince Anyone.

Thousands of people have testified that the mild and immediate effect of Swamp-Root, the great kidney, liver and bladder remedy, is soon realized and that its stands the highest for its remarkable results in the most distressing cases.

Symptoms of Kidney Trouble.

Swamp-Root is not recommended for everything but if you suffer from annoying bladder troubles, frequently passing water night and day, smarting or irritation in passing, brick-dust or sediment, headache, backache, lame back, dizziness, poor digestion, sleeplessness, nervousness, heart disturbance due to bad kidney trouble, skin eruptions from bad blood, neuralgia, rheumatism, lumbago, bloating, irritability, worn-out feeling, lack of ambition, may be loss of flesh or sallow complexion, kidney trouble in its worst form may be stealing upon you.

Swamp-Root Is Pleasant to Take.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

SPECIAL NOTE—You may obtain a sample size bottle of Swamp-Root by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y. This gives you the opportunity to prove the remarkable merit of this medicine. They will also send you a book of valuable information, containing many of the thousands of grateful letters received from men and women who say they found Swamp-Root to be just the remedy needed in kidney, liver and bladder troubles. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample size bottle. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention this paper.

SPOHN'S DISTEMPER COMPOUND

Shipping Fever Influenza, Pink-Eye, Epizootic, Distemper and all nose and throat diseases cured, and all others, no matter how "exposed," kept from having any of these diseases with SPOHN'S DISTEMPER COMPOUND. Three to six doses often cure a case. One 50-cent bottle guaranteed to do so. Best thing for brood mares; acts on the blood. 50c a bottle, $5 dozen bottles. Druggists and harness shops or manufacturers sell it. Agents wanted.

SPOHN MEDICAL CO., Chemists, Goshen, Ind., U. S. A.

As Others See Us.

Knox—I thought you said Breezly was wedded to the truth?

Blox—That was my impression.

Knox—Well, if he ever was, he must be a widower now.

Stop the Pain.

The hurt of a burn or a cut stops when Cole's Carbolisalve is applied. It heals quickly without scars. 25c and 50c by all druggists. For free sample write The J. W. Cole Co., Rockford, Ill.—Adv.

Less than one-fifth of Spain's coal mines are officially recorded as productive.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes, after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

A specially prepared banana flour is being used by French doctors as a tonic.

It is more blessed to give in at times than it is to receive it in the neck.

Time Will Tell.

"What's the reason De Swift doesn't apply for a divorce?"

"Why, his wife has taken to monoplaning, and he thinks he might as well wait."

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

When a man helps his wife with the housework it takes her about twice as long to finish.

Buy Roofing From Your Local Dealer

When you want a good roofing at a reasonable price, you cannot depend on the Mail Order House. If the roofing goes wrong, you will have a hard time getting such a house to make good. When you buy it from your local dealer, whom you know and can rely on, you are getting a safe proposition. When you want roofing of this kind, insist that your local dealer supply you with

Certain-teed Roofing

This high grade roofing is guaranteed 5, 10 or 15 years according to thickness. This guarantee is backed by the world's largest manufacturer of Roofing and Building Papers.

It can be used for buildings of all kinds having a sloped roof. No building is too big or expensive for *Certain-teed* Roofing, and none is too small or inexpensive. It is universally used and universally accepted by leading architects, builders and owners.

Many imitators put on their roofing the word "Guaranteed," but such guarantees are usually made with reckless disregard of consequences. There is no responsibility that will back up such guarantees when the roofing falls down.

Certain-teed Roofing is sold only through good dealers. It will pay you to find the dealer that handles it. Don't accept a substitute. There is no "just as good" roofing as *Certain-teed.*

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 [illegible], at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879

Voters at the Minnesota Primary election March 14. must remember that in order to cast their ballots for Senator Albert B. Cummins for candidate for the Republican nomination for President, and gain the proper support for him they must.

First—Vote for Albert B. Cummins for the Republican nomination for President.

Second—Vote for four delegates at large in the state pledged for Cummins.

Third—Vote for two delegates from this, the ninth, district, pledged for Cummins.

In order to get the proper support for Senator Albert B. Cummins for the Republican nomination for president THE SUNBEAM recommends voting for the following candidates:

Albert B. Cummins, candidate for Republican party nomination.

Candidates for delegates-at-large for Cummins:

J. F. Jacobson, O. J. Larson, A. A. D. Rahn, and Samuel R. Van Sant.

Candidates for district delegates for Cummins:

A. G. Anderson and Martin Widsten.

The write up giving the particulars of the arrest of Dr. Newell, the Goodridge druggist, for the illegal sale of intoxicating liquors, in last week's Thief River Falls Falls papers, seems to have been written from a prejudiced stand point, to "dig in" to Dr. Newell, because he has put in a drug store at Goodridge.

We are bitterly opposed to the illegal sale of intoxicating liquors, but from our personal acquaintance with all of the parties in the case, it has more the appearance of being a case of a man that was trying to render assistance to help out people and horses, that needed medicine, more than it was an intention to evade the liquor law. Dr. Newell is comparatively a stranger in this territory, and was not aware who he was dealing with, but we are of the opinion that he will prescribe carbolic acid in the future, for people that are anxious to obtain something to intoxicate, instead of any preparation containing alcohol. We would advise the Doctor that the next time those parties get a sick horse to prescribe a solution of carbolic acid for a liniment, and aconite or croton oil for internal use.

The Red Lake River surely makes a reliable dividing line between north and south Pennington county, as any one can readily see, by attending any of the auction sales in the eastern part of the county. On the north side the farmers do their business at Thief River Falls, and on the south side their trading towns and banking business is nearly all done in Red Lake County. Yet this is a condition that a majority of the people of Thief River Falls seem to want to continue, by leaving that solid government fence across the county from east to west, so as to prohibit all travel north and south, by making it an impossibility to cross Red Lake River.

The Red Lake Falls Gazette is of the opinion that the county option election in Red Lake county was called too early, but we are of the opinion that it was called too late, as the people had seen how county option worked in their neighboring counties, and concluded that they did not want it.

Judging from the cartoons in the last issue of the Oklee Herald, the county option fight must have driven the editor to drink. and be had his picture taken. The cartoon bears a strong resemblance to a rabid county optionist that was intoxicated on horse medicine, naptha, or sour cider.

DANGERS OF DRAFT

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c. at your Druggist.—Adv.

A Sudden Call.

The expected has happened, and the consolidated school promoters have called an election for the town of Highlanding to vote on the question. Of course they called it on as short notice as possible, and at a time when they thought the people would not turn out to vote, and they called it in the school house, in the district where all the promoters reside, and only gave one hour's time to vote, from two o'clock to three o'clock p. m., hoping that the opposition would not be there on time to vote, but we will be there on time. See notice in another column.

AN IDEAL SPRING LAXATIVE

A good and time tried remedy is Dr. King's New Life Pills. The first dose will move the sluggish bowels, stimulate the liver and clear the system of waste and blood impurities. You owe it to your self to clear the system of body poisons, accumulated during the winter. Dr. King's New Life Pills will do it. 25c. at your Druggist.—Adv.

A. A. D. RAHN.

Candidate for Delegate at Large to the Republican National Convention.

Mr. Rahn, who is a resident of Minneapolis, filed for delegate at large on Feb. 4. He is pledged to Hon. A. B. Cummins for president.

WATCH CHILD FOR WORMS

Worms sap child's strength rob child of food and make child fretful, irritated, nervous. Watch stool and at first sign of suspicion of worms give one-half to one lozenge Kickapoo Worm Killer, a candy worm remover. Gives immediate results. Is laxative. Paralyzes and removes the worms, improves digestion and general health of child. Continue giving Kickapoo Worm Killer, until all signs of worms are gone 25c. at your Druggist.—Adv.

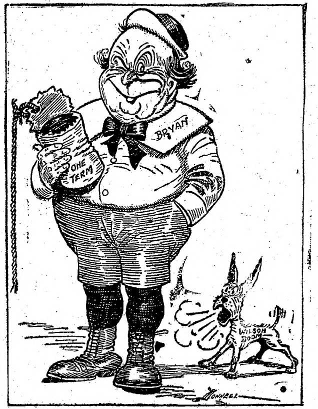
BIDING HIS TIME.



—Donnell in St. Louis Globe-Democrat.

Newton and Gravitation.

Sir Isaac Newton never attempted to tell the people of his day what gravitation was. His very frank statement was as follows: "I do not anywhere take it upon me to define the kind or manner of any action, the causes or physical reasons thereof or attribute forces in a true and physical sense to certain centers when I speak of them as attracting or endued with attractive powers."

COLDS QUICKLY RELIEVED

Many people cough and cough—from the beginning of Fall right through to Spring. Others get cold after cold. Take Dr. King's New Discovery and you will get almost immediate relief. It checks your cold, stops the racking, rasping, tissue-tearing cough, heals the inflammation, soothes the raw tubes. Easy to take, Antiseptic and Healing. Get a 50c. bottle of Dr. King's New Discovery to day. "It is certainly a great medicine and I keep a bottle of it continually on hand" writes W. C. Jesseman, Franconia, N. H. Money back if not satisfied.—Adv.

U. S. Mail.

THE SUNBEAM.

MINN. HISTORICAL SOCIETY.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, MARCH 17, 1916 NO.1

THE LOCAL NEWS

James O'Brien was doing business at Goodridge last Saturday.

Miss Christine Klemmetson left for Grand Forks last Wednesday.

Ye editor was transacting business at Goodridge last Saturday.

Farmers should treat their seed wheat for smut this spring.

Walter McAndress was a business caller at Goodridge on Thursday.

Remember the A. B. Mandt sale, on Section 27, town of Kratka, on Tuesday March 21st.

Wm. Causin was a business visitor at Thief River Falls last Saturday.

Fred Brown is moving onto the C. L. Clark farm this week, which he has rented for this season.

Sever Nelson was re-elected Town Clerk, and Ole Sundsdahl for Supervisor at the township election on last Tuesday.

There is to be an auction sale of the farm machinery and stock of Hans Pederson, on Section 24, town of Mayfield, on March 21st.

Dr. Tessier of Oklee was called out to visit Frankie LaCounte on last Sunday, who had pleurisy and pneumonia. He is now on the way to recovery.

Notwithstanding the unfavorable weather there was a large crowd attended the John Radniecki sale on last Monday, and stock sold at good prices,

There seems to be no let up on our winter, and the snow is still about three feet deep, and if we do not get a sudden change of weather, we will have a very late spring.

Farm machinery is likely to advance in price, owing to the European war, says the binder trust. They must have began to mow the people down with binders and mowers over there.

P. P. Palmer will sell off his farm machinery, horses and cattle, at public auction, at his farm on Section 22, town of Highlanding, on Wednesday March 22nd, on the usual terms of sale.

There was very little interest taken by the people of this Highlanding township in last Tuesday's election, owing to the active interest that is being taken in the consolidated school election that is to be held to-morrow.

The prospects are that the town of Highlanding will poll a record vote at that school election to-morrow, as the people are thoroughly woke up to the danger of being taxed out of the country.

Some of the promoters of consolidated schools are fortunate in not having to run for re-election this year, but you bet the people of the Eleven Towns will remember them when they get another crack at them at the ballot box, as the whole scheme has the appearance of trying to tax what few people that remain here out of the country.

There was one Democratic ticket voted in the town of Mayfield, at last Tuesday's election, which was somewhat of a surprise to the old residents, who are at a loss to account for it. One explanation is, that it must have been voted by some lonely bachelor, who came to election on skis from some lonely part of the town, where he has not seen or read a newspaper since a year ago last fall, when the last one he read was a copy of the Duluth Evening Herald.

Big Auction Sale

My auction, advertised for March 9th, having been postponed on account of stormy weather, the sale will now take place at my farm on E ½, Sec. 27, township of Kratka, 1 mile south of Kratka Post Office., on

Tuesday, March 21

Sale Commences at 10:30 o'clock A. M.

The following personal property, will be offered for sale.

6 Head of Horses 6

10 head of cattle

Farm Machinery Etc.

Free lunch served at noon.

TERMS: All sums under $10.00 Cash; On sums over that amount time will be given until November 1st, 1916, on bankable paper.

A. B. Mandt,
Owner.

W. J. LaBree, Auctioneer.
Citizens State Bank, Clerk.

We hope to see a meeting of the farmers called at Oklee or Plummer soon, by the state experts on farming mosskeg, so as to give the farmers living on the south side of Red Lake River a chance to hear them, as Goodridge will soon be isolated from this territory, when the Red Lake River breaks up.

People who have any business that calls them to cross Red Lake River should attend to it now, as that government fence will soon be doing business at the old stand, with no possible way of getting across it. But you know it is a NAVIGABLE river, and that is what some of the people want. Part of them do not want it declared non-navigable because they do not understand it, and of course the western end want it to remain navigable, so they can continue to hog all the county road and bridge funds.

Carranza wants the privilege of allowing Mexicans to cross the border, in exchange for allowing U. S. Troops to pursue and capture their outlaws, that they do not seem to be able to capture themselves. Owing to the ignorance of those greasers, who cannot understand the difference between pursuing and capturing outlaws, and an invasion of their country, this country is likely to get into war with Mexico. While there is some difference in opinion on the question, we believe that the country as a whole will stand behind the president in promptly sending our troops to capture that outlaw Villa, if it does lead to war with Mexico.

BIG MEETING AT THE GOODRIDGE HALL.

FRIDAY MARCH 24. Commencing at 1:30 A. M.

Agricultural Commissioner T. A. Hovestad, of the Soo Railway and Prof. F. J. Alway, director of soil chemistry at the University of Minnesota, will lecture on different kinds of soil, that will deal particularly with the proposition of low, sour and peat lands. Prof. Alway has collected a great fund of information of the treatment of peat and low lands, than any other man in the country. This knowledge should be of great interest and value to all our settlers and farmers. Every farmer for miles around should make every effort to attend.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset-safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch-word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

Makers of alarm clocks are among those who do a rousing business.

EXPEDITION INTO MEXICO DELAYED; BIG TASK AHEAD

SEARCH FOR VILLA WILL START AS SOON AS SUFFICIENT NUMBER OF MEN IS ORGANIZED.

GREAT EXCITEMENT SEEN IN CARRANZA GARRISONS

Uprisings Feared in American Border Towns When Mexican Territory Is Actually Occupied — Funston Says, "the People Must Be Patient."

El Paso, Texas, March 13.—Sunday passed without movement of any American punitive expedition into Mexico. Both sides of the border, however, American and Carranza armies, made noticeable progress toward concentrating their forces for the hunt for Francisco Villa in Northern Chihuahua.

The plight of 500 Mormons, colonists at Casas Grandes, who fear attack by Villa, was reported better.

San Antonio, March 13.—"We do not ourselves know just when the expedition that will search for Francisco Villa will start into Mexico, although of course it will be soon.

"It will go forward just as soon as a sufficient number of men with an adequate commissary can be organized. It will not be held back, however, until all the troops now ordered to the border have arrived."

Arduous Task Ahead.

This was the statement of Major General Frederick Funston while he was outlining at Fort Sam Houston, Southern department headquarters, as closely as military expediency would permit, the command that will be directed against the former executive leader. He added:

"There is no use going at this thing half cocked. The task ahead of us will be a long and arduous one."

Carranza Garrisons Excited.

It became known that the plans for the campaign against Villa have been affected by the border situation elsewhere than at Columbus, N. M.

The situation is so important as to have hindered rapid concentration of the punitive expedition that will go after the perpetrators of the Columbus outrage.

Great excitement has been noticed, it is authoritatively stated, in the Carranza garrisons at Nogales, opposite the Arizona border town of that name and a Piedras Negras, which fronts Eagle Pass, Texas, from across the Rio Grande.

Uprisings Are Feared.

Army circles feel fear of residents in American towns, that, notwithstanding assurances from General Carranza's representatives, uprisings may follow the actual occupation of Mexican territory by American soldiers.

General Funston's statement regarding the uncertainty of the punitive expedition's departure from American soil and his partial outline of the projected plan of campaign were in reply to what he termed the impatience of the American people for speedy action.

"The people must be patient," he said. "We must be adequately prepared for this thing."

WILSON IS RIGHT, BRYAN SAYS

President's Course in Mexican Situation is Approved By Former Secretary of State.

Chicago, March 13.—William Jennings Bryan gave his approval to the course of President Wilson on the Mexican situation in two addresses delivered here and later epitomized his remarks in the following statement:

"I think the President is entirely right in the two positions he has taken on the Mexican situation as it is today.

"First, the pursuing of the outlaws who perpetrated the outrage on Columbus, N. M.

"Second, in announcing that this was not intervention or invasion, but merely enforcing justice in a section where the Mexican government is not able to do so."

Thermometer at 100 in Yuma.

Yuma, Ariz., March 13.—A temperature of 100 degrees was registered here, marking, according to the weather bureau, the hottest March day in this locality in 37 years.

Avalanche Buries 25 Italians.

Venice, March 13.—An avalanche has buried several houses in the Agordo district. The victims so far reported number 25.

Carranza's Men Reported in Raid.

Douglas, Ariz., March 13.—Further reports of the alleged raid on American ranches south of Osborn Junction, Ariz., stated that a command of Carranza soldiers, who had been drinking, were encamped for the night near Osborn, while on the way from Naco, Sonora, to Agua Prieta, Sonora. They amused themselves by roping cattle and horses belonging to the American ranchers, whose property extended both sides of the international boundary. The Mexicans did not cross the line themselves.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your druggist or at the store. It is inexpensive and almost tasteless, except a sourish tinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.—Adv.

Foregone Conclusion.

Teacher—If a farmer sold 1,479 bushels of wheat for $1.17 a bushel, what would he get?

Boy—An automobile.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 40 years ago. They regulate liver and bowels.—Adv.

Some people think that discussing a thing is about the same as doing it.

The greatest comfort discovery of the age. Sold everywhere, 25c. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y. Adv.

Home Talent.

A man from "upstate" had gone to a theater in New York. In an interval between the acts he turned to the metropolitan who had the seat next to him.

"Where do all them troopers come from?" he inquired.

"I don't think I understand," said the city dweller.

"I mean them actors up yonder on the stage," explained the man from afar. "Was they brought on specially for this show or do they live here?"

"I believe most of them live here in town," said the New Yorker.

"Well, they do purty blamed well for home talent," said the stranger.—Philadelphia Chronicle-Telegraph.

Her Choice.

"Your daughter," said Mrs. Oldcastle after being conducted through the newly furnished wing of the magnificent palace occupied by the Billingtons, "has such a splendid vocabulary."

"Do you think so?" her hostess replied. "Josiah wanted to get her one of them escritoires, but I made up my mind right at the start that a vocabulary would look better in a room furnished like hers is, even if it didn't cost quite so much."

Women are engaged to patrol the army camps in England.

It looks as if some men actually enjoyed being mean.

STOPPED SHORT

Taking Tonics, and Built up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics.

New material from which to rebuild used up tissue cells is what should be supplied, and this can be obtained only from proper food.

"I found myself on the verge of a nervous collapse, due to overwork and study, and to illness in the family," writes a Wisconsin woman.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics, but their effects wore off shortly after I stopped taking them. My food did not seem to nourish me.

"Reading of Grape-Nuts, I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day with cream and drank milk also, went to bed early after eating a dish of Grape-Nuts.

"In about two weeks I was sleeping soundly. In a short time gained weight and felt like a different woman. Grape-Nuts and fresh air were the only agents used to accomplish the happy results." "There's a Reason." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

©UNDERWOOD & UNDERWOOD

Society woman whose life has been threatened because of her activities in behalf of Serbian war relief.

STREET TORN UP TWO MILES

SEWER EXPLODES UNDER THOROUGHFARE IN DETROIT.

Water Mains Broken, Windows Smashed and Buildings Rocked—Panic Among Residents.

Detroit, Mich., March 13.—An explosion of a sewer under Scotten avenue, a West side thoroughfare, tore up the street for two miles, broke water mains, smashed windows, rocked buildings and caused a panic among the residents for blocks around. Several persons were blown from their beds, and thousands of persons rushed into the streets, many of them in their night clothes. Only two persons were reported injured.

Caused by Gasoline Leakage.

The explosion was caused by the leakage of gasoline from a tank car that stood on the railroad tracks which cross Scotten avenue. John Raths, manager of the company to which the gasoline was consigned, said more than 9,000 gallons had escaped from the tank and found its way into the sewer.

When the liquid became ignited the upheaval was terrific. Thousands of tons of concrete in some places three feet thick, was hurled into the air. Several covers were blown 150 feet. Water from the broken mains flooded basements. A grocery store was almost demolished.

Commissioner Fenkel of the public works department, estimated the damage to the city property at $500,000.

STRIKERS KILLED IS REPORT

Agricultural Laborers Riot in Porto Rico—Congressional Investigation Requested by Leaders.

Washington, March 13.—President Gompers of the American Federation of Labor has received cablegrams from San Juan, Porto Rico, telling of riots among the sugar workers there.

"Sugar corporations practically commanding," the dispatch said. "Police savagely killed, wounded and clubbed ten agricultural strikers at Arecibo. Women's parade outrageously fired on. Labor leaders arrested under fabricated charges. Laborers terrorized. Earnestly request congressional investigation."

The message was signed by Santiago Iglesias, president of the Porto Rico Federation of Labor.

German Planes Raid Slav Fleet.

London, March 13.—An official German communication, according to a dispatch from Amsterdam, says that on Thursday morning German seaplanes dropped bombs on a Russian squadron of one battleship and five destroyers and on several Russian merchant ships in the Black sea near Kali Akra cape on the coast of Bulgaria, 25 miles northeast of Varna.

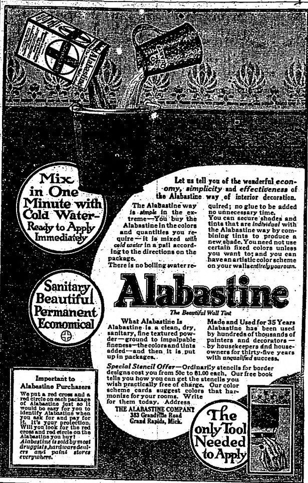
VILLISTAS ATTACK TRAIN; ARE REPELLED AT CONEJOS

Torreon, Mexico, March 13.—Villistas under General Urbalejo made an unsuccessful attack at Conejos on a train which has just arrived here from Chihuahua. The bandits dynamited the station and put up a hard fight, but were repelled.

Some men belonging to a railway crew were killed at the same time. The Chihuahua train was five days on the way.

Members of Portuguese Cabinet Quit.

Lisbon, March 13.—The Portuguese cabinet has resigned to give place to a national defense government, which is now being formed. In parliament Dr. Augusto Soares, foreign minister of the retiring cabinet, read the notes exchanged between Germany and Portugal and also a note from Great Britain requesting the Portuguese government, in view of the alliance between these nations, to seize German ships in Portuguese ports. Tranquility, it is declared, prevails throughout the country.



Mix in One Minute with Cold Water—Ready to Apply Immediately

Sanitary Beautiful Permanent Economical

Let us tell you of the wonderful *economy, simplicity* and *effectiveness* of the Alabastine way of interior decoration.

The Alabastine way is *simple* in the extreme—You buy the Alabastine in the colors and quantities you require—it is mixed *with cold water* in a pail according to the directions on the package.

There is no boiling water required; no glue to be added no unnecessary time.

You can secure shades and tints that are *individual* with the Alabastine way by combining tints to produce a new shade. You need not use certain fixed colors unless you want to; and you can have an artistic color scheme on your walls *entirely your own.*

Alabastine

The Beautiful Wall Tint

What Alabastine Is

Alabastine is a clean, dry, sanitary, fine textured powder—ground to impalpable fineness—the colors and tints added—and then it is put up in packages.

Made and Used for 35 Years

Alabastine has been used by hundreds of thousands of painters and decorators—by housekeepers and house-owners for thirty-five years with *unqualified* success.

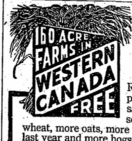
Special Stencil Offer—Ordinarily stencils for border designs cost you from 50c to $1.00 each. Our free book tells you how you can get the stencils you wish practically free of charge. Our color scheme cards suggest colors that harmonize for your rooms. Write for them today. Address

THE ALABASTINE COMPANY
383 Grandville Road
Grand Rapids, Mich.

Important to Alabastine Purchasers

We put a red cross and a red circle on each package of Alabastine just so it would be easy for you to identify Alabastine when you ask for and pay for it. It's your protection. Will you look for the red cross and red circle on the Alabastine you buy! *Alabastine is sold by most druggists, hardware dealers and paint stores everywhere.*

The only Tool Needed to Apply



160 ACRE FARMS IN WESTERN CANADA FREE

Three Hundred Million Bushel Crop in 1915

Farmers pay for their land with one year's crop and prosperity was never so great.

Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions."

Wheat averaged in 1915 over 25 bushels per acre
Oats averaged in 1915 over 45 bushels per acre
Barley averaged in 1915 over 40 bushels per acre

Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from $12 to $30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.

There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive illustrated pamphlet, address Superintendent Immigration, Ottawa, or

R. A. GARRETT, 311 Jackson Street, St. Paul, Minn.

At the Boarding House.

"Is this beef too rare for you, Mr. Simpkins?"

"Well, since you ask me, Mrs. Skinner, I would like it a little oftener."

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of Chas. H. Fletcher.
In Use for Over 30 Years.
Children Cry for Fletcher's Castoria

No Good.

"How do you like the way this Lady Macbeth murders sleep?"

"Bah! She can't even kill time."

Cole's Carbolisalve Quickly Relieves and heals burning, itching and torturing skin diseases. It instantly stops the pain of burns. Heals without scars. 25c and 50c by druggists. For free sample write to The J. W. Cole Co., Rockford, Ill.—Adv.

More than 4,800 persons have applied to join the latest British polar expedition.

Made since 1846—Hanford's Balsam. Adv.

The Reason.

"It is queer you did not notice how the wind was howling last night."

"So was the baby."

Gold handled by a dentist is always at a premium.

It isn't always the strongest man who supports the largest family.

There is nothing insignificant.

Clean the Blood

Spring is the time of the year when we should put our house in order. We're run down after a hard winter—after grip, colds, catarrh. It's time to take Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics. It will search out impure and poisonous matter and drive it from the system. Buy "Discovery" now in tablets or liquid.

It will dissolve the poisonous accumulations and replace the bad blood it drives out, with rich, pure blood full of vital force.

It will clear the skin; eczema, pimples, rash, blotches will dry up and disappear; boils, carbuncles and other evidences of tainted blood will pass away, never to appear again.

And After That!

Visitor—How delighted you must have been when you heard your son had won the V. C.

Scotch Wife—Oh, ay! I was pleased enough, but I wasna' surprised. He stood up to me once!—London Punch.

OLD PRESCRIPTION FOR WEAK KIDNEYS

A medicinal preparation like Dr. Kilmer's Swamp-Root, that has real curative value almost sells itself. Like an endless chain system the remedy is recommended by those who have been benefited to those who are in need of it.

Dr. Kilmer's Swamp-Root is a physician's prescription. It has been tested for years and has brought results to countless numbers who have suffered.

The success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills almost every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

Do not suffer. Get a bottle of Swamp-Root from any druggist now. Start treatment today.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Perfectly Apparent.

"He boasts that he is a selfmade man."

"He shouldn't. It's unnecessary. Anybody can see he's not the work of an expert."

Some people always sit on the family blisters, and keep them irritated.

A NEW DISCOVERY

"Anuric" is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel, Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that "Anuric" is a wonderful eliminator of uric acid. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts; and in gravel and gout, invariably the pains and stiffness rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," or send Dr. Pierce 10c for trial pkg.

"CASCARETS" FOR SLUGGISH BOWELS

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Seasonable.

Knicker—What is a pessimist?

Bocker—A man who believes the snow always drifts on his side of the street.

Not Gray Hairs but Tired Eyes make us look older than we are. Keep your Eyes young and you will look young. After the Movies Murine Your Eyes. Don't tell your age. Murine Eye Remedy Co., Chicago, Sends Eye Book on request.

Appropriate Ejaculation.

"Here somebody says that insanity is caused by bad teeth."

"By gum!"

For weak joints apply Hanford's Balsam thoroughly and well rubbed in. Adv.

Rather Noisy.

Heiny—That certainly was a sound argument your wife put up.

Omar—Yes; it wasn't anything else.

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

A Compromise.

"Would you class telephone operation as a profession?"

"Isn't it a calling?"

It Takes the Fire Out.

To take the fire out of a burn or scald quickly use Hanford's Balsam of Myrrh. Apply it lightly at once and the inflamed skin should be quickly cooled. Be prepared for accidents by always having a bottle on hand. Adv.

He who gives a joke must take a joke.

DRINK LOTS OF WATER TO FLUSH THE KIDNEYS

Eat Less Meat and Take Salts for Backache or Bladder Trouble—Neutralize Acids.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

Sometimes when a man talks about his principles he means his prejudices.

PERSIAN TOWN IS TAKEN BY SLAVS; WARSHIP IS SUNK

KIRIND OCCUPIED BY RUSSIANS IN DRIVE THROUGH PERSIA—GERMAN TRENCHES IN EAST GALICIA CAPTURED.

TORPEDOBOAT DESTROYER IS VICTIM OF SUBMARINE

Artillery of French and Germans Continues Tremendous Shelling in Verdun Region—Teutons Claim 26,472 Soldiers Taken in Drive—Italians Bombard Isonzo Front.

London, March 14.—Except for artillery action the fighting in the Verdun region virtually has ceased for the moment. To the north and east of the fortress there has been no infantry engagements since Saturday afternoon when the Germans succeeded in entering a small French trench to the north of Eix.

On both sides of the Meuse from the northwest of Verdun along the entire front to the southeast of the fortress the artillery of both sides has continued the tremendous shelling that has been in progress for days.

Germans Take 26,472 Men.

The Germans claim to have captured in the fighting around Verdun thus far 26,472 unwounded French soldiers and men and 189 guns and 232 machine guns.

To the south of the Somme river in the Argonne forest and in the Ban-de-Sapt sector of the Vosges, the French guns have heavily bombarded German entrenchments.

Slavs Capture Kirind.

The Russians have captured trenches from the Germans in the Dniester region of East Galicia and have made further progress against the Turks in Persia by taking the town of Kirind. The Russians admit the sinking of a Russian torpedo boat destroyer by a submarine of the Central powers in the Black Sea off the Bulgarian port of Varna. Part of the crew of the destroyer was rescued.

Despite the unfavorable weather conditions in the mountains the Italians are continuing their operations against the Austro-Hungarians. They also are intensely bombarding the Isonzo front. The town of Gorizia has had to sustain another hail of Italian shells.

A Paris dispatch says that testimony given the American consul at Havre by the seven Americans on board and the members of the crew of the Norwegian bank Silius, which was sunk off the coast of France, is that the bark was torpedoed by a submarine, and without warning.

DECLARES WAR ON PORTUGAL

Germany's Action is Based on Seizure of Merchantmen in Portuguese Ports.

Berlin, March 10.—Germany has declared war on Portugal and handed his passports to the Portuguese minister. Thus the Portuguese government becomes the fourteenth nation involved in the world conflict.

The German declaration was based on the act of Portugal in seizing, without previous notice, German merchantmen in Portuguese ports. This action, Germany charged in a sharp note of protest, violated the existing commercial treaties between Germany and Portugal and offered evidence that Portugal is "a vassal of Britain."

To this note Portugal on March 4 replied with a communication to the German foreign office, flatly rejecting the German demands.

BRITISH CONFISCATE MAIL

Take American Securities and Coupons Valued at $10,000,000 From Dutch Steamers.

Amsterdam, via London, March 13.—Banking circles here give $10,000,000 to $12,000,000 as the aggregate value of American securities and coupons taken by the British government from the Dutch steamers Noordam and Rotterdam on outward voyages since the middle of January.

Calls United States Great Power.

London, March 13.—The nation in an article discussing the position of the United States as a world power says:

"America is slowly moving away from her old moorings and shortly will have entered into world politics as a great power. It would be idle for the European belligerents to pretend that they will, and can settle the affairs of the world without her."

Georgia Republicans Split.

Macon, Ga., March 13.—A meeting of the Republican state central committee here broke up in a series of fist fights and after the police had dispersed the committeemen and sent three of the negroes present to jail, leaders of the rival factions announced the call of two separate conventions April 12 to choose delegates to the national convention. One faction, headed by W. H. Johnson, will meet in Macon, and the other, under H. S. Jackson, will convene in Atlanta.

NO CONSCRIPTION IN CANADA

No War Tax on Land—Embargo on Shipment of Live Stock Removed.

During the prevalence of the foot-and-mouth disease in some portions of the United States, an embargo was placed upon inter-state shipments. This also had an effect upon shipments to Canada, and necessarily an embargo was placed upon them making it almost impossible for upwards of a year to ship cattle into Canada, from the United States. This was especially hard on the settler. As a result, Western Canada lost a number of settlers, they being unable to take their live stock with them. Canada is practically free from horse and cattle diseases, and the wish of the authorities is to keep it so.

Recently, though, an order has been issued by the Department of Agriculture, removing the embargo, and settlers are now free to take in the number of head of horses or cattle that are permitted by the Customs authorities and the freight regulations. This will be welcome news to those whose intention it is to move to Canada, taking with them stock that they have had in their possession for six months, and which it is the intention to use on land that they will farm in the Provinces of Manitoba, Saskatchewan or Alberta.

There are thousands of splendid homesteads of 160 acres each in any of these provinces, that may be had upon the payment of a ten-dollar entry fee and fulfilling the requisite living and cultivation duties. These lands are well adapted to the growing of all the small grains, and besides, having an abundance of grass, and sufficient shelter, they are well adapted to the raising of stock.

If one prepares to purchase land, there could be no better time than the present. Prices are low, and particulars may be had from any of the land companies, of which there are several, or from the Canadian Pacific and Canadian Northern railways, whose holdings are in the older settled districts, and whose terms are exceedingly easy to the settler. What these lands will do in the matter of production cannot be more strongly emphasized than in reading the reports of the crops throughout all parts of the Canadian West in 1915. Yields of 50, 60, and as high as 70 bushels of wheat to the acre were numerous, while reports of yields of from 30 to 45 bushels per acre were common. Oats as high as 130 bushels per acre are reported. 50 and 60 bushels per acre being ordinary. The prices realized by farmers have placed most of them on "easy street."

Lately there have appeared articles in a number of United States newspapers to the effect that there was conscription in Canada, or that such a law was likely to be put into effect. We have it from the highest authority in the Dominion that there is no truth in the statement. Sir Robert Borden, at the opening of Canadian parliament on January 17th, said:

"In the first few months of the war I clearly stated that there would not be conscription in Canada. I repeat that statement today."

This statement should set at rest the conscription talk that has been so freely used to influence those who may be considering settling in Canada during the war.

It has also been said that there was a war tax on land. Hon. Dr. Roche, Minister of the Interior, over his own signature has denied this, and the premiers of the different provinces join in saying "such a report is absolutely untrue, and has no foundation whatever in fact, nor is there likely ever to be any such tax upon land in Canada."

The general prosperity of Western Canada farmers and business institutions is such that Canada is well able to take care of the extra war expenses without any direct war taxation. This has been well illustrated by the magnificent response to the Dominion Government's recent bond issue, which was more than doubly subscribed for within the first eight hours of its being offered to the public.

(The above appears as an advertisement and is paid for by the Dominion Government which authorizes its publication.)

But a woman never thinks of anything important she wants to say until some other woman is talking.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

The politicians, like actors, rehearse their plays, and try to get popular ones.

For bruises use Hanford's Balsam. Adv.

The little word "if" blunts the point of many a sound argument.

Gopher State Happenings

Important Events of Various Sections of the state reported during last few days.

AT THE STATE CAPITOL

Is Assistant Attorney General.

Egbert S. Oakley, an attorney of Duluth, has been named as assistant attorney general by Attorney General Smith. He succeeds W. J. Stevenson also of Duluth, who resigned.

Auto Funds To Go To Roads.

Beginning August 1 next, all moneys collected by the state automobile registration department for the year ending with that date will be available for state road and bridge purposes. A ruling to this effect has just been made by Attorney General Smith. Deductions are to be made for expenses incurred by the department, which is in charge of the secretary of state.

* * *

Would Improve Girls' Home.

The state board of control has decided to ask the next state legislature for money to build two additional cottages and a central heating plant at the Home School for Girls, Sauk Center. The decision followed a special visit of inspection to the school by the entire board. The board placed 27 girls on parole, making 108 in all now out on parole, with 198 left in the institution.

* * *

Reports High Fire Loss Ratio.

Minnesota citizens paid for fire insurance in 1915 the sum of $8,324,855.90. The companies in the same period paid them $4,908,101.34, the latter figure representing the aggregate of adjusted losses. The figures are in an official statement by Samuel D. Works, state insurance companies which collected $7,648,000 in premiums and paid out $4,529,000, which represents a fire loss ratio of 59.2 per cent, the highest since 1911, when the loss ratio was 61 per cent.

* * *

Boys' and Girls' Week at "U."

Instruction, sight-seeing and amusement will make up the program of the Boys' and Girls' Week, to be held at University Farm, St. Paul, April 3 to 7. Five hundred Minnesota boys and girls are expected to attend the meetings. Ten series of talks and demonstrations will be given in the mornings and each boy may select four of these. The girls will take three subjects, one each in breeds of cattle and beekeeping; foods, cooking and garment-making; gardening and poultry.

GOPHER STATE NOTES

Albert Lea. — The right eye of Hugo Bremer, a young farmer, was torn from its socket when a splinter of wood flew from a tree. This is the third accident of its kind in the Bremer family.

Owatonna.—The Steele County Agricultural association has decided to hold its annual county fair the week previous to the holding of the state fair. The dates will be Aug. 31 and Sept. 1 and 2.

Red Wing. — This city's voters will be asked to consider a bond issue of $170,000 for the erection of new school buildings and the remodeling of the high school, at a special election to be held Monday, March 27.

Dayton, Hennepin county, has made plans for a farmers' short course to be given under the direction of the agricultural extension division of the University of Minnesota, in co-operation with the Dayton short course committee.

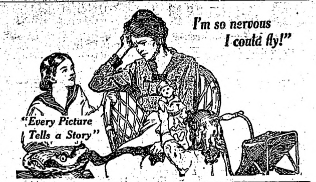
Mankato.—City Commissioner Robert Lamm, was chosen mayor by the city council to fill the unexpired term of Mayor A. G. Meyer, who died. Former Commissioner Jud. J. Humiston was chosen to succeed Lamm in the council.

Lakefield. — As Jackson county voted wet, the brewery interests are making strenuous efforts to carry the local option elections in every village this spring. The drys are resorting to a publicity and speaking campaign. Every village is saloonless except Lakefield.

Mankato. — Dates for some of the county fairs of the Second congressional district were fixed at a meeting of the Second District Fair Officers' association here, as follows: Faribault county, at Blue Earth, August 30, 31 and September 11; Murray county, at Slayton, September 7, 8 and 9; Watonwan county at St. James, September 11, 12 and 13; Jackson county, at Jackson, September 14, 15 and 16; Cottonwood county, at Windom, September 18, 19 and 20; Nobles county, at Worthington, September 21, 22 and 23; Redwood county, at Redwood Falls, September 27, 28 and 29.

Winona.—At the annual meeting of the Southwestern Minnesota and Western Wisconsin Beekeepers' association here the beekeepers went on record as favoring uniform state taxation of bees. In some counties it is said that bees are taxed and in others they are not.

St. Paul.—At a meeting of twenty-five St. Paul sportsmen, the Minnesota Game Breeders' and Protective association was formed at a dinner at the St. Paul Athletic club. The organization resulted from the Save the Quail movement carried on with success during the past month.



I'm so nervous I could fly!"
"Every Picture Tells a Story"

Colds Make Backs Ache

MORE aching backs, more kidney troubles come in March, than in any other month. Slushy sidewalks, dampness, raw winds and sudden changes cause chills and colds. And chills or colds tend to hurt the kidneys. It is good sense to use a kidney remedy when recovering from a cold and at any time when suffering from a lame back, sharp pains when stooping or lifting, dizzy spells, irregular or annoying kidney action, and a run-down, nervous state.

Don't delay and take a chance of getting dropsy, gravel, Bright's disease or some other serious kidney disease. Use Doan's Kidney Pills, the best-recommended, special kidney remedy. All over the world grateful people frankly praise Doan's.

Here's What Minnesota People Say:

William Thaldorf, 421 W. Mark St., Winona, Minn., says: "Hard work weakened my kidneys and my back got very painful. When I caught cold, it settled on my kidneys and caused a severe spell of backache. My kidneys acted too often. Doan's Kidney Pills rid me of the pains and aches and regulated the action of my kidneys."

Mrs. August E. Brunner, Wabasha, Minn., says: "For years I was subject to attacks of backache and kidney complaint. If I caught cold, my kidneys were affected worse and my back gave me added trouble. My kidneys acted irregularly, too, and showed signs of general disorder. Finally I used Doan's Kidney Pills and they brought me such great relief that I have taken them off and on since. I have always had good results."

DOAN'S KIDNEY PILLS

At All Stores, 50c a Box. Foster-Milburn Co., Buffalo, N. Y.

Joke on Her.

"My wife gave a reception yesterday."

"Did you attend?"

"Yes; I played a practical joke on her. I got in line when she was receiving and before she knew it she was smiling and saying she was glad to see me."—Missouri Mule.

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Prudent Politeness.

"Do you think a man ought to speak generously of a political foe?"

"Sometimes," replied Senator Sorghum. "It may convey the impression that you aren't afraid of him."

For inflamed sore eyes apply Hanford's Balsam lightly to the closed lids. It should relieve in five minutes. Adv.

The Result

"His wife made a man of him."

"He looks like a homemade job."—Baltimore American.

The Difference.

"I'd like to get a mile away from a spoiled child."

"I'd like to get a rod near him."

Quite Appropriate.

"I have a good stabbing story."

"Then we'll illustrate it with plenty of cuts."

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00.—Adv.

The Province of MANITOBA, CANADA Calls for Farm Helpers

There is a very urgent call for farm workers this Spring for the Province of Manitoba, Canada. Owing to the keen demand for all kinds of foodstuffs caused by the war, together with the enlistment of so many thousands of our young men, the farmers of Manitoba find themselves face to face with a serious labor shortage. In order to encourage farmers' sons and other farm workers from the United States to answer to this call the Railway Companies are offering reduced rates to all such passengers from all points on the International boundary line northward, going West in Canada. This will enable anyone who wishes to see Western Canada to do so at a very small cost, and will permit inspection at first hand of the thousands of acres of cheap land which are still available.

The scale of wages for experienced men will run from $25.00 to $45.00 per month according to experience, and it is estimated that from 3,000 to 3,500 such men are needed. In order to allay any apprehension on the question, it may be asserted that absolutely no military obligation of whatever sort is imposed upon anyone coming into or living in Canada.

If you are interested, write or apply personally to the

MANITOBA IMMIGRATION OFFICE
323 Jackson Street ST. PAUL, MINNESOTA

THE SUNBEAM.

BY W. G. HUNT. EDITOR
M. G. HUNT. PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

The people of Thief River Falls are considering changing the name of their city, and the name of Pennington has been suggested. That would not sound bad, the city of Pennington, Pennington County, Minnesota. Of course the present name sounds all right to people who are accustomed to it, but we have been compelled to explain to eastern people several times how they came to name it Thief River Falls, and we for one resident of the county would prefer to write our eastern friends that the county seat of our county was named Pennington instead of Thief River Falls.

The people of temperance ideas do not take defeat very kindly on the county option issue in Red Lake County, and are now trying to dig up an old dead Indian treaty to try to prohibit the sale of liquor in that county. A movement of that kind will be likely to stir up a sentiment among the people of northern Minnesota that will sweep those old Indian treaties out of existance like chaff before a hurricane, for the present settlers in this territory had ought to be able to run their own business without any Indian treaty assistance.

The Goodridge consolidated school district only bonded for $10,000, but before they got their school house completed, it cost them over $14,000, to say nothing of furnishings and books. They only have two rooms running now, but their school tax is twenty-one mills already, which will about double, within the next two years.

Should the people of the town of Highlanding make the mistake of trying to consolidate the schools at this time, it would place a bonded debt, mortgage, on our farms of at least $20,000, as it would be folly to start to build and equip a consolidated school for a less sum than that. A careful study of the situation had ought to convince any one, that we should not attempt to make any consolidation of schools until there are more actual residents in the country.

We understand that there is going to be a concentrated effort made by the citizens of Plummer and Oklee, to have the immigration for southern and eastern Pennington come by their way, as they have good roads from those towns to all points in eastern Pennington county south of the Red Lake River. There is no passable road on the south side of Red Lake River to the eastern part of the county, and from Thief River Falls there is no way to get across the Red Lake River in the summer time from Thief River Falls to Red Lake, and there will be sufficient advertising done of this fact to let strangers know it, so they can come into eastern Pennington county by way of Oklee and Plummer. They used to have a fashion last summer of telling strangers that they could cross the river at Highlanding, but when they got to Highlanding, all they found was a ferry sitting in the stream with no approaches to get on or off of it, and they turned around, and went in another direction looking for land. We have just as good and better roads on the south side of Red Lake River as there are on the north side, and the people living on the south side will heartily indorse this movement being made by Oklee and Plummer, to assist them from being isolated by a government fence, in the future, as they have been in the past.

If it were not for opposition to declaring this a non-navigable river, by a certain class of people who want to deprive the eastern part of the county of a right to get a bridge across it, there would be a passable bridge made by private subscription in less than thirty days, that would render as good service as the bridge at Roland has across the Clearwater river, that was built by private individual subscription ten years ago.

With this issue we commence the publication of Volume XVI of THE SUNBEAM starting on its sixteenth year under one management. We wish to thank our friends and subscribers for their liberal patronage in the past, and hope to merit a continuation of their patronage by the publication of a live newspaper devoted to the interest and the upbuilding of northern Minnesota.

DANGERS OF DRAFT

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c. at your Druggist.—Adv.

What Happened To Jones

The above is the of title of a theatrical play that is to be given at the Auditorium Building, at Thief River Falls, on the evening of March 24th, for the benefit of the Thief River Falls Hockey team. This team has done some good advertising for Thief River Falls and Pennington County, as they have won the championship of Minnesota, and made the big twin cities of St. Paul and Minneapolis sit up and take notice that there was such a place as Thief River Falls, and that they had a champion hockey team. You will enjoy a fine play, and give the boys the encouragement they deserve by your attendance. Remember the date March 24th.

AN IDEAL SPRING LAXATIVE

A good and time tried remedy is Dr. King's New Life Pills. The first dose will move the sluggish bowels, stimulate the liver and clear the system of waste and blood impurities. You owe it to your self to clear the system of body poisons, accumulated during the winter. Dr. King's New Life Pills will do it. 25c. at your Druggist.—Adv.

WATCH CHILD FOR WORMS

Worms sap child's strength rob child of food and make child fretful, irritated, nervous. Watch stool and at first sign of suspicion of worms give one-half to one lozenge Kickapoo Worm Killer. A candy worm remover. Gives immediate results, is laxative. Paralyzes and removes the worms, improves digestion and general health of child. Continue giving Kickapoo Worm Killer, until all signs of worms are gone 25c. at your Druggist.—Adv.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, MARCH 24, 1916 NO. 2

MINNESOTA HISTORICAL SOCIETY

THE LOCAL NEWS

Mr. and Mrs. Wm. Quirk were shopping at Highlanding on last Tuesday.

The Mr. Jim Crow has arrived to let us know that spring is here, if he don't freeze to death.

C. L. Clark has moved onto the John Quirk farm, formerly the Sullivan farm.

About two inches more snow fell last night, which will help some to make a bad weather worse.

Miss Stella Arndt is holding State examination at the Highlanding School house, yesterday and today.

Hover Falkedahl will take orders for a Chicago wholesale grocery house in this locality this summer.

The auction sale of A. B. Mandt in the town of Kratka last Tuesday was largely attended and the property offered for sale brought good prices.

Cows sold at very high prices at the P. P. Palmer auction sale Wednesday. One cow selling for ninety dollars, about fifty-five dollars being the average price.

A large number of our farmers are attending the farmers meeting at Goodridge to-day, trying to learn how to raise big crops on mosskeg land from state experts.

We wish to call the special attention of anyone wanting to buy a farm to the Deer Park farm advertised in another column, as this is one of the best farms in eastern Pennington county.

About every campaign we get into we usually gain and lose subscribers, but THE SUNBEAM will always be found working for the best interest of the farmers of this territory regardless of whose corns it treads on.

We often see farmers at auction sales telling what they have for sale. If they would put a notice in their local paper of what they have for sale, they would reach the people who want to buy.

Jesse LaBree must be crowded with auctioneering business now days judging by the number of auction bills that bear his name as auctioneer. J. W. is a first class salesman, which accounts for him getting the business.

There is one piece of road between Highlanding and Goodridge, by the Hegestuen farm that will be dangerous driving over during the spring break-up, as the snow is blocked up for about ten feet deep and when it thaws enough to let a horse into it he will go in out of sight.

Stephen Singer, the wile post master, of Kratka was at the A. B. Mandt auction sale trying to inveigle the farmers into some sort of a creamery deal; but the farmers are "next" to mine boy Stephen, and do not wait to be led into any more of his creamery deals.

Sunbeam post office is to be made a post office money order office, on April 1st; by order of the post office department. It appears from this order that the Singer dictators has lost a little of their grip with the powers that be, but they still persist in telling everyone they see that they are going to have dat office discontinued right away: "My boy Stephen; he write them about dat, and he was an alternate delegate down at the Democratic convention. Oh yas; mine Stephen he was smart to turn to be Democrat."

Ye editor is attending the farmers meeting at Goodridge today to learn how to farm mosskeg land.

If the town of Highlanding had cast as many votes at the spring primary election as they did at that consolidated school meeting they would have landed Cummin's prize of two hundred dollars.

District 37 Highlanding school district have had an eight months term of school with a first grade teacher every year except one, since the district was organized ten years ago, so that the people can see that we are not opposed to good schools because the proposition to consolidate was voted down at this time.

Fred Brown who has rented the C. L. Clark farm, will be prepared to take contracts for doing road work this summer, so we can get the road grades dragged on the south side of the river, so we can show the people who come into our territory from Plummer and Oklee that we have good roads, if we can't get across Red Lake River.

The undersigned requests the co-operation and consideration of the farmers in establishing a series of county contests in pig-raising, calf feeding, bread making, acre corn and potato growing and in planning for a county poultry association. The local Commercial Club, the Pennington County Fair Association, and the County Superintendent have graciously promised their support and financial assistance in making this movement a success.

Next week, a canvass of the rural schools in this territory will be made for the purpose of enlisting recruits in these contests. The State and the Department of Agriculture at Washington have promulgated rules governing and directing the several contests. Premiums are offered but cannot be announced until the state completes its list. Local prizes will be provided and they will be generous and varied.

About the first week of April, all the contestants will be called in to the Commercial Club rooms in Thief River, where they will be suitably entertained and given final instructions. Prof. T. A. Erickson, state leader in club work, and Prof. N. A. Chapman, poultry expert, will be present to aid in getting the movement properly under way. No boy or girl in the county or in the two rows of townships in Marshall county just north of Pennington will be prohibited from entering one or more of the contests. It is the purpose of the several organizations back of the movement to make it the largest and most efficient in the state. The champion pig-grower and the champion bread maker will enjoy trips the state fair in September at the expense of the state; but, in addition, a generous fund of local cash premiums will be offered in every class. The contestants will be supplied with application blanks and rules by the undersigned. Some of the contests must close by Sept. 1st, but others will will run into October. Late in the fall an industrial fair for the county will be held at Thief River; at which outside judges will render their decisions on all contests and award premiums.

It is not generally known that annual aid to the amount of $100.00 is available for any properly organized and maintained county poultry association.

Arrangements will be made whereby good seed for the contests will be provided and in such manner that any trustworthy boy or girl may receive it.

It also ought to be understood that any boy or girl, whether in town or country, who can subscribe to the requirements is eligible to enter.

The department bespeaks the hearty support of every parent in this important movement. It is highly educational and practical and can be made a great success by good team work.

Department of Agriculture,
Thief River Falls High School.

Reciprocity.

"Dear Harold," with sadness she wrote to her former fiance, "as you are probably aware, I am to be married to Mr. Anthony the coming month. I shall therefore appreciate it if you will burn all the little notes I sent you, assuring you of reciprocity in regard to those you sent me."

She immediately received this reply:

"Dear Dorothy—I shall certainly comply with your request at once. And, incidentally, as your new fiance holds a few notes of mine I shall deem it a great favor if you will induce him to burn them with the rest."—National Food Magazine.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

DEFECTIVE PAGE

HIGH PRICES—GOOD CROPS

And Good Demand for All Farm Products.

It is no new experience for settlers located in a fertile country such as Western Canada, where lands may be bought at very reasonable prices, to harvest a crop that in one season pays the entire cost of their farm. Undoubtedly this was the experience of many farmers during 1915, but one instance may be quoted. A settler who came to Canada from the United States some years ago decided to add to his holdings by buying an adjoining quarter section near his home at Warner, at $20.00 an acre, with terms spread over a period of years. He got the land into a good state of cultivation and last spring put the whole quarter section in wheat. When the crop was threshed he found that it only took half the wheat on the farm to pay the whole purchase price of it; in short a single year's crop paid the cost of the land, paid all the expenses of operation and left him a handsome surplus as profit. This settler had some adjoining land, and his whole wheat crop for the season amounted to over 18,000 bushels. He is now planning to obtain some sheep and invest his profits in live stock which will assure him a good living irrespective of what the season may happen to be.

Canada's financial position is excellent. All speculation has been eliminated, and trading is done on a cash basis, with restricted credit.

Detailed figures of Canada's trade for twelve months ending October 31 show how the war is forcing Canadian trade into new channels. One of the most extraordinary changes is in commerce with the United States. A couple of years ago Canada imported from the United States two or three hundred million dollars' worth of goods more than she exported. The balance of trade was all with the United States. The balance is rapidly disappearing, and the present outlook is that by the end of this year Canada will have exported to the United States more than she has imported.

The figures for the past four years are illuminating. They are as follows:

	Exports.	Imports.
1912	$145,721,650	$412,657,023
1913	179,050,796	442,341,846
1914	213,493,406	421,074,528
1915	314,118,774	346,569,924

Four years ago, in 1912, the balance of trade in favor of the United States was no less than two hundred and sixty-seven millions, and this year, the balance is reduced to only thirty-two millions. The figures are extraordinary and reflect the changed and new conditions in Canada. It looks as if for the first time in nearly half a century this year Canada will sell more to the United States than she will buy from the Americans.—Advertisement.

A Worthy Study.

"What do you think of these memory tests the professor is sticking on us? Bally nonsense, I say."

"Can't agree with you," declared the team captain. "Ought to be a part of every college course, I think. Some of the boys couldn't remember their football signals last fall."—Louisville Courier-Journal.

Cole's Carbolisalve Quickly Relieves and heals burning, itching and torturing skin diseases. It instantly stops the pain of burns. Heals without scars. 25c and 50c by druggists. For free sample write to The J. W. Cole Co., Rockford, Ill.—Adv.

Inspiration.

"That actor puts a great deal of spirit into his acting, doesn't he?"

"Sure does; can't act without it."

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is ofttimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

People who always say what they think have few friends.

Stepping on a banana peel has enabled a lot of men to go their length.

VILLA DRIVEN INTO TRAP BY ADVANCE OF U. S. TROOPERS

BANDIT CHIEF HEMMED IN ON THREE SIDES BY STRONG CARRANZA COLUMNS—AMERICANS ON FOURTH.

MARCH FORWARD MADE WITH AMAZING SPEED

Expeditionary Force Pushing Onward at the Rate of Thirty-three Miles a Day, According to Wireless—Outlaw Reported in Lake Region on Hearst Ranch.

El Paso, Texas, March 20.—Pancho Villa has been driven into a trap by the rapid advance of the American troops, according to the information received in wireless dispatches from the front and telegraphic dispatches to General Gabriel Gavira, the Carranza commander at Juarez.

Everything seems now to depend on the ability of the Carranza garrisons to hold their end of the net. On three sides of the bandit chief he is hemmed in by strong Carranza columns, while on the fourth the Americans are driving forward with amazing speed.

Push Forward Rapidly.

Villa was reported in the Babricora lake region on the ranch of Mrs. Phoebe Hearst, which he has ravaged several times in the past. Babricora is about 55 miles south of Galeana, where one section of the American expeditionary force has arrived and is pushing forward at the rate of 33 miles a day. A few miles to the west of the bandits' position is Namiquipa, which is held by a powerful Carranza garrison. On the east are the frowning barriers of the Sierra Madres mountain barring the way to Sonora. General Gutierrez, Carranza's field chief, declares that he holds all the passes to Sonora. In any event it is very unlikely that Villa would make a break for Sonora for the people there are said to be staunchly loyal to Carranza.

To the south Villa's way is blocked by the Carranza garrison at Madera, a town of considerable importance.

FIGHT AT CANON CHORRITOS

Constitutionalists and Villistas Clash in Torreon District—Twenty-six Men Are Killed.

Torreon, Mexico, March 20.—Fighting has been in progress since early Friday between constitutionalists and villistas at Canon Chorritos, near Noe, which is in the Torreon district.

News of the result of the battle is not expected to be available for several days. The Villa commander is said to be Juan Madrid, and also possibly Canuto Reyes is with him.

Reliable reports received here also stated that 26 men had been killed and 32 captured in a battle between constitutionalists and socalled "pacifists," somewhere in the region of Durango, Mexico. The "pacifists" were said to be under the leadership of Generals Ranuelos and Miguel Hernandez.

TO GUARD MOUNTAIN PASSES

Carranza Troops Begin Training to Re-enforce Garrison on Duty in Chihuahua.

Douglas, Ariz., March 20.—Five hundred troops of the de facto government, largely boys from 14 to 18 years old, have arrived at Agua Prieta, opposite here. They began training preparatory to proceeding to Eastern Sonora, where they will re-enforce the garrison guarding the mountain passes of San Luis, Pulpito, Ojitas and Dolores, which lead into Chihuahua. Mexican officials said most of the boys were deserters from Villa.

The situation in Sonora is well in hand, General P. Elias Calles, military governor, announced.

MULE'S KICK WORTH $7,000

Louisiana Man Sues Owner Because He Was Hit in a Cruel and Unusual Manner.

Centerville, La., March 20. — Although to be kicked by a mule is not usually considered very serious, Thomas Brinegar who suffered such a kick recently, contends it is worth $7,000 to him. Thomas has sued the Exline Coal company for that amount because, he says, the mule cornered him in a convenient entry and kicked him in a cruel and unusual manner, not to say with vehemence.

Historic Dwelling Destroyed.

Minneapolis, Minn., March 20.—One of the historic dwelling houses of Northeast Minneapolis was destroyed when fire attacked the old "Rutherford mansion," at 2514 Lincoln street. It was built by the late Capt. George Rutherford of the Second Minnesota Civil War regiment in 1883 and cost $17,000, being one of the most elaborate homes of the period in Minneapolis. Mrs. Elizabeth Rutherford, widow of the captain, who lives at 2524 Lincoln street, watched the flames lick up the structure.

"CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

Its Meaning.

"Is there anything in that cipher?"

"Well, it probably was not devised merely for naught."

Throw Off Colds and Prevent Grip. When you feel a cold coming on, take LAXATIVE BROMO QUININE. It removes cause of Colds and Grip. Only One "BROMO QUININE." E. W. GROVE'S signature on box. 25c.

When a woman trusts her husband implicitly the honeymoon is still young.

FIERY RED PIMPLES

Soothed and Healed by Cuticura Soap and Ointment. Trial Free.

Smear the affected skin with Cuticura Ointment on end of finger. Let it remain five to ten minutes. Then wash off with plenty of Cuticura Soap and hot water. Dry without irritation. Nothing like Cuticura for all skin troubles from infancy to age.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Nearly 150,000 Crop Reporters.

Nearly 150,000 volunteer crop reporters and special correspondents are now aiding the bureau of crop estimates of the United States department of agriculture in the preparation of its estimates of crops and live stock production of the country, according to the annual report of the bureau which has just been issued. The actual number of these volunteer assistants is 147,327. In addition there are 151 paid employees in the service of the bureau. The total appropriation for the work for the fiscal year ending June 30, 1915, was $275,580.—Dun's Review.

Way of the Law.

Prison Visitor—What terrible crime has this man committed?

Jailer—He has done nothing. He merely happened to be passing when Tough Jim tried to kill a man, and he is being held as a witness.

Visitor—Where is Tough Jim?

Jailer—He is out on bail.

Where the Money Goes.

Teacher—If a farmer sold 1,479 bushels of wheat for $1.17 a bushel, what would he get?

Boy—An automobile.

The people who never make mistakes all reside in the cemetery.

Generous Man.

"I hear the divorce allowed each to have the child half the time."

"Yes—he wants it days."—Judge.

MORE THAN EVER

Increased Capacity for Work Since Leaving Off Coffee.

Many former coffee drinkers who have mental work to perform day after day, have found a better capacity and greater endurance by using Postum instead of coffee. An Illinois woman writes:

"I had drank coffee for about twenty years, and finally had what the doctor called 'coffee heart.' I was nervous and extremely despondent; had little mental or physical strength left; had kidney trouble and constipation.

"The first noticeable benefit which followed the change from coffee to Postum was the improved action of the kidneys and bowels. In two weeks my heart action was greatly improved and my nerves steadier.

"Then I became less despondent, and the desire to be active again showed proof of renewed physical and mental strength.

"I formerly did mental work and had to give it up on account of coffee, but since using Postum I am doing hard mental labor with less fatigue." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled, 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

U. S. TROOPS PRESS FORWARD

MAKE RECORD MARCH INTO MEXICO, RADIO SAYS.

Villa Continues His Outrages Upon Americans—Bandit's Latest Hiding Place Located.

With the American Army, March 20.—Via Wireless to Columbus, N. M.—After marching more than 110 miles into Mexico in record marching time of 42 hours, the American punitive expedition has received information apparently locating Francisco Villa, the object of the chase. Disposition of the troops began for the task of hunting him down. Meanwhile Villa was reported to be continuing his outrages upon Americans.

The expedition reached (name deleted by censor). They were informed that the Mexican leader passed through this place only a few days ago. The latest information of Villa's present whereabouts placed him on the ranch of Candelario Hernandez, one of the sub-chiefs with him on the raid against Columbus.

Pershing Personally Leads Column.

General John J. Pershing personally led the flying cavalry column in the 110-mile dash. Every man in his command was mounted. They pressed through a section of Mexico where water was scarce. For such a large body of men the speed maintained was remarkable, and the good condition in which they came through was inspiring.

Only a few cavalry horses and pack mules were lost, the victims of a hard riding trail. The men reached the camp thirsty and hungry, but otherwise in good condition, fit for action and eager for the pursuit of Villa to begin in earnest. Here they were met with reports that Villa had raided the American colonies in the vicinity of his mountain retreats and that he had killed residents of these colonies.

The position of the flying column when the above dispatch was filed was not permitted by the censor to be sent.

The location of Villa's latest hiding place, Candelario Hernandez ranch, was not clear; nor did the dispatch passed by the military censor reveal the places where the American colonies, which Villa was reported raiding, are situated. The ranch was understood to be on the properties of Luis Terrazas, the multi-millionaire land owner, whose properties Villa has been confiscating and distributing.

The seized Terrazas properties are scattered over more than half of the state of Chihuahua so that the Hernandez ranch might be 100 miles or more from General Pershing's outposts.

SLAVS START BIG OFFENSIVE

Russians Make Violent Attack Against Germans on Eastern Front Lull at Verdun.

London, March 20.—With the slackening of the fighting around Verdun the Russians have started a big offensive movement against the Germans on the Eastern front.

Berlin chronicles an attack of great violence by the Russians around Driswiaty lake and Lake Narocz, but says the Russians were repulsed with great losses, 9,270 Russian dead having been counted in the Lake Narocz region.

Russian Minister Resigns.

London, March 20. — An imperial ukase announces the resignation of Alexi Khvostoff, Russian minister of interior, according to a Reuter dispatch from Petrograd.

See Liquor Sold to Boys.

Minneapolis, March 20. — Rumors that the indictments of 17 saloon employes and proprietors, many of them representing downtown hotels, will be asked when the grand jury meets Wednesday were current in the courthouse. The charge in each case is selling liquor to a minor. It is said that investigators circulated quietly with two boys who purchased liquor. In many of the places visited both boys are said to have been served, the liquor being carefully bottled and labeled.

KIDNEYS CLOG UP FROM EATING TOO MUCH MEAT

Take Tablespoonful of Salts If Back Hurts or Bladder Bothers—Meat Forms Uric Acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

Only a fool has the nerve to boast of his good sense.

In the effort to eradicate

HEADACHE AND NEURALGIA

Hoyt's Headache and Neuralgia Cologne now heads the list as a successful remedy for the relief of headache, nervousness, insomnia, car sickness, etc.

The dangerous tablet has had its day. Hoyt's Headache and Neuralgia Cologne is a harmless, refreshing, fragrant preparation, marvelous in its action, relieving nervousness, sleeplessness, exhaustion and all head and nerve ailments by external use and inhaling. It is not a nerve food, but a nerve soother. By giving the nerves a rest they furnish their own food and tone, and all nerve pains disappear.

For children's colds and catarrh it is just the remedy, harmless and efficient and so pleasant to use. For men a pleasant remedy to relieve and clear the head "the morning after the night before." This is not an expensive preparations at 50 cents a bottle, because it brings the relief. It has many imitators at less price, but if they do not bring the desired results they are not cheap at any price.

Get Hoyt's and you will be satisfied. For sale at all drug stores.

A shanty on earth is worth more than a castle in the air.

To Build Up After Grippe, Colds Bad Blood

Take a blood cleanser and alterative that starts the liver and stomach into vigorous action, called Dr. Pierce's Golden Medical Discovery because of one of its principal ingredients—the Golden Seal plant. It assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous. Buy "Medical Discovery" today and in a few days you will know that the bad blood is passing out, and new, rich, pure blood is filling your veins and arteries.

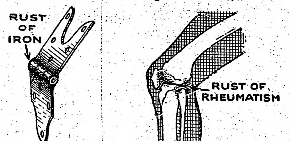
BACKACHE, LUMBAGO

Uric acid causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" is 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on uric acid within the body.

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Doctor Pierce's Anuric Tablets, full treatment 50c, or send 10 cents for a trial package of "Anuric" Tablets to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

DRINK HOT WATER AND RID JOINTS OF RHEUMATIC RUST

Why rheumatism and lumbago sufferers should drink phosphated hot water each morning before breakfast



Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste material, toxins and ptomaine-like poisons, called uric acid, is formed and then sucked into the blood where it continues to circulate, collecting grain by grain in the joints of the body much like rust collects on the hinge as shown above.

Men and women who suffer from lumbago, rheumatism or sore, stiff, aching joints should begin drinking phosphated hot water, not as a means to magic relief from pain, but to prevent more uric acid forming in the system. Before eating breakfast each morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This will first neutralize and then wash out of the stomach, liver, kidneys and bowels the previous day's accumulation of toxins and poisons; thus, cleansing, sweetening, and freshening the entire alimentary canal, each morning, before putting more food into the stomach.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to make any rheumatic or lumbago sufferer an enthusiast on the morning inside bath.

Millions of people keep their joints free from these rheumatic acids by practicing this daily internal sanitation. A glass of hot water with a teaspoonful of limestone phosphate, drank before breakfast, is wonderfully invigorating; besides, it is an excellent health measure because it cleanses the alimentary organs of all the waste, gases and sour fermentations, making one look and feel clean, sweet and fresh all day.

Those who try this for one week may find themselves free from sick headaches, constipation, bilious attacks, sallowness, nasty breath and stomach acidity.

When It Fails.

"Has she every confidence in her husband?"

"Yes, except when he is driving the car with her in it."—Detroit Free Press.

Unless a man looks silly when he tells a woman he loves her, he doesn't mean it.

Many an actor whose name is on a billboard is an acrobat when it comes to jumping boardbills.

Exactly It.

"Won't you consider an apartment proposition?"

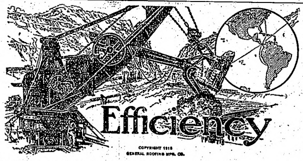
"No, I won't. That's flat."

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00.—Adv.

German soldiers carry small tin whistles to blow for medical aid should they be wounded.



Efficiency built the Panama Canal, after inefficiency failed. The efficiency of the Panama Canal doubled the effectiveness of the U. S. Navy without adding a ship to it. It took over 8,000 miles out of the trip from New York to San Francisco and changed the highway between London and Australia from Suez to Panama.

Efficiency insures against lost motion—it produces the utmost service out of equipment and yields the finest product, at the least cost.

Certain-teed

Roofing

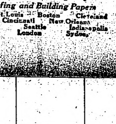
is an efficiency product

Every advantage that men, money and machinery can offer is used to increase the production, maintain the quality and lower the cost. Each of the General's enormous mills is advantageously located to serve the ends of efficient manufacture and quick distribution. Each is equipped with the most up-to-date machinery. Raw materials are purchased in enormous quantities and far ahead of the needs of manufacturing, thus guarding against increased cost due to idle machinery. This also insures favorable buying, and the pick of the market.

Expert chemists at each mill are employed to select and blend the asphalts, and every roll of CERTAIN-TEED is made under their watchful care.

CERTAIN-TEED resists the drying-out process so destructive to ordinary roofing, because the felt is thoroughly saturated with a blend of soft asphalts, prepared under the formula of the General's board of expert chemists. It is then coated with a blend of harder asphalts, which keeps the inner saturation soft. This makes a roofing more pliable, and more impervious to the elements than the harder, drier kind.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.



CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that it lasts longer.

State News in Brief

Doings of Last Few Days Throughout Minnesota Condensed for Hasty Perusal.

Duluth. — The Minneapolis East high school debating team won by a two to one vote its debate with the team of Central high of Duluth.

Mankato. — Mrs. Anna Christine Anderson, lacking less than a year of reaching the century mark, is dead at the home of her daughter-in-law, near here.

Faribault.—The plans for the buildings of the new packing plant have arrived. Bids for their construction will be received from Faribault and Twin City contractors.

Montevideo.—A baby welfare meeting was held in the high school building under the auspices of the Tuesday Study club. Upward of 100 babies competed for the prizes in the various classes.

Winona. — A "bible class" of 10 members has just been given the first degree of the Knights of Pythias here. High officials witnessed the taking of the oath on the original bible on which the order was started.

Winona. — Leslie Allen, a Winona boy, whose parents, Mr. and Mrs. Charles Allen, now reside in Minneapolis, has appealed for release from the British navy on the ground that he is a subject of the United States.

Duluth. — Mrs. Alexander Henricksen is at a Duluth hospital with a dangerous wound at the base of her skull, and her husband has a severe scalp wound and a bullet wound in the arm as a result of a bold attempted robbery at noon.

Thief River Falls. — An important meeting for the discussion of the treatment of peat lands is scheduled for this month, when Professor Alway, soil expert of the state university, will meet with business men and farmers of this locality.

St. Paul.—Rev. Henry Jajeski, pastor of St. Casimir's church, who was shot and killed by Mrs. Aniela Dudek of Minneapolis, a former parishioner, left an estate of $6,450, according to the petition for letters of administration filed in probate court.

St. Cloud. — More than 250 prisoners in the St. Cloud state reformatory were tested in the "ordeal by fire" and not one was found wanting when flames threatened the institution. The fire burned the roof off the storehouse and damaged the tailor shop.

Hawley. — At the annual meeting of the Clay County Federation of Farmers' Clubs, held in this city, plans for a big county picnic day were laid. The picnic will be held in June or July, the date to be fixed soon by the federation officers.

Duluth. — With a total of $30,511,287.81, deposits in Duluth's four national banks are now at their high point. Statements of conditions as on March 7, made at the call of the comptroller of the treasury, were reported gratifying in every respect.

St. Paul.—The landslide vote for V. R. Irvin for mayor of St. Paul, the utter defeat of Commissioner Anthony Yoerg, and the failure of Mayor Winn Powers to take even second place in the mayoralty race, were the outstanding features of the St. Paul primaries.

Bemidji. — This city will show a population of 10,000 when the new city directory is completed June 1, is the belief here. In 1914 the city had 6,937 residents. With the annexation of Nymore this spring it is believed the population will reach 10,000. Nymore had 1,400 in 1914.

St. Cloud. — While members of the normal faculty here were making arrangements for the entertainment of several hundred educators arriving for the meeting of the Central Minnesota Educational association, Waite A. Shomaker, president of the state normal school fourteen years, died at Lawrence hall annex.

St. Paul. — Senator A. B. Cummins of Iowa carried the state easily against Henry D. Estabrook of New York in the presidential preference primary election. William Grant Webster, the Chicago "unknown," is recorded as receiving a scattering few votes. The Cummins delegation will be headed by two former governors, S. R. Van Sant and A. O. Eberhart, and by the "old war horse" of Lac qui Parle, J. F. Jacobson. The fourth delegate-at-large is in doubt with Fred C. Stevens of St. Paul, A. A. D. Rahn of Minneapolis and James Manahan of St. Paul leading for the place.

Woodrow Wilson had no opposition on the democratic ticket, but the figures show that thousands of democratic voters failed to mark the president's name The battle was between the supporters and opponents of Fred B. Lynch, national committeeman. The Lynch candidates, indorsed by the conference at St. Paul, Feb. 3, appear to have won out in the state at large and in most of the districts. Anti-Lynch men declare the fight is not yet over, but the outlook now favors Mr. Lynch's re-election at St. Louis in June.

Duluth. — The government's ice report on Lake Superior, just given out, shows that the Duluth field has lost five miles in the past week. Two Harbors, Minn., reports broken ice in the harbor and a moving field. South shore harbors report solid and thick ice. Port Arthur is ice-bound.

Mesaba. — While crossing Birch lake, eighteen miles east of this village, William C. Taft of Utica, N. Y., was surrounded and attacked by a pack of seven timber wolves. Taft had no weapon except a pocket knife with which he killed two of the wolves before assistance reached him.

MERCHANTS BACK NEW COURSE AT 'U'

REPRESENTATIVES DISCUSS ADVANCE PLANS WITH MEMBERS OF THE FACULTY.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

Backed solidly by the business men and commercial organizations of the state, the University of Minnesota has taken a step in advance of any state institution in the country and has announced a residential course of one year in retail merchandising. Further the University will, during the coming scholastic year, offer a four-year course in business education, culminating in the degree Bachelor of Arts.

The projected courses were discussed in detail at a conference between members of development and civic societies and members of the University faculty.

President Vincent in outlining the work told the business men that it was to be divided into three general classes; the evening extension courses for those engaged in day work in the Twin Cities; the one-year short course, really an extension of the merchant's short course offered last year with marked success and finally the four year's business course leading to a bachelor of arts degree.

To Spend Millions On Roads.

Minnesota will improve more than 3,000 miles of roads at an aggregate cost of $7,453,451, according to figures prepared in the office of George W. Cooley, state engineer of the Minnesota Highway commission. More than 1,000 miles, will be graveled, and more than 2,000 graded. These figures were obtained through the total in the state apportionment, the amount of the county road and bridge levies, and the sum spent last year by the townships.

The amount of the state apportionment was $1.500,000, made up of the state road levy and the amount received from motor vehicle taxation. The county road and bridge tax brought in $2,753,451, and the townships $3,200,000.

Of the total, about $4,000,000 will be used under the supervision of the highway commission. Besides the amount raised from taxation, Winona county is planning a bond issue of $500,000 to be spent on roads and bridges.

★ ★ ★

Rural School Meeting May 1.

Administration of the rural schools of Minnesota will be discussed by the rural school committee named by C. G. Schulz, state superintendent of education, May 1. Supervision was taken up by the committee at its recent meeting at the Capitol.

The educators will discuss an optional plan for bringing together all the rural schools in a county under the county board and county superintendent or recommend that the plan in force in Koochiching and St. Louis counties, which allows any rural district to dissolve and join the county district, be adopted.

★ ★ ★

State Land at Duluth Sold.

The sale of state lands at Duluth resulted in 5,900 acres being disposed of for $62,970, according to figures just given out by J. A. O. Preus, state auditor. The average price paid for the lands was $10.75 per acre. "In many instances the state received five times the amount of the appraised value of the land," said Mr. Preus. "The prices bid by those eager to obtain lands from $5, the minimum price fixed by the constitution, to $161 per acre."

★ ★ ★

Prison Twine in Demand.

The Minnesota state prison could sell more twine than it now manufactures, according to the statement of Frank Whittier, parole agent. The prison twine plant will make 2,000,000 pounds this year. This already has been sold. The Russian government a short time ago sent in an order for 4,000,000 pounds, but it could not be filled.

★ ★ ★

Vincent Takes Vacation.

President George E. Vincent of the University of Minnesota has started on his first vacation since he became head of the university. With Mrs. Vincent and his daughter Elizabeth, he left for a five weeks' stay in California. Dean Albert F. Woods of the department of agriculture will be acting president during Dr. Vincent's absence.

★ ★ ★

Canvassing Board Meets March 28.

The state canvassing board will meet at the Capitol March 28 to go over the returns of the presidential primary.

★ ★ ★

On "U" Expenditures.

The University acted with the full knowledge and approval of the attorney general in certain steps declared illegal in the annual report of the state public examiner, according to George H. Hayes, comptroller of the University. In his report of the books and affairs of the University, the examiner called attention to certain overdrafts of specific appropriations, terming them illegal transactions. The largest was any item of $20,000 for construction of the inter-campus trolley line.

Women Once Invalids

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—"When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I passed what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house."—Mrs. FRANK KNOBL, 1642 Fulton St., Harrisburg, Penn.

Hardly Able to Move.

Albert Lea, Minn.—"For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a little boy eight months old and am doing my work all alone. I would not be without your remedies in the house as there are none like them."—Mrs. F. E. YOST, 611 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.

Pittsburg, Penn.—"Your medicine has helped me wonderfully. When I was a girl 18 years old I was always sickly and delicate and suffered from irregularities. Three doctors gave me up and said I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle began to feel better. I soon became regular and I got strong and shortly after I was married. Now I have two nice stout healthy children and am able to work hard every day."—Mrs. CLEMENTINA DUERRING, 34 Gardner St., Troy Hill, Pittsburg, Penn.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

SPOHN'S DISTEMPER COMPOUND TRADE MARK

COLT DISTEMPER

You can prevent this loathsome disease from running through your stable and cure all the colts suffering with it when you begin the treatment. No matter how young. SPOHN'S is safe to use on any colt. It is wonderful how it prevents all distempers, no matter how colts or horses at any age are "exposed." All good druggists and turf goods houses and manufacturers sell SPOHN'S at 50 cents and $1 a bottle; $5 and $10 a dozen. SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U. S. A.

Special at Nine Cents.

"Do you suppose all these women on the streets are shopping?"

"Oh, yes, but not necessarily for spring suits, cosmetics and gewgaws."

"No?"

"An enterprising confectioner advertises a sweeping reduction in nut sundaes."

HOW A DRUGGIST CURED HIS KIDNEY TROUBLE

For the past twenty-four years I have been selling Dr. Kilmer's Swamp-Root with excellent satisfaction to my customers who have used it. They are always pleased with the results obtained and speak very favorably regarding the preparation. It cured me of a bad case of Catarrhal Inflammation of the Bladder eighteen years ago, after two months treatment with pharmaceuticals recommended for inflammation of the bladder. It is undoubtedly a remedy of great merit in the diseases for which it is so highly recommended.

Very truly yours,
J. W. HANAN, Druggist,
East Lynne, Mo.

November 3d, 1915.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

Amicable Alice.

Alice—Papa, it's going to snow.

Papa (who is busy)—Well, let it snow.

Alice—I was going to, papa.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.—Adv.

Inconsistent.

Jones—Is Brown a vegetarian?

Smith—Brown? Well, hardly—why, Brown's an Elk!

People talk of the "flowing bowl" when they know it isn't the bowl that flows.

SKINNER MANUFACTURING COMPANY
The Largest Macaroni Factory in America. Omaha, Nebraska

THE SUNBEAM.

BY W. G. HUNT. EDITOR
M. G. HUNT. PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

Law Unconstitutional

It is the contention of many local attorneys, as well as some of the Polk county office holders that the law passed by the 1915 Minnesota legislature providing that county officials hold office for four years instead of two, is unconstitutional.

The state legislature, it is contended has no right to pass a law changing the constitution, but such a change must be voted on, in the form of a constitutional amendment by the people at a general election.

Several informal conferences between local parties interested have been recently held in the city; the matter has been thoroughly investigated: the state constitution has been read from cover to cover, and section No. 9. article No. 7 has been brought forth as evidence that the law creating four year terms for county officials is invalid.-Crookston Daily Times.

Of course it is unconstitutional, and it does not take a lawyer to see it. The law was lobbied through the legislature by county officials, who wanted to clinch their job for four years. If a county official is O. K., he can be easily re-elected, and if the people want to get rid of him, they certainly had ought to have a chance at least once in two years. There are one or two county officials that the people of the town of Highlanding would like to get a crack at, at the ballot box, and those are the ducks who are trying to organize the assessed valuation of our real estate into a consolidated school district.

The Democrats had their first preliminary scrap at the primaries over the election of Lynch or anti-Lynch delegates to the Democratic National Convention. Of course this was a struggle for the distribution of Democratic pie, as the Democrats who are not on the Lynch band wagon want a chance to feed at the public crib. But they need not feel bad over their defeat, as Lynch will not have any pie for any one after March 4th next, as the Republicans will settle all Democratic differences on November 8th, by anti-Lynching the whole gang.

It was a wise decision to leave the settlement to be made with the outlaw Villa to Gen. Fuston and the U. S. Army, for they will attend to it proper. There is no use for the American people to worry about it, unless the administration calls them off, and if they do, they will promptly be carried off their feet by the American people, whose patience are completely exhausted by the murders committed by that outlaw on American soil.

Carranza, as the head of the Mexican government had better see to it that none of his troops interfere with the U. S. troops, that are now hunting the Villa bandits, if they do, and kill any of our American soldiers, there will promptly be a house cleaning down there, and the watchful waiting policy will come to an end quicker than it did when the Maine was blown up in Havana Harbor.

The Republican Senators from Minnesota, threw a monkey-wrench into the Democratic post office political machine, by rejection of M. W. A. Murry to be post master at Parkers Prairie, Minnesota.

Badly Defeated.

The scheme to organize the assessed valuation of the Town of Highlanding into a consolidated school district was overwhelmingly defeated, at the election held last Saturday. The vote stood 31 for to 98 against. The promoters of this had warning enough to not call this election in this town, owing to the few settlers residing here, but after a hard struggle they succeeded in getting enough signers to satisfy our consolidated superintendent that they had twenty-five per cent, by putting on a pair of magnifying glasses, and HE CALLED the election on as short notice as possible, and at a place where there was the least opposition, hoping the scheme could be railroaded through. But the people were warned, and they turned out and voted the deal out of sight by a majority of over three to one, and they can do it again by a majority of four to one, so the agents of the bonding companies and consolidated school promoters may as well give up the fight in the town of Highlanding. Not because the people are opposed to schools, but because they plainly see that there are not settlers enough and roads for a consolidated school at the present time, and that the deal is being worked by a few people in the interest of saddling a big bonded debt onto the Town instead of for the interest of what few children that are residing here at the present time. But it won't work in the town of Highlanding, so there is no use to shed any more tears trying it.

DANGERS OF DRAFT

Drafts feel best when we are hot and perspiring; just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c. at your Druggist.—Adv.

AN IDEAL SPRING LAXATIVE

A good and time tried remedy is Dr. King's New Life Pills. The first dose will move the sluggish bowels, stimulate the liver and clear the system of waste and blood impurities. You owe it to your self to clear the system of body poisons, accumulated during the winter. Dr. King's New Life Pills will do it. 25c. at your Druggist.—Adv.

WATCH CHILD FOR WORMS

Worms sap child's strength rob child of food and make child fretful, irritated, nervous. Watch stool and at first sign or suspicion of worms give one-half to one lozenge Kickapoo Worm Killer, a candy worm remover. Gives immediate results, is laxative. Paralyzes and removes the worms, improves digestion and general health of child. Continue giving Kickapoo Worm Killer, until all signs of worms are gone 25c. at your Druggist.—Adv.

A Party Of Sighs.

In his speech, before the Lincoln Club of Kalamazoo, Michigan, on March 20th, Theodore E. Burton said:

"The Republican party always comes back. So invariable is this custom that it has become a political proverb in recent American history. Not once since the Civil War has a Democratic administration succeeded itself. The Democrats are always ushered in with shouts of acclaim, and followed out with a sigh of relief."

They will go out with more than a sigh of relief this year.

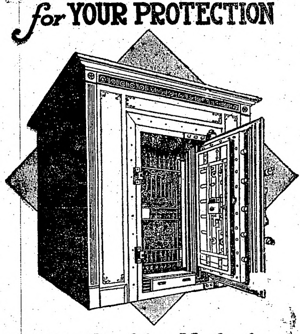
Doing His Best.

Teacher—Is there no way I can induce you, Johnny, to take some interest in your algebra? Johnny—Certainly, Miss Jinks. In fact, I do take an interest, but somehow I don't seem to be able to get hold of the principle.—Richmond Times-Dispatch.

FIRST STATE BANK,
Of Plummer Minnesota.

THESE STEEL WALLS ARE for YOUR PROTECTION



Our Banking Methods Are Based on Years of Experience

J.A.DUFFY Presdent, Henry Enderlie, Cashier

Richard Cromwell.

Oliver Cromwell tried to train his son to be a worthy successor as protector, but the attempt was a failure. Richard was easy going and amiable and more addicted to sports than to statecraft. He was the acknowledged lord protector from Sept. 3, 1658, to May 25, 1659, but cut little figure as such. He did not relish official duties and much preferred having a good time. The cavaliers called him "Queen Dick," and others still less respectfully spoke of him as "Tumbledown Dick." He was glad to quit when parliament told him to get out. After his abdication, however, he conducted himself with credit and even with dignity. He lived in quiet retirement for fifty-three years and died July 12, 1712, at the ripe old age of ninety.—Argonaut.

The Shrew.

The shrew was originally the shrew mouse, which, when her young were helpless, would fight desperately in their defense, and so well known was the courage of this little animal, which would even go out of its way to seek an enemy at times when the nest needed protection, that the word became applied to a woman who was ever ready to seek a quarrel.

Be silent or say something better than silence.—Pythagoras.

Life Belts Aren't Cork.

Most people if asked what life belts were composed of would answer, "Cork." But it isn't so nowadays. Cork life belts are nearly as dead as the dodo. The substance almost always used nowadays is a fibrous stuff called kapok, obtained from a plant that grows in Java. Kapok was used to stuff cushions for many years before the idea was hit on of using its beautifully buoyant qualities for nobler purposes. The most buoyant material known to be in existence is, however, made of poppy heads. Experimental buoys have been made of this material, but not with very satisfactory results. Poppy heads crush too easily to make a perfect substance.—Pearson's Weekly

COLDS QUICKLY RELIEVED

Many people cough and cough —from the beginning of Fall right through to Spring. Others get cold after cold. Take Dr. King's New Discovery and you will get almost immediate relief. It checks your cold, stops the hacking, rasping, tissue-tearing cough, heals the inflammation, soothes the raw tubes. Easy to take, Antiseptic and Healing. Get a 50c. bottle of Dr. King's New Discovery to day. "It is certainly a great medicine and I keep a bottle of it continually on hand" writes W. C. Jesseman, Franconia, N. H. Money back if not satisfied.—Adv.

POWDER HOUSE PERILS.

A "Jag" Without Whisky and a Weird Nervous Disorder.

Alcohol is greatly feared by the powder people, and rightly so. But they cannot eliminate a strange malady that appears among their workmen in the powder mills. As subterranean labor in compressed air produces "the bends," work in the powder mills creates the "powder house jag," which is described as follows by Merle Crowell in the American Magazine:

A powder house is no place for an unsteady hand or an unseeing eye. But the "powder house jag," a freak product of the plants themselves, is something which no amount of diligence can forefend. Large quantities of alcohol are used in the making of smokeless powder, and the air in the shops frequently gets heavy with its fumes. Men have been known to leave the plants reeling and stupefied, while one serious accident was caused because a fume fuddled workman threw on both the high pressure and low pressure brakes at the same time.

A weird nervous disorder that steals upon powder makers has been called "powderitis." Treading all day with rubber sole shoes in a shop which a vagrant spark will change into a crater, they get keyed up to a nervous tension that never runs down, with the result that even when off duty they nearly jump through their collars at an unexpected flash of light. Although powder, unless it is confined, does not explode at a spark under normal conditions, a powder shop may be changed into an inferno of wildfire in a few seconds.

Window Glass.

It is certain that there were glass windows in Pompeii, as the proof is found in its ruins. In more modern times it is known that windows of some kind were glazed so early as the third century, if not before, though the fashion was not fairly introduced until it was done by Benedict Biscop about 674. Windows of glass were used in private houses in Italy as early as 1177. —Exchange.

THE SUNBEAM.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, MARCH 31, 1916 NO. 3

MINNESOTA HISTORICAL SOCIETY

THE LOCAL NEWS

Carl Narveson was a Goodridge visitor Tuesday.

Mrs. W. G. Hurt and daughter Myrtle visited with Mr. and Mrs. Wm. Quirk on Sunday.

Walter McAndress is down at Thief River Falls this week, as one of the viewers on county ditches.

Well March came in like a lion, and the lion stayed with us pretty steady up to date, the 31st which is rather lamb like.

Mail carrier Romo from Sunbeam to Rhoda could not make the trip by way of Mayfield yesterday, owing to the bad condition of the roads.

Miss Ella and Marie Causin came home from the Thief River Falls high school to-day, for an Easter vacation with their parents.

Any one who has a desire to try to be elected to county office should file, as that would make a test case between the four year term law and the Constitution of the State of Minnesota.

John Homme was called to the Grygla hospital to visit his son last Friday, who was undergoing a dangerous operation. At latest accounts the boy was slowly recovering.

Fred Brown and Ole Overvold have been having a strenuous time hauling hay this week, as it was first right side up with a load of hay, then ditto presto change to wrong side up.

Daniel Shaw received a warm and enthusiastic welcome from the farmers at Goodridge last Friday as they correctly consider him the father of the Electric Line, which has enabled them to get their produce to market.

The winter roads were graded up so high with packed snow this winter that it is almost impossible to drive on them since the snow began to melt, and it is so deep outside of the roads that horses tire out when wading any great distance through it.

The mail carrier on the mail route from Plummer to Rhoda, only succeeded in getting as far as Lillo post office on Monday, and was compelled to hire an additional team on Tuesday to reach Rhoda post office, as the roads are in an impassable condition since the snow begain to melt.

Passenger traffic on the Great Northern Railway from Crookston to Thief River Falls has increased so much that they are compelled to add additional coaches to the train. All tickets are bought, from any station to Red Lake Falls. At Thief River Falls on Monday there were nearly two hundred passengers, on the train with nearly all tickets reading "to Red Lake Falls." The Railway companies should get out excursion tickets reading from Crookston or Thief River Falls to Red Lake Falls, the oasis of northern Minnesota.

Professor Hovestad, in his remarks at Goodridge advised the farmers to co-operate and elect a business manager, to better dispose of their produce in the markets of the world. But there has been one serious draw back to the co-operation of farmers clubs in this locality, which was the turning of them into political organizations, and eliminating those who did not agree with the majority on politics. Until politics are eliminated from farmers clubs and business and co-operation takes its place they will never be a success.

Law to be Tested.

St. Paul, Minn. March 28.—A test of the constitutionality of the statute giving county office holders four year terms will be made as [illegible] of the action of Bernard Hohn of St. Paul, who on Saturday retained M. D. Munn a St. Paul attorney, to bring the case before the Minnesota supreme court for decision.

Mr. Hohn last week filed a petition as candidate for the office of county commissioner of Ramsey county. It is announced that he will [illegible] County Auditor George [illegible] of St. Paul, requiring him to show cause why his filing should not be accepted for the nomination.

The Minnesota legislature of 1913 passed a law fixing the term length of county officers at four years instead of two, which, it is contended, is directly against the state constitution.—The Crookston Daily Times.

The case will come up in April and of course that law will be declared unconstitutional, in fact the lawyer who drew it must have never read the constitution of the state of Minnesota.

PERMISSION FOR BRIDGE.

We would be pleased to have some of the smart people, who are so confident that any kind of a bridge can be constructed across Red Lake River, show a permission from the U. S. War Department to that effect. Of course they will not make any attempt to try it, but will sit on a cracker box and shoot off their wisdom to any one that will listen, but again we tell you that before we can get a bridge across Red Lake River that does not comply with the rules of navigable streams, we must get this river declared a non-navigable stream.

We challange any of those smart fellows to show us any permission from the War Department for the construction of a bridge, but we can show them the only permission that was ever granted east of Thief River Falls, which calls for a bridge thirty-two feet high.

The trouble is about getting a bridge across the river, at any point in eastern Pennington county, without having the river declared non-navigable is: That about every man living on the river from Thief River Falls to the eastern boundary of Pennington county would want the one bridge built right by their farm, and while they will sit down until Doom's Day, and never attempt to get a bridge anywhere they are ready to stir up a stink and stop the construction of a bridge at any point, by notifying the War Department that we were obstructing navigation. To make this matter plain supposing we would try to construct a bridge across the river at Highlanding, the people both east and west of that point would either want the bridge built by their own farm, or no bridge at all, and they would be ready to take off their hats and holler "we won," if they succeeded in stopping the building of any bridge, so the only way to stop it, is to have the river declared non-navigable, and let them construct a bridge where ever they please.

ADDITIONAL LOCALS.

Some of the county officials, who had an idea that they had three years more service, will not enjoy facing an election this year with some of those deals they tried to work on the people, staring them in the face.

Red Lake Falls is now the liveliest little city in northern Minn.

Born to Mr. and Mrs. Carl Klemmetson a fine baby girl, last week.

Pennington county seems to be about through with their spring auction sales, and Red Lake County now occupy the stage.

Post office money orders can now be obtained at Sunbeam post office. This is a cheap and safe method to send money by mail, as there is no possibility of loss.

Well, Well!

Young Man—Why have you two prices and kinds of those flowers?

Florist Man—One kind we sell to fiancees; the other to married men.—Boston Globe.

The only Tool Needed to Apply

Seals Like United States.

There are in existence only two important herds of fur seals, one of which has its breeding grounds in the Commander islands, belonging to Russia, the other in the Pribilof islands, belonging to the United States. Of these the latter is much the larger. The Pribilof islands are government property, and thus it happens that the United States government finds itself the owner of by far the most valuable herd of fur seals in the world. This unique bit of property has been a source of much tribulation—as everybody knows.

Three Brothers Lose Eye Each.

The right eye of Hugo Bremer, a young farmer, was torn from its socket when a splinter of wood flew from his ax while he was cutting down a tree. This is the third accident of its kind in the Bremer family. While his brother William was playing mumbly-peg recenty, his companion flipped the knife too high, and the sharp blade penetrated his left eye. Another brother was kicked in the right eye by a colt.—Albert Lea (Minn.) Dispatch, St. Paul Dispatch.

Crash!

"What's the racket over at Bobb's?"

"Sounds like they are having a china shower."

Shooting has become a popular sport in China, and the clay pigeon clubs have large memberships.

Ever Eat

Grape-Nuts?

There's a vast army of physical and mental workers who do.

One reason—its delicious nut-like flavour.

Another—it is easily and quickly digested—generally in about one hour.

But the big reason is—Grape-Nuts, besides having delicious taste, supplies all the rich nutriment of whole wheat and malted barley, including the "vital" mineral salts necessary for building brain, nerve and muscle.

Always ready to eat direct from the package, Grape-Nuts with cream or good milk is a well balanced ration—the utmost in sound nourishment.

"There's a Reason"

—sold by Grocers.

VILLA INCREASING BAND; FORCES BOYS TO JOIN COMMAND

BANDIT FLEEING BEFORE AMERICAN CAVALRYMEN BETWEEN NAMIQUIPA AND SIERRA TARAHUMARES.

SEIZES THIRTY-FIVE MEN; CARRANZA MEN DISAPPEAR

Half of Constitutional Garrison at Namiquipa Leave and It Is Suspected Some Are With Outlaw. —Hasty Flight to Mountains for Ammunition.

Casas Grandes, Mexico, March 27.—By wireless to Columbus.—Francisco Villa, the outlaw Mexican bandit who is fleeing before American cavalrymen somewhere in the district between Namiquipa and the foothills of the Sierra Tarahumares, is increasing his band by force, according to army reports.

The bandit chieftain seized 35 young men and boys in Elvalle, 65 miles south of here and forced them to accompany his column. Half of the constitutionalist garrison at Namiquipa, about 60 miles south of here, has disappeared and it is suspected that some of them, at least, also have joined Villa.

Haste for Ammunition.

Utmost haste is being made in the flight toward the mountains which Villa is nearing rapidly, neither men nor horses being spared. It is known that he is practically without supplies and ammunition and it is reported that he is attempting to reach a neighborhood where he has ammunition cached in three places.

Persons in the district through which he passed through recently say his men are ravenously hungry and are proceeding in a state of starvation. Dead and dying horses are passed daily by the American troops. The haste which the bandit is making in his flight would indicate that the American forces are close on his heels.

BRITISH LOSE SEAPLANE IN RAID ON GERMAN CITY

Attack on Schleswig-Holstein Results in Battle Between English and Teuton Ships.

London, March 27.—A British air raid on Schleswig-Holstein and a resultant battle between British warships and German armed trawlers in which three seaplanes were brought down, two German armed trawlers were sunk and a British torpedo boat probably was lost in a collision, gives diversity to the latest war operations.

The violent bombardment northwest of Verdun in the region of Malancourt continues while to the north of the fortress and in the Woevre region in the east intermittent cannonading is still in progress. No infantry attacks have been launched by the Germans except to the southeast of Fort Douaumont where Berlin reports a hand to hand encounter with the advantage on the side of the Germans.

LINER MINNEAPOLIS IS SUNK

British Steamship Destroyed by Submarine in Mediterranean—Assistance Comes Too Late.

Marseilles, March 27.—The British liner Minneapolis was sunk in the Mediterranean by a submarine, according to Captain Bibby of the British steamer Leicestershire, which has arrived here from Rangoon.

Captain Bibby reports that while in the Mediterranean he received a wireless call for help which said the Minneapolis had just been torpedoed and was sinking.

The Liecestershire went at full speed to the assistance of the steamer, but arrived too late, the vessel having sunk. The fate of the crew was not known to Captain Bibby.

SECOND GRANDDAUGHTER OF PRESIDENT WILSON

Philadelphia, Pa., March 27.—A daughter was born to Mr. and Mrs. Francis Bowes Sayre here. She is the second granddaughter of President Wilson and will be named Eleanor Axson Sayre, for Mrs. Sayre's mother. Mother and child were reported to be doing well. Mrs. Sayre has been in this city visiting her aunt, Mrs. A. W. Howe, a sister of the president, for several weeks. The president wired his congratulations.

Split in German Socialist Party.

Berlin, March 27.—The long-expected split in the German Socialist party as the result of the political situation created by the submarine warfare controversy in the Reichstag has just occurred. A new party, consisting of 18 Socialist members, was constituted by the radical wing after a Socialist caucus had decided to exclude Deputy Haase for a breach of discipline.

The total number of Socialist members in the Reichstag is 100. The dissenting minority on the last vote consisted of 30 Socialists.

WOMAN'S STORY IN WAITE CASE

AIDS IN CHECKING UP MURDER DETAILS, ATTORNEY SAYS.

Important Witness Tells of Poisoning of Wealthy Grand Rapids Man.

New York, March 27. — For more than four hours attaches of the district attorney's office interrogated Mrs. Dorothy Palmenberg concerning her knowledge of Dr. Arthur Warren Waite, the young dentist under arrest here in connection with the death by poison of his wealthy father-in-law, John E. Peck of Grand Rapids, Mich. Mrs. Palmenberg is a friend of Mrs. Margaret Horton, with whom Waite is alleged to have shared a studio in a New York hotel.

"Mrs. Palmenberg is a rather important witness," said Assistant District Attorney Dooling at the conclusion of the examination, "and we got some information from her which will help us in checking up the documentary and other evidence which the district attorney's office and the police have obtained. The story she told in some particulars concerned the main theme of the poisoning and that is all we are after."

TEXAS COUNTRY CLUB IS BURNED; 6 LIVES LOST

San Antonio Building Scene of Week-end House Parties—Houston Has Big Blaze.

San Antonio, Texas, March 27.—Six persons lost their lives in the burning of the fashionable San Antonio Country club. Five of the victims were guests at the club which was the scene of several week-end parties, bringing together a large number of persons prominent in social and business circles of the Southwest.

The dead are: Mrs. and Mr. James B. Waltham, San Antonio; Judge J. E. Webb, San Antonio; Homer Jones, San Antonio; Mrs. Mace Stewart, Galveston, and Helen Cockrell, maid at the club.

The fire had its origin in a collection of paint used for painting a new grill stored in the basement of the three-story frame club house.

SAVES WOMEN FROM FLAMES

Minneapolis Man Awakened By Crackling of Flames, Crawls Thru Window With Wife.

Minneapolis, March 27. — Joseph Luke, who lives on the first floor of a duplex house at 3823 Minnehaha avenue, crawled [illegible] gh a window with his wife in [illegible] arms when he was awakened by the crackling of flames Mrs. Luke was unconscious from smoke.

He then crawled back into the building, made his way to the second floor and carried Mrs. H. C. Johnson and two of her children, Gladys, 9 and Grace, 6 years old to safety. Nelson Lang, a roomer, carried a third child, Eleanor, 3 years old, from the building. The mother and little girls were unconscious.

Shackelton Ship Not In Danger.

London, March 27.—Reports just received here state that the auxiliary ship Aurora of the Shackleton Antarctic expedition, which was damaged in the ice and is now proceeding to New Zealand for repairs, is not in distress or in need of assistance. The latest message indicates that the Aurora is proceeding under her own team. Reuter's Melbourne correspondent telegraphs that if necessary a relief ship will be dispatched from New Zealand to meet the Aurora. A wireless station is in touch with her.

"YOU TOLD ME THE TRUTH AND I WANT THE PEOPLE TO KNOW IT"

The following unsolicited letter has been received from Mr. J. F. Ward of Donalda, Alberta. It is a plain statement of conditions as Mr. Ward has found them:

A Settler's Plain Letter.

"It is with pleasure I drop a line to you. We had a good year. Off of 65 acres, oats and wheat, I got over 2,500 bushels of wheat and oats. Oats went here from 50 to 100 bushels per acre, and wheat from 25 to 52 per acre. Just see me being here one year and have over 700 bushels of wheat. It is now over $1.00 per bushel. Oats is 42 cents, and going up. You told me the truth, and I want the people of Toledo to know it. Hogs are 8¾ cents; cattle are high. Canada is good enough for me I have 5 good horses. I sold 2 good colts, 2 cows and 18 head of hogs and killed 2. I have 6 hogs left. I got 400 bushels of potatoes off an acre and a good garden last summer, fine celery and good onions. One neighbor had over 1,200 bushels of wheat, and sold over $700 of hogs and 2,000 bushels of oats. This is a great country. If you should tell the people of Toledo of this it would get some of them thinking. The soil is a rich black loam, and a pleasure to work it.

"We have a good farm. We have a flowing well with soft water. It is the best water in the country. Some people think they got to go to war when they come out here. They need not be afraid of war. There is no war tax on land; only school tax, $12.00 on 160 acres, and road tax of two days with your team. I tell you the truth, there is no land in or around Toledo as good as our land here in Alberta. If anybody wants to write us, give them our address.

"We have had nice weather. We have had it quite cold for one week, but no rain and sleet, and the sun shines nearly every day, and it is hot in the sun. Coal is $2.25 per ton. The people are very nice and good here. We are well enjoying the West. The horses and cows are feeding on the prairies all the winter. We just have two horses in the stable to go to town with. Yours truly, (Sgd.) J. F. WARD, Donalda, Alberta, Feb. 9, 1916."

Statement of Steve Schweitzberger

"I was born in Wisconsin, but moved with my parents when a boy to Stephen Co., Iowa. I was there farming for 50 years. I sold my land there for over $200 an acre. I moved to Saskatchewan, and located near Briercrest in the spring of 1912. I bought a half section of land. I have good neighbors. I feel quite at home here the same as in Iowa. We have perfect safety and no trouble in living up to the laws in force. My taxes are about $65 a year on the half section for everything. I have had splendid crops. Wheat in 1915 yielded me over 50 bushels to the acre. That is more than I have ever had in Iowa, and yet the land there costs four times as much as it does here. The man who comes here now and buys land at $50 an acre or less gets a bargain. (Sgd.) S. Schweitzberger, February 9th, 1916." Advertisement.

Asked and Answered.

"What are the air castles we hear so much about built of?" asked the frivolous female boarder.

"Gold bricks, I believe," promptly answered the cheerful idiot.

A MEDICINE THAT OVERCOMES MOST OBSTINATE KIDNEY TROUBLES

About 1904 I was bothered about two years with a severe attack of kidney trouble. My condition was such that I was hardly able to drag around the house and do my work. I did not have any appetite and could not rest at night and I felt more tired in the morning than I did on going to bed. My doctor treated me for about one month; he said that I had kidney trouble, but he did not give me any relief. By chance one day my husband was in town and noticed Dr. Kilmer's Swamp-Root on a druggist's shelf and decided to bring some home for me to try; the first bottle gave such relief that I continued the use of Swamp-Root until I was restored to good health, and I have had good health for the last ten years. I cheerfully recommend Swamp-Root to others who have kidney troubles.

Yours truly,
MINNIE DOROUGH,
Antlers, Okla.

Personally appeared before me this first day of March, 1915, Minnie Dorough, who subscribed the above statement and made oath that the same is true in substance and in fact.

ED. BROWN, Notary Public,
In and for Pushmataha County and State of Okla.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

ACTION ON SUSSEX SINKING DELAYED; REPORTS AWAITED

WILSON WANTS OFFICIAL INFORMATION AS TO SINKING OF BRITISH STEAMERS—AFFIDAVITS ARE MADE.

DEATH LIST IS LARGER THAN FIRST INDICATED

Latest Figures Show as Many as 102 Persons Missing, Including Five Americans — Dispatch Claims Vessel Was Sunk "Without Slightest Warning."

London, March 27.—Although there is some uncertainty as to the loss of life in the disaster to the cross channel steamer Sussex last Friday there no longer is any doubt that the death list is much larger than the early advices indicated. The latest figures in London show as many as 102 persons missing, including five Americans.

The Sussex had 436 passengers aboard of whom the following have been accounted for: Landed at Dover 72; landed at Boulogne 250; dead at Boulogne 9; dead at Dover 3. This is the total accounted for.

The casualties occurred in two ways —first, in the explosion when the ship was struck, and second, by drowning when two lifeboats capsized and only a few of their occupants could be rescued.

Wilson Gathers Facts.

Washington, March 27.—Official information upon which President Wilson will decide whether the sinking of the steamer Englishman and the damaging by an explosion of the channel steamer Sussex were the result of acts in violation of international law is being gathered from every available source by representatives of the United tSates in England and France. Tangible evidence of some kind is momentarily expected by the state department.

Dispatches already received indicate that several Americans were injured or killed in the Sussex disaster. Four American citizens who were said in dispatches Saturday not to be among the rescued still are unaccounted for.

"Saw Wake of Torpedo."

Only one dispatch of importance concerning the explosion which damaged the Sussex was received by the state department during Saturday. This contained an affidavit made in London at the American embassy by two American survivors, Edward S. Huxley and Francis E. Drake, of New York. Both swore that the explosion occurred "without the slightest warning" and they credited the commander of the Sussex as saying that he saw the wake of a torpedo before it struck his vessel.

Strange Vessel Seen.

Another statement in the affidavit officials seemed to consider significant had to do with a strange sailing vessel which hovered near the Sussex after the explosion and which, in response to signals for assistance from the channel steamer, sailed away and disappeared. Press dispatches quoting a Belgian army officer as saying that the submarine probably had hidden behind the strange vessel, which apparently disregarded all the traditions and laws of the sea in failing to succor a vessel in distress were read with [illegible].

[illegible]er of Ships Armed.

Should either the Sussex or the Englishman have been torpedoed the United States would consider the act to be a most flagrant violation of the rights of humanity, the principles of international law and the broad assurances regarding the conduct of submarine warfare which have been given by the German government. There is no evidence or even a suggestion that either of the ships were armed, so no defense could be offered on that score.

COMMERCE RAIDER IS SUNK

German Warship Facing Destruction By British Fire, Torpedoes Conqueror in North Sea.

London, March 27.—The story of one of the most thrilling naval fights of the war was told in an admiralty statement, announcing the sinking of the German commerce raider Grief and the British auxiliary cruiser Alcantara in the North sea, with a loss of 254 lives.

The engagement occurred Feb. 29. The admiralty withheld the news, though 120 German prisoners were taken, in order that the word might not reach the German admiralty.

No Certified Seamen On Ship.

Seattle, Wash., March 27.—The American brigantine Geneva, loaded with lumber from a Seattle mill for Australia, was permitted to sail for Sydney, Thursday without one certified able man aboard. The Seaman's act requires that 40 per cent of a ship's crew shall be certified men, but the Geneva's captain was unable to find even one certified seaman in any Puget sound port, willing to sign for an off-shore voyage. The treasury department at Washington was appealed to and granted a special permit.

Has Made Study of Buddha.

Dr. David Brainard Spooner, who propounds the theory that Buddha was not a Hindu, as is the prevailing belief, is an American, a native of New England, and for some time has been in the employ of the archeology department of the government of India. It is his belief that Buddha was a Persian and a renegade from Zoroastrianism, rather than a renegade from Hindu teaching, which also explains a reference to Buddha in the ancient Parsee scriptures as a heretic, a term which could not have been used had he not been connected originally with Zoroastrianism, believes Doctor Sponer. Among this explorer's achievements is the unearthing of Buddha's bones from a mound near Peshawur in northwestern India.

AN APPRECIATIVE LETTER.

Mr. M. A. Page, Osceola, Wis., under date of Feb. 16, 1916, writes: Some years ago I was troubled with my kidneys and was advised to try Dodd's Kidney Pills. It is now three years since I finished taking these Pills and I have had no trouble with my kidneys since. I was pretty bad for ten or twelve years prior to taking your treatment, and will say that I have been in good health since and able to do considerable work at the advanced age of seventy-two. I am glad you induced me to continue their use at the time, as I am cured.

SOME WESTERN CANADA GRAIN REPORTS

Oats 115 Bushels Per Acre.

In its issue of February 24th, 1916, the Wadena (Minn.) Pioneer Journal has the following letter from Western Canada written by Walter Gloedeu, who is renewing his subscription to his home paper: "The times we are having up here are very good in spite of the war. I have had very good crops this fall and we are having very good markets for it all. Wheat went from 30 to 60 bu. to the acre, oats from 50 to 100 bu. to the acre. I had an 18-acre field of oats which yielded me 115 bu. per acre by machine measure, so I think this is a pretty prosperous country. I have purchased another quarter section, which makes me now the owner of three-quarters of a section of land. The weather was very nice this fall up to Christmas, then we had quite severe weather, but at the present time it is very nice again."

One of the Best Countries I Ever Saw.

"I lived many years in Alberta; filed a homestead in the Edmonton district; own property in several parts of Alberta. I found it one of the best countries I ever saw; its banking system is better than that of the United States; one quarter section I own, with about $4,000.00 worth of improvements, pays $18.00 a year taxes. All tax is on the land; implements and personals are not taxed. I was secretary-treasurer of Aspelund school district for two years. My duties were to assess all the land in the district, collect the tax, expend it ($1,000.00 a year), hire a teacher, etc., for the sum of $25.00 a year. Some economy, eh!

"All school and road taxes are expended in the districts where they are collected. There are no other taxes. Land titles are guaranteed by the government and an abstract costs fifty cents. Half of the population of Alberta are Americans or from Eastern Canada. (Sgd.) WILL TRUCKENMILLER." Advertisement.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I *did not need the doctor*. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

Land Sales Bring $92,000.

Showing the heavy demand for state land, State Auditor Preus has disposed of nearly 10,000 acres in a number of northern Minnesota counties. The total amount realized for the state school fund from the sales held was approximately $92,000.

* * *

Is Mecca of Home-seekers.

Minnesota is the mecca of the immigrant, according to figures given out by Fred Sherman, immigration commissioner. The state retained more than half of the 461 cars of immigrant movables handled at the Minnesota Transfer during February.

* * *

State-Wide Clean-Up Day.

A state-wide clean-up and fire-prevention day probably will be observed in Minnesota April 1 this year. Governor Burnquist and R. W. Hargadine, state fire marshal, conferred, relative to fixing a date when all citizens will be urged to clean out their attics and basements and remove the rubbish from their yards.

* * *

F. H. Swift, dean of the college of education, University of Minnesota, has announced the third annual short course for Minnesota school superintendents and principals will be given at the university during the Easter recess, April 19 to 22. Two prominent American educators, Professor W. C. Bagley, director of the school of education of the University of Illinois, and Professor E. P. Cubberley of Leland Stanford university will deliver lectures. The time selected for the short course coinsides with that of the annual conferences of the superintendents' section of the Minnesota Educational association.

GOPHER STATE NOTES

Mora.—The bankers of Mora have recognized the importance of industrial work of boys and girls on the farm by lending the boys and girls in the Mora Pig club $800 to buy thirty-two pure bred Duroc-Jersey gilts. Each boy and each girl will be lent $25 without interest, the sum to be repaid when the first litter of pigs is sold.

Mesaba. — Great activity in the Minnesota mining country has begun. Locomotives, steam shovels and other equipment at the Graham mine, No. 1 of the Oliver Iron Mining company, are being repaired by a large crew. The mine has been operated most of the winter and has a large stockpile, but is intended to get more ore from it.

Staples.—Staples high school of 10 rooms burned at midnight, entailing a loss of more than $40,000. There is $22,000 insurance. The fire started around heating plant. It was discovered .. time to save the building had not one of the hydrants burst and practically shut off the water pressure. Quarters will have to be provided for nearly 400 pupils.

Duluth. — William H. Lyons of the White Oak Point, Mississippi band of Chippewas, was here on his way from Washington to his home at Ballclub, Itasca county, after appearing before the Indian department in behalf of the members of his tribe. He asked the government to give the members of the tribe an additional allotment of 80 acres a head.

St. Paul. — Make the surroundings of every home in Minnesota beautiful by planting trees, shrubbery and flowers is the message sent to the people of the state in a proclamation issued by Governor Burnquist, designating April 28 as Arbor and Bird day. "In our schools special study of arboreal life should be encouraged by fitting exercises," he said.

Washington, D. C.—A circular poll of the Tenth Minnesota district just completed by Representative Schall shows that sentiment in the district is overwhelmingly in favor of preparedness. Mr. Schall sent 42,000 circular letters into the district, asking for expressions of opinion on national defense. So far he has received 9,468 replies. Of this number 4,986 favor a greater army and 3,543 are against.

St. Paul—Election of Fred C. Stevens of St. Paul as fourth delegate-at-large on the republican delegation was conceded on receipt of returns from all but Aitkin and Koochiching counties at the office of the secretary of state. Totals from 84 counties give Stevens 24,588, O. J. Larson 24,080 and James Manahan 23,973. Unofficial reports from the missing counties indicate a plural of about 300 for Stevens over Larson. Z. H. Austin has a safe lead for fourth place on the democratic ticket in the same counties, with a vote of 24,286, to 23,695 for W. A. Just and 23,245 for A. C. [illegible]

TAKE SALTS TO FLUSH KIDNEYS IF BACK HURTS

Says Too Much Meat Forms Uric Acid Which Clogs the Kidneys and Irritates the Bladder.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

The Neglected Vocation.

"My daughter writes beautiful poetry."

"Dear me, dear me," sighed the man, "and the world so hungry for good cooks."

Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.—Adv.

A Just Tribute.

"Why did Wombat leave his money to found a home for servant girls?"

"Well, you know he was a manufacturer of fine china. And he always said the girls did a lot for his business."

Cole's Carbolisalve Quickly Relieves and heals burning, itching and torturing skin diseases. It instantly stops the pain of burns. Heals without scars. 25c and 50c by druggists. For free sample write to The J. W. Cole Co., Rockford, Ill.—Adv.

Opinions.

Rich Man—Poverty is no disgrace.

Poor Man—No, but that's about all the good you can say for it.

Truth Will Out.

Bill—She's one girl who's fond of me.

Fred—How do you know?

Bill—I saw it in—I mean on—her face.

ALLEN'S FOOT-EASE FOR THE TROOPS

Many war zone hospitals have ordered Allen's Foot-Ease, the antiseptic powder, for use among the troops. Shaken into the shoes and used in the foot-bath, Allen's Foot-Ease gives rest and comfort and makes walking a delight. Sold everywhere, 25c. Try it today. Adv.

Had Nothing on Him.

An anemic elderly woman, who looked as if she might have as much maternal affection as an incubator, sized up a broad-shouldered cockney who was idly looking into a window on the Strand, and in a rasping voice said to him:

"My good man, why aren't you in the trenches? Aren't you willing to do anything for your country?"

Turning around slowly, he looked at her a second and replied contemptuously: "Move on, you slacker! Where's your war baby!"—Exchange.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Not Enough.

"How much is he making?"

Most people have lost more by crowding than they would by waiting their turn.

RESERVE BANK HELPS FARMER

MOST OF REDISCOUNTS ARE FOR COUNTRY INSTITUTIONS.

Planting and Harvesting Conditions Compel Farmers to Loan Freely and Create Big Demand.

Minneapolis, Minn., March 27.—One more prediction as to the service rendered by Federal Reserve banks will have to be revised. At the founding of the ninth bank in Minneapolis, bankers were of the opinion that its chief usefulness would be to the member banks in the larger centers. After 16 months, city banks have had occasion to use it only once, aside from courtesy transactions and transactions resulting from the currency issue. Ninety per cent of its rediscounts of $6,161,000 have been for country banks, and the great bulk of the paper rediscounted has been farmers' paper.

Farmers Compelled to Loan Freely.

This result, reserve bank officers point out, has been the natural outgrowth of the conditions of 1915, and those which have so far prevailed in 1916. The pressure on banks in commercial and manufacturing centers has been light. Few situations have developed that local banks, carrying heavy deposits and large excess reserves, could not readily meet. In the country, conditions have been different. The foot and mouth quarantine, planting and harvesting demands, and the failure of the corn crop have been the flaws in an otherwise unusually favorable agricultural record, and, in the localities affected, have compelled farmers to loan freely and created a considerable demand on country banks. The resulting paper, specifically provided for by the liberal agricultural provisions of the law, has constituted by far the larger part of the average of $670,000 per month taken by the reserve bank of Minneapolis. The service afforded represents credit extension to farmers that might have been obtained with difficulty if it had not been for the reserve bank's emergency facilities, and the average rate has been lower than that at which farmers' paper has been discounted in any previous year.

Larger Banks Have Not Used Federal.

Larger banks have had no occasion to use the reserve bank except to obtain currency with which to meet the demands of their country correspondents. This they have acquired through the exchange of gold, with a resulting strengthening of the gold resources of the reserve bank, or through the presentation of Eastern exchange, which the bank has converted into gold. The currency thus obtained has largely gone to satisfy the demands of farmers, the bulk having been used for crop purposes.

An incidental result of this unexpected development of business with the agricultural sections, and one which will be immensely valuable in time to both farmers and country banks, has been a slow but gradual movement toward the establishment of customers' credit files in the rural banks. The reserve bank requires, with each farmer's note presented for rediscount, a statement showing the assets, liabilities and net worth of the farmer who made it.

Farmer Must Make Statement.

As the use of signed statements gradually extended farmers were quick to see the advantage of having a sure and substantial foundation for their bank credit and the practice of making statements regularly, similar to those required of commercial enterprises, is rapidly growing. Numerous banks are beginning to report the completion of credit files covering every borrower, the larger part being farmers. The farmer has found that a statement of his property and debts and of the margin available as a basis for credit is the surest method of establishing solid credit. The bank has found it of great advantge to know the actual condition of the customer, feeling free in some cases to extend credit more liberally, and being able in other cases to give the farmer practical advice tending to place his affairs in sound and business-like shape.

The 1916 outlook is for light rediscounting by banks in commercial and manufacturing centers. Liberal orders and good collections have placed business concerns and industrial activity on a very solid basis. In the country there promises a somewhat different situation. Over the grain territory there is a considerable shortage of fall plowing. Sound seed corn is scarce. There will be great activity as soon as spring opens up, and in the western portion of the district a more active demand for funds for farm operations than a year ago.

Increases Lumber Products Rate.

Washington, March 27.—Increase of 12 cents a hundred pounds on lumber and lumber products from St. Paul, Minneapolis, Duluth, Minnesota Transfer, Stillwater, Minn., Ashland, Wis., and points taking the same rates to Chicago and Chicago rate points has been approved by the Interstate Commerce Commission.

Authorizes New Print Paper Rates.

Washington, March 27.—The Interstate Commerce commission has authorized the Northern Pacific railroad to establish rates irrespective of the long and short haul clause on news print paper from Cloquet, Minn., to Memphis, Tenn., and New Orleans.

THE WEATHER.

Minnesota — Fair today and probably Tuesday; warmer today.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexions, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.

Nine to Draw From.

Hiker—Young Pellets tells me he makes a specialty of doctoring cats.

Piker—Well, his patients are lucky.

Hiker—How's that?

Piker—They each have nine lives.

FOR ITCHING SCALP

And Falling Hair Use Cuticura Soap and Ointment. Trial Free.

When the scalp is itching because of dandruff and eczema a shampoo with Cuticura Soap and hot water will be found thoroughly cleansing and soothing, especially if shampoo is preceded by a gentle application of Cuticura Ointment to the scalp skin.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Didn't Try Any Soft Soap.

"Go!" said the girl. "I wash my hands of you."

"Before you do any hand-washing, better take off that ring I gave you," he retorted, frigidly.—Boston Transcript.

Colorado uses more than two million electrical horse power every day to run its industries.

Natural Ability.

"How this patient does keep up!"

"Of course, he does. He's an aviator."

Don't wait until it begins to sprinkle before starting to lay up money for a rainy day.

If a man has money his funny stories will always get a laugh.

BACKACHE AND KIDNEYS

Dear Mr. Editor:

For the benefit of others, I gladly give this statement regarding the merits of "Anuric." Am nearly 76 years of age. I suffered from backache, weak back, rheumatism, and could not control the excretion of the kidneys. I can safely say that "Anuric," the new discovery of Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., has done me more real good than anything I have ever taken for these ailments. Signed—Mrs. N. M. Flint.

NOTE:—A new remedy, called "Anuric," has been discovered by Dr. Pierce. It cures backache, headache and the darting pains and aches of rheumatism, kidney and bladder troubles. This "Anuric" is 37 times more potent than lithia, and dissolves uric acid, as hot water does sugar.

IN THE SPRING

Now is the time to bring to your aid Dr. Pierce's Golden Medical Discovery (in tablet or liquid form). This wonderful remedy helps to restore stomach to its natural health and strength and to secure proper flow of the digestive juices, a good appetite and full digestion of the food you eat. It invigorates the liver, regulates the bowels and purifies and enriches the blood.

Dr. Pierce's Golden Medical Discovery is absolutely free from alcohol and injurious drugs. Its ingredients printed on wrapper. You can be certain it is a true blood-maker, tissue-builder, and a restorative nerve tonic and that it will produce no evil after-effect. Thousands—probably many of your neighbors—are willing to recommend "Golden Medical Discovery" because it has made them stronger in body, brain and nerve.

THE SUNBEAM.
BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 3a 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

Do You Want Bridges Or Wind?

We will now soon be up against it, for any method of getting across Red Lake River in eastern Pennington county, and before the close of the season the bridge necessity will become so great that the Commercial Club of Thief River Falls are likely to call a meeting of the farmers of the eastern part of the county to discuss the question of having the river either dredged or a dam put in at Red Lake, at government expense. Of course they will have Steenerson there to speak, and next winter he will introduce a bill to have a government survey made of the river, with a view to having it dredged out, and the farmers of the east end will swallow the dope, and go home feeling happy, while the western and southern part of the county will continue to get the road and bridge funds, and we can continue to do without bridges.

There is nothing like having a County Commissioner located in this end of the county who looks at this through the same pair of spectacles as the people who have their non-navigable river from Thief River Falls down, so they can continue to use the county road and bridge fund to build up their end of the county.

The Duluth Herald suggests the name of T. R. Falls, for a change of name for our County Seat. This would only make a bad matter worse by making more inquiry how the name originated. In fact they would be like the young lawyer by the name of Swindle, whose sign read A. Swindle, Attorney-at-Law. A friend asked him why he did not use his entire first name, and he replied that his first name was A-d-a-m, which would make his sign read A-dam Swindle, Attorney-at-Law.

Congress voted to increase the standing army to 140,000 last week. This is a move in the right direction, as even the little flurry in Mexico has made it plainly apparent that we are deficient in trained soldiers. It is too much like putting a farmer into a ring to fight a trained pugilist, to expect a volunteer army to meet an army of well trained soldiers. A certain amount of peace talk is all right, but this nation is beginning to realize that national influence now days is rated by the size of the gun carried in the hip pocket.

The people of Minnesota will not take any chances in changing U. S. Senators at this time, as Senator Clapp has filled the bill to the entire satisfaction of a large majority of the people. While he and Senator Nelson voted exactly opposite to each other on the Gore resolution, there is a division of the people as to which was right, and we are of the opinion that Clapp's vote would be in a big majority, if the question was to be voted on in this state.

The fact that Steenerson has introduced a bill in Congress to have a government survey made of Red Lake River, will hold the bridge proposition to be indefinitely postponed as usual.

That Indian Treaty.

Because the Thief River Falls Times kicked about this territory being compelled to submit to an old Indian treaty, for government, instead of being allowed to govern ourselves by state laws, Mr. Calderwood accuses the Times of being opposed to temperance. This is not a question of temperance, but a question of the people of this territory being qualified to govern themselves by state laws.

The doings under those old Indian treaties have disgraced the intelligence of the people of northern Minnesota long enough, and are now hindering immigration to this part of the state, as the people of other states are coming to the conclusion that this is a wild Indian country, where the people must be governed by an old Indian treaty, and the sooner the Congressmen from northen Minnesota see to it to have those old treaties done away with, the better it will be for northern Minnesota.

It is time that the people of northern Minnesota, who have bought and made their homes on the lands that were an Indian reservation in 1855 and 1863, arose in their might and demand that those old Indian treaties be repealed, and that at once, as this is no longer a question of temperance, but a question of the people living here having the name of not being qualified to govern themselves without the assistance of out of date Indian treaties.

Mosskeg Farming.

Professor Alway, of the State University, gave a practical talk to the farmers at the Goodridge Hall, on last Friday afternoon, on the sub-duing of peat, or mosskeg land, so as to make it produce crops. There is a vast difference between deep peat swamps, and lands that are good clay subsoil and only from one to three feet of mosskeg on the top, according to Mr. Alway. He says that where the peat is not so deep that some dirt can be worked into it, that it will raise crops after it is well rotted, if there is not lacking some element that must be supplied. He says that potash is the main requirement of the peat lands of this locality, but as Germany now has the control of about all of the potash manufactured, it is at a prohibitive price at the present time.

Manure will take the place of potash to supply what is lacking in the soil, but the trouble is that a large number of the farmers have more mosskeg land than they have stock to make the manure to treat it.

Our experience with light mosskeg is to break it in the fall or spring, roll it down flat, and then mix about eight quarts of timothy seed with your flax seed, and disc it in with the flax seed. It does not in anyway injure the flax crop, and the next year, we had a good heavy crop of fine timothy hay. Any farmer that will visit our farm at Sunbeam next summer can see by personal observation that this method is a success.

Some farmer asked the experts at what season of the year mosskeg land should be broken, and they promptly answered at any time during the summer. Practical experience teaches us that this is not correct. A year ago last June, during the latter part of June, we broke one acre of this land to try it, and let it lay until last spring before seeding it to flax. As it was right beside late fall and spring breaking, we had a good opportunity to see which was the best. The one acre that we broke last June, was so badly over run with weeds, that we could hardly cut the flax on it, while the spring and fall breaking was clean and free from weeds, which satisfied us that we would do no more breaking on mosskeg land in the summer season.

We would be pleased to publish any practical experience of other farmers of this locality with the farming of mosskeg land.

THE SUNBEAM

MINNESOTA HISTORICAL SOCIETY

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, APRIL 7, 1916. NO. 4

THE LOCAL NEWS

There is to be a big ball at Goodridge to-morrow night, given by the Modern Woodmen.

Christoffer Nisson is busy getting his spring's supply of hay home from the farm of Mr. Sund.

Bring your cream to the Highlanding Creamery and get your cash, and help build up your local creamery.

Local news are rather scarce this week, as all the farmers are staying at home waiting for the roads to settle.

Mail carrier Rome could not make the drive by way of Mayfield last Tuesday, owing to the breaking up of the roads.

Read the Washington News letter published in another column, as it fully explains the submarine issue.

FOR SALE: I have a good work horse for sale, weighing about 1300 pounds. James O'Brien, Section 25, Town of Kratka.

Read the new add of the Winton-Nichols Lumber Company published in another column.

The Highlanding Creamery Association have employed Mr. George Nereson, an experienced creamery man for the season.

Miss Erma Parnow returned from a visit in Norman county, with relatives, to her home, on last Friday.

There will be a way provided this spring for people living on the south side of Red Lake River to get across that river at Highlanding.

Farmers who do not want their land flooded should assist the water to break through the packed snow that is now filling the ditches.

All the farmers should be sure to treat their seed wheat for smut this spring, if they expect to get the highest market price for their grain this fall.

The Red Lake River is beginning to break up on the edges, and the river is already out of its banks, with good prospects for a big flood when the snow melts.

FOR SALE: On my farm, in the town of Kratka, I have 20 ton of fine No. 1 timothy hay, at $6.00 per ton cash.

C. Peterson, Kratka, Minn.

The snow still remains with us, and it now has the appearance of being a late spring, if spring don't kick old winter out of business suddenly.

A basket social will be held at the church at Highlanding, on April 22nd, at 7 o'clock P. M. for the benefit of Norwegian school. Everybody welcome.

People living on Red Lake River should look out for a big rush of water, when the large amount of snow now lying in this part of the country melts and starts down stream.

Red Lake County has let the contract for a large number of bridges to be built this summer. There are no bridges to be built in Pennington county east of Thief River Falls, as we have a NAVIGABLE river.

The Highlanding Creamery opened for the seasons run on April 1st. The creamery association have adopted a new method; and a good one, for buying cream, which is to pay the highest market price, cash on delivery. No more waiting for your monthly pay check, as your cash is ready as soon as the cream is tested.

WASHINGTON NEWS.

Washington, March 20.—If war results from the submarine controversy, the responsibility for that war will rest upon President Woodrow Wilson and his vacillating foreign policy. If war comes it will be war that might have been avoided. If war comes, America will pay for the Wilson administration with thousands of her best lives and millions of her treasure.

We have seen the submarine situation stated nowhere so clearly as it was recently explained by Senator Burton in his speech at Trenton. It is notable that Mr. Burton, who is an authority on international law, is the last of the Republican leaders to attack the administration's foreign policy. He has evidently felt that delicate situations created by the war the President should be unhampered by criticism. But when the crisis came and we began floundering toward the welter of blood in Europe, Mr. Burton has spoken plainly on the dangers of a shifty diplomacy. In a few sentences he showed why our present unenviable plight is due to President Wilson's vacillating foreign policy, and he explained this so clearly that anyone can understand it.

"On the tenth of February, 1915, the administration warned the German Government of the consequences of carrying out the policy foreshadowed in its admiralty proclamation in case it should result in destroying any merchant vessel of the United States or in causing the death of American citizens, and threatened to hold the German Government to strict accountability for any such act.

"A note from the Secretary of State on the 15th of May last limited the rule that the lives of non-combatents of neutral states should not be put in jeopardy on UNARMED merchantmen. The word 'unarmed' is important.

"In the latter part of January, 1916, The State Department in a note to the various powers sought to induce the Allies to disarm their merchantmen and placed especial stress on the disadvantages of submarines in conflict with armed merchantmen, saying in substance that it would not be fair that the submarine should be compelled to expose themselves to destruction from such vessels and that merchantmen should not be permitted to carry armament at all, stating further that the United States government was seriously considering the announcement of the purpose to treat a merchant vessel carrying guns as an auxiliary cruiser because of the changed conditions in maritime warfare resulting from the introduction of the submarine and its defenseless character.

"After the publication of this note, Germany and Austro-Hungary on about the 10th of February very promptly and adroitly announced that on and after March 1st they would regard all merchantmen carrying armanent as warships and would exercise the right to destroy them without warning.

"What did the President do then? He said, 'No, for such a course would involve the loss of life of American Citizen, and American citizens have the right to travel on merchantships armed for defense.'

"Thus we attempted to persuade England and France to give up a right which they claimed under international law, but would not ask American citizens to yield a right which we alleged belonged to them UNDER THE SAME LAW.

"In other words, we took the position that England and France had no right to arm their merchantmen, for thus they became warships, while, on the other hand, only a few weeks later we maintained that although they were warships, Germany had no right to sink them without warning

"Thus it appears that the whole controversy in which we are now engaged, fraught as it is with so much danger to the peace of the United States, WAS BROUGHT ABOUT BY SHIFTING OUR POSITION AND TAKING A STAND DIRECTLY CONTRARY TO THE ONE FIRST ASSUMED.

"No wonder it is hard to stand by the President. In Mexico we marched up the hill and then marched down again; in this controversy over the arming of merchantmen we marched down the hill and then marched up again.

"You may steer a ship by the north star, but you cannot steer it by a comet."

A POOR START FOR CONGRESS.

A. G. Anderson, of Ottertail County has filed for the Republican nomination for Congressman from this the ninth district, in opposition to Halvor Steenerson. The Roseau County Times in announcing Mr. Anderson's candidacy, makes an attack on Congressman Steenerson for voting against President Wilson's high sea policy. It is funny how different people consider this question; as for instance, we wrote a personal letter to both Senator Clapp and Congressman Steenerson congratulating and thanking them for their vote on that question. Our idea is, that an American has no more business to take passage on an armed English merchant ship than he has on a man of war at the present time, and the action of President Wilson, was no more or less than an attempt to allow an English armed merchantman to hide behind an American petticoat; until they got a chance to ram and sink the submarine. That is what we call taking sides in the European war, and Clapp and Steenerson were right when they voted for Americans to keep out of it.

FOR SALE: a farm near Red Lake River, for about half value. Inquire at this office.

White Seal Beer for Family Use

		PER CASE

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 31 905, at the post office at Sunbeam, Minn. under the Act of Congress of March 3, 1879

THAT INDIAN TREATY

It is disgusting to read in the eastern papers about that old Indian treaty of 1855, and the turmoil that it is creating in northern Minnesota. We received a letter from an eastern state friend a short time ago asking us if a good title to land could be had on this Indian territory, that we were occupying? The impression of eastern people, who are contemplating going west to acquire new homes, is, that this entire northern part of Minnesota is still an Indian Reservation, where the government Indian treaties are the laws of the Country.

There seems to be a certain class of people, mostly from the twin cities, assisted by a few cranks in this part of the state, who seem to want to keep that Indian treaty business stirred up to the limit, for about the time that it begins to die down a little, out comes some big daily newspaper, with big head lines telling the people of eastern states about the violations of law under that Indian treaty, on that great big Indian reservation in Northern Minnesota, which reaches from Moorehead nearly to Duluth.

This is not a question of temperance at the present time, but a question of the people of northern Minnesota being qualified to govern themselves under their state laws.

The wife of a Seattle hardware dealer answered her door-bell and found a peddler on the porch.

He was selling the greatest potato parer ever invented and he gave a demonstration that convinced her at once, and she handed over the quarter.

When the husband came home she showed him her bargain, and told him what she paid for it. Imagine her consternation when he said:

"I have a gross of these down in the store, and I sell them for ten cents cash—when I find a purchaser."

The woman always has the last word, and hers was to the point: "Then, for goodness sake, why don't you let people know what you have for sale?"

That is just what the smaller retailers will have to do. They must let people know what they have for sale, or see all the big mail order houses get all the cash business, while they extend credit.—Ex.

The Thief River Falls News-Press is making bitter attacks on County Auditor Anderson, for some small errors made in the taxation of assessments in Thief River Falls. The ditch tax paying farmers are fully aware that the News-Press is a little bit sore over the election of T. P. Anderson, as County Auditor, but if you want another race, come on, the ditch tax paying farmers are in line, and ready to do business at the ballot box. And if they get the opportunity this year, which we believe they will get under the Constitution of the State of Minnesota, they will make a farther clean up in some quarters.

The Town of Goodridge will land the $200 prize given by the Cummins campaign committee, for the township that showed the largest increase in the vote since the last general election. Goodridge had an increase of over 100 per cent, and they claim the blot. It is undoubtedly a surprise to the donators that this prize goes to the youngest county and village in the state, but they will have to sit up and take notice that eastern Pennington county is growing some.

FARMERS WANT BRIDGE.

Farmers in the northern part of the county are anxious to have a bridge constructed across Thief River to make possible a shorter cut into the city and have raised $1000 among themselves, with about $400 from the township. They propose to build a gravelled highway north to the Marshall county line and this bridge is included in the project. They will ask an appropriation from the county commissioners. —Thief River Falls News-Press.

This would be a great assistance to draw farmers trade from Marshall county to Thief River Falls, and there had ought to be liberal assistance given by the county commissioners, to build a bridge across Thief River, but they would not even say by a resolution the fact that the Red Lake River was a non-navigable stream east of Thief River Falls; so the farmers of their own county could get a bridge across it. However we have about got a monkey-wrench ready to throw into that navigable river machine which has been working so slick in the past.

THE ACHES OF HOUSE CLEANING.

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore parts. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain. 25c. at Druggist.—Advertisement.

Statement of the Ownership, Management, Circulation, Etc., Required by the Act of Congress of August 24, 1912.

Of THE SUNBEAM, published weekly at Sunbeam, Minn., for April 1st 1916.

State of Minnesota
County of Pennington

Before me, a Notary Public in and for the State and county aforesaid, personally appeared M. G. Hunt, who having been duly sworn according to law, deposes and says that she is the Publisher of THE SUNBEAM, and that the following is, to the best of her knowledge and belief, a true statement of the ownership managment, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:
Publisher M. G. Hunt, Sunbeam, Minn., Editor W. G. Hunt, Sunbeam, Minn., Managing Editor W. G. Hunt, Sunbeam, Minn., Business Managers W. G. Hunt, Sunbeam, Minn.

2. That the owners are:
W. G. Hunt, Sunbeam, Minn.

3. That the known bondholders mortgagee, and other security holders owning or holding 1 per cent of more of total amount of bonds, mortgages, or other securities are: There ar none.

M. G. Hunt, Publisher

Sword to me this 1st day of April 1916.

OUR PUBLIC FORUM

Frank Trumbull

ON UNIFICATION OF RAILROAD JURISDICTION.

There is no more perplexing problem in government today than the proper regulation of railroads, and no one more capable of discussing the subject than those who finance and manage railroad properties, for experience is the handmaiden of understanding and practical wisdom the stepping stone to success.

Frank Trumbull, Chairman of the Railroad Executive Advisory Committee on Federal Relations, when asked for his views on the effect of regulation upon railroad investments, said in part:

"The desirability of regulation is, of course, admitted. Whether the regulation the railroads have had is a success is a fair subject for discussion. One thing is certain—there is at present practically no appetite for fresh investment in railroads; that is for new construction or large improvements.

"Now that an efficient banking system has been established by the Federal government, a solution of the railway problem, fair alike to investors and to the rest of the public, is first in importance among our national domestic questions. The interdependence of railway owners and employees and of the shipping and traveling public has been demonstrated so often that I do not attempt here to prove it over again.

"Are railroad managers entirely to blame? Suppose you are attempting to administer a railroad in an honest and straightforward way. Most railroads are so managed; there have been some exceptions, just as there have been wicked bankers, farmers who put their best apples in the top of the barrel, and other people who have made sharp horse trades. But in either of the cases mentioned, does anyone expect the State to penalize the banking business as a whole or the apple business or the raising of horses?

"The situation is much as if you had built a hotel in some good sized town, say, twenty or thirty years ago. Probably very few, if any, of the bedrooms were provided with bathrooms. Perhaps the furniture consisted of a bed, a bureau, a wash-stand and two or three chairs. Suppose that after investing your money in that way the State passed a law stipulating that the price per room should not be over two dollars per day. Suppose after that the State passed other laws requiring a certain number of bath rooms, additional furnishings, fire escapes, screens on all the windows, sanitary appliances, etc. Perhaps these requirements are reasonable and in the public interest, but where would you get the money for new and better hotels under such restrictions of profits? I have said that the situation of the railroads is much like that, but the hotel investment is simplicity itself as compared with investing in a railroad."

U. S. Mail,

The U. S. Mail, leaves Sunbeam, at 11.40 a.m., on Tuesday Thursdays and Saturdays.

Arrives on the same days at 5.00 p.m.

AVOID SPRING COLDS

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.—Adv.

KEEP YOUR SKIN CLEAR AND HEALTHY.

There is only one way to have a clear healthy complexion and that is to keep the bowels active and regular. Dr. King's New Life Pills will make your complexion healthy and clear, move the bowels gently, stimulate the liver, cleanse the system and purify the blood. A splendid spring medicine. 25c. at your Druggist.—Advertisement.

THE SUNBEAM.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA. FRIDAY, APRIL 14, 1916. NO. 5

MINNESOTA HISTORICAL SOCIETY

THE LOCAL NEWS

John Homme, the Highlanding well digger, was transacting business at Sunbeam Wednesday.

The fields are beginning to get bare of snow and with favorable weather seeding will start next week.

James O'Brien, Wm. Parnow and daughter Erma made a pleasant call at Sunbeam, on Sunday afternoon.

FOR SALE: I have a good work horse for sale, weighing about 1800 pounds. James O'Brien, Section 25, Town of Kratka.

Miss Ella and Marie Causin returned to Thief River Falls, on last Saturday, where they are attending high school, after a weeks vacation with their parents.

We had a fine shower of rain on Wednesday, which helped to dispose of a large amount of the snow, and dump the water into Red Lake River.

FOR SALE: On my farm, in the town of Kratka, I have 20 ton of fine No. 1 timothy hay, at $8.00 per ton cash.

C. Peterson, Kratka, Minn.

The Red Lake River now makes a solid division line between north and south Pennington county, as it can not be crossed with boats or on the ice.

A large number of our farmers received letters from Professor Alway, of the State University, requesting the farmers experience farming peat land.

The Red Lake River is higher at this point than it has been for the past ten years, before the ice went out, and we would advise the people of Crookston and Grand Forks to prepare far higher water in the rivers, than they have had for years.

The roads have been in horrible condition this spring, and the Star Route mail carriers have had hard work to get through on their regular routes, but people should consider that mail carriers are only human beings, and can not get over impassable roads any better than a private individual.

This, the Highlanding township, part of Pennington county are in no danger of suffering from floods; as the ditches are rapidly dumping the surplus water into Red Lake River, where it promptly leaves us for points down river. Look out below there, for there is lots of water heading your way now days.

Because some of the officials of the Highlanding Creamery Association are store keepers, it does not indicate that they are going to pay in store pay for cream delivered at the Highlanding Creamery. You get your check for cash for your cream, and you can spend your own money where and with whom you please. Bring on your cream and get the highest market price in cash, at the Highlanding Creamery.

County Attorney Youngquist, of Polk county has sounded a warning to the sellers of soft drinks, that no near beer, or malt liquors of any kind will be permitted to be sold in that county after April 20th. But he has not got the power to prevent a man from sending to Red Lake Falls or Plummer, and buying a case of beer or whiskey for his own use. That's right let the grass grow in the cities and towns of Polk and Pennington counties, while Red Lake gains the prosperity that they voted for.

THE MEXICAN SITUATION.

Judging from the records made by the American troops in Mexico it would not be necessary to call for any volunteers to clean up Mexico and establish peace there, and the only way to do it, is the same as we done in Cuba. Clean those Greasers up right, and put them under the control of the United States, the same as Cuba is. If Cuba was allowed to do as they see fit about the management of their affairs, there would be a continual revolution there, the same as there is in Mexico. To capture and execute Villa will no more solve the Mexican situation, than it would solve the sheep tick pest, by catching a sheep and picking off a tick and destroying it. President Wilson should never sound a recall of the American troops from Mexico, until they have cleaned up that country and established a stable government.

From latest reports it appears that the Carranza troops, of their so called government, instead of assisting to capture Villa, are massing their troops in other quarters, and we may expect soon to hear that the state militia will be called to the Mexican frontier, for President Wilson has been annoyed long enough so that he will not now recall the American troops until they have put an end to bandit war fare in that country, and establish as peaceable a country as Cuba has, under the protection of this government.

The Red Lake River raised about four inches to-day.

All ditches running into the river are bank full to-day.

Alfred Hammarsten, is one of our first farmers to invest in an Overland automobile.

People sending to the catalog houses for goods, can now obtain post-office money orders at Sunbeam post office.

The prospects now are that we will not have such a very late spring, as the land will soon be fit for seeding.

We understand that Lars Hyland has bought the Andrew Feland farm, on Section 6, town of Deer Park.

Don't forget the Basket Social at the Highlanding Church, to be held on the 22nd of April, for the benefit of Norwegian school.

With about four more inches of a rise of Red Lake River and part of it will start across country for the Clearwater River, and O'Neill's dam will not amount to a dam.

Fred Brown has two teams that he will use doing road grading this summer, and our township supervisors can now get some road work done that is badly needed on the south side of Red Lake River.

This is the season of a political year that the country publisher begins to get free plate matter, booming different candidates for office. The plate houses manufacture it, and send it free to the country rubes, expecting of course that they have no ideas of their own, as to who they or their subscribers prefer to have elected to the different offices, within the gift of the people, until they get it in the form of free plate booms from the city.

COW AND HORSE SURGEON. If you have any trouble with your brood mare at the time of calling, call on Tallock Dable, Sec. 33, town of Highlanding, and he will assist you to save your mares and colt.

DEFECTIVE PAGE

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at your druggist or from the store, but is sufficient to make anyone who is bothered with billousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.—Adv.

Other Things, Though.

Bill—Didn't your ocean trip take all of the ginger out of you?

Jill—Ginger? I didn't eat any ginger!

TENDER SKINNED BABIES

With Rashes and Irritations Find Comfort in Cuticura. Trial Free.

Baby's tender skin requires mild, soothing properties such as are found in the Cuticura Soap and Ointment. Cuticura Soap is so sweet, pure and cleansing and Cuticura Ointment so soothing and healing, especially when baby's skin is irritated and rashy.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

When a married woman begins to juggle dumb-bells it's her husband's cue to cultivate the acquaintance of a divorce lawyer.

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00.—Adv.

A woman's mind is nearly always on dress—which may explain the frequent changes of both.

SALTS IF BACKACHY OR KIDNEYS TROUBLE YOU

Eat Less Meat If Your Kidneys Aren't Acting Right or If Back Hurts or Bladder Bothers You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.—Adv.

Theatrical managers and astronomers are always trying to discover new stars.

Every Household Needs It.

For cuts, burns sprains and bruises, Hanford's Balsam of Myrrh should give quick relief. These may happen any day in any home and the prudent housewife will always keep a bottle on hand. Adv.

Farsighted is the man who doesn't allow success to throw him off his guard against a reverse of fortune.

TELEGRAPH LINES IN MEXICO TO BE USED BY U.S. ARMY

CO-OPERATION BY MEXICAN OFFICIALS IN BANDIT CHASE IS INDICATED BY OFFER TO GENERAL PERSHING.

AVIATORS IN CHIHUAHUA ARE TREATED COURTEOUSLY

Cavalry Under Brown and Dodd Driving South From Satevo With Great Speed—Pershing Moving Along Trail Directing Pursuit of Bandit Chieftain.

San Antonio, Texas, April 11.—Co-operation to a limited extent by the Mexican military authorities in the work of the American punitive forces in Mexico was indicated by their offer to General Pershing of the use of the telegraph and telephone lines.

The offer was made to the aviators who landed in Chihuahua last week and was reported by General Pershing to General Funston. His report was sent from some part of the field whose location was withheld here. It did not pass over telegraph lines, but was transmitted via aeroplane and wireless routes to Columbus.

Airmen Treated Courteously.

The drivers of the aeroplanes that visited Chihuahua said they had been treated courteously by General Gutierrez, commanding officer at Chihuahua after it was demonstrated that they had come on a friendly mission, although before that fact was determined by the alarmed public, a few stones had been thrown at them and a shot or two fired. No one was injured.

General Pershing said some supplies had been purchased in Chihuahua and that there appeared no disposition on the part of those with stores to withhold their goods, but that the limited amount of supplies at Chihuahua at present made it almost impossible to get provisions.

Cavalry Driving South.

The present position of the advanced columns was not made public but it was known that cavalry columns under Colonels Brown and Dodd are driving south from Satevo with all speed.

Officers here had no information that either force had gone so far as Parral, but they said the receipt of such information would be no surprise.

General Pershing himself is moving south along the trail to Satevo, personally directing so far as possible the pursuit of Villa and the search of the mountains and plains adjacent to the trails being followed.

Before leaving his headquarters on the San Geronimo ranch north of Guererro General Pershing said General Luis Herrera, the Carranza general, whose defection was reported, called upon him and that the two had discussed in a friendly manner the efforts being made by both governments to run down the common enemy.

BAKER STILL OPTIMISTIC

Lack of News From Mexico Does Not Shake His Hopes.

Washington, April 11. — Sunday brought no dispatches to break the silence of several days regarding the operations of the American expedition in Mexico. Nevertheless, Secretary Baker reiterated his optimism for early success of the hunt for Villa. Lack of news since last Tuesday regarding progress of General Pershing's campaign had not shaken official's hopes. It is pointed out that important developments may have occurred since it was last possible for the extreme advance columns to communicate with their field base.

AMERICAN TROOPS BEING HURRIED ACROSS BORDER

El Paso, Texas, April 10.—A civilian, who has just arrived here from Columbus, reported that additional troops are being hurried south into Mexico from the base as rapidly as they can be provided with transportation and equipment.

Local officials in El Paso made representations to the military authorities and two infantry battalions were sent from Fort Bliss to act as reserves to the patrols who are on guard every night in the principal streets here. The police officials said they fear trouble with Mexicans in Juarez.

Prizes for Mexican Farmers.

Mexico City, Mex., April 10.—In a manifesto to Mexican farmers, General Gonzales offers a prize of $1,000 to the planter in each township under his jurisdiction, which includes the states of Mexico, Puebla, Morelos, Tlaxcala, Hidalgo and Caxaca, for the best planted field. The farmers are warned that the nation faces a serious crisis because of a crop shortage resulting from untilled lands and tells them that only their patriotic industry can forestall the misery of a cereal shortage.

FOR DEMANDS OF CROP-MOVING

RESERVE BANK TO ISSUE SMALL DENOMINATION NOTES.

Total of $5,800,000 Held By Minneapolis Institution—Additional $11,000,000 Subject to Call.

Minneapolis, Minn., April 10.—With the spring planting at hand, the Federal Reserve bank of Minneapolis is already taking steps to provide small-denomination reserve notes in sufficient volume to meet the demands of crop-moving, after harvest this fall. A total of $5,800,000 of currency is held at present by the bank, with the possibility that it will be kept intact until fall. An additional $11,000,000 of new and unissued bills is held in Washington, subject to call. Crop demands of last fall necessitated the issue of approximately $7,200,000, part of which is now coming back for redemption and $6,000,000 more, previously issued, may be depended upon to produce additional redemption.

VOLUNTEER ARMY BILL PLAN SAVED IN SENATE

Amendment to Chamberlain Measure to Eliminate Section Voted Down, 36 to 34.

Washington, April 8.—The amendment to the Chamberlain army bill, providing for the elimination of the volunteer provision, was voted down, 36 to 34, by the Senate after one of the hardest-fought struggles that has marked this session of Congress. Senator Clapp of Minnesota voted to eliminate the provision and Senator Nelson lined up with the winning side.

The section under dispute provides for the organization by congressional districts of 261,000 federal volunteers, wholly under the control of the President and for their training in peace times under such regulations as the President may prescribe.

RUSSIAN HOSPITAL SHIP IS SUNK BY A SUBMARINE

London, April 10.—Four ships sunk and another torpedoed but still afloat, formed the latest toll of hostile submarines here.

One engineer and eight Lascars of the crew of the steamer Chantala, bound for Calcutta, were killed when the vessel was sunk by a submarine. Ninety-two survivors were landed at Malta.

The Russian hospital ship Portugal was sunk by a submarine on March 30, according to official announcement by the Russian admiralty. The report reached Russian authorities through the Hungarian Red Cross organization which expressed the belief that the sinking of the ship must have been the result of a "grievous misunderstanding."

FADING HOPES OF EARLY ENDING OF CHASE REVIVED

El Paso, April 10.—Francisco Villa has been definitely located at La Bouquilla, according to a code message received here from Torreon, Mex. La Bouquilla is 55 miles southeast of Satevo and about an equal distance north of Parral.

The message from Torreon has again revived the fading hopes of a successful termination to General Pershing's expedition. American troops are known to have reached Satevo and are believed to have pushed south of that town. The chance that another brilliant dash like Dodd's ride to Guerrero may bring the troopers up with the fugitive bandit is being eagerly discussed here.

JUAREZ TROOPS PLAN REVOLT

Disaffection Among Carranza Troops Is Reported Along Border.

El Paso, April 10.—For days reports have been current here that trouble was brewing in Juarez and at other points where Carranza troops are concentrated in proximity to the border. These reports reached a climax in information from presumably responsible sources that the garrison at Juarez would revolt tomorrow night.

While the majority of the stories were to the effect that the disaffections among the troops of the de facto government were directed against Americans, there was no basis for this belief, other than the general nervousness which has been prevalent on the border since General Pershing's columns crossed the frontier.

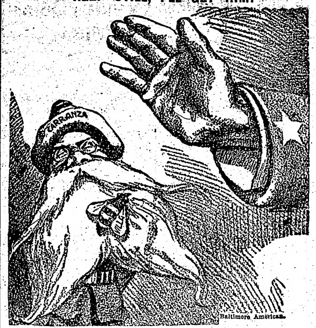
Applies for Pardon for W. J. Smith.

St. Paul, April 10.—Mrs. Walter J. Smith has made formal application for pardon for her husband, who on Tuesday in scheduled to begin his term in the penitentiary. Immediately after Mrs. Smith had made her application Mrs. Robert C. Picket was notified of the fact and attorneys for Pickit began preparations of a similar application in his behalf.

State Closes Case Against Lorimer.

Chicago, April 8.—Argument on the motion of the defense in the trial of William Lorimer, former president of the defunct Chicago bank, for the dismissal of counts in the conspiracy indictment has been continued. The state has closed its case and following a conference of attorneys, 18 conspiracy counts in the conspiracy indictment and the two embezzlement indictments charging Lorimer with allowing the bank to receive deposits although he knew the bank to be insolvent still remain.

"KEEP STILL, I'LL GET HIM!"



Baltimore American.

THREE MORE AMERICANS ARE KILLED BY BANDITS

Tucson, Ariz., April 8.—Three United States citizens and one Spaniard were killed by Mexican bandits nine miles south of Rosario, Sinaloa, Mexico, according to advices received here from Mazatlan at the office of the Southern Pacific railroad company.

Former Conductor Wallace, F. C. Burke and Roderick Davidson, Americans, and former Conductor Radrigo, a Spaniard, were the bandits' victims, according to the railroad report.

REYES ON WAY TO JOIN VILLA

MANY BANDITS PASS DURANGO RAILROAD NEAR TORREON.

Outlaws Reported Operating in Sierra Mojada, One of the Wildest Spots in Mexico.

Torreon, Mex., April 11. — Canuto Reyes, at the head of a number of bandits, passed the Durango railroad near Pedricena going north. It is supposed that his object is to join Villa who, according to latest reports, is somewhere midway between Torreon and Parral. Pedricena is about 30 miles southwest of Torreon.

Fresh Bandits Arriving.

A large number of bandits are reported by arrivals from the north to be operating in the Sierra Mojada. The Sierra Mojada is 120 miles north of Torreon and an equal distance west of Parral. It is one of the wildest and most desolate spots in Mexico. There is a good deal of speculation here as to the possibility of Villa and Canuto Reyes planning to concentrate their forces in this Sierra. If they do, any troops coming from the direction of Parral would have to cross the terrible Mapimi desert, a burning waste stretching 100 miles north and south and from 50 to 60 miles in breadth. It is a spot that is dreaded by Mexicans and shunned by foreigners.

FORMER HUERTA GENERAL TO FIGHT AMERICAN ARMY

Salazar Crosses Border at El Paso and Is Said to Have Large Following.

El Paso, Texas, April 11.—General Ynez Salazar, one of the best known of the former Huerta generals who has been living here is reported to have crossed the border with the announced intention of taking up arms against the United States. The information was given to the police by a man who was closely associated with Salazar and was accepted by them as true after investigation.

The man who gave the police their information said that some time ago Salazar received a letter from General Carranza offering him a command in the field. It was the result of this letter he said that Salazar decided to return to Mexico. Salazar is credited with having a considerable following in Northern Chihuahua.

Asks Cotton Exchange Inquiry.

Washington, April 10.—Representative Heflin of Alabama has introduced a resolution asking for an investigation of the New York Cotton Exchange by the House commerce committee. He said he was convinced that a "conspiracy exists and has existed for some time, to hold down the price of cotton."

British Seize American Ship.

Washington, April 7.—Seizure by a British man of war of the American sailing ship Dirigo, bound from Seattle for Sweden, with a cargo of barley has been reported to the state department by the vessel's owners, who urged that a vigorous protest be made. The ship and her cargo have been thrown into a prize court, and it is understood the British authorities seek to have both condemned on the ground that the cargo, conditional contraband, was destined ultimately for Germany.

TO AWAIT REPLY FROM BERLIN

CABINET DEFERS ACTION ON SINKING OF SUSSEX.

Administration Virtually Concludes German Submarine Torpedoed British Channel Steamer.

Berlin, April 10 (via London).—The German government is able to announce that no German submarine or warship was responsible for the explosion which damaged the British steamship Sussex.

Washington, April 10.—President Wilson returned to Washington at 4:30 Saturday afternoon. A wireless from the Mayflower, on which he left for a Potomac river cruise, informed the White House of his intention to return immediately. No reason was assigned for the sudden change.

Washington, April 10—President Wilson and his cabinet discussed at length the recent attacks on merchant vessels carrying Americans and agreed to defer any decisive steps while awaiting the German government's reply to the inquiry of Ambassador Gerard as to whether German submarines sank the Sussex, Englishman, Manchester Engineer and Eagle Point.

Information Expected Soon.

The President and Secretary Lansing expect the desired information from Berlin to arrive at any time.

President Wilson left Washington on the naval yacht Mayflower taking with him complete data on the Sussex and other cases prepared for him at the state department. Any information will be sent to him immediately by wireless.

Support for Commanders?

Although some ranking officials of the government already have concluded that Germany is deliberately attacking vessels regardless of the rights of neutrals, it is declared authoritatively that the United States cannot question the German government's good faith until full opportunity has been allowed for a response to Ambassador Gerard's inquiries and for a demonstration of whether submarine commanders are supported in attacking vessels contrary to international law.

The administration virtually has concluded that a German submarine torpedoed the Sussex, and officials now consider the principal point at issue to be whether Germany will adequately punish the officer responsible.

COLLECTIONS TO FINANCE CAMPAIGN OF MURDER

Chicago, April 10. — Poison plots against European rulers were further uncovered here by a statement of Edward J. Fleming, one of the assistants to State's Attorney Hoyne, who claims that plans for wholesale assassination have been formulated not only in New York, but in San Francisco, Patterson, N. J., and Lynn, Mass. Fleming would not divulge the name of his informant, who he said was a member of the band.

"Even now," he said, "the anarchists are making collections to finance their campaign of murder.

The state's attorney refused to divulge the identity of the man who revealed the alleged plot and said that his investigators were seeking to confirm the statements.

Dutch Steamer Disabled.

London, April 10.—Lloyds reports that the Dutch steamer Eemdijk from Baltimore March 18, for Rotterdam, has been damaged and is being towed into harbor. All the crew were saved.

Russians Advance on Trebizond.

Petrograd, April 8.—Russian troops are now advancing on the Turkish Black sea port of Trebizond from both the east and south, according to official dispatches received here. In an engagement south of Trebizond the Turks were driven out of fortified positions, which were occupied by the Slavs. In a Black sea naval fight Russian submarines sank a Turkish steamer, convoyed by a torpedo boat, and 11 sailing ships laden with coal. A Russian battleship bombarded at long range the Turkish cruiser Midilla.

PROSPERITY IN WESTERN CANADA

900 Million Dollars in New Wealth Added in 1915.

Canada as a whole has enjoyed wonderful prosperity in 1915, from the products of the farm, the orchard and the centres of industry. No country wrote a brighter page of history in agricultural and industrial development during 1915 than Canada. Nearly a billion bushels of grain produced. Taxes in Western Canada average $24 and will not exceed $35 per quarter section, which includes all taxes. No taxes on improvements.

When Western Canada was faced with her enormous harvest last fall the military authorities decided that soldiers in Canada could give the Empire no better service for the time being than to assist in harvesting the crops. For that reason leave of absence was given to soldiers who wished to work in the harvest fields, and their labor was an important factor in harvesting the big crops successfully.

The necessity for increasing the agricultural production is commanding even more attention in 1916, and it is now announced that soldiers in Canada may obtain leave of absence from their military duties in the spring for a certain length of time to enable them to plant the seed for the crops in every Province of the Dominion.

The fact that the Government recognizes the seeding and harvesting of Canada's crops as being of the first importance is perhaps the best evidence that conscription or any increase of taxes which would reduce the agricultural activity of Canada will never be considered by the authorities.

Owing to the number who have enlisted for overseas service it has been found necessary to secure farm labor in the United States. It is hoped that fifty thousand can be secured.—Advertisement.

Perhaps the best hand a man can hold in the game of life is the hand of some good woman.

LADIES CAN WEAR SHOES

One size smaller after using Allen's Foot-Ease, the antiseptic powder for the feet. Shaken into shoes and used in foot-bath. Allen's Foot-Ease makes tight shoes feel easy, and gives instant relief to corns and bunions. Try it today. Sold everywhere, 25c. For FREE trial package. Address, Allen S. Olmsted, Le Roy, N. Y. Adv.

Anachronism.

Nearly all of the prominent business men of America have some connection with the church; many of them are conspicuous leaders of Christian enterprise. Industrially they are Doctor Jekyll; ecclesiastically they are Mr. Hyde. What use is there in glossing the matter? They are proud of being just and fair where it is an economic necessity; they are brutally callous where it is a religious grace. The employer who dare not rip a faithful but gray-haired mechanic from his lathe and throw him upon the mercy of the community will tear a faithful but gray-haired preacher from his pulpit and drop him upon the lean, cold bosom of charity.—Joseph H. Odell in Atlantic.

Another War Hero.

Mrs. Peck—The papers are full of deeds of heroism performed by men for the sake of their country, but one never hears of a man performing a deed of daring for the woman he loves.

Henry Peck—I'm sure I did, my dear.

Mrs. Peck—You! Why, what brave thing did you do, I'd like to know?

Henry Peck—Why, I—er—let you marry me, d—didn't I?

Broke Poor Father.

First Kid—We got a piano at our house.

Second Kid—So've we. We got ours on the insolvent plan.

HANDY HUSBAND

Knew How to Get Part of the Breakfast.

"'I know one dish I can prepare for breakfast as well as any cook on earth,' said my husband one morning when the cook was ill and he had volunteered to help get breakfast. He appeared with his dish and I discovered it was Grape-Nuts which, of course, was easy to prepare for it was perfectly cooked at the factory, but it was a good illustration of the convenience of having Grape-Nuts about.

"We took up Grape-Nuts immediately after returning from a five years' sojourn in a hot country. Our stomachs were in bad condition and we were in poor health generally.

"In a day or two we liked Grape-Nuts better than any other kind of food on the table. We both gained steadily in health and strength, and this was caused by Grape-Nuts and Postum.

"A friend of ours had a similar experience. She was seriously ill with indigestion and could find nothing to eat that would not give her heartburn and palpitation, especially at night.

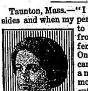
"She found that a small dish of Grape-Nuts with cream made her a satisfactory supper and gave her a comfortable night's rest. In a short time she gained several pounds in weight."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.



Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORIN, 22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential) for free advice which will prove helpful.

Gold Dust by Mail.

A Watertown (N. Y.) man has just received a bag of gold dust, mailed to him from Klondike in 1889, three tags with 20 addresses showing the lengths to which he had gone to prevent that filthy lucre's overtaking him. The flight of the average man from such a peril would make a glacier look like a Fokker aeroplane.

It Never Came Back

Backache Sufferer! Thousands will tell you what wonderful relief they have had from Doan's Kidney Pills. Not only relief, but lasting cures. If you are lame in the morning, have headache, dizzy spells and irregular kidney action, don't wait. Use Doan's Kidney Pills, the best recommended special kidney remedy.

A Minnesota Case

"Every Picture Tells a Story"

Mrs. Anna Bossard, 71 Sycamore St., St. Paul, Minn., says: "No tongue can tell what I suffered from rheumatic pains through my back, hips and limbs. Doctors didn't do me a bit of good and one time I was confined to bed for three months. I was helpless and often screamed with pain. My kidneys were terribly disordered and I gave up hope of getting well. Finally, I heard of Doan's Kidney Pills and they put me on my feet, a well woman. That happened some two years ago and I can still say that Doan's Kidney Pills deserve credit for saving my life."

IN WESTERN CANADA

"He Who Will and Does Work Will Not Want."

As in the United States it is said, that the Mennonites in Canada are very much oppressed, and have to suffer from a great deal (on account of the War in Europe) and I have been requested to write something about this, I will do so.

Does not Fear Oppressions.

I came with my parents A. D. 1874, from Southern Russia to America, South Dakota, and A. D. 1907 I came with my family here to Western Canada, here we have found a healthy climate; the acre yields on an average more and wheat is better than in South Dakota. What concerns the Government, up to now we have had a good one, have been able to live according to our creed and have not been oppressed in any way, and I believe: All Mennonites, who live according to the fundamental beliefs of the Mennonites and to God's word, as their guide, will agree with me.

He, who, here in Canada, will and does work, will not want. So much as an answer.

Remain your friend,
(Sgd.) DIEDRICH GOOSSEN.

Statistical Statement Shows a Dividend of 58% in 1915.

Very few farmers cultivate the habit of keeping careful accounts of their receipts and expenditures, showing at the end of the year a balance, either for or against. The farmer of Western Canada is no exception to this. It is felt if more careful book-keeping were resorted to there that much better results would be obtained and shown. There is the case of the Crowfoot Farming Co., of Crowfoot, Alberta. It has just issued a certified statement of its operations for the years 1912, 1913, 1914 and 1915. This Company has had for the past few years about 1300 acres in wheat and between 200 and 250 in oats. The total operating and general expenses for 1912, including interest at 6% and depreciation at 15%, were $12,587; for 1913 $17,506, for 1914 $18,729, and for 1915, $29,804.43. Expense per acre of land in crop was $7.80 in 1912, $11.57 in 1913, $11.70 in 1914, and $17.87 in 1915. Total receipts were $15,531 in 1912, $30,661 in 1913, $31,589.87 in 1914, and $62,520.26 in 1915. The percentage earned upon capital invested was 6½% in 1912, 30% in 1913, 23 1-3 in 1914, and 50% in 1915, in which year it paid a cash dividend of 58%.

The Company's statement shows that the average date of finishing seeding was April 20th; the average date commenced cutting was August 18th.—Advertisement.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

A good conversationalist lets up occasionally.

What's Doing in Minnesota

Mankota.—George Hood of this county, adopted son of James Lloyd, has received word his father, John Hood, whom he thought dead, is alive. The appearance of the father creates a financial tangle.

Minneapolis. — "Kid" Scully has been found guilty by a jury in district court before Judge Leary of an offense against a 16-year-old girl. When the verdict was read Scully fell fainting to the floor and his wife began screaming in hysteria.

Winona.—A freight train traveling twenty-five miles an hour here performed quite an unusual stunt. The engine bounded off the rails, ran fifty feet on the ties, struck and battered a guard rail at a switch and leaped back on the main track.

Minneapolis will be asked to invest $100,000 to bring the imperial council, Nobles of the Mystic Shrine, to this city in 1917. This amount was fixed at a joint meeting of the executive and campaign committees of the order, following a dinner at the West hotel.

Winona. — Whether William B. Richardson, mayor of Rochester, or George P. Tawney, of Winona, enters the Republican congressional contest in the First district is a question undecided, in spite of a conference held in Rochester.

St. Paul. — Reports received by the Minnesota Public Health association from the National Association for the Study and Prevention of Tuberculosis show Minnesota won first prize for the per capita sale of Red Cross seals in the last campaign for states with a population of from 1,250,000 to 2,400,000.

Walker. — A Cass County Jefferson Highway association, composed of representatives from every village in the county, has been organized in Walker and the sum of $1,000 voted to carry on the work of having this famous highway routed through Cass county over its new hundred-mile Elwell road.

Duluth.—With grain elevators only 500,000 bushels from their capacity, and with grain boats available, officials of a big company have announced their willingness to break up St. Louis bay so that steamers can get under the spouts. No request for such action, however, has come to tug companies, it was said.

Fergus Falls.—B. E. Belleson, secretary of the Stavenger-Laget of America, was here, conferring with local citizens, relative to the annual reunion of the society here June 21, 22 and 23. The largest auditorium here will be inadequate to accommodate the gathering and the meetings will be held in a tent. It is expected 5,000 persons will attend.

Walker. — The Cass County Development association is planning the largest meeting in its history here this month. President M. N. Koll of Cass Lake has announced the program, which includes addresses by Fred D. Sherman, commissioner of immigration; Senator P. H. McGarry, Carlos Avery, state game commissioner, and others.

Minneapolis.—With Governor Burnquist, Dr. Cyrus Northrop, Archbishop Ireland, Judge Fish and others firing broadsides of patriotism and preparedness amid Yankee battle yells of the days of '61, members of the Grand Army of the Republic in Minneapolis and St. Paul celebrated the fiftieth anniversary of founding of the order in Memorial hall, courthouse, guests of the John A. Rawlins' post.

Duluth. — Five thousand Elks and members of their families will be guests of Duluth Lodge No. 133 for the twelfth annual convention of the Minnesota State Elks' association, to be held here June 14 and 15. Preliminary plans for the annual gathering are now being made by the local lodge and indications are that the convention will bring to this city the largest crowd that ever assembled here at any one time.

Red Wing.— Michael Carbonare, an 18-year-old laborer, was killed and 15 other workmen were injured in a collision between freight and constructions trains in the Milwaukee yards here.

The crew of the switch engine, which drew the freight train, escaped the crash by jumping. A caboose and three bunk cars on the worktrain were telescoped. The wreckage caught fire. Carbonare died a few minutes after being taken to St. John's hospital here.

St. Paul.—Walter J. Smith, former state treasurer of Minnesota, has pleaded guilty to a charge of second degree grand larceny and has been sentenced to serve an indeterminate term of not less than one year nor more than five years in the state penitentiary at Stillwater. His crime was the misappropriation of $18,000 of state school funds by means of a forged Aitkin county school district warrant. R. C. Picket, former clerk in the State Auditor's office, pleaded guilty to forgery in the third degree; penalty one to five years.

St. Paul. — Mrs. Aniela Dudek, confessed slayer of Father Henry Jajeski, former pastor of St. Casimir's church, is an inmate of the state hospital for the insane at St. Peter, being committed just a month from the day she shot down the priest in the church confessional.

St. Paul. — The grain growers of the Northwest have fixed upon December 5, 6 and 7 as the dates for the next big farmers' convention in St. Paul, and a feature of the convention will be the dedication of the St. Paul terminal elevator, which will be in full operation at that time.

Hutchinson. — The "lid" is still on

BIG BALANCES IN STATE TREASURY

FUNDS MORE THAN DOUBLED IN YEAR ACCORDING TO QUARTERLY REPORT.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

Minnesota's cash boxes bulged with big balances at the beginning of a new calendar quarter. State Treasurer A. C. Gooding reported a cash balance of $5,191,325.08 compared with $2,531,967.67 a year ago. State checking accounts in banks total $1,033,278.53; and deposited in country banks is $887,224.21, while there is $621,464.93 in the treasury vault at the capitol. The general fund balance of $2,522,666.87 is more than $1,450,000 greater than a year ago.

There was a legislature this winter and that is the reason for some gains in cash balances. Early last year there was a final payment of $500,000 on the state capitol which reduced the state's cash. Large credits in permanent school funds, notably from the recent sale of investment securities in those accounts, further swelled cash balances.

Loans of permanent school funds during the last month totaled $563,000 and prospects are that the April loans of like funds will exceed $1,000,000, applications for more than $2,000,000 being on file now.

Reports Timber Steals.

Irregularities in timber scaling resulting in a loss to the state of several thousand dollars have been reported to the State Timber Board by Oscar Arneson, chief of the timber bureau in the state auditor's office. The meeting was attended by Governor Burnquist, Attorney General Lyndon A. Smith, State Treasurer A. C. Gooding and State Forester W. T. Cox. The Rat River Timber Company of Ericksburg, near International Falls, profited from the irregularities, it was charged.

John Cashin, a state timber scaler under Surveyor General S. C. Gribner of Duluth has been discharged.

Charles Sutcliff, manager of the Rat River company denied collusion with the state employe and told the board that his company will make good any loss the state has suffered. He also offered to increase the company's bond to cover any emergencies.

Mr. Arenson's report covered the results of an investigation he began ten days ago, he said.

* * *

Farm Buildings Cost $20,000,000.

An unusually large number of farm buildings are being constructed on Minnesota farms this spring, according to A. D. Wilson, director of the agricultural extension division of the University of Minnesota, who has returned after a three weeks' tour of the state. This, he says, is an indication that the $40,000,000 shortage in the corn crop of last year has been compensated by the good prices farmers obtained for grain and live stock.

"During the past four years Minnesota farmers have put $20,000,000 into farm buildings. There will be no seed corn scarcity this year or at least not a general need."

* * *

Banks' Growth Is Steady.

The increase in bank deposits in Minnesota banks has been practically a steady and uninterrupted march of progress for thirty years. Bank deposits are the index to the prosperity and advancement of the citizenship of a community, and are so considered everywhere. A. H. Turrittin, superintendent of the department of banks of the state has some figures on increase in deposits in Minnesota that are of the most convincing nature and mark a wonderful stride in finances in the state.

* * *

Lower Insurance Rates.

Lower insurance rates in 470 towns and villages in northeastern Minnesota are to become effective immediately through extension to that section of the agreement between Samuel D Works, state insurance commissioner, and Manager Walter I. Fisher of the general insurance bureau, Minneapolis according to the commissioner's announcement.

* * *

State Appeals Case.

Julius A. Schmahl, secretary of state, has declined to comply with the order of District Judge Brill to accept $1,920 instead of $4,775 fees for the increased capitalization of the Tri-State Telephone and Telegraph company. Attorney General Lyndon A. Smith has filed notice of an appeal to the state supreme court.

* * *

Road Work to Cost $2,228,500.

George W. Cooley, state engineer, has estimated that the amount of road work under state aid to be done during 1916 in Minnesota will be 1,945 miles of grading; 705 miles of graveling and 1,823 concrete culverts, and that the cost of the work in Minnesota will be $2,228,500. The estimate is based on reports of proposed work from 69 of 86 counties of the state showing that 1,560.56 miles of grading, 564.95 miles of graveling and 1,463 concrete culverts are to be built this year at a cost of $1,787,936.36.

CLAIMS THAT SWAMP-ROOT SAVED HER LIFE

About nine years ago I had Rheumatism so bad that I was in bed for six weeks. I was not able to raise my head to take a drink of water. I was unable to move my hands or feet, and my back would hurt me so that words could not tell what I suffered. I saw Dr. Kilmer & Company's advertisement of Swamp-Root and I decided to try it and commenced to improve with the first bottle. I continued on with the use of Swamp-Root until I was restored to good health. I am now 67 years of age and I do my own house work for four in the family; also I do my own washing. I have not been troubled with the Rheumatism for the last eight years. I cheerfully recommend Dr. Kilmer's Swamp-Root to others as I believe it saved my life.

Very truly yours,
MRS. EMMA A. BOGGS,
1000 N. 9th St., Independence, Kansas.

State of Kansas, } ss:
County of Montgomery }

Before me, C. L. Jukes, a Notary Public in and for said County and State, personally appeared Emma A. Boggs, to me known to be the identical person who executed the within and foregoing instrument of writing, and acknowledged to me that she executed the same as her free and voluntary act and deed for the uses and purposes therein set forth.

In testimony whereof I have hereunto set my hand and affixed my Notarial Seal the day and year above mentioned.

C. L. JUKES, Notary Public.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

A successful fool doesn't realize that he is one.

It always amuses a woman when she sees a man posing as a wise guy.

For any sore use Hanford's Balsam. Adv.

The average man wants others to see him as he sees himself.

New Strength for Lame Backs and Worn-out Conditions

Dear Mr. Editor:

I suffered from lame back and a tired, worn-out feeling. Was unable to stand erect and scarcely able to get around. It would usually come on at first with crick in small of my back. I took Anuric Tablets and my back commenced to get better. I did not have to walk doubled over as I did before using the "Anuric." It is the best remedy I have ever taken for what it is intended to relieve.

A. G. DRAKE.

NOTE:—When your kidneys get sluggish and clog, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar.

Ask the druggist for "Anuric," put up by Dr. Pierce, in 50-cent packages.

FROM GIRLHOOD TO OLD AGE WOMEN ARE HELPED

At the first symptoms of any derangement of the feminine organism at any period of life the one safe, really helpful remedy is Dr. Pierce's Favorite Prescription for every conceivable ailment and disease of a womanly nature. It is a woman's temperance medicine and its ingredients are published on wrapper.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial and at times of pain when the organs are not performing their functions. For headache, backache, hot flashes, catarrhal conditions, bearing down sensations, mental depression, dizziness, fainting spells, women should never fail to take this tried and true women's medicine.

Entered as Second-class matter August 30 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879

DOES NELSON WANT WAR?

We do not like a mud throwing campaign, and it seems strange that the opponent of Mr. Steenerson for the Republican nomination for Congressman from this district should open his campaign by making an attack on the present Congressman for his vote on the Wilson high sea policy. If Steenerson is wrong on this vote then every Republican Congressman, and Senator Clapp from Minnesota are wrong, and Senator Cummins of Iowa, Republican candidiate for president also voted the same way. Senator Nelson alone voted to indorse the president, and about that time Knute sent out a circular stating how many Norwegian and Swedish ships had been sunk by German submarines, which might have placed our senior Senator in a frame of mind that made him feel as though he would like to see the United States take a hand in the mix up, and that is just what he voted for.

Any American that wants to go to Europe can easily obtain passage on a first class American steam ship that floats the stars and stripes, and he is just as safe to cross the ocean now as he was before the war, so far as attacks from German submarines are concerned. Whether the policy of President Wilson brings this country into war with Germany or not, Congressman Steenerson will be indorsed by the Republican voters of the 9th district for his vote in trying to prevent war.

Listen to what Herman Rasenfield, advertising manager of Sears, Roebuck & Co., recently told the members of the American Ad club at a convention: "We have a bureau whose duty it is to read each week the country newspapers from all over the country. There is not a paper of any consequence in our trade territory that our bureau does not get. This bureau looks over these papers and when we find a town where the merchants are not advertising in the local paper we immediately flood that territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers."—T. R. Falls News-Press.

We now know why this territory is flooded so thick with Sears, Roebuck & Co. catalogs, for while the town of Highlanding has a newspaper that circulates to nearly every state in the Union, you would not know that there was a store doing business in eastern Pennington County by looking through its columns. It is unnecessary to add that we do not spend a very large amount of space advising the people not to patronize Sears, Roebuck & Co. We are not suffering for the want of the advertising, and can stand it to let Sears, Roebuck & Co. and the wholesale peddlers rake in the cash from the good payers, while the local dealers credit the other fellows for their goods.

Theodore Roosevelt is still the first choice of Minnesota Republicans for the presidency according to a straw vote taken by the Minneapolis Journal. The leaders in the poll were as follows:

Roosevelt	6,284
Hughes	3,320
Cummins	1,576
La Follette	571

Twenty years ago we were having good old Democratic times with a vengeance, without a war to affect prices. The figures are by the Twin Valley Times in their "Twenty Years Ago" column. Eggs 7c a dozen, butter 7c a pound, wheat 47c, barley 19c, oats 15c, hay $2 a ton. It is needless to say Cleveland was not re-elected. And we might add that good cows were selling from $14.00 to $16.00 per head, at that time, and that farmers are not going to vote for the re-election of Wilson, and it is needless to say that he will not be re-elected.

And now comes Congressman Lindberg, as a candidate for U. S. Senator from Minnesota with the statement that he is coming up into Minnesota to tell the people just what has been wrong with national legislation in the past, and that he would promptly remedy all the evils, if they would elect him for Senator, instead of Representative, and all the reason, was, that he had not done this before was because he was only a Congressman instead of a Senator.

We are wondering if the Carranza, so called government of Mexico will dictate to President Wilson, when and how to get the American soldiers out of Mexico; Carranza's has intimated that the American troops should now be withdrawn, but if the present administration withdraws those troops before they get Villa, there will be an American administration that will get him next year.

We are of the opinion that our jovial and efficient Clerk of District Court need not do a great amount of worrying should he be required to be re-elected this year, as about all he will have to do is to file and pay the filing fee, and the people will do the rest.

The Supreme Court was to pass on the constitutionality of the four year term law the last of this month, and when they do, they must either turn down the Constitution of the State of Minnesota or the law.

The sixth congressional district has a Democratic candidate for Congress, but the candidates of that party do not seem inclined to tackle the ninth district to obtain a seat in Congress.

THE ACHES OF HOUSE CLEAING.

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore parts. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain. 25c. at Druggist.—Advertisement.

FINE FARM FOR SALE

Desiring to change location, I will sell my farm the S. W. 1-4 Section 15, Town of Deer Park, for $25.00 per acre. OUR PUBLIC FORUM

Chas. C. Prouty

ON THE SHIPPER AND THE RAILROAD.

Chas. C. Prouty, while a member of the Interstate Commerce Commission, in discussing the relation of the Commission to the shipper and the railroad, said:

"The original purpose of the Interstate Commerce Act was to protect the shipper. The most eminent man who ever sat on the Interstate Commerce Commission was its first chairman, Judge Cooley, and very early in the history of that commission Judge Cooley published an opinion in which he said that the business of the commission was not to enable railroads to maintain reasonable rates, but to protect shippers against the imposition of unreasonable rates. Now I think since Judge Cooley published that opinion conditions have changed. I think that today it is just as much the duty of the Commission to see that the railroads are given reasonable rates which will yield to them a fair return, as it is to see that no unreasonable rate is charged the shipper, and I believe this is in the highest interest of the shipper himself.

"At the basis of all right thinking about this subject lies the fact, very often stated, very little apprehended, that the railroad is a public servant. The property is private property, but the thing done is a governmental function. It is done by the government in most European countries. Now, if the government is the master, and if the railroad is the servant, the servant cannot properly discharge its duty unless the master, instead of hampering and discouraging, sees fit to assist and foster.

"You understand that if the business of this country is to develop the railroads must develop also. You also understand that in the case of many railroad systems, and perhaps most railroad systems, their business is developed up to the point where but little additional business could be taken on, with the present facilities.

"Now where is the money to come from with which this is to be done? Where did the money come from that built the railroads of this country? It came from the private investor; it came from exactly the same source that the money comes which operates your business, which operates every other business. And why was that money put into railroads? It was put into railroads because the people who put it into those railroads believed that it would pay a return. This money which must be had by the railroads of this country has got to come from this one source—private investors. In the past, railroads have been able to borrow whatever their necessities required. Railroad stocks have been a favorite form of investment. Railroad bonds, next to municipal bonds, have sold higher than any other securities. Now, if that is to continue, it must be because the railroads make such earnings as will justify the investment."

U. S. Mail,

AVOID SPRING COLDS

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.—Adv.

KEEP YOUR SKIN CLEAR AND HEALTHY.

There is only one way to have a clear healthy complexion and that is to keep the bowels active and regular. Dr. King's New Life Pills will make your complexion healthy and clear, move the bowels gently, stimulate the liver, cleanse the system and purify the blood. A splendid spring medicine, 25c, at your Druggist.—Advertisement.

HISTORICAL
SOCIETY

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, APRIL 21, 1916. NO. 6

THE LOCAL NEWS

Charles Clark and family left for Anamoosa, N.D. last Monday, where they will make their future home.

The Lost River, has shown itself so much in sight north of Oklee, that people have not been able to cross the bridge at that point for some time.

FOR SALE: On my farm, in the town of Kratka, I have [illegible] ton of fine No. 1 timothy hay, at $[illegible] per ton cash.
C. Peterson, Kratka, Minn.

The bridge across the Clearwater River, north of Plummer washed out last Friday night, closing the mail route from the north into that village.

Fish are very plentiful this spring, but they are going out of the river into the ditches, as we see fish jumping up above the water two miles from the river on ditch 53 Wednesday.

The Thursdays rain has again delayed seeding, and the farmers are beginning to look at the calendar and consider the lateness of the spring, but never mind boys, sow as early as you can and trust northern Minnesota to do the rest.

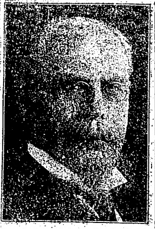
The attempt to build a levee to hold the waters of the Red Lake River in the channel in town of Hickory was a dismal failure, as the whole country around it is now flooded with water, with no place to mark the spot where the money was sunk to make the improvement.

The Red Lake River seems to be going down rather slowly, and the water is backed up into the drainage ditches for two and three miles in some places, and on section 10 in Deer Park township a portion of the water is going across country to the Clearwater river.

Do not be of the opinion that we are not quietly working to get a bridge across Red Lake river, at Highlanding, but our experience in the past teaches us to manage affairs of this kind without any amount of publicity, but we will soon have our monkey-wrench ready to throw into that navigable river deal, which has worked so slick in the past to prevent the eastern end of the county from getting their share of the road and bridge fund.

The Highlanding ferry broke loose last Sunday night and went down the river as far as Peter Wolds place, where it was caught and tied to the bank of the river. We do not know how it can be got back to where it belongs, but it don't matter much if it never gets back, if it is left the way it was last summer, and the people can face the facts as they are; that there is no way to get across Red Lake river east of Thief River Falls, only with row boats.

The present indications, are, that this country will soon sever diplomatic relations with Germany, which of course is the first step toward war. If war comes, it will be brought about by the policies of President Wilson and the present administration. Then we can have a chance to contribute a few hundred thousand of our best young men of America to be torn to pieces in the trenches, just to show Germany that some fool hardy, leisure rich, pimple head can travel through that war zone on an armed English ship if he wants to, and be protected. Of course Wilson will come through the war without a scratch, but how about our young farmer boys, who must get into the trenches?



STEENERSON FILES

WILL MAKE THE RACE FOR CONGRESS

St. Paul, Minn., April 17—Halvor Steenerson, of Crookston, today filed as a candidate on the Republican ticket to succeed himself in congress.

Mr. Steenerson's opponent for the Republican nomination is A. O. Anderson, of Fergus Falls, who has been elected as one of the District delegates to the Republican National convention. Mr. Widstine, of Warroad, Steenerson's committeeman being the other delegate elected from this the ninth Distrist.

AUGUST J. WENTZEL DROWNED.

August J. Wentzel, 38, a farmer residing at Fisher, and his son Paul, 13, were drowned in Red Lake river shortly after 10 o'clock Monday while engaged in attempting to save some cord wood and lumber which was floating around in the barn yard there.

Mr. Wentzel and his son had converted a square wagon water tank into a boat which they placed the wood as gathered. In some unaccountable manner the water tank tipped and in the next second father and son found themselves struggling in the icy water, at a depth of eight or nine feet.

After the boat tipped Mr. Wentzel was seen to come to the top of the water. At that time he had his son in his arms, but before he could cry for help he sank from sight, it being believed that the sudden shock caused by being thrown into the chilly waters brought on a severe cramp which he could not shake off.

Owing to the fact that the water in the barnyard did not have a current and also that a wire fence enclosed the place it did not take long to locate the body of the boy, which was found against one of the fence posts, while the body of his father was found only a few feet away.

Artificial means of resuscitation were employed as soon as the bodies were removed from the water, but to no avail. It was estimated that both bodies were in the water for a period of 45 minutes.

Friends and relatives of the dead man in Crookston and Fisher were notified immediately of the double drowning and several automobiles filled with friends and physicians from Crookston at once made a dash across the country in the hope that something could be done to bring both back to life. The pulmotor owned by the city was taken along, but was not used as both had been dead for over an hour when the machine arrived there.—Crookston Daily Times.

August J. Wentzel, was one of the early homesteaders of the town of Highlanding, and has many warm personal friends in this locality, who sincerely sympathize with his wife and family, in their sad bereavement.

"Well, goodness knows the international laws need a lot of doctoring."

THE WONDERFUL MAGIC WASHING STICK

The Magic Washing Stick, the greatest helper woman ever had with her washing, and I have been singing its praises to my neighbors, writes Mrs. Mollie Martin, Route 3, Apache, Okla. It is truly a wonderful article saving all the washboard labor on washday. 15 washings 25c. Sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

Dangerous.

"What is this man charged with?" asked the magistrate.

"Dynamite!" was the unanimous reply of the six cops who had made the arrest.

STOP ITCHING INSTANTLY

With Cuticura Soap and Ointment. Nothing Better. Trial Free.

Bathe the affected part with Cuticura Soap and apply the Ointment. For eczemas, rashes, irritations, pimples, dandruff and sore hands Cuticura Soap and Ointment are supreme. Nothing better, cleaner or purer than these super-creamy emollients at any price.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Poor Percy.

At a dance Percival Claude was presented to a beautiful young girl from an adjoining town, and during the evening it was his great happiness to lead her out among the papier mache palms for ice cream and angel cake.

"And so," said the girl, in response to Percival's story of his life, "you have never married?"

"No," answered Percival, "I shall never marry until I meet a woman who is my direct opposite."

"That should not be hard," returned the pretty one with a faint smile. "There are bright, intelligent girls in every part of the town."

Dressed Wife as Widow.

Realizing that he was dying, Karl Kellams, three days before his death, asked his wife to buy a black mourning dress and veil so that he could see her as she would appear at the funeral. To satisfy him, Mrs. Kellams dressed in mourning and stood at his bedside. Kellams had been sick of tuberculosis for some months. He recently returned from Phoenix, Ariz., where he had gone in the hope that the change in climate would benefit him.—Philadelphia Record.

Unusual Celerity.

A lady who had just received an interesting bit of news said to her little daughter:

"Marjorie, dear, auntie has a new baby, and now mamma is the baby's aunt, papa is the baby's uncle, and you are her little cousin."

"Well," said Marjorie, wonderingly, "wasn't that arranged quick?"—Boston Transcript.

Never eat pie with a knife. It's proper to eat cheese with pie, but knives should be eaten alone.

How we dislike to pay for things after we have worn them out.

GOOD REPORT

Doctor Proved Value of Postum.

Physicians know that good food and drink, properly selected, are of the utmost importance, not only for the relief of disease but to maintain health even when one is well.

A doctor writes, "I count it a pleasure to say a good word for Postum with which I have been enabled to relieve so many sufferers, and which I count, with its valued companion Grape-Nuts, one of the daily blessings.

"Coffee was banished from my own table some time ago and Postum used regularly in its place." (Coffee is injurious to many persons, because it contains the subtle, poisonous drug, caffeine.)

"I frequently find it necessary to instruct patients when they take Postum for the first time to be quite sure that it is properly made according to directions, then it has a clear, seal-brown color and a rich, snappy taste, as well as health giving qualities.

The above letter, received over ten years ago, is fully confirmed by a recent letter from the doctor, in which he says:

"It is a pleasure to render a good report covering a product of which I am so enthusiastic a friend.

"I am using in my home your Postum Cereal in both its forms. And, what is more, I am having it used in the families of several patients in which there are children, and all unite in endorsing the fine qualities of your admirable product."

Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c pkgs.

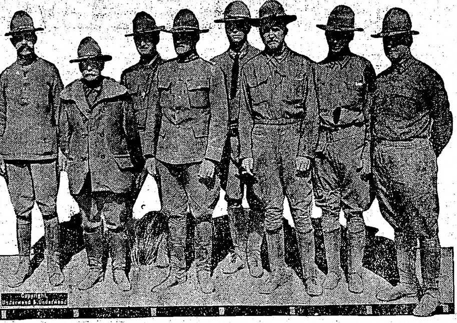
Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

GENERAL PERSHING AND HIS STAFF



This photograph of General Pershing and his staff was taken at one of the camps in Mexico. Left to right are: Col. L. G. Berry, Fourth Field artillery; Col. De R. C. Cabell, chief of staff; Lieut. M. C. Schellenberger, personal aid to General Pershing; Gen. John J. Pershing; Lieut. George S. Patton, aid; Maj. J. I. Hines, censor; Maj. J. B. Clayton, chief of medical officers; Capt. W. B. Burt, assistant chief of staff.

VILLA DEAD, BODY HELD BY MEXICANS, IS REPORT

CARRANZA OFFICIAL CALLS PUNITIVE EXPEDITION ILLOGICAL —HAS ACCOMPLISHED ABSOLUTELY NOTHING.

TERMS PARRAL INCIDENT LAST DROP IN THE BUCKET

Believes American People Realize Its Full Significance and Declares Presence of American Troops Incites Mexicans—Enemies Trying to Cause Complications.

Mexico City, April 17.—The Mexican government will insist with inflexible determination that any armed expedition of the United States which enters Mexican territory in the guise of a punitive expedition, must be limited to 1,000 men of one service alone, cavalry, according to a statement made to the Associated Press by Juan Neftali Amador, sub-secretary of foreign relations.

Parral Incident Is Cited.

"The Parral incident is a case in point," said Amador.

"I consider this happening the last drop in the bucket and believe that when the American people and the American government realize its full significance, they will gladly accede to Mexico's request, and in the interest of peace, and, in line with the traditional friendship which exists between the two countries, will withdraw the troops.

SENATE FOR NITRATE PLANT

Votes for Amendment to Army Bill—Provides $15,000,000.

Washington, April 15.—Champions of a government hydro-electric plant to produce nitrate for the manufacture of war munitions and fertilizer won their fight in the senate by inserting an amendment proposing an appropriation of $15,000,000 for that purpose into the Chamberlain army increase bill. The vote was 43 to 22.

THREE AMERICANS SLAIN BY BANDITS; ONE SPARED

Mazatlan, Mex., April 17.—Censored details of the murder by Mexican bandits of F. C. Burke, Roderick Davidson and Walter Wallace, Americans, and a Spanish railroad conductor, south of Rosario, were told yesterday by V. H. York, an American of the party to whom the bandits gave liberty because they could not find a spot to place a bullet without killing women and children clinging to him.

Burke handed a child in his arms to his wife as the robbers, nine of them, slid down an embankment. A second later he fell dead with two bullets in his body and the women and children then clung to York, who tried to shake himself free to protect them, not realizing it was they who had saved his life.

Crookston Bridge Carried Away.

Crookston, Minn., April 17.—The Red Lake river is steadily rising, having gained nearly a foot during the night. Ice carried away the new steel bridge over the river between this place and Gently and the old bridge a mile farther down is doomed. Many basements are flooded and a number of outbuildings have been carried away. Many barns and garages are untenable. The Northern Pacific bridge here is threatened. In rural districts the water is rapidly disappearing.

MEXICAN WAR OFFICE IS TOLD OF VILLA'S DEATH

Mexico City, April 17.—Villa's dead body has been dug up out of a two weeks' old grave by Charles Carranza, nephew of General Carranza, the first chief of the Constitutionalists, and is now being brought by him and an escort of soldiers to the city of Chihuahua. This information was contained in a telegram received by the war department.

TO WITHDRAW U. S. FORCE AT ONCE IF VILLA IS DEAD

Administration Officials Make Unqualified Statement—Must Have Complete Identification.

Washington, April 18. — American troops will be withdrawn from Mexico immediately if Francisco Villa is dead. Administration officials made this unqualified statement, commenting on reports from Mexico sources that the bandit's body had been discovered and was being taken to Chihuahua City by special train.

Neither the state nor war department had any confirmatory advices on the subject from American sources. Reports reaching El Paso and other border points were forwarded for information, but neither American consuls nor military authorities in Mexico were heard from.

Officials would not discuss what proof they would deem necessary to establish the fact that the body mentioned in these reports is that of Villa. It is certain, however, that every effort will be made to obtain so complete an identification as to make sure beyond reasonable doubt that the man who waged war with a few hundred bandits against the United States and the de facto government of Mexico simultaneously has paid the penalty.

RICHARD HARDING DAVIS DIES

Author and War Correspondent Stricken Suddenly at Telephone.

Mount Kisco, N. Y., April 13.—Richard Harding Davis, author and war correspondent, died at his home here from heart trouble.

His body was found and he apparently had been stricken while at his telephone.

Mr. Davis returned only a few weeks ago from Europe, from which country he contributed articles on the war to the New York Times, St. Louis Post-Dispatch, Chicago Daily News, Minneapolis Journal and other papers.

ASSISTANT WAR SECRETARY

Meredith Nicholson Practically Agreed Upon by Wilson and Baker.

Washington, April 13. — Meredith Nicholson of Indianapolis, an author, practically has been agreed upon by President Wilson and Secretary Baker for appointment as assistant secretary of war. Mr. Nicholson is a close personal friend of Mr. Baker and is understood to have the support of Vice President Marshall.

Woman Dead in Poison Mystery.

New York, April 17.—New York has a new poison mystery, one which the police vaguely hint may result in sensational developments. Mrs. Mabel E. Hodge is dead and Margaret Lehah, an actress, is in a serious conditon at Bellevue hospital. Morphine poisoning is given as the cause. The women were found in Mrs. Lahah's rooms in a fashionable apartment house, one that houses John Mason, the actor, Robert Menges Corwin Tearle, "the pearl of Sheepshead bay," and Effie Pope.

REMAINS DISINTERRED SEVERAL DAYS AFTER BURIAL BY CARRANZA TROOPS, UNOFFICIAL MESSAGES ASSERT.

DISPATCHES ACCEPTED WITH RESERVE BY BELL

Bandit Chieftain Died From Wounds According to Rumors Current in Juarez—Body Being Taken to Chihuahua By Carranza's Nephew.

El Paso, Tex., April 18.—Francisco Villa is dead and his body, disinterred some days after his burial, is in possession of the Carranza troops, according to a series of telegraphic messages received in Juarez by the Mexican officials.

For more than a week reports that Villa had died from wounds have been current both here and in Juarez. The latest accounts were the most circumstantial and apparently reliable yet received. They were accepted with reserve by American officials, including General Bell, but the Mexican officials expressed confidence in their reliability. The messages, in the order in which they were received were as follows:

Overhears Conversation.

"The dispatcher of the Mexican Northwestern railroad at Juarez, reported to General Gabriel Gavira, Carranza commander at Juarez that he had heard a conversation over the telegraph wires to the effect that Villa's body was in the hands of the Carranza troops."

General Gavira notified Consul Andres Garcia here who rushed messages to the telegraph operators at Madera and Cusihuirachic asking for confirmation.

Operators Confirm Report.

The Madera and Cusihuirachic operators answered, confirming the report and stating the body was being taken to Chihuahua.

The telegraph operator at San Antonio, 50 miles west of Chihuahua wired Consul Garcia that Villa's body was in possession of Colonel Carlos Carranza, nephew of General Carranza, who was taking it in a special train to Chihuahua.

In reply to these messages, telegrams were sent to the Carranza general in the field and officials in Mexico City, Chihuahua and other points asking confirmation but no answers have yet been received.

Villa Has Blood Poisoning.

Apart from the telegrams sent here there are some known facts which have been pointed out by Mexican officials as lending strong support to the report that the bandit chief's career had been closed by death.

These facts are: That Villa has been suffering for more than a year from a virulent form of blood poisoning. He was treated for this disease while in Juarez, by Dr. W. L. Brown, one of the best known physicians in El Paso.

U. S. Troops Disarm Peons.

Columbus, N. M., April 15. — Many Mexicans along the American line of march in Mexico have been disarmed by the United States forces, according to arrivals at the border. General J. J. Pershing, it was said, regarded this step as necessary to the protection of his command since he has received reliable information that numbers of Villa's scattered followers are infesting the route. Colonia Dublan is being made the most of in the long chain of bases in Mexico, it is said.

SWAMP-ROOT SAVES KIDNEY SUFFERERS

You naturally feel secure when you know that Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, is absolutely pure and contains no harmful or habit producing drugs.

The same standard of purity, strength and excellence, prescribed by Dr. Kilmer many years ago, is maintained in every bottle of Swamp-Root.

Swamp-Root is scientifically compounded from vegetable herbs. It is not a stimulant and is taken in teaspoonful doses. It is not recommended for everything. According to verified testimony it is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

If you suffer, don't delay another day. Go to your nearest druggist now and get a bottle. All drug stores sell it in two sizes—fifty cents and one dollar.

However, if you wish first to try this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which, if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate from any druggist or storekeeper. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do. —Adv.

His Choice.

"Six days or six dollars," said the judge sternly.

"I'll take six dollars," said the prisoner. "I've got enough time on my hands as it is."

THE MAGIC WASHING STICK

"The Magic Washing Stick is the finest thing in the world. Cleans the clothes without rubbing—makes the whitest clothes I ever saw. I cannot do without it any more. All you say is true, it does all you say it will. I would give it for nothing I have ever used. Hope every lady will try it," writes Mrs. W. F. Gammill, Ashdown, Ark. 15 washings 25c. This peculiar article is sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

Perilous Waters.

"She is very shallow."

"That may be; but more than one man has gone beyond his depth chasing her."

You never realize how dearly you have paid for your whistle until you try to sell it.

Meat Makes Bad Kidneys

Too much meat is just as bad as not enough. Such a diet is apt to load the blood with uric acid and to injure the kidneys. Bad backs, blue, nervous spells, dizziness, rheumatic pains, and bladder troubles indicate weak kidneys; foretell danger of gravel and Bright's disease. Don't neglect this condition. Use Doan's Kidney Pills.

A Minnesota Case

"Every Picture Tells a Story"

Anthony P. Kern, R. R. No. 7, Faribault, Minn., says: "I had kidney trouble from childhood, and as I grew older I was so miserable that life was a burden. I had terrible dizzy spells and my back was very painful. I became a total wreck, unfit for work. Doan's Kidney Pills gave me a new lease on life, restoring me to good health."

AMERICAN NOTE ON U-BOAT WAR IS READY TO GO

WILSON DEVOTES NEARLY ENTIRE DAY TO COMPLETING COMMUNICATION TO GERMANY.

EMPHATIC DECLARATION; FINAL WORD ON SUBJECT

German Officials Greatly Perturbed Over Situation, According to Press Dispatches—Two More Vessels Attacked by Submarines and Americans Endangered.

Washington, April 18.—The communication in which the United States will call Germany to account for the numerous recent submarine attacks on merchant ships carrying American citizens is understood to be ready for transmission to Berlin. Officials indicated that it might go forward at any time.

President Wilson devoted nearly the entire day to completing the case of the United States for presentation to the German government. He had before him a mass of evidence and memoranda submitted by the state department.

Declarations Are Emphatic.

The communication in its completed form, it was said authoritatively, is to be emphatic in its declarations, and possibly will recall statements made by the United States in previous correspondence on the subject of submarine warfare. It is designed to be the final word of this government on the subject.

German Officials Anxious.

Press dispatches indicating that German officials were much perturbed over the situation were widely commented upon in official quarters. It was said in the dispatches that additional instructions had been sent to Count Von Bernstorff, the German ambassador, and that Ambassador Gerard had conferred with officials of the Berlin foreign office. Secretary Lansing said Mr. Gerard had not reported.

Two More Ships Attacked.

It is known that the state department expects more information in regard to the cases of the steamship Margam Abbey and the bark Inverness, reported attacked Saturday.

The lives of American citizens on both ships were endangered, and both cases may be included in the communication before it is dispatched to Berlin.

SHIPS LEGALLY SUNK BY U-BOATS, GERMANY SAYS

Vessels Torpedoed in Accordance With Rules of War—Believes Sussex Struck Mine.

Berlin, April 14 (by wireless).—The German reply to the American note concerning the damaging or sinking of five steamships contains the statement that the steamers Englishman, Eagle Point, Manchester Engineer and Berwindvale were destroyed by German submarines. Evidence is presented to show that these vessels were torpedoed legally in accordance with the rules of war.

The note states that a German submarine torpedoed a steamship in the vicinity of the place at which the channel steamship Sussex was damaged by an explosion, but that evidence at hand indicates that the vessel torpedoed by the submarine was not the Sussex.

Captain's Sketch Cited.

The commander of this submarine, the note says, made a sketch at the time. This sketch has been compared with a photograph of the Sussex and has been found to show dissimilarities in build, arrangement of stacks, etc. Therefore, it is presumed a mine was responsible for the damaging of the Sussex. In the way of corroboration, it is stated that German naval forces destroyed 26 floating mines on that day.

Regarding the cases of the Englishman, Manchester Engineer, Eagle Point and Berwindvale, it is stated they were signaled to halt, but disregarded the signals. Thereupon warning shots were fired.

Crew's Safety Assured.

The statement is made that the submarine commanders assured themthemselves before sinking the ships that their destruction was justified and that the crews were safely in boats, no man being left aboard the vessels.

Wilson Indorses Booth Campaign.

Washington, April 15. — President Wilson telegraphed to Miss Evangeline Booth, commander of the Salvation Army, indorsing a campaign to raise $500,000 for a memorial to her father, the founder of the Army. Miss Booth sent word to the president that the money would be used to provide in New York a new hospital building for the Army's rescue home for unfortunate women and a suitable training school building for the equipment of officers of the organization.

GOVERNOR J. A. A. BURNQUIST

Governor Burnquist in announcing his candidacy for re-election emphasizes his attitude on efficiency and economy in state government.

BURNQUIST FOR RE-ELECTION

TO EMPHASIZE CLAIMS ON EFFICIENCY PROGRAM.

Minnesota Governor in Seeking Republican Nomination Will Call Attention to Past Record.

St. Paul, April 18.—In seeking the Republican nomination for governor of Minnesota, Governor J. A. A. Burnquist will emphasize his claims for recognition on his past performance in the promotion of efficiency and economy in state government. Announcement to that effect has just been made.

"Efficiency and economy," a phrase that has become the sine qua non of all political platforms of candidates in Minnesota during the past few years, will soon be echoed and re-echoed throughout the state.

Governor Burnquist and his friends say that in dealing with the problem they will call attention to his past record. They admit that there is no "burning issue" over efficiency and economy, but add that past performance is the thing that counts.

U. S. PROSPERITY GREATER TODAY THAN EVER BEFORE

Resources of American Banks Exceed Those of All Belligerent Nations Combined.

Washington, April 14. — Financial prosperity and strength is greater in the United States today than ever before and is rising rapidly to new levels, according to the interpretation placed by the comptroller of the currency on figures made public here showing conditions March 7, the date of the last bank call in the country's national banks. Here is what the returns show:

Total resources of national banks $13,838,000,000, an increase of $2,271,000,000 or 20 per cent within a year.

Total deposits $10,790,000,000, an increase of $2,198,000,000 or nearly 25 per cent within a year and an increase of $411,000,000 since December 31 last.

Increase of Billion in Loans.

An increase of $990,000,000 in loans and discounts within a year.

Surplus and undivided profits of $1,031,278,000, an increase of $18,000,000.

The increase in resources within the past 12 months, comptroller Williams pointed out in a statement, exceeds the entire resources of the Reichsbank of Germany and the aggregate resources of American national banks "exceed by $3,000,000 the aggregate resources of the Bank of England, the Bank of France, the Bank of Russia, the Reichsbank of Germany, the Bank of the Netherlands, the Swiss National bank and the Bank of Japan."

TWO SHIPS REPORTED SUNK; BRITISH STEAMER UNARMED

London, April 17. — Lloyd's announces that the Norwegian steamship Pusnastaff of Christiansand, has been sunk. She was going from Newcastle to Boulogne. The crew was saved. The British steamship Fairport is reported to have been sunk. She was unarmed.

Turks Defeat Russian Cavalry.

London, April 15.—The Turkish war office reports the defeat of three Russian cavalry regiments by a mixed force of Persians and Turks in Persian Armena. Several minor engagements have occurred along the coast of Asia Minor between coast defenses and warships, one of which is said to have been hit.

Chinese Attack Missionary.

Baltimore, April 17. — A dispatch from Peking, China, told of an attack made on the survey party of Dr. Chas. K. Edmunds, of this city, now president of the Christian College of Canton. Doctor Edmunds escaped, but one of the soldier escorts was killed and two wounded. Apparently the attack was made by bandits of the interior, where the Edmunds party was following up a magnetic survey. Mrs. Edmunds and her two children had remained in Canton.

AT THE STATE CAPITOL

Trout Season Opens.

The trout season in Minnesota opened last Saturday, and Carlos Avery, state game and fish commissioner, said that fishing should be excellent in the southern part of the state, but the heavy snow has not yet melted in the northern part and will cause delay in the advent of the best fishing in that section. The open season for trapping mink and muskrat closed Saturday.

* * *

Would Accept Clapp's Filing.

Secretary of State Schmahl's announcement that he would accept without question Senator Moses E. Clapp's filing for re-election as a Republican was not received with loud cheers by Republicans who stood by the ticket two and four years ago. Some of them threaten to take action to prevent the acceptance of the filing, on the ground that he is not a Republican, and has not supported the policies or the candidates of the Republican party that, on the contrary, he has denounced them.

Costs 25.39 Cents to Obtain Job.

The public employment bureau at the old Capitol found positions for 353 women and 355 men in the month of March. The cost of maintaining the St. Paul office for the month was $179.75 and the average cost of obtaining each job was 25.39 cents. The three state public employment bureaus, in St. Paul, Minneapolis and Duluth, provided employment for 1,176 men and for 1,433 women. The average cost for each position in Minneapolis was 28.39 cents and in Duluth 37.02.

* * *

The reported cornering of the sisal product of Yucatan by the International Harvester company will not affect the price or output of twine at the state twine plant at Stillwater, C. J. Swendsen, chairman, and R. W. Wheelock, a member of the Board of Control, said in commenting on the proposed investigation of the sisal situation. The state plant has manufactured 23,000,000 pounds of twine this year and has sold 18,000,000 pounds, and will have plenty to supply the farmers of the state for this harvest. The plant reuires about 30,000 bales a year, and now has on hand enough to keep it in operation until fall.

GOPHER STATE NOTES

Winona. — The body of Peter B. Crogan, driver of the automobile that plunged from a submerged causeway across the Mississippi river from Winona, carrying four persons to death, has been recovered. The bodies of Mrs. Crogan and her 5-year-old daughter were taken from the water the day of the tragedy. The fourth body, that of a 2-year-old son, still is in the slough. A triple funeral for the bodies recovered was held at Etrick, Wis., the home.

Chisholm.—A tragedy of the backwoods was revealed here when Gust Ruhenen, a Finish farmer living twenty miles north in the Sturgeon lake county, applied at an undertaking parlor for four coffins in which to bury his son and three daughters, who died within a week of scarlet fever. Heavy snows during the winter practically cut the family off from sources of supplies, and before highways could be re-opened the children were weakened and suffering from lack of proper food.

St. Paul.—Success of efforts by W. G. Calderwood of the state prohibition committee to prevent railroad shipments of liquor into 37 towns named as being in the territory covered by the Indian treaty of 1863, is a matter of geography, M. L. Countryman, general counsel for the Great Northern, declared in St. Paul: "I presume Mr. Calderwood would not claim these towns are in the dry belt unless he felt quite sure of it, but we shall have to check them up. The railroads will try to live within the law."

Stillwater.—The prison doors at Stillwater have closed on Walter J. Smith and Robert C. Pickit and the two former state officials have begun indeterminate sentences for misuse of state funds. The state board of pardons denied their applications for pardons. The careful arrangements [illegible] to prevent the two men from meeting were almost upset. Although an hour and a half elapsed between the time Pickit left the county jail here and when Smith started for Stillwater, the men arrived at the prison within a few minutes of each other.

St. Paul. — Walter J. Smith, a good fellow with a thousand friends, lost the last step in his fight to keep out of state's prison. The pardon board ruled he will have to go to Stillwater at once. With the former state treasurer will go Robert C. Pickit, former clerk of the investment board, th state officers despite the effort c friends, declining to extend clemency in either case.

Minneapolis, April 12. — Charles Whitcomb, of Beardsley, missing United States court juror, has been found in the St. Paul city hospital with a well-developed case of diphtheria.

How to avoid Operations

These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ills peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

Marinette, Wis.—"I went to the doctor and he told me I must have an operation for a female trouble, and I hated to have it done as I had been married only a short time. I would have terrible pains and my hands and feet were cold all the time. I took Lydia E. Pinkham's Vegetable Compound and was cured, and I feel better in every way. I give you permission to publish my name because I am so thankful that I feel well again." —Mrs. Fred Behnke, Marinette, Wis.

Detroit, Mich.—"When I first took Lydia E. Pinkham's Vegetable Compound I was so run down with female troubles that I could not do anything, and our doctor said I would have to undergo an operation. I could hardly walk without help so when I read about the Vegetable Compound and what it had done for others I thought I would try it. I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Lydia E. Pinkham's Sanative Wash and used them according to directions. They helped me and today I am able to do all my work and I am well." —Mrs. Thos. Dwyer, 989 Milwaukee Ave., East, Detroit, Mich.

Bellevue, Pa.—"I suffered more than tongue can tell with terrible bearing down pains and inflammation. I tried several doctors and they all told me the same story, that I never could get well without an operation and I just dreaded the thought of that. I also tried a good many other medicines that were recommended to me and none of them helped me until a friend advised me to give Lydia E. Pinkham's Vegetable Compound a trial. The first bottle helped, I kept taking it and now I don't know what it is to be sick any more and I am picking up in weight. I am 20 years old and weigh 145 pounds. It will be the greatest pleasure to me if I can have the opportunity to recommend it to any other suffering woman."—Miss Irene Froelicher, 1923 Manhattan St., North Side, Bellevue, Pa.

If you would like special advice write to Lydia E. Pinkham Med. Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

SPOHN'S DISTEMPER COMPOUND

Watch Your Colts

For Coughs, Colds and Distemper, and at the first symptoms of any such ailment, give small doses of that wonderful remedy, now the most used in existence.

SPOHN'S DISTEMPER COMPOUND

50 cents and $1 a bottle; $5 and $10 the dozen, of any druggist, harness dealer, or delivered by

SPOHN MEDICAL CO., Chemists, Goshen, Ind., U. S. A.

Little Mistake.

An old gentleman of eighty-four having taken to the altar a young damsel of about fifteen, the clergyman said to him:

"The font is at the other end of the church."

"What do I want with the font?" said the old gentleman.

"Oh, I beg your pardon," said the cleric, "I thought you had brought this child to be christened."

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00. —Adv.

Burglars!

"What did you do when you discovered there were burglars in the house?"

"My wife grabbed a rolling pin and crept softly through the hall, and I followed her."

"A case of 'safety first' for you, eh?"

"No indeed! Safety second."

Verbose.

"Did De Boore have anything to say when the toastmaster called on him at the banquet?"

"No, and it took him nearly an hour to say it."

If you are not up and doing you will soon be down and done.

The Mississippi is the only tideless river in the United States emptying into the ocean or Gulf of Mexico.

Cigarette smoking is permissible at the table—if you are dining alone and have a grudge against yourself.

AILING WOMEN NEED THIS FAMOUS DOCTOR'S PRESCRIPTION

Thousands of women who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription which will surely and quickly banish all pain, distress and misery and restore the womanly functions to health.

This prescription of Dr. Pierce's extracted from roots and herbs is a temperance remedy.

To get rid of irregularities, or catarrhal condition, to avoid pain at certain times, to overcome irritability and weakness, waste no time, but get Dr. Pierce's Favorite Prescription in liquid or tablet form this very day.

Convinced.

"I wasn't able to match that piece of goods for you," said hubby. "I tried six different stores, and they all told me they hadn't had anything like that in stock for five years."

"I knew that all the time," said wifie. "I just wanted to prove to you that my best dress is hopelessly out of style. You wouldn't believe it when I told you."

Nothing to Brag Of.

"He's been thirty-five years in the same position."

"He ought to be ashamed of himself."

THE MAGIC WASHING STICK

"The Magic Washing Stick is just fine. It did just what you said it would do, and the clothes were so nice and white with all that hard rubbing left off," writes Mrs. Sarah Goodale, Preston, Texas. The Magic Washing Stick is not a soap nor a washing powder. Fifteen washings 25c. Sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

Free Concert.

"Hello!" said a voice at the other end of the phone. "Is that the night clerk?"

"Yes," replied that functionary. "What can I do for you?"

"I want you to send somebody up and make that man in the next room stop snoring. I can't sleep a wink."

"What room are you in?" asked the clerk.

"No. 53. It's the man in No. 51 who is doing the snoring."

"But my dear sir," said the clerk, "do you realize that the man in No. 51 is Signor Squallerini, the famous tenor, and that we are not charging you a cent extra for the privilege of hearing him?"

"ANURIC!" NEWEST IN CHEMISTRY

This is a recent discovery of Doctor Pierce, head of the Invalids' Hotel, Buffalo, N. Y. Experiments for several years proved that there is no other eliminator of uric acid comparable. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, "Anuric" acts quickly. In rheumatism of the joints, in gravel and gout, invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Send Dr. Pierce 10c for large trial package. Full treatment 50c. All druggists.

THE SUNBEAM.

BY W. G. HUNT. EDITOR
M. G. HUNT. PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

The New York Tribune the leading Republican paper of New York, has come out for Roosevelt and says:

"Colonel Roosevelt and no 'pussy-footing.'

"The Tribune likes this candidate and this issue.

"It regards Senator Root, its favorite so long as he had a chance of nomination, as now practically eliminated. . . .

COUNTRY NEEDS ROOSEVELT.

"We are for Colonel Roosevelt because we believe the country needs him. No one else will quicken the pulse of the nation as he will quicken it. No one else will stir the conscience of the people as he will stir it. No one else will inspire patriotism as he will inspire it.

"No one else personifies the issue which the Republican party must make as he personifies it. No one else presents so effective an antithesis to Wilson as he. If we are Americans, real Americans, the Colonel is our man.

"We are for Colonel Roosevelt in spite of the fact that we were against him four years ago. No one fought him harder than we. No one will fight harder for him. It has not been easy to put aside our pride, our sense of resentment at what occurred in 1912, and the hundred other things that tend to keep alive divisions. But we have put them aside, and are putting them aside because we feel they have no place in a crisis like this."

Would it not jar you, that DuPont, the head of the DuPont Powder Works, wants to "run" for President of the United States. If he had money enough to buy his nomination, he could not get ten per cent of the votes of the American people on any ticket, as the campaign of his opponent would be made on the issue of handing the government over to the control of arms and ammunition manufacturers. The very idea of a man running for President of the United States, that is such a well known plutocrat, that he has to hire a small army to protect his carcass in private life, and live in a bomb proof house.

There is no question about which of the so far candidates that the people should support for U. S. Senator, from Minnesota. Kellogg and Eberhart will see to it that the "interests" best interest is taken care of, while Moses E. Clapp has proven himself to be the true Representative of the common people.

A full blood well qualified Indian will make the race for Congress in the 6th district, on the issue of favoring the repeal of those old Indian treaties in northern Minnesota, which are now so old that they are a hindrance to the development and settlement of northern Minnesota.

The Bemidji Sentinel has been sold to H. Mayne Stanton and Walter F. Marcum, who take charge this week. Success to the new management, but they will have to hustle to keep up the present high standard of the Sentinel, under the management of F. A. Wilson.

The catching of Villa is a pretty difficult matter, as he may be skulking in some friend's cellar, watching the U. S. Troops pass by.

Canada will relieve the farm labor shortage by putting Germans, Austrians and Turks, that are interned in that country, at work on the farms.

President Wilson would now like to withdraw the American troops from Mexico, if he could do so without stirring up a hornets nest in the United States. He will be blamed for bringing on a war if he don't with draw them, and accused of cowardice if he does, by the whole Mexican tribe.

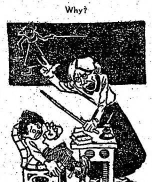
John A. Duffy, of Red Lake Falls will again file for Representative this year. Mr. Duffy was defeated by so small a margin two years ago, that he expects to place the balance on the other side of the ledger this year. Then he gained lots of expprience two years ago about where to build political fences to hold the voters in line, which he will no doubt profit by this year.

The Red Lake River seems to remain at a flood stage this spring, and has established a record for the high water mark, since the first settlement of this territory. And it is not to be wondered at, when we consider the vast amount of snow water, that it has had to take care of this spring. While there will not be any great loss of crops by flooded land in this, Highlanding township, the fellows in parts of the town of Hickory will have to do their farming in boats, if the river remains at its present stage very long.

THE ACHES OF HOUSE CLEANING.

The drawing of muscles, the soreness. stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore parts. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain. 25c. at Druggist.—Advertisement.

Why?



Teacher—Who drew that awful caricature of me?

Sammy—What yuh pickin' on me fur? Why don't yuh talk to the funny artist what drawed the rest of this picture?—Philadelphia Evening Ledger.

Slitting a Pen.

The center slit in a pen is cut by a machine which seems almost to think. It consists of two chisels which barely pass each other when the slit is made, and the exact way in which the pen is poised so as to place the chisels in the proper position for cutting is one of the marvels of penmaking.

Shifting the Blame.

"Have you anything to say before I pass sentence?"

"Yes, your honor. I would call your attention to the fact that the fool lawyer who defended me was assigned to the case by yourself."—Philadelphia Ledger.

A Suggestion.

"He's his own worst enemy."

"Then he ought to apologize to himself and start all over again."—Detroit Free Press.

OUR PUBLIC FORUM

J. S. Cullinan
ON CITIZENSHIP.

Mr. J. S. Cullinan, President of the Texas Economic League, in inviting the people to study and discuss citizenship and to give special attention to the problems of government, said in part: "Before we can intelligently study so important a subject as citizenship we must first define it. What is citizenship? Who is the best American citizen? Search the statute books for a definition of citizenship and unless one is a member of the legal profession we immediately become entangled in a labyrinth of confusing and ofttimes contradictory laws, seeking to promote or restrain most every form of human activity, much of them good, some of them bad and others indifferent. But laws come and go; the Constitution is permanent. The preamble of our Federal Constitution states that our government is organized to give its citizens liberty and happiness. Read the Declaration of Independence and the Constitution of the United States and one cannot escape the conclusion that the best American citizen is he who is most free, patriotic, just, happy and active and who hands down to posterity a civilization more capable than he found it. The spirit of our country is freedom and no man can become a true American citizen unless he is free.

"Turning a moment from documents of State perhaps the best authority on citizenship, and one universally accepted by the public, is Webster's International Dictionary, which defines a citizen as 'A member of a State; a person, native or naturalized, of either sex, who owes allegiance to government and is entitled to reciprocal protection from it.' Further: 'A citizen as such is entitled to the protection of life, liberty and property at home and abroad.'

"We now have before us the authoritative definition of citizenship by both government and society and in order that the most humble citizen may feel perfectly free to enter into a study and discussion of this subject I will briefly outline my conception of what citizenship involves, for the work of the Texas Economic League will be in vain if the most lowly citizen does not feel free to give serious thought and expression to his obligation to government and his responsibility to his fellow men.

"Applied to able-bodied adult males, with whom I take it we will have chiefly to do, a citizen's duty, in return for the rights, privileges and protection outlined above, would seem to be: First, to expend sufficient labor in production, or auxiliary occupations, viz., manufacture, transportation and distribution, to support himself and his family in comfort. Second, conform to all laws framed in the interest of society under the Constitution. Third, contribute his just proportion to the maintenance of government in personal time, payment of taxes or, if need be, bearing arms in the defense of the nation.

"In reaching the above conclusions I have assumed that under our system of government citizens are owners in common and are entitled to the rights and benefits of government during the term of their natural lives and for such period only."

U. S. Mail,

AVOID SPRING COLDS

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.—Adv.

KEEP YOUR SKIN CLEAR AND HEALTHY.

There is only one way to have a clear healthy complexion and that is to keep the bowels active and regular. Dr. King's New Life Pills will make your complexion healthy and clear, move the bowels gently, stimulate the liver, cleanse the system and purify the blood. A splendid spring medicine. 25c, at your Druggist.—Advertisement.

THE SUNBEAM

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, APRIL 28, 1916. NO. 7

MINNESOTA HISTORICAL SOCIETY

THE LOCAL NEWS

Karl Korstad the Highlanding merchant was transacting business, at Thief River Falls, on Wednesday.

Andrew Ellingson's little daughter Myrtle has been very sick with typhoid fever, but is now on the road to recovery.

FOR SALE: On my farm, in the town of Kratka, I have 20 ton of fine No. 1 timothy hay, at $6.00 per ton cash.

C. Petersen, Kratka, Minn.

M. E. Hyland had a serious tip over in the Clearwater river, last week, loosing quite a large amount of groceries, which he was bringing home from Oklee.

The mail carrier on the Rhoda-Plummer route now has to go one mile west of Plummer to get across Clearwater river, since the washing out of the Plummer bridge.

The water now seems to have about run out of the state ditches and the high water that now prevails in the Red Lake river, must about all come from Red Lake.

The income of the Thief River Falls post office indicates that there has been a large increase in the income of that office for the past year, which is a sure indication that our county seat is increasing in population.

The sudden shutting down of all crossing of the Red Lake River has caught a large number of farmers in the position of having property on the opposite side of the river from them, with no way to get to it.

The ladies basket social given at the Highlanding church on last Saturday evening, drew a fair sized crowd, and the sum of $35.40 was realized from the sale of the baskets, which will be used toward paying the expense of a Norwegian school.

The Red Lake river is going down so slow that it will undoubtedly keep the bottom lands covered with water, until it is too late to sow any kind of a crop on them. But these low lands should all be seeded down to timothy hay, which is a sure crop every year.

Superintendent of schools E. A. Mostue, was visiting schools in this locality this week. He has to cross the river in a row boat and walk, or hire a conveyance, as a row boat is the only method of crossing this river at the present time, in a county that has been settled for eleven years, and has good graded roads.

There is an effort being made by the farmers of the town of Hickory to locate that dike or levee on the Red Lake River, that was put in through the efforts of the Commercial club, of Thief River Falls, to control the flood conditions that were likely to prevail this spring, but at last accounts they had not located it, and the flood continues.

A man that has not got pasture or feed for five head of stock, and will lay in a supply of twenty head of cattle must certainly depend on pasturing them on his neighbors' land, at least that seems to be the idea of some people in this part of the country, that don't seem to be aware of the fact that there is a herd law, compelling them to take care of their stock. It is not very pleasant for a man that has put a good deal of hard cash into improving and making hay meadow to have people appropriate it for a summer pasture for stock.

Harry Causin made a business trip to Hazel on Wednesday.

Ye editor is busy seeding his farm this week, which makes local news rather scarce.

Miss Elsie Causin visited with Miss Myrtle Hunt, on Thursday afternoon.

Mr. and Mrs. W. G. Hunt and daughter Myrtle visited with Mr. and Mrs. T. G. Rome, on Sunday last.

Road over seer John Nelson, was over on this side of the river Wednesday, looking over the roads, and will make some needed repairs and grading, as soon as the ground settles so the work can be done.

A number of farmers have started harrowing and spring plowing this week; but operations will not be in full swing until next week. One week of favorable weather will see the larger part of grain, except flax, seeded in this locality.

Edward Klemthetson had to drive clear down to Thief River Falls, and back on the north side of Red Lake River, in order to get to the land that he had rented from Mrs. Narveson on the north side, making a distance of forty-eight miles to get one mile.

While we are suffering from flood conditions in this part of the country at the present time, it is easy to see by reading the daily papers that there are lots of localities that have more water to contend with, than we have here, as the Mississippi river was never so high as it has been this spring.

COW AND HORSE SURGEON: If you have any trouble with your brood mare at the time of foaling, call on Tallock Dahle, Sec. 33, town of Highlanding, and he will assist you to save your mares and colt.

R. L. JOHNSON.

Candidate for State Treasurer.

R. L. Johnson, Republican, of Austin, Minnesota, has filed for the office of State Treasurer before the Primaries June 19th, 1916.

Mr. Johnson was born in Waltham, Minn., received a common school education and also completed a commercial course at Rochester, Minn.

He lived 30 years on a farm and taught school for six years in Mower County, he was County Auditor for 10 years. For 3 years he was secretary of the Farmers Grain Dealers Association of Minnesota. He is now Secretary and Treasurer of the HOME INVESTMENT COMPANY of Austin. He was a candidate for the Republican nomination for State Treasurer two years ago and received over 73,000 votes. Mr. Johnson is a strong First District Republican. He has just been elected delegate to the Republican National convention from that district.

The Walrus' Defenses.

A full grown walrus will weigh as much as 2,000 pounds, a mountainous mass of muscle and blubber. He is armed with tusks of ivory sometimes two feet in length, and when from his upreared bulk these formidable weapons are plunged downward upon an enemy they are as resistless as the drop of a guillotine. Such a thick layer of blubber lies under the skin that he is practically clad in an armor impervious to teeth and claws alike.—St. Nicholas.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surface. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

DEFECTIVE PAGE

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

"Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from any store that handles drugs which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

"What might that be?"

"All aero-plane sailing."

WOMEN SUFFERERS NEED SWAMP-ROOT

Thousands upon thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer a great deal with pain in the back, headache, loss of ambition, nervousness, and may be despondent and irritable.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, restores health to the kidneys and is just the remedy needed to overcome such conditions.

Get a fifty cent or one dollar bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

U.S. WILL BREAK WITH GERMANY UNLESS U-BOAT ATTACKS CEASE

TEXT OF FINAL NOTE TO IMPERIAL GOVERNMENT ON SUBMARINE WARFARE MADE PUBLIC BY LANSING.

ATTENTION IS CALLED TO SUSSEX IN PARTICULAR

Facts in Case of Wrecked Channel Steamer Established by Information in Possession of American Government—Proves Vessel Torpedoed Without Warning.

Washington, April 21.—The text of the United States note to Germany, signed by Secretary Lansing and addressed to Ambassador Gerard, as given out by the State Department, follows:

You are instructed to deliver to the secretary of foreign affairs a communication reading as follows:

I did not fail to transmit immediately by telegraph to my government Your Excellency's note of the 10th inst. in regard to certain attacks by German submarines and particularly in regard to the disastrous explosion which on March 24 last wrecked the French steamship Sussex in the English channel, I have now the honor to deliver under instructions from my government, the following reply to Your Excellency.

Information now in the possession of the government of the United States fully establishes the facts in the case of the Sussex and the inferences which my government has drawn from that information it regards as confirmed by the circumstances set forth in Your Excellency's note of the 10th inst.

Sussex Was Never Armed.

On the 24th of March, 1916, at about 2:50 o'clock in the afternoon the unarmed steamer Sussex with 325 or more passengers on board, among whom were a number of American citizens, was torpedoed while crossing from Folkestone to Dieppe. The Sussex had never been armed; was a vessel known to be habitually used only for the conveyance of passengers across the English channel; and was not following the route taken by troop ships or supply ships. About 80 of her passengers, noncombatants of all ages and sexes, including citizens of the United States, were killed or injured.

A careful, detailed and scrupulously impartial investigation by naval and military officers of the United States has conclusively established the fact that the Sussex was torpedoed without warning or summons to surrender and that the torpedo by which she was struck was of German manufacture.

In view of the government of the United States these facts from the first made the conclusion that the torpedo was fired by a German submarine unavoidable. It now considers that conclusion substantiated by the statements of Your Excellency's note. A full statement of the facts upon which the government of the United States has based its conclusion is inclosed.

Ships Destroyed Indiscriminately.

The government of the United States, after having given careful consideration to the note of the Imperial Government of the 10th of April regrets to state that the impression made upon it by the statements and proposals contained in that note is that the Imperial Government has failed to appreciate the gravity of the situation which has resulted, not alone from the attack on the Sussex, but from the whole method and character of submarine warfare as disclosed by the undersea craft during the past 12 months, and more in the indiscriminate destruction of merchant vessels of all sorts, nationalities and destinations.

If the sinking of the Sussex had been an isolated case the government of the United States might find it possible to hope that the officer who was responsible for that act had wilfully violated his orders or had been criminally negligent in taking none of the precautions they prescribed and that the ends of justice might be satisfied by imposing upon him an adequate punishment, coupled with a formal disavowal of the act and payment of a suitable indemnity by the Imperial Government.

But, though the attack upon the Sussex was manifestly indefensible and caused a loss of life so tragical as to make it stand forth as one of the most terrible examples of the inhumanity of the submarine warfare, as the commanders of German vessels are conducting it, it unhappily does not stand alone.

PRESIDENT WILSON

Sussex Case Only One Instance.

On the contrary, the government of the United States is forced by recent events to conclude that it is only one instance even though one of the most extreme and most distressing instances of the deliberate method and spirit of indiscriminate destruction of merchant vessels of all shorts, nationalities, and destinations which have become more and more unmistakable as the activity of German undersea vessels of war has in recent months been quickened and extended.

The Imperial Government will recall that when, in February, 1915, it announced its intention of treating the waters surrounding Great Britain and Ireland as embraced within the seat of war and of destroying all merchantships owned by its enemies that might be found within that zone of danger and warned all vessels, neutral as well as belligerent, to keep out of the waters thus prescribed, or to enter them at their peril, the government of the United States earnestly protested.

It took the position that such a policy could not be pursued without constant gross and palpable violations of the accepted law of nations; particularly if submarine craft were to be employed as its instruments, inasmuch as the rules prescribed by that law, rules founded on the principles of humanity and established for the protection of lives of noncombatants at sea, could not in the nature of the case be observed by such vessels.

It based its protest on the ground that persons of neutral nationality and vessels of neutral ownership would be exposed to extreme and intolerable risk and that no right to close any part of the high seas could lawfully be asserted by the Imperial Government in the circumstances then existing.

Based on Law of Humanity.

The law of nations in these matters upon which the government of the United States based that protest is not of recent origin or founded upon merely arbitrary principles set up by convention. It is based, on the contrary, upon manifest principles of humanity and has long been established with the approval and by the express assent of all civilized nations.

In pursuance of this policy of submarine warfare against the commerce of its adversaries, thus announced and thus entered upon in despite of the solemn protest of the government of the United States, the commanders of the Imperial Government's undersea vessels have carried on practices of such ruthless destruction which have made it more and more evident as the months have gone by that the Imperial Government has found it impracticable to put any such restraints upon them as it had hoped and promised to put.

Assurances Are Disregarded.

Again and again the Imperial Government has given its solemn assurances to the government of the United States that at least passenger ships would not be thus dealt with, and yet it has repeatedly permitted its undersea commanders to disregard those assurances with entire impunity.

Vessels of neutral ownership, even vessels of neutral ownership bound from neutral port to neutral port, have been destroyed along with the vessels of belligerent ownership in constantly increasing numbers. Sometimes the merchantmen attacked have been warned and summoned to surrender before being fired upon or torpedoed; sometimes their passengers and crews have been vouchsafed the poor security of being allowed to take to the ship's boats before the ship was sent to the bottom. But again and again no warning has been given, no escape even to the ship's boats allowed to those on board.

American Death Roll Grows.

Great liners like the Lusitania and Arabic and passenger boats like the Sussex have been attacked without a moment's warning, even before they have even become aware that they were in the presence of an armed ship of the enemy and the lives of noncombatants, passengers and crew have been destroyed wholesale, and in a manner which the government of the United States can not but regard as wanton and without the slightest color of justification. No limit of any kind has in fact been set to the indiscriminate pursuit and destruction of merchantmen of all kinds and nationalities within the waters which the Imperial Government has chosen to designate as lying within the seat of war. The roll of Americans, who have lost their lives on ships thus attacked and destroyed, has grown month by month until the ominous toll has mounted into the hundreds.

America Has Been Very Patient.

The Government of the United States has been very patient. At every stage of this distressing experience of tragedy after tragedy, it has sought to be governed by the most thoughtful consideration of the extraordinary circumstances of an unprecedented war and to be guided by sentiments of very genuine friendship for the people and government of Germany.

Time for Action Now.

It now owes it to a just regard for its own rights to say to the Imperial Government that that time has come. It has become painfully evident to it that the position which it took at the very outset is inevitable; namely, the use of submarines for the destruction of an enemy's commerce, is, of necessity, because of the very character of the vessels employed and the very methods of attack which their employment of course involves, utterly incompatible with the principle of humanity, the long-established and incontrovertible rights of neutrals and the sacred immunities of noncombatants.

Only One Course Is Left.

If it is still the purpose of the Imperial Government to prosecute relentless and indiscriminate warfare against vessels of commerce by the use of submarines without regard to what the government of the United States must consider the sacred and indisputable rules of international law, and the universally recognized dictates of humanity, the government of the United States is at last forced to the conclusion that there is but one course it can pursue. Unless the Imperial Government should now immediately declare and effect an abandonment of its present methods of submarine warfare against passenger and freight-carrying vessels, the government of the United States can have no choice but to sever diplomatic relations with the German Empire altogether. This action the government of the United States contemplates with the greatest reluctance, but feels constrained to take in behalf of humanity and the rights of neutral nations.

PRESS BEHIND PRESIDENT

Editorial Comment From All Parts of Country Indorse Note.

Austin, Tex., April 21.—The nation stands behind President Wilson in the crucial step he has taken on the German submarine issue, is reflected by editorial comment from all parts of the country. With but one or two exceptions, the press of the country indorse wholeheartedly the President's address to Congress as well as the text of the latest note to Berlin.

MEXICAN LEADERS STILL BELIEVE VILLA IS DEAD

El Paso, Texas, April 21.—In spite of every denial and doubt, and in the face of the statement of Governor Enriquez at Chihuahua that the story of Villa's death was only a rumor, General Gavira and Consul Garcia reasserted their confidence in the truth of the finding of the body of the bandit.

DECLARES GERMANY WILL NEVER YIELD TO AMERICA

London, April 21.—A dispatch to the Express from Geneva says: "The German newspapers already are adopting an insulting tone toward President Wilson and America. The Deutsche Tegeszeitung says Germany will never yield to America because Wilson's bluff and the attitude of the American press are in comical contrast to the really effective power of the country."

RUSSIANS LANDED IN FRANCE

JOIN ALLIES IN OPERATIONS AGAINST GERMANS.

Czar's Troops to Be Rushed Into Action at Verdun or Elsewhere on Western Front.

Paris, April 21.—Russian troops have been landed at the French port of Marseilles to join the Allied troops in operations against the Germans on the continent.

This sensational announcement was made simultaneously with publication of an army order of the day issued by General Joffre, sending best wishes to the first detachment of soldiers of the czar to fight on French soil since the beginning of the war.

Landed in Large Forces, Belief.

The censor thus far has permitted no details as to numbers to be published, but the French newspapers assume that the Russians were landed in large forces. They assume also that they will be rushed into action either at Verdun or on some other sector of the western front, where the Allies may be contemplating a great offensive.

Route Known Only to Officials.

By what route the Russians reached Marseilles is known only to officials of the war office and ministry of marine. It is assumed, however, that their transportation to France was decided on at the recent general conference of the Allies in Paris.

Bryan to Try to Prevent War.

St. Louis, Mo., April 21. — William Jennings Bryan, while here dictated to reporters a statement regarding the crisis with Germany which he requested be given to the press of the entire country. Later in the morning Bryan decided to go to Washington. He gave out a second statement at the Union station at noon before boarding the train for the East, where he said he was going to try to prevent the United States from getting into the European war.

Congress Is Told of "Last Word" Sent to Germany

Washington, April 20.—President Wilson's message to Congress, assembled in joint session, in part, is as follows:

Gentlemen of the Congress: A situation has arisen in the foreign relations of the country of which it is my plain duty to inform you very frankly. It will be recalled that in February, 1915, the imperial German government announced its intention to treat the waters surrounding Great Britain and Ireland as embraced within the seat of war, and to destroy all merchant ships owned by its enemies that might be found within any part of that portion of the high seas, and that it warned all vessels of neutral as well as of belligerent ownership to keep out of the waters it had thus proscribed, or else enter them at their peril.

America Protested Earnestly.

The government of the United States earnestly protested.

It based its protest on the ground that persons of neutral nationalty and vessels of neutral ownership would be exposed to extreme and intolerable risks, and that no right to close any part of the high seas against their use or to expose them to such risks could lawfully be asserted by any belligerent government.

Law Is Basis of Protest.

The law of nations in these matters, upon which the government of the United States based its protest, is not of recent origin or founded upon merely arbitrary principles set up by convention. It is based, on the contrary, upon manifest and imperative principles of humanity and has long been established with the approval and by the express consent of all civilized nations.

Notwithstanding the earnest protest of our government, the imperial German government at once proceeded to carry out the policy it had announced.

Assurances Not Fulfilled.

What has actually happened in the year which has since elapsed has shown that those hopes were not justified, those assurances insusceptible of being fulfilled. In pursuance of the policy of submarine warfare against the commerce of its adversaries, thus announced and entered upon by the imperial German government in despite of the solemn protest of this government, the commanders of German undersea vessels have attacked merchant ships with greater and greater activity, not only upon the high seas surrounding Great Britain and Ireland, but wherever they could encounter them, in a way that has grown more and more ruthless, more and more indiscriminate as the months have gone by, less and less observant of restraints of any kind, and have delivered their attacks without compunction against vessels of every nationality and bound upon every sort of errand.

Great liners like the Lusitania and the Arabic, and mere ferry boats like the Sussex have been attacked without a moment's warning, sometimes before they had even become aware that they were in the presence of an armed vessel of the enemy, and the lives of noncombatants, passengers and crew, have been sacrificed wholesale, in a manner which the government of the United States cannot but regard as wanton and without the slightest color of justification.

No Limit to Destruction.

No limit of any kind has, in fact, been set to the indiscriminate pursuit and destruction of merchantmen of all kinds and nationalities within the waters, constantly extending in area, where these operations have been carried on; and the roll of Americans who have lost their lives on ships thus attacked and destroyed has grown month by month until the ominous toll has mounted into the hundreds.

Duty Is to Warn Germany.

I have deemed it my duty, therefore, to say to the imperial government that if it is still its purpose to prosecute relentless and indiscriminate warfare against vessels of commerce by the use of submarines, notwithstanding the now demonstrated impossibility of conducting that warfare in accordance with what the government of the United States must consider the sacred and indisputable rules of international law and the universally recognized dictates of humanity, the government of the United States is at last forced to the conclusion that there is but one course it can pursue, and that unless the imperial German government should now immediately declare and effect an abandonment of its present methods of warfare against passenger and freight-carrying vessels, this government can have no choice but to sever diplomatic relations with the government of the German empire altogether.

Fined 6 Cents for Whipping Girl.

Charlotte, Mich., April 21.—A. D. Jones, superintendent of schools at Bellevue, was given a nominal fine of 6 cents for inflicting corporal punishment on Merle McCotter, a pupil.

Allies Reply to American Note.

London, April 20.—The reply of Great Britain and France to the American note concerning interference with maritime commerce by the Entente Allies has been cabled to Washington. The communication will be presented to the American government by the French and British ambassadors jointly. It consists of two parts, a long note and a supplement, signed by the French government. Since its arrival at Washington certain cable changes are said to have been made in the original communication.

Thousands Tell It

Why daily along with backache and kidney or bladder troubles? Thousands tell you how to find relief. Here's a case to guide you. And it's only one of thousands. Forty thousand American people are publicly praising Doan's Kidney Pills. Surely it is worth the while of any one who has a bad back, who feels tired, nervous and run-down, who endures distressing urinary disorders, to give Doan's Kidney Pills a trial.

A Minnesota Case

Every Picture Tells a Story

Mrs. Geo. P. Gillette, S. Main St., Zumbrota, Minn., says: "I was laid up in bed for six months with rheumatic pains. My kidneys were in awful shape and my arms were swollen and stiff. My back pained terribly, the kidney secretions passed too freely and were filled with sediment. After excessive doctoring, without benefit, I heard of Doan's Kidney Pills. Six boxes cured me and I have been in good health since."

THE WONDERFUL MAGIC WASHING STICK

The Magic Washing Stick, the greatest helper woman ever had with her washing, and I have been singing its praises to my neighbors, writes Mrs. Mollie Martin, Route 3, Apache, Okla. It is truly a wonderful article saving all the washboard labor on washday. 15 washings 25c. Sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

Easily Fixed.

Soulful Samuel Slopper, the would-be poet, was interviewing his landlord.

"Of course, the whole place wants doing throughout," sighed Sammy. "The wall paper interferes badly with my courting of the evanescent muse, while the color of the paint jars dreadfully with the gladsome visions I fain would summon in poetic rhapsody."

The landlord grinned.

"But I surely must insist," went on Samuel, speaking severely, "upon the doors and windows being attended to. They fit so badly that the draft actually blows my hair about!"

The landlord seized the golden moment to get his own back.

"Humph!" he snorted. "That's easily put right. Get your hair cut."

Quite the Contrary.

"Young Reginald Twobble is said to own 27 suits of clothes."

"What's the idea?"

"There isn't any. Do you suppose an idea is ever associated with the possessor of 27 suits of clothes?"

Their Own Fault.

"Why is it the big thieves go free, while the little ones go to jail?"

"That's an easy one. The little fellows don't steal enough to enable them to hire good lawyers."

An Exception.

"There is no money in poetry."

"True. If you tell a man there is no money in the pressing club business, the chances are that he won't go into it, but that doesn't apply to poetry."

Well Built Is Built To Win—

but in building brain and body, often the daily diet lacks certain essential mineral elements.

These necessary factors are abundantly supplied by the field grains, but are lacking in many foods—especially white flour, from which they are thrown out in the milling process to make the flour white.

Grape-Nuts

made of whole wheat and malted barley, supplies all the rich nutriment of the grains, including their vital mineral salts, those all-necessary builders of active brains and vigorous bodies.

To build right, eat Grape-Nuts.

Box for Child's Clothes.

Get a wooden sugar box at your grocer's and put the cover on with hinges. Then cover all over with two or three layers of newspapers for a padding. Get three yards of cretonne and cover over and tack with brass-headed tacks. Get four door-stops and screw on each corner of the bottom for little legs, and they also have rubber tips to save the floors.

There will be a little cretonne left. Divide in two, and in the inside of the sides of box tack to form two pockets to hold hair ribbons, stockings, etc.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 40 years ago. They regulate liver and bowels.—Adv.

It Wasn't Like Her.

Husband—What's that you are reading?

Wife—It's a letter from mother.

Husband—What does she say?

Wife—Oh, nothing much.

Husband—You are trying to deceive me. It's a cold day in August when your mother hasn't much to say.

For bunions use Hanford's Balsam. Apply it thoroughly for several nights and rub in well. Adv.

A Large Measure of Success.

"Doctor, how many times have you operated for appendicitis?"

"Oh, at least fifty times, I should say."

"And how many cases have you lost?"

"Only two. One of them went into bankruptcy and the other died without leaving a dollar."

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

David Belasco, the playwright and stage manager, was once a call boy in a San Francisco theater.

Be sure the red cross and circle are on each package of Alabastine you buy. Alabastine is sold by most druggists, hardware dealers and paint stores everywhere. If yours does not handle Alabastine, take no substitute, write us.

SPEAKS UP FOR CANADA

And No Wonder—Renting His Land He Made $8.50 Per Acre.

So many Americans now have personal knowledge of Canada that false reports concerning this country are being continually corrected by Americans themselves who know the facts, and who are too fair-minded to let a false statement go unchallenged. A case in point arises out of a statement supposed to be made by a resident of Alberta, and published recently in the Spokesman-Review, of Spokane, in which the condition of settlers in this country was painted in a very bad way indeed. The writer of this attack on Canada refused to let his name be known, so it can be taken for what it is worth, but Mr. S. L. Wallace, of N 4723 Crestline, Spokane, who lived for some years in Western Canada, came to the defense of the country in the following letter which was published in the Spokesman-Review of February 11, 1916:—

"To the Editor of the Spokesman-Review:

"In Sunday's Spokesman-Review was a letter from a man in Alberta to the chamber of commerce, asking that something be done to keep Americans from going to Canada, and saying that that government was run by the railroads, banks and manufacturers; that once a man got there he never could get away. Had this man published that letter over his own signature there is no doubt but he could get out of Canada.

No country will do as much to help a man to get on his feet, if he tries to help himself, as Canada. I know of the government helping people to provisions, feed, seed grain and fuel, and charging only cost of delivery to the nearest town and 6 per cent. What more could a man ask?

I lived five years in Southern Saskatchewan and earned a patent to 320 acres of as good land as I ever saw. I have raised over 80 bushels of oats on sod, 40 bushels of wheat, and 20 of flax to the acre. Until I lost my health I never was better satisfied anywhere. I had my land rented this last year for one-third. It brought me almost $8.50 per acre, or $1,143.91 for 135 acres.

This man says he loves the land his fathers died for. So do I, and I love the land that gave me my home.

"S. L. WALLACE."

N4723 Crestline, Spokane.—Advertisement.

Penn's Descendant to War.

Vernon George Green, thirty-five years old, a musician, in applying at Sheerness for absolute exemption from service on the ground of ill health and conscientious objection, made the claim that he was the great-grandson of William Penn, who was born 272 years ago. In his written appeal he said:

"I was brought up under strict Christian principles not to take life in any form, my great-grandfather being William Penn, Quaker, founder of Pennsylvania." The tribunal refused exemption to Penn's descendant.—London Observer.

THE MAGIC WASHING STICK

"The Magic Washing Stick is the finest thing in the world. Cleans the clothes without rubbing—makes the whitest clothes I ever saw. I cannot do without it any more. All you say is true, it does all you say it will. I would give it for nothing I have ever used. Hope every lady will try it," writes Mrs. W. F. Gammill, Ashdown, Ark. 15 washings 25c. This peculiar article is sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

Sarcasm.

"Hadn't you better let me clip a little from the ends of your hair?" queried the tonsorial artist.

"Why from the ends?" queried the victim in the chair. "Can't you clip a little from the middle?"

ALLEN'S FOOT-EASE DOES IT

When your shoes pinch or your corns and bunions ache, get Allen's Foot-Ease, the antiseptic powder to be shaken into shoes and used in foot-bath. Gives instant relief to Tired, Aching, Swollen feet. Over 100,000 packages are being used by the troops at the front. Sold everywhere, 25c. Don't accept any substitute. Adv.

Unhappy Memories.

"This author reads from his works with a great deal of feeling."

"I noticed that. I don't suppose there is a single one of the poems he read to us that hasn't been turned down by editors at least a dozen times."

HOW TO REMOVE DANDRUFF

Itching and Irritation of the Scalp With Cuticura. Trial Free.

On retiring lightly touch spots of dandruff, itching and burning with Cuticura Ointment. Next morning shampoo thoroughly with Cuticura Soap and hot water. These super-creamy emollients do much to keep the scalp clean and healthy and to promote hair growth.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Nearly a million and a half men are now employed in the munition factories of Germany.

Many a girl who can't sing is afflicted with the idea that she can.

STATE BREVITIES

Plainview. — An echo of the war in Europe was heard in Plainview when James Lamphrey, after worrying over the safety of three of his boys, shot himself to death.

Hibbing.—The rising waters of the Sturgeon and Little Forks rivers have caused thousands of dollars damage to the townships, officials of the Bear river country say.

Faribault. — Sidney, 4 years old, the son of Mr. and Mrs. H. G. Hampton of this city, has been killed by being run over by an automobile driven by Mr. Lemke of Northfield.

Long Prairie.—After making a $2500 bet that William E. Lee would be the net Governor of Minnesota, Henry Andre, well known in local political circles, has decided to file for the nomination himself.

Winona. — Fully 20 per cent reduction in the acreage of corn in Southeastern Minnesota is predicted by E. J. Heim, member of the county board of commissioners of this county and leading farmer.

Duluth.—The first steamer to leave this harbor for 1916 was the Briton of the Massey Steamship company, which has just departed. It goes light to Port Arthur and Fort William for screenings for Duluth.

Owatonna. — Preparations are being made here for the annual convention of the 1916 meeting of the Minnesota Music Teachers' association, June 27, 28 and 29. Three to four hundred teachers are expected.

Brainerd — The Gull Lake Outing club property on Gull lake has been sold by Fred B. Lynch of St. Paul, Democratic national committeeman, to James M. Elder of Brainerd. The grounds embrace sixty-five acres.

Crookston. — Joseph A. Wessel of Crookston has assumed the office of United States marshal, the affairs being formally turned over to him by William H. Grimshaw of Minneapolis, who has held the office for seventeen years.

Owatonna.—The Commercial club is fostering a movement for the formation of a "365-Day Road Club" modeled after the club established last year at Carthage, Missouri, and which has made wonderful progress in road building.

Minneapolis.—No fewer than 11,477 pieces of mail have gone out of the offices of the Shriners' campaign committee within the last fortnight to Minneapolis business men to call their attention to "May 3, Minneapolis' $100,000 Day."

St. Paul.—Commissions have been issued to seventeen young men who have been elected to office in the Minnesota naval militia, Fred B. Wood, adjutant general, has announced. The commissions are isued following examinations by the navy department.

Minneapolis. — A wireless news report of a fire at New Prague, Minn., 50 miles from Minneapolis, was received here late yesterday. The report came over the Minnesota Wireless association's aerial at the courthouse and was received by Vernon Kenyon, assistant station operator.

St. Cloud.—The high school strike is over and the school again has a senior class in good standing. After returning the property that had been taken and repairing the damage caused by the efforts of the seniors to place their colors on the cupola of the building, the members were allowed to return.

Duluth.—N. F. Hugo of Duluth, lieutenant commander of the Minnesota naval militia, has returned home after two months of "peace fighting" with the American Atlantic fleet in Cuban waters. His experience, he declared, will be used in whipping into shape the green tars on the Topeka, Minnnsota's new training ship, which will replace the Gopher.

St. Paul.—A project for reclaiming hundreds of thousands of acres of land in Northern Minnesota, mostly included in the counties of Hubbard, Itasca, Koochiching and Beltrami, has been suggested by A. L. Crocker of Minneapolis, F. W. Sardeson of the United States geological survey, and M. G. Barnes, a New York expert, who is in St. Paul to make a river and harbor survey.

Winona. — Ernest Smith, 35 years old, is believed to be dying in the Winona hospital as a result of having been impaled upon the handle of a pitchfork. Smith was adjusting a hay fork on the second floor of his barn on a farm near St. Charles. He lost his balance and pitched out of a doorway. The fork was upright on the ground and it penetrated his body several inches.

St. Paul. — Walter J. Smith, former state treasurer, is a patient in the tuberculosis ward at the state penitentiary at Stillwater. Dr. G. A. Newman, prison physician, has notified Warden G. S. Reed the prisoner is unable to work. "Dr. Newman learned Smith's condition when he examined him preparatory to his assignment to work in one of the prison's departments," Warden Reed said. "He ordered Smith taken to the tuberculosis ward for treatment."

Winona. — Two more lives have been sacrificed in the high waters of the Mississippi river. Within 300 feet of where four members of the Crogan family perished a short time ago, Josephine Wieczorek, 21 years old, and Theodosia Wieczorek, her sister, 19, were drowned.

Minneapolis. — A campaign to make the Minnesota forest parks the playgrounds of the country and prove that they are the equal of any forest parks in the world, will be worked out by the Minnesota State Forestry association at its annual meeting in Minneapolis this month.

HALF OF FIRES OF UNKNOWN ORIGIN

MYSTERIOUS BLAZES CAUSE HEAVY LOSSES MARSHAL'S REPORT SHOWS.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

Practically half of the fires of Minnesota are from unknown origin, according to the annual report of Robert W. Hargadine, state fire marshal. The fire loss in the state in 1915 was $4,722,925, and the loss from 640 fires of unknown origin was $2,319,602. Smokers' carelessness caused 111 blazes last year. The property burned because of the combination of rat-and-match caused a loss of $23,935. Defective flues were responsible for a loss of $164,180, and children and matches combined, caused eighty-two fires and a property loss of $50,000.

Mr. Hargadine in his report recommends that the law be amended to give the state fire marshal more authority to regulate motion picture shows, to prohibit the use of buildings in which occupancy is hazardous and to provide a state building code and to extend the term of the fire marshal to six years.

Frauds Affect School Funds.

Prosecutions will be brought against anybody contributing to the looting of state timber lands, State Auditor J. A. O. Preus said in a statement issued upon his return from Washington, D. C. He was suffering from an attack of appendicitis and gave out the statement from the bedside at his home. "The state has $12,000,000 or $15,000,000 worth of timber still standing on state lands, the proceeds of which are intended for the school fund," said Mr. Preus." "Anyone, be he an employee of the state, a logging contractor of a lumberman, who for selfish purposes and greed is willing to dip his hand into this fund, shall be dealt with according to his deserts. It shall be to the interest of the state that not one stick of timber shall be pilfered."

Oscar Arneson, who recently investigated alleged timber irregularities, conferred with Attorney General Lyndon A. Smith on legal aspects of the situation. His report has been submitted to the timber board.

Risk Firms Report Gains.

Statistics compiled by S. D. Works, state insurance commissioner, show that the year 1915 was an excellent one for the Township Fire Insurance companies of Minnesota. He has just completed a report of the figures for the year ending December 31. The assets of these companies at the end of the year were $490,149.06, a gain of $89,262.02 for the year.

The insurance in force December 31 was $399,390,209.95, whereas the amount in force one year previous was $372,633,197.03, showing a gain for the year of $26,757,012.87.

The number of policies in force December 31, 1915, was 172,467, as against 165,485 at the end of December, 1914, a gain of 6,982 for the year.

★ ★ ★

Favors Road Bond Plan.

"The issue of highway bonds is coming to be looked upon as the best method of raising funds for road construction," declared George W. Cooley, secretary and state engineer of the Minnesota Highway commission, in speaking of Winona county's issue of $500,000 in road bonds and the proposal of County Commissioner Cook of Hennepin county to raise $2,000,000 for better highways in the same way.

"Experience has proved that a steady supply of money, which is necessary to good road work, cannot be obtained by annual tax levies," said Mr. Cooley. "Bond issues form the method adopted by nearly half of the counties in the United States."

★ ★ ★

Advises Use of Bulk Seed.

Package lawn-grass seed is generally worthless, the state seed laboratory at university farm has found. Much attention has been given this spring to testing samples of grass seed and the results of the tests this year added to those previously made have formed the basis for the almost wholesale condemnation of package grass seeds. On the other hand, the seeds carried in bulk lots by most Minnesota dealers have been found generally good.

★ ★ ★

To Improve State Hospital.

The State Board of Control, following a visit to the state hospital for the insane at Fergus Falls, said it will ask the 1917 Legislature for appropriations of $75,000 for improvements at the institution. The board plans to erect a building for tubercular men.

Smith Seeks Re-Election.

Attorney General Lyndon A. Smith has filed as a candidate for re-election on the Republican ticket. He is the first candidate to file. It is probable that no opposition will develop in his own party. Mr. Smith said he had delayed filing because he was not sure that he desired re-election. He said friends advised that in their belief the people of the state desired him to remain in the position. Rumor had connected his name as a possible opponent to Justice Albert Schaller of the supreme court.

The Cause.

A Philadelphia woman has long purchased fish from a certain market dealer of that city. One day, when the prices seemed much too high, the housewife complained; and her complaint was met by the following rejoinder:

"Yessum, fish is high—yessum! Ain't no doubt 'bout that! Fish is awful high! Yo' see, mum, fish is gettin' scarce on account of all these heah aquariums!"—Youth's Companion.

It All Depends.

Singleton—I want to ask you a question, old chap.

Wederly—Well, come to it.

Singleton—Does a woman always mean what she says?

Wederly—That depends on circumstances. During courtship she doesn't—but after marriage you can bet she does.

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

Buy the 3 lb. Canister Can for $1.00.—Adv.

Too Slow for Her.

"Do you know what I've been thinking about for the last half hour?" asked Mr. Dubson.

"I can't imagine," answered Miss Peacher.

"I've been thinking about kissing you."

"Umph! If I'm ever about to drown I hope it will fall to somebody else's lot to throw me a life preserver."

To stop bleeding use Hanford's Balsam. Adv.

Small Returns.

"I get a nickel every time I take a dose of medicine," said Tommy Twobble.

"Ain't you got a lot o' money?" asked little Sammy Dubwaite, a delicate child.

"Naw! It's just my luck. I ain't hardly ever sick."

Knowledge is never too dear.

HUSBAND OBJECTS TO OPERATION

Wife Cured by Lydia E. Pinkham's Vegetable Compound

Des Moines, Iowa.—"Four years ago I was very sick and my life was nearly spent. The doctors stated that I would never get well without an operation and that without it I would not live one year. My husband objected to any operation and got me some of Lydia E. Pinkham's Vegetable Compound. I took it and commenced to get better and am now well, am stout and able to do my own housework. I can recommend the Vegetable Compound to any woman who is sick and run down as a wonderful strength and health restorer. My husband says I would have been in my grave ere this if it had not been for your Vegetable Compound."—Mrs. BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Before submitting to a surgical operation it is wise to try to build up the female system and cure its derangements with Lydia E. Pinkham's Vegetable Compound; it has saved many women from surgical operations.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential.

Good Substitute for Marshal.

"Our progressive little burg got a stingy spell not long ago," related the proprietor of the Tote Fair store at Petunia, "and in the interest of economy cut off the town marshal's salary. When he quit the job they got a life-size cut-out of Charlie Chaplin, stuck a tin star on it, stood it around on various corners, took it down to the depot at train times, and so forth. And 'pears like it makes just about as effective and fully as dignified a marshal as we have ever had."—Kansas City Star.

A New Remedy for Kidney, Bladder and all Uric Acid Troubles

Dear Readers:

I appeal to those of you who are bothered with kidney and bladder trouble, that you give up the use of harsh salts or alcoholic medicines and in their place take a short treatment of "Anuric." I have taken many of Dr. Pierce's medicines for the past twenty-five years with good results. I suffered with kidney trouble for some years. I recently heard of the newest discovery of Dr. Pierce, namely, his "Anuric" Tablets. After using same I am completely cured of my kidney trouble. A doctor pronounced me a well preserved woman for my age, all due, I believe, to Dr. Pierce's aid.

MRS. MELINDA E. MILLER.

If you suffer from backache, lumbago, rheumatism, get "Anuric" now.

After Grip—Winter Colds—Bad Blood

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby—then indigestion.

Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics, is the great and powerful blood purifier of today. Extracted from American forest herbs and roots. Contains no alcohol. Ingredients printed on wrapper.

Taken as directed it will search out impure and poisonous matter throughout the system and eliminate it.—Adv.

Every time a man says something complimentary to his loving wife it removes one more wrinkle from her brow.

THE MAGIC WASHING STICK

I am perfectly delighted with the Magic Washing Stick. It makes the clothes so pretty and white and it saves time and labor. I would give it for nothing I have ever used. I can recommend it highly as a labor saver as you don't have to rub the clothes at all, writes Mrs. M. A. Graham, Dustin, Okla. Guaranteed to contain no lye, acid, alkali, or any injurious ingredient. A truly wonderful article. Three Magic Washing Sticks for 25c—15 washings 25c. Sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis Minn, Distributors.—Adv.

How did it ever profit you to talk mean about your neighbors?

For thrush use Hanford's Balsam. Get it into the bottom of the affected part. Adv.

Never hit a man when he's down—unless you are sure of your ability to keep him down.

THAT INDIAN TREATY AGAIN.

W. G. Calderwood of the State Prohibition committee has again stirred up that old Indian country stink, by coming out in flaming head lines in the daily papers and requesting the railroad companies to refuse shipments of liquors into this Indian country. He lists the following villages and cities as being in Indian country.

The letter sent today was addressed to the Great Northern, Northern Pacific and Soo railroads, and to the Northern and Western Express companies. The list of additional towns to which liquor should not be shipped accompanies the letter, as follows:

Badger, Brooks, Benoit, Dugdale, Delorma, Dorothy, Erskine, Fox Flaming, Fertile, Fosston, Greenbush, Holt, Hazel, Lees, Mandus, Middle River, Melvin, Mentor, McIntosh, Newfolden, Plummer, Red Lake Falls. Rosewood, Roseau, Salol, Strathcona, Steiner, St. Hilaire, Strandquist, Stone, Tilden Junction, Thief River Falls, Warroad, Wiley, Winger, Viking.

Now we would like to arise and inquire whether this is an Indian reservation, under the control of the government, or a country settled and governed by the laws of the white men?

Prohibition or county option or temperance has nothing to do with this question at the present time, but it has resolved itself into a question as to whether this is an Indian reservation or not. The temperance fanatics, who are continually agitating this reservation liquor business have created the impression in the eastern states that the whole northern part of Minnesota is an Indian reservation, and why should they not get that impression, when all of the above towns are listed as being in Indian territory? It is time that the people of northern Minnesota united to have those old Indian treaties set aside, and that as soon as possible.

TO SURVEY RED LAKE RIVER.

Secretary Lincoln of the Commercial club Monday received a letter from Congressman Steenerson to the effect that the bill for a survey of Red Lake and Red Lake river had been incorporated in the general bill for rivers and harbors appropriations and that said bill had passed congress.

This news will be received very gratefully by not only the farmers living along the river to the east, but also to the business interests of this city, who will directly profit by any improvements to lands along the river.

For years the farmers along the river have been engaged in endeavoring to secure some action for relief from flood waters and it is due now, largely to the efforts of Congressman Steenerson, backed by the Commercial club of this city and delegations from other interested points that their efforts have at last been successful.—T. R. Falls News-Press.

It seems that the government had ought to owe this part of the state of Minnesota this improvement, and that it is badly needed will no doubt be reported by the government engineers a survey is made. That the large number of drainage ditches running into this river has obstructed the channel so that it can not take care of the flood waters as well as it has in former years, is plainly apparent to any observer who has lived here before and since the ditches were constructed.

If President Wilson would devote more of the powers of this government to protecting our citizens from being slaughtered by Mexican bandits on our frontiers, and less time in trying to protect some fool hardy Americans who insist on crossing that war zone on armed English merchant ships, he would be more highly appreciated by the American people. The difference between protecting these Americans is, that one is in his own home with his family, following peaceful pursuits, while the other one is traveling across the ocean looking for trouble, and when he finds it he should be allowed to enjoy it without any assistance from this country.

Adolph Olson Eberhart, will speak at Thief River Falls, on May 3rd at the annual banquet of the Commercial club. He had ought to exhibit a picture of that State Normal School that he stole from Thief River Falls and dropped in the jack-pines near Bemidji to boom the price of realestate for Minneapolis town site boomers. Oh yes, Adolph Olson has got something coming from the people of Thief River Falls and Pennington county, and they always pay an installment on the debt every time they get a chance to vote.

We understand that Mr. Anderson, of Fergus Falls will not file for the Republican nomination for Congress, in opposition to Congressman Steenerson. But if he does Mr. Steenerson's friends will take care of his campaign in such a manner that it will not be necessary for him to leave Congress at this time, as the people of this district are not looking for, or wanting a change of Congressman at the present time.

It seems that the Democratic papers are awfully concerned for fear that Roosevelt will be the Republican nominee. They use column after column of space, just to tell the Republicans what an awful bad man he is, and then use about four lines to say that he is just the man they want the Republicans to nominate, as he can be easily defeated by Wilson. No Republican knows who will be the nominee of the party but they all know that who ever it may be he will have the solid support of the party.

It would be the best thing that ever happened to northern Minnesota, if that W. G. Calderwood would happen to meet with a serious automobile accident that would put him out of the business of advertising this part of Minnesota, as an Indian reservation.

Although the seeding season may be a little late this year, the season later may make up with favorable weather the late start we get this spring.

THE ACHES OF HOUSE CLEANING.

The straining of muscles, the soreness, stiffness and agonising pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore parts. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain. 25c at Druggist.—Advertisement.

OUR PUBLIC FORUM

Otto H. Kahn

ON RAILWAY LEGISLATION.

In a recent discussion of the effect of railway legislation upon railway development, Otto H. Kahn, one of America's leading financiers, said among other things:

"What with the regulating activities of 43 commissions besides the interstate commerce commission, the adoption by state legislatures of rate-fixing measures, extra crew bills, and all kinds of minute enactments (between 1912 and 1915 more than 4,000 federal and state bills affecting the railroads were introduced and more than 440 enacted) the enormous increase within the last seven years in federal and state taxation, the steadily mounting cost of labor, the exactions of municipal and county authorities, etc., it will be admitted that the cup of railroad difficulties and grievances is full. I am far from holding the railroads blameless for some of the conditions with which they are now confronted. Not a few of them were arrogant in the days of their power, many mixed in politics, some forgot that besides having a duty to their stockholders, they had a duty to the public, some were guilty of grievous and inexcusable financial misdeeds. But in their natural resentment and their legitimate resolve to guard against similar conditions in the future, the people have overshot the mark. The proof of the pudding is in the eating. Not less than 38 railroads comprising 41,988 miles and representing $2,264,000,000 of capitalization, are in receivers' hands, and the mileage of new railroad constructed in 1915 is less than in any year since the Civil war. The duration of receivership has become longer and longer, far longer than it used to be, owing to the difficulty of raising the necessary funds for the rehabilitation of the properties and for taking them out of receivers' hands, which difficulties are largely due to the complications and delays resulting from the jurisdiction and views of state commissions.

"Railroad construction has practically stopped, the purchases by railroads have been reduced to a minimum, so much so that, had it not been for the windfall of the 'war orders' our steel and cognate industries would have faced an exceedingly serious situation. Railroad credit has become greatly affected. It is true that faults of management and disclosures of objectionable practices have been contributory causes in diminishing American railroad credit, but from my practical experience in dealing with investors I have no hesitation in affirming that the main reason for the multiplication of railroad bankruptcies and of the changed attitude of the public toward investing in railroad securities is to be found in the federal and state legislation of the years from 1906 to 1912 and in what many investors considered the illiberal, narrow and frequently antagonistic spirit toward railroads of commissions charged with their supervision and control.

"Considered from whatever point of view, the conclusion seems to me unavoidable that American railroad legislation, whilst sound in theory is in practice a patchwork, a makeshift, and grossly and fundamentally faulty. It has been added to, modified, tinkered with session after session in national and state legislatures; it is illogical, unscientific, confusing, vexatious and generally intolerable."

THE LOCAL NEWS

The farmers are all busy rushing the seed into the ground, which begins to get in fairly good condition.

Ole B. Omlid of Erie, was down to Sunbeam yesterday, to make application to make final proof on his homestead.

The Highlanding ferry was towed up the river from its runaway trip, on last Tuesday, by Earnest Gizzlequist and Ole Olson with their gasoline boats.

As there has been many attacks made against the Senate record of Moses E. Clapp, we have devoted a good deal of space this week to publishing part of his record. Read it over carefully.

The Highlanding ferry cannot be used to cross on with teams, until the river goes down lower than it is now, and some approaches made to it. But never mind the ferry, let's have a bridge built at Highlanding, for there are plenty of cash donations in sight to build it.

The change in the mail route from Thief River Falls to come to Mavie by train was undoubtedly brought about by the agitation over mail routes the past winter, caused by the recommendation of Postmaster Singer at Kratka, but the dictater started something when he crossed Red Lake River and stuck his nose into the business of this mail route, and now he can sit and handle the mail for nothing, while the Mavie Postmaster gets the benefit.

We are rushed with "send offs" of candidates for state office, and each one of them reminds us of a patent medicine ad, that claims that they are manufacturing the only medicine for the cure of all ills that the flesh is heir to. As we are very busy at the present time we place them all in a pigeon hole and look them over on Sunday. It is unnecessary to add that none of them inclose a check for the space used, but all claim that they are just the one the state needs. But we think we will run the risk of the state being bankrupt, if they are not elected, for we would be bankrupted, if we hired printers to place all of their "send offs" in type.

We understand that there is a movement being made to have a part of the grade on ditch 42 not graded for road purposes. We do not know much about the merits of the case, but we do know that if that grade is not made into a passable road, that the people of that locality will soon be without mail service, as that is the only road that can be made in a passable condition, at all seasons of the year running north and south through that territory. The mail carrier on the present route reports that he can not get through there now, without driving through fields and across lots, and we were in hopes that the grading of this road would make a passable road, but if the people don't want roads, they can't expect to get mail service.

TO RID CHILD OF WORMS.

Don't scold the fretful, nervous child. Often its due to worms. Get rid of these by giving one-half to one lozenge Kickapoo Worm Killer, a laxative worm candy. Give only plain nourishing food, lots of out-door exercise and put to bed early. Watch stools and continue giving Kickapoo Worm Lozenges, they will positively remove the worms. 25c. at Druggists.—Adv.

Senator Moses E. Clapp In Accord With The People of Minnesota.

That Senator Moses E. Clapp has always been in accord with public sentiment, and that his votes in the U. S. Senate have been recorded as a majority of the people of the State would have registered their own opinions, is a fact clearly borne out by the official records.

In the broad struggle which always has existed, and exists today, between the efforts of the few to control the government in their interest, and the welfare of the many for whom government was really instituted, a struggle which formed an important part of these great policies which came to be known as "The Roosevelt Principals," the Senator took an active part, and was an advocate of these measures which became laws, and which were approved by the majority of the voters.

The first thing of importance taken up by Senator Clapp, when he entered the Senate, was the effort to amend the Constitution, so that U. S. Senators should be elected by a direct vote of the people. He was an uncompromising champion of this amendment and the first U. S. Senator from Minnesota to make speeches in favor of popular elections of Senators.

During his present term, on July 31st, 1913, Senator Clapp made this statement on the floor of the Senate.

"During my comparatively short service in this body, I recall the plea I made for the right of the American people to elect Senators of the United States, by direct vote, and I was met with such scorn and derision by Members of this body at that time, that one distinguished Senator could show his contempt in no other way than by arising in his place and leaving this chamber."

PASSED THE ANTI-REBATE BILL.

In 1903, Senator Clapp, as a member of the great committee on Interstate Commerce, had charge of the anti-rebate and anti-discrimination bills, and on February 3rd of that year he called up and put through the anti-rebate bill. This law was attacked, and had to run the gauntlet of the courts, but was sustained at every point. Subsequently nearly all the suits brought against combinations were brought under this law. In 1906, when there was such a protracted struggle in the Senate over the Hepburn bill, which finally gave the Interstate Commerce Commission the right to fix rates, Clapp and Dolliver were the leading advocates of this legislation and its passage was largely due to the efforts of Senator Clapp.

Again in 1910, when a great effort was made to repeal railroad legislation, Senator Clapp and Cummins brought in the minority report condemning the action of the majority of the committee, and pointed out the reactionary features of the proposed legislation. In the end, every item they opposed was stricken out, except the one providing for a Commerce Court, and that was repealed at the following session.

OPPOSED FREE TRADE WITH CANADA.

When the attempt was made in 1911, to subject the farmers of Minnesota to free trade with Canada, Clapp was a vigorous opponent of the bill, speaking several times in opposition.

Meanwhile he has risen to the position of chairman of the committee on Interstate Commerce, and about the first thing he did was to offer and pass a resolution providing for an investigation into trusts and corporations engaged in interstate commerce. This was followed by a far-reaching and exhaustive series of hearings and investigation lasting more than a year, and which finally resulted in the passage of the Federal Trade Commission Bill and the Clayton Anti-trust Act.

A HISTORIC INVESTIGATION.

All through the summer months of 1912, when Congress was in session, and when it was in recess, Clapp, as chairman of a special committee to inquire into the campaign methods, and the contributions employed in the presidential and congressional elections of 1904—1908, and the primaries of 1912, conducted one of the most sweeping inquisitions in the history of Congress. He sent subpoenas to men who have played big politics in a big way during the past decade, including a former president of the United States, a former candidate for that office, United States Senators and Ex-senators, Members and Ex-members of Congress, also men most prominent in the business and financial world, including the elder J. Pierpont Morgan, John D. Archbold, head of the Standard Oil Company, Thomas F. Ryan, Ogden Mills, Chauncey M. Depew, W. R. Hearst, William Flinn, Roger Sullivan, John D. Weeks, now a presidential candidate, Postmaster General Hitchcock, and former Secretary of the Treasury Cortelyou, and hundreds of other witnesses.

To be continued next week.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL	24 large or 36 small	$3.95
(Brewed Specially for Family Use)		
WHITE SEAL	24 large or 36 small	3.70

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin drinking phosphated hot water. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with body impurities, get from your druggist or storekeeper a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish tinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.—Adv.

Set a bad example and it will hatch out mischief.

The Magic Washing Stick

I am perfectly delighted with the Magic Washing Stick. It makes the clothes so pretty and white and it saves time and labor. I would give it for nothing I have ever used. I can recommend it highly as a labor saver as you don't have to rub the clothes at all, writes Mrs. M. A. Graham, Dustin, Okla. Guaranteed to contain no lye, acid, alkali, or any injurious ingredient. A truly wonderful article. Three Magic Washing Sticks for 25c—15 washings 25c. Sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

Wolves Trained to Work.

Deming Wheeler, a fur buyer of the Tenana and Goodpasture countries, Alaska, caused no little comment recently when, headed for the Koyukuk, he drove a team in which were included three full-blooded wolves. Aside from their natural viciousness, he reported them as in all respects equal to dogs as workers, and noticeably more hardy. While many Alaskan drivers use animals half dog and half wolf, this was the first instance so far as known of pure-blooded wolves being successfully worked. The malamute dog crossed with a wolf is thought by many experienced mushers to be preferable to all others, because of his supposed greater endurance and tractability. Reindeer are used to some extent, chiefly by natives, but are thoroughly untrustworthy. When a reindeer takes it into his head to stop to feed or lie down, he simply does it, and no means has yet been discovered to induce him to move on until it suits his personal wish.

Happy Day.

"Did you hear that Barclay's wife has gone away and left him?"

"No! Is that so? I believe I'll go around and borrow some money from him while he's in a cheerful mood."

Kisses are the real thing only when backed up by the heart.

EXPERIMENTS
Teach Things of Value.

Where one has never made the experiment of leaving off coffee and drinking Postum, it is still easy to learn something about it by reading the experiences of others.

Drinking Postum is a pleasant way out of coffee troubles. A Penn. man says:

"My wife was a victim of nervousness, weak stomach and loss of appetite for years; and although we resorted to numerous methods for relief, one of which was a change from coffee to tea, it was all to no purpose.

"We knew coffee was causing the trouble but could not find anything to take its place until we tried Postum. Within two weeks after she quit coffee and began using Postum almost all of her troubles had disappeared as if by magic. It was truly wonderful. Her nervousness was gone, stomach trouble relieved, appetite improved and, above all, a night's rest was complete and refreshing.

"This sounds like an exaggeration, as it all happened so quickly. Each day there was improvement, for the Postum was undoubtedly strengthening her. Every particle of this good work is due to drinking Postum in place of coffee." Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c pkgs.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

SCOTT AND FUNSTON AT JUAREZ, MEET OBREGON; DISCUSS CO-OPERATION

SECRETARY BAKER REFUSES TO GIVE OUT CONTENTS OF REPORT FROM SCOTT ON BORDER MEETING.

FURTHER ANTI-AMERICAN DEMONSTRATIONS LIKELY

Obregon Calls Attention to Danger of Outbreaks Such as That at Parral, If Expedition Is Long Continued —Mexican Official's Attitude Friendly.

Washington, May 2.—While no inkling of the contents of General Hugh L. Scott's report to Secretary Baker on his conferences with General Obregon, the Carranza war minister, was given out here, it was learned that administration officials regard the conference as still in its preliminary stage.

Mr. Baker took the messages to President Wilson before sending a reply. Afterward he declined to discuss the situation. Few other officials had any knowledge of the report and they were equally silent. The impression prevailed, however, that they viewed the progress of the conference at the border as normal and regarded it up to this point merely as an exchange of views.

Further Outbreaks Likely.

There is nothing to indicate that General Obregon's views as to the withdrawal of the American expedition were presented as demands or were more than an explanation of the situation in which the de facto government finds itself.

The Carranza military chieftain has made no secret of his intention to call to General Scott's intention the likelihood of further anti-American demonstrations such as that at Parral, if the expedition was long continued.

Obregon's Statements Friendly.

General Obregon's public statements in this connection have been of an entirely friendly character and there was no suggestion here that his attitude had changed in any way in his talks to General Scott.

Secretary Baker has held that the question of withdrawal is one for the state department and has confined himself to the purely military questions involved in the bandit chase.

To Discuss Co-operation.

With this question settled, officials here appear to believe that the future meetings between the military advisers of the two governments would be devoted to the question of co-operation.

It has been suggested that the administration might be willing to hold its ground in a comparatively limited area beyond the border and permit the chase to be continued by the Carranza forces without interference unless it led into the American line.

Final Efforts to Avert Strike.

New York, April 28.—Thirty representatives of the United Mine Workers of America and an equal number of mine operators are here for a meeting of their joint conference committee and a final vote on the demand of the miners for an eight-hour day, a 20 per cent increase in wages and recognition of the union. Should they fail to break the deadlock over these demands, it is understood the leaders of the miners will prepare a set of resolutions to be presented to the miners' convention May 2.

DEMANDS OF U. S. GENERALS AT CONFERENCE IN JUAREZ

Open and effective co-operation between the Carranzistas with the Americans.

Extension of the lines into Mexico at least as far as Casas Grandes, and probably further.

Regulation to the American military the duty of "policing a northern zone," consisting of the territory directly south of the international boundary.

Policing of the remainder of the territory—a southern zone—by the Carranza troops.

Co-operation in the handling of supplies for the American troops.

Granting the use of the Mexican railways to the expeditionary force.

MORE THAN 1,000 TROOPS CROSS LINE INTO MEXICO

Largest Force of U. S. Soldiers Since Bandit Chase Started, Leaves Columbus.

El Paso, May 1.—More than 1,000 troops crossed the border into Mexico at Columbus. The movement included two squadrons of the Sixth cavalry and was made on orders from General Pershing. The explanation offered was that constitutionalist troops are being concentrated in Cusihuirachec, Temosachic and Tanto Tomas.

It is the largest force of troops which has left Columbus since the initial command crossed the border six weeks ago.

The soldiers left Columbus upon orders of General J. J. Pershing, expeditionary commander, and it was stated at military headquarters that no reasons had been outlined in the order.

OBREGON DEMANDS RECALL

Says War With Mexico Can Be Averted Only in This Way.

El Paso, Texas, May 1.—Mexican Minister of War Alvaro Obregon in conference with Major Generals Hugh L. Scott and Frederick Funston over the Mexican situation asked for the immediate withdrawal of the punitive expedition. He said by no other course could war between his people and the United States be averted. The first demand was made without qualifications. The experienced American generals, however, expect the Mexican official to ultimately yield to an agreement for a reasonable time limit.

Dublin Rebels Repelled by Bombs.

London, May 1. — The Dublin rebels have been driven out of their positions in St. Stephen's Green with bombs after sustaining heavy losses, says the Daily News. Four hundred Irish rebels were made prisoners.

U. S. Marines Ready for Haiti Trouble.

Washington, April 29.—Rear Admiral Caperton, commanding the American naval forces in Haiti, has plenty of marines and bluejackets to deal with any situation which may arise as the result of the row between President d'Artiguenave and the assembly. Changes in the little republic's constitution are regarded as necessary on account of the American protectorate treaty and it is probable that Admiral Caperton will give the President such support as he may need in bringing them about.

Water-Supplying Tree.

The rain-tree of Colombia measures about fifty feet high when at maturity, and about three feet in diameter at the base. It absorbs an immense quantity of moisture from the atmosphere, which it concentrates, and subsequently sends forth from its leaves and branches in a shower, in some instances so abundantly that the ground in its vicinity is converted into a quagmire. It possesses this curious property in its greatest degree in the summer, precisely when the rivers are at their lowest and water most scarce.

Chores and School Credits.

Schoolmen everywhere are coming to realize that their duty to their pupils does not begin with the school day nor end with the school yard. They have learned that the quality of a child's school work and school deportment depends, in a large measure, upon the nature of his home environment; they believe that the child ought not to be handicapped in his development and education by the misfortunes or shortcomings of his parents; and they know that, if the school is to accomplish its object, it must, in many instances, supply the deficiencies and counteract the improper tendencies of home training. A very interesting instance of the tendency to extend the influence of the public school is the policy, now in force in the schools of Los Angeles, of granting school credit for home chores done under the supervision of teachers and parents.—Thomas J. Davis, in Countryside Magazine.

Dignities of Office.

This story—which is perhaps true and perhaps not—is being told in many Italian messrooms. On one of his royal tours, King Victor Emmanuel spent the night in a small country town, where the people showed themselves unusually eager in caring for his comfort. So when he had gone to bed, he was surprised to be wakened by a servant who wanted to put clean sheets on his bed. However, he waited good-naturedly while it was done, and wished the servant good night. He had dozed off to sleep, when he was roused for the second time by a rap on the door; and the servant reappeared, asking to change the sheets again. Naturally, the king asked why the change was made so often. The servant answered reverently, "For oneself, one changes the sheets every week, for an honored friend every day, but for a king every hour."—Youth's Companion.

Far From Complimentary.

When any young woman of Spriggs Corner attempted to coquette with Elisha Boggs or to draw a compliment from him she was sure to have "uphill work." "My brother Tom has a sore throat; he's had it for nearly a week," said a damsel whom Elisha was solemnly escorting home from the social evening. "If it hadn't been for that," she added, with a slanting glance from under her lashes toward Mr. Boggs' impassive features, "I'd not have had to trouble you to see me home, Mr. Boggs." "What we need in this town," said Mr. Boggs, "is another doctor and a spryer one. The way trifling little ails linger on under old Doc Jones is enough to drive folks crazy."—Pittsburgh Chronicle-Telegraph.

Hot Indorsement.

An amusing illustration of a very excusable misuse of idiom comes from Calcutta. Mrs. Ada Lee tells the story: "The Lee Memorial Normal Training school needed a teacher, or pundit, as such a one is called in India, for mathematics. An advertisement was inserted in the Calcutta Statesman. There were many applicants, one of whom promised enthusiastically, 'If you will give me the appointment I shall not cease to throw hot water into the institution from the time I enter until I leave.' Of course, the pundit supposed that his efforts would have just the opposite effect from throwing cold water on the enterprise."—World Outlook.

Milk Production in United States.

The production of milk in the United States in 1915 is estimated at about 11,590,000,000 gallons; this figure is obtained by applying an estimated yield per cow of 537 gallons, as indicated by estimates made by crop correspondents of the bureau of crop estimates, to the mean of the number of cows at the beginning and at the close of the year. This production is equivalent to about 115 gallons per capita population of the United States. In the North Atlantic states the per capita production is estimated to be about 71 gallons; in the South Atlantic states 66 gallons; in the South Central states 88 gallons, and in the far Western states 131 gallons.

GOVERNMENT LANDS FOR SETTLEMENT.

200 Miles Northwest of Duluth on Canadian Northern Railway.

The Department of Indian Affairs will sell by public auction at Rainy River, Ontario, Canada, on Tuesday, the 16th of May, 1916, many thousands of acres of splendid Farming Lands, which have just been relinquished by the Indians to the Government.

This is your opportunity to secure valuable land, worth not less than $10.00 per acre, at Public Auction.

The land lies in the heart of the famous Rainy River Valley—"where clover is a weed." Surrounded by thickly settled townships, schools, churches and splendid markets at your doors.

For further particulars write Secretary Board of Trade, Rainy River, Ont. —Advt.

LEADER OF IRISH REBELS ADVISES MEN TO GIVE UP

WOULD PREVENT FURTHER SLAUGHTER OF UNARMED PEOPLE AND SAVE LIVES OF SURROUNDED FOLLOWERS.

HOPELESSLY OUTNUMBERED; MAIN BODY SURRENDERS

Fighting Continues Throughout Sunday in Dublin and Suburbs—Countess Markievicz, Prominent Figure in Street Car Riots in 1913, Is Taken Prisoner.

Kingstown, Ireland, May 2. — The proclamation issued by "Provisional President" Pearce, advising the surrender of all the rebels, follows:

"In order to prevent the further slaughter of unarmed people and in the hope of saving the lives of our followers who are surrounded and hopelessly outnumbered, the members of the provisional government at headquarters have agreed to unconditional surrender, and the commanders of all the units of the Republican forces will order their followers to lay down their arms. (Signed)

"PEARCE."

Kingstown, Ireland, May 1. — The main body of the Sinn Fein rebels in Dublin has surrendered.

There was, however, considerable fighting throughout Sunday in Dublin and the suburbs. It was especially severe at Bals bridge, outside Dublin.

The rebels in the college of surgeons surrendered. One of the prisoners taken here was the Countess Markievicz.

Active Leader in Riots.

The Countess of Markievicz was a prominent figure in the street car riots in 1913, led by James Larkin. For a number of years she has been an ardent militant Socialist and Sinn Feiner.

Early in the present year the home of the countess in Dublin was raided by the police under the defense of the realm act and a printing press and type with which it was alleged pro-German literature was being printed were seized. Some reports had it that arms also had been found in the home of the countess and that letters seized during the raid led to the discovery of an arsenal of the Sinn Feiners.

Small Bands Still Fighting.

Although the principal leaders of the rebel movement have laid down their arms and advised their followers to acquiesce in an unconditional surrender, there is no doubt that there will be still great difficulty in restoring peace in Dublin and the surrounding districts, for numerous small bands of rebels evidently either have not received the leaders' orders, or doubt the authenticity of the orders and have, at any rate, determined to continue guerilla warfare.

Situation Is Dangerous.

That the situation in Dublin was still regarded as dangerous, despite surrender of a majority of the rebels, was indicated by the fact that few persons were permitted to penetrate into the city through the rigid military cordon which surrounds it.

No one is allowed to enter Dublin without written permission from the highest authority and then only at his own risk. Moreover, the people are warned that this risk is considerable as stray bullets are likely to meet the visitor from some unexpected quarter.

MACHINE GUNS KILL REBELS

Sinn Fein Revolutionists Set Fire to Parts of Dublin.

Dublin, May 1.—Amid roaring flames that threatened to sweep this city of more than 500,000 inhabitants, British troops and Sinn Fein rebels have been engaged in a furious handtohand struggle.

O'Connell and Grafton streets in Dublin are in flames and artillery is being used on the houses, the inhabitants having been removed.

The rebels, routed by the government troops, scurried away as dawn broke upon the blackened ruins of Sinn Fein strongholds in the heart of Dublin. In their flight they were mowed down by Maxims and rifle fire and lost heavily.

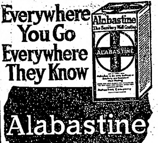
It is now estimated that more than 100 persons were killed or are missing as the result of the four days of street fighting.

English Statesman Dies.

London, May 1.—Earl St. Aldwyn, a veteran English statesman, twice chancellor of the exchequer and twice chief secretary for Ireland, died at his country home, Coln St. Aldwyn, Fairford, Gloucestershire. He was born in 1837.

To Prevent Spread of Stripe Rust.

Washington, May 1.—The department of agriculture is taking steps to prevent the spread of the serious stripe rust of cereals (puccinia glumarum) recently found in this country, but thus far known to occur only west of about the 104th meridian, or the west boundary of North Dakota. The bureau of plant industry and the federal horticultural board have arranged that no samples of seed collected in this area shall be distributed by the department to points east of the 104th meridian.



Everywhere You Go Everywhere They Know

Alabastine

FOR 35 years Alabastine has been the choice of housewives who take particular pride in the decoration of their homes.

For 35 years Alabastine has been sold everywhere by paint, hardware, drug, and general stores. It is known by dealers and users alike as the "tint beautiful" for walls and ceilings.

Alabastine is a dry powder that mixes perfectly in cold water. You can apply it yourself or your local painter will do the work reasonably. Be sure that you get Alabastine brought on the job in properly labeled packages.

Free Color Plans

The best decorators advise the use of stencils to produce contrasting wall and ceiling borders. Ordinarily, stencils cost from 50 cents to $3.00 each; but if you will write for the free "Alabastine Packet," containing hand colored proofs of 12 of the very latest stencil effects, we will tell you how you can have your choice of these and 500 others at practically no expense. Write today for this *absolutely free decorating service.*

For a really fine coffee at a moderate price, drink Denison's Seminole Brand, 35c the lb., in sealed cans.

Only one merchant in each town sells Seminole. If your grocer isn't the one, write the Denison Coffee Co., Chicago, for a souvenir and the name of your Seminole dealer.

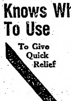
Buy the 3 lb. Canister Can for $1.00. —Adv.

"If" is the most unsatisfactory word in our language.

Answer the Alarm!

A bad back makes a day's work twice as hard. Backache usually comes from weak kidneys, and if headaches, dizziness or urinary disorders are added, don't wait—get help before dropsy, gravel or Bright's disease set in. Doan's Kidney Pills have brought new life and new strength to thousands of working men and women. Used and recommended the world over.

A Wisconsin Case



"Every Picture Tells a Story"

J. S. Marthenke, horse shoer, 1646 N. Main St., Racine, Wis., says: "I had lumbago so bad that I couldn't straighten up after I bent over. I have always believed that the start of my kidney trouble came when I was a boy and fell off a ladder. I was laid up for months and after that, my back and kidneys troubled me. Doan's Kidney Pills put a stop to the lumbago and regulated the action of my kidneys."

A LAND PROBLEM AHEAD

(FROM THE PEORIA JOURNAL.)

The Nebraska State Journal calls attention to the fact that Uncle Sam's opening of a 4,000-acre tract in the North Platte irrigation district for settlement practically winds up the "free land distribution" of the nation. It adds:

> "Free or cheap land has been the American safety valve. A population straining for self-betterment has had its own remedy—to go west and grow up with the country. With the government reduced to advertising an opening of forty-three farms, the safety valve may be considered forever closed. The expansive energy formerly exerted outward, must hereafter work itself out intensively. Increasing land speculation, with rapidly rising prices of land and proportionately increasing dissatisfaction among the landless would seem inevitable. The tone of our politics and the intensity of our social problems cannot but be vitally changed under the strain of dealing internally with a social pressure which hitherto has had the wilderness to vent itself upon.
>
> "'Land hunger' will soon become a reality in this rapidly growing country and the constant pressure of population, increasingly higher than the ratio of production, is bound to bring us face to face with economic problems that we have heretofore considered remote. The far-sighted statesman and publicist must devote his thought earnestly to the consideration of these questions if we are to escape the extremes which curse the older nations of the world."

In the above will be found one of the reasons that the Canadian Government is offering 160 acres of land free to the actual settler. There is no dearth of homesteads of this size, and the land is of the highest quality, being such as produces yields of from 30 to 60 bushels of wheat per acre, while oats run from fifty to over hundred bushels per acre. It is not only a matter of free grants, but in Western Canada are also to be had other lands at prices ranging from $12 to $30 per acre, the difference in price being largely a matter of location and distance from railway. If one takes into consideration the scarcity of free grant lands in the United States it is not difficult to understand why there has been most material advances in the price of farm lands.

A few years ago, land that now sells for two hundred dollars an acre in Iowa, could have been bought for seventy-five dollars an acre or less. The increased price is warranted by the increased value of the product raised on these farms. The lands that today can be had in Western Canada at the low prices quoted will in a less time than that taken for the Iowa lands to increase, have a proportionate increase. In Nebraska the lands that sold for sixteen to twenty dollars per acre seven years ago, find a market at one hundred and seventy-five dollars an acre, for the same reason given for the increase in Iowa lands. Values in these two States, as well as in others that might be mentioned, show that Western Canada lands are going at a song at their present prices. In many cases in Western Canada today, there are American settlers, who realize this, and are placing a value of sixty and seventy dollars an acre on their improved farms, but would sell only because they can purchase unimproved land at such a low price that in another few years they would have equally as good farms as they left or such as their friends have in the United States.

The worth of the crops grown in Western Canada is of higher value than those of the States named, so why should the land not be worth fully as much. Any Canadian Government Agent will be glad to give you information as to homestead lands or where you can buy.—Advertisement.

Silent neighbors make a desirable neighborhood.

KIDNEY TROUBLE WEARS YOU OUT

I had Kidney and Stomach trouble for several years and lost over 40 pounds in weight; tried every remedy that I could and got no relief until I took Swamp-Root. It gave me quicker relief than anything that I ever used. I now weigh 185 pounds and am singing the praises of Dr. Kilmer's Swamp-Root and recommending its use to all who have stomach and kidney troubles.

Respectfully yours,
E. C. MENDENHALL,
McNeil, Arkansas.

Subscribed and sworn to before me, a Notary Public, this 27th day of March, 1915.
J. W. RHEA,
Notary Public.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

The sweetness of revenge often sours the disposition.

Kill the Files Now and Prevent disease. A DAISY FLY KILLER will do it. Kills thousands. Lasts all season. All dealers or six cent express paid for $1. H. SOMERS, 150 De Kalb Ave., Brooklyn, N. Y.—Adv.

The very latest thing in dress goods is a new baby.

FRENCH GAIN IN FIGHTING NORTH OF VERDUN LINE

CAPTURE GERMAN TRENCH AND PRISONERS NEAR DEAD MAN'S HILL AND IN CUMIERES REGION.

FOUR TEUTON AEROPLANES BROUGHT DOWN IN FRANCE

Berlin Announces French Machine Also Is Forced to Descend in Battle Over Verdun—Austrian Attack on Col di Lana Repulsed—Slavs Captured in Russia.

London, May 2. — The advantage was with the French in the fighting on several sectors to the northwest of Verdun. A German trench was captured and 53 prisoners taken north of Dead Man's hill. A similar gain in which 30 prisoners were taken was reported to the north of Cumieres.

Four Fokkers and four other German aeroplanes were brought down by the French, it is said, and Berlin announces that in a fight over Verdun one French machine was forced to descend.

Austrian Attack Repulsed.

Elsewhere on the French front, except for small infantry attacks, notably in the Vosges mountains and in the region of Lassigny, bombardments alone have been in progress.

A similar situation obtains on the Austro-Italian front. An Austrian attack on the Col di Lana was repulsed.

Surrender of 600 Austrians, 22 of whom were officers, north of Mouravitz, in the Ikwa river region is reported by Russia. The Slavs forced out of their trenches later retook them inflicting heavy casualties.

Slav Prisoners Taken.

Four guns, one machine gun and 83 prisoners were taken by the Germans in an attack on the Russian positions in the region south of Lake Narocz according to the Berlin report. Petrograd says the fighting in that region has diminished in intensity.

The Russians repulsed a Turkish offensive in the vicinity of Diarbekt, Asiatic Turkey.

In East Africa the British are continuing their successes against the Germans, having taken munitions convoys and a large number of cattle suitable for food, near Kondoairangi.

BRITISH AT KUT SURRENDER

Besieged Garrison Destroys War Munitions Before Turks Enter Town.

London, May 1.—The British garrison of Kut-El-Amara, 105 miles southeast of Bagdad, has surrendered to the Turks, it has just been officially announced.

The forces surrendering were composed of 2,970 British and 6,000 Indian troops, the war office announced.

General Townshend had been besieged for more than 140 days when he surrendered.

The capitulation at Kut-El-Amara is the first instance in the present war and one of the few occasions in more than a century of wars in which a British garrison besieged by the enemy has been forced to surrender.

The British forces surrendered to the Turks after ineffectual attempts had been made to rush supplies of food to their camp.

The official statement added that General Townshend destroyed all his guns and ammunition before surrendering.

COLONEL ASKS WEST TO LEAD

Says Answer to Preparedness Question Universal Training.

Chicago, May 1.—The declaration by Theodore Roseveit in his address at the banquet of the Illinois Bar association that the ultimate answer to the question of preparedness in this country must be universal training, was greeted with a storm of cheers and applause. A cloud of napkins and menus was thrown into the air while the banqueters shouted their approval.

"I ask you of the West," he said, "to take the lead in the effort for a robust and virile nationalism, fit and ready to cope with all possible dangers at home and abroad."

Train Hits Auto; Three Killed.

Decatur, Ill., May 1.—Dr. E. H. Trezona of Gibson City his mother-in-law, Mrs. McLean, 60, and Miss Gertrude Shaw, 40, were killed instantly at Garver, Ill., when a Wabash limited passenger train struck their automobile at a crossing. Mrs. Trezona, 22, probably fatally injured, was brought to a Decatur hospital.

German Aeroplanes Shot Down.

Paris, April 29.—Numerous air raids along the western front, in which German planes, including a fokker, were brought down, are reported. There were no important activities on the whole front, excepting intermittent bombardment of Verdun. A French squadron dropped 18 bombs on La Marche station in the Woevre. One German plane attacked by the French dropped near Douamont, badly damaged, and another fell near Montfaucon. A French aviator defeated a foker, which fell behind the lines.

BRITISH WARSHIP HITS MINE

H. M. S. RUSSELL SINKS IN MEDITERRANEAN—124 MISSING.

Eleventh Battleship Lost During the War Was Comparatively An Old Vessel.

London, April 29.—The British battleship Russell has been sunk in the Mediterranean by striking a mine.

There were more than 800 men on board the Russell and about 124 are missing.

The Russell was comparatively an old vessel, having been completed in 1903. She displaced 14,000 tons and her heavy guns were four of the 12-inch type.

The Russell was the eleventh battleship which has been lost during the war. The others were the Audacious, Bulwark, Formidable, Irresistible, Ocean, Goliath, Triumph, Majestic, Natal and King Edward VII. In addition about 35 other British warships of various classes have been destroyed.

RESERVE BANK REPORTS SHOW GREAT PROSPERITY

Monthly Survey of Business Conditions Throughout the Country Is Made Public.

Washington, May 1. — The monthly survey of business conditions throughout the country, reported to the federal reserve board by agents in each reserve district, and made public here, shows that prosperity continued to increase during April in virtually every section of the United States, especially in Eastern manufacturing centers. A synopsis of the survey by districts follows:

New York—The volume of goods produced and sold last month was probably greater than in any March on record.

Volume of Business High.

Chicago—Money is hardening slightly. Manufacturers and wholesale merchants are enjoying good business. The fall wheat condition is reported to be unsatisfactory in many localities. Decreased wheat crops are in prospect. The volume of general business continues high.

St. Louis—This district is in excellent business condition. Producers and manufacturers are operating to capacity, shipments of merchandise show large increases and the buying power of the general public has increased.

San Francisco—Lumber prices are up $3 to $5 per thousand feet and orders are greater than mill capacity. The acute shortage has caused an unparalleled activity in shipbuilding. Trade and financial conditions appear to be excellent.

U-BOAT SITUATION CLEARER

Relaxation of Tension Is Attributed to Reports From German Sources.

Washington, May 1.—There is a marked relaxation of tension on the U-boat situation. It was attributed largely to the knowledge emanating from German diplomatic sources both in Washington and Berlin that the German foreign office has completed its reply to President Wilson's note on the submarine issue and that the kaiser is discussing the whole subject of friendly relations between the two nations with Ambassador Gerard.

In the belief that German officials have met the ambarrassing problem facing them, there is now much conjecture as to how far the kaiser has gone to meet President Wilson's contentions and demands.

BRITISH SHIP TORPEDOED

Steamer Industry Sunk in Atlantic—Crew Left in Open Boats

London, April 29.—The British steamer Industry, has been sunk by a submarine in the Atlantic, the admiralty announced. The crew was left in open boats, but was rescued by the steamer Finland.

GERMAN SUBMARINE SUNK

Destroyed Off British East Coast—Crew Captured.

London, April 29.—A German submarine has been sunk off the east coast, it is announced officially. Eighteen men on the submarine were captured.

Methodists Back Wilson.

Saratoga Springs, May 1. — Assurance that Methodists of the United States were in sympathy with President Wilson's efforts to keep the United States from becoming involved in the European war was voiced here by Bishop Earl Cranston of Washington, D. C. Bishop Cranston, who will open the twenty-seventh general conference of the Methodist Episcopal church here, was addressing a preliminary service.

5 Cents a Minute for Baby Astor.

New York, May 1. — It costs a little more than 5 cents a minute to support the 4-year-old posthumous heir of the late Colonel John Jacob Astor, a victim of the Titanic disaster, according to an accounting filed here with the surrogate by the child's mother and guardian, Mrs. Madeline Talmage Force Astor. Although $20,000 a year was allowed by the court for the maintenance of the child, Mrs. Astor declared it has been impossible to supply all his wants with that amount.

State News

Important Doings of Past Few Days Throughout Minnesota. Edited & Arranged for Our Readers.

AT THE STATE CAPITOL

Extra Shifts Work at Prison.

Night and day shifts are being worked at the Stillwater prison binding twine plant and the factory is being pushed to its fullest capacity. Last year the prison twine plant turned out over 21,000,000 pounds of binding twine, and that figure will be exceeded this year.

* * *

Teachers Get Pensions.

Twenty-five applications for membership in the state teachers' insurance and retirement fund have been accepted by the trustees in charge of the fund. At the same time three teachers were placed on the retired list and will receive teachers' pensions at once.

* * *

Minnesota Attracts Colonists.

The "forward to the land" movement is under way, and statistics compiled by the Minnesota commissioner of immigration indicate the colonization movement for the fiscal year probably will eclipse the record of 1908-9, when hundreds of homesteaders and others settled on government land.

* * *

Not Subject to State Law.

Candidates for U. S. senator and representatives in Congress cannot be hampered in their expenditures by the Minnesota corrupt practices act. Under the state law, candidates for the office mentioned are limited to an expenditure of $2,500 but Attorney General Smith holds that the state law does not apply.

* * *

To Name Secretary In July.

Charles M. Andrist, who was private secretary to Governor W. S. Hammond and has held over in that capacity under Governor J. A. A. Burnquist, whom he opposed as a candidate for lieutenant governor in 1914, will remain in office until after the June 19 primaries, Governor Burnquist announces. No changes will be made in the employes of his office until July 1, the governor said.

* * *

"U" Free From Politics.

President Vincent has returned to the university after an absence of six weeks spent in the west and south in the course of which he lectured at several universities. He reported that so far as a traveler could judge, Minnesota was to be congratulated on many things in comparison with institutions in other states. "This is notably true of the freedom of the University of Minnesota from political control and influence," he said.

GOPHER STATE NOTES

Red Wing. — In a spirited election, with the license question the main issue, Red Wing voted wet by a majority of 158. The drys gained more than 100 votes since the county option election in June.

Minneapolis. — Minnesota delegates and alternates to the Republican national convention at Chicago will leave the Twin Cities in special cars for the convention Sunday, June 4, arriving in Chicago June 5. The convention opens June 7. The Milwaukee road has been selected by the delegates as the official route.

St. Cloud. — That by maintaining the Cold Spring dam at a height of 7.11 feet the milling company of that village is not violating the right given it by the state supreme court is the opinion of County Attorney Paul Ahles in his report to the county commissioners, following a complaint entered by farmers of Richmond that the water is backing up and overflowing the roads.

Winona. — The Mississippi at Winona is higher than it has been in 20 years. It has spread over a vast area, reaching points several miles from the normal shore line. Hundreds of men, all the laborers available, are working to prevent further railroad washouts, but their task appears almost hopeless. The only remaining Twin City-Chicago lines may be severed by the onrushing water shortly, it is said.

Austin, Minn.—Austin is entertaining the largest convention ever held here; 1,200 delegates from every part state are here to attend the sessions of the Minnesota Sunday School association. A special train from the twin cities arrived with 400 delegates. They were met at the station by reception committeemen wearing large white buttons bearing the words, "Ask me, I live here." High school cadets acted as escort to the church.

Golden Valley.—School children in Golden Valley are taken to school under armed escort, and their parents go about their work with shotguns and revolvers following a raid on the district by a mad dog which ruled in a short reign of terror among the farming population.

St. Cloud.—Stearns county officials have received their share of more than $4,000 that will have to be expended by the Northern States Power company in recording deeds transferring property along the Mississippi river, formerly held by the Mississippi River Electric company.

U. S. Corn Imports.

Imports of corn into the United States, as reported by the bureau of foreign and domestic commerce, amounted to 5,011,000 bushels from July 1 to November 30, 1915, and the exports were 6,877,000 bushels. In the corresponding period last year imports were respectively 7,762,000 and 5,427,000 bushels.

The Wonderful Magic Washing Stick

The Magic Washing Stick, the greatest helper woman ever had with her washing, and I have been singing its praises to my neighbors, writes Mrs. Mollie Martin, Route 3, Apache, Okla. It is truly a wonderful article, saving all the washboard labor on washday. 15 washings 25c. Sold by all grocers everywhere. **Winston, Harper, Fisher Co.,** Minneapolis, Minn., Distributors.—Adv.

Wouldn't Hurt Him.

"Do you think that stimulants would hurt me, doctor?"

"Not if you leave them alone."

Quite Lucky.

"I cashed a check for Smithers last week and it came back from the bank marked 'No funds.'"

"Maybe that's why he asked you to cash it instead of the bank."

BAD COMPLEXION MADE GOOD

When All Else Fails, by Cuticura Soap and Ointment. Trial Free.

If you are troubled with pimples, blackheads, redness, roughness, itching and burning, which disfigure your complexion and skin, Cuticura Soap and Ointment will do much to help you. The Soap to cleanse and purify, the Ointment to soothe and heal.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Not Always Flourishing.

"Love cannot lie."

"Maybe not. But sometimes it gets a trifle bilious."

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely.

It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

THE SUNBEAM.
BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

A MISFIT "LID."

The term of the United States district court for this division of Minnesota will open at Fergus Falls next Tuesday. It is probable that more time will be required to investigate the charges of introducing liquor into so called Indian territory than will be devoted to all other litigation combined.

How much more sensible it would be for the commissioner of Indian affairs to stop his farcical attempt to keep liquor from the "whites" by means of an obsolete Indian treaty and leave the enforcement of liquor regulations to the people by means of the county option and other state laws.

With all due respect to the Hon. Cato Sells, we beg to suggest that he is permitting a few prohibition enthusiasts to make the federal government look ridiculous. The people of territory affected are capable of controlling themselves, and they can be depended upon to do so without injustice to the Indians.—The Bemidji Sentinel.

That Indian treaty certainly makes the people of northern Minnesota appear in a ridiculous position to the people of other states, as the impression has gained credence throughout the eastern states that this is a wild Indian country, inhabited by a few lawless characters who are peddling whiskey among the Indians. Has this country advanced from an Indian country, to a rich farming country inhabited by the white men, or is it an Indian country the same as it was in 1855 and 1863? This part of the state has been unjustly discriminated against by these old obsolete treaties long enough, and it is time that the people of northern Minnesota made a determined effort to have that sign board taken down, and they be allowed to govern themselves, under our state laws, the same as southern Minnesota does.

Frank B. Kellogg, candidate for U. S. Senator fired his first gun in the campaign, at St. Paul last Thursday. He takes the position that Senator Nelson was right on the indorsement of Wilson's submarine policy. There is a difference in the opinion of the people, but Clapp would have a majority of about ten to one on this proposition as the people of Minnesota are not in favor of war with Germany over that submarine issue, and when the votes are counted in June, the returns will show that the common people, who, by the way, are the ones that have to face the German guns, in case of war, will cast their votes in favor of men who had the courage to defy the will of President Wilson and keep this country out of a needless war.

Congressman Steenerson writes to the Warren Sheaf that he is very busy at the present time, and has hardly got time to visit his home district. The people do not want him to leave his duties at Washington at this critical period, as they will attend to that campaign.

The Thief River Falls papers are in a controversy over the amount of liquor that is being shipped into that city. Better count the kegs, jugs and bottles, boys, and come to definite understanding, as the people are greatly interested to find out the correct amount.

President Wilson was wise enough to rush that vote on his German submarine policy through Congress, before the American people realized the full importance of it. If the same vote was to be taken in Congress to-day, his submarine policy would either be badly defeated or there would be a lot of Congressmen retired from active duty in November. Steenerson and Moses E. Clapp showed that they were right up to date by their vote on this question, and Mr. Kellogg and Eberhart, or any one else that wants to submit their side of this issue on an indorsement of President Wilson's submarine policy will see where they will land in Minnesota, at the June primary.

The Bethlehem Steele Company has sent out a frantic appeal to the people to use their influence to try to stop Congress from having that law for the government to appropriate the money to build their own armor and ammunition plants passed. That is what the people want and expect Congress to do, and any Congressman that votes against it should be retired next November. The bill has already passed the Senate, and is now in the lower house, with a good prospect of its passage.

The Supreme Court has decided that county clerks whose time that they were elected for four years ago, is out on January 1st, 1917, and that they must be re-elected this year, if they want to continue in office. There has not yet been a decision made regarding the constitutionality of the law under which other county officers were elected for four years, instead of two years, as provided by the Constitution.

RHEUMATIC PAIN STOPPED

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain, 25c. at Druggists.—Advertisement.

KEEP YOUR SKIN CLEAR AND HEALTHY.

AVOID SPRING COLDS

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. Its already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.—Advertisement.

The Soft Answer.

He—Ugh! I'm going out of this, and you won't see me again until the day of judgment.

She (sweetly, getting the last word, as usual)—All right, dear, and if you aren't feeling in a better temper please let it be well on in the afternoon.—London Saturday Review.

A Good Actor.

Patience—So she married an actor?

Patrice—Oh, yes!

"Was he a good actor?"

"Oh, yes; he acted as if he loved her."—Yonkers Statesman.

To apply to others in charity the knowledge one has used against oneself in judgment—this is the hard thing to do.—Mallach.

FINE FARM FOR SALE

Desiring to change location, I will sell my farm the S. W. 1-4 Section 15, Town of Deer Park, for $25.00 per acre. Description: 80 acres broken, ready for spring crop; 40 acres fenced in pasture, balance, high meadow land that can all be broken. Good living house, granary and barn. If sold soon, may do a little better than $25.00 per acre. Time can be had for payment. Inquire of Welenty Wojnarowski on the farm, or at this office.

OUR PUBLIC FORUM

Peter Radford
ON ADVERTISE IT IN AMERICA.

As a citizen of this nation and one intensely interested in its material development, I want to add my approval to the "Buy It in America" movement. Commercial patriotism and business pride are the foundation stones of success in industry and no country can become supreme in commerce and trade unless it fosters a spirit of friendship and partiality for its own products and institutions. It is the spirit of the hive that makes the wheels of industry turn and each community should be a progressive unit in our industrial universe. All things being equal the farmer should patronize the local merchant, who is always a good citizen, a heavy taxpayer and friend of the farmer. The farmer sends shiploads of raw material to foreign markets and factories that meet on their way vessels laden with finished and foreign grown products coming to America. Any effort to minimize this economic waste ought to be encouraged.

But as a farmer and friend of the manufacturer and merchant I want to suggest an "Advertise It in America" movement. The manufacturer and jobber may blow loud blasts on the horn of patriotism but if they will put an "ad" in the newspapers in their trade territory, making a business presentation of their goods, they will find it far more effective than waving the Star-Spangled Banner. The farmer is as much interested in the price of the things he has to buy as in the price of the things he has for sale and the advertising columns of his newspaper are his price list. The price is the thing and the farmer wants the figures in cold type. The politicians give him all the patriotic buncombe he cares for. Business enterprise is a far more successful salesman than business patriotism.

There are many most worthy organizations working to promote commerce and trade but we seldom find organized effort to promote the press, yet it is recognized as the most powerful agency for progress the world has ever produced. We have all sorts of days calculated to promote business and honor industry such as Trades Days, Bargain Days, Labor Days, etc.; why not have a press day and all business concerns advertise the things they have to sell and everybody subscribe for the local paper and all delinquents pay a year in advance? There is nothing so elevating in civilization as the smile of an editor and nothing will contribute more toward the welfare of a community than the prosperity of the press.

The farmer is a friend and patron of the newspapers. He subscribes for the local paper and reads every line in it and it is the best investment he can make. There is no news so valuable as store news; no information so interesting as market demands; no tragedy so entertaining as the rise and fall of prices and no page more closely studied by the farmers than the advertising columns of the press.

Making Tin.

The tin of trade is not pure; but has in it a little iron, lead or arsenic. Tin is a metal of chemistry. Its principal ore is called tin stone or tin oxide and is made up of tin and oxygen. To obtain the tin the ore is heated in furnaces with charcoal. The carbon of the charcoal unites with the oxygen of the ore, forming carbonic acid gas, which passes off into the air, leaving the tin, which melts and is drawn off and cooled in iron molds. This is called block tin. Tin ore is chiefly found in Cornwall, England; Banca, in Dutch East Indies; Malacca and Queensland and New South Wales, in Australia. Tin was used by the ancients. The Phoenicians obtained most of their tin from the British Isles. When the Romans conquered Britain they worked the tin mines in Cornwall by means of slaves.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, MAY 12, 1916 NO. 9

MINNESOTA
HISTORICAL
SOCIETY

THE LOCAL NEWS

William Causin is seeding on the Henry Bost farm this week.

The Red Lake River is now down within its banks once more.

Most of the wheat seeding will be completed in this locality this week.

M. E. Hyland and sons are busy seeding on the Andrew Johnson farm this week.

The Mosskeg land is still so saturated with water, that you can squeeze the water out of it like a sponge.

Fish have been very plentiful in the Red Lake River this spring, and fishermen have been numerous.

FOR SALE: The right to cut the hay for the season of 1916, on the N. E. ¼, Section 32, town of Highlanding, known as the Solberg farm. Inquire at this office.

The corn crop will be pretty light in this locality this season, as last year discouraged a large number of the farmers, and this late spring does not better corn conditions any.

Notwithstanding the calender shows that it is getting late for spring seeding, the spring season is no farther advanced than it was on the 15th day of April last year, and if spring don't come until the 4th of July, it is better to sow your crops at that time, than to not sow any at all.

We understand that K. M. Kratzer, who left here for Pennsylvania this spring now has a job in a coal mine. When he has been digging coal in the dark mines for a year or so, he will begin to think of the Minnesota farm he left to take up a Dago's job of mining coal.

The Highlanding ferry approaches will soon be repaired, so as to be in a passable condition, Karl Korstad is taking an active interest in trying to get a passable crossing at Highlanding, a fact which will be highly apreciated by the people living on the south side of the river.

We have been having some of little the worst wind storms this week that has ever visited this locality. On Sunday afternoon the wind blew a regular hurricane, and kept it up during Monday. On Tuesday it started to take a new hold, and blew a hurricane again all day Wednesday. It did not do any damage to the sown grain, as the ground is too wet to blow off of the covered grain.

We don't understand why the present administration does not call for volunteers, so they can supply General Fuston with men enough to clean up that Mexican Greaser outfit. The best young men of America are not looking for a monthly "job" as soldiers, but if the country needs them, just call for volunteers, and see how quick there will be plenty of men ready to wade through Mexico, and show them whether they were cowards or not.

Herman Lillo and Alfred Anderson were up to Sunbeam on a fishing trip last Saturday night. They said they were going to claim the big reward soon for capturing the bandit Villa, as they were accompanied by a young man who they claimed bore a stronger resemblance to him than any of the stiffs that the Mexican government have been trying to palm off onto the United States as the remains of Villa.

MICHELET FILES FOR PROBATE JUDGE

Wilhelm Michelet will again be a candidate for election as Judge of Probate for Pennington county. People who have had dealings with that office, are not looking for any change in officials at this time, and the only reason that anyone would have to oppose him, would be to get the small salary. As long as a county official renders satisfactory and honorable service to the people he should be retained in his position by the people, as that is the surest way that they have of getting good service. Do not let us give county officials the impression that after a certain length of time in office, that they will be unceremoniously fired out of their positions by the people, regardlesss of the faithful and efficient service that they have rendered to the public.

A. G. Anderson, of Fergus Falls, has filed for the Republican nomination for Congressman from this the 9th Congressional District, and the campaign for this nomination, will soon begin to warm up. Mr. Anderson is a stranger to us, but we are well enough acquainted with Congressman Steenerson, to satisfy us that it would be a mistake for this District to send a new man to Congress at this time.

With Senator Clapp, ex-Governor Eberhart, Frank Kellogg and Congressman Lindberg seeking the republican nomination for United States senator the primary campaign promises to be interesting. May the best man win.—The Bemidji Sentinel.

The best man had ought to win, and we believe he will win, and his name is Hon. Moses E. Clapp.

As we have been severe on criticism of President Wilson's war policy, we wish at this time to indorse his action in placing enough troops along the Mexican border to give the Greasers to understand the United States means business. The peace loving people of this country have grown as tried of that continual warfare along our border, as they were of that Cubian warfare in 1898, and the only way to stop it, is to put enough American troops in to that country to clean it up from cellar to garret, and the sooner it is done, the sooner we will have lasting peace down there.

For Representative.

I hereby announce myself as a candidate for Representative of the 65th District.

YOUR VOTE AND SUPPORT SOLICITED.

JOHN A. DUFFY.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surface. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

It is not necessary to make long trips to the County seat, as I can do the business by mail for you.

Special attention given to Probate Court work.

Edward Klemmetson is busy seeding on the Mrs. Narveson farm this week.

Walter McAndress made a business trip to Thief River Falls, last Wednesday.

Mrs. Elling Klemmetson and son Alvin, were Highlanding visitors on Tuesday last.

Clifford Shosten and Joe Stangle, made a trip to Plummer Wednesday, to get in touch with a live wet town.

Fred Anderson and bride gave a wedding reception and dance, at the Erie Hall, on Wednesday evening which was largely attended, and a pleasant time was reported by all.

There was a fair sized crowd in attendance at the Young People's Society, held at the Frank Lundeen residence, on last Sunday, and there was a very good program rendered.

Tobias Olson was over here today looking over the contract to be let by the Town to grub the roadway on the section line between sections 29 and 32, between the ditch grades of Ditches 47 and 53. This is a piece of road that is almost impassable after a heavy rain and needs grading very badly.

Dr. Turley will be at Goodridge next Friday May 19th, prepared to do all kinds of dental work.

Miss Stella Arndt closed a very successful eight month's term of school in the Highlanding School District last Friday.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays, Wednesday and Friday every week. Headquarters at drug store.

Follow the action taken by John A. Duffy, who has his announcement published in this issue. If you are a candidate for office, there is no harm in asking the people for their support through the columns of their local paper.

Didn't Wait the Attack.

At Boulogne during a royal reception some years ago a number of English ladies in their anxiety to see everything pressed with such force against the soldiers who were keeping the line that the soldiers were forced to give way and generally were, as policemen say, "hindered in the execution of their duty." The officer in command, observing the state of affairs, called out: "One roll of the drum! If they don't stand back kiss them all!" After the first sound of the drum the ladies took to flight.

"If they had been French," said a Parisian journal, "they would have remained to a woman."

GERMANY MAKES CONCESSIONS IN ANSWER TO UNITED STATES' NOTE; TO MODIFY SUBMARINE WARFARE

BERLIN GOVERNMENT DECIDES TO ADOPT METHODS OF SUBSEA ATTACKS TO THE INTERESTS OF NEUTRALS.

NEW ORDERS TO U-BOAT CAPTAINS EFFECTIVE NOW

Instructions to Observe Rules of Search and Safety of Human Life and Follow International Law Are Significant—Requested to Make Demands on Britain.

Berlin, (By Wireless via Sayville, N. Y.) May 6.—Following is the text of the note of the German government in reply to the American note respecting submarine warfare, delivered by Gottlieb von Jagow, the foreign secretary, to Ambassador Gerard:

"The undersigned, on behalf of the Imperial German government has the honor to present to his excellency the Ambassador of the United States, Mr. James W. Gerard the following reply to the note of April 20 regarding the conduct of the German submarine warfare:

Identical With Sussex.

"The German government handed over to the proper naval authorities for early investigation the evidence concerning the Sussex as communicated by the government of the United States. Judging by the results that the investigation has hitherto yielded, the German government is alive to the possibility that the ship mentioned in the note of April 10 as having been torpedoed by a German submarine is actually identical with the Sussex.

"The German government begs to reserve further communication on the matter until certain points are ascertained, which are of decisive importance for establishing the facts of the case.

"Should it turn out that the commander was wrong in assuming the vessel to be a man-of-war, the German government will not fail to draw the consequence resulting therefrom.

Repudiates U. S. Assertion.

"In connection with the case of the Sussex, the government of the United States made a series of statements, the gist of which is the assertion that the incident is to be considered but one instance of a deliberate method of indiscriminate destruction of vessels of all sorts, nationalities and destinations by German submarine commanders.

"The German government must emphatically repudiate the assertion. The German government, however, thinks it of little avail to enter into details in present stage of affairs, more particularly as the government of the United States omitted to substantiate the assertion by reference to concrete facts.

Has Imposed Restraint.

"The German government will only state that it has imposed far-reaching restraints upon the use of the submarine weapon, solely in consideration of neutrals' interests, in spite of the fact that these restrictions are necessarily of advantage to Germany's enemies. No such consideration has ever been shown neutrals by Great Britain and her allies."

"The German submarine forces have had, in fact, orders to conduct the submarine warfare in accordance with the general principles of visit and search and the destruction of merchant vessels recognized by international law, the sole exception being the conduct of warfare against enemy trade carried on enemy freight ships encountered in the war zone surrounding Great Britain.

Has Given No Assurances.

"With regard to these, no asurances have ever been given to the government of the United States. No such assurances are contained in the declaration of February 8, 1916.

"The German government cannot admit any doubt that these orders were given or executed in good faith. Errors actually occurred. They can in no kind be avoided altogether. Allowances must be made in the conduct of naval warfare against an enemy resorting to all kinds of ruses, whether permissible or illicit.

Implies Dangers For Neutrals.

"But apart from the possibility of errors, naval warfare just like warfare on land, implies unavoidable dangers for neutral persons and goods entering the fighting zones. Even in cases where the naval action is confined to ordinary forms of cruiser warfare, neutral persons and goods repeatedly come to grief.

"The German government has repeatedly and explicitly pointed out the dangers from mines that have led to the loss of numerous ships.

U. S. Blamed For "Accidents."

"The German government has made several proposals to the government of the United States in order to reduce to a minimum for American travelers and goods the inherent dangers of naval warfare. Unfortunately, the government of the United States decided not to accept the proposals. Had it accepted, the government of the United States would have been instrumental in preventing the greater part of the accidents that American citizens have met with in the meantime.

"The German government still stands by its offer to come to an agreement along these lines.

edly declared, it cannot dispense with the use of the submarine weapon in the conduct of warfare against enemy trade. The German government, however, has now decided to make a further concession, adapting methods of submarine war to the interests of neutrals.

"In reaching this decision the German government is actuated by considerations which are above the level of the disputed question.

Helped Develop Laws.

"The German government attaches no less importance to the sacred principles of humanity than the government of the United States. It again fully takes into account that both Governments for many years co-operated in developing international law in conformity with these principles, the ultimate object of which has always been to confine warfare on sea and land to armed forces of belligerents and safeguard, as far as possible noncombatants against the horrors of war. But although these considerations are of great weight, they alone would not, under present circumstances, have determined the attitude of the German government.

Blames British Government.

"For in answer to the appeal by the government of the United States on behalf of the sacred principles of humanity and international law, the German government must repeat once more, will all emphasis, that it was not the German but the British government which ignored all accepted rules of international law and extended this terrible war to the lives and property of noncombatants, having no regard whatever for the interests and rights of neutrals and noncombatants that through this method of warfare have been severely injured.

"In selfdefense against the illegal conduct of British warfare while fighting a bitter struggle for national existence, Germany had to resort to the hard but effective weapon of submarine warfare.

U. S. Attempts Failed.

"Several attempts made by the government of the United States to prevail upon the British government to act accordingly failed because of a flat refusal on the part of the British government. Morevover, Great Britain again and again has violated international law surpassing all bounds in outraging neutral rights. The latest measure adopted by Great Britain declaring German bunker coal contraband, and establishing condidtions under which English bunker coal alone is supplied to neutrals, is nothing but an unheard-of attempt by way of exaction to force neutral tonnage into the service of British trade war."

Power to Confine War.

"The German people know that the government of the United States has the power to confine the war to armed forces of the belligerent countries in the interest of humanity and maintenance of international law. The government of the United States would have been certain of attaining this end had it been determined to insist against Great Britain on the incontrovertible rights to freedom of the seas.

"But as matters stand the German people is under the impression that the government of the United States, while demanding that Germany, struggling for existence, shall restrain the use of an effective weapon, and while making compliance with these demands a condition for maintenance of relations with Germany, confines itself to protests against illegal methods adopted by Germany's enemies. Moreover, the German people know to what considerable extent its enemies are supplied with all kinds of war material from the United States.

Guided By Friendship.

"It will therefore, be understood that the appeal made by the government of the United States to sentiments of humanity and principles of international law cannot, under the circumstances, meet the same hearty response from the German people which such an appeal otherwise always is certain to find here.

"The German government, conscious of Germany's strength, twice within the last few months announced before the world to make peace on a basis safeguarding her many vital interests, thus indicating that it is not Germany's fault if peace is still withheld from the nations of Europe. The German government feels all the more justified in declaring that responsibility could not be borne before the forum of mankind and in history if, after 21 months of the war's duration, the submarine question under discussion between the German government and the government of the United States were to take a turn seriously threatening maintenance of peace between the two nations.

Prepared to Do Utmost.

"So far as lies with the German government it wishes to prevent things from taking such a course. The German government is prepared to do its utmost to confine operations of the war for the rest of its duration to the fighting forces of the belligerents, thereby also insuring freedom of the seas, a principle upon which the German government believes, as before, that it is in agreement with the government of the United States.

"Such a demand would be incompatible with the character of neutrality and the German government is convinced that the government of the United States does not think of making such a demand, knowing that the government of the United States repeatedly declares that it is determined to restore the principle of freedom of the seas, from whatever quarter it has been violated.

"The German government, guided by this idea notified the government of the United States that German naval forces have received the following order:

"In accordance with the general principles of visit and search and the destruction of merchant vessels recognized by international law such vessels, both within and without the area declared a naval war zone shall not be sunk without warning and without saving human lives unless the ship attempts to escape or offer resistance.'

"But neutrals cannot expect that Germany forced to fight for existence shall for the sake of neutral interests restrict the use of an effective weapon if the enemy is permitted to continue to apply at will methods of warfare violating rules of international law."

Expects U. S. To Remove Impediments

"Accordingly the German government is confident that in consequence of new orders issued to the naval forces the government of the United States will now also see to it that all impediments are removed, which may may have been in the way of mutual co-operation toward the restoration of the freedom of the seas during the war as suggested in the note of July 23, 1915, and it does not doubt that the United States will now demand and insist that the British government shall forthwith observe the rules of international law universally recognized before the war as are laid down in the notes presented by the government of the United States to the British government Dec. 26, 1914, and Nov. 5, 1915."

"Should the steps taken by the government of the United States not obtain the object it desires—to have the laws of humanity followed by all belligerent nations—the German government would then be facing a new situation in which it must reserve to itself complete liberty of decision.

"The undersigned avails himself of this opportunity to renew to the American ambassador his assurances of highest consideration.

—"Jagow."

CHICAGO DAILY NEWS.

MEXICANS CROSS LINE, KILL FOUR AMERICANS; KIDNAP TWO OTHERS

BANDITS' RAID ON TEXAS SETTLEMENTS TAKES RANK WITH VILLA'S FAMOUS ATTACK ON COLUMBUS.

FUNSTON ORDERS CAVALRY TO PREPARE FOR PURSUIT

Conference Over Co-operation of American and Mexican Soldiers in Mexico Comes to Abrupt Halt—More Troops Needed in Big Bend Country.

El Paso, May 9. — It has become known that General Obregon is having increasing difficulty in retaining the co-operation of some of his military men in the tentative agreement he has entered into with the American staff. From General Pershing came news of an increasing number of Carranza desertions to Villa leaders.

Strengthened by these deserters, Villa's men in Chihuahua were reported to be gathering in a greater force than ever in front of General Pershing's columns. It is feared General Pershing might be forced to withstand an attack.

El Paso, Texas, May 9.—Three American soldiers and a ten-year-old boy have lost their lives and two American citizens have been kidnapped and carried south of the international boundary to almost certain death in another raid of Mexican bandits that takes rank with Francisco Villa's famous attack on Columbus, N. M.

The bandits' foray, carrying them through the southern limits of Brewster county, in the Big Bend district of Texas, and taking in three little settlements near the border—Glenn Springs, Boquillas and Deemers, took place Friday night and Saturday morning, but news of it has just reached here.

Plan for Expedition.

Within an hour preparations had been begun for an expedition. General Frederick G. Funston ordered that all troops of cavalry should proceed to the raided section to reinforce small detachments already on their way to the scene from Presidio, Alpine and other points. These troops got underway during the night.

It is said here that if the exigencies of the case demand such action they will cross the border in order to run down and disperse the bandits.

They consist of two troops of the Eighth cavalry from Fort Bliss, El Paso, under Major George T. Langhorne and two troops of the Fourteenth cavalry from Fort Clark, under Colonel Frederick Sibley, commander of the Fourteenth. The two detachments are expected to detrain at once, Major Langhorne's at Alpine and Colonel Sibley's at Marathon. From these points they will march south 90 miles to the border.

Could Use 25,000 Men.

No attempt was made to conceal the embarrassment felt by military men over the inability to send more troops to points on the border.

"I could use very easily 25,000 troops in Arizona alone," said General Funston, "and there should be that many in that one state."

Military men said that the dispatch of more troops into Mexico was essential or the expedition in the Big Bend country would have to be limited to a mere sortie.

While military events were developing with such rapidity the conference over the co-operation of American and Mexican soldiers in Mexico, which had been expected to reach a culmination Sunday, came to an abrupt halt.

Two More Irish Rebels Executed.

Dublin, May 6.—Four more rebel prisoners have been sentenced to death by courtmartial and shot. This has just been officially announced. The men were Joseph Plunkett, Edward Daly, Michael O'Hanrahan and William Pearse. Fifteen other rebels were sentenced to death, the official statement added, but later the sentences were commuted to 10 years' penal servitude. The death sentence of another prisoner was commuted to eight years penal servitude. Two rebels were sentenced to 10 years.

TROOPERS FIGHT FOR LIVES

NINE CAVALRYMEN MAKE STAND AGAINST 70 BANDITS.

Attack on Texas Settlement Vividly Described in Dispatch — Adobe House Set on Fire.

Alpine, Texas, May 9. — Mexican bandits, some 70 in number forded the Rio Grande Friday night and sweeping 15 miles inland on American soil, raided the little settlement of Glenn Springs and attacked a detachment of American cavalry, consisting of nine men of Troop A, Fourteenth cavalry.

Three troopers and a little 10-year old boy were killed, two cavalrymen were wounded and another is missing. He is believed to be a prisoner of the bandits who are now fleeing southward into Coahuila, Mexico.

Two American citizens, J. Deemer and a man named Compton, according to reports received here were carried across the Rio Grande and reports have it that their throats have been cut. A posse of 50 citizens of Marathon are in pursuit of the bandits, believed here to be Villistas.

Boy Believed Slain.

The dead troopers are William Cohen, New York City; Stephen J. Coloe, New York City, and Hudson Rogers, Danville, Ky. The missing trooper is Roscoe Tyres. The little boy is the son of Compton. He was deaf and dumb. The bandits are thought to have killed him because he would not answer their questions.

The two wounded troopers, Privates J. Birck and Frank Defree were brought here badly wounded. Birck's body was filled with small brass pieces of tacks fired from a shot gun. Defree was burned about the head and shoulders.

Make Fight For Life.

In a little adobe house, nine cavalrymen made their fight for life against the 70 or more bandits at Glenn Springs. A hail of shot poured for three hours into the single window of the mud adobe, but the Americans refused to give up. The cavalry kept up a steady rifle fire in defiant answer. Then the Mexicans' leader ordered fire balls to be thrown on the roof, thickly thatched with candelaria.

Unable to rout the Americans, the leader of the Mexicans gave orders to throw fire balls on the roof. Flaring torches made of torn cloth and weeds were dropped upon the roof, which started to burn.

The heat became intense. Faces and backs of the soldiers, still firing spiritly through the window became blistered and burnt.

Dashes for the Open.

"I can't stand it any longer," cried Private Cohen, "I'll take another shot and then try and make it through the window."

Cohen leaped into the window frame to make his dash for the open. A bullet split his skull and he fell back dead into the house.

Smyth, leading the other cavalrymen, turned to the left, the Mexicans firing at them as they fled. Rogers' body was found not far from the burned house, but Tyree could not be accounted for when Smyth and his men, who reached the hills in safety investigated next morning.

When morning came the American troops crept back to the settlement and saw the main body of some 50 Mexicans packing their loot upon their cavalry mounts which they had captured. Then with a cry they turned towards the Rio Grande and started for Boquillas. Here, the brigands carried Deemer and Compton across the river and it is reported here that their throats had been cut.

Trial of Casement in Fortnight.

London, May 8.—The trial of Sir Roger Casement will take place in London within a fortnight. Baron Reading, the lord chief justice of England, probably will preside. The attorney general will conduct the prosecution. Sir Roger has asked Sir Edward Carson to defend him, but it is unlikely that Carson will accept. According to good authority, Casement, who for some time after his capture was threatened with a serious nervous breakdown, now has completely recovered his health.

GERMANY'S VIEW TO BE ACCEPTED CAPITAL BELIEVES

DIPLOMATIC BREAK WITH BERLIN IS POSTPONED IF NOT AVERTED BY REPLY TO U. S. DEMANDS.

OFFICIAL TEXT ARRIVES; WILSON TO DECIDE SOON

President Described as Being in Position Where He Cannot Question Good Faith of Germany's Assurances Regarding Future Conduct of Submarine Commanders.

Washington, May 8. — Germany's note has postponed if it actually has not averted a diplomatic break with the United States.

The official text of Germany's note which has been fully decoded and laid before President Wilson shows no material differences from the unofficial text published in news dispatches. This strengthens the probability that a diplomatic break has been averted, at least for the present.

With the official text of the German reply before him, President Wilson is formulating his decision on whether or not Germany has met America squarely on the submarine issue.

Danger Believed Past.

It is practically a foregone conclusion that all danger of an immediate break with Germany has passed. This conclusion has the general approval of congress, the cabinet and others of the president's advisers. From a great number of telegrams received at the White House it appears the country also is satisfied that Germany has made a concession precluding all possibility of a break—unless it fails to live up to the promise.

The German embassy view is that the note gives all President Wilson asked for; that it signalizes a return to "cruiser" warfare—the use of submarines as regular naval cruisers intercepting commerce with visit and search, and that inasmuch as it makes no mention of the armed ship question that perplexing feature of the controversy is not involved.

No Activity in Congress.

Congress took the note quietly and although members expressed a variety of views the general sentiment seemed to be in favor of leaving the situation in the hands of the President. On the surface there was no sign of activity in the group which has been working to prevent the president from pressing the situation to the point of a diplomatic rupture.

Germany, in her note, reserves "complete liberty of decision" should the United States fail to prevail upon Great Britain to bring her practices into conformity with international law. The official view is that the United States for some time has been and now is conducting diplomatic correspondence with Great Britain on that subject and the success or failure of the negotiations and Germany's consequent action, must necessarily remain for the future.

FORMAL ANNOUNCEMENT OF ROOT'S CANDIDACY

New Yorker Sanctions Campaign Being Conducted for Republican Presidential Nomination.

New York, May 6. — Formal announcement that Elihu Root has sanctioned the campaign which is being conducted in his behalf for the Republican presidential nomination, was made here by former Congressman John W. Dwight, who is in charge of the Root headquarters in this city. The statement was issued as a denial of reports that Mr. Root was not a candidate for the nomination.

LORIMER FOUND NOT GUILTY

Former United States Senator Says He Will Repay Depositors.

Chicago, May 5. — Former United States Senator Lorimer has been declared not guilty.

Lorimer addressed the jury in a trembling voice. After thanking them he said:

"I want to say to you that in giving me liberty the people who deposited money in the La Salle Street bank, beginning with those who can least afford to lose, will have all of my services, all of the money I can earn with the exception of that necessary to support my family, until every obligation has been discharged, and every dollar has been paid back."

Two Killed in Strike Riot.

Pittsburgh, May 4.—Preparations were made by Brigadier-General A. J. Logan, commander of the Second brigade Pennsylvania National Guard, to have four squadrons of cavalry take charge of the strike situation at Braddock where two men were killed, four probably fatally hurt and a score of others seriously wounded in a riot at the Edgar Thomson works of the Carnegie Steel company. The Eighteenth regiment of Pittsburgh and the Tenth regiment are ready to go to the strike zone.

When Housework Drags

Keeping house is hard enough when well. The woman who has a bad back, blue, nervous spells, and dizzy headaches, has a hard lot, for the family tasks never let up. Probably it's the result of kidney trouble and not the much-feared "woman's weakness." Strengthen the kidneys with Doan's Kidney Pills. They are as harmless as they are effective and may be used for children with weak kidneys, too.

A Minnesota Case

Mrs. George S. Hesler, 700 Hope St., Austin, Minn., says: "I could hardly walk on account of the awful pains in my back and limbs. When I washed or did any work that obliged me to stoop, the trouble was worse. Mornings I felt languid and tired and finally inflammation of the bladder set in. Doan's Kidney Pills helped me as soon as I took them and two boxes removed the pain and inflammation and did a world of good."

At the Museum.

"Is that the artist's name in big letters on the picture, pop?"

"No, my son. That is the name of the rich man who presented the picture to the museum. You will find the artist's name in very small letters down in the lower right-hand corner."

For sores apply Hanford's Balsam lightly. Adv.

LOST HER FAITH IN BOOKS

How Small Marian's Mind Underwent Complete Revision as to the Abodes of Kings.

Marian has on open mind and is always willing to have opinions she has framed, changed.

"Mamma," she said, looking up from a book of fairy tales, "do you know that castles are solid gold and have solid gold furniture?"

"Those are fairy castles," replied mother. "Real castles are built of brick and stone, and the furniture is very fine, but not of gold."

A few minutes elapsed.

"Say, mamma, you can't believe anything you read in these books, can you? I'll bet a lot of real poor kings live in shacks and don't even keep a hired girl."—Indianapolis News.

At the Club.

"I see a bore coming."

"That augurs badly."—Boston Transcript.

Uncanny.

Novelist—How are my novels going?

Bookseeler—I can't imagine, sir, unless it's shoplifters.—Puck.

"Stealing a kiss is no crime."

"No? Then why does a man get a life sentence if he is caught at it?"

When a woman loses all interest in the fashions it is up to the undertaker to get busy.

GLASS OF WATER
Upset Her.

People who don't know about food should never be allowed to feed persons with weak stomachs.

Sometime ago a young woman who lives in Me. had an attack of scarlet fever, and when convalescing was permitted to eat anything she wanted. Indiscriminate feeding soon put her back in bed with severe stomach and kidney trouble.

"There I stayed," she says, "three months, with my stomach in such condition that I could take only a few teaspoonfuls of milk or beef juice at a time. Finally Grape-Nuts was brought to my attention and I asked my doctor if I might eat it. He said, 'yes,' and I commenced at once.

"The food did me good from the start and I was soon out of bed and recovered from the stomach trouble. I have gained ten pounds and am able to do all household duties, some days sitting down only long enough to eat my meals. I can eat anything that one ought to eat, but I still continue to eat Grape-Nuts at breakfast and supper and like it better every day.

"Considering that I could stand only a short time, and that a glass of water seemed 'so heavy,' I am fully satisfied that Grape-Nuts has been everything to me and that my return to health is due to it.

"I have told several friends having nervous or stomach trouble what Grape-Nuts did for me and in every case they speak highly of the food."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

SHIP CARRYING 40 AMERICANS FIRED ON BY SEA RAIDER

STEAMER VENEZIA FROM BORDEAUX, FRANCE, REACHES NEW YORK AFTER EXCITING CHASE, PASSENGERS SAY.

PURSUED WHILE OFF THE AZORES BY TWO VESSELS

Hostile Craft Loom Up Without Any Flags Showing—Signal to Steamer to Slow Down, But Captain's Answer Is Order for Full Speed Ahead.

New York, May 9.—The steamship Venezia arriving here from Bordeaux, France, with 40 American citizens aboard was fired upon and chased for several hours by two commerce raiders while off the Azores, according to a story related when the vessel docked.

Reports had been in circulation for more than a week that at least one sea raider was again operating in the western Atlantic and the news brought by the Venezia caused alarm in shipping circles.

Story Declared Accurate.

Captain Boniface and members of the crew of the Venezia, though reticent concerning the attack, vouched for the accuracy of the story.

According to them the Venezia encountered the commerce raiders April 28. The hostile craft, they said, loomed up without any flags showing and bore down upon the Venezia.

Makes Sudden Dash.

Captain Boniface at once prepared for a sudden dash. The raiders signalled to the Venezia to slow down, but Captain Boniface's answer was an order for full speed ahead.

As the Venezia started away, according to the story, a shot passed over her. It was followed by another, which dropped close to the Venezia. Before a third shot was fired the Venezia had increased the distance between her and the raiders so that the effort to overhaul her proved unsuccessful.

ANOTHER NOTE TO BERLIN MAY BE SENT BY WILSON

Conference Held at White House Over U-Boat Situation.

Washington, May 9.—President Wilson and Secretary Lansing conferred at the White House on the situation confronting the United States as a result of the latest German note regarding the conduct of submarine warfare.

There were strong intimations that the administration might send to Germany a brief communication noting the new instructions to submarine commanders, and informing the imperial government that so long as these instructions were effective, diplomatic relations between the two nations could continue. Should such a communication be sent, it would make very plain that the United States will not permit its relations with Great Britain to enter into the controversy.

It was authoritatively stated that should another ship carrying American citizens be sunk by a German submarine, diplomatic relations would be severed without any further exchange of communications.

GERARD DEFENDS HIS STAND

Brands Charge that He Is Enemy to Germany as Totally Wrong.

Berlin, May 9.—In an interview in the National Zeitung, James W. Gerard, the American ambassador, is quoted as saying:

"In this crisis, as in all previous crises, I attached the greatest value to removing misunderstanding between Germany and America and did everything in my power that a conflict between the two countries might be avoided. I want no war between Germany and America. I have never wanted and shall never want one.

"I assure you that the accusation that I am an enemy of Germany is totally wrong. I have never done anything to justify the charge that I hate German characteristics or German men."

For Progressive Convention.

Chicago, May 8.—Sales of boxes for the Progressive national convention to be held in Chicago June 7 have opened. During the first few hours seven boxes were sold for $21 each. Checks were received for $1,250 from Chicago Progressives who asked that their names be withheld and the boxes resold to increase the fund being raised to defray the expenses of the convention.

Mobs Raid Berlin Meat Shops.

Berlin, May 8 (Via London).—A mob which gathered in Charlottenburg swept through the streets, plundering two butter shops and smashing signs and windows of several other butter and meat stores, including the municipal meat chop. The rioting was due chiefly to indignation aroused in the past few days by the discovery that several butchers were withholding from sale meat delivered them by the city for sale to the poorer people who have meat cards, or had sold it privately at high prices.

State News in Brief

Doings of Last Few Days Throughout Minnesota Condensed for Hasty Perusal.

Austin.—One thousand men marched in a parade of Sunday school workers which closed the fifty-eighth annual convention of the State Sunday School association.

Duluth. — Ore shipments in April from the Duluth-Superior harbor and Two Harbors amounted to 652,931 tons more than in April, 1915. April is the initial month of the navigation season, and runs only ten days.

St. Cloud.—One inmate of the state reformatory is in the hospital suffering from buckshot wounds and another is in the solitary, living on bread and water, as a result of an attempt to escape from the yard where they were working.

Little Falls.—A party of Jefferson highway workers started from here in automobiles to make a tour of the cities south of Little Falls to line them up solidly for this route for the highway. The party was to be joined by other cars at Royalton and Rice.

St. Paul.—V. R. Irvin, wholesale grocer, who leaped into prominence in St. Paul through his connection with the Christmas "Good Fellows" movement, has been elected mayor of St. Paul. His total vote was almost twice that of W. C. Handy, retiring comptroller of finances.

Winona.—The First District Sportsmen's club, to be affiliated with the new Minnesota Game Protective league, will be organized here May 18. It will be the first organization of the kind in Minnesota. It is anticipated there will be representatives from various organizations.

Detroit. — Three big conventions will be held in Detroit on June 15, 16 and 17, the Minnesota Red River Valley Development association, the Red River Valley Livestock Breeding association and the Minnesota Livestock Breeders' association, all holding forth at the same time.

Caledonia. — The district court for Houston county has ordered the straightening of Root river. The channel will be twenty miles long and will drain a large tract in the northern part of the county. The cost of straightening is estimated at $160,000. Digging will begin in a few weeks.

St. Paul.—Thomas Cathcart of Beltrami county spent several years improving a homestead in that county, which will avail him nothing, according to a decision of the supreme court. The decision was made in the case of Cathcart against the Minnesota & Manitoba Railroad company.

Virginia. — Armed with a businesslike shotgun, Axel Ohrin of Angora has been patroling the banks of the Rice river, running through his farm. He held up a log drive, which settlers were sending to the Angora Lumber company, until paid toll which he claimed for use of the water running through his farm.

Luverne.—In a presidential preference contest for Rock county, conducted by the Rock County Herald, Justice C. E. Hughes led Colonel Roosevelt by four votes. Hughes received 70 votes, Roosevelt 70, Root 12, Cummins 6, Fairbanks 4, La Follette 4. A majority of those voting for Roosevelt were Scandinavians, while only two Germans voted for him.

International Falls.—More than 200 club women from twenty towns in the northern part of the state convened here for the annual two days' meeting of the Eighth district, Minnesota Federation of Women's Clubs. Rural conditions, a vital question with the women in this section of the state were discussed in various phases at the sessions during the day and at night.

St. Paul.—Its costs 4½ cents per student every time a class in mathematics meets in a Minnesota high school.

This is the average cost of teaching, according to the survey made last fall by the bureau of research of the college of education of the University of Minnesota. The highest cost of teaching mathematics is placed at 13.6 cents for each student and the lowest at 2. 6.

Perham.—Mrs. John Weis, 64 years old, and Miss Thersa Alstadt, 18, were killed when a Northern Pacific work train west-bound collided with an automobile driven by John Weis, who was taken to St. James' hospital badly injured. Mr. and Mrs. Weis lived in Perham for the past forty years. Miss Alstadt was the daughter of George Alstadt, an old resident of Ottertail county.

Minneapolis.—Minnesota directors of the industrial survey, being planned for this state by the naval consulting board held a meeting in the office of H. V. Winchell, chairman and secretary of the group. The directors are clearing the way for the appointment of field aides among the 420 engineers in the state. The replies thus far received indicate a hearty response on the part of the engineers.

Minneapolis.—A telegram received by President George E. Vincent, University of Minnesota, from Congressman Smith conveyed the information that the Nelson bill, providing for summer camp equipment for cadets had passed the house and has become law.

Brainerd.—Frank Kellogg, Republican candidate for United States senator, was the chief speaker at the graduation exercises of the Northwestern hospital training school for nurses here. His topic was "Preparedness of Nurses." He paid a tribute to the [illegible]

BIG STATE LOANS ARE HELD ILLEGAL

PAYMENTS AGGREGATING $1,650,000 CONTRARY TO CONSTITUTIONAL REQUIREMENTS.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

Disclosures that 183 loans aggregating $1,650,000 of state funds fail to comply with constitutional requirements, although not regarded as threatening any losses to the state, are to effect more stringent rules to govern investments of state funds. Steps are being taken to make pending loan applications conform to the requirements and a curative act to remove any question as to the legality of consummated loans may be asked in the next legislature.

The disclosures were a special order in a meeting of the state investment board. Resolutions were unanimously adopted pledging the board to receive no new applications for loans of any kind until Jan. 1, 1917, and then to give preference to schools over ditch and other projects, and ratifying the delaying of warrants for borrowers' resolutions meeting the letter of the laws.

Postponement of reception of new applications followed a statement that applications for approximately $2,250,000 are now waiting action, while less than $40,000 will be left when those tentatively approved are closed and only $2,456,000 is expected to accrue to the funds during the next year.

* * *

May Hit County Officers.

Practically every county officer in the state and possibly the members of the State Railroad and Warehouse Commission may be hit by the decision of the supreme court in holding invalid the act of the Legislature of 1915 attempting to extend the term of district court clerks.

Immediately following the decision, Attorney General L. A. Smith was pressed for an opinion as to the standing of the other county officers of the state, and the case of the Railroad and Warehouse Commission was incidentally brought into question.

Members of the Railroad and Warehouse Commission were appointive until 1899, when the office was made elective. In 1911 the Legislature made the term of each commissioner six years.

It is a possibility that the rule of law followed by the supreme court in the decision may require the commissioners to confine themselves to the two-year terms. The constitution provides for all state and county officers except state auditor.

The tenure of county officers is hazardous because the act extending the terms involves practically the same principle as that which has just been declared unconstitutional.

* * *

Good Farm Help Needed.

Spring is backward, with seeding progress from two to four weeks later than last year mainly because of excessive moisture and continued cold, according to initial 1916 crops prospect reports from scattered districts received by Fred D. Sherman, state immigration commissioner. Arrivals of new settlers were reported in Renville and Dakota counties. Good farm help was said to be in demand in Dakota, Goodhue, Chippewa and McLeod counties.

* * *

Observe Minnesota Day.

Minnesota day will be observed in schools throughout the state with programs relating to the state's history, resources, natural features and industries and to promote state patriotism. Governor J. A. A. Burnquist having proclaimed the day, C. G. Schulz, state superintendent of education, mailed a special bulletin compiled as a basis for the celebration.

* * *

Defend Grain Inspection.

Insisting that the Minnesota system of grain inspection is the best known, members of the State Railway and Warehouse Commission took exception to charges made by Representative Young of North Dakota in the debate in Congress on the Federal grain standardization bill that dishonest and crooked measures are used in inspection of grain at the terminals.

* * *

Big Balance in Treasury.

Report of receipts and disbursements of State Treasurer Gooding for April has been completed. The cash balance in all funds is $4,438,585.48. Last year the cash balance was $698,516 for the same period. The revenue fund is $2,306,939.62, which is larger than last year. Some of the school funds are exceedingly light.

* * *

Arguments In Timber Case.

The state timber board has just heard from S. G. Iverson, former state auditor, and Burt F. Chase, former land clerk, in regard to settlements for state timber. The board decided to meet the latter part of May to take up with lumbermen the schedules for measurement. The state now accepts payment for pulp wood on the basis of four cords to the 1,000 feet, but some contend that two cords to the 1,000 is the proper basis. The board also will decide whether to attempt to recover on this basis.

The Main Entrance.

"I DON'T SUFFER ANY MORE"

"Feel Like a New Person," says Mrs. Hamilton.

New Castle, Ind.—"From the time I was eleven years old until I was seventeen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. HAZEL HAMILTON, 822 South 15th St.

When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, is it not reasonable to believe that it is an article of great merit?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

If you Suffer from Backache, Lumbago, Kidneys or Rheumatism, Take Hot Water and "ANURIC"

American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your druggist—"ANURIC." Because of uric acid in overabundance in the system, backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica result. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and eradicate this uric acid from the system. Dr. Pierce believes "Anuric" to be 37 times more potent than *lithia*, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10c for trial package or $1.00 for full treatment "Anuric."

Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription," for the ills of women have had a splendid reputation for the past 50 years. Adv.

Hard to Believe.

"My feet have a habit of going to sleep."

"With those loud socks?"

USE ALLEN'S FOOT-EASE

The antiseptic powder to be shaken into shoes and used in foot-bath. It relieves painful, swollen, smarting, aching, tired feet and instantly takes the sting out of corns and bunions. The greatest comfort discovery of the age. Sold everywhere, 25c. Trial package FREE. Address Allen S. Olmsted, Le Roy, N. Y. Adv.

His Choice.

"What is your favorite flower?" asked the girl.

"Cauli—" replied the practical man.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.—Adv.

Complications sometimes represent that part of an illness that the doctors fail to understand.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

A political vindication often means that the voters are fooled once more.

If your horse is kicked, or cut by barbed wire, apply Hanford's Balsam. Adv.

Too many men turn down a paying job for reform work that doesn't pay them anything.

160 ACRE FARMS IN WESTERN CANADA FREE

Bumper Grain Crops

Good Markets—High Prices

Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. **There is no war tax on land and no conscription.**

Send for illustrated pamphlet and ask for reduced railway rates, information as to best locations, etc. Address Superintendent Immigration, Ottawa, Canada, or

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3.1879

Thief River Falls landed a lot of illegal liquor dealers last week, by employing two sneak detectives from Minneapolis, who were in the habit of sneaking around with a gut ache for a drink of whiskey, and when some fellow helped them out had him arrested. The city pays part of the expenses of employing the detectives, and the county the other part. Of course the money all comes for paying expenses out of the tax payers of the county, and the present indications are that they will get a substantial increase in taxes next year. But since we have got the option law, it is all right to try to inforce it.

During the month of April the Municipal Court of Thief River Falls fined two more men for drunkenness than was fined in April last year. The amount collected in fines for drunkenness last year was $30. This year there was $80 collected. About all of the drunks admitted that they got their liquors from Red Lake Falls or Plummer. Oh yes, that option law prevents getting drunk, only when the boys visit Red Lake Falls or Plummer.

Lindberg trys to catch all of the voters in his drag net by being Socialist, Democrat, Prohibitionist and a little Republican, while he will try to capture the liquor interest vote by favoring the repeal of those old Indian treaties. He will also undoubtedly claim before the close of the campaign that he was born in Norway of Swedish parents, and adopted by Germans until he was ten years old, and then went to live with the French and Indians.

As there are quite a number of candidates for U. S. Senator from Minnesota, it is up to some of them to state how they stand on the repeal of those old Indian treaties, as the people of northern Minnesota, are disgusted with the interference of the government with the management of the affairs of this part of the state. The Republican candidate that has got the courage to put this plank in his platform, will get our vote.

Thos. P. Dwyer, boiler maker, of Minneapolis, has filed for the Democratic nomination for governor of Minnesota. He has announced that he is opposed to the county option, and will recommend its repeal as soon as he is elected governor, and maybe he will be elected by the people of Minnesota who are disgusted with that county option law.

Paul E. Swanson, of Battle Lake, Minn., author of "Social Wrongs and Partial Remedy," has filed for the Democratic nomination for Congressman from the Ninth District. We wonder if Paul is of the opinion that the people of the Ninth District of Minnesota desire to increase the number of Democrats in Washington?

Jess Willard has adopted a good method of keeping his name before the public, by having his picture in a patent medicine ad, that is guaranteed to make anyone as strong as he is, if they will only take enough of it.

Carranza, since he has been recognized by President Wilson as the head of what little government they have in Mexico, now wants to dictate to President Wilson how to run this government.

Senator Moses E. Clapp In Accord With The People of Minnesota.

CLAPP'S BILL PASSES SENATE.

Even before the investigation closed, Senator Clapp presented a Bill, which provides that it should be unlawful for anybody, person, firm, committee or corporation, to send money from one state to another for campaign purposes, except for traveling and ordinary expenses of Speakers, thus cutting out the large contributions which have in times gone by been sent from New York City to help carry "The Doubtful States," This Bill has passed the Senate of the United States. Another Bill by Senator Clapp forbids any Senator, or Member of the House, to solicit campaign funds for himself or any political organization.

ACTIVE FOR ARMOR PLATE PLANT.

In the movement for the erection of a government armor plate plant and thus relieve the question of National Defense from the influence of private gain, thereby releasing the hold that the armor plate and the steel trust have had on Uncle Sam for years, Clapp has been active from the start until the Bill passed the Senate. It was his vote in the Committee on Naval Affairs that decided the deadlock as between a government plant or allowing the trusts to keep on, although after the bill passed the armor plate people immediately offered to sell their products to the government at $30 a ton less than the price they have been receiving. Clapp has been active in reporting out of committee the Child Labor Bill, the Spanish American war widows' bill, and is an ardent supporter of a civil service retirement measure beginning with employees of the U. S. Postal Service.

WOULD STOP EXPORTATION OF MUNITIONS TO EUROPE

Senator Clapp takes an advanced and humanitarian position in regard to the terrible onslaught in Continental Europe. In the Senate on January 27th last he said:—

"I wish to say at this time that I believe that sooner or later the awakened conscience of our Christian Nation will sweep aside the sophistries which have been invoked to support the inconsistent and incongruous spectacle of loading one ship with food and clothing for widows and orphans and loading another ship with the deadly instrumentalities with which to make more widows and orphans."

RHEUMATIC PAIN STOPPED

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain, 25c. at Druggists.—Advertisement.

KEEP YOUR SKIN CLEAR AND HEALTHY.

There is only one way to have a clear, healthy complexion and that is to keep your bowels active and regular. Dr. King's New Life Pills will make your complexion healthy and clear; move the bowels gently stimulate the liver, cleanse the system and purify the blood. A splendid spring medicine. 25c. at your Druggist.—Advertisement.

TO RID CHILD OF WORMS

Don't scold the fretful, nervous child. Often its due to Worms. Get rid of these by giving one-half to one lozenge Kickapoo Worm Killer, a laxative worm candy. Give only plain, nourishing food, lots of out-door exercise and put to bed early. Watch stools and continue giving Kickapoo Worm Lozenges, they will positively remove the worms. 25c. at Druggist.—Adv.

THE GOODRIDGE PHARMACY.

We carry a full line of Drugs, Patent Medicine, Toilet Articles and ALL articles found in a first class Drug Store.

Our store is always in charge of a Registered Druggist. Bring us your prescriptions and cough and cold receipts.

DR. H. B. NEWELL, Druggist.

AVOID SPRING COLDS

Sudden changes, high winds, shifting seasons cause colds and grippe, and these spring colds are annoying and dangerous and are likely to turn into a chronic summer cough. In such cases take a treatment of Dr. King's New Discovery, a pleasant Laxative Tar Syrup. It soothes the cough, checks the cold and helps break up an attack of grippe. It's already prepared, no mixing or fussing. Just ask your druggist for a bottle of Dr. King's New Discovery. Tested and tried for over 40 years.—Advertisement.

The Soft Answer.

He—Ugh! I'm going out of this, and you won't see me again until the day of judgment.

She (sweetly, getting the last word, as usual)—All right, dear, and if you aren't feeling in a better temper please let it be well on in the afternoon.—London Saturday Review.

OUR PUBLIC FORUM

Peter Radford

ON THE BUSINESS PREACHER.

The recent confession of Dr. Newell Dwight Hillis from the pulpit of the Plymouth Church, Brooklyn, that he erred in becoming secular is in many respects the most important statement made from the American pulpit in this generation and if it marks the high tide of ministerial lust for worldly power that has been flooding this country for the past quarter of a century then Dr. Hillis has not erred in vain.

It must be said to the credit of this noted divine that his purpose in stepping out of the pulpit was to acquire the means of rendering a more capable service to those who need and deserve assistance, but the pathway from the pulpit to the world is always strewn with good intentions. Satan knows as well how to tempt a saint as he does a sinner, and he has lured many a minister down the primrose pathway of worldly power to ruin, for no one knows better than his satanic majesty how easy it is to get a preacher to enter business or politics "in the name of the Lord."

The laymen of this nation have viewed with alarm and the world with derision, the growing tendency of ministers of the gospel to abandon the pulpit as a power against evil and seek the influence of worldly agencies to put into effect their Christian ideals. The man who has not sufficient faith in the power of religion to grapple with the sins of this world ought not to be in the pulpit and if he wants to accumulate wealth in order to relieve poverty or wield a scepter in order to enforce morality, then he ought to be a banker or a mayor, instead of a preacher.

The two great temptations that confront the Christian ministry today are business and politics and between the two evils, Dr. Hillis chose the least and by his able conduct has turned error to his credit and transgression to the advantage of the pulpit. It is no compliment to say a preacher is a sharp trader or a smooth politician and certainly no applicant for the ministry would offer such qualifications as evidence of equipment for Christian work, and ministers engaged in undue activities in either field become a menace to the church and a peril to the state.

It is true the ministers, as a class, are underpaid, but their average income will exceed that of the average farmer. Stocks and bonds, land and securities, politics and the lecture platform have tempted many a preachor, but the plow handles are without sin so far as luring the minister from the pulpit is concerned. Any preacher who feels the inclination to abandon the pulpit should plow a few rounds and I venture the suggestion that he will hurry back to the pulpit.

Now that Dr. Hillis has led the business preacher "back to the pulpit" will some one of our leading political preachers confess their sins and lead their wayward brethren back to the fold?

THE LOCAL NEWS

Lenard McAndress was doing business at Goodridge yesterday.

There was a fairly good sized crowd present at the dance at the Erie hall Wednesday.

Otto Causin went up to Goodridge to day with a load of Highlanding Creamery butter.

Very few of the fields in this locality will be fit for seeding before next week.

The Red Lake River raised about a foot Monday, and is again over flooding its banks.

Hay will certainly be a heavy crop this year, as we never saw tame grass so vigorous at this time of year.

Fred Brown has been busy hauling the old "setting" dredge from ditch 42 to Hazel, the past ten days. Otto Causin is assisting him,

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

P. P. Palmer has purchased the pool and billiard hall, at Goodridge, and will enlarge it by the addition of another pool table addition,

Chris Nisson has bought a farm up near Grygla, and is moving up there this week. This will leave the Sigurdson farm vacant this year, but as it is now nearly all under water, the frogs can enjoy themselves undisturbed.

Robert McGinn has filed for re-election for county commissioner from the Thief River Falls District. He has made a first class official, who has shown a disposition to be fair with all parts of the county, and will no doubt be re elected without opposition.

We are of the opinion that Ives as Clerk of Court, and Wilhelm Michelet as Judge of Probate, will get about all of the votes of the newly made citizens of the county, who will return the kindness shown them by those two officials, at the time they were taking out their papers.

The last Sunday night and Monday's all day rain, certainly soaked up the ground in proper shape, so as to delay seeding for another week or ten days. This has certainly been a discouraging spring for farmers, some of them not having finished wheat seeding yet, owing to the ground being so wet that they could not get onto it.

Chairman of Supervisors D. A. Kolestrand. and John Nelson road overseer, for the town of Highlanding, was over on this side of the river, looking over road repairs to be made as soon as the weather permits. We are pleased to note that our present board are taking some interest in giving the people living on the south side of the river their just share of the township road work, something that we are not used to.

We are steadily working to make it possible to get a bridge across the Red Lake River at Highlanding. One bridge for the eastern part of the county would relieve the situation of the present to a large extent, and as this is a central location, here is where we hope to get the bridge. We for one do not propose to sit down idle and let the development of eastern Pennington county stop for the lack of a bridge across this river, and we propose to keep the pot boiling until there is at least one bridge across Red Lake River in eastern Pennington county.

Let's see: We have Anderson in the Auditor's office. Anderson in the Register of Deeds' office. Liden in the Treasurer's office, Kjomme in the County Attorney's office, Mostue in the Superintendent of School's office and Michelet in the Judge of Probate's office, all Scandinavians. So the opponents of Harry Ives can not make the claim that they should be elected because the Scandinavians were not properly recognized in the distribution of county offices.

While we consider Mr. Burnquist a man well enough qualified for governor, and a man we would be pleased to assist to be elected, if he is nominated, yet we feel that Sam Everson has the first claim on the voters of Pennington county for their support for the nomination, as he withdrew in favor of Mr. Lee two years ago.

A.G.ANDERSON

FOR CONGRESSMAN

I have filed as a candidate for the Republican nomination for Congress in the Ninth Minnesota District. Owing to my personal business interests I have been reluctant to take this action, but have been persuaded by the persistent demands of a large number of Republicans in all parts of the District.

I have prepared to accept the responsibility which I ask the voters of the Ninth District to confer upon me by placing myself in a position to devote all my time and energy to the duties of the office.

My platform is brief; I stand first and foremost for genuine Americanism and strict and honorable neutrality.

I would insist on a "dollar's worth of service for every dollar spent."

I know that the government records show that we are spending more to maintain our army and navy than did Germany, England or France before the present war, and I would demand a "dollar's worth of preparedness for every dollar so spent."

I believe in preparedness which would protect, but not one which would inspire the spirit of invasion or impose the burdens of militarism.

I stand for business methods, economy and efficiency in National government.

Yours Truly,
A. G. ANDERSON.

PETER M. RINGDAHL
Register.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Political Announcements.

For Representative.

I hereby announce myself as a candidate for Representative of the 65th District.

YOUR VOTE AND SUPPORT SOLICITED.

JOHN A. DUFFY.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby announce myself as a candidate for re-election to the office of Clerk of the District Court for Pennington County. I wish to announce at this time to pledge to the voters of Pennington County that if I am nominated and elected, I will give the office my undivided attention, and will serve the public to the best of my ability in a strictly impartial manner. In the accounting department as a member of the Board of Audit, in the Naturalization department, in fact in all of the different duties of the Clerk, I feel better prepared and able to give more efficient service than in the past.

Thanking the voters for past favors, and hoping for your continued support if you deem me worthy, I remain

Respectfully Yours,
HARRY E. IVES.

TOM AND OLE RETURN.

Tom and Ole Sannes arrived safely from Canada last week, and escaped being sent to France to fight for the mother country. It appears the Sannes's were located in a small village up there, where Tom and Ole had to work to make a living, which of course was against their nature. After the authorities had made vain endeavors to get them to do labor enough for their support and failed, they notified them that there would be a recruiting officer there the next day to enroll them as recruits for the English army. That night Tom and Ole disappeared and got safely over the line into Minnesota the next morning. The last heard of them they were over in Polk county, where a farmer was endeavoring to get enough work grubbing out of them to pay for their board. We were always of the opinion that those fellows, especially Tom would not be in Canada a great while before they would have him into the army. Any one that is interested in the quality of Canadian soil can undoubtedly find enough of it on them for examination, as they have only been back about ten days, and it has not had time to wear off.

DEFECTIVE PAGE

ASQUITH STUDIES IRISH CONDITIONS; LAW IS MODIFIED

PEOPLE OF DUBLIN GIVEN FREEDOM OF MOVEMENT BETWEEN HOURS OF FOUR IN MORNING AND MIDNIGHT.

ARMED VOLUNTEERS MAY SERVE IN IMPERIAL ARMY

Premier Is Expected to Propose Plan and Thus Avoid Perilous Problem of Disarming Everybody in Ireland—Future Government of Country Discussed.

Dublin, May 16.—The great modification in the regulation of martial law gave the people of Dublin a freedom of movement strongly in contrast with the restrictions imposed since the rebellion. All may now come and go as they wish between the hours of 4 in the morning and midnight. During the remaining four hours they must keep within doors.

It is generally understood that Premier Asquith is responsible for this relaxation. The premier's study of conditions and the sentiments of the people apparently convinced him that there was no element of rebellious spirit remaining.

Asquith Questions Rebels.

Mr. Asquith's chief occupation since his arrival in Dublin has consisted in ascertaining whether it would be advisable to return to the former system of government or adopt a change of rule more in accordance with the wishes of the people.

Neither of these questions has been solved, but Mr. Asquith had an opportunity to see and question a number of rebels in the detention barracks and visited the ruins of the buildings destroyed in various sections of the city.

Nationalist and Unionist circles animatedly discussed tentative suggestions respecting the future government of the country.

Plan for Irish Rule.

Mr. Asquith's presence here has lent color to the belief that the prime minister has some project in mind and that his study of conditions on the spot would help him formulate a definite plan to place before parliament.

The view widely prevails that Mr. Asquith will propose to incorporate the Nationalist and Union forces of armed volunteers into the auxiliary troops of the imperial army and thus avoid the admittedly perilous problem of disarming everybody in Ireland not belonging to the recognized military organizations. At the same time, the opinion grows apace in favor of a real Irish executive council, formed of Irishmen, entirely conversant with the people and their aspirations and needs.

INDIANS GET CITIZENSHIP; WOMEN ATTACK PRESIDENT

Suffragists Criticize Wilson for Interest in Red Men While Failing to Aid Women.

Colorado Springs, Col., May 15.—Members of the Congressional Union for Woman Suffrage, who made a trip through the Western states by special train, stopped in Colorado Springs en route East, and sent a telegram to President Wilson, criticizing him for his interest in obtaining citizenship for Sioux Indians in South Dakota, while failing to aid in the enfranchisement of women. Mrs. Harriet Stanton Blatch and thirteen others of the party signed the telegram.

BARON WINBORNE RESIGNS POST AS LORD LIEUTENANT

London, May 12.—Ireland provided a number of sensations for one day. The first was the announcement of the resignation of Baron Wimborne, lord lieutenant. The second was the appointment of a commission headed by Lord Hardinge to investigate the causes of the Irish outbreak.

The third was the admission by the government that F. Sheehy Skeffington, editor of the Irish Citizen, and two other journalists had been executed in the Porto Bello barracks in Dublin, without the knowledge of the military authorities and before martial law was actually in operation.

"Wind-Wagon" Pioneer Dies.

Oskaloosa, Kan., May 13.—Sam Peppard, who crossed the Kansas plains in pioneer days in a wagon pushed by a sail, is dead at his home here. Peppard's wind-wagon was said to have been the first that made a successful trip on land.

Hughes Believed G. O. P. Favorite.

Washington, May 15.—Associate Justice Charles E. Hughes of the supreme court is now reckoned the favorite among the various contestants for the republican nomination for president. The trend to Hughes has been pronounced in the last week. Even friends of Colonel Theodore Roosevelt here are beginning to admit that Hughes now stands a somewhat better chance of winning the nomination than does the Colonel. They attribute this to the fact that the old guard has won control of the convention.

U. S. RELIEF PARTY IN ARCTIC

RASMUSSEN NOW DUE TO REACH MAROONED EXPLORERS.

Crockerland Expedition, Headed by MacMillan, Sailed From New York in July, 1913.

New York, May 16.—Knud Rasmussen, the Danish explorer, is due with his ship, the Kap York at Thule, North Star Bay, where Dr. Edmund Hovey of the American Museum of Natural History, leader of the Crockerland relief expedition, is marooned in the ice with his companions, according to letters from Rasmussen's wife, it was announced here.

The Crockerland expedition sailed from New York on the whaling ship Diana on July 2, 1913, under the auspices of the American Museum of Natural History and the American Geographical society in co-operation with the University of Illinois. Its object was to settle the existence of a vast continent supposedly lying in the Arctic ocean between the North American continent and the Pole.

In charge of this expedition was Donald B. MacMillan. Word was last received from him in the fall of 1915. Doctor Hovey then sailed to the relief of the MacMillan party.

According to the letters, if Rasmussen fails to reach Thule by May 15, he will leave the Kap York and start off on dog sledges and by forced marches proceed through the Danish colonies and on to Upernavik.

U. S. MILITARY STORES AT FORT BLISS SET ON FIRE

Funston Orders Investigation to Learn How Firebugs Got Past Pickets to Fire Structures.

El Paso, Texas, May 15.—Army posts and stations along the border are on their guard against incendiaries following two fires at Fort Bliss, where flames of unknown origin destroyed a storehouse, three cavalry stables, three horses and some tents.

Army officers express the opinion that an investigation will disclose the fires could not be of spontaneous or accidental origin. It was said that there was no attempt on the ammunition house. The storehouse, where the first fire occurred, contained some machine guns.

General Frederick Funston has ordered an investigation of the fires. He is curious to know, it is said, as to how the firebugs got past the pickets and fired two structures an hour apart.

REBELS' COURAGE PRAISED; ENGLISH CALLED "DENSE"

London, May 13.—John Dillon, one of the most respected of the Nationalists, but often one of the bitterest antagonists of British rule, attacked the government in the House of Commons in a speech, which, for bitter denunciation, has not been surpassed at Westminster since Parnell's days.

Mr. Dillon in his address said that the fact that nine out of ten people in Ireland were on the side of the government was due to the life work of the Nationalists and now the present rule was "washing out that life work in a sea of blood."

"If the English people had not been so dense," said Mr. Dillon, "they could have had many of the rebels fighting for them in the British army," men, who he said, were misled into rebellion, but of whose courage he was proud.

DISCUSS CONTESTED SEATS

Republican National Committee to Meet June 1 at Chicago.

Washington, May 15.—A call for a meeting of the Republican national committee June 1 at Chicago to consider contested seats in the national convention and other pre-convention business was issued here by Secretary James B. Reynolds. The committee is expected to hold daily sessions until the convention opens June 7.

The contest so far filed are as follows: Florida, 1; Georgia, 17; Louisiana, 12; Mississippi, 2; Missouri, 2; Oklahoma, 4; South Carolina, 3; Virginia, 1, and the District of Columbia, 2.

DESPERATE FIGHT AT VERDUN

Vienna Reports Increasing Activity in Volhynian Fortress Triangle

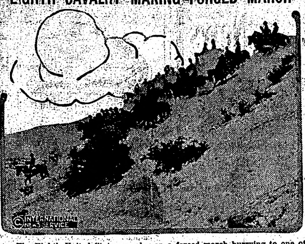
London, May 15.—The Douaumont region of the Verdun front, where the Germans for more than two months have been held fairly close to the line of their original advance in the February drive, is again the scene of desperate fighting.

Vienna reports continually increasing activity in the vicinity of Volhynian fortress triangle on the Russian front. The moves of the opposing commanders, however, have not yet resulted in decisive results for either side, nor have there been important shifts along the line on the Austro-Italian front.

Lauds Irish Clergy's Bravery.

Dublin, via London, May 15.—The behavior of the Catholic clergy during the recent outbreaks was so courageous that General Maxwell, commander of the British forces, sent Archbishop Walsh a special letter of thanks requesting him to give the names of priests who had displayed especial gallantry. Archbishop Walsh replied, expressing appreciation but declining to give the names as he feared it would be invidious to particularize in the numerous cases.

EIGHTH CAVALRY MAKING FORCED MARCH



The Eighth United States cavalry on a forced march hurrying to one of the bases of supplies in Mexico.

CONFERENCE AT BORDER ENDS IN DISAGREEMENT

OBREGON AND SCOTT CANNOT COME TO TERMS OVER MEXICAN SITUATION—GIVE OUT SIGNED STATEMENT.

CARRANZA STILL INSISTS ON RECALL OF U. S. FORCE

Mexican Conferee's Manner Is Abrupt as He Bids American Generals Farewell—Result of Meetings Does Not Mean Immediate Threat of Break.

Deming, N. M., May 16.—A report that the American border patrol was fired on by Mexicans operating in superior numbers south of the line at Antopole Wells, and that the Americans were obliged to retreat caused much excitement at Hachita, N. M., Several families already have been brought in by cattlemen. The report has not been officially verified.

El Paso, Texas, May 16.—Private messages received here from Sierra Blanca, Texas, said reports had been received that a force of Mexicans were marching on the town.

* *

El Paso, May 13.—The Obregon-Scott conference over the Mexican situation has ended in a disagreement. All future diplomatic negotiations, if there are any, will be between the secretary of state and Mexican ambassador Arredondo in Washington.

Again at Starting Point.

The situation is almost exactly what it was before the conferences began. The Mexican government still insists on the withdrawal of General Pershing's columns on a certain date and wants that date to be soon. It is claimed that General Obregon had been willing to make concessions in order to reach an agreement with the American conferees, but that he was overruled by the first chief, Venustiano Carranza and his advisers.

Does Not Mean Break.

It was pointed out authoritatively that the result of the various meetings in El Paso does not mean that there is any immediate threat of a rupture between the United States and Mexico.

OUTLAWS FIRE ON U. S. AUTO

Soldiers Sent to Scene, Scour Country But Fail to Obtain Clues As to Bandits.

Marathon, Texas, May 13.—Mexican bandits again have crossed into American territory and attacked civilians and soldiers. The raid was made four miles north of Boquillas at an ore terminal station and directly behind Col. Langhorne's column which up to that time had not crossed into Mexico.

After a short skirmish, the bandits fled.

Mexican bandits Wednesday evening fired on a military automobile conveying a message from Major Langhorne to Colonel Sibley at a point 18 miles north of Boquillas, on the Marathon-Boquillas road.

Five shots were fired at the driver, J. Howard, who escaped unhurt, according to J. M. Henderson, who was following in another machine.

SALAZAR WOULD SURRENDER

Former Huerta General Attempted to Organize Revolt, Report Says.

El Paso, May 13.—Jose Ynez Salazar, former Huerta general, who crossed the frontier some weeks ago and was reported attempting to organize a revolt, now wants to surrender.

Threaten Death to Circulate Money.

Mazatlan, Mex., May 12.—Reluctance by the native population of this district to accept Carranza paper money led to the issuance by the commandant of the Mazatlan garrison of a decree inflicting the death penalty on all persons who reject the recognized legal tender of the de facto government. The same decree prescribes expulsion for any one, regardless of nationality, who circulates alarming reports reflecting on the stability of the de facto currency, or discussing the political situation of the country.

DEFENSE FORCE OF 654,000

SENATE AND HOUSE CONFEREES AGREE ON COMPROMISE BILL.

Measure Includes All Provisions Urged by "Big Army" Men Except Federal Reserve—Passage Asked.

El Paso, Texas, May 15.—Private force in time of peace of 654,000 men is proposed in the army bill which Senate and House conferees have just reported to both branches of Congress after several weeks' conference.

Though a compromise, the measure includes all the provisions urged by "big army" men except the federal reserve.

With both chairmen urging its passage, action is expected immediately.

Regular Army of 206,000 Men.

The defense force will consist of an army of regulars totaling in all its branches 206,000 men in time of peace and 448,000 national guardsmen, 800 for each senator and representative. The regular army's peace strength of 206,000 can be expanded to 254,000 in time of war.

In the agreement on the regular army the Senate bill system of organization was retained as a substitute for the House system, which would have recruited a maximum army of 140,000 men.

AMERICAN TROOPS AGAIN DASH ACROSS RIO GRANDE

Try to Surprise Bandits Holding Deemer a Prisoner—Plan for Exchange Fails.

Marathon, Tex., May 15.—Reports reaching here indicated that Major George Langhorne and troops A and B, Eighth cavalry, again have dashed across the Rio Grande from Boquillas in an effort to surprise the bandits holding Jesse Deemer a prisoner.

R. R. Hasbrought, an assayer employed with a Boquillas mining concern, and now a government scout, arrived here with messages for Captain John Chambers at Marathon.

He is said to have told personal friends that Colonel Frederick W. Sibley, in command of the Big Bend expedition would order Major Langhorne to reinvade Mexico, as it was believed that negotiations for an exchange of prisoners, between Langhorne and the bandits had fallen through.

MEXICAN UPRISING IN SOUTHWEST IS AVERTED

Fourteen Alleged Leaders Arrested in Texas—Villa Officer Must Face Charges in Court.

Corpus Christi, Texas, May 15.—Numerous arrests of Mexicans were made in Kleberg county by agents of the United States department of justice, Texas Rangers and county peace officers, in their investigation of an alleged plot for a Mexican uprising in the Southwest.

Fourteen Mexicans of various standings and affiliations are in jail in Kingsville.

Colonel Luis Morin, said to have been an officer in Villa's army and one of the first arrested, will be removed to San Antonio, where he will face charges in the federal court.

Pittsburgh Gets Charities' Meeting.

Indianapolis, May 15.—The 1917 national conference of Charities and Corrections will be held in Pittsburgh. The date of the conference will be fixed by the executive and local committees.

Coast Stripped of Troops.

San Francisco, May 12.—The Pacific coast has virtually been depleted of mobile troops by the recent orders to move forces from Vancouver, Spokane, San Diego, and Fort Lawton, Wash., to the border. There remain but two troops of the First cavalry and four companies of the Twenty-first infantry in Alaska, a company of engineers divided between San Francisco and Vancouver, and a field hospital company at Monterey. There are left at coast fortifications about 2500 coast artillery men.

KAISER MUST ASK FOR PEACE, FRENCH PRESIDENT HOLDS

POINCARE DECLARES ALLIES WILL NOT CEASE TO FIGHT UNTIL ENEMIES RECOGNIZE THEMSELVES BEATEN.

"FRANCE DOES NOT WANT BERLIN TO TENDER PEACE"

Republic Will Not Expose Her Sons to Dangers of New Aggressions, He Declares—Does Not Want Terms That Will Leave Germany With Power to Recommence War.

Nancy, May 16.—President Poincare, in an address here responded to Germany's declaration regarding peace, contained in the German replies to the American notes.

"France does not want Germany to tender peace," said the president, "but wants her adversary to ask for peace."

The president then made known the only terms which would be acceptable to France.

The address was delivered at the Molitor garrison before a large number of Lorraine refugees, to whom the president, after expressing his sympathies and renewing promises of solicitude and protection, said:

Try to Lay Blame on Allies.

"France will not expose her sons to the dangers of new aggressions. The Central Empires, haunted by remorse for having brought on the war, and terrified by the indignation and hatred they have stirred up in mankind, are trying today to make the world believe the Allies alone are responsible for the prolongation of hostilities—a dull irony which will deceive no one.

Wants Peace With Guarantee.

"Neither directly nor indirectly have our enemies offered us peace. But we do not want them to offer it to us; we want them to ask it of us. We do not want to submit to their conditions; we want to impose our's on them. We do not want a peace which would leave Imperial Germany with the power to recommence the war and keep Europe eternally menaced. We want peace which receives from restored rights serious guarantees of equilibrium and stability.

"So long as that peace is not assured to us, so long as our enemies will not recognize themselves as vanquished, we will not cease to fight."

ENGLAND AND U. S. CANNOT FIGHT BEFORE ARBITRATING

Existing Treaty Attracts Wide Interest—Press Calls Agreement Friendly Measure With America.

London, May 16.—The interview with James W. Gerard, the American ambassador to Germany, published in the Koelnische Volks Zeitung dealing with Secretary of State Lansing's statement made after President Wilson's last note to Germany had been dispatched and dealing with the existing arbitration treaty between the United States and Great Britain, is attracting wide interest in England.

The Graphic in an editorial headed "Our Friendship With America," says:

"Two important facts stand out. The first is that should any incident occur to antagonize America and England, the two nations could not come to blows, if at all, until a cooling off period or an inquiry which might last a year. The second is that America could not join Germany and fight against us until a similar course of inquiring into the subject of the dispute between ourselves and America expired."

CASEMENT IN BETTER HEALTH

Irish Leader Discusses Case With Friends in London Tower.

London, May 15.—According to Reynolds Weekly, Sir Roger Casement received three friends in the London Tower and discussed his case with them for nearly an hour. Sir Roger is in much better health than a fortnight ago. He has been permitted to read and has taken regular exercise.

DOMINICAN REBELS QUIT CAPITAL; WARNED BY U. S.

Santo Domingo, May 16.—The warning of the American minister, W. W. Russell, that the city of Domingo would be taken by force unless it was given up by the rebels not later than Sunday morning, resulted in the evacuation of the city.

Urge 10,000 to Preach on Peace.

New York, May 15.—Letters signed by former President Taft, as head of the League to Enforce Peace, and a committee of prominent churchmen, have been written to 10,000 clergymen, asking them to embody in their sermons next Sunday an explanation of the league's purposes. It is admitted that "there is no reasonable ground to hope that the nations of the world will at this stage go so far as to disarm and create an international army and navy to police the world."

How It Happened.

"I got bunged up dish-uh-way at de white folks' peace meetin' last night, sah."

"Go 'long! White folks wouldn't let a nigger fluctuate 'round deir meetin'."

"No, sah. But I was listenin' outside de open winder and two gen'lemen dat was tryin' to choke each udder to death done fell out onto me!"—Kansas City Star.

Druggist Recommends Fine Kidney Medicine

We have been selling Dr. Kilmer's Swamp-Root for the past seven years and during that time we have never heard a complaint. All of our customers speak in the highest terms of the results obtained from its use and all are well pleased with it as a kidney, liver and bladder medicine. We think it is a fine remedy and we sell a great quantity of it.

Very truly yours,
E. E. HARRAH & SON,
Druggists,
Dec. 17th, 1915. Golden City, Mo.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

Full Knowledge.

"Pa, Cousin Maude is going to study dietetics. What's dietetics?"

"It's this new science of dyes, son. Ask you father something harder."

HEAL SKIN TROUBLES

That Itch, Burn and Disfigure by Using Cuticura. Trial Free.

The Soap to cleanse and purify, the Ointment to soothe and heal. Rashes, eczemas, pimples, dandruff and sore hands yield to treatment with Cuticura Soap and Ointment. Relief is immediate and healment, in most cases, complete, speedy and permanent.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Cheering Him Up.

A professional boxer was badly beaten in a sparring match and carried to his bed in an exhausted and melancholy condition.

"I wish you'd say something to cheer him up, doctor," pleaded the defeated warrior's wife. "He's gettin' low in his mind, and when he's like that you've no idea how hard it is to wait on him. He's worse than a bear with a toothache."

"What can I say that will please him most?" asked the doctor.

"You might just tell him in an offhand way that the man as licked him is mighty bad in the horspital, and that they may have to hold a post-mortem on him any minute now," was the solemn suggestion.

Luxury of Woe.

Mandy had "dished up" my onesome lunch, but still she lingered near.

"Well, Mandy, what is it?" I asked, recognizing the symptoms.

She giggled consciously. "Please, Miss Ethel, culdn' yo' lend me a pa'r red stockin's?"

"Red stockings, Mandy? Are you going to a party?"

She became impressively solemn at once. "Oh, no, miss. Ah's gwine to a fun'al."

"But Mandy, red stockings at a funeral! Everybody always wears black at funerals."

"Yes'm. Ah knows, Miss—" she hesitated—"but, yo' see, Ah, expects to prostrate mahself on de grave."—New York Evening Post.

It's a good thing to have a temper if you know how to handle it.

MEAL-TIME CONSCIENCE.
What Do the Children Drink?

There are times when mother or father feeds the youngsters something that they know children should not have. Perhaps it is some rich dessert but more often it is tea or coffee.

It is better to have some delicious, hot food-drink that you can take yourself and feed to your children, conscious that it will help and strengthen, but never hurt them.

A Yorkstate lady says: "I used coffee many years in spite of the conviction that it injured my nervous system and produced my nervous headaches. While visiting a friend I was served with Postum and I determined to get a package and try it myself. The result was all that could be desired—a delicious, finely flavored, richly colored beverage. Since I quit coffee, Postum has worked wonders for me.

"My husband, who had suffered from kidney trouble when drinking coffee, quit the coffee and took up Postum with me and since drinking Postum he has felt stronger and better, with no indication of kidney trouble.

"You may be sure I find it a great comfort to have a warm drink at meals that I can give my children, with a clear conscience that it will help and not hurt them as coffee or tea would."

Name given by Postum Co., Battle Creek, Mich.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c pkgs.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine —Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. Mayme Asbach, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCasland, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. Osgood, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

SPOHN'S DISTEMPER COMPOUND

WORMS

"Wormy," that's what's the matter of 'em. Stomach and intestinal worms. Nearly as bad as distemper. Cost you too much to feed 'em. Look bad—are bad. Don't physic 'em to death. Spohn's Compound will remove the worms, improve the appetite, and tone 'em up all round and don't "physic." Acts on glands and blood. Full directions with each bottle, and sold by all druggists.

A Famous Physician's Wonderful Discovery

After a series of careful experiments and tests at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., covering many years—Dr. Pierce, the medical director of that hospital, made announcement that he could prove that a medicine which he called "ANURIC" was the best uric acid solvent now to be had. As a remedy for those easily recognized symptoms of inflammation—as scalding urine, backache and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, lumbago, sciatica, gout, it is simply wonderful how quickly "Anuric" acts, causing the pains and stiffness rapidly to disappear.

Swollen hands, ankles, feet are due to a dropsical condition, often caused by disordered kidneys. Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

It is just as necessary to keep the kidneys acting properly as to keep the bowels active.

The very best possible way to take care of yourself is to take a glass of hot water before meals and an "Anuric" tablet. In this way it is readily dissolved with the food, picked up by the blood and finally reaches the kidneys, where it has a tonic effect in rebuilding those organs.

Step into the drug store and ask for a 50-cent package of "Anuric," or send Dr. Pierce 10c for trial pckg. "Anuric"—many times more potent than lithia, eliminates uric acid as hot water melts sugar. A short trial will convince you.—Adv.

State News

Important Doings of Past Few Days Throughout Minnesota. Edited & Arranged for Our Readers.

AT THE STATE CAPITOL

Normal Head Not Chosen.

The state normal board at its meeting in Moorhead deferred selection of a president for the normal school at St. Cloud until the annual meeting to be held in the capitol June 6.

★ ★ ★

Seeding About Completed.

According to reports received by the state immigration department seeding is about completed in Minnesota. Wet ground has interfered in some sections but on the whole the state is well advanced. Tame grasses are in excellent condition.

★ ★ ★

On Weights and Measures.

Information regarding official weights and measures and weighing and measuring devices that conform to Minnesota laws is contained in a supplement that makes an unusually large booklet of the annual report of the state department of weights and measures, now ready for public distribution.

★ ★ ★

Plans for Prison School.

Erection of a separate building at the Minnesota state prison to house the prison school is proposed by the State Board of Control in its program to develop the educational facilities of the institution. Authorization likely will be asked of the coming legislature.

★ ★ ★

Regents Increase "U" Fees.

It is going to cost students $10 more each to attend the University next year in the colleges of arts, agriculture, education and engineering. The board of regents has directed increase of fees in these colleges from the present total of $30 yearly per student to $40. The increase was said to be necessitated by the heavy enrollments in these colleges, which demanded a larger teaching staff than the Legislature had provided for.

★ ★ ★

Ruling on Land Sales.

In land sales hereafter, bidders will be advised that if the land purchased at the state auctions is found afterward to possess timber of value, the certificates will be cancelled and the timber reserved for the state. This announcement has been made by J. A. O. Preus, state auditor, following his visit to Bemidji, where he sold two small parcels of land. Mr. Preus, for the first time announced the new rule, and as a result the bidders were scarce.

GOPHER STATE NOTES

Duluth.—The complete program for the 12th annual convention of the Minnesota State Elks' association, to be held here June 14 and 15, has been announced by A. J. McCulloch, chairman of the committee in charge of arrangements.

Brainerd.—The annual state convention of the Knights of Columbus opened in Brainerd, with delegates present from 49 councils, also all state officers, district deputies and a national officer, E. W. Buckley of St. Paul, national director. The present state membership of the order is 11,343, an increase of 1,400 for the year.

St. Cloud.—Rev. John Vander Boer, pastor of St. Bernard's Catholic church at Ward Springs, was overcome by fire and smoke while attempting to save his church. The unconscious form of the priest was found in the churchyard after the church had been burned to the ground. He saved practically all of the vestments and altar supplies.

St. Paul.—The Minnesota Territorial Pioneers' association meeting at the old capitol on the 58th anniversary of the admission of Minnesota to statehood, brought together more than 100 men and women, notwithstanding the cold wind that kept many home and the funeral in Minneapolis of Frank Slocum, a pioneer, which many attended. Governor J. A. A. Burnquist and former Governor S. R. Van Sant addressed the meeting.

St. Paul.—So serious are the financial affairs of Koochiching county that Attorney General Smith and Public Examiner Fritz have left to investigate and if possible to straighten out the tangle. The district, it is said, is practically threatened with bankruptcy. As one of the new counties, Koochiching has been constructing ditches and roads, and in doing so has bonded itself to the limit. While figures are not available, the belief is that the bonding limit has even been exceeded.

Knife River.—Residents of this village went supperless as they took refuge in the open from the wall of flames that menaced their homes. The forest fire started in the region of Clover Valley, and the residents in that section were forced to flee for their lives.

Winona.—The banker can have no greater prosperity than the community in which his bank is located, was the thought which ran through the annual convention of the First district group of Minnesota Bankers' association, the concluding sessions of which have just been held.

ROBERT LANSING

© HARRIS & EWING

Secretary Lansing cabled the American reply to the German note to Ambassador Gerard, at Berlin, who will deliver the text to the German Minister of Foreign Affairs.

American Reply to German Note Is Brief, Pointed

Washington, May 10.—Following is the text of the note cabled by Secretary Lansing to Ambassador Gerard at Berlin with instructions to deliver it to the German minister of foreign affairs.

"The note of the Imperial German government under date of May 4, 1916, has received careful consideration by the government of the United States. It is especially noted as indicating the purpose of the Imperial German government as to the future, that it is prepared to do its utmost to confine the operation of the war for the rest of its duration to the fighting forces of the belligerents, and that it is determined to impose upon all its commanders at sea the limitations of the recognized rules of international law upon which the government of the United States has insisted.

Guided by Friendship.

"Throughout the months which have elapsed since the Imperial government announced on February 4, 1915, its submarine policy, now happily abandoned, the government of the United States has been constantly guided and restrained by motives of friendship in its patient efforts to bring to an amicable settlement the critical questions arising from that policy.

"Accepting the Imperial government's declaration of its abandonment of the policy which has so seriously menaced the good relations between the two countries, the government of the United States will rely on a scrupulous execution henceforth of the now altered policy of the Imperial government, as such as will remove the principal danger to an interruption of the good relations existing between the United States and Germany.

New Policy Made Clear.

"The government of the United States feels it necessary to state that it takes it for granted that the Imperial German government does not intend to imply that the maintenance of its newly announced policy is in any way contingent upon the course or result of diplomatic negotiations between the Government of the United States and any other belligerent government, notwithstanding the fact that the certain passages in the Imperial government's note of the fourth instant might appear to be susceptible of that construction.

"In order, however, to avoid any possible misunderstanding the government of the United States notifies the Imperial government that it cannot for a moment entertain, much less discuss, a suggestion that respect by German naval authorities for the rights of citizens of the United States upon the high seas should in any way or in the slightest degree be made contingent upon the conduct of any other government affecting the rights of neutrals and noncombatants. Responsibility in such matters is single, not joint; absolute, not relative."

GERMANY REGRETS SUSSEX INCIDENT, NOTE ASSERTS

Announces Submarine Commander Has Been "Appropriately Punished" —Ready to Pay Indemnity.

Washington, May 12.—Germany, in a note received by the state department by cable from Ambassador Gerard, admits a German submarine torpedoed the channel steamer Sussex in violation of assurances given the United States, expresses regret for the incident, announces the submarine commander has been "appropriately punished," and declares readiness to pay an adequate indemnity to Americans injured on the vessel.

It is indicated at the state department that the German statement that the commander has been punished will be accepted and the Sussex case considered closed, except for arranging for the payment of indemnities to the citizens of the United States who were hurt.

There probably will be no attempt to negotiate for these indemnities, or for final settlement of the Lusitania and other cases, pending, however, until sufficient time has elapsed to indicate how the last American note was received in Berlin and whether the new submarine policy is being lived up to.

Horse Disliked Cigarettes.

A sensitive horse who has a dislike for cigarette smoke attacked Edgar Akers, aged twenty-five, and bit him on the right hand. Akers was smoking a cigarette at Sixth and Spring streets near the horse, which was standing at the curb. With an angry squeal, the horse seized Akers by the right hand. Akers managed to free his hand, but not until the horse's teeth had torn the flesh from the fingers.—Los Angeles Times.

Dr. Pierce's Pellets are best for liver, bowels and stomach. One little Pellet for a laxative—three for a cathartic.—Adv.

Rabbits Stall Stagecoach.

George Crowell, stage driver on the route from Austin to Potts, is authority for the statement that his team was stalled on the home trip at Hot Springs, east of Spencer, by an army of jack rabbits. He said they resembled a drove of sheep, and leaped into the tall sage when finally scared away.—Austin (Nev.) dispatch to New York Sun.

The Wonderful Magic Washing Stick

The Magic Washing Stick, the greatest helper woman ever had with her washing, and I have been singing its praises to my neighbors, writes Mrs. Mollie Martin, Route 3, Apache, Okla. It is truly a wonderful article, saving all the washboard labor on washday. 15 washings 25c. Sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

Might Save His Chip.

Once Gladstone was cutting a tree on his estate. Two yokels each took up a chip to treasure. "When I die, lads," said Sandy, "this chip'll go in my coffin!"

"Sandy," said an old wife standing near, "if thou'd worship thy God as thou worship Gladstone, thou'd stand a better chance of going where the chip wouldna burn!"

FITS, EPILEPSY, FALLING SICKNESS Stopped Quickly. Fifty years of uninterrupted success of Dr. Kline's Epilepsy Medicine insures lasting results. LARGE TRIAL BOTTLE FREE. DR. KLINE COMPANY, Red Bank, N. J.—Adv.

Strategy.

"How in the world do the Thompsons manage to keep their maid so long? She's been with them nearly a year, and we haven't been able to keep one over a month since we moved out here to Lonesomehurst."

"That's easy. Thompsons don't pay the maid her wages, and she can't get back to town unless she walks."

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of Chas. H. Fletcher

In Use for Over 30 Years.

Children Cry for Fletcher's Castoria

Explained.

Patience—What is the difference between a fright and a perfect fright?

Patrice—Well, you see, that bonnet you have on is a fright; if I had it on it would be a perfect fright.

Second Sight.

"I love the heiress, and I'm going in to win."

"You always want everything in sight."

"I want more than that, my dear boy. The heiress is out of sight."

The Facts in the Case.

Surgeon—I found the ball in the patient's shoulder was encysted.

Patient—Of course you did. 'Twas me that insisted it.

Perhaps a little exaggeration mixed with your talk would make it more interesting.

Why That Lame Back?

Morning lameness, sharp twinges when bending, or an all-day backache; each is cause enough to suspect kidney trouble. Get after the cause. Help the kidneys. We Americans go it too hard. We overdo, overeat and neglect our sleep and exercise and so we are fast becoming a nation of kidney sufferers. 72% more deaths than in 1890, is the 1910 census story. Use Doan's Kidney Pills. Thousands recommend them.

A Wisconsin Case

"Every Picture Tells a Story."

August H. Wilkens, Eighth Ave., West Bend, Wis., says: "My back was in such bad shape I couldn't lie still long. When I took cold, the backache was worse. I got so dizzy at times I could hardly work and I had to pass the kidney secretions three or four times at night. I was nervous and run down. Three boxes of Doan's Kidney Pills restored me to good health after other medicines had failed. I haven't suffered since."

26 children were poisoned last year in only 11 states

Fly Poison Kills More Children Than All Other Poisons Combined

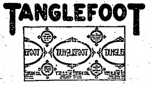
For Safety's Sake, Use

Is there in your home, anywhere within baby's reach, a saucer of arsenic poisoned paper floating in water, or a can with a sweetened poisoned wick?

During 1915, 26 cases of fly poisoning were reported from 11 states; in 1914, 46 cases from 14 states. *Fly poison kills more children than all other poisons combined.*

Yet fly poison still is left unguarded except in the homes where mothers have learned that the *safe, sure, non-poisonous,* efficient fly catcher and destroyer is

TANGLEFOOT



The Journal of the Michigan State Medical Society comments thus in a recent issue:

"Symptoms of arsenical poisoning are very similar to those of cholera infantum; undoubtedly a number of cases of cholera infantum were really cases of arsenical poisoning, but death, if occurring, was attributed to cholera infantum.

"We repeat, arsenical fly destroying devices are dangerous and should be abolished. Health officials should become aroused to prevent further loss of life from their source. Our Michigan Legislature, this last session, passed a law regulating the sale of poisonous fly papers."

DEFECTIVE PAGE

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3.1879

Elias Steenerson, former postmaster at Crookston, and a brother of Congressman Steenerson, has filed for the Republican nomination for Railroad and Warehouse Commissioner, in opposition to Judge Mills. On receipt of the news A. G. Anderson, of Fergus Falls, filed for the Republican nomination for Congressman from this District, in opposition to Halvor Steenerson. Some of the politicians who have been looking for an excuse to oppose the re-election of Congressman Steenerson for some time have taken this as a sufficient excuse. As a rule, if a man wants to get drunk he can always find a good and valid reason for doing so, and those who would oppose the re-election of Congressman Steenerson at this time, for the reason that his brother Elias has filed for the nomination for Railroad and Warehouse Commissioner have about as good an excuse for doing so, as a man usually has for getting drunk. Halvor Steenerson is not the keeper of his brother Elias, nor is he responsible for any political action that he may take. So far as his candidacy in opposition to Hon. Ira B. Mills is concerned, we are of the opinion that Judge Mills has rendered as satisfactory service to the people in his position, as Congressman Steenerson has in his, and when the votes are counted, we believe that they will both be retained in office for another term.

The Representative aspirants received an addition to their number, by the filing of Edw. D. Rydeen, of Clearwater county, last week. Mr. Rydeen will undoubtedly receive strong support from the farmers of Clearwater county, as he is a man that has stood for the interest of the farmers of that county for a number of years, and is now the Secretary of the Clearwater Co-operative Creamery, and is a prominent man in all of the movements being made by the farmers of that locality to better their present condition.

As there are now likely to be three candidates for Representatives from Clearwater county for the Republican nomination, and as the fight between Stenvick, our present Representative, and Edw. D. Rydeen, is likely to be a bitter one, John A. Duffy, the lone candidate from Red Lake county, and this end of the District, had ought to be pretty sure of a place on the ticket for the November election. Mr. Duffy got safely by with the nomination two years ago, but was defeated by Stenvick at the November election.

Hon. Ira B. Mills, candidate for re-election as Railroad and Warehouse Commissioner, has always taken the side of the people when any question was brought up where the interest of the people were on one side and the railroads on the other, and he will undoubtedly be re-elected by a bigger majority this year, than he ever was before.

It strikes us, that A. G. Anderson will not gain much popularity among the Republican Voters of the Ninth Congressional District, by an indorsement of the war policy of President Wilson. He certainly will get a mighty light vote from the German-American citizens of this District.

The North Dakota delegates to the National Republican Convention, have changed their votes from LaFollette to Roosevelt for President. President Wilson's Mexican War Policy is one of Roosevelt's big sticks, that will assist him more to secure the nomination than all other booms combined. But we do not know as the present President is anymore to blame for the present condition of affairs down there, than was President Taft, who started the bread and sugar method of dealing with those outlaws, who have shown that they are no more fit for self goverment than the Phillipinos, and the American people have about come to the conclusion that they want Roosevelt to get after that "gang" with his big stick, and establish peace down there.

It was a surprise to the people that the lower house of Congress took the stand they did regarding the increase of our army. The people are not in favor of sending an army of nine men to protect our frontier from bandit raids, when we have plenty of men to protect it, only waiting to be called on. Sending a few U. S. soldiers into places where they can be over powered and butchered at the will of the Mexican bandits, does not agree with the American idea of war fare, and is a continual boom for Roosevelt for President.

Harry Ives, our present efficient Clerk of Court, filed for nomination at the primaries, for re-election to his present office. He should be nominated and elected by a large enough majority by the voters of this county to convince him that faithful service was appreciated by the people.

The law making a four year term for county officials has been held constitutional by the Supreme Court, which will make county officials smile, and make some saving of cabbage leaf cigars, and the people will enjoy better health by not smoking them.

RHEUMATIC PAIN STOPPED

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain, 25c. at Druggists.—Advertisement.

KEEP YOUR SKIN CLEAR AND HEALTHY.

FIRST STATE BANK, Of Plummer Minnesota.

SYSTEMATIZE your household expenses by opening a bank account for your wife. Give her a check book and teach her the use of it. Pay the butcher, the grocer, the baker, with a check. Then at the end of the month you'll find out just how much it costs you to run the home. When payment by check is made there never is any doubt as to whether or not a bill is paid. The check is a receipt.

Besides, a checking account will give your wife a business education. The number of ordinarily bright women who know absolutely nothing of banking is surprising. If you are a husband, father, brother, you cannot tell when death may overtake you, and it is well that your wife, daughter and sister know something of banking.

MAKE UP YOUR MIND TODAY TO GIVE YOUR WIFE A CHECK-BOOK.

SAM. G. IVERSON IDEAL CANDIDATE FOR GOVERNOR

PROMISES BUSINESS ADMINISTRATION AND REDUCED TAXATION IF ELECTED—STANDS FOR BETTER MINNESOTA.

EFFICIENT SERVICE IS KEYNOTE OF PLATFORM

Just Enforcement of Laws and Development of State's Resources Would Be Assured by Selection of Minnesota's Ideal Candidate at Primaries June 19.

Address to Voters.

Managers of American industries lead the world in organization, efficiency, service and economy of operation. Why? Because skill, experience, training and competency are demanded of all; the best expert service is always employed. If you are going to build a house would you employ a doctor? Railroads do not select even successful merchants for superintendents. A very able farmer would not expect to head a farm machinery factory. Yet taxpayers and voters who are the government stockholders, too often, wholly disregard plain business sense when they elect an agent to look after their public business. Public affairs are far more important than private enterprises. Minnesota is a greater institution than all its private business concerns combined. Besides collecting and spending in its operation a million dollars a month, the state should promote the health, happiness and prosperity of its citizens, and its policies and principles should bless the lives of oncoming millions. The state is a great mutual co-operative organization, and the governor or manager should be a man whose ability, intelligence, training and vision are broad enough to assist and direct the work of the various state institutions and departments, and whose heart and sympathy is with the people in all walks of life.

The "Iverson Club" of Rushford presents to the voters of Minnesota an ideal candidate for governor to be selected at the primaries on June 19th, in the person of Hon. Samuel G. Iverson. His life, both private and public is an open book. He has been tried in many official positions, and for twelve years was the executive head of the State Auditor's and Land Departments. He has always stood right on progressive principles. We know him as a man of ability, character and convictions, who has the courage to do what is right. This appeal is made to business men, taxpayers and all friends of good government.

Resolutions.

Whereas a widespread discontent prevails over the state because of reckless extravagance in public expenditures, causing ever increasing taxation, retarding immigration and development, and tending to wasteful inefficiency; and serious anxiety exists because of a failure to maintain the dignity of the people's laws by a fair and just enforcement; and

Whereas, the state is the central power and for its governor or executive should elect the man who in ability, experience and training is the best qualified to serve all the people in that great office; one who has an intimate knowledge of the state, its people and resources, and who has the courage to give a square deal to all, and,

Whereas, the Hon. Samuel G. Iverson, a native of this city, for twelve years our State Auditor, who is a candidate for the Republican nomination for governor, is a man who possesses the qualifications to acceptably fill that exalted position, therefore,

Be it resolved, that we, as citizens of the City of Rushford here assembled, do hereby organize an "Iverson Club" for the purpose of furthering the candidacy of Samuel G. Iverson for governor, and each member pledges himself to act as a committee of one to use all honorable means to aid his nomination and election, and,

Resolved, further that we recommend this native son of Minnesota, the product of our schools and State University, to the voters of the state, as a man with a clean record in both private and public life, and who has always been fair and fearless in the discharge of his official duties. And, we his old friends and neighbors, volunteer our support and urge the election of Mr. Iverson, knowing him to be a man admirably equipped in all respects for an administration of business efficiency, economy and law enforcement, and a man who stands for and who will promote the highest ideals of American citizenship.

The above resolutions were unanimously adopted this 5th day of May 1916.

DR. E. V. WILLIAMS,
President.
A. K. HANSON, Jr.,
Secretary.

THE SUNBEAM.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, MAY 26, 1916. NO. 11

MINNESOTA
HISTORICAL
SOCIETY

THE LOCAL NEWS

The Star Route mail drivers have very bad roads to travel now days, in places where the roads are not graded.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays, Wednesday and Friday every week. Headquarters at drug store.—Adv.

The timothy that was seeded with flax, last year, on mosskeg land is now in fine condition, and will make a heavy crop of hay this year. Nothing like turning the mosskeg land from worthless wire grass producing land to good timothy meadow lands.

That new line railroad that the survey starts on next month, from Minneaplis to Warroad will pass somewhere through eastern Pennington county. The city of Minneapolis have grown tired of having all the produce of northern Minnesota head for Duluth and propose to have a line to their city.

The government seed rush certainly gives the country Fourth class postmaster a job fitting to their salaries. They dump them into this office by the sack full to be addressed and sent out to farmers. Any one who wants a sack of them can get them by writing to their Congressman or Senator.

The weather has been very unfavorable for seeding the past week, as we had another big soaking rain last Sunday, and it seems that just as soon as the ground gets about dry enough to work that another heavy rain comes. Wheat that was sown early is looking splendid for this time of year.

M. E. Hyland restrained two of Christoffer Nisson's cattle, who have been destroying his hay on the Johnson farm, and there was a slight difference in opinion, as to the amount of damage done. But cattle are not allowed to do damage to anyone, and if they are taken up the owner has to settle the damage done, before he can get his stock.

Steps are being taken to celebrate the Fourth of July at Oklee this year in a most extraordinary manner. The Commercial Club is behind the move, the general plan of celebration has been adopted and the various committees on arrangements have been appointed. These committees are already actively at work and are making the most elaborate preparations ever attempted for a Fourth of July celebration in northern Minnesota.—Adv.

If the bed of Red Lake River was dredged out about three feet it would reclaim about all of the bottom land that has been flooded with water this season. Congressman Steenerson has got the bill through to have a government survey made of the river, which will undoubtedly be made this season, and the necessity for the reclamation improvement for the Indian lands will be so apparent, that we may look for the work to commence next season.

We have one small piece of fine plowed land, that is fine wheat land, but it has been too wet to sow so far this season, so we have made up our mind that we are going to wait until it gets dry enough to sow and work in good shape, then sow it to wheat, if it don't get dry enough before July. Ordinary years this piece of land is plenty dry enough for good farm land, so we are going to experiment on it this year, and will let our subscribers know the result.

KNUTE IS JEALOUS.

It was somewhat of a surprise to us that Senator Nelson has stepped down from his high position, that the people of this state have honored him with, to dictate to the people of the Ninth Congressional District, who they should elect for Congress. The qualifications of Mr. Steenerson and Nelson for the positions which they occupy are too well known for us to occupy space to tell of them. But Uncle Knute is getting old, and has now aspired to becoming the Czar of Minnesota. He has grown jealous of the prominent position that Congressman Steenerson has gained as an influential member of the lower house of Congress, and would like to see him defeated by this banker of Fergus Falls, who never came any nearer to having any legislative experience than running against Ole Sagen for the State Senate, and getting badly defeated. But the people of the Ninth Congressional District are not going to stand for this trade of horses while crossing a stream, and you can put that in your pipe and smoke it.

There are but few men in congress who are capable of earning more in private life than their salary as congressmen, and Halvor Steenerson is one of these few. It is a good argument that when you have a man who is worth more than you pay him, you would hardly care to discharge him and hire another man who you know little about. And the men in congress who conduct the affairs of the country are those who have been there for many years, and it takes a new man several terms of service before he is of much account.

NOTICE!

On June 1st a penalty of 10 per cent is added to all unpaid Real Estate Tax, but in case one-half the amount of the tax on any real estate shall be paid before June 1st of each year then no penalty is added, providing that the remaining half of said tax shall be paid before the 1st day of November of each year, if said remaining one-half of said tax is not paid before November 1st of each year, then a penalty of 10 per cent is added to the one-half of said tax remaining unpaid. Taxes become delinquent on the 1st day of January next, when an additional penalty of 5 per cent is added. Tax sales take place on the first Monday of May following and the amount of sale draws interest at the rate of one per cent a month until redeemed. If not redeemed within three years from the date of sale, all lands become the absolute property of the state or purchaser.

Respectfully,
Theo. H. Liden,
County Treasurer.

Karl Hofstad was a Thief River Falls visitor last Friday.

M. E. Hyland is up to Warren this week, consulting a physician regarding his health.

Oklee will make the Eagle scream with a big celebration on July 4th.

Walter McAndress is transacting business at Thief River Falls this week.

Marshall Shedd arrived home from Chetek, Wis., on Tuesday, where he has been visiting his parents the past winter.

One of the young boys of Gunder Asbjornson living in the town of Mayfield had his leg broken, by being kicked by a horse on Wednesday evening.

Political Announcements.

For Representative.

I hereby announce myself as a candidate for Representative of the 65th District.

YOUR VOTE AND SUPPORT SOLICITED.

JOHN A. DUFFY.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby announce myself as a candidate for re-election to the office of Clerk of the District Court for Pennington County. I wish to announce at this time to pledge to the voters of Pennington County that if I am nominated and elected, I will give the office my undivided attention, and will serve the public to the best of my ability in a strictly impartial manner. In the accounting department as a member of the Board of Audit, in the Naturalization department, in fact in all of the different duties of the Clerk, I feel better prepared and able to give more efficient service than in the past.

Thanking the voters for past favors, and hoping for your continued support if you deem me worthy, I remain

Respectfully Yours,
HARRY E. IVES.

U. S. Mail.

FOR RAILROAD AND WAREHOUSE COMMISSIONER.

I am a candidate for the Republican nomination to the office of Railroad and Warehouse Commissioner. I am a resident of Moorhead, Clay county, Minn. I was appointed to that office by Governor Knute Nelson and have been on the Commission, except for the year 1900, ever since.

The duties of the Railroad and Warehouse Commission have steadily increased since I have been Commissioner. Originally confined to the regulation of the railroads and grain interests, there has been added from time to time, jurisdiction over express companies, weights and measures, commission merchants of grain and agricultural products, and the last legislature placed storage warehousemen, and telephone companies under the Commission.

I have drawn many of the laws under which the Commission acts and have made a constant study of the subject of public service regulation. Knowledge of the subjects with which the Commission has to deal is necessary to the proper discharge of the public duties and is so recognized by every one that has given the subject attention.

During the last four years the Commission has passed upon 3500 complaints, involving the different subjects under its jurisdiction. Nothing of any great importance is disposed of without discussion by all members of the Commission, and nearly all of the adjustments of these questions have been entirely satisfactory to complainants and the general public.

The Commission secured, after protracted litigation, the establishment of the Legislative and Commissioners' freight and passenger rates, and since the decision of the United States Supreme Court holding those rates not confiscatory, the Commission has secured refunds from the different carriers to the shippers of $3,000,000.

The Commission, with other Western State Commissions, appeared on behalf of Western States before the Interstate Commerce Commission to oppose the advance asked by the carriers in western freight rates, aided by appropriations by several State Legislatures, of which Minnesota contributed $15,000,00. Such a thorough examination was made of the carriers' books and evidence so convincing was presented that the Interstate Commerce Commission refused any advance on grain, grain products, live stock, etc. It is estimated that this action saved the Western shippers at least $10,000,000 per year.

On my record as a Commissioner and my knowledge acquired by the study of the subjects constantly coming before the Commission I ask the support of the voters at the June primaries. Thanking you for favors granted me in the past and promising if re-elected to continue to devote my whole time to the work of the office.

Ira B. Mills.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL	24 large or 36 small	$3.95
(Brewed Specially for Family Use)

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit.

DEFECTIVE PAGE

TROOPER WOUNDED IN BANDIT ATTACK NEAR TEMOSACHIO

GROUP OF SEVENTH CAVALRY FIRED ON BY OUTLAWS HIDING ABOUT BRIDGE SOUTHEAST OF MADERA.

BAND OF MEXICANS FALL IN BEHIND U. S. COLUMN

Tell Natives They Are Chasing Gringoes From Mexican Soil, But Stop Whenever Americans Halt—Pershing's Men Further South Than Was Thought.

Marathon, Texas, May 23.—Marauders have cut the army telegraph line between Marathon and the Mexican frontier in three places, according to Captain Evans who arrived from Boquillas where he had been directing the erection of the line. Captain Evans said also that one of the poles had been destroyed north of Boquillas. No definite clue to the identity of the vandals has been obtained.

Field Headquarters, Mex., via wireless to Columbus, N. M., May 23.—Thirteen troopers of the Seventh cavalry were fired on near Temosachio and one was wounded. The attack is ascribed to bandits hiding about a bridge southeast of Madera, on the Mexican-Northwestern.

After a few shots the Mexicans fled and the Americans continued on their way.

"Chasing Gringoes From Mexico."

A small group of Mexicans is falling in behind the American columns as they move northward, always keeping out of sight, but telling the natives that they are chasing the gringoes from Mexican soil. They stop whenever the Americans halt and hide or disarm if General Pershing's men approach them.

Two suppositions are prevalent regarding the identity of these men. One is that they are Carranzistas trying to give the American movement the appearance of a retreat. The other is that they are bandits seeking to annoy the Americans by sniping. The latter conjecture is the most favored.

U. S. Troops Far to South.

This is the first intimation received recently that American soldiers were stationed so far to the south. All reports have placed their southernmost points at Namiquipa, which is a considerable distance to the north of Temosachic.

AMERICANS GET BETTER RATE ON TIME DEPOSITS

Minneapolis Federal Reserve Bank Investigates Canadian and United States Banking System.

Minneapolis, May 22.—Farmers and business men on the American side of the international boundary enjoy substantial advantages in obtaining credit, receive a materially better rate on their time deposits and pay no higher rates than those who are customers of the Canadian banks. If anything, the rate level on the American side is slightly more advantageous to the borrower than in Canada. These are the principle conclusions of a lengthy report on an investigation of Canadian and American bank rates, which has just been forwarded by the Federal Reserve Bank of Minneapolis to the Federal Reserve Board in Washington. The report further states that there is little hope for any substantial reduction in interest rates on the American side of the international line until depositors in country banks are willing to accept a lower rate on their time deposits than the 5, 5½ and 6 per cent level which now prevails.

CLERGYMAN MUST PAY $3,625

Sued for $20,000 for Breach of Promise by Minneapolis Girl.

Boston, Mass., May 20.—Miss Laura L. Johnson of Minneapolis, was awarded a verdict of $3,625 against the Rev. Charles Chase Wilson, pastor of the Church of Our Savior in Roslindale, whom she sued for $20,000 for breach of promise. The jury was out eight hours, coming back once for instructions.

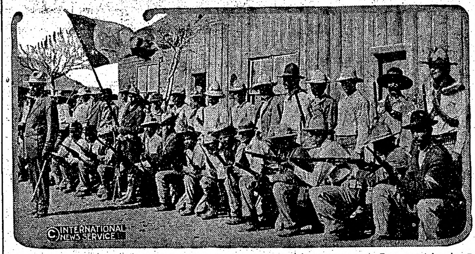
Sailor Defies Police With Bricks.

Norfolk, Va., May 22.—William B. Lundquist, a sailor, defied the Norfolk police for three hours while he hurled bricks from the top of a theater building at the officers and pedestrians on Main street. He was captured after he had been shot in the leg, and was ordered held for examination as to his sanity.

Battle With Bandits Expected.

San Antonio, Tex., May 19.—A battle between Major Longhorne's cavalry and the rear guard of the Glenn Springs raiders was expected momentarily following reports of a preliminary clash in which two Mexicans were wounded and captured. The fight occurred south of El Pino, the settlement where the Americans, Deemer and Payne, were rescued. Colonel Sibley, commanding the expedition, began a dash southward to join Langhorne's force immediately on receipt of Langhorne's report.

WHY PEOPLE ALONG THE BORDER ARE UNEASY



This photograph of armed Mexicans with their flag, being drilled by a Mexican army officer, was taken in an American border town and is evidence that there was reason for the fear of an uprising of Mexicans in Texas, New Mexico, and Arizona.

RAID TWO RANCHES ON AMERICAN SIDE

VILLISTAS CAPTURE HORSES AND SUPPLIES NEAR PRESIDIO, TEX. —MEXICANS COMPLAIN.

VILLANEUVA LEADS OUTLAWS

Joins in Active Banditry With Chavez and Makes Attacks on Both Sides of Border—Same Band in Glenn Springs Raid.

Presidio, Texas, via automobile to Marfa, May 22.—Placido Villaneuva, a Villa leader who was reported killed in a fight with Colonel Telesforo Dominguez, near Ojinaga, several weeks ago is not only alive, but has joined in active banditry with Jose Chavez, another well-known outlaw. The first news of Villaneuva's new activities came from the ranch of Buck Poole, where horses were driven off.

In Glenn Springs Raid.

This was followed by news of a raid on the ranch of Felipe Valdez, 65 miles from here, with the capture of more horses and supplies.

Villaneuva has not confined his depredations to the American side of the Rio Grande. A Mexican rancher, Jose Rodriguez, complained to the authorities at Ojinaga that nine mules and three horses had been taken from his place.

This same band of thieves took part in the Glenn Springs raid, according to all obtainable evidence and it is adopted for getting new mounts for larger operations.

NINE PERSONS KILLED; 38 ARE INJURED AT KEMP CITY

Des Moines, Iowa, May 22.—A tornado which swept across Central Iowa did considerable damage to buildings, but so far as has been learned no one was injured.

Houses, barns and livestock were swept away by the storm at Burrell, a mining town nine miles north of Des Moines. The house of George Forbey, a miner, was lifted 50 feet in the air and carried 100 yards down the hill. The house was wrecked but Forbey escaped injury.

Denison, Tex., May 22. — Nine persons were killed and 38 injured and Kemp City, eight miles east of Denison, was wiped off the map in a tornado which swept a path three-quarters of a mile wide and five miles long in the Kemp City section.

MUST RESPECT U. S. STATUTES

Consuls Receive Instructions From Bernstorff—Germany Looks With Disfavor On Plots.

Washington, May 19.—Germany, through its ambassador, Count Johann von Bernstorff, has taken its first step in a new campaign to stop alleged lawlessness by Germans in the United States. The German embassy has instructed all German consults in the United States to admonish German citizens in their districts to scrupulously observe American law. This was done in an effort to end various alleged violations of American neutrality.

Former D. A. R. Head Dies.

Baltimore, Md., May 22.—Mrs. Donald McLean, wife of Donald McLean of New York, and past president general of the Daughter of the American Revolution died at a hospital here.

Ford Fails to Meet Roosevelt.

Detroit, Mich., May 22. — Theodore Roosevelt waited at the Detroit Athletic club for Henry Ford, with whom he was scheduled to confer. Mr. Ford waited at his office to greet the former president. They might still be waiting had not the conference been called off late in the day. No reason for the cancellation of the meeting was given. At Roosevelt's headquarters, at the Athletic club, it was said in the Colonel's behalf that he would be "deelighted" to see Mr. Ford there.

BRITISH SUBMARINE FLIES GERMAN FLAG; LURES SHIP

Berlin, May 22.—(By wireless to Sayville.) — Word has been received from Helsingborg, Sweden, that the British submarine which sank the German steamship Trave flew the German flag in order to entice the Trave from Swedish territorial waters, says the Overseas News Agency.

BANDIT CHASERS BACK IN U. S.

PURSUED BIG BEND RAIDERS 145 MILES INTO MEXICO.

General Funston's Command Now Nearly 50,000 Men—Texas Militia Ready for Service.

San Antonio, Texas, May 23.—With the arrival on the American side of Colonel Sibley's little force that rescued Jesse Deemer and Monroe Payne and chased border raiders 145 miles into Mexico, General Funston's command of nearly 50,000 men is awaiting developments. That portion of the army under General Pershing in Mexico has become as inactive as the remainder of the border force and so far as army officers know the period of comparative inaction would be unbroken unless the initiative is taken by Mexicans.

Distribute Forces Along Border.

Steadily but without haste general officers have planned to continue this week the distribution of forces along the border. The Texas militia, mobilized here, will be sent forward in a few days.

Reports of contemplated raids of various points along the border, especially in the Brownsville distrct, continued to reach General Funston.

STUDENTS GIVEN ELEPHANT

Skin Animal Shot at Circus—Enjoy Steak at Dinner.

Brookings, S. D., May 22.—Skinning dead elephants isn't in the curriculum of many college students, yet that experience was enjoyed by 20 zoology and pharmacy students of the state college. Professor Shirley Miller received word from Elkton that he had fallen heir to a show elephant which had been shot after escaping from a circus.

The boys boarding club enjoyed a dinner of elephant steak.

HUGHES LEADING IN OREGON

Republican Voters Express Preference For Justice in Primary.

Portland, Ore., May 22.—Scattered returns from Portland and other cities in Oregon indicated Republican voters had expressed preference for Justice Charles E. Hughes to be the Republican nominee for president.

All the precincts that had reported gave him a large lead over his opponents, Senator Albert B. Cummins of Iowa and former Senator Theodore E. Burton of Ohio.

To Provide $150,000,000 Revenue.

Washington, May 20.—Members of the house ways and means committee are gettting ready to frame a bill to provide about $150,000,000 additional revenue for the fiscal year ending June 30, 1917, by taking incomes, inheritances and munitions. Chairman Claude Kitchin of the house ways and means committee, announced the plan to raise additional revenue would be shaped within two weeks and the house would be ready to consider it immediately after the national conventions.

Croker Land Explorers Ask Aid.

New York, May 20.—The first direct word from the MacMillan-Croker land expedition since September 12, 1915, has reached this city in two cable messages to the American Museum of Natural history, sent from Thorshavn, Faroe Islands, and signed by Dr. Edmond Otis Hovey, head of the relief expedition, and Maurice C. Tanquary, zoologist with the party. The messages tell of the failure of the relief ship Cluett to reach the headquarters at Etah and ask for another relief ship to be sent at once.

AUSTRIANS CLAIM IMPORTANT GAINS

MAKE PROGRESS DAILY SOUTH OF ROVERTO, ACCORDING TO REPORTS FROM BERLIN.

LINES ADVANCED FIVE MILES

Dispatches Indicate Successes Are Due to Superior Artillery—New German Divisions Occupy Small French Trench on Verdun Front.

Berlin, May 20.—The Austrian offensive south and southeast of Rovereto is making progress daily. The Austrian front already has been advanced five miles in places.

These gains have been made in the face of great difficulties. The mountains are still covered with snow. The Austrians fought their way, ascending and descending slopes varying in altitude as much as 4,000 feet within a mile.

Due to Artillery.

Dispatches from Austrian headquarters indicate the successes achieved are due to the superiority of the artillery which has such a crushing effect that it is possible to launch infantry attack after comparatively short preparation.

Captures of men and war materials are increasing daily. The number of prisoners now exceeds 7,300. The Austrians also have taken 31 cannon and 35 machine guns.

The positions captured have been in the hands of the Italians for months.

DUTCH HOLD GERMANY IS RESPONSIBLE FOR SINKING

Decide to Send Strong Note to Berlin Regarding Torpedoing of Steamer Turbantia.

London, May 22. — The Dutch government has decided to send a strong note to Berlin saying that the German version of the torpedoing of the Dutch steamer Tubantia cannot be accepted and holding Germany responsible for it, says a dispatch to the Daily Mail, from Rotterdam.

A dispatch from The Hague last week said the discussion of Dutch torpedo experts in Berlin regarding the sinking of the Turbantia had been without conclusive results. Germany admitted that metal found in the Tubantia's boats was part of a German torpedo, but asserted the commander of the submarine, from which the torpedo came, said it was not fired at the Tubantia March 16, but at a British warship March 6, and that it missed its target.

MEXICANS KILL U. S. SOLDIER

Dragged Body Across International Line, Inquiry Board Says.

El Paso, May 20.—That Sergeant Harry Furman, machine gun company Twenty-third infantry, was killed on American soil by Carranza soldiers and his body dragged to Mexican soil, is the report that the investigating board was to make to General George Bell, in command at Fort Bliss.

The board is headed by Major George Moore. The body showed evidence of having been dragged, the face, arms and hands being lacerated and the clothing being torn. A strap had been tied around the wrist. The board traced the trail of the body and accompanying footsteps from the American to the Mexican side.

Methodists Name Seven Bishops.

Saratoga Springs, May 22. — Seven new names appear on the roll of bishops of the Methodist Episcopal church. Four, Matt S. Hughes of Pasadena, William P. Oldham of New York, Franklin Hamilton of Washington, and Charles B. Mitchell of Chicago, were elected by the General conference during the day. The others Dr. Thomas Nicholson of New York, Herbert Welch of Delaware, Ohio, and Adna W. Leonard of Seattle, Wash., were selected earlier in the balloting.

RUSSIAN CAVALRY JOINS BRITISH IN TIGRIS CAMPAIGN

FORMS JUNCTION WITH GENERAL GORRINGE IN REGION OF KUT-EL-AMARA "AFTER ADVENTUROUS RIDE."

SUDDEN APPEARANCE OF SLAVS CAUSES SURPRISE

Like First Landing of Czar's Troops in France, This Unexpected Arrival of Reinforcements Is Instance of Swift and Steady Movement of Russian Forces.

Geneva, Switzerland (via Paris), May 23.—Field Marshal Liman von Sanders is assembling a strong force of Turkish troops at Sivas, in Asiatic Turkey to oppose the advance of the Russians. The Turks are equipped abundantly with artillery. Turkey has called out recruits of the ages of 17 and 18.

London, May 23. — The Russians have achieved in part one of their main objects in Asiatic Turkey—the joining of hands with their British allies fighting against the Turks on the Tigris river.

Without preliminary announcement and apparently quite unexpectedly, a force of Russian cavalry, "after a bold and adventurous ride," has formed a junction with the British General Gorringe on the right bank of the Tigris in the region of Kut-El-Amara, where only recently a British force, under General Townsend, after a long siege, was forced to capitulate to the Turks.

Lake Reports Slavs' Arrival.

How the Russians made their advance—whether along the Tigris valley past Bagdad, or down through Persia, has not been made known.

An official communication concerning the situation along the Tigris follows:

"General Lake reports that on the nineteenth the enemy vacated the Bethaiessa advanced position on the right bank of the Tigris. General Gorringe, following up the enemy, attacked and carried the Dujailem redoubt. The enemy is still holding the Sannayyat position on the left bank of the river.

"A force of Russian cavalry has joined General Corringe, after a bold and adventurous ride."

Russians Move Swiftly.

The sudden appearance of the Russian cavalry with General Gorringe has raised the question whether the Russians already have cut the Bagdad railway at Mosul. In any case, the unexpected appearance of this body of cavalry is as great a surprise as was the first landing of the Russian troops at Marseilles, and is another instance of the swift and stealthy movement of the Russian forces in Asia Minor.

Petrograd says the Russians are keeping up their advance on Niosoul.

HUNT FOR JURORS IN ORPET TRIAL; MOTHER COOKS FOOD

Sends Meals From Home to Prisoner in Waukegan, Ill., Jail—Four Men in Box.

Waukegan, Ill., May 23.—The second week of jury selection in the trial of Will H. Orpet, University of Wisconsin student charged with the murder of Marion Lambert, his former sweetheart, started with four men in the jury box.

The average established in the first week was the selection of one juror out of each hundred men examined, but the start having been made Saturday by the swearing in of the four it was predicted the work would move more swiftly.

Orpet spent a quiet day in jail and enjoyed the meals his mother sent him from home.

IRISH REBELS ESCAPE IN COFFINS, REPORT SHOWS

Sinn Feiners Profit by Momentary Relaxation in Tumult Following British Round-Up.

London, May 23. — In the first excitement of the round-up by the military authorities of the participants in the Dublin uprisings, after the leaders began to surrender, a number of Sinn Feiners escaped in coffins, according to a report that has reached here through the Sinn Fein "underground railroad." The escapes are said to have been facilitated by the momentary relaxation in the tumult of the usual rules concerning death and burial certificates.

AUSTRIANS LOSE 8,000 MEN

Severe Fighting Along the Italian Front Still in Progress.

Geneva, via Paris, May 23.—Reports from Innsbruck say that severe fighting continues along the Italian front. The reports say that 3,500 Austrian wounded have arrived at Laibach, and that the Austrian losses since the beginning of the offensive are estimated at 8,000. The Austrians are said to have from eight to ten army corps in the province of Trent.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

If You Want White Clover.

Most of the clovers are biennials or perennials, but not so white clover. It is annual and propagates itself only by seed. Therefore if one wishes white clover in the lawn he must not cut it so short that no ripe heads will be formed to provide seed for the following year. Some people are always sowing white clover in their lawns and wondering why they have to repeat the process every year.

Get it to the bottom of the affected part. Adv.

Vain Search.

Mrs. Bacon—Do you know, dear, I have only two suits of clothes to my name?

Mrs. Bacon—Yes, John; I have noticed that you have very little change in your clothing.—St. Louis Post-Dispatch.

ALLEN'S FOOT-EASE FOR THE TROOPS

Many war zone hospitals have ordered Allen's Foot-Ease, the antiseptic powder, for use among the troops. Shaken into the shoes and used in the foot-bath, Allen's Foot-Ease gives rest and comfort and makes walking a delight. Sold everywhere, 25c. Try it today. Adv.

Barred Out.

"When I was a boy my ambition in life was to be a barber."

"Your parents opposed it, I suppose."

"No, they didn't have any objection, but somehow or other I never could learn to play a mandolin."

Keep Hanford's Balsam in your stable. Adv.

The New Idea.

"Isn't joy riding against the law?"

"Yes, except for model prison convicts."

A man can't understand why all women don't get stuck on him.

What is home without a good cook?

Rest Those Worn Nerves

Don't give up. When you feel all unstrung, when family cares seem too hard to bear, and backache, dizzy headaches and irregular kidney action mystify you, remember that such troubles often come from weak kidneys and it may be that you only need Doan's Kidney Pills to make you well. Don't delay. Profit by other people's experiences.

A Minnesota Case

Mrs. George S. Hesler, 700 Hope St., Austin, Minn., says: "I was in awful shape with kidney trouble and could hardly walk around. There were shooting pains in my limbs and a constant ache over my right kidney. It was all I could do to turn in bed and mornings I felt languid and tired. After suffering a couple of years, I used Doan's Kidney Pills and they rid me of the ailments."

YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N. Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound. She praises it highly as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 529 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs helpful advice, ask her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

WHO IS TO BLAME Women as well as men are made miserable by kidney and bladder trouble. Thousands recommend Dr. Kilmer's Swamp-Root the great kidney remedy. At druggists in fifty-cent and dollar sizes. You may receive a sample size bottle by Parcel Post, also pamphlet telling about it. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents, also mention this paper.

VODKA BEFORE FIRING SQUAD

Bullets of Russian Soldiers Shattered the Kegs Before Thirsty Villagers' Eyes.

The Kentucky mountains have no monopoly on moonshine whisky. From Transcaucasia, Russia, comes the report of difficulties encountered between the mountaineers and the Russian officials engaged in the prevention of the manufacture of illicit spirits.

A striking example of the manner in which these officials impressed upon the semibarbaric mountaineers the power of authority is seen in their disposition of a large quantity of moonshine vodka seized in the district of Enzel.

A platform was erected in the middle of the village, and upon it were placed in rows the confiscated kegs. The villagers were commanded to assemble and bidden to stand at one side of the square.

Troops were lined up and a firing squad chosen. At the word of command a volley and then a second volley was directed against the kegs. The bullets splintered the staves and the liquor ran out all over the ground.

There has been no illicit distillation in that region since.—Boston Globe.

Uncultured Confidence.

"Do you enjoy grand opera?"

"Very much," replied Mr. Cumrox. "If I had it to do over, I'd be a grand opera singer myself."

"But you can't sing."

"That's why I'd choose grand opera. I can't carry a tune very well; but I can holler like everything."

For a real likeness of yourself, the modern photograph isn't in it with the old-fashioned tintype.

You can please the other fellow best by lending a hand instead of giving advice.

"He who has health
has hope,
And he who has hope
has everything."
(Arabian Proverb)

Sound health is largely a matter of proper food—which must include certain mineral elements best derived from the field grains, but lacking in many foods.

Grape-Nuts

made of whole wheat and malted barley, supplies all the rich nourishment of the grains, including their vital mineral salts—phosphate of potash, etc., most necessary for building and energizing the mental and physical forces.

"There's a Reason"

Sold by Grocers everywhere.

What's Doing in Minnesota

Winona. — The number of candidates for the Republican congressional nomination in the First Minnesota district was reduced when George P. Tawney of Winona, cousin of former Congressman James A. Tawney, withdrew from the race.

Bemidji. — The Sixth district group of the Minnesota Bankers' association, in session here elected R. B. Withington of Brainerd, president; A. A. Fitch of Royalton, vice president; D. D. Bouck of Rice, secretary, and W. H. Smith of St. Cloud, treasurer.

Moorhead. — Clay county's annual "community picnic" will be held June 30, at the Mills farm, east of here, according to a decision of the Clay County Federation of Farmers' Clubs. The annual meeting of the Clay County Farm bureau will be held the same day.

St. Paul. — Major James M. Bowler, a Minnesota pioneer, former member of the Legislature and former state dairy and food commissioner, died at his home in St. Paul. He had been ill about ten weeks, from a complication of diabetes and an infection whch necessitated amputation of his left foot.

New Ulm. — At the dedication of the New Ulm armory, Governor J. A. A. Burnquist was the principal speaker. He favored adequate preparation for defense. He complimented the citizens of New Ulm upon their splendid new armory and said it was evident they took a marked interest in military affairs.

Bemidji. — Northern Minnesota is suffering from a scarcity of labor. Lumber camps here can use 500 men at good salaries, and good accommodations. Men are being shipped in from many points, but the demand cannot be supplied, according to B. W. Lakin, logging superintendent of the Crookston Lumber company.

Thief River Falls. — One hundred bankers and twenty-five visitors attended the annual convention of the Ninth district group, Minnesota Bankers' association, here. Resolutions indorse the educational facilities offered by the American institute of bankers through the Minnesota association, and co-operation in road legislation is urged.

Bemidji. — Miss Maud Clark of the Eighth grade of the Bemidji schools will represent Beltrami county in the state bread baking contest for girls at the Minnesota state fair next fall, provided no other contestant enters for state recognition, as Miss Clark, in a bread baking contest held in the Bemidji schools, won high score, her percentage being 93.

Jackson. — Jackson county had a gala celebration when a class of 176 rural eighth grade pupils were graduated at a program combined with that of other rural organizations of the county into a "May festival of rural education." The morning was taken up with a school officers' meeting. A parade was a feature. The day closed with a May pole dance.

St. Paul. — Whether it is desirable and possible to add two years of college work to the curriculum of every state high school is one of the questions to be considered at the first annual meeting of the All Minnesota Development association in the capitol June 14-15. Interest in the subject has been strengthened by the overcrowded condition at the University and the suggestion that such a step by the high schools would relieve congestion at the larger institution.

Mankato. — Two high school sophomores, Raymond Clausius, 16 years old, son of E. Clausius, living near here, and Wayne Anderson, 15-year-old son of Conductor O. Anderson of the Chicago and Northwestern railroad, went canoeing in the Blue Earth river at Sibley park, and were drowned when their canoe overturned in the swift current of the swollen stream. Their first cries for help were unheeded, as they had been calling to friends on shore in fun.

Minneapolis. — What national guard officers believe is a new and drastic policy of the war department for bolstering up the efficiency of the guard all over the country has shown its effects in a series of orders just received by Adjutant General Fred B. Wood, which have spread consternation among officers of the Minnesota guard organizations. Company M of the First infantry, located at Minneapolis, has been ordered mustered out on the ground of inefficiency, as have three companies of the Second infantry.

Minneapolis. — Plans by which a combined federal and state employment bureau may be established in Minnesota, with headquarters in Minneapolis, were discussed at a conference between Anthony Caminetti, United States commissioner-general of immigration, and W. F. Houk, state commissioner of labor. D. C. Adie, assistant secretary of the Minneapolis Civic & Commerce association, attended the meeting as a representative of the municipal body.

Rochester. — Plans have been completed for the sixth annual tournament of the Minnesota State Sportsmen's association to be held in Rochester on June 21, 22 and 23 Local officers of the gun club believe it will be the largest trap shooting event ever held in the state.

St. Paul. — Walter J. Smith, former state treasurer, who is serving a sentence at Stillwater prison, is rapidly recovering his health and has gained eight pounds in weight since his confinement. It was reported recently that friends will start him in a small bank when he is liberated.

EXPERT PREDICTS FIVE-YEAR DROUTH

SAYS FARMERS SHOULD PLANT "DRY-SEASON" CROPS NEXT YEAR.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

That we have to endure but one more year after this of rainy weather is the assertion of A. F. Woods, dean and director of the College of Agriculture. "Meteorologists for years have known that the visitation of rain periods occur periodically," Mr. Woods said. "The rain periods occur every twelve years and are of five years' duration. Then we have five years of drouth or, comparatively dry weather."

"This has been proved by the rings or grain of trees. The dry years are faithfully chronicled by the rings, being close together and hard. The wet years will be indicated by thicker rings."

If farmers will only study the tree rings they will be enabled to plant crops best adapted to that particular period, is the belief of Mr. Woods, who says there has been no appreciable variation in the weather periods for 2,000 years.

A few days of warm weather will counteract the harmful effect of the cold rains on crops in Minnesota, Mr. Woods said.

Proclaims Memorial Day.

Governor Burnquist has just issued the following proclamation on the observance of Memorial Day:

"It is now more than half a century since the close of that terrible conflict in which so many gave up their lives upon the field of battle for the preservation of this nation and the perpetuation of that liberty for which it stands. Comparatively few of those who participated in the great struggle of that dark period of American history are today alive. Most of them are sleeping in the land they helped to make free and in the re-united country for which they were willing to die. The immortal service which the soldiers of the Civil War rendered to all of us, who in our generation are enjoying the results of their sacrifices, together with the valor of those who fought in the Spanish-American war for a righteous cause, can never be forgotten by the patriotic people of a grateful republic.

"Let us therefore, on MEMORIAL DAY, TUESDAY, MAY 30, 1916, close our public buildings, schools, stores, factories and other places of business, and upon that day suspend labor of all kinds, in order that we may hold appropriate memorial exercises, decorate the graves of the heroic dead, and again show our gratitude to them, who in the days when our country was in great danger so bravely went forth in its defense.

"Heretofore the children of our schools have been addressed by the old veterans on the Friday preceding Memorial Day, but this year, by reason of the large decrease in their number and on account of the age of those who remain, a special request comes from them that our state and municipal authorities and our citizens generally volunteer their services for this particular purpose. All, therefore, are hereby especially urged to assist in perpetuating this patriotic custom, to the end that every school in the state may be visited and the future guardians of the nation be inspired with the spirit of true loyalty and patriotism.

"IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State to be hereto affixed, at the Capitol, in the City of St. Paul, this 16th day of May, 1916."

J. A. A. BURNQUIST, Governor.

Seven Millions For Roads.

General resumption of road work in Minnesota is scheduled to begin at once according to John H. Mullin, deputy engineer of the Minnesota Highway Commission in charge of roads. Already the machinery of counties is being overhauled. This year will see the greatest amount of road work ever attempted in Minnesota, with an expenditure of more than $7,000,000 to pay for 2,000 miles of grading and 1,000 miles of graveling. About $4,000,000 of this will be spent under the supervision of engineers of the highway commission.

* * *

Special Elections Required.

Secretary of State Schmahl has notified the county auditors of Fillmore and Ramsey counties of special elections to be held in each for the nomination and election of a clerk of the district court.

* * *

Win In Triangular Debate.

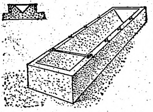
Debaters from Minnesota Agricultural college won two victories in a triangular debate between the Minnesota, Wisconsin and Iowa Agricultural colleges. The Minnesota affirmative team was given two to one decision over the Iowa negative team at the university farm auditorium. The Minnesota negatives were given an unanimous decision over the Wisconsin affirmatives at Madison, Wis. The third of the series was between the Wisconsin negatives and the Iowa affirmatives.

CONCRETE TROUGH FOR HOGS

To Get Full Capacity of Device Use a Carpenter's Level to Set the Outside Form.

Watering and feeding troughs for hogs are, as a rule, merely long, shallow concrete blocks, hollowed out to a V-shape or U-shape.

The outside form is a heavy box with vertical sides and ends. To get the full capacity of a trough, use a carpenter's level to set the outside form. The inside shape is given by a core made by tacking together two boards along one edge. Bevel these boards at the joint, so as to give a round shape to the bottom of the finished trough. Make the top edge of the trough at least three inches thick.



Watering or Feeding Trough.

One method of building a hog trough requires an outer form only. Mix the concrete dry enough that it may be tamped against the side of the form into the shape desired. Paint the inside at once with cement and water mixed to the stiffness of cream.

Use two-foot lengths of one-inch gas pipe across the trough, to keep the hogs out of it. For holding the pipe in position, set one-half-inch bolts in pairs, heads down, in the soft concrete so that the pipes will fit between them and can be held firm by a strap iron over the bolts. For this purpose choose one-half-inch bolts of sufficient length to extend four inches into the concrete. Space the cross pipe 12 to 16 inches apart.

BIG VALUE OF FERTILIZERS

Barnyard Manure Improves Physical Conditions of Soil and Makes It Easy to Handle.

Barnyard manure has value on the farm aside from that as a fertilizer. It improves the physical conditions of the soil and makes it easier to handle. Its decay produces heat and its presence aids chemical and bacterial processes. Moreover, it absorbs and holds a large amount of water and helps to aerate the soil. The benefits of these indirect aids to plant growth are in some cases worth as much as the fertilizing power of the manure.

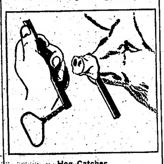
When it is added that barnyard manure is worth perhaps $2.50 a ton, and that each farm animal produces from five to seven tons per 1,000 pounds of live weight each year, it is easy to see that as a fertilizer the material should not be wasted.

The best practice is to haul the stuff directly from the barn to the fields. If this is done, there is little loss through fermentation or leaching.

DEVICE USED TO CATCH HOGS

Wire Loop Is Attached to Chain in Metal Pipe Handle—Handy for Stock and Poultry.

One end of the wire loop of the hog catcher shown in the illustration is attached to a chain in the metal pipe handle. The loop is tightened and locked by pulling on the chain and by passing a link through a slot in the end of the pipe. The device can be used also to catch sheep, calves, poultry, etc.—Wisconsin Agriculturist.



Hog Catcher.

USEFULNESS OF FARM HORSE

Animal Will Be Practically as It Has Been Trained During First Few Months of Its Life.

The usefulness of a horse depends upon its early training. The first part of this training should be completed before the colt is a year old. During this period its disposition is formed and its future character is fixed. It will be docile, tractable, and gentle, precisely as it has been raised during the first few months of its life; and whatever vices it may devolop in the future will all be due to errors made now.

STRIVE FOR EARLY PULLETS

Fowl That Matures Before Cold Weather Sets In Produces Eggs If Given Fair Chance.

It is the early-hatched pullet that matures before cold weather sets in. A matured pullet will expend all energy beyond that needed for the body upkeep in the making of winter eggs if given a reasonable chance

Matrimonial packages are not always what they are tied up to be.

The Wheat Yield Tells the Story of Western Canada's Rapid Progress

160 ACRE FARMS IN WESTERN CANADA FREE

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, **upwards of four and a quarter million bushels being exported in less than six weeks,** and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

Write for illustrated pamphlet, reduced railroad rates and other information to Superintendent Immigration, Ottawa, Canada, or

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 305, at the post office at Sunbeam Minn. under the Act of Congress of March 3.1879

A. G. Anderson, Cashier of the Scandia Bank of Fergus Falls, has made enough surplus money, loaning bonus money to farmers to gratify his ambition to become the member of Congress from the Ninth Congressional District of Minnesota. Mr. Anderson has a perfect right to seek this honor, and gratify his ambition. But where do the peoples' interest appear on a deal of this kind, and especially the flood suffering farmers living on the banks of Red Lake River? The people must understand that Congressman Steenerson has been working against adverse conditions in Congress for the past three years, with an adverse party in power, that are particularly averse to granting any public money for improvements in the northern states. But, notwithstanding these conditions he has succeeded in getting an act through Congress for a survey of Red Lake River, to have it dredged and straightened, which will redeem the thousands of acres of first class land lying along its banks, and make good farms of what is now covered with water. This is an improvement that is needed now, and we cannot afford to wait another ten years for it, in order for a new man to get acquainted at Washington.

Washington, May 14, (Special) Senator Knute Nelson yesterday commented on the candidacy of Judge Ira B. Mills to succeed himself on the railroad and warehouse commission. Senator Nelson's views are an unusual expression of friendly interest, and may have been prompted by the fact that Judge Mills originally was appointed to the commission when Senator Nelson was governor.

"Judge Mills is a very useful member of the commission." said the senator. He is an able lawyer, he is honest and industrious, and his long experience with the Commission has made him extremely useful to the state. He has made a specialty of railroad law, a knowledge that is especially valuable at this time. Each year he has served on the commission has made him more valuable."—From Minneapolis Tribune of May 14th, 1916.

The Forest Reserve bill has passed both houses of Congress, and is now a law. This will open up the surplus timber on Red Lake Indian Reservation for sale, and re-open the big mills at Thief River Falls, which have been shut down the past two years for lack of logs. This will add much to the wealth of Pennington county, not only by an increase in the lumber supply, but will furnish employment for a large number of laboring men, both winter and summer. Great credit is due our representatives in Congress for getting this bill through at the present time.

For sometime after the death of Gov. Hammond it was pretty generally predicted that Burnquist would be the next nominee for governor on the republican ticket, and it is quite likely that a majority of the ring makers so continue to size up the gubernatorial situation. Be that as it may there is no denying that the pendulum is beginning to swing toward Iverson. One by one newspapers and public men of the state have come out in his favor. It has been no bandwagon movement but rather a gradual growth.—Fertile Journal.

Bryan says that Wilson has lost the German and Irish vote and that the only hope for Democratic success lies in a "move toward peace" so as to catch the votes of the peace element in the Republican party. The Democrats are in a hopeless position for the coming campaign and another victory for them seems impossible.—Norman County Index.

The Democrats can make no move that will catch any Republican votes this year. They caught the party in a fight among themselves four years ago, and reaped the benefit, and now the Republicans are so sick of them that they only have one idea in view, which is, to fire them out bodily.

MAY BRIDGE THE RED.

Representative H. T. Helgeson of North Dakota expects to get a bill through Congress providing for a bridge across the Red River between Shelly and Caledonia. The war department, which has charge of such matters, has finally consented to allow the Red to be bridged. Heretofore it would allow only draw bridges to be constructed. — Norman County Index.

That is just the kind of a deal that we are trying to get through for a bridge across the Red Lake River at Highlanding, and we are pretty sure to get the permission through all right, for this river is no longer used for navigation, and why not get a bridge across it.

NELSON INDORSEMENT FOR A. G. ANDERSON

Genuine Americanism of Congressional Candidate Impresses Senior Senator,

By George F. Authier
(From Minneapolis Tribune)

Washington, May 20—(Special).—Senator Knute Nelson yesterday commented on the personality of A. G. Anderson, candidate for Congress in the Ninth District. Senator Nelson unhesitatingly put his O. K. on Mr. Anderson. The phase in Mr. Anderson's character that appears to appeal to Senator Nelson most is his genuine Americanism.

"I have known Mr. Anderson," said Senator Nelson, "ever since he came from Iowa many years ago, and have always found him to be an honest, trustworthy and reliable man, both in business and in politics. He is a thorough-going Republican and possessed of a genuine spirit of true Americanism, having the welfare of our common country uppermost and foremost in his heart. He always has taken a great interest in public affairs. I frequently in times past have consulted him on important public questions and have found that his diagnosis and conclusions were fair, just and sound."

RHEUMATIC PAIN STOPPED

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me."—James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain. 25c. at Druggists.—Advertisement.

Register.

FIRST STATE BANK,
Of Plummer Minnesota.

SYSTEMATIZE your household expenses by opening a bank account for your wife. Give her a check book and teach her the use of it. Pay the butcher, the grocer, the baker, with a check. Then at the end of the month you'll find out just how much it costs you to run the home. When payment by check is made there never is any doubt as to whether or not a bill is paid. The check is a receipt.

Besides, a checking account will give your wife a business education. The number of ordinarily bright women who know absolutely nothing of banking is surprising. If you are a husband, father, brother, you cannot tell when death may overtake you, and it is well that your wife, daughter and sister know something of banking.

MAKE UP YOUR MIND TODAY TO GIVE YOUR WIFE A CHECK BOOK.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

THE SUNBEAM.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JUNE 2, 1916. NO. 12

MINNESOTA HISTORICAL SOCIETY

THE LOCAL NEWS

Miss Elsie Causin visited with Miss Myrtle Hunt last Sunday.

There was a large crowd in attendance at the Young Peoples Society held at the Pete Gustofson residence on last Sunday.

We understand that a new firm of Skinner, Soakum and Co., are going to revive the former store at Torgerson.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

There will be a public ball given by the Myrum boys at their residence on Section 12, town of Mayfield, on Saturday evening June 10th. First class music. All are invited.

There will not be much loss of acreage on crops sown in the towns of eastern Pennington county, owing to the wet season. But the present prospects are that there will not be much flax sown.

Halvor Myrum and Tom Uppstad, of Mayfield, made this office a pleasant call yesterday. Mr. Myrum improved the opportunity to drop a dollar into the till, so as to have rays of "The Sunbeam" shine on him another year.

Ole and Halvor Olson are moving onto the Beaudry farm in this township. They are fortunate in being the owners of a gasoline boat to get their goods out in, as they cannot get to their residence in Hickory with teams, owing to the overflow of Red Lake river.

Laurence Wojnarowski has purchased his brother's, Welenty Wojnarowski, farm in Deer Park township, and will move from his Hickory township farm onto his Deer Park farm. In fact the farmers are being drowned out of their homes in Hickory township about the same as gophers are drowned out of their holes by pouring water in them.

If we got so low down that we would claim to have changed our politics from Republican to Democratic to gain influence with the party in power, we would not act the part of a coward, and back out at the rear, when the party most needed our support. That is what one or two Fourth Class postmasters have done, one of them being a delegate to the Democratic Convention, who does not dare say to day that he would favor the re-election of President Wilson.

Alfred Hammarsten has bought the Anton Ellingson farm, across the Red Lake River from Sunbeam farm, and has already started improvements on it. This is one of the finest residence farms in the town of Highlanding, owing to its location on the bank of Red Lake river, and its fine groves of timber, but it happened to be bought by speculators when this reservation was opened and has been held by speculators ever since up to the present time, but look out for a change in its present appearance soon, with its present owner.

It is reported that the former Democratic politicians, the Singer trio, are now so alarmed for fear the Republican party will come into power, and they will lose their P. O. grip, that "mine poy Stephen" is sitting on the fence playing the fiddle for the old man and Ed to dance. In fact they are getting so scared, that "mine poy Stephen" will in less than six months deny that he was a delegate to the Democrat Convention, and have the old man and Eddie swear to it before him as Notary Public.

RED LAKE FLOODS

We received a letter from former Representative Opsahl, of Bemidji, this week, who had just returned from a visit to the Tamarack river above Red Lake, and he says that the flood conditions there, are worse than down this way, and if the outlet to Red Lake is not dredged so as to lower the lake level, that large portions of that country is comparatively worthless. He is of the opinion that it is the duty of the federal government and the state legislature to have this river dredged out, and that action should be taken at the present session of Congress, for the relief of those settlers both above and below Red Lake from the terrible flood conditions of last summer and this present summer. Congressman Steenerson has already got a bill passed to have a government survey made of the river, and as soon as their report is made, we may expect the money to be appropriated to do the dredging. But in the meantime it is up to the voters of this locality to see to it on the 19th of June, that a banker from Fergus Falls who only knows there is such a river as the Red Lake River, by looking at it on the map of Minnesota, is not nominated to fill the chair of Congressman Steenerson.

'Mine poy Stephen' is again up to some of his smart tricks to inveigle the farmers of the town of Mayfield to take their cream to the Kratka creamery. He has employed the services of the expatent medicine peddler Brown to drive around the country and shoot the "hot air" into farmers, and when he gets out of steam he goes down to 'mine poy Stephen' and gets a fresh load. They are not doing as the Highlanding creamery does, pay for their cream as they get it, but ask the farmers to deliver their cream to this man Brown to be settled for with what is left, after "de gang" get their rake off, and the farmers will be mighty lucky if they get their cream cans back.

JAMES A. PETERSON

Candidate for nomination, for Lieutenant Governor, on the Republican ticket.

The weather still continues on the wet order.

The farmers of Mayfield are justly complaining over their donkey mail service that runs wrong end to, thus stopping their mail for a two days lay over at Sunbeam post office.

Edward O. Rydeen, candidate for representative from Clearwater county, made this office a pleasant call to-day. We will publish his political announcement next week. Mr. Rydeen is the candidate of the farmers clubs of Clearwater county.

Political Announcements.

For Representative.

I hereby announce myself as a candidate for Representative of the 65th District.

YOUR VOTE AND SUPPORT SOLICITED.

JOHN A. DUFFY.

To THE VOTERS OF PENNINGTON COUNTY.

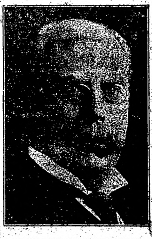
I hereby announce my candidacy for the nomination for the office of Clerk of the District Court at the Non-Partisan Primary on June 19th, 1916.

I feel that if I should be nominated and elected to this office, I will be able to fill it in a satisfactory manner.

I solicit your votes and support.

Respectfully yours,
W. H. Quist.

Regulation of Prices



HALVOR STEENERSON
Congressman, Ninth Minnesota District, and candidate for renomination at primaries June 19, 1916.

Theo. Roosevelt has said that the only alternative of government ownership is regulation of prices.

Halvor Steenerson helped to frame the first law regulating railroad rates, when a state senator in 1884. Through his victory in the "Steenerson Grain Rate Case" a few years later, the right of the state to regulate rates was established, and all railroad rate legislation in the country is based on that decision. He believes the power of congress extends to regulation of natural commodities, the supply of which has fallen into the control of monopolies, and at present is engaged in an attempt to have the rule applied to gasoline. If successful, it is likely to be extended to cover all necessities so situated that the supply has been "cornered" and the people oppressed by excessive prices.

He has always favored reasonable preparedness, and supported President Roosevelt's two battleships per year program, but is opposed to the "army of a million and biggest navy on earth" idea.

Halvor Steenerson is a firm believer in and able advocate of the principles of the Republican party. He is a man of independence. He is not a tool of any political ring or boss and does not seek to ride into office on the coat tails of some-one else, but does his own thinking and stands on his own feet.

He desires to continue representing the Ninth District in congress and will appreciate your vote at the primary election June 19th

Respectfully Submitted by the

STEENERSON CAMPAIGN COMMITTEE.

By Martin Widsten, Secretary.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL (Brewed Specially for Family Use)	24 large or 86 small	$3.95
WHITE SEAL	24 large or 86 small	3.70

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset-safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

WITHERING FIRE IS HOLDING GERMANS IN VERDUN BATTLE

FRENCH REPLYING TO TEUTONS' GUNS SHOT FOR SHOT—VICIOUS INFANTRY ATTACKS CONTINUE UNABATED.

CONTINUE ATTACKS ON EAST BANK OF MEUSE

German Troops Extend Positions and Cross Douamont Ravine—Rome Reports Repulse of Austrian Attacks—Turks Stop Russians on Persian Front.

Berlin, May 27.—German troops have continued successfully their attacks on the east bank of the Meuse, extending their positions to the west of Haudremont quarry and crossing the Douaumont ravine, the war office announces. South of Fort Douamont the French were driven back farther. The Germans captured an additional 600 prisoners and 12 machine guns.

London, May 27. — The battle of Verdun continues unabated. On both sides of the Meuse river, northeast and northwest of the fortress, the Germans are keeping up their unprecedented bombardments and vicious infantry attacks while the French are replying to the German guns virtually shot for shot, and under a withering fire holding the Germans at almost every point.

Penetrate French Lines.

One more gain, however, has been made by the Germans. After recapturing Fort Douaumont and taking trenches south and southwest of the fort, the Germans to the west have occupied a section of French trenches after a series of attacks, in all of which they were repulsed with heavy casualties, except the one where they penetrated the French lines.

Around Douaumont a heavy artillery duel is in progress, and northwest of Verdun the Germans have increased their artillery fire against the French on Hill 304, probably preparatory to another infantry attack for possesison of this much-fought-for vantage point.

Slavs Repulse Germans.

A German attack aginst the Russians west of Dalin Island gave them momentarily the possession of a Russian advanced trench, a counter-attack by the Russians dislodging the invaders.

An attempt by the Teutons to advance aginst the Russians north of Olyke station, southeast of Lutsk, was repulsed by the Russians.

In the region southeast of Trent and across the border in Italy, Rome reports the repulse of Austrian attacks and the throwing back of the attackers in disorder. In the Astico-Posina region the Italians are replying effectively to the bombardment of the Austrians.

Turks Stop Russians.

In connection with the fighting on the Persian front, according to Constantinople, the Turks have stopped the advance of the Russians in the region of Kasr-I-Shirin, and also defeated Russian detachments at Sulamanish, north of Kasr-I-Shirin.

WOMEN TO REFORM DRESS

Federation of Clubs Stand for Standardizing Street Attire.

New York, May 29.—Shall the women of America standardize their street dress?

Two thousand women delegates, alternates and visiting club members of the thirteenth biennial convention of the Federation of Women's Clubs answered the foregoing question in the affirmative at an open conference of the Home Economics committee of the federation yesterday. The committee has devoted two years to investigating the practicability of the plan and as a result it is prepared to introduce a resolution favoring it at next week's session of the convention. Gowns for evening wear are to be excluded from the proposed limitations.

ONLY FEW CONTESTED SEATS

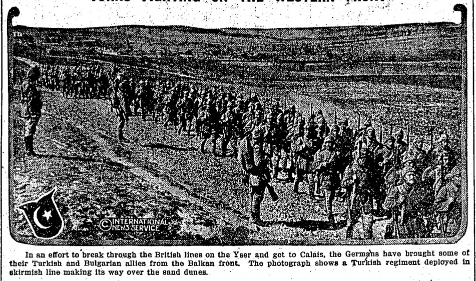
Big Majority of Delegates to Republican Convention Elected.

Chicago, May 27.—There will be fewer delegate seats contested in the Republican national convention which meets in the Coliseum on June 7, than in any national convention of the party in 20 years. With all the 985 delegates to the 1916 convention elected. with the exception of those from West Virginia, which will be chosen by direct primary June 6. only 53 contests have been filed with Secretary Reynolds of the Republican National committee.

Swindled Out of $10,000.

East St. Louis, Ill., May 24.—A man giving the name of John R. Harris told the police that he had been swindled out of $10,000 in a fake "fixed horse race." He said he turned his money over to three men at a hotel here and that in a few minutes they left the hotel ostensibly to get some money from a safe deposit vault. A bellboy said he saw men answering the description of the alleged swindlers start towards Belleville in an automobile.

TURKS FIGHTING ON THE WESTERN FRONT



In an effort to break through the British lines on the Yser and get to Calais, the Germans have brought some of their Turkish and Bulgarian allies from the Balkan front. The photograph shows a Turkish regiment deployed in skirmish line making its way over the sand dunes.

MEXICAN NOTE TO ASK WITHDRAWAL

GRAVE DOMESTIC SITUATION IN REPUBLIC IS REFLECTED IN UNOFFICIAL ADVICES.

NEW REVOLTS THREATENING

Carranza Government May Fear Consequences at Home of a Recession From the Demand for a Recall of U. S. Troopers.

Washington, May 26.—Rumors that General Carranza, in his new note to the United States, in some form might renew his request for withdrawal of the American expeditionary force from Mexico were given credence in official quarters here.

Unofficial advices have reflected a grave domestic situation in Mexico, due to labor and other economic difficulties and to the menace of renewed revolutionary activities. It has been suggested that under the circumstances the de facto government might fear the consequence at home of a recession from the demand for withdrawal.

Recent reports from Special Agent Rodgers at Mexico City have indicated a growing friendliness toward the United States and have led the state department to hope that the new communication would suggest a resumption of negotiations for a protocol covering the operations of the American force.

The state department's dispatches from Special Agent Rodgers indicated that the new note probably already was on its way.

WILSON TO SPEAK ON PEACE

President's Address Expected to Be of Great Importance.

Washington, May 27.—President Wilson is giving more serious consideration to the possibility of restoring peace 'o Europe than at any time since the outbreak of the war. He has confided to his advisers, it has been learned that he hopes to make an address before the league to enforce peace here which will be of importance in connection with peace.

While he is expected to deal primarily with a discussion of methods of maintaining peace after the European war has ended, it is understood he will also touch upon the immediate situation abroad.

The object of the league to enforce peace is not to urge President Wilson to take steps to stop the present war, former President Taft, president of the league declared in opening the session here. The league hoped, Mr. Taft said, for a world agreement on a method to make war less probable.

BERLIN TO WELCOME HOUSE

Hopes Wilson's Friend Will Come as Harbinger of Peace.

Berlin, May 23, via London, May 27.—Another visit by Col. E. M. House to Europe would come as no surprise to initiated quarters here. The American rumors are regarded as having a certain basis in fact, although the opinion prevails that the trip naturally would be postponed until after the national conventions.

It is hoped here that should Colonel House pay such a visit he will come this time as a harbinger of peace, or at any rate to prepare, if possible, the foundations for a peace proposal, difficult as this task is recognized to be.

German Women Hurt in Food Riots.

London, May 27.—An Amsterdam dispatch to the Exchange Telegraph company says that 18 women were wounded in a fight between police and food rioters at Frankfort on the Main. The riot is said to have started owing to a shortage of meat in the local butcher shops. Three hundred and fifty women who had been told there was no meat for them marched through the streets carrying black famine flags and singing Socialistic songs. The women forced their way into one butcher shop although it was guarded.

VILLISTA LEADER IS KILLED

CERVANTES SLAIN IN BATTLE WITH TROOPERS.

One American Soldier Dies of Wounds Shortly After Engagement—Two Others Are Shot.

Field Headquarters, Namiquipa, May 27.—Candelario Cervantes has been killed by American troops south of Cruces.

Cervantes was the leader of the bandits who have been terrorizing this section of Mexico for many months and who has been relentlessly pursued by the various detachments which form the punitive expedition.

Killed After Attack.

He was killed after he attempted to rush a party of engineers who were repairing a road about six miles south of Las Cruces, about 9 a. m. It is estimated that there were about 20 in the attacking party.

Three Americans were wounded, one of whom died shortly after the engagement.

The American losses in the battle were Corporal Davis Marksbury, killed and Privates George F. Nicholson and George Hullett, wounde.

Outnumbered Americans.

When the engagement began the bandits outnumbered the Americans two to one. The engagement lasted almost an hour with a hot interchange of bullets. Then the reinforcements from the Seventeenth came in sight and the Villistas broke for the hills.

Private George O. Hullett was the hero of the fight. Bullets from his rifle laid low both of the bandits killed.

IRISH LEADERS ARE UNITED

Stand by Prime Minister in Effort to Solve Problems.

London, May 27.—The House of Commons rarely has seen a demonstration of greater unity than was displayed when the leaders of all factions flocked to the standard of the prime minister in an effort to achieve a settlement of the Irish question.

John Redmond, the Nationalist leader, expressed his ardent desire for a solution of the difficulties of his country. Mr. Redmond was followed quickly by his political arch-enemy, Sir Edward Carson, who tendered his support to the proposition and by the Independent Irish leader, William O'Brien, who did likewise.

BUSINESS MEN FOR DEFENSE

U. S. Chamber of Commerce Completes Nation-Wide Canvass.

Washington, May 27. — Advanced preparedness steps, including universal military training, a building program that will restore the nation to second place among the world's naval powers and an army increase that will meet the recommendations of the general staff have been indorsed by overwhelming majorities in a referendum just completed among commercial organizations throughout the country holding membership in the Chamber of Commerce of the United States.

Member bodies in 43 states and Alaska, the Philippines and Hawaii participated.

Fined for Fist Fight.

Baton Rouge, La., May 27.—Adjutant General McNeese and A. D. Stewart, a prominent New Orleans hotel man, each paid a $150 fine in the city court for their prearranged fist fight on the capitol lawn, which they designated as an "affair of honor." Judge Odom in imposing the fines said:

"Personally, I approve of this method of settling a difficulty between gentlemen, but it is against the law and I will have to fine you."

Villa Bandits Recruiting Peons.

Columbus, N. M., May 25.—Villa bandits are recruiting in the wake of the withdrawing American forces, according to information received here. The remnant of the bands dispersed by the United States troops are conscripting peons at gun points, telling them that Villa is coming back to lead them and promising them rich loot, which, they say will be left by the American troops. Pershing has sent several scouting parties south of the advanced base to gather information as to these movements.

ALLIES TO MAKE TERRIFIC SMASH

GREAT OFFENSIVE IS AIMED AT ELIMINATING TURKS AND BULGARS FROM WAR.

TRY TO WIN BEFORE WINTER

British, Serbian and Italian Forces Concentrate at Saloniki to Strike at Teutonic Allies — Russians Roll Back Ottomans.

Rome, May 27.—A terrific smash within a few weeks, aimed at eliminating the Turks and Bulgars from the war, will be the Allies' first great stroke for peace.

This is report in general circulation here. Heavy allied attacks from Saloniki and Metopotamie will be followed by a tremendous offensive against the Austro-Germans in an attempt to win the war before winter.

Concentrate at Saloniki.

British, Serbian and Italian forces are reported concentrated at Saloniki awaiting to strike aginst the Bulgars and Germans in southern Serbia.

(This is the first report that Italian troops are at Saloniki.)

Meanwhile the Russians are pressing on toward Bagdad, rolling back the Turks.

French Come to Rescue.

The public continues to watch with confidence the official statements regarding the situation on the Trentino front. It is now reported that the first Italian reverses were due to a shortage of heavy cannon to cope with the big Austrian guns. The French are said to have come to the rescue with artillery.

DESIRED INTERVENTION BEFORE U. S. WAS READY

Chihuahua, Mex., May 27.—Squatting in a corner of his cell in the Chihuahua penitentiary, Pablo Lopez, the captured Villa bandit, gave the Villista explanation of the two culminating crimes of Francisco Villa's career—the Santa Ysabel massacre and the Columbus raid.

Styling his leader "Don Pancho," Lopez asserted that Villa's motive both at Santa Ysabel and Columbus was revenge, mixed with a desire to waken his country to the danger of "Gringo" domination.

DREYFUS' SON IS HONORED

"Particularly Distinguishes" Himself at the Battle of Verdun.

Paris, May 26.—Pierre Dreyfus, son of Commandant Alfred Dreyfus of the famous "Dreyfus Affair," who has been serving on the Verdun front as second lieutenant in the artillery, has just been cited in the orders of the day for having "particularly distinguished himself during the violent engagements of February 26, 27 and 28" in the battle of Verdun.

INDORSE WOMAN SUFFRAGE

United Presbyterian Church Delegates Adopt Report for Reform.

Cleveland, O., May 27.—Delegates to the general assembly of the United Presbyterian church adopted the report of the reform committee indorsing woman suffrage. The report declared the liquor interests fear woman suffrage and that laws are more rigidly enforced in states where women have the rights of franchise.

Want More System in Missions.

Saratoga Springs, N. Y., May 26.—A more systematic supervision of the home mission field, with the control centralized in one head, is provided in a new plan for administration of this branch of the activities of the Methodist Episcopal church which was adopted by the general conference. Department superintendents will be in charge of special work in evangelism in the cities, rural communities, the frontiers and church extension. Details of the plan will be agreed on shortly.

AMERICA WARNS ALLIES AGAINST SEIZING MAILS

NOTIFIES GREAT BRITAIN AND FRANCE IT CAN NO LONGER TOLERATE WRONGS SUFFERED BY U. S. CITIZENS.

LATEST NOTE MADE PUBLIC; CHANGE IN POLICY ASKED

Communication Recites "Onerous and Vexatious" Abuses Perpetrated by Two Governments in Seizing and Censoring Neutral Mails—Claims Will Be Pressed.

Washington, May 29.—The United States, denouncing interference with neutral mails, has notified Great Britain and France that it can no longer tolerate the wrongs which American citizens have suffered and continue to suffer through the lawless practice in which those governments have indulged, and that only a radical change in policy, restoring the United States to its full rights as a neutral power, will be satisfactory.

This notification is given in the latest American communication to the two governments, the text of which has just been made public by the state department. The time in which the change must be effected is not specified, but the United States expects prompt action.

"Onerous Abuses by Allies."

"Onerous and vexatious" abuses which have been perpetrated by the British and French governments in seizing and censoring neutral mails are recited in the communication, and answers are made to the legal arguments contained in the reply of the entente governments to the first American note on the subject.

It is vigorously set forth that not only have American commercial interests been injured but that the rights of property have been violated and the rules of international law and custom palpably disregarded.

To Press Claims for Losses.

Notice is served that the United States soon will press claims against the British and French governments for the losses which already have been sustained.

ALIENISTS CLAIM WAITE WAS "IMMORAL MONSTER"

Alleged Poisoner Dozes While Physicians Testify He Married Wife Only For Money.

New York, May 29. — Alienists sworn in by the defense in behalf of Dr. Arthur W. Waite, testified at his trial for the murder of John E. Peck, his father-in-law, that the young dentist was a "moral imbecile" and an "immoral monster" who had only an insane knowledge of right and wrong. The defense rested its case upon the testimony of the mental experts.

Waite's wife was in the court room again and heard the medical witnesses for her husband testify he had told them he had married her only for her money. The prisoner himself appeared to dose while the long hypothetical question designed to show that he was insane at the time he killed his wife's parents, was read to the alienists.

VOTE ON BRANDEIS JUNE 1; CONFIRMATION IS CONCEDED

Administration Wins Fight to Make Boston Lawyer Associate Justice, Opponents Believe.

Washington, May 27. — Victory for the administration in its fight to make Louis D. Brandeis an associate justice of the supreme court was regarded as assured when the Senate agreed to vote on the nomination next Thursday, June 1.

Republican senators who have been opposed to Brandeis conceded that he would be confirmed beyond question.

ORPET PARENTS SUBPOENAED

To Appear as Witnesses for State at Murder Trial.

Waukegan, Ill., May 27.—Mr. and Mrs. E. O. Orpet, parents of Will H. Orpet, University of Wisconsin student on trial charged with the murder of Marion Lambert, his former sweetheart, and Mr. and Mrs. Frank Lambert, parents of the dead girl, have been subpoenaed as witnesses respectively by the state and defense, it was revealed at the trial. About 200 persons in all have been subpoenaed as witnesses.

Cavalry Along Mexican Road.

El Paso, May 27.—The brigade of cavalry sent by Brigadier General Jacinco Trevino to reinforce General Gabriel Gavira is stretched out along the Mexican Central R. R. waiting for orders to move westward and occupy Galenea, Casas Grandes and points along the Mexico Northwestern R. R. To aid in facilitating troop movements in the campaign against bandits, General Trevino has ordered constructed a telegraph line running the length of the border through Chihuahua state and Coahuila.

WIFE TOO ILL TO WORK

IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy."—Mrs. Wm. Green, 332 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

Durable.

"I want a slogan," said the manufacturer of phonograph records. "Something that will convey the idea that our records never wear out."

The advertising man lit a fresh cigarette and thought for eight seconds by the clock.

"How will this do?" he asked. "One of our dance records will outlast the best hardwood dancing floor ever built."

KANSAS DRUGGISTS ENDORSE THIS KIDNEY MEDICINE

I have been selling Dr. Kilmer's Swamp-Root ever since it was introduced in this city, and I can truthfully say that it has produced nothing but perfectly satisfied customers ever since I have handed it over my counters. All of my patrons say it is a remedy of merit in kidney, liver and bladder trouble, and I believe it must be a fine remedy else my customers would not all claim that they were benefited.

Very truly yours,
L. J. HAINES, Druggist,
Dec. 18th, 1915. Galena, Kansas.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

No May Queen.

"Can I borrow your lawn mower, Mr. Subbubs? I want to mow my lawn in the morning."

"How far do you live from here?"

"About half a mile."

"All right, you can have it. From that distance you won't get me awake."—Louisville Courier-Journal.

The Magic Washing Stick

"The Magic Washing Stick is the finest thing in the world. Cleans the clothes without rubbing—makes the whitest clothes I ever saw. I cannot do without it any more. All you say is true, it does all you say it will. I would give it for nothing I have ever used. Hope every lady will try it," writes Mrs. W. F. Gammill, Ashdown, Ark. 15 washings 25c. This peculiar article is sold by all grocers everywhere. Winston, Harper, Fisher Co., Minneapolis, Minn., Distributors.—Adv.

A girl's ideal young man is a novel hero who probably couldn't earn enough in real life to feed a canary bird.

Chicago will this year open 43 new playgrounds.

Schoharie, N. Y., is to open a free public library.

DAIRYING IN WESTERN CANADA

Accompanying Industries Also Prove Highly Profitable.

The cheese industry throughout western Canada today is in a highly flourishing condition and is bound in a very short time to become much more important. The war has created a great demand for that article, and its use abroad has given it a lot of useful advertising. The article known as Canadian cheese is now sought not only by the soldier in the trenches, but by the ordinary civilian consumer, who, having used it, is quick to appreciate its value. This means that after the war there will be a demand created for it that would not otherwise have been. Up to the present the war needs have limited the local supply, but with the increased effort that is now being put forth it is hoped that this will be met. As a matter of course the prices are high, and the farmers who contribute to the cheese factories are making money.

The cheese season is now fully open and there is every prospect of an excellent year because the high price which obtained last year will undoubtedly be maintained this season. Western Canada has all the natural resources for the making of cheese, the feed and the cool nights, two things essential, and in time it is bound to become one of the finest cheese countries of the continent.

The lower foothills of Alberta, used only at the present time as ranges or for no purpose, will in time produce cheese in great quantities, and doubtless will soon equal the famous uplands of Denmark.

The cool nights mean the better keeping of milk and cream and cheese, and that is a great thing for the industry, especially when combined with possibilities of cattle feed such as exist on the long slopes from the Rockies eastward.

The hog market, which may be classed as an adjunct of farming, is an exceedingly good one, and the low cost at which the feed can be produced, coupled with the high prices realized, make this industry very profitable.

One of the first thoughts that occur to the mind of the average prospective settler is the likelihood of suitable markets. In this connection the following table will be illuminating. It is supplied by the P. Burns company, packers and exporters, of Calgary, and shows the average monthly price paid for hogs for the six years 1910 to 1915 inclusive. When one considers the low initial cost of the land and the small overhead cost of maintenance and feed, these prices challenge comparison.

	1910	1911	1912	1913	1914	1915
January. .		7¾	8	8	7¾	$6.71
Feb.		7¾	8½	8½	8	6.96
March. ..		7¾	8	8½	7½	7.16
April		7½	8¼	8¾	7½	8.06
May		7½	9	8½	7	8.26
June.		7	8½	8	6.85	8.30
July		7¼	8½	8	8	8.12
August ..	8	8	8¾	8½	8½	7.93
Sept.	8	9½	9	8¾	7¾	8.86
Oct.	8	8½	8½	7¾	6	9.02
Nov.	7¾	9	8½	7	6½	8.36
Dec.	7¾	8½	8¼	7¼	6¼	8.70½

A farmer of Monarch, Alberta, claims the distinction of being the first in the province to sell a carload of hogs at the high price of eleven cents a pound, live weight. The sale was made a short time ago at Calgary, and at that time was a record, although prices have since gone as high as $11.12½ per hundredweight. With such prices available for hogs the farmer has a market for everything his farm produces, as there is practically no farm product which cannot be converted into good hog flesh. The uncertainty of results which attends grain farming even under most favorable conditions is removed when the settler goes in for raising hogs, beef and dairy products. With Western Canada's cheap lands, heavy crops, and climate free from diseases of stock, the stock farmer is as sure of success as anyone can be.—Advertisement.

Airy Persiflage.

Irvin S. Cobb, who tells stories as well as he writes them, breezed into our office the other day with a new one.

A girl from the mountain regions of Kentucky went to a dentist to have a tooth filled. After the dentist had excavated the decayed molar he produced a tube connected with the compressed air tank and proceeded to clean out the cavity.

Thinking that the operation might be painful, he said to the girl:

"Does that air hurt?"

"That air what?" asked the girl.—New York World.

A Mean Remark.

"I think you could make some money with your biscuit, dearie."

"Do you really suppose our friends would like to have me bake for them?"

"No; but I think we could dispose of them to a shrapnel factory at a fancy price."—Louisville Courier-Journal.

The tongue of a wagon says never a word, but it gets there ahead of the rest of the outfit.

And many a man has managed to get out of a bad scrape by letting his whiskers grow.

STATE BREVITIES

Moorhead. — More than $50,000 will be spent on good road work in Clay county this year by the individual townships, aside from the amount spent by the county and state.

St. Paul. — St. Paul has three representatives on the faculty of the summer school in mental deficiency to be conducted at the Minnesota school for feeble-minded at Faribault, June 26 to August 5.

Faribault.—"I have no intention of resigning," declared Dr. J. N. Tate, superintendent of the State School for the Deaf here, when questioned regarding reports from St. Paul that he will give up his post.

St. Paul. — The Minnesota primary law was sharply criticized at a meeting of the executive committee of the Republican League of Minnesota at The Saint Paul. Sentiment was unanimously against it.

Duluth. — Johnny Sholund, 13 years old, dove between logs of a boom in a mill pond here and pulled out his playmate, Reinhart Leslie, of the same age, after the latter had slipped between the logs and failed to come up.

St. Paul. — By a unanimous vote, the Episcopal diocese of Minnesota at its fifty-ninth annual council in St. Paul, approved of the church pension fund, which is to be established for the maintenance of superannuated rec-

Mankato. — Mrs. F. W. Foster of Omaha, Neb., died suddenly on an Omaha train en route home from Minneapolis, where she was a delegate to the Northern Baptist conventon. The body was taken from the train here.

Lake City. — When the Minnesota Horse Breeders' association and the Eastern Minnesota Horse Breeders' association meet here June 17, all sessions will take place on board the steamer Frontenac and barge Mississippi, afloat on Lake Pepin.

St. Paul. — Passage of a bill providing for industrial insurance for railway employes engaged wholly in intrastate traffic will be asked of the next legislature. This was decided by the Minnesota legislative board of the Brotherhood of Locomotive Firemen.

Ortonville. — Overalls and jackets were much in evidence here on "Trail day." Clergymen, lawyers, doctors, druggists and merchants participated in the largest single good roads move ever launched in Western Minnesota. All worked on the Yellowstone trail from 6 a. m. to 6 p. m.

Rochester. — With plans practically completed for the sixth annual tournament of the Minnesota State Sportsmen's association at Rochester, June 21 to 23, trap shooters of all parts of the state are getting ready. Rochester officials of the club expect the meet to be the largest event of its kind ever held in the state.

Moorhead.—Road boosters of Western Minnesota, seeking the establishment of the "lake and park" road as the official route of the Jefferson highway, met here to further outline the campaign. The western route supporters are opposing an organization that is seeking the establishment of the road through the central section of the state.

St. Peter. — Swan Lake, the hunters' paradise of Southern Minnesota, is to be drained into the Minnesota river. An association to further the project has been formed by farmers living near the lake. The project means the reclaiming of twenty-six sections of land, more than 16,500 acres, or nearly one-third of Nicollet county.

St. Paul. — The State of Minnesota cannot tax inheritances of bonds of a Minnesota corporation transferred by will or under the interstate law by a non-resident to non-resident heirs, according to a per curiam opinion of the supreme court in suit brought in the district court of Ramsey county to collect inheritance tax upon the estate of Francis H. Ward, Chicago.

St. Paul. — The Minnesota naval militia will have two weeks' training on the sea, according to the program received by Adjutant General Fred B. Wood from Secretary of the Navy Josephus Daniels. The Minnesota navy men will embark on the battleship Rhode Island from Philadelphia navy yard, July 15, and will sail to Block Island Sound.

St. Peter.—That Patrick J. Gibbons, former St. Paul commission man, who escaped from the asylum for the criminal insane at St. Peter, had help either from the inside of the institution or that friends awaited him in an automobile and hustled him out of danger of capture, is intimated in the report of the superintendent, R. M. Phelps, to the state board of control.

St. Paul. — Wholesale charges of extravagance, malfeasance and nonfeasance in office against the county commissioners of Cass county in affidavits and statements have been filed with Governor Burnquist by Thomas Peterson, J. R. Blackburn and E. L. Holman, citizens of that county, who ask a thorough investigation and the removal from office of the men if found guilty.

Faribault. — Major W. T. Mollison of Faribault has been elected colonel of the Second infantry, Minnesota national guard, by the field and line officers of the regiment, to succeed Col. John Bueschers of New Ulm, who is slated for retirement after thirty years' service in the guard of the state.

Thief River Falls. — Out of 150 entries to lands in the Mud lake bottom, thirty-five miles northeast of here, only thirteen do not conflict. On some of the choicest pieces as many as five entrymen are asserting prior right. To straighten the tangle the land office has ordered nineteen hearings.

NAMES MEMBERS OF COMMITTEES

PRESIDENT SNYDER OF BOARD OF REGENTS MAKES PROVISION FOR CONSULTATIONS.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

President Fred B. Snyder of the board of regents of the University of Minnesota has announced appointment of the following board committees:

Executive Committee—Butler, chairman, Partridge, Sommers, Glotfelter, Burnquist, Snyder, Vincent. Agricultural Committee—Rice, chairman, Glotfelter, Butler, Schulz, J. G. Williams, M. M. Williams, Sommers, Vincent. Buildings and Grounds Committee—Partridge, chairman, Butler, Rice, M. M. Williams, Vincent. Salaries Committee—Sommers, chairman, Butler Schulz, Mayo, Snyder, Vincent. Auditing Committee—J. G. Williams, chairman, Partridge, Sommers, Rice, M. M. Williams, Vincent. Investments Committee—Snyder, chairman, Burnquist, M. M. Williams, Vincent.

President Snyder also recommends that the president consult with reference to matters which concern the following colleges with regents as follows: Agriculture, Regent Rice; medicine, dentistry and pharmacy, Regent Mayo; Law, Regent Butler; engineering and mines, Regent J. G. Williams, and education and extension, Regent Schulz.

★ ★ ★

Jury Law Is Valid.

Minnesota's "five-sixth Jury law," which permits a jury hearing a civil action to return a verdict signed by any ten or eleven members of the panel after twelve hours' consideration, has just been held to be valid by the United States Supreme Court and not in conflict with the Federal Constitution. The case in point is the Minneapolis & St. Louis Railroad company against the estate of Constantine Nanos, deceased.

The railroad company attacked the validity of the Minnesota law, declaring that it contravenes the seventh amendment of the Federal Constitution. The Nanos estate was awarded a five-sixths verdict against the company in compliance with the state law. The company appealed to the higher tribunal in Washington from the Minnesota Supreme Court decision which upheld the validity of the law.

Chief Justice White, who delivered the opinion of the court, said that the contention that the Constitution had been violated "is in conflict with an essential principle on which our dual constitutional system of government rests."

★ ★ ★

Case Puzzles Board.

Representatives of the Alger-Smith Lumber company, and the Virginia & Rainy Lake Railroad company have answered charges of trespass on state lands before the state timber board. The charges grew out of the cutting of timber for the railroad's right-of-way.

The representatives of the two companies asserted that it was not a case of willful trespass, and offered to pay for the timber they had cut.

The case was referred to Attorney General L. A. Smith for settlement, ambiguity in the law relating to such instances making it impossible for the board to decide the question.

★ ★ ★

Seed Experts Come Here.

Seed analysts from practically every state and from the United States department of agriculture, will hold their annual meeting at the college of agriculture, University farm, July 13 to 15. Prof. W. L. Oswald, director of the Minnesota seed laboratory, is president of the national organization. Dean Woods of the farm college says that Minnesota was chosen as the meeting place because it has "the best state pure seed law and probably the one best administered."

★ ★ ★

Plans For Fathers' Day.

If Mrs. Virginia B. Powell of Lake City can bring it about Minnesota will have an addition to its list of holidays in the shape of a Fathers' day. Writing to Governor Burnquist, Mrs. Powell, under the caption, "What is the matter with father," states that when Governor Hammond was alive he gave his approval and she believes that if he had lived the day would have been legalized.

★ ★ ★

State Sues Lumber Firm.

The State of Minnesota has begun suit against the International Lumber company to recover $385 damages due to the company's failure to remove slashings. The damage was the result of fire from the slashings.

★ ★ ★

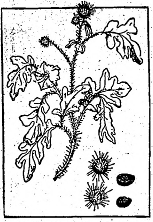
Schools To Save Paper.

Teachers, pupils and school authorities of the state have been requested by C. G. Schulz, state superintendent to save their waste paper in aid of the movement which has become nation-wide to conserve the print paper supply of the country. Mr. Schulz suggests to the teachers and pupils that the saving of the waste paper about the schools and the homes of each not only will prove profitable, but will inculcate the habit of public cleanliness. Paper and rags can be sold best in carload lots.

BUFFALO BURR IS INJURIOUS

Grows Vigorously, Withstands Dry Weather and Is Covered With Spines on Stems.

Buffalo burr is a native of western Kansas and Nebraska, where it is often found in alfalfa fields. The hay shipped from those states often contains buffalo burr seed, and in this way it gets a start in feed lots. The plant looks like it might be one of the very worst pests, for it grows vigorously, withstands dry weather splendidly, and is covered with spines both on the stems and on the burrs. The blossoms look like yellow potato blossoms, and after they are gone a spiny burr forms.



Buffalo Burr.

Buffalo burr looks more dangerous than it really is. It grows but one year, and spreads only by seed. Those of our readers who find buffalo burr in their feed lots will do well to cut it off at the surface of the ground before it goes to seed. It has not become common as yet in the corn belt, and the chances are that it will not.

MEAT FOOD INCREASES EGGS

On Most Farms There Is Plenty of Skim Milk and No Better Plan Than Feeding to Fowls.

In the poultry feeding experiments made at the Purdue university it was found that the addition of some form of meat food to the ration increased the egg production about 100 eggs per pullet per year. This would mean about 10,000 eggs in a farmer's flock of 100 hens. The income per bird in the pen fed no meat food was 67 cents. The pen fed skim milk gave an income of $2.78, the highest in the experiment, due to heavier winter egg production.

Poultry raisers have long been familiar with the schedule of "grains, greens, grits and grubs," but farmers as a rule have paid too little attention to the "grubs" part of it. This experiment shows the importance of providing a substitute for the bugs and worms the fowls get during the summer season when they are permitted to range. On most farms there is plenty of skim milk and no better use can be made of it than to feed it to the chickens. Meat scrap and fish scrap can be purchased if skim milk is not available.

BEES ARE FARMERS' FRIENDS

Without Little Honey-Gatherers There Would Be but Small Crop of Inferior Fruit.

Do not spray the fruit trees while in bloom, for that will kill the bees. Many farmers do this every year, when the bees are their best friends. If it were not for the bees they would get but little fruit, and that of very inferior quality, and yet they will carelessly murder these little helpers by the thousands.

Bees are valuable, and no man has a right to put out poison and kill them. It is no advantage to spray the trees when in bloom, and it is even better to wait until the petals fall and spray when there is nothing to prevent the poison going into the heart of the calyx before it closes.

INSECT HARMS MANY PLANTS

Cutworm Is One of First Pests to Appear—Injures Cauliflower, Cabbage and Other Crops.

The cutworm is one of the first pests to appear, and kills cabbage, cauliflower, cucumbers, squashes, melons, corn, tomatoes, and peas.

In case of plants that are transplanted, wrap with a collar of stiff paper below ground and an inch or more above the surface, and dig out the worm, which will be found just below the surface near the cut plant.

Air-slaked lime may be spread over the surrounding soil.

CARING FOR RASPBERRY TIPS

They Should Be Dug Up and Replanted —Keep Patch Clear of Surplus Plants and Clumps.

Dig up all the rooted raspberry tips and replant them where you want them, for they should not be allowed to grow in the original patch to make a thicket.

Keep it clean of surplus plants and the old clumps will bear better and be much more pleasant to work around.

Dewberries need the same care as raspberries in this respect, though the vines run to such lengths it is more of a job to keep them in place.

Rule of a Higher Court.

"Do you realize, John Hays, that you are guilty of contempt of court, sir, and that you may be sent to the chain gang for six months for refusing to go home quietly? I will permit you to join your family, if your court conduct shows you worthy of parole. Once again, . . . will you go directly home from here?" The judge was plainly indignant.

But Hays merely shivered and stubbornly shook his head, "No, sir."

"Am I to understand you prefer jail to home?" his honor demanded. "Have you no conscience?"

"It ain't my conscience, judge," Hays replied sadly, "it's my mother-in-law. She dared me to come back."—Case and Comment.

FITS, EPILEPSY, FALLING SICKNESS Stopped Quickly. Fifty years of uninterrupted success of Dr. Kline's Epilepsy Medicine insures lasting results. LARGE TRIAL BOTTLE FREE. DR. KLINE COMPANY, Red Bank, N. J.—Adv.

Largest Car Ferry.

The largest car ferry in the world transports both freight and passenger cars across Carquinez straits, between Port Costa and Benicia, Cal. It recently has been put into operation as a part of the Southern Pacific railroad. The ferry boat is 43 feet long. The hull and superstructure are of wood and required over 2,000,000 feet of lumber. The lumber is held in place by 76 tons of spikes and many tons of smaller nails. The ferry has a capacity of 36 freight cars and two engines, or 24 passenger cars with two engines. It is operated by electric power.

RED, ROUGH, PIMPLY SKIN

Quickly Cleared by Cuticura Soap and Ointment. Trial Free.

You may rely on these fragrant, super-creamy emollients to care for your skin, scalp, hair and hands. Nothing better to clear the skin of pimples, blotches, redness and roughness, the scalp of dandruff and itching and the hands of chapping and soreness.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

No Lack of Rations.

Returned soldier (relating experiences)—We were just making up our mouths for a feed, miss, when a big shell blew up the grub wagon.

Sympathetic young woman — You poor fellows! So you fought all day without rations.

Soldier—Not exactly, miss. Other shells from the enemy supplied us with perforations and lacerations in abundance.

He Did Write "Them Plays."

James T. Fields, one of the notable publishers and also a man of letters, relates that when he went to Stratford he met a native of that country. He told the native that he had come to see the home of Shakespeare.

"That's all right," said the man of Warwickshire, "but for my part I don't believe Shakespeare would be heard of now if he hadn't wrote them plays."

The Magic Washing Stick

"The Magic Washing Stick is just fine. It did just what you said it would do, and the clothes were so nice and white with all that hard rubbing left off," writes Mrs. Sarah Goodale, Preston, Texas. The Magic Washing stick is not a soap nor a washing powder. Fifteen washings 25c. Sold by all grocers everywhere. **Winston, Harper, Fisher Co.**, Minneapolis, Minn., Distributors.—Adv.

Blushing Brides.

"Why are brides generally expected to be blushing as they walk down the aisle?"

"I suppose," replied Suffron Long, glancing cautiously about and lowering his voice, "that a good many of them blush to think how they are going to subdue the lords of creation after they've safely got them."—Judge.

Important to Mothers

Bears the Signature of Chas. H. Fletcher.

In Use for Over 30 Years.

Children Cry for Fletcher's Castoria

Lazy Officer.

Sergeant (at drill)—Company! two paces forward, march!

Old Countrywoman (looking on)—That's just like them officers! Couldn't he take two paces farrard 'isself, instead o' moving the whole regiment?—London Opinion.

The coat of a horse is the gift of nature, but the coat of a donkey is often the work of a tailor.

Riches used to take wings, but nowadays aeroplanes take riches.

The Point of View.

They sat over their coffee at the fashionable table d'hote.

Her eyes having swept the room she turned to him. "Do you notice what beautiful hands the young woman opposite has?"

He confessed he did not.

Presently pursuing her survey she asked. "Do you observe the latent spirituality in the dark dreamy eyes of the young man with her?"

He confessed he did not.

She was a brilliant authoress—he a penny-a-liner.—Judge.

Matrimony has destroyed many a sweet delusion.

Makes Hard Work Harder

A bad back makes a day's work twice as hard. Backache usually comes from weak kidneys, and if headaches, dizziness or urinary disorders are added, don't wait—get help before the kidney disease takes a grip—before dropsy, gravel or Bright's disease sets in. Doan's Kidney Pills have brought new life and new strength to thousands of working men and women. Used and recommended the world over.

A Minnesota Case

"Every Picture Tells a Story"

C. Bartsch, 1031 Lowry Ave., N. E., Minneapolis, Minn., says: "My back hurt me terribly and I could hardly do my work. There was an extreme soreness through my hips and I knew my kidneys were disordered. Doan's Kidney Pills restored me to health and strength and prevented a serious attack of kidney trouble. I am now in the best of health."

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 305, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

That the indorsement of Anderson as the opponent of Congressman Steenerson, by Knute Nelson was not for the reason that Congressman Steenerson voted in opposition to him on the submarine policy of President Wilson, is plainly apparent from his indorsement of Congressmen Miller of Duluth for re-election, who voted exactly the way Steenerson did in opposition to Nelson. A large number of our readers have undoubtedly read the sensational criminal trial at Minneapolis last week, where eleven jurymen voted to convict, and one voted "not guilty". Which do you think was right, the eleven jurymen or the one? Nelson voted alone on Wilson's submarine policy, and again we say that he was wrong and the other members right, as that was the most damnedable resolution that was ever "gagged" through Congress, and if it had been delayed one week, it never would have passed. If Mr. Anderson and Kellogg are of the opinion that they will gain many votes by their indorsement of Wilson's submarine policy, they will find their mistake after the votes are counted.

Is the interest that the Commercial Club of Thief River Falls and the News-Press of that city, is taking in the deepening and dredging of Red Lake River real, or is it not? If they are as interested as they claim to be, it is getting to be about the time of the year for them to get their coats off, and get to work for the re-nomination and election of Congressman Steenerson, for if we put a new man in there now, it is good-bye to any government aid for the dredging of Red Lake river for a number of years.

Congressman Steenerson is in favor of the government loaning money direct to the farmers, at a low rate of interest. Mr. Anderson is a banker who has made his money by loaning to the farmers at a high rate of interest. As he is now asking for the farmers votes to elect him to Congress, it would be well for him to state how he stands on this great question which is of vital importance to the farmers of the ninth district.

W.H. Quist has announced himself as a candidate for Clerk. of Court. He was City Clerk of Thief River Falls for a number of years, and is said to be qualified to fill the position. This makes four candidates for that office, which will make it necessary to eliminate two and retain two for the fall election.

The Thief River Falls News-Press accuses Andy Trovatoll of trying to hunt up candidates to file for county office, and judging by the number of candidates that have filed for Clerk of Court he must have been pretty successful.

The copy for free advertising of candidates for state officers still continues to flow into this office, at the rate of enough to fill four newspapers. Please only write on one side gentlemen, so we can use the other side for scratch paper.

Edward L. Rogers is entitled to the support of the 9th congressional district, for his promise to modify that 1855 Indian treaty. We wish we could vote for him.

While we have nothing to say against the ability or character of our present Governor Burnquist, yet we are of the opinion that Sam G. Iverson is the best qualified man for the position, and his past honorable record as State Auditor, and his party loyalty entitles him to the Republican nomination on June 19th, and if he is nominated, he will be elected, by one of Minnesota's old time Republican majorities.

DOES SLOAN'S LINIMENT HELP RHEUMATISM?

Ask the man who uses it, he knows. "To think I suffered all these years when one 25 cent bottle of Sloan's Liniment cured me," writes one grateful user. If you have Rheumatism or suffer from Neuralgia, Backache, Soreness and Stiffness. don't put off getting a bottle of Sloan's. It will give you such welcome relief. It warms and soothes the sore, stiff painful places and you feel so much better. Buy it at any Drug Store, only 25 cents.—Adv.

WILL MY CHILD TAKE DR. KING'S NEW DISCOVERY?

This best answer is Dr. King's New Discovery itself. Its a pleasant sweet syrup, easy to take. It contains the medicines which years of experience have proven best for Coughs and Colds. Those who have used Dr. King's New Discovery longest are its best friends. Besides every bottle is guaranteed. If you don't get satisfaction you get your money back. Buy a bottle, use as directed. Keep what is left for Cough and Cold insurance.—Adv.

WELL CHILDREN ARE ACTIVE.

If your child is dull, pale, fretful and wants to lie around, the chances are it is suffering from worms. Kickapoo Worm Killer, a pleasant candy confection, liked by all children is what your child needs. You only give one-half to one lozenge at a time and you get immediate results. Every mother should have a box on hand. 25c. at all druggists.—Adv.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby announce myself as a candidate for re-election to the office of Clerk of the District Court for Pennington County. I wish to announce at this time to pledge to the voters of Pennington County that if I am nominated and elected, I will give the office my undivided attention, and will serve the public to the best of my ability in a strictly impartial manner. In the accounting department as a member of the Board of Audit, in the Naturalization department, in fact in all of the different duties of the Clerk, I feel better prepared and able to give more efficient service than in the past.

Thanking the voters for past favors, and hoping for your continued support if you deem me worthy, I remain

Respectfully Yours,
HARRY E. IVES.

New Railroad

Articles of Incorporation for the Red Lake northern Railway Company have been filed with Secretary of State Schmal. The line is to built from Alida, a station southwest of Bemidji, to the Lake of the Woods, and is to run west of Red Lake, but how far west they do not say. The survey is to be made this summer, and was to start on June 1st. Former State representative Jens J. Opsahl, of Bemidji, is one of the incorporators and is president of the company. This line of railroad will open up a large territory of farming land that are now so far away from railroads, that they are not being used for agricultural purposes.

THE GOODRIDGE PHARMACY.

We carry a full line of Drugs, Patent Medicine, Toilet Articles and ALL articles found in a first class Drug Store.

Our store is always in charge of a Registered Druggist. Bring us your prescriptions and cough and cold receipts.

DR. H. B. NEWELL,
Druggist.

CLEAR SKIN COMES FROM WITHIN.

It is foolish to think you can gain a good clear complexion by the use of face powder. Get at the root of the trouble and thoroughly cleanse the system with a treatment of Dr. King's New Life Pills. Gentle and mild in action, do not gripe, yet they relieve the liver by their actions on the bowels. Good for young, adults and aged. Go after a clear complexion to-day. 25c at your druggist.—adv.

COW AND HORSE SURGEON.

If you have any trouble with your brood mare at the time of foaling, call on Tallock Dahle, Sec. 33, town of Highlanding, and he will assist you to save your mares and colt.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

THE SUNBEAM

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JUNE 9, 1916. NO. 13

MINNESOTA
HISTORICAL
SOCIETY

THE LOCAL NEWS.

Marshall Shedd made a business trip to Oklee last Tuesday.

Walter McAndress is a business visitor at Thief River Falls this week.

Remember that the Primary Election is to be held on June 19, one week from next Monday. Be sure to turn out and vote.

NOTICE: We are checking up the names carefully of THE SUNBEAM sent to Kratka, Rhoda, Erie Postoffices, and any missent business will be promptly reported to the Postoffice Inspector.

Miss Ella and Marie Causin returned home from Thief River Falls Sunday, where they have been attending high school, to spend their summer vacation.

We understand that old George Singer is the only man in the town of Deer Park who is opposing Steenerson. Go to it "old nubbin" you have got one vote, and that's all.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

We are devoting quite a large amount of space to the campaign of Congressman Steenerson this week, as we consider it a question of vital importance to the flood stricken farmers living along the banks of Red Lake river.

Local news has been nearly crowded out of this issue for lack of space. The advertising columns of a newspaper are what it depends on for its support, and we have certainly got our's crowded to the limit this week.

Would you rather have a loan on your farm from the government bearing 4 per cent interest, instead of the one from the banks drawing 8 or 10 per cent? If you would, turn out to to election June 19th, and defeat the plan to elect a banker to Congress from this district.

The bankers are getting alarmed over the prospects of the passage of that government credit loan bill, and they are working to defeat Steenerson, and put one of their old experienced bankers in his place. They will all be on hand to vote June 19th, and the farmers should turn out to a man, and defeat them.

The Red Lake river is still at a flood stage, overflowing its banks, being a mile wide in some places. If there is nothing done to dredge this river it means that there will be a large number of the farmers east of Highlanding that will be compelled to abandon their farms. Congressman Steenerson has an act passed to make the survey this summer by the government, but the bankers are trying to defeat him because he favors that government loan bill, and if they succeed it will be good-bye to the improvement of Red Lake River.

FARMERS PICNIC

There is to be a big farmers picnic held in the Beerbowers grove, on section town of Smiely 4 miles east of Thief River Falls, on the south side of Red Lake River, on next Wednesday June 14th. Several noted speakers will be present, among which will be Prof. Hoverstad, Erickson, Selvig and Donaven, Mr. Carlson of Erskine, and Dairyman Hanson, of Westbury will also be present. Farmers should provide themselves with a basket picnic dinner. Take a days rest and attend this picnic, and get acquainted with your county neighbors. Free ferry will be provided across Red Lake River for those living on the north side.

STEENERSON ANSWERS.

Washington, D. C.
May 23, 1916.

Having received very kind and encouraging expressions of satisfaction with my services as their Representative in Congress from many of my constituents, I filed for re-nomination as Republican candidate at the coming primary election, to be held June 19th next.

I now learn that I am to have an opponent in the person of Mr. A. G. Anderson, of Fergus Falls. He announces that he stands for preparedness for defense, strict neutrality and economy in the national government. As I have always favored these things, there can be no issue between us on those points. There is, however, one thing in his announcement on which I am not sure that I can agree with him. He says "We are spending more money on our army and navy than did Germany, England or France, before the present war," and he demands more for our money. The chief reason why it costs more here than in Europe is that we pay our soldiers from $15 to $25 per month, as against 25 cents per day in England, 5 cents per day in Germany, and 2 cents per day in France. If this demand means that we shall increase our forces without increasing the expense, the only possible way it can be done is by conscription. Does Mr. Anderson favor the taking of our boys from our farms and shops, and compelling them to serve in the army and navy for 5 or 10 cents per day?

That is the Wall Street bankers' and militarist point of view. That is what they demand. IF THIS IS NOT WHAT MR. ANDERSON MEANS, HE SHOULD COME OUT AND SAY SO.

Owing to the European War and the situation in Mexico, I shall vote for a larger army and navy, and I shall also vote the money to pay for it, and to levy the taxes the heaviest on the rich who clamor the loudest and seem to be the most afraid.

I shall probably not be able to make a personal canvass, but shall have to depend on my good friends to again help me out in the campaign.

Thanking you for the favors extended to me in the past, and assuring you of my high appreciation of your friendship and continued support, I remain

Very truly yours,
H. Steenerson.

A BIG CELEBRATION

There will be a big 4th of July celebration three quarters of a mile east and one half mile south of Highlanding, on the Beaudry place. There will be a large bowery 38x60 for dancing. The program will be published later.

OSCAR T. STENVICK
REPRESENTATIVE
65th Legislative District
Candidate For Re-election

(Paid Advertisements.)

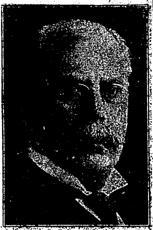
STEENERSON ENDORSED BY THE PEOPLE.

The strongest endorsement a man can get is the votes of his fellow citizens.

Halvor Steenerson has been given that endorsement on fourteen occasions—at seven primaries and seven elections, and during the last eight years the endorsement has grown stronger at each voting.

His closest contest was in 1908, when he had 2,947 more than Senator Sageng. At the last election his majority was 16,684.

Senators Peterson and Sageng, Mr. Bjorge and Mr. Brattland, his opponents on different occasions, are all big men, and three of them have been given endorsements since by majority votes in their counties for members of the legislature.



Like all other employers the voters recognize ability, faithfulness and good judgement. They like to have a man in congress who can stand up and hold his own with the best of the talent there, one who can give full value in service for the salary he receives.

That is why they have voted for Steenerson so long, and that is why they are going to continue voting for him. They know that the longer he stays there the better service he can give. They know that he has always stood for the interests of the common people, the farmer, the merchant and the laborer.

The opposition of the corporation-controlled Twin City dailies and the other outside interests who are trying to induce people of the district to defeat him only makes him stronger.—Thief River Falls Times.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby wish to announce to the voters of Pennington county, that I am a candidate for Clerk of Court at the Primaries, June 19th. Your vote and support respectfully solicited.

Adolph Eklund.

EDWARD D. RYDEEN
Clearbrook, Minnesota.

CANDIDATE FOR

REPRESENTATIVE

Having at the urgent requests of my neighbors and friends, filed as a candidate for election as State Representative from the 65th Legislative District, I respectfully solicit the support of the voters of Red, Pennington and Clearwater Counties at the Primary election to be held June 19th, 1916.

In soliciting your vote and support, I deem it incumbent upon me as a non-partisan candidate to submit my platform for your candid consideration and approval.

I advocate and if nominated and elected will earnestly support the following legislation: Businesslike economy and efficiency in the administration of the State's business affairs, and the enactment of laws that will do away with what is called the "spoils system" in all departments of state government, but I do not deem it a wise policy to hamper or restrict the activities of our State University, especially the Extension Department by inadequate appropriations.

Legislation for state aid for roads and bridges.

Legislation that will prevent discrimination in our tax levies.

The recall, and also the Initiative and Referendum Amendment.

I favor county option but [illegible] state wide prohibition.

Equal suffrage for women.

The election of the President of the United States, the Vice President and the United States Senators by direct vote of the people.

I firmly believe in the rule of the people and if elected shall support every measure that will tend to increase the power of the people in the local and state government and all measures which will tend to benefit the conditions of our rural communities; and while endeavoring to be just and fair to all classes, I believe that farmers and laborers should be given that consideration which their welfare may demand.

Respectfully submitted,
EDWARD D. RYDEEN.

CITATION FOR HEARING ON PETITION FOR ADMINISTRATION.

ESTATE OF HERMAN V. LARSON

STATE OF MINNESOTA, COUNTY OF PENNINGTON IN PROBATE COURT.

In the Matter of the Estate of Herman V. Larson Decedent.

THE STATE OF MINNESOTA To Mabel Viola Larson, Elmer Victor Larson and all persons interested in the granting of administration of the estate of said decedent:

The petition of Mabel Viola Larson having been filed in this Court, representing that Herman V. Larson, then a resident of the County of Pennington State of Minnesota, died intestate on the 18th. day of May 1916, and praying that letters of administration of his estate be granted to Andrew T. Olson and the Court having fixed the time and place for hearing said petition,

THEREFORE, YOU, AND EACH OF YOU, are hereby cited and required to show cause, if any you have, before this Court at the Probate Court Rooms in the Court House, in the City of Thief River Falls in the County of Pennington State of Minnesota, on the 1st. day of July 1916. at 10 o'clock A. M., why said petition should not be granted.

WITNESS, the Judge of said Court, and the Seal of the said Court, this 5th day of June 1916.

[COURT SEAL] Wilhelm Michelet
Probate Judge.

Hans O. Kjomme,
Attorney for Petitioner.

DEFECTIVE PAGE

FARMER'S GREAT OPPORTUNITY

Demand for Canadian Cattle After the War.

The opportunities that Western Canada offers to the farmer have time and again been placed before the public through these columns. The cheap price at which the very best lands can be purchased, and the advantage that is to be had in securing one of the free homesteads of 160 acres has appealed to a great many, and they have embraced them. Many, in fact most of those who have done so are today giving testimony to the good fortune and the timely forethought that led them to go to Western Canada, and embark in an era of farming that has placed them away beyond the pinch of want and given them reason to look into the future with a hopefulness that, they had not had the courage in the past to forecast.

Not only have they been able to secure good lands at low prices and on easy terms but if they desire they have been able to add to this 160 acres of land free, on conditions that are easy. A resident in the Lloydminster district in Saskatchewan who had been farming in the States for some time, took up a homestead in 1910, and commenced breaking with 4 oxen. Two years ago he bought an adjoining quarter section and now has over 100 acres under cultivation. He says, "As my circumstances improved, I sold the oxen and now have six head of horses, twelve head of cattle, and have always a bunch of hogs on hand.

"On an average I have had yields of 25 bushels of wheat, 65 bushels of oats, and 40 bushels of barley to the acre, and last season from a field of 28½ acres, I threshed 1,040 bushels of wheat. I have made a success of mixed farming and would have no hesitation in advising all who contemplate making a new home to come to this district. I sell cream to the Government Creamery here, and find at all times a good market for live stock and other produce."

This is but a modest statement of what a modest man can do in Western Canada, and could be repeated of hundreds of others.

Scores of cases could be recited where much more has been accomplished, and it is believed that with moderate investment at the present time, the cattle industry of Western Canada will pay large interest.

The Minister of Agriculture of Saskatchewan, in a recent address, ventured the prediction that the Saskatchewan farmer who developed his land along the lines of general stock breeding would make much more money and find a far bigger return for his efforts in ten years' time than the man who devoted his energies purely and primarily to grain raising. This was the coming golden age of opportunity for the stockman and it was up to the Saskatchewan man to get in on the ground floor and prepare himself for the coming demand.

The close of the war would undoubtedly see a great demand for live stock in Europe and it was only reasonable to suppose that this demand would have to be filled almost wholly by American stockmen, both in Canada and the United States. Europe was slowly draining its rural districts not only of its beef and dairy animals but was also using the finer breeding animals and the end of the war would see a condition of affairs which would render necessary almost the repopulation of the domestic animal kingdom in that continent.

The opportunity of Western Canadian stockmen, therefore, lay in being prepared for this demand when it arose. In view of these facts which must be patent to every student of economic conditions as related to the stock industry, he hoped to see within the next three years the stock raising industry in Saskatchewan given an immense impetus forward, which would put it in the forefront of the producing provinces of the Dominion.—Advertisement.

Watch Wasn't Necessary.

The colonel of a certain regiment in Kitchener's army is a great stickler for obedience, instant and complete.

"Smith," he said to his orderly recently, "I want you to ride down to the railway station and get me the correct time."

Smith shuffled his feet and fiddled with his fingers.

"Well, man," roared the officer irately, "why don't you do as you are told?"

"Please, sir," replied the orderly meekly, "I haven't a watch."

"A watch—a watch!" snapped the colonel. "What d'ye want a watch for? Just write it down on a bit of paper."

Taxicab Driver Senses Danger.

A London taxicab driver, rejected for the army on account of defective eyesight, was re-examined recently, the London Globe says.

"How do you manage to drive your cab at night?" the officer asked.

"It's like this," he replied. "If we hear a smash we know we have hit something, and if we don't we know it's all right."

He was remanded to Scotland Yard for further examination.

Naturally So.

"What is the principal use of repeating rifles?"

"To make every shot tell."

JAMES J. HILL PASSES AWAY AT HIS HOME

DEATH CAUSED BY SPREADING OF INFECTION FROM WHAT WAS CONSIDERED AT FIRST A MINOR INTESTINAL TROUBLE

NOTABLE CAREER ENDED AFTER BRIEF ILLNESS

Leading Financial Figure of Northwest Despite His Advanced Age, Made Marvelous Fight For Life—Made Big Fortune By His Own Efforts.

St. Paul, May 30.—James J. Hill died at his home in St. Paul, after an illness of less than two weeks. Only within the 48 hours preceding his death was his condition admitted to be critical.

Death was caused by the spreading of an infection from what was considered at first a minor intestinal trouble. An operation performed by the Mayo Brothers, of Rochester, to stay the progress of this infection, failed of its object.

Mr. Hill was first confined to his home May 17. Attending physicians pronounced his trouble "a slight indisposition." Members of the family gave out reassuring statements as to Mr. Hill's condition and were inclined to minimize his illness.

Considered Minor Operation.

Saturday the Doctors Mayo were brought to the Hill residence to perform what is usually a minor operation. The operation apparently was successful and Mr. Hill's recovery was predicted by members of the family. Late Saturday evening signs of spreading infection were noticed and from that time dated the decline that ended in Mr. Hill's death.

Mr. Hill, despite his advanced age, made a marvelous fight for life. His apparent vitality was the wonder of attending surgeons and physicians.

Children Sent For.

When the gravity of Mr. Hill's condition was recognized all of his children not already in St. Paul were sent for. Mrs. A. N. Beard, New York City, arrived Monday, as did also James N. Hill, New York City, Mr. Hill's oldest son, all of whom started for the fathers' bedside immediately on receipt of the foreboding messages.

Mr. and Mrs. Walter Hill arrived at St. Paul on a special train from Hallock, Minn.

Suffered Relapse.

Mr. Hill suffered a pronounced relapse about noon Sunday, which condition continued until about 2 p. m. At that time he rallied in a marked manner, the rally proving a surprise to the attending physicians.

The improved condition was noticeable until about 6 p. m. when Mr. Hill again appeared to lose strength and his decline was reported to have been gradual and slow, but decidedly noticeable after that time. Doctor J. S. Gilfillan and Herman M. Biggs remained at Mr. Hill's bedside throughtout the night.

Wonderful Vitality.

Mr. Hill was reported to be suffering severe pain during his conscious hours, but the manner in which he bore up under this pain, and the fact that his afternoon rally, were declared to be indicative of the wonderful vitality of the stricken railroad builder. This vitality was the marvel of attending physicians and surgeons since Mr. Hill first became ill May 17.

Refused to Leave Husband.

Mrs. Hill was at her husband's bedside continually ever since he became ill and refused to leave the room. Only attending physicians and the immediate members of the Hill family were permitted in Mr. Hill's bedroom Sunday, and for a considerable portion of Sunday the members of the family were at the home of Louis W. Hill.

HILL ESTATE $100,000,000

Great Wealth Estimated at Beginning of European War.

St. Paul, May 31.—James J. Hill's wealth is estimated all the way from $100,000,000 to $300,000,000. It probably is nearer the former figure than the latter.

The best estimate of Mr. Hill's wealth was had when the European war broke out in July, 1914.

At that time Mr. Hill called bankers together from the First National bank and Northwestern Trust company.

He assembled a mass of his securities.

More than $100,000,000 was said to be in the boxes that Mr. Hill laid before the bankers.

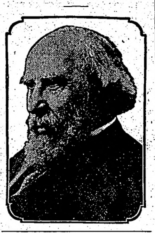
"There should be no trouble," said Mr. Hill, "but if there is this amount is at your disposal."

The great power held by Mr. Hill will pass to L. W. Hill, who has been closely associated with him in business for ten years.

Flags Placed at Half Mast.

St. Paul, May 31.—The loss to the state of Minnesota in the passing of James J. Hill was reflected in the expressions of state officials made upon the announcement of his death. Governor Burnquist was perceptibly affected by the announcement, his first comment being, "a great man has gone," and others spoke in the same vein. At the announcement of the death of Mr. Hill, Governor Burnquist ordered the flags at the Capitol placed at half staff, to remain so until the funeral

THE LATE JAMES J. HILL.



Important Dates in Hill's Career

Born, Guelph, Ontario, September 16, 1838.

Parentage, Scotch-Irish.

Father, James Hill, early settler in the Canadian farming district.

Mother, Ann Dunbar Hill.

Attended school at Rockwood academy, a Quaker school, from his seventh to fifteenth year.

Gave up plans for studying medicine when his father died in 1853.

Came to St. Paul, 1856.

Entered employ of J. W. Bass & Co., agents for the Dubuque & St. Paul Packet company, 1856.

Became agent of the Northwestern Packet company, 1865.

Engaged in general fuel and transporation business for himself, 1866.

Married Miss Mary Theresa Mehagan, 1867.

Became station agent for the St. Paul & Pacific railroad, 1867.

Formed fuel and warehouse firm of Hill, Griggs & Co., 1869.

Organized Red River transportation company, 1870.

Formed North Western Fuel company, with E. N. Saunders, C. W. Griggs and William Rhodes, 1875.

Began career as railroad owner and builder by purchasing the St. Paul & Pacific railroad with George Stephen, Donald A. Smith and Norman W. Kittson.

Organized the Great Northern Railway company, 1890; reorganized, 1896.

Purchased Northern Minnesota ore lands and organized the Lake Superior company, limited, 1900.

By a union of Great Northern and Northern Pacific interests, purchased the Burlington system and organized the Northern Securities company, 1901.

Decreased capitalization of the Northern Securities company, in accordance with court decisions, 1904.

Retired as president of Great Northern, 1907.

Consolidated First and Second National banks, 1912.

Distributed shorthorn animals among Northwestern farmers, as gifts, to stimulate live stock industry, 1912.

Announced gift of Hill Reference Library to the city, 1912.

Assisted in floating American loan for Allies, 1915.

Died May 29, 1916.

DEATH DUE TO BLOOD POISON

Hill Family Physician Tells of Empire Builder's Illness.

St. Paul, May 31.—"James J. Hill died of blood poisoning," said Dr. J. S. Gilfillan, Hill family physician, shortly after the news of the empire builder's death had been announced.

Dr. Gilfillan gave the first authoritative account of the illness which was fatal to the empire builder.

"Mr. Hill had suffered for a number of years from intestinal catarrh and hemorrhoids," said Dr. Gilfillan, who has been the Hill family physician for the past five years.

Hill's Last Public Bequests.

St. Paul, May 31.—Mr. Hill's last public bequests were gifts for the advancement of education in which he was deeply interested throughout the latter years of his life. One of his most important donations was a $50,000 gift to the College of Puget Sound at Tacoma, Wash., made shortly before the beginning of his last illness. Another bequest of $25,000 was promised Marquette university at Milwaukee at the same time.

No Death Mask of Hill.

St. Paul, May 31.—Tribute to James J. Hill in the erection of a monument will be hampered by lack of an accurate model of his features. Louis W. Hill, successor to the empire builder's manifold interests, has finally refused a request for a death mask.

Hill Stocks Remain Steady.

New York, May 31.—When the news of the death of James J. Hill reached Wall Street, there were expressions of regret from those who had known the man who for two generations was a big factor in American railroading and finance, but trading went on as usual, with no break in prices. Great Northern, Northern Pacific and Great Northern Ore, the three Hill stocks traded in on the stock exchange, sold fractionally lower, but so did other railroad stocks.

THOUSANDS PAY LAST RESPECTS TO JAMES J. HILL

NEARLY HUNDRED AUTOMOBILES IN CORTEGE WHICH MAKES ITS WAY TO GRAVE AT NORTH OAKS.

SIMPLE CEREMONIES AT TOMB BY PLEASANT LAKE

Every Wheel of Three Transcontinental Railroads Stand Still for Five Minutes—St. Paul Suspends Business During Afternoon—Nation Shows Respect.

St. Paul, June 2.—As the first of the raindrops of the afternoon began to patter against a canvas which has been stretched to protect the mourners at the grave, the body of James J. Hill was lowered into its temporary resting place on the banks of Pleasant lake, on the Hill country estate, six miles from St. Paul.

The simple ceremonies at the grave—simple because Mr. Hill in life had made request that his burial be an unostentatious one—were in marked contrast to the extraordinary demonstration all St. Paul and a considerable portion of the nation extended in tribute.

Traffic Stops Five Minutes.

Every wheel of three transcontinental railroads stood still from two o'clock until five minutes past the hour. St. Paul suspended business for the afternoon almost in toto. The propellers of ocean steamships far out on the Pacific came to a standstill.

The flag on the New York Herald building dropped to half mast. The Portland, Ore., Chamber of Commerce ceased business to listen to a tribute to Mr. Hill voiced by Emery Olmstead, a director. On the New York stock exchange not a member offered to buy or sell a single share of stock in railroads in which Mr. Hill had been interested.

Nation Pays Respect.

In the Seattle Chamber of Commerce "America" was sung by the members as the clock pointed to the hour for services at the house.

These are mentioned as but a few of the ways in which a considerable portion of the nation found expression of the admiration and respect felt for the man accorded for his works the name—Empire Builder.

The massive Hill mansion at 240 Summit avenue could not begin to hold those who wished to gain entrance to pay their last respects.

Thousands View Casket.

Prominent financiers from the East, railroad presidents and vice presidents, bank presidents and vice presidents, clerks, section hands, news agents, colored porters grown old and feeble in the service, wives of financiers, wives of railroad presidents, wives of section hands, wives of colored porters—all wished to add their own keenly felt little tribute.

But a fraction of the throng gained admittance to the house. Another fraction felt fortunate to gain a place inside the yard. Outside the great spiked fence, thousands stood and pressed their faces against the iron bars for a glimpse of the casket which was to come through the great oak doors.

Hundred Autos in Cortege.

Inside, the Very Rev. Thomas J. Gibbons, vicar general of the diocese of St. Paul, recited the short ritual of the Catholic church. He added, too, his personal tribute to the achievements of the man at whose funeral he was officiating.

There were nearly 100 automobiles in the cortege which made its way out Summit avenue to Rice street and thence to the Hill country home, called by its late owner and master, North Oaks.

HILL PROPERTY MAY BE HANDLED AS TRUST FUND

Whether or Not Empire Builder Left a Will Cannot Be Definitely Learned.

St. Paul, June 2.—James J. Hill, before his death, made a complete disposition of his property, and L. W. Hill, his son, will succeed to the management of the various Hill interests, it was reliably stated here.

Whether or not Mr. Hill left a will or converted his property into a trust could not be definitely ascertained but it was reported that shortly before his death he put all his affairs in the hands of the Northwestern Trust company.

It is expected that probate papers will be filed shortly.

Montana Yeggmen Adopt New Plan.

Billings, June 1.—Montana yeggmen have adopted a new plan for postoffice robberies. Masked and heavily armed, two men, one tall and one short, entered the postoffice at Armells, and compelled Postmaster Mathews to deliver the cash on hand, amounting to $125. No clue to their identity has been found. The Bank of Buffalo, nearby, was entered the same night, but evidently the robbers were scared away before they could blow the safe. Sixty dollars was taken from a cash drawer, however.

ROOSEVELT WILL NOT BE NOMINATED BY G. O. P., BELIEF

MANY OF COLONEL'S CLOSEST FRIENDS HOLD THIS VIEW, BUT ARE NOT GIVING UP THE FIGHT.

LEADERS THINK HUGHES ABLE TO BRING HARMONY

Speculation Rife as to What Old Guard Will Do If It Succeeds in Defeating Colonel for Nomination—Rank and File Anxious to Draw Bull Moose Back.

Chicago, June 6. — Theodore Roosevelt, Jr., arrived in Chicago with William Loeb, Jr., and mingled with the pre-convention crowds in hotel lobbies. He will attend the convention as the guest of J. Ogden Armour.

"I do not know what the convention is going to do," said Roosevelt to friends. "But sentiment of the country wherever polls have been taken seem to be for father."

Chicago, June 6.—For some unknown reason, for which no explanation is offered, there is a growing conviction among Republican and Progressive leaders assembled here for the national convention that Colonel Roosevelt will not be nominated by the older party. Among those who hold to this view are many numbered among the colonel's closest friends, who nevertheless are not giving up the fight.

See Harmony in Hughes.

The leaders who take this view of the situation seem to think that Justice Hughes is the man who could bring the Republican and Progressive parties together and present a solid front to the Democratic opposition, even though they are not convinced that the justice will win the nomination.

The situation which this condition presents is unprecedented. None of the leaders on the ground professes to have any idea of what will happen.

It seemed certain that Colonel Roosevelt could have the Progressive nomination at once if he would say the word and still leave the way open to withdraw his candidacy if the Republican convention nominated a man whom he was willing to support.

Plans of Old Guard.

One faction among the Progressives favors nominating Colonel Roosevelt on the first day of the convention and then await the action of the Republicans. Another faction would prefer to make no nomination until it was known what the Republicans purposed to do.

"On every hand there was speculation as to what the old guard will do if it succeeds in defeating Colonel Roosevelt for the nomination; whether they would go the whole distance and nominate a man of their number such as Root, Fairbanks, Weeks or Burton; or whether they would attempt to conciliate the Progressives by choosing a man whom the latter might support. The name of Justice Hughes is the only one that has been brought forward so far as having such possibilities.

All Factions Want Unity.

Among the rank and file of the Republicans there are indications of a genuine effort to draw the Progressives back into the old party. One of these evidences is the lack of harsh criticism and bellicose demonstrations which characterized the convention period of 1912. Apparently all factions learned a lesson from the disastrous consequences following the split four years ago and as a result nothing is heard in the nature of bragadoccio or defiance.

CONGRESS JUST MARKS TIME

Scores of Members of Both Houses Go to Conventions.

Washington, June 6. — Under an agreement reached by party leaders to permit senators and representatives to attend the national political convenness will be considered.

The Senate will not meet until Thursday and then only to recess again. While the House will continue its daily sessions, only routine busitions, Congress will do little but mark time this week and next.

Scores of members of both houses already have left for Chicago and many more will go to St. Louis later in the week.

Italy Advances Time.

Rome, via Paris, June 5. — Legal time was advanced one hour throughout Italy beginning at midnight.

One Death Results From Strike.

San Francisco, June 5.—One casualty has resulted from the strike of the Pacific Coast Longshoremen. T. C. Hughes of Los Angeles, a workman employed on the Milwaukee pier in Seattle, was shot and probably fatally wounded shortly after midnight when a group of armed strike sympathizers made a concerted attack on a warehouse in which several employees were sleeping. Another workman was clubbed. In Portland several fistfights occurred between strikers and nonunion workmen.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

A Respite.

"Are you looking forward to the summer with pleasant anticipation?" asked the optimistic citizen.

"Yes, indeed," replied the pessimistic person. "A great many people I'm tired of looking at will go out of town for the summer."

For sprains make a thorough application of Hanford's Balsam, well rubbed in. Adv.

It's Valuable Now.

When William Jessup, who formerly operated a woolen mill in Princeton, died 20 years ago, he left among his effects a large keg of Russian red dyestuff. Each housecleaning time his son in-law and daughter, Mr. and Mrs. Charles F. Woods, had to shift it around. Woods had tried to sell it to wholesalers in vain; they didn't need it.

"What'll we do with this?" asked Mr. Woods when they cleaned house last summer.

"Pile it on the trash heap and burn it; I'm tired of looking at it," said Mrs. Woods.

Being a dutiful husband, Mr. Woods obeyed.

Now the Russian dye is said to be unobtainable at any price, and the amount that Mr. Woods burned would have netted at this time from $500 to $1,000.

The losers philosophically agreed that it's no use to cry over spilt milk" and have dispensed with any worry over "what might have been."—Indianapolis News.

In the Public Eye.

"Jibway seems quite at home in the spot light."

"Why, that man revels in publicity."

"Yes?"

"It's a wonder to me how he secludes himself long enough to take a bath."

There are more ways of deserving punishment than there are of escaping it.

There would be a lot more men in jail if they got what they deserve.

Concentrated Satisfaction

A great many former users of tea and coffee have learned that there is a pure food beverage made from wheat, which has a delightful flavor.

It never exacts of its users the tribute of sleeplessness, heart-flutter, headache and other ills often caused by the drug, caffeine, in coffee and tea.

Instant Postum

suggests the snappy flavor of mild java coffee, but is absolutely free from caffeine or any harmful ingredient. Instant Postum is in condensed, soluble form, and wonderfully convenient for the home—for the picnic—for travel—everywhere.

If tea or coffee interferes with comfort or success, as it does for many users, try a shift to Postum.

"There's a Reason"

Cats-up.

"Sarah," said her mistress during the dinner hour, "will you go down to the basement and get the catsup?"

Sarah departed, and a few minutes later the family heard a great shooing and scampering of feet. Shortly after Sarah came breathlessly into the dining room and said to her astonished mistress: "They're up, mum."

"What are up?"

"The cats, mum."—Youth's Companion.

Sold upon merit—Hanford's Balsam. Adv.

No More.

"Could you let me have a sample of the goods, please?' asked the shopper.

"Sorry, madam," said the salesman, "but we've been obliged to discontinue the giving away of samples since we discovered that some of our customers were having them made up into bathing suits."

LADIES CAN WEAR SHOES
One size smaller after using Allen's Foot-Ease, the antiseptic powder for the feet. Shaken into shoes and used in foot-bath. Allen's Foot-Ease makes tight shoes feel easy, and gives instant relief to corns and bunions. Try it today. Sold everywhere, 25c. For FREE trial package. Address, Allen S. Olmsted, Le Roy, N. Y. Adv.

The Great Objection.

"Don't you dislike the man who insists on hearing himself talk?"

"No," replied Miss Cayenne; "not unless he compels other people to listen."

Wounds on man or beast should be healed by Hanford's Balsam. Adv.

His Reason.

Moved to pity at the sight of a small boy lugging a monstrous bundle of newspapers, a man stopped and asked: "Don't all those papers make you tired?"

"Nope," the little newsie replied cheerfully. "I can't read."—Pathfinder.

FITS, EPILEPSY, FALLING SICKNESS Stopped Quickly. Fifty years of uninterrupted success of Dr. Kline's Epilepsy Medicine insures lasting results. LARGE TRIAL BOTTLE FREE. DR. KLINE COMPANY, Red Bank, N. J.—Adv.

Recommending Himself.

"Is it good form for a politician to recommend himself so highly?"

"It's a delicate question. A man naturally feels some hesitation about praising himself. Still, when he wants to see the people get a good public servant, what can he do better than recommend someone in whom he has perfect confidence?"

Cures Ivy Poisoning.
For ivy poisoning apply Hanford's Balsam. It is antiseptic and may be used to kill the poison. Prompt relief should follow the first application. Adv.

The Cynical Inventor.

A young inventor exhibited a ring to a jeweler.

"A new type of engagement ring," he said, "that I'm going to patent. It will make me a fortune."

"Humph," said the jeweler. "What is there patentable about this?"

"It's adjustable," said the inventor.

The Net Result.

"Did you raise anything on your promise to pay?"

"Oh, yes; I raised a smile."

VICTORY CLAIMED BY BRITISH IN BIG STRUGGLE AT SEA

ADMIRAL BERESFORD DECLARES BEATTY WON BRILLIANT SUCCESS IN NORTH SEA THOUGH IT WAS DEARLY BOUGHT.

GERMANS LOSE EIGHTEEN WARSHIPS, LONDON SAYS

Admiralty Statement Gives Teutons' Losses as 2 Battleships, 2 Dreadnaught Battle Cruisers, 4 Light Cruisers, 9 Torpedo Boat Destroyers and a Submarine.

London, June 5.—Between 8,000 and 10,000 lives were lost in the naval battle in the North Sea, the greatest in the world's history.

Of this loss, the British sustained 5,000. The German loss is variously estimated at between 3,000 and 5,000 lives. Two British rear admirals—Hood and Arbuthnot—went down with their ships.

It is estimated that 150 warships were engaged in this titantic struggle.

Copenhagen, via London, June 5.—A dispatch to the Stiftstidind from Ribe, Jutland, says that the German battle cruiser Seydlitz was sighted 38 miles west of the Fano, going south, pursued by British warships. She was badly damaged and had two large holes aft. Fano is a small island off the west coast of Jutland.

London, June 5.—Admiral Lord Beresford in an interview, while contending strongly for the view that there was no failure in the British strategy and that Vice Admiral Beatty won a brilliant success, though it was dearly bought, declares that the only mistake made was by the admiralty in allowing the Germans to get first in the field with the news of the battle, or as he puts it, with "impudent fabrications." Otherwise, said Lord Beresford, no fault can be found with the admiralty.

London, June 5. — The British admiralty issued a statement saying there was the strongest grounds for belief that the British navy in the battle with the Germans off Jutland last week had accounted for a total of eighteen German men of war, and that there was nothing to add to or subtract from the original announcement of the British losses.

The statement gave the German losses as two battleships, two dreadnaught battle cruisers, four light cruisers, nine torpedo boat destroyers and a submarine.

Germany's Loss Heavy.

The huge superdreadnought Hindenburg, Germany's latest fighting giant, is declared to have been sunk, while wireless dispatches from Berlin say the German admiralty admits the destruction of the dreadnought Westfalen. The German cruiser Elbing and the torpedoboat V-28 also were sunk in the battle with the British squadron, according to reports from Holland and Copenhagen.

Two Zeppelins Lost.

Of the Zeppelin fleet which assisted the Teuton sea craft, two were destroyed. Danish fishermen returning to harbor report. On one airship all members of the crew are said to have perished.

Eight German warships have taken refuge in Danish waters, according to reliable advices received here. It is said they have been ordered to leave or intern, and that the British fleet is in waiting to engage them.

British List Grows.

British losses also have been more severe than the first announcement of the engagement admitted. The cruiser Warrior, at first reported disabled, later was abandoned. To the list of torpedoboat destroyers previously announced have been added the Shark, the Nomad and the Nestor, bringing the total known British losses to three battle cruisers, three cruisers and eight destroyers, with several other small vessels still unaccounted for.

All of Ship's Crew Lost.

The British admiralty states that the battleship Marlborough was hit by a torpedo, but was safely towed to port.

The admiralty received a report to the effect that Captain Prowse, commander of the Queen Mary, and the entire personnel of that battlecruiser were lost.

TWO UNARMED BRITISH SHIPS REPORTED SUNK

London, June 5. — Dispatches to Lloyds' report the sinking of the unarmed British steamships Dewsland and Salmon Pool.

Million Lost in Pier Fire.

San Francisco, June 5.—Five thousand tons of freight from the Orient which were unloaded on the water front from the Shinyo Maru, Number 2, a Japanese freighter, and a pier recently erected by the state, were destroyed in a spectacular blaze of unknown origin. The Shinyo and the General Forbes, another freighter which were tied to the pier, were slightly damaged before they were towed out of the fire's reach. Steamship men estimated the total loss at about $800,000.

Gopher State Happenings

Important Events of Various Sections of the state reported during last few days.

AT THE STATE CAPITOL

Apportions Tax Money.

Under an apportionment made by the state tax commission of the gross earning tax paid by the Minneapolis and St. Paul Suburban Railway company, Hennepin county will receive $11,673.93; Ramsey county, $5,714.04, and Washington county, $3,338.62.

* * *

Bureau on Paying Basis.

The state game and fish department is on a profitable basis this year for the first time. This statement was made by Commissioner Carlos Avery, following submission of the public examiner's report showing that the department cost the state $22,176 last year.

* * *

"U" Cadets in Camp.

Camp life, on a strictly military basis was the rule for the week of June 1 to 8 for the University of Minnesota Cadet corps. The entire corps, practically 1,000, carrying full military equipment assembled last Thursday afternoon, and marched to Seven Corners and there entrained on street cars for the Fort Snelling barracks for a week of military life.

* * *

Big Balance in Treasury.

Minnesota's strong box holds over $2,000,000 more than it did a year ago. When State Treasurer Gooding footed up all the cash balances to the credit of the several funds he found a total of $3,366,707.05. A year ago these balances totaled $1,119,394.88. Current expenses of the state are met out of the revenue fund and one year ago this fund had a balance of only $1,950.06, while now it totals $1,950,949.90.

* * *

State Loses Fee Suit.

A foreign corporation, doing business in Minnesota cannot be compelled to pay fees on the proportion of increase of capital stock under the law, although such provision would be reasonable, according to a ruling of the supreme court just handed down in the case brought by the Tri-State Telephone company to compel Julius Schmahl, secretary of state, to accept fees on the increase in capital stock, and not to demand fees on the entire amount of capital stock employed in this state.

GOPHER STATE NOTES

Duluth. — The United States Steel corporation, Minnesota's largest single taxpayer, has just paid the first half of the 1915 tax on its St. Louis county real estate holdings by checks totaling $2,290,614.06.

Duluth. — This city's four largest hotels have been reserved for the 12th annual convention of the Minnesota State Elks' association, to be held here on June 14 and 15. In addition, about 100 rooms have been reserved at several of the smaller hotels.

Duluth. — The ore docks at the American Head of the Lakes have entered the third month of the shipping season with a lead of 2,689,286 tons over the shipping season of last year. The largest increase in shipping is shown by the Duluth, Missabe & Northern docks.

Mankato. — Omaha Passenger Train No. 4, north bound, has been derailed near Kasota. The engine and entire train left the track and tipped over after rounding a curve. The cause of the accident is not known. The passengers were shaken up, but no one was injured seriously.

Crookston. — The advance registration for the summer school at the Crookston School of Agriculture is close to 100, the largest on record, with more coming in. Polk county leads with 24, with Marshall county a close second with 20, and good delegations from Norman, Roseau, Pennington, Beltrami, Clay, Wadena, Becker, Clearwater, Kittson and Red Lake counties.

St. Paul. — The first annual meeting of the All Minnesota Development association at the State Capitol, St. Paul, June 14 and 15, is a meeting of great importance to every resident of Minnesota. This meeting will have a great deal to do with the future success of the organization. "The organization may," as the late James J. Hill said, "become either a valuable agency in promoting growth and prosperity of the state or simply one more wheel added to its already cumbrous machinery." The people of the state have it in their power to determine which of these things the association shall become.

St. Paul. — The Minnesota Old Settlers' association held its meeting in the rooms of the State Historical society as it has met on the first day of each June for more than half a century. It was perhaps the last meeting of the association, for there are now only four surviving members.

Minneapolis.—All preliminaries for the Yellowstone tour to start from the Twin Cities July 20 having been completed, the attention of the National Park Highway association is now being devoted to putting the roads in condition for the excursion. Nearly $100,000 will be expended.

FRECKLES
Now Is the Time to Get Rid of These Ugly Spots.
There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.
Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.
Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Liberal Obedience.

"Good heavens, Jane, why, when I told you we would have to practice economy at the table, have you canvas-back duck up here and chicken salad down there?"

"Why, dear, didn't you tell me I must manage to make both ends meat?"

For galls use Hanford's Balsam. Adv.

Not Worthless.

"I always thought that Jinks was leading a worthless life."

"Wasn't he?"

"No; his life was insured for a thousand."

YOU MAY LOOK YOUNG
By Keeping Your Complexion Young With Cuticura. Trial Free.
The Soap to cleanse and purify, the Ointment to soothe and heal. These super-creamy emollients do much to keep the skin clear, fresh and youthful, as well as to keep the hair in a live, healthy condition and the hands soft and white.
Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Better Than War.

"The whole world is preparing for war," said William Jennings Bryan at a pacifist dinner.

"I know a man in Miami whose good lady suddenly went in for spiritualism. Did he declare war? No; he did not. He did better.

"Instead of declaring war, the Miami man took to accompanying his wife to all her spiritualistic seances, and at every seance he got the handsome medium to procure him messages from his first wife, who was dead—and, ah, such tender, such loving messages as they were!

"By this method the Miami man soon put an end to the spiritualitic idea in his household."

Modus Vivendi.

"How did you come out?" asked his friend. "Will she have you?"

"Her answer," replied the diplomatic attache, "is partially satisfactory. Enough so to continue negotiations. She says if she ever does marry, it will be a man of good looks, courage and ability."—Judge.

The Rule.

"You must never forget, my boy, that about one-third of all success is pure luck."

"But how can you make sure of this luck?"

"Why, by being sucessful."—Life.

Personally Considerate.

Kitty—Reggy Soft is continually patting himself on the back, isn't he?

Peggy—Yes; the dear boy is so kind to dumb animals.

Courtship after marriage is more important than it was before.

No Longer Play.

Reformer—I hope you are not playing politics?

Politician—There's no such thing as playing politics. Politics these days is work.

Not a Rare Cook.

Husband—That new cook seems to be awfully extravagant.

Wife—Why do you think so?

Husband—She evidently thinks we have victuals to burn.

What is Castoria
CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The children's Panacea—The Mother's Friend.
The Kind You Have Always Bought, and which has been in use for over 30 years, has born the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.
Genuine Castoria always bears the signature of Chas. H. Fletcher.

160 ACRE
FARMS IN
WESTERN
CANADA
FREE
Three Hundred Million Bushel Crop in 1915
Farmers pay for their land with one year's crop and prosperity was never so great.
Regarding Western Canada as a grain producer, a prominent business man says: "Canada's position today is sounder than ever. There is more wheat, more oats, more grain for feed, 20% more cattle than last year and more hogs. The war market in Europe needs our surplus. As for the wheat crop, it is marvelous and a monument of strength for business confidence to build upon, exceeding the most optimistic predictions."
Wheat averaged in 1915 over 25 bushels per acre
Oats averaged in 1915 over 45 bushels per acre
Barley averaged in 1915 over 40 bushels per acre
Prices are high, markets convenient, excellent land, low in price either improved or otherwise, ranging from $12 to $30 per acre. Free homestead lands are plentiful and not far from railway lines and convenient to good schools and churches. The climate is healthful.
There is no war tax on land, nor is there any conscription. For complete information as to best locations for settlement, reduced railroad rates and descriptive illustrated pamphlet, address Superintendent Immigration, Ottawa, or
R. A. GARRETT, 311 Jackson Street, St. Paul, Minn.
Canadian Government Agent

Child Logic.

Freddie wanted his pie first, and being the youngest of a family of five he got it. "You eat backwards," was his mother's comment as she placed it before him.

The young philosopher fell into a brown study, from which he was only aroused by the sight of more pie, now brought in for the elders.

"Mother," he said, "what's backwards? If I put my shoe on wrong, is that backwards?"

"Yes."

"If I sit this way"—and he deliberately turned his back to the table—"is that backwards?"

"Yes."

"Well, I wasn't sitting like that when I ate my pie."

Reasonable Aspiration.

"I suppose you have high ambitions for your boy?"

"Well, I wouldn't say that exactly; but I do hope that he won't turn out to be the male assistant to a female dancing teacher."

Slender Girl.

George—Yes, the girl I am going to set my cap for weighs ninety pounds and is as graceful as a willow.

Harold — Ah! you have slender hopes, I suppose?

The proof of the pudding is in the amount left over.

Value of Our Horses.

There are about one hundred and ninety-one million animals in the United States and they are worth, roughtly, six billion dollars. Is it any wonder that science has become interested in animals. There are approximately twenty-one million horses in the country, representing an investment of two billion, three hundred million dollars. The despised mule may not be so despised when you consider that he represents five hundred and sixty million dollars of our total wealth and that his kind numbers about four million five hundred thousand.—Popular Science Monthly.

Appearances Against Him.

"I believe in putting a good face on everything," said the philosophical man.

"Then," rejoined the sarcastic woman, "it is evident you are not a self-made man."

Strategy.

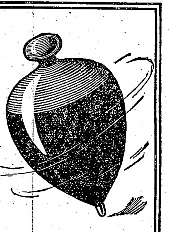
Mrs. Exe—You always have such wonderful success in getting people to come to your parties.

Mrs. Wye—Oh, I always tell the men that it's not to be a dress-up affair, and the women that it is.

Appropriate Action.

"I hear the young nobleman is spoons on Gwendolen."

"Yes; it's made quite a stir."

For a Tip-Top Breakfast
Serve
New Post Toasties


Here's the why:
The New Toasties have a delicate, true corn flavour—unmatched by any other corn flakes. Trial proves.
They are the meat of choicest white Indian Corn—first cooked and seasoned, then rolled into thin wisps and toasted by quick, intense rotary heat. This new patented process of making raises distinguishing little bubbles on each flake, and brings out their wonderful new flavour.
New Post Toasties

Your grocer has them now.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 3, 1905, at the post office at Sunbeam, Minn. under the Act of Congress of March 3, 1879.

OLE IS ALSO JEALOUS

And now comes Ole Sageng, the politician from Ottertail County, with an indorsement of Anderson, by condemning the vote of Congressman Steenerson on Wilson's submarine policy. Ole undoubtedly is a little bit sore because his "man behind the plow" campaign failed to land him in Congressman Steenerson's place. As far as we can learn, we would also sign a statement to the effect that we believed A. G. Anderson was a good honorable man. We also believed that Kittle Halverson, whom the Farmers Alliance elected to Congress was a good honorable man, but when the Peoples Party offered to re-nominate him in 1892 he told them not to do it. as he could not do anything down there among all those lawyers, and we believe to-day, that if the people of this district, would make the fatal error of nominating and electing A. G. Anderson, that he would be as honest as Kittle Halverson was, and inform the people two years hence to not nominate him, as they would not recognize him in Washington. and that he preferred to stay behind his bank counter, where the farmers would take off their hats when they wanted to borrow money.

While we have always stood as opposed to county option, yet Congressman Steenerson made speeches in favor of it last summer, when the fight was on, but we consider county option as a secondary matter, when it comes to electing a Congressman from the Ninth District of Minnesota to represent us in Washington. Now my friends who with us are opposed to county option, do not let us bite off our nose to spite our face, by electing a new member to take the place of Steenerson at this time, when there are so many questions of vital interest to this District now before Congress. The record of the votes of course is that the optionists have got the majority in Pennington, Polk, Marshall, Ottertail, Becker, Clay, Norman and Roseau counties, while the anti's have Red Lake. But do not let us let them have the credit of doing all the voting for the re-election of Steenerson, but let us show that we are liberal enough to consider the best interests of the 9th district of Minnesota, by voting for the re-nomination of Congressman Steenerson.

As we have said before we are always in favor of maintaining a county official in office, as long as he renders satisfactory and honorable service to the people. There is not a better qualified man in northern Minnesota for the position of Clerk of District Court, than Pennington county has in H. E. Ives. Now if any farmer or business man can give any valid reason for firing him out, because another man wants the job, let us hear from you.

Samuel G. Iverson has shown himself to be the friend of northern Minnesota, by his actions, which speak louder than words; and northern Minnesota can at all times be sure of getting a square deal from the governor's office, if Sam sits in that chair.

The farmers of eastern Pennington county should be sure to turn out to election June 19th, and cast a solid vote for the renomination of Steenerson, if they expect to get the Red Lake river improved by the government.

Julius A. Schmahl as Secretary of State has made one of the best and most reliable officials that the state has had, and there is no reason why the people should make a change at this time, because another man wants the job.

We wonder if the banker from Fergus Falls is of the opinion, that the people of the 9th Congressional District are such suckers as to swallow his Knute Nelson indorsement done, to the effect, that Mr. Nelson, was opposed to Steenerson, for what they call his non-American vote, on the submarine issue, when the very next week he is out indorsing Congressman Miller of Duluth for re-election who voted exactly the way Steenerson did. No, Uncle Knute, the people of the 9th district are not asking you to name the banker congressman for them, as you will discover on June 19th.

DOES SLOAN'S LINIMENT HELP RHEUMATISM?

Ask the man who uses it, he knows. "To think I suffered all these years when one 25 cent bottle of Sloan's Liniment cured me," writes one grateful user. If you have Rheumatism or suffer from Neuralgia, Backache, Soreness and Stiffness, don't put off getting a bottle of Sloan's. It will give you such welcome relief. It warms and soothes the sore, stiff painful places and you feel so much better. Buy it at any Drug Store, only 25 cents.—Adv.

WILL MY CHILD TAKE DR. KING'S NEW DISCOVERY?

This best answer is Dr. King's New Discovery itself. Its a pleasant sweet syrup, easy to take. It contains the medicines which years of experience have proven best for Coughs and Colds. Those who have used Dr. King's New Discovery longest are its best friends. Besides every bottle is guaranteed. If you don't get satisfaction you get your money back. Buy a bottle, use as directed. Keep what is left for Cough and Cold insurance.—Adv.

WELL CHILDREN ARE ACTIVE.

If your child is dull, pale, fretful and wants to lie around, the chances are it is suffering from worms. Kickapoo Worm Killer, a pleasant candy confection, liked by all children is what your child needs. You only give one-half to one lozenge at a time and you get immediate results. Every mother should have a box on hand. 25c. at all druggists.—Adv.

Political Announcements.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby announce myself as a candidate for re-election to the office of Clerk of the District Court for Pennington County. I wish to announce at this time to pledge to the voters of Pennington County that if I am nominated and elected, I will give the office my undivided attention, and will serve the public to the best of my ability in a strictly impartial manner. In the accounting department as a member of the Board of Audit, in the Naturalization department, in fact in all of the different duties of the Clerk, I feel better prepared and able to give more efficient service than in the past.

Thanking the voters for past favors, and hoping for your continued support if you deem me worthy, I remain

Respectfully Yours,
HARRY E. IVES.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby announce my candidacy for the nomination for the office of Clerk of the District Court at the Non-Partisan Primary on June 19th, 1916.

I feel that if I should be nominated and elected to this office, I will be able to fill it in a satisfactory manner.

I solicit your votes and support.

Respectfully yours,
W. H. Quist.

FOR RAILROAD AND WAREHOUSE COMMISSIONER.

I am a candidate for the Republican nomination to the office of Railroad and Warehouse Commissioner. I am a resident of Moorhead, Clay county, Minn. I was appointed to that office by Governor Knute Nelson and have been on the Commission, except for the year 1900, ever since.

The duties of the Railroad and Warehouse Commission have steadily increased since I have been Commissioner. Originally confined to the regulation of the railroads and grain interests, there has been added from time to time, jurisdiction over express companies, weights and measures, commission merchants of grain and agricultural products, and the last legislature placed storage warehousemen, and telephone companies under the Commission.

I have drawn many of the laws under which the Commission acts and have made a constant study of the subject of public service regulation. Knowledge of the subjects with which the Commission has to deal is necessary to the proper discharge of the public duties and is so recognized by every one that has given the subject attention.

During the last four years the Commission has passed upon 3500 complaints, involving the different subjects under its jurisdiction. Nothing of any great importance is disposed of without discussion by all members of the Commission, and nearly all of the adjustments of these questions have been entirely satisfactory to complainants and the general public.

The Commission secured, after protracted litigation, the establishment of the Legislative and Commissioners' freight and passenger rates, and since the decision of the United States Supreme Court holding those rates not confiscatory, the Commission has secured refunds from the different carriers to the shippers of $3,000,000.

The Commission, with other Western State Commissions, appeared on behalf of Western States before the Interstate Commerce Commission, to oppose the advance asked by the carriers in western freight rates, aided by appropriations by several State Legislatures, of which Minnesota contributed $15,000,00. Such a thorough examination was made of the carriers' books and evidence so convincing was presented that the Interstate Commerce Commission refused any advance on grain, grain products, live stock, etc. It is estimated that this action saved the Western shippers at least $10,000,000 per year.

On my record as a Commissioner and my knowledge acquired by the study of the subjects constantly coming before the Commission I ask the support of the voters at the June primaries. Thanking you for favors granted me in the past and promising if re-elected to continue to devote my whole time to the work of the office.

Ira B. Mills.

For Representative.

I hereby announce myself as a candidate for Representative of the 65th District.

YOUR VOTE AND SUPPORT SOLICITED.

JOHN A. DUFFY.

THE SUNBEAM.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JUNE 16, 1916. NO. 14

THE LOCAL NEWS

Thief River Falls are to have a big celebration on July 4th.

Be sure to turn out to the Primary Election next Monday.

Vote for Ira B. Mills for Railroad and Warehouse Commissioner.

M. E. Hyland is at the Warren hospital this week, consulting a physician.

By the time seeding is finished this year, we will be able to start harvest.

The Highlanding merchants are badly rushed with business on creamery days.

The Highlanding Primary election is to be held in District No. 50 the northeast school house.

Road overseer John Nelson was looking over road work that has been done on this side of the river Wednesday.

Herbert Causin of Thief River Falls visited with his parents, Mr. and Mrs. Wm. Causin, on last Sunday.

Tobias Olson and son have been grubbing out the road line between ditch 47 and 53, and a new road grade will soon be put in there.

There was a fair sized crowd at the dance at Myrum's place, in the town of Mayfield, last Saturday, and all present, reported a good time.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

There was ~~not many~~ farmers from up this way that attended the picnic in Smiley township Wednesday, as they are all still busy seeding.

A new cream route is to be established north of Highlanding to gather the cream that is now being shipped to the Kratka creamery.

Oklahoma is suffering from drouth. We would be pleased if the weather clerk would turn about and dump some of Northern Minnesotas surplus water down there.

A petition was started yesterday to raise funds by private subscription to repair the approaches to the Highlanding ferry, and that ferry will be fixed in a passable condition next week.

The ladies aid society of the town of Mayfield will hold their annual auction sale, at the residence of Ole Hegland, on section 2, town of Mayfield, on Tuesday June 20th, starting at 11 o'clock A. M. Free lunch served at noon. All are invited to attend.

The bait being offered by the Mr. Brown to get the farmers' cream for the Kratka creamery, away from the Highlanding creamery seems to be swallowed by quite a number of farmers, who will get "Stephened" some day, the way John Nelson did, when Stephen was to remit him money due him, he had him charged up with a pair of shoes that he never got to help balance the account.

NOTICE TO VOTERS

As the Primary Election is to be held in District No. 50, some three miles from Highlanding, arrangements have been made, so that Karl Korstad will leave Highlanding, with his auto, at at one o'clock, with the first load of voters. Turn out and vote, and have a free ride to election. Auto will make as many trips as necessary during the afternoon, to accommodate voters from the south side of the river.

HUGHES FOR PRESIDENT.

The Republican Party have undoubtedly placed the strongest man that they have in nomination to make the race against Wilson, and we believe that when the few little sore spots are healed, that always follow a convention, without regard to who is nominated, that he will have the solid support of the party for his election in November. Colonel Roosevelt was a shrewd enough politician to understand that the masses of the Republican voters were not in favor of any side shows this year, and would not accept a nomination from the Progressive party to split up the ticket. The Democrats are weeping in sack cloth and ashes because their expected party division in the Republican party failed to materialize, as that was their only hope of retaining Wilson in office for another term There will be no divided party this year, by the masses of the Republican voters who will mount that G. O. P. elephant. and ride him to victory in November.

EDWARD D. RYDEEN
Clearbrook, Minnesota

CANDIDATE FOR
REPRESENTATIVE

The farmers' of Clearwater County candidate.

A BIG CELEBRATION

There will be a big 4th of July celebration three quarters of a mile east and one half mile south of Highlanding, on the Beaudry place. There will be a large bowery 38x60 for dancing. The program will be published later.

Notice For Publication.

First Pub in The Sunbeam June 16 1916.

Department of the Interior. U. S. Land Office at Crookston Minn. June 13, 1914

Notice is hereby given that Marshall Shedd, of Sunbeam, Minn., who on July 19th, 1912, made Homestead Application Serial No. 08293, for Lot 4, Section 31, Township 153 N. Range 40 W. 5th. Principal Meridian has filed notice of intention to make Three Year proof to establish claim to the land above described, before Wilhelm Michelet, U. S. Commissioner for District of Minnesota, at Thief River Falls. Minn., on the 20th day of July 1916.

Claimant names as witnesses:

Ole Overvold, of Rhoda, Minn. Elling Klemetson, of Highlanding, Minn. William Cousin, of Kratka, Minn. William Wilde, of Sunbeam, Minn.

Proof made under Act June 6, 1912.

Peter M. Ringdal,
Register.

From latest accounts Steenerson will receive the nomination for Congressman, from this District by an overwhelmingly majority. Get onto the band wagon, by casting your vote for him.

Karl Korstad brought in the first load of cream from the Kratka route to the Highlanding creamery yesterday, and as soon as the ferry is made passable at Highlanding next week, we will attend to getting a route for cream from the south side so people will not have to deal with Skinner Sakum & Co.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

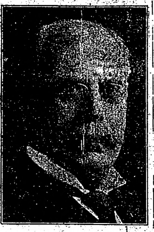
WHAT MAKES A CONGRESSMAN USEFUL?



"A man must learn to be a Representative just as he must learn to be a blacksmith, a carpenter, a farmer, an engineer, a lawyer or a doctor.

"A poet is born, not made," says Horace, but congressmen—that are useful and influential congressmen—are made largely by experience and practice."

The above is from an address recently delivered by Hon. Champ Clark, speaker of the House of Representatives, before the Washington Press Club.

Hon. Halvor Steenerson has represented this district during the past 14 years and has gained a position of influence and prominence in Washington. With each succeeding session his standing has been advanced until he is now generally recognized as the big, dependable man on the Minnesota delegation.

Will an untried and inexperienced man be in a better position to serve this constituency? No one for one moment believes that he will. Granted Mr. Steenerson's abilities and opportunities, he would still have to serve a similiar length of time before he could possibly arrive at the station in which we now find Mr. Steenerson.

Can you afford this?

Vote for HALVOR STEENERSON For Congress

He has made GOOD.

CITATION FOR HEARING ON PETITION FOR ADMINISTRATION.

ESTATE OF HERMAN V. LARSON

STATE OF MINNESOTA, COUNTY OF PENNINGTON IN PROBATE COURT.

In the Matter of the Estate of Herman V. Larson Decedent:

THE STATE OF MINNESOTA To Mabel Viola Larson, Elmer Victor Larson and all persons interested in the granting of administration of the estate of said decedent:

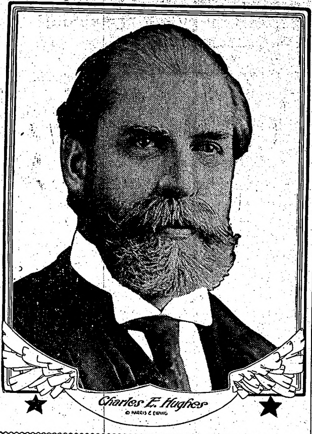
The petition of Mabel Viola Larson having been filed in this Court, representing that Herman V. Larson, then a resident of the County of Pennington State of Minnesota, died intestate on the 18th day of May 1916, and praying that letters of administration of his estate be granted to Andrew P. Olson and the Court having fixed the time and place for hearing said petition;

THEREFORE, YOU, AND EACH OF YOU, are hereby cited and required to show cause, if any you have, before this Court at the Probate Court Rooms in the Court House, in the City of Thief River Falls in the County of Pennington State of Minnesota, on the 1st day of July 1916, at 10 o'clock A. M., why said petition should not be granted.

WITNESS, the Judge of said Court, and the Seal of the said Court, this 3d day of June 1916.

[Court Seal] Wilhelm Michelet
Probate Judge.

Hans O. Kjomme
Attorney for Petitioner.



Charles E. Hughes

HUGHES NAMED AS LEADER BY REPUBLICANS

Associate Justice Made the Unanimous Choice of the G. O. P. Convention.

FAIRBANKS IS RUNNING MATE

Roosevelt's Suggestion of Lodge as Compromise Candidate Is Ignored by Republicans — Progressives Choose Former President as Their Candidate With John M. Parker for Second Place.

Republican Ticket:

CHARLES EVANS HUGHES, for president.

CHARLES WARREN FAIRBANKS, for vice president.

Progressive Ticket:

THEODORE ROOSEVELT, for president.

JOHN M. PARKER, for vice president.

Chicago.—Charles Evans Hughes, associate justice of the United States Supreme court, is the nominee of the Republican party for president of the United States, and Charles Warren Fairbanks, vice president during the Roosevelt administration, is his running mate.

The nomination of Mr. Hughes came on the third ballot of the 1916 convention.

The vote was overwhelmingly Hughes from the moment the first state—Alabama—was called upon. He was given 949½; Roosevelt, 18½; DuPont, 5; Weeks, 3; Lodge, 7, and La Follette, 3.

The nomination of Hughes came after the Republicans had turned down the proposal of Col. Theodore Roosevelt that United States Senator Henry Cabot Lodge be named as a compromise candidate.

It preceded by a few minutes the the nomination of Roosevelt by the Progressive party national convention in the Auditorium theater.

John M. Parker of Louisiana was named by the Progressives as their candidate for vice president.

By the time New Jersey was called on the roll of states, Hughes had polled a majority of the votes of the convention.

The nomination of the New York man was the signal for a wild outburst in the Coliseum—the scene of many wild outbursts in the last few days.

Choice Made Unanimous.

Chairman Harding announced the nomination of Hughes, and Alex. P. Moore of Pittsburgh and Senator Lodge, who voted for Theodore Roosevelt, moved to make it unanimous.

The nomination was made unanimous with a roaring chorus of "Ayes" and not a single "No."

Senator Lodge made an eloquent appeal for Hughes in seconding the motion for unanimity.

New Mexico nominated Fairbanks for vice president. Governor Willis of Ohio seconded Fairbanks.

Nebraska was the next state to respond and H. H. Baldridge nominated former Senator Burkett.

Charles Warren Fairbanks of Indiana was nominated on the first ballot as the vice presidential candidate of the Republican party.

The fact that Roosevelt had been nominated by the rival convention, in no wise dampened the ardor or the enthusiasm of the Republican delegates.

As soon as the presidential nomination was out of the way, conferences were begun to fix upon the running mate of the Supreme court justice.

Roosevelt Offers Lodge.

The Roosevelt proposal to select his friend, Henry Cabot Lodge, as a compromise candidate was never taken seriously by the Republicans.

Lodge's name was not even formally placed in nomination before the Republican convention.

The report of the "peace" conference committees showing that the Progressive "peace committee" had agreed to put the name of Hughes before that convention hardly caused a stir, nor did the news that came a few minutes later that the report had been tabled by the Progressives.

Meanwhile Hughes was in the air, on every tongue. Delegates were impatient to get to balloting. The feeling was everywhere that the third ballot of the convention for president would be the last—and it was.

Harding Is Chairman.

The Republican convention opened at the Coliseum at 11 a. m., June 7. Senator Warren G. Harding of Ohio was elected temporary chairman, and he delivered a speech setting forth conservative Republican principles. Following this the regular committees were appointed and organized and routine convention business went forward. There was only moderate expression of enthusiasm at any time.

With the hope of agreeing an a presidential candidate whom both parties might support, the Progressives, in convention at the Auditorium, and the Republicans appointed a joint conference committee Thursday, and this committee met at the Chicago club. Shortly after midnight it was announced that no progress had been made toward fusion of the two parties.

The Republican members of this committee were Senator Reed Smoot of Utah, W. Murray Crane, ex-senator from Massachusetts; Senator William E. Borah of Idaho, Nicholas Murray Butler of New York, president of Columbia university; A. R. Johnson of Ohio, a former congressman. The Progressive members were Gov. Hiram Johnson of California, Horace S. Wilkinson of New York, Charles J. Bonaparte of Maryland, former attorney general, John M. Parker of Louisiana, George W. Perkins of New York.

Nominating speeches began in the Republican convention about three o'clock Friday afternoon, and nominations were closed before eight o'clock. Balloting began at once. Two ballots were taken before adjournment for the night.

Progressives in Session.

The Progressive convention opened at exactly the same time the Republicans started their meeting. Temporary Chairman Raymond Robins delivered the Progressive policy speech. Routine business followed—but it wasn't routine in the same way as the Republican session was. The Progressives, with such men as William Allen White, Victor Murdock and Hiram Johnson, were loudly enthusiastic. This convention was really an explosive affair—cheers, table pounding, radical talk and all that.

It is said that George W. Perkins and some others of the Progressive group had a hard time keeping the radical element from nominating Colonel Roosevelt shortly after the show started. The conservatives lived in the hope of a fusion with the Republicans. The radicals said they didn't care what the Republicans did. They wanted "Teddy," and they wanted him quick. There was no dickering spirit in these fellows.

Most of the entertainment during the week was furnished by favorite sons delegations and boomlets around the hotel lobbies and on the streets. Fairbanks, Burton, Weeks, Root, Sherman, La Follette, Cummins and one or two others were advertised by noisy supporters. Roosevelt men—Progressives and progressive Republicans—were at it early and late. They probably made the greatest racket. Mr. Hughes was unrepresented by merrymakers.

Career of Justice Hughes.

Charles Evans Hughes' fame rests principally on his conduct of the insurance investigation and his career as governor of New York state.

An iron will, incorruptible character and remarkable reasoning ability are characteristics commonly attributed to him.

Mr. Hughes was born at Glens Falls, N. Y., April 11, 1862, the son of a Welshman who had come to this country in 1855.

He graduated from Brown university in 1881.

In 1882 he entered Columbia Law school, New York city. He was graduated two years later at the head of his class and became a member of the New York bar.

In 1888 he entered the law firm of Carter, Hughes & Cravath, and about the same time married Miss Antoinette Carter, daughter of Walter S. Carter, senior member of the firm.

Charles Warren Fairbanks.

First Attracts Attention.

He first attracted newspaper attention in 1905, when he became counsel for the Stephens gas investigating committee. Mr. Hughes uncovered the ramifications of the gas and electric light monopoly of the metropolis and later assisted in framing several legislative bills to bring relief to bad conditions he had discovered.

In the same year started the famous life insurance investigation.

When asked to take up the work of counsel to the investigating committee Mr. Hughes declined, except on condition that he be given free rein and allowed to handle the probe thoroughly.

The investigation lasted four months and resulted in a revolution in insurance methods.

In the autumn of 1906 Mr. Hughes was elected governor of New York state by the Republicans. In 1910 President Taft appointed Mr. Hughes an associate justice of the Supreme court, and he took office on October 1 of that year.

HUGHES ACCEPTS AND RESIGNS OFFICE

Washington, June 10.—Justice Charles Evans Hughes accepted the Republican nomination for the presidency, and resigned from the Supreme court of the United States. He issued the following statement:

"To the President:

"I hereby resign the office of associate justice of the Supreme court of the United States.

"I am, sir, respectfully yours, CHARLES E. HUGHES."

Hughes' statement of the acceptance of the Republican nomination follows:

"Hon. Warren G. Harding, Chairman Republican National Committee, Chicago, Ill.

"Mr. Chairman and Delegates: I have not desired the nomination. I have wished to remain on the bench, but in this critical period of our national history I recognize that it is your right to summon and my paramount duty to respond. You speak at a time of national exigency, transcending merely partisan consideration.

"You voice the demand of the dominant, thoroughgoing Americanism, with firm, protective, upbuilding policies essential to our peace and security; and to that call in this crisis I cannot fail to answer with the pledge of all that is in me to the service of our country. Therefore I accept the nomination.

"I stand for the firm and unflinching maintenance of all the rights of American citizens on land and sea. I neither impugn motives nor underestimate difficulties.

"But it is more regrettably true that in our foreign relations we have suffered incalculably from the weak and vacillating course which has been taken as regards Mexico—a course lamentably wrong with regard to both our rights and our duties.

"We interfered without consistency and while seeking to dictate when we were not concerned, we utterly failed to appreciate and discharge our plain duty to our citizens.

"At the outset of the administration the high responsibilities of our diplomatic intercourse with foreign nations were subordinated to a conception of partisan requirements, and we presented the world a humiliating spectacle of ineptitude.

"The latest efforts have not availed to recover the influence and prestige so unfortunately sacrificed; and brave words have been stripped of their force by indecision.

"I desire to see our diplomacy restored to its best standards, and to have these advanced; to have no sacrifices of national interests to partisan expediency; to have the first ability of the country always at its command, here and abroad, in diplomatic intercourse; to maintain firmly our rights under our laws; insisting steadfastly upon our rights as neutrals, and fully performing our international obligations; and by the clear correctness and justice of our position, and our manifest ability and disposition to sustain them, to dignify our place among the nations.

"I stand for an Americanism which knows no ulterior purpose, for a patriotism which is single and complete. Whether native or naturalized, of whatever race or creed, we have but one country, and we do not for an instant tolerate any divisions of allegiance.

"I believe in making prompt provision to assure absolutely our national security.

"I believe in preparedness, not only entirely adequate for our defense with respect to numbers and equipment in both army and navy, but, with all thoroughness to the end that in each branch of the service there may be the utmost efficiency under the most competent administrative heads.

"We are devoted to the ideal of honorable peace. We wish to promote all wise and practicable measures for the just settlement of international disputes. In view of our abiding ideals there is no danger of militarism in this country.

"We have no policy of aggressiveness; no lust for territory; no zeal for strife. It is in this spirit that we demand adequate provision for national defense and we condemn the inexcusable neglect that has been shown in this matter of first national importance.

"We must have the strength which self-respect demands, the strength of an efficient nation ready for every emergency."

I Didn't Think It of Her.

Mother—Gladys, you stood on the porch quite a while with that young man last night.

Gladys—Why, mother, I only stood there for a second.

Mother—But I'm sure I heard the third and the fourth.

TORTURING SKIN TROUBLES

That Itch, Burn and Disfigure Healed by Cuticura. Trial Free.

Bathe with plenty of Cuticura Soap and hot water to cleanse and purify. Dry lightly and apply Cuticura Ointment to soothe and heal. This stops itching instantly, clears away pimples, removes dandruff and scalp irritations, and heals red, rough, sore hands.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

ASSOCIATIONS ARE A HABIT

We Even Form Clubs Over Question Of Teething Rings Vs. Thumb.

Our passion for getting up associations is a bad symptom of intellectual feebleness. Every trade and profession among us, every interest and prejudice, every aspiration, hypothesis or question about a question has a gang of club members at its back.

The fashionable mothers get up societies to determine what plays their children shall see during the holidays. I know of one woman who was not able to decide whether she should give a rubber ring or a coral to her teething child or should leave him to nature and the thumb. She accordingly formed a society. It is called the Ring and Coral association and meets twice a month. It has recently split into two organizations through the secession of the antiring and coralites. By means of these two societies any mother may today escape the mental anguish of making a decision for herself upon this teething matter.—John J. Chapman, in Atlantic Monthly.

Efficiency.

Mrs. Knicker—We can't keep a cook.

Mrs. Bocker—Advertise for a food dictator.

Except along the Caspian coast, Persian agriculture is dependent almost entirely on irrigation.

A Regular Attendant.

"Do you go to church regularly?"

"Yes, regularly once a year."

Between Two Fires.

The young doctor and his friend, the drug clerk, were sitting at the club window, when a richly dressed woman passed.

"There goes the only woman I ever loved," sighed the young M. D.

"So?" queried the other. "Then why don't you marry her?"

"Can't afford it," replied the pill distributer, "she's my best patient."

Similar Brand.

The fair maid was toying with the new engagement ring.

"Did I understand you to say that your first wife's name was Katharine—same as mine?" she queried.

"Yes, darling," replied the widower.

"And," continued the fair one, "I suppose you loved her very dearly?"

"Indeed I did," answered the party of the bereaved part. "That is why I am anxious to secure a dupli-Kate."

Civic Rivalry.

"I hear you had a cyclone out this way last week."

"It was nothing to speak of," answered the Kansas man. "Just blew away a few hencoops."

"But I heard that the county courthouse at Galesburg was blown away."

"Well, sir, we citizens of the enterprising city of Gadsville, the logical place in the country for that courthouse, always refer to Gadsville's makeshift affair as a hencoop."

The Delight of Children

The self-developed, inner-flavour of **New Post Toasties** bear a unique attraction for the kiddies—they even like them dry from the package for their lunches. A box of Toasties provides "eats" that will delight the children.

New Post Toasties are usually served with cream and sugar, in which form the flavour is more pronounced and the flakes more delicious. These **New Toasties** do not "chaff" or crumble in the package and they don't mush down in cream—both common defects of old-fashioned "corn flakes."

Then, too, notice the tiny bubbles on the flakes, produced by the quick, intense heat of a new patented process of making which imparts delightful crispness and a substantial body to the flakes.

New Post Toasties are a vast improvement over any old-style "corn flakes."

For tomorrow's breakfast—

New Post Toasties

THOUSANDS RECOMMEND THIS RELIABLE KIDNEY MEDICINE

I wish to state that in the seven years that I have sold Dr. Kilmer's Swamp-Root I have never known of a single customer who did not feel satisfied with the results obtained from its use and speak very favorably regarding Swamp Root. They always come back and ask for it and that in itself is a sufficient guarantee of the value of the preparation in the troubles for which it is intended. It is a splendid kidney medicine and I take happiness in handling and selling same.

Very truly yours,
LIENHART PHARMACY,
C. J. Lienhart, Prop.
Dec. 24th, 1915. Norman, Neb.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.—Adv.

Not Available This Year.

Rev. W. H. Book, pastor of the Tabernacle Christian church of Columbus, is telling a story told him by a schoolteacher in a county not far from Bartholomew. The teacher and the township trustee were talking over plans for the annual school commencement. The question of a speaker for commencement arose.

"Let's get this here Rip Van Winkle to make the speech," suggested the township trustee.

"Who?" asked the surprised teacher.

"Why, this here Rip Van Winkle," the trustee replied. "I've heard a good deal about him and I thought maybe he might make a right smart speech."

The teacher had to tell the trustee that Rip was not available for commencement addresses this year.

Disappointing.

"I read today," said the young man beside the girl on the sofa, "that the chance of two finger-prints being alike is not one in 64,000,000,000."

"That's awfully disappointing news, dear," replied the sweet young thing; "I thought we had everything in common."

Most of the light rays from metallic filament electric lamps are radiated at right angles from the filaments.

A Man's Worth

depends upon his power to produce what the world recognizes as of value.

And when you skirmish around you'll find that this power—which is just power of mind and body—depends to a remarkable degree on the food one eats.

For highest accomplishment one must have the best values in food—food which builds well-balanced bodies and brains.

Grape-Nuts FOOD

has that kind of value. It contains all the nutriment of whole wheat and barley, including the important mineral elements so often lacking in the usual dietary.

Grape-Nuts comes ready to eat, is easy to digest, nourishing, economical, wonderfully delicious—a help in building men of worth.

"There's a Reason"

STATE BREVITIES

Stillwater. — Edward Welch, 70 years old, a Civil War veteran, died at his home in Stillwater. He was born in Ireland and as a young man enlisted in the First Minnesota infantry.

Winona. — Attacked by the same disease which brought death to his 12-year-old son at Winona last week, Elisia Homstad, a Norwegian immigrant, lies in a serious condition with spinal meningitis.

Luverne. — One man was killed and two other persons were injured near here when an automobile turned a somersault. The machine was not hurt. The dead man is Otto Langfelt. Mr. and Mrs. Fred Miller were hurt.

Kimball. — Angered because his attentions were spurned repeatedly by Sadie Johnson, a school teacher, Jas. Fitzpatrick shot and instantly killed the girl in the waiting room of the local depot. He committed suicide.

Winona. — That snake hunting is profitable in Winona county was evidenced when the county auditor issued a warrant for $35.50 in favor of Max Miller of Dakota village. It was the bounty on 71 rattlers, killed within a week.

Winona. — The Winona Association of Commerce has voted to join with other commercial bodies of Minnesota in revering the memory of James J. Hill, June 27, officially designated as Hill Memorial day. Suitable exercises will be carried out here.

Wabasha. — A harvest is promised the fishermen in this section of the river when the waters subside about a foot. According to experts who have been studying the situation, there will be more fish in the Mississippi river this summer than ever before.

Moorhead. — Fishers who spent Sunday at the lakes surrounding Perham report that Carlos Avery, state game commissioner, reaped a harvest by collecting $5 apiece for all pike under 14 inches. One fishing party from Minneapolis had to pay $150; 30 of their 100 fish were undersize.

Winona. — More than 1,000 persons, comprising the largest audience at a Winona political rally since that which gathered to hear President Taft's memorable tariff speech, heard Frank B. Kellogg discuss preparedness, plead for a united people and patriotism and other issues concerning the nation.

Fairmont. — That intemperance is increasing at an appalling rate among women and girls, not only in the cities, but in the country, Mrs. H. A. Tomlinson of St. Paul told the convention of the Minnesota Federation of Women's Clubs at the annual meeting of the Second district delegates in session here.

Bemidji. — Members of the Fourth of July committee recently named by the Bemidji Merchants' association have been busy collecting funds for the celebration, which will be the greatest in the history of the city. The amount to be raised will be $1,200 and this amount will be spent for program features.

St. Paul. — An investigation of conditions on the Canadian border, where high water has inundated thousands of acres of state land, will be made by an engineer under the direction of the state auditor's office. This announcement has been made by J. A. O. Preus, state auditor, following a conference.

Brainerd. — Representatives of a majority of the Baptist churches of Northern Minnesota attended the 3 days' session of the fifty-sixth annual meeting of the Northwestern Baptist association here. Rev. R. E. Cody of Brainerd was elected moderator and Miss Vera Rice, Park Rapids, clerk and treasurer.

Bemidji. — Frank B. Kellogg, candidate for United States senator, was enthusiastically greeted here when, in an address, he brought out preparedness as the main issue. He made friends in Bemidji. A banquet was given before the meeting. Attorney M. J. Brown of Bemidji presided at the meeting and introduced the speaker.

Minneapolis. — By a decision just handed down by the United States court of claims nearly three quarters of a million dollars will be distributed within the next three months among 10,000 Indians of the White Earth reservation in Minnesota. The decision, which is the outgrowth of the Nelson land act of 1889, followed seven years of litigation. Right to properties of the Mille Lacs reservation was the principal bone of contention.

Hibbing. — Pledging themselves to help wipe out sectional lines and to work for a greater Minnesota, 150 delegates to the Northern Minnesota Development association's semi-annual meeting here favored a joint propaganda to establish a rural credit system, increase the number of rural consolidated schools and establish physical training in all schools. An appeal for harmony within the state from F. M. Murphy, of Wheaton, president of the All-Minnesota Development association, was the feature of the session.

Aurora. — More than 1,000 miners are on strike here. The Meadow, Fowler, St. James, Miller, Mohawk, Hudson and the Bangor mines at Biwabik are tied up. Orders have been issued closing all saloons and refusing delivery of any intoxicants to homes of strikers.

Mankato. — Lyman Robinson, 73 years old, a city park employe, was severely bitten and clawed by a bear in the zoo at Sibley park. In the absence of the regular attendant, he went into the bear's cage to feed the animal. He was taken to a hospital. It is thought he will recover.

SUGGESTS SHOVEL FOR ROAD CRITICS

STATE HIGHWAY COMMISSION ASSAILS FAULT FINDER IN OFFICIAL ORGAN.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

"There is no better education for a curbstone critic than a No. 2 shovel," the State Highway Commission says in the second number of the Minnesota Highway Journal, its official organ.

The leading article in this new publication is devoted to Good Roads day, which was authorized by the Legislature as the third Tuesday in June each year, and attention to which has been called by Governor J. A. A. Burnquist in a proclamation.

The writer was discussing the man who sits back and punches holes in the better highway program, considering it an abstract problem, something to praise or to kick about.

The following boards are made for the observance of the day:

"That in each village the council co-operate with civic organizations and arrange for improvements of main arterial streets by graveling, dragging or other means, and that public dinners and picnics be provided in connection. Last year many bad stretches of road were cared for in this way."

"U" To Ask Improvements.

The University of Minnesota will go before the Minnesota legislature at is next session and ask provision for an adequate library, a new administration building and additional space for playgrounds, as primary necessities, President George E. Vincent of the university has indicated in an address to the alumni. Dr. Vincent also addressed himself in part to consideration of the proposed plan for adding one or two years of college work to the state high school curricula that the All-Minnesota Development association is to take up at its meeting at the state capital, and pointed out some dangers. He said that while the idea has many advantages, it is fraught with danger and that unless the proper standards are maintained such courses would menace the quality of preparation for the professional schools.

The University of Minnesota is not a "rich man's college," Dr. Vincent said. He read some figures showing what it costs the students to spend a year at the institution and to what extent they are able to earn their own way.

Dr. Vincent called attention to an enrollment of 5,274 students of collegiate grade as against 4,357 in the year preceding, an increase of 20 per cent.

★ ★ ★

State's Printing Costs More.

State printing next year will cost the taxpayers from $6,000 to $7,000 more than the present year. The increased cost of paper and labor is held responsible.

Bids for legislative and department printing for 1917 were opened by the state printing commission and in every proposal the figures were higher than the present contract. Paper alone was $5,000 higher for the five classes on which bids were asked. Labor and other material was advanced about $2,000.

★ ★ ★

Can Vote For But One Candidate.

Attorney General Smith has ruled that a voter cannot vote for more than one candidate for any single office on the non-partisan ticket. This ruling is in opposition to a point made by the auditor of Polk County, who contended that under the election law a voter might mark as many candidates on the non-partisan ballot as were to be named for participation in the November election. In brief, he contended that where there were two or more candidates for any single office the voter might mark the number of candidates whose names would go on the regular election ballot.

★ ★ ★

Explain Route Selecting Methods.

Letters have been sent to persons interested in the Jefferson highway of Northern Minnesota, telling them of the route-selecting method decided on by George E. Cooley, chief engineer of the highway commission; J. H. Mullen, assistant engineer; J. D. Clarkson, general manager of the highway and others. Mr. Clarkson will not only make an inspection of each of the three proposed routes, but he will be accompanied by accredited representatives of each route on every trip.

Officials Review Militia.

Governor Burnquist reviewed the University cadets at Camp Winfield Scott Hammond. With the governor were President Vincent and members of the Board of Regents. Maj. Leach's battalion of National Guard artillery spent the day in battery drill and in field problems. While the non-commissioned officers put the men through gun drill, the officers accompanied Captain Greene, U. S. A., into the country near the Speedway, then designated their own camp as "enemy" territory and reconnoitered back.

KEEP YOUNG

As well be young at 70 as old at 50.

Many elderly people suffer lame, bent, aching backs, and distressing urinary disorders, when a little help for the kidneys would fix it all up. Don't wait for gravel, or Bright's disease. Use Doan's Kidney Pills. They have helped thousands, young and old, and are recommended by thousands.

A Minnesota Case

"Every Picture Tells a Story"

Mrs. Carl Leochler, 605 E. Second St., Wabasha, Minn., says, "A cold on my kidneys disordered them and my back was extremely lame and painful. I couldn't turn in bed without misery, and my ankles became badly swollen. Doctors didn't think there was any help for me. Finally, I used Doan's Kidney Pills, and they gave me wonderful relief. My kidneys have been in good shape since."

W. N. U., Minneapolis, No. 25–1916.

Hard to Answer.

"Philters is greatly interested in chemistry."

"So I hear."

"He's always busy with retorts."

"Naturally."

"But the kind that gives him most concern are made by Mrs. Philters when she visits his laboratory to lecture him about wasting his time and spoiling his clothes."

A man can never judge how old a woman is by hearing her tell her age.

Speaking of tongues—a woman can seldom hold her own.

By Compulsion.

"Do you think you will go away for the summer?"

"Yes," replied the meek-looking man. "I expect to be perfectly miserable and spend a great deal more money than I can afford to spend, but I happen to have two marriageable daughters and a strong-minded wife, so I think I will go away for the summer."

The Magic Washing Stick

"The Magic Washing Stick is just fine. It did just what you said it would do, and the clothes were so nice and white with all that hard rubbing left off," writes Mrs. Sarah Goodale, Preston, Texas. The Magic Washing stick is not a soap nor a washing powder. Fifteen washings 25c. Sold by all grocers everywhere. **Winston, Harper, Fisher Co.,** Minneapolis, Minn., Distributors.—Adv.

She Couldn't Understand.

Mamie—Why did you leave your last place?"

Katie—The master and missus was forever quarreling behind locked doors.

"But wasn't there a keyhole?"

"Yes, but they always quarreled in French."

IF YOU OR ANY FRIEND

Suffer with Rheumatism or Neuritis, acute or chronic, write for my FREE BOOK on Rheumatism—Its Cause and Cure. Most wonderful book ever written. It's absolutely FREE. Jesse A. Case, Dept. C. W., Brockton, Mass.—Adv.

Safety First.

"You say you don't care to argue about the war?"

"No—at least, not this morning."

"Why not?"

"The plumbing is out of order at my house and that has used up my stock of patience so completely that I would be sure to lose my temper."

His Identity.

We met a man with the most astoundingly lugubrious cast of countenance that we had ever seen. Gloom sat on his brow like a brooding condor on her nest and an abysmal sadness seemed devouring him.

"Ah!" said we, "we perceive that you are a celebrated wag, for, in sooth, we have never before in all of woe's appointed ways beheld such a personification of wretchedness."

"No," he replied, "I am not a humorist. I feel as sad as I look. I am a pacifist, and believe that preparedness will inevitably bring on war."

"You do well to mourn your awful condition," we returned. "If you were a humorist you might get over it. But you are a dad-burned fool, and there is no help for you!"

FITS, EPILEPSY, FALLING SICKNESS Stopped Quickly. Fifty years of uninterrupted success of Dr. Kline's Epilepsy Medicine insures lasting results. LARGE TRIAL BOTTLE FREE. DR. KLINE COMPANY, Red Bank, N. J.—Adv.

Inconsistent Employment.

"Is your sitting as a model just temporary?"

"No; it's a standing engagement."

A REMARKABLE STATEMENT

Mrs. Sheldon Spent $1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent $1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital."—Mrs. E. SHELDON, 5657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam, Minn. under the Act of Congress of March 3, 1879

Champ Clark Speaker of the House of Representatives, made a speech to so called' baby Congressmen, who were serving their first term, at a reception given them by the National Press Club on March 16th. Among his remarks were the following:

"I most heartily congratulate you gentlemen in being even what are facetiously denominated "baby Congressmen." It is a high honor to be a Representative in Congress, if for only one term, and with the number of terms the honor increases in geometrical rather than in arithmetical proportion. A member's usefulness to his country should increase in the same proportion, A man has to learn to be a Representative just as he must learn to be a blacksmith, a carpenter, a farmer, an engineer, a lawyer, or a doctor.

"Poeta nascitur non fit"—a poet is born, not made says Horace; but Congressmen—that is, useful and influential Congressman—are made largely by experience and practice.

The old Charlotte district in Virginia knew this and kept John Randolph of Roanoke, in the House, till he became a great national figure. Then the Old Dominion sent him to the Senate and Gen. Jackson sent him to St. Petersburgh. There are sporadic cases of similar action in other districts.

It is an unwise performance for any district to change Representatives at at short intervals. A new Congressman must begin at the foot of the class and spell up. Of course, the more brains, tact, energy, courage, and industry he has the quicker he will get up. If he possess these qualities, and if his constituents will keep him in the House, he is as certain to rise as the sparks are to fly upward. No human power can keep him down. It is only fair and rational to assume that every Representative's constituents desire to see him among the "topnotchers."

No man should be elected to the House simply to gratify his ambition. All members should be elected for the good of the country.

The best rule it seems to me, is for a district to select a man young enough to learn and to grow, with at least fair capacity, industrious, honest, energetic, sober, and courageous, and keep him here so long as he discharges his duties faithfully and well. Such a man will gradually rise to high position and influence in the House. His wide acquaintance with Members helps him amazingly in doing things. We live in parlous times. Abraham Lincoln's favorite argument for his own reelection was that it is unwise to swap horses in the middle of the river—which applies to Congressmen as well as Presidents."

The above applies to the situation that confronts the Ninth District to-day, and the voters should see to it that a new man is not elected to take the place of Congressman Steenerson at this time when there are so many questions of vital interest to the people of Northern Minnesota, and of particular interest to the flood sufferers, that are now before Congress.

Judge Ira B. Mills who is a candidate for re-nomination as Railroad and Warehouse Commissioner, has ably filled that position since his appointment by Knute Nelson in 1893. He was Judge of the District Court of this district before the election of Judge Ives, and is a lawyer of ability, who has devoted the past twenty-three years of his life to the important position which he now occupies, as most of the dealings in this office are cases where the railroads with shrewd attorneys are on one side, and the people on the other side. We have always noted that Judge Mills stood solidly on the side of the people, and he is justly entitled to be re-nominated and elected for another term.

If the people start in to fire county officials out of office, because they have had them for four or six years without any other reason, they promptly remove any incentive to render honorable and efficient service. Do not let us give them the impression that they will be fired without reason, except that they have been there long enough, but give them the other impression of retention in office as long as they render satisfactory and honorable service.

HOW SLOAN'S LINIMENT HELP RHEUMATISM?

Ask the man who uses it, he knows. "To think I suffered all these years when one 25 cent bottle of Sloan's Liniment cured me," writes one grateful user. If you have Rheumatism or suffer from Neuralgia, Backache, Soreness and Stiffness. don't put off getting a bottle of Sloan's. It will give you such welcome relief. It warms and soothes the sore, stiff painful places and you feel so much better. Buy it at any Drug Store, only 25 cents.—Adv.

WILL MY CHILD TAKE DR. KING'S NEW DISCOVERY?

This best answer is Dr. King's New Discovery itself. Its a pleasant sweet syrup, easy to take. It contains the medicines which years of experience have proven best for Coughs and Colds. Those who have used Dr. King's New Discovery longest are its best friends. Besides every bottle is guaranteed. If you don't get satisfaction you get your money back. Buy a bottle, use as directed. Keep what is left for Cough and Cold insurance.—Adv.

WELL CHILDREN ARE ACTIVE.

If your child is dull, pale, fretful and wants to lie around, the chances are it is suffering from worms. Kickapoo Worm Killer, a pleasant candy confection, liked by all children is what your child needs. You only give one-half to one lozenge at a time and you get immediate results. Every mother should have a box on hand. 25c. at all druggists.—Adv.

Political Announcements.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby announce myself as a candidate for re-election to the office of Clerk of the District Court for Pennington County. I wish to announce at this time to pledge to the voters of Pennington County that if I am nominated and elected, I will give the office my undivided attention, and will serve the public to the best of my ability in a strictly impartial manner. In the accounting department as a member of the Board of Audit, in the Naturalization department, in fact in all of the different duties of the Clerk, I feel better prepared and able to give more efficient service than in the past.

Thanking the voters for past favors, and hoping for your continued support if you deem me worthy, I remain

Respectfully Yours,
HARRY E. IVES.

TO THE VOTERS OF PENNINGTON COUNTY.

I hereby announce my candidacy for the nomination for the office of Clerk of the District Court at the Non-Partisan Primary on June 19th, 1916.

I feel that if I should be nominated and elected to this office, I will be able to fill it in a satisfactory manner.

I solicit your votes and support.

Respectfully yours,
W. H. Quist.

CANDIDATE
FOR CONGRESSMAN

From the Ninth Congressional District.

CANDIDATE FOR REPRESENTATIVE, 65th LEGISLATIVE DISTRICT.

In announcing my platform to the voters of this district I consider long platforms and long promises that cannot be fulfilled, a farce. Considering this I shall only make two pledges to the people of this district:

If nominated and elected, I shall represent the people of this district as a component part of the great state of Minnesota.

In seeking remediable legislation for this district, I promise to place the agricultural interests above all other interests.

G. P. Jones.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JUNE 23, 1916. NO. 15

MINNESOTA
HISTORICAL
SOCIETY

THE LOCAL NEWS

Frank LaCount made a trip to Red Lake Falls this week.

Evan J. Sund visited at the G. Asbjornson home on Sunday.

John Nelson was a business caller at Goodridge on Saturday.

Thief River Falls are to have a big celebration on July 4th.

Ole Olson made a flying trip to Thief River Falls in his car, on Saturday.

D. O. Roisland, of Mayfield, was a business visitor at Oklee, on Monday.

Hay will be a very heavy crop this year, and it will be ready to start cutting by July 10th.

Mrs. Ole Overum and children were visitors at Goodridge on last Saturday.

There was a fair sized crowd that attended the dance at Roland on Saturday last.

John Homme drew his auto up to Goodridge Monday with a team, and called it a "horsemobile."

The mosquitoes seem to be in a prosperous condition this year, as they certainly have not lacked water to hatch out in this year.

Ye editor made a short visit to Goodridge Monday, and noted that it was a lively little village, with everybody busy.

Lenard McAndress and Otto and Harry Causin attended the base ball game at Goodridge, between St. Hilaire and Goodridge, on Sunday.

Yesterday was the longest day of the year, and we have again turned the corner and started toward the short cold days of December.

Mart McAndress of St. Hilaire was visiting his brother Walter, on Saturday and Sunday. He also made us a pleasant visit on Sunday evening.

We sowed about an acre of Marquis wheat last Thursday June 15th, just to see if wheat would get ripe sown that late in the season.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

We are glad that the Primary campaign is over, and we extend our congratulations to the winners, and our sympathies to the loosers, hoping they will have better luck next time.

There has been a large acreage of flax sown this week, and a large amount of barley and flax will be sown next week. It is late in the season, but there is still a chance for barley and flax to get ripe.

The "nubbin" at Rhoda succeeded in getting a few of his favorite friends to vote for Anderson for Congress, by telling them that Anderson was sure to be nominated, because "mine poy Stephen" was for him.

It is a lonesome piece of country south east of Goodridge, until you reach nearly to Erie, where the abandoned claim shanty of the government land speculator is in evidence, and the wild fox can dig his hole unscared by the tread of the human race.

A big bowery is being built on the Beaudry place in Highlanding township, and a good program of speaking will be given in the forenoon, and a good program of sports in the afternoon, with a big bowery dance during the afternoon and evening, of July 4th.

Another rain storm visited this locality yesterday morning, and again delayed the flax and barley seeding.

Miss Stella and Sadie Arndt, left for Crookston last week, where they are attending summer school.

One of our horses rolled in some kind of poison, and poisoned one side of his head so bad, that all the hair came off. We got treatment from the Dr. Newell Drug Store at Goodridge, which killed the poison, and he is now on the road to recovery.

The crime of arson is rapidly disappearing in Minnesota

This is due primarily to the growing unpopularity of this form of raising money. It is too risky also, in the opinion of Robert W. Hargadine, State Fire Marshal.

It works all right, if you get a professional to explode, or fall down with kerosene lamps in a heavily insured building, up this way.

BIDS WANTED.

The Town Board of the Town of Highlanding wants bids for cutting the brush on the road line from Highlanding north to the town line of Goodridge township. Also on the section line between 17 and 20, town of Highlanding. All bids should be filed with Sever Nelson, Town Clerk, on or before June 28th, at 6 o'clock P. M. By order of the Town Board.

DEMOCRATIC ATTRACTIVENESS

We favor the vigorous prosecution of investigations and plans to render agriculture more profitable and country life more healthful, comfortable and attractive, and we believe that this should be a dominant aim of the nation as well as of the states."

The above is the declaration of the Democratic Party in the National Convention Assembly. We wonder if they expect to make country life more attractive by having their Fourth Assistant Postmaster General issue orders that compel peoples' tri weekly mail to lay over two or three days in a wayside postoffice. Judging by the vote of Mayfield township last Monday, the people do not want anymore Democratic country attractiveness for country people.

Republican nominees at Monday's Primary Election are the following:

United States Senator—Frank B. Kellogg, St. Paul.

Congressman from this district—Halvor Steenerson, Crookston.

Governor—J. A. A. Burnquist, St. Paul.

Lieutenant Governor—Thos. Frankson, St. Paul.

Secretary of State—Julius A. Schmahl, Redwood Falls.

State Treasurer—Henry Rines, Mora.

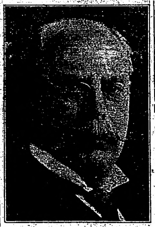
Attorney General—Lyndon A. Smith, Montevideo.

Railroad and Warehouse Commissioner—Ira B. Mills, Moorhead

Our next Senator Kellogg has proved that it pays to advertise, as he done more advertising than the other three candidates combined. Clapp must have depended on his size, as he did not make any campaign in the northern part of the state.

The people who supported Samuel G. Iverson for the Republican nomination for governor have no complaint to make because a majority nominated J. A. A. Burnquist, who we believe will make a good governor, and is entitled to the undivided support of the Republican voters of this state.

CONGRESSMAN STEENERSON Re-nominated to succeed himself by a large majority.



Congressman Steenerson was re-nominated to succeed himself at last Monday's election by a large majority. There was no necessity for this campaign, in view of the able manner in which Congressman Steenerson has represented this district in Congress.

But the politicians wanted a campaign, and the Steenerson supporters dished them up one that will make them sit up and take notice that they have played the political game before.

The returns indicate that the supporters and committeemen of Congressman Steenerson were not to be caught napping, as they were in the Ole Sageng campaign.

Celebrate July 4th three fourths of a mile east and one half mile south of Highlanding.

There will be a fine program. In the forenoon speeches will be made, and in the afternoon there will be a base ball game, Tug O' War, Races, and boat rides. A large bowery is being built for dancing. Everybody come and have a good time.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL (Brewed Specially for Family Use)	24 large or 36 small	$3.95
WHITE SEAL	24 large or 36 small	3.70
RED RIBBON	24 large or 36 small	3.45
		PER CARTON
WHITE SEAL SPECIAL	12 large	$2.00
WHITE SEAL	12 large	1.75
	(No refund on cartons)	
		PER CASK
WHITE SEAL SPECIAL	72 large or 120 small	$11.25
WHITE SEAL	72 large or 120 small	10.50
RED RIBBON	72 large or 120 small	9.75
SUNSET	36 small (case)	3.5
SUNSET	120 small (cask)	9.70

A refreshing and wholesome drink, containing less than one-fourth of one per cent of alcohol. Put up in quarts on request. Can be sold in all places where soft drinks are sold.

CREAM OF MALT TONIC	25 bottles (case) Refund for Empties, $1.00	$2.75
CREAM OF MALT TONIC	12 bottles (cartons) (No refund on Cartons)	1.50

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

WILSON AND MARSHALL CHOSEN; DEMOCRATS ADOPT PLATFORM

CONVENTION FINISHES WORK BY INDORSING PARTY PLANKS EXACTLY AS APPROVED BY PRESIDENT WILSON.

RECOMMEND EXTENSION OF FRANCHISE BY STATES

Committee Votes Against Anthony Suffrage Amendment to Constitution—Administration Indorsed as Best Exposition of Democratic Policy at Home and Abroad.

St. Louis, June 19.—The Democratic national convention finished its work by adopting the party platform exactly as approved by President Wilson and submitted by the resolutions committee, includng the planks on Americanism and favoring woman suffrage.

The platform, in part, follows:

The Democratic party, in national convention assembled, adopts the following declaration to the end that the people of the United States may both realize the achievements wrought by four years of Democratic administration and be apprised of the policies to which the party is committed for the further conduct of national affairs.

Administration Indorsed.

We indorse the administration of Woodrow Wilson. It speaks for itself. It is the best expositon of sound Democratic policy at home and abroad.

We challenge comparison of our record, our keeping of pledges and our constructive legislation, with those of any party of any time.

We found our country hampered by special privileges, a vicious tariff, obsolete banking laws and an inelastic currency. Our foreign affairs were dominated by commercial interests for their selfish ends. The Republican party, despite repeated pledges, was impotent to correct abuses which it had fostered.

"Abuses Are Corrected."

Under our administration, under a leadership which has never faltered, these abuses have been corrected, and our people have been freed therefrom.

Our archaic banking and currency system, prolific of panic and disaster under Republican administrations—long the refuge of the money trust—has been supplanted by the federal reserve act, a true democracy of credit under government control, already proved a financial bulwark in a world crisis, mobilizing our resources, placing abundant credit at the disposal of legitimate industry and making a currency panic impossible.

"Fair Competition Assured."

We have created a federal trade commisson to accommodate the perplexing questions arising under the anti-trust laws so that monopoly may be strangled at its birth and legitimate industry encouraged. Fair competition in business is now assured.

We have effected an adjustment of the tariff, adequate for revenue under peace conditions and fair to the consumer and to the producer. We have adjusted the burdens of taxation so that swollen incomes bear their equitable share. Our revenues have been sufficient in times of world stress and will largely exceed the expenditure for the current fiscal year.

Underwood Tariff Praised.

We reaffirm our belief in the doctrine of a tariff for the purpose of providing sufficient revenue for the operation of the government, economically administered, and unreservedly indorse the Underwood tariff law as truly exemplifying that doctrine.

Plank on Americanism.

The part that the United States will play in the new day of international relationships which is now upon us will depend upon our preparation and our character. The Democratic party, therefore, recognizes the assertion and triumphant demonstration of the indivisibility and coherent strength of the nation as the supreme issue of this day in which the whole world faces the crisis of manifold change, it summons all men, of whatever origin or creed, who would count themselves Americans to join in making clear to all the world the unity and consequent power of America.

We, therefore, condemn as subversive of this nation's unity and integrity, and as destructive of its welfare, the activities and designs of every group or organization, political or otherwise, that has for its object the advancement of the interest of a foreign power, whether such object is promoted by intimidating the government, a political party, or representatives of the people, or which is calculated and tends to divide our people into antagonistic groups and thus to destroy that complete agreement and solidarity of the people and that unity of sentiment and national purpose so essential to the perpetuity of the nation and its free institutions.

Conspiracies Are Charged.

We condemn all alliances and combinations of individuals in this country of whatever nationality or descent, who agree and conspire together for the purpose of embarrassing or weakening our government or of improperly influencing or coercing our public representatives in dealing or negotiating with any foreign power. We charge that such conspiracies among a limited number exist and have been instigated for the purpose of advancing the interests of foreign countries to the prejudice and detriment of our own country. We condemn any political party which in view of the activity of such conspiracies surrenders its integrity or modifies its policy.

For Preparedness.

Thorough preparedness on land and sea against unexpected invasion and the joining of the United States with other nations to "assist the world in securing settled peace and justice" were also urged in other planks adopted.

Plank on Mexico.

The Monroe Doctrine is reasserted as a principle of Democratic faith. That doctrine guarantees the independent republics of the two Americas against aggression from another continent. It implies as well the most scrupulous regard upon our part for the sovereignty of each of them. The want of a stable, responsible government of Mexico, capable of repressing and punishing marauders and bandit bands, who have not only taken the lives and seized and destroyed the property of American citizens in that country, but have insolently invaded our soil, made war upon and murdered our people thereon, has rendered it necessary temporarily to occupy, by our armed forces, a portion of the territory of that friendly state.

Intervention as Last Resort.

Until, by the restoration of law and order therein a repetition of such incursions is improbable, the necessity for their remaining must continue. Intervention, implying as it does military subjugation, is revolting to the people of the United States, notwithstanding the provocation to that course has been great and should be resorted to if at all, only as a last resort. The stubborn resistance of the President and his advisers to every demand and suggestion to enter upon it, is creditable alike to them and to the people in whose name he speaks.

On Agriculture.

We favor the vigorous prosecution of investigations and plans to render agriculture more profitable and country life more healthful, comfortable and attractive, and we believe that this should be a dominant aim of the nation as well as of the states.

We recommend the extension of the franchise to the women of the country by the states upon the same terms as to men.

We again declare the policy that the sacred rights of American citizenship must be preserved at home and abroad and that no treaty with any other government shall receive the sanction of our government which does not expressly recognize the absolute equality of all our citizens, irrespective of race and creed or previous nationality and which does not recognize the right of expatriation.

At the earliest practical opportunity our country should strive earnestly for peace among the warring nations of Europe.

RENOMINATED BY THE DEMOCRATS

WOODROW WILSON.

WILSON SAVED CIVILIZATION FOR HUMANITY -- WESTCOTT

St. Louis, June 17.—President Wilson has saved civilization for humanity by his course with respect to the great war, John W. Wescott, Attorney General of New Jersey, declared here in renominating Mr. Wilson for the presidency before the Democratic convention.

Today, he said, the nation is at work and at peace. Four years ago, commerce languished, industries halted and panic hung over the business world.

"Mr. Wilson," he continued, "dynamited the monetary dams and let credit flow to the remotest corners of the land, its spray dashing even upon foreign shores.

To have conquered Mexico, Mr. Wescott said, would have destroyed our prosperity, have made the South American republics hate us and have forfeited the respect of the world.

"The sublimest picture in civil history is that of a plain American citizen maneuvering with the weapons of reason and humanity against the navies and armies of the contending nations.

PRESIDENT AND VICE-PRESIDENT ARE NOMINATED BY ACCLAMATION BY NATIONAL CONVENTION AT ST. LOUIS.

CROWD BREAKS INTO A GREAT DEMONSTRATION

Flags Paraded and Band Plays "The Star Spangled Banner," While Huge Banner Bearing President's Likeness Is Unfurled From Roof—Demonstration 45 Minutes.

Coliseum, St. Louis, June 17.—President Wilson and Vice President Marshall were nominated by acclamation by the Democratic national convention, the ticket being completed four minutes before midnight.

Before the convention was called to order the Coliseum was so full that the fire department took charge of the entrances and permitted no more to come in. William J. Bryan, however, managed to get by and got his usual uproarious reception as he took his seat. Senator James learned of the Nebraskan's plight and rescued him.

At 9:15 o'clock Chairman James rapped the convention to order. The Rev. W. J. Hardesy, chaplain of the Missouri Senate, offered a prayer.

Senator James introduced Mr. Bryan as "one of the leading citizens of the world and America's greatest Democrat."

Wescott Nominates Wilson.

John W. Wescott, attorney general of New Jersey, nominated Woodrow Wilson. Applause greeted his opening sentence.

As Judge Wescott closed with a mention of the name "Woodrow Wilson" the crowd broke into a great demonstration.

Moving picture flash lights blazed and flags were paraded in front of the stand. The band played "The Star Spangled Banner," while a huge banner bearing the President's likeness was unfurled from the roof of the hall.

Delegates Begin Parade.

The delegates began a parade bearing state stanchions.

The crowd on the floor and in the balconies rose to its feet. Many delegates stood on their chairs.

"Dixie" and other melodies by the band.

The demonstration continued 45 minutes.

Seconding speeches were made by former Governor Judson Harmon of Ohio, and Governor Stuart of Virginia.

The roll call was abandoned, and the nomination was made by acclamation.

Kern Renominates Marshall.

Robert Emmett Burke of Illinois, a delegate who announced that he would not vote for the President, raised the only voice in opposition. He was elected to the convention as an independent.

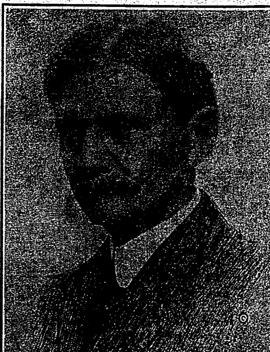
Senator Kern in renominating Vice President Marshall discarded a long prepared speech and simply said:

"I renominate Thomas Riley Marshall."

Both nominations were made by acclamation.

SUFFRAGE PLANK DENOUNCED

St. Louis, June 17.—Leaders of the woman's party and the National American Woman Suffrage association united in denouncing as inadequate the suffrage plank of the Democratic platform and declared they would immediately resume their fight in Congress for national recognition.



THOMAS R. MARSHALL.

PAR CHECK COLLECTIONS SEEN

RESERVE BANKS' NEW PLAN TO BE EFFECTIVE JULY 15.

New System Eliminates Exchange Charges—Is Well Received—Rich Says Old Methods Brought Evils.

Minneapolis, Minn., June 19.—Par check collection in which all of the national banks and a large number of the state banks in the Ninth Reserve District will join, will become an accomplished fact on July 15th. After that date a check drawn upon any national bank in the United States will be collectible through a Federal Reserve Bank without exchange. The Federal Reserve Banks will act as clearing agents, not only for the collection of checks drawn upon their own members, but for checks drawn upon any member bank in any part of the United States, and will also receive checks on state banks and trust companies, when such checks can be collected at par.

New Plan Well Received.

The new check clearing plan has been very well received by the banks of the Northwest. The Federal Reserve Bank of Minneapolis has sent notifications to all of the state banks in northern Michigan, Wisconsin, Minnesota, North and South Dakota and Montana, advising them that they are permitted to join in the new collection system, and asking them to signify at once whether they will participate or not. Out of 369 non-member banks so far heard from, 210 have responded saying that they favor the new plan and will par their checks through the Reserve Bank. These banks, together with the member banks in the Reserve System, already assure the new plan of the support of more than 1,000 Northwestern banks

Comments On Changes.

In commenting upon the important changes that are about to be made, Federal Reserve Agent John H. Rich, of the Minneapolis Reserve Bank said:

"The new system will do away with exchange charges except as to the banks that do not participate in the new system. Manufacturers, dealers and jobbers should request that where accounts are paid by check, the payee forward a check upon a national bank or a bank that has received authority to imprint notice that its checks are parred through the Federal Reserve Bank of Minneapolis.

Old Methods Caused Evils.

"The cost of collecting checks has long been objected to by the business interests of the country, and the bankers themselves realize that the old methods have brought many evils in their wake, one of the chief of which was the fact that banks were counting amounts represented by checks that were in the mails as part of their legal reserve. Greater safety will result under the new plan, because banking reserves will hereafter be actual reserves, and the burden of exchange charges will be lifted from the shoulders of the business concerns that they have been compelled to pay this charge, and also from a great many banks that in order to facilitate check collection have voluntarily absorbed exchange charges for country correspondents.

Avoids Indirect Routing.

"The indirect routing of checks sent for collection will be done away with and the Federal Reserve Banks will be able to make a great saving of time on items in transit.

"We believe that we can collect the many thousands of checks that will begin to pass through the Federal Reserve Bank of Minneapolis after July 15th at an average cost of 1½ cents each. If this can be done, it will very greatly reduce the present cost, and will constitute an immense saving.

Provided For In Reserve Act.

"Par check collection was provided for in the Federal Reserve Act. On June 1st last year, the various Federal Reserve Banks established a limited check collection system on the basis of voluntary membership. The number of banks volunteering was so small in proportion to the total number of banks in the United States that the plan was not entirely successfull, and there has been continuous discussion since that time and efforts to create a new and better system.

To Eliminate Exchange Charges.

"I do not anticipate that the Federal Reserve Banks will immediately assume the immense volume of work that is represented by the daily clearing of checks in the United States. To change overnight from the present system to an entirely new plan would be almost impossible. It seems to me, however, that the drift is toward the rapid elimination of exchange charges, and that the large production of the clearings that will be taken by the Reserve Banks on July 15th will constitute an influence that will continually work to draw the remaining banks into the new system with the result that in time we may reasonably expect that there will be no banks remaining that charge interest."

South Get Credit Men's Trophy.

Pittsburgh, June 19.—Charles D. Joyce of Philadelphia was elected president at the closing session of the twenty-second annual convention of the National Association of Credit Men. S. J. Whitlock of Chicago and Frank S. Flagg of New York were elected vice presidents. The association of credit men of Huntington, W. Va., was awarded the Minneapolis trophy for the greatest increase in membership. Resolutions were adopted. The next convention city will be selected by the executive committee.

Summer Luncheons in a jiffy

Let Libby's splendid chefs relieve you of hot-weather cooking. Stock the pantry shelf with

Libby's Sliced Dried Beef

and the other good summer meats — including Libby's Vienna Sausage—you'll find them fresh and appetizing.

Libby's Peerless Brand Wafer Sliced Dried Beef Libby McNeill & Libby, Chicago

DAISY FLY KILLER placed anywhere, attracts and kills all flies. Neat, clean, ornamental, convenient, cheap. Lasts all season. Made of metal, can't spill or tip over; will not soil or injure anything. Guaranteed effective. All dealers or 6 sent express paid for $1.00.

HAROLD SOMERS, 150 De Kalb Ave., Brooklyn, N. Y.

Very Obliging.

"Miss Oldgirl is an obliging sort of person."

"How so?"

"When that rude old duffer told her he didn't like her face, she changed countenance."

Nothing but the Truth.

Said He—Women will never be paid as much for lecturing as men are.

Said She—Why not?

Said He—Because they do too much of it for nothing.

Keep It in Your Stable.

For external use on horses nothing that we know of equals Hanford's Balsam. Many trainers use it as a leg wash because it keeps the skin in fine condition and should cure lameness. Adv.

Hippopotami Can Run.

In spite of its clumsy build, the hippopotamus can trot fast. That is why he was given the name of river-horse. The hippo's feet are kept far apart by the wide body and make paths with a ridge down the middle, so as to be recognizable at once. They swim well, but go at their greatest speed when they can gallop along the bottom in shallow water. They can stay under water a long time, and when they come to the surface they send little jets of spray from their nostrils. The cow is devoted to the calf. The young one stands on her back as the mother swims.

Wield Pen and Sword.

The report of the Authors' club of London gives some eloquent figures. Out of 644 members resident in Great Britain, many of whom are far past military age, no less than 171 are in active service in connection with the war. Six have died in action or of wounds and 13 votes of sympathy with members in the death of sons or brothers upon the field of heroism have been adopted. The same hand, it is clear, may wield both pen and sword.

A Protest.

"I appeal to you as a statesman—"

"Don't dig up that statesman rumor about me just now," interrupted Senator Sorghum. "I'm a statesman most of the time. But with several conventions looming up in the near future and a large following of practical citizens to satisfy, I want to go on record as a politician."

A Sensible Thing To Do

When the drug, caffeine—the active principle in coffee—shows in headache, nervousness, insomnia, biliousness, jumpy heart, and so on, the sensible thing to do is to quit the coffee.

It's easy, having at hand the delicious pure food-drink

Instant Postum

It is made from wheat roasted with a bit of wholesome molasses and is free from any harmful substance.

Thousands who prefer to protect their health, use Postum with comfort and delight.

Made in the cup—instantly—with hot water. Convenient, nourishing, satisfying.

"There's a Reason" for POSTUM

HUGHES PUBLIC CAREER SKETCHED

He Works Hard and Enjoys Outdoor Recreation.

TAUGHT LAW AT UNIVERSITY

Dishonest Gas Trust Rout and Life Insurance Scandal First Put Candidate in Limelight and Party Favor.

The Republican candidate for president of the United States made himself famous by investigating and breaking up the scandalous gas combine in New York. Next he tackled the crooked insurance people and drove a dozen or more "big" financiers into exile. As governor of the Empire state he made an excellent record for the cause of honest government by honest people. The politicians and gamblers and rascals knew him for an enemy that never forgot and never rested.

Hughes comes of good stock. His father, Rev. David C. Hughes, who was a Baptist minister, and his mother, whose maiden name was Mary C. Connelly, were of more than usual culture and shaped the boy's early education with the object of preparing him for the ministry.

Charles was born at Glens Falls, N. Y., April 11, 1862, but when he was very young his parents removed to Newark, N. J. Here the boy attended the public schools, from which he was graduated in 1873. Too youthful to enter college, his father tutored him for a year, the intention being that Charles should enter the College of the City of New York when old enough.

Has Fine Education.

He matriculated at Madison university of Hamilton, N. Y., the school which is now known as Colgate university. Remaining here until 1878, he decided that the curriculum of Brown university would suit him better, and there he entered and was graduated in 1881. His degree of A. M. came in 1884, the same year in which he was graduated from the Columbia law school.

At the close of his college days Hughes was of extremely frail appearance and of delicate physique. His inclination was to enter the educational field, but he found difficulty in obtaining employment.

In 1884 Mr. Hughes was admitted to the bar in New York, and practiced until 1891. In his time he was prize fellow of the Columbia law school and for a year of his term was a student in the office of Stewart L. Woodford, United States district attorney. In 1883 he became a clerk in the offices of Chamberlain, Carter & Hornblower. On December 5, 1888, he married in Brooklyn Miss Antoinette Carter, the daughter of Walter S. Carter, a member of the firm.

His tendency to teach was still strong within him, and despite the protests of his father-in-law, who wished him to continue with the firm, he accepted a chair in Cornell university law school.

To Oregon for Bondholders.

Soon after Mr. Hughes' resumption of the duties of active practice he was sent to Oregon as the representative of the bondholders of an unsuccessful railway property. He spent seven months in the West arranging affairs, and when he returned he became the court member of the new firm of Carter, Hughes & Dwight. From 1893 until 1895 he retained his interests in Cornell law school, where he frequently appeared as special lecturer.

Three years ago when Edward F. Dwight died, the title of the law firm was changed to Carter, Hughes, Rounds & Shurman. The death of Mr. Carter caused another change, and the firm became Hughes, Rounds & Shurman, with offices at 96 Broadway.

Gas Investigation Stirs.

This brings Mr. Hughes' career down to the beginning of the gas investigation in New York—an investigation that stirred the metropolis as nothing had stirred it since the Tweed ring exposure.

Probably no one single investigation ever produced such far-reaching results as the insurance probe. It drove Henry Hazen Hyde, chief owner of the Equitable Life Assurance society, into exile in Europe and its president, John H. Alexander, into oblivion. It drove McCall into his grave. It exiled Richard H. McCurdy. It exposed Andrew Hamilton, the insurance lobbyist. It exposed the graft in the printing contracts manipulated by "Andy" Field. It broke up the insurance lobby at Albany. It stopped the practice of great corporations making gifts of money to political campaign funds. It stopped the jugglery of trust funds between insurance companies and banks.

Charles Evans Hughes is the man responsible for stopping this crookedness. Even the gas and insurance crowds admitted that.

Is Strong and Earnest.

In appearance Mr. Hughes is not robust. He is about five feet ten inches in height, of slight but well proportioned figure. His hair is brown and is becoming thin on top; he wears a full beard, streaked with gray. The high, rather narrow, forehead indicates intellectuality of a high degree, and the blue eyes are wide apart and deep set. The nose is small, straight, and the nostrils express refinement; the mouth is large, full-lipped, and the teeth are large, regular and white. In repose there is nothing striking in the face, but when Mr. Hughes becomes interested in conversation he possesses a goodly smile and his eyes suggest the strong, earnest man who is confident of his powers.

The rise of Charles Evans Hughes was rapid and remarkable. Not many years ago he was a practically unknown lawyer. He had never been a politician. He had never joined in campaign work. He had not been a corporation lawyer. He was simply a hard-working, hard-headed attorney with a moderate practice.

Mr. Hughes took office as governor January 1, 1907. He secured the passage of laws placing public utility corporations under the control of state public service commissions, stopped race-track open gambling, and instituted notable reforms in the consideration and conduct of public affairs at Albany.

Vetoes Over Two Hundred Bills

In his first year of office he vetoed more than two hundred bills which the legislature had passed, explaining in each case his reasons for the veto. As a result the volume of legislation was much decreased, and the quality markedly improved.

Governor Hughes was the choice of the New York delegation to the 1908 Republican national convention for president. He was a leading possibility for the vice-presidential nomination on the Taft ticket, but declined to consider the proposition. In 1908 he was renominated for governor and again elected. He did not finish his second term. On May 2, 1910, President Taft appointed him an associate justice of the United States Supreme court.

Simplicity is the keynote of the home life of Mrs. Charles E. Hughes. Her home is elegant but unpretentious, with a quiet, restful presence which makes the privilege of entrance one to be courted. Mrs. Hughes is not in any sense a clubwoman. She is devoted to her husband and family and has little time to give to clubs and societies.

They are the parents of the first baby to be born in the executive mansion at Albany. Their children are, respectively, Charles Evans, Jr., Helen, Katherine and Elizabeth. They were married in Brooklyn when Mr. Hughes was twenty-six years of age and four years after he had graduated from Columbia Law school. There is a story afloat that the young lawyer never called at the home of the then Miss Antoinette Carter until after they were engaged. Hughes was too proud to pay formal attention to the daughter of the man whose salaried employee he was and so the courtship was in effect suspended until the young man had won a place in the firm.

Hughes Earned Big Fees.

Hughes was not obliged to wait very long for this new dignity of position and such was his ability that ere long all the more intricate portions of the legal work of the firm were transferred to him. From the outset, Mrs. Hughes, who is a graduate of Wellesley, and, of course, comes of a legal family, was of real assistance to her husband in his career. Although Hughes, when compared to many less able legal lights has never been much of a money-getter, he was ere he had reached his thirtieth year receiving an income of $20,000 to $30,000 per year.

Justice Charles E. Hughes was widely discussed as a presidential candidate in 1912, but he refused consistently to allow his name to be used. His idea in this connection, that the Supreme court must not be dragged into politics, was set forth in a letter written by Rabbi Stephen S. Wise of New York, a personal friend.

It may not be generally known that Mr. Hughes is a trustee of the University of Chicago, a position to which he was elected in February, 1914. His election was to fill the vacancy caused by the resignation of Dr. Thomas W. Goodspeed and was in accordance with the rules of the institution, which require the presence of at least fourteen Baptists on the board.

Some Views by Hughes.

"I believe in work, hard work and long hours of work. Men do not break down from overwork, but from worry and dissipation.

"I notice that most successful men are those whose minds are always cool, who, no matter how swift the movements of their bodies, are able to deliberate coolly and to produce calm, sober judgment even under disturbing circumstances. It is not the man who reaches the corner first who wins, but the man who knows exactly what he is going to do when he reaches the corner.

"I regard a successful man as one who has utilized to its fullest extent the best ability in him. One man may have great ability as a money-maker; then he would be successful when he had made much money. Another man may have ability as an artist; he is successful when he has won fame by his art. If a man leaves any one of his talents to lie idle he is not a successful man. Mere money-making is a poor sort of success.

"My views on religion are not what most of my church friends would regard as orthodox. In fact, I have rather free views, but I recognize that we have in the church the greatest conservative force in our affairs, and if for no other reason than this, I feel that it should be supported. There is a lot of cant about it, but it has a great power for good, whether one agrees or not with the teachings of its ministers."

What's Doing in Minnesota

Duluth. — The fraternal Order of Eagles, holding their annual state convention here, adjourned after choosing Faribault as the meeting place for 1917, and electing state officers.

Balaton. — John B. Shequin, 107 years old, is dead at the home of his son here. His widow is 98 years old. They were the oldest couple in Minnesota and were married seventy-eight years ago.

Duluth. — With the arrival of the St. Paul, Minneapolis, Brainerd and Bemidji delegations to the state convention of Elks, the city began to take on a gala appearance. The local club was on hand in full force to welcome the visitors.

Minneapolis. — Lieutenant Colonel William Gerlach, member of the United States army for more than sixty years and reputed to be the oldest regular soldier in the United States, is dead at his home here, at the age of 80 years.

Lake City. — Death soon will have lost its sting. James Scott of this city is planning a series of disk phonograph records for use at funerals in remote districts. The records will contain a funeral oration, a song by a quartet and a prayer.

Moorhead. — A hundred automobile parties left Moorhead for Detroit, Minn., to attend the annual combined meetings of the Minnesota Livestock association, the Red River Valley Live stock association, and the Red River Valley Development association.

St. Paul. — Mrs. Walter J. Smith has accepted a position from the state printing commission. Thrown upon her own resources soon after her husband was sentenced to an indeterminate term in the state prison for misuse of funds while state treasurer, she sought employment to provide a living for herself and her daughter.

Chisholm. — The election of M. B. Remley of Moorhead as second vice president of the State Firemen's association gave that city the 1919 convention of the organization, the officers being advanced so that each year the president is named from the city to entertain the convention.

Mankato. — The skeleton of a tall man has been unearthed close to the Minnesota river, above the mouth of the Blue Earth, by the washing of the river. It is thought to be that of one of the early French voyagers, who established a fort at the juncture of the two rivers more than two hundred years ago.

St. Paul. — Bank loans in St. Paul are at the highest point in their history and a continuation of the present prosperity in business is predicted by the leading bankers. It has taken the banks almost two years to overcome the big surplus released by the institution of the Federal Reserve banks.

St. Paul. — Governor Burnquist, Dean Woods of the agricultural college, Carlos Avery, executive agent of the state fish commission, E. V. Willard, acting state drainage engineer of the state highway commission, and John B. Irwin of Minneapolis compose the Twin City delegation to the development convention in Detroit, Minn.

Detroit. — Minnesota was foreseen as the greatest dairying district in the world, rivaling that which formerly was Belgium's and which now is Switzerland's, in the principal address of the conventions of the Minnesota Live Stock Breeders' association, the Red River Valley Live Stock Breeders' association and Red River Valley Development association, in joint session here, by John B. Irwin, Minneapolis.

St. Paul. — Rural credits, good roads, schools and drainage were the chief subjects of discussion at the first annual meeting of the All-Minnesota Development association, which opened at the House chamber of the Capitol Thursday.

Governor Burnquist discussed "All Minnesota" in his address of welcome. F. W. Murphy, president of the association, responded on "Community Co-operation."

Morton. — Despite frequent showers, members of the Renville County Pioneers' association gathered in a big tent just purchased by the association and heard addresses by Secretary of State Julius Schmahl, Frank B. Kellogg, who discussed national conditions; former State Auditor Samual G. Iverson, who praised the loyalty of foreign-born Americans, and Governor Burnquist, who made an address of reminiscences.

Virginia. — By unanimous vote Virginia miners have decided to strike for higher wages and better working conditions. W. D. Scarlit of Chicago is in charge of the strike. The demands are $3.50 in wet places, $3 for dry places and $2.75 on surface work. At a meeting attended by more than 1,000 citizens, the striking miners, who marched into the city from other towns, were given orders to leave the city and advised that officers would compel them to leave if they refused.

White Earth.—Sioux and Chippewa or Ojibwa Indians, once foes, have buried the hatchet anew at a celebration marking the forty-eighth anniversary of the settlement of the Chippewas here. The reunion and council fire is an annual event on the reservation.

Fort Snelling. — Proposed plans for the location of a $20,000,000 nitrate plant by the United States government at Fort Snelling received encouragement when Congressman Van Dyke of St. Paul received a personal letter from President Wilson asking for data concerning the site.

SCHOOLS AGAIN ON HONOR ROLL

UNIVERSITY AND ST. THOMAS COLLEGE RANKED AMONG TEN BEST IN UNITED STATES.

EVENTS AT STATE CAPITOL

Interesting and Important Happenings of the Past Few Days Selected and Arranged for the Convenience of Busy Readers.

St. Paul.

The University of Minnesota and the College of St. Thomas have both been honored by being named as among the 10 best military schools, in their respective classes, in the United States, according to advices received here by the heads of the two institutions.

The University cadets have been placed on the "distinguished" roll for the third successive year, and through this are entitled to three second lieutenancies in the regular army.

The men to receive the commissions will be chosen from the list of honor cadet officers graduating in the classes of 1914, 1915 and 1916. Ten land grant colleges are placed on this list each year.

The St. Thomas lads have been placed for the second successive time on the honor roll of preparatory military schools of the nation, this entitling the school to the privilege of competing for one of five West Point appointments granted these 10 schools each year

* * *

Bumper Crops In Sight.

Minnesota crop prospects are good. Small grains are in excellent condition and coming fast. Excessive wet caused some backwardness and cut acreages to some extent, but general conditons are now very satisfactory. Prospects for fruit and berry crops are excellent. Pastures are fine and hay is abundant.

Prospects of a good corn crop in Minnesota are not bright this year, according to reports received by Fred D. Sherman from thirty-four counties of the state, and the acreage has been cut down in many of the counties this year from 10 to 35 per cent. Red Lake county is the one exception to this rule, the report on the crop in that county being that the corn acreage is increased 5 per cent this year as compared with last year.

The bright side of the report is that while corn is backward owing to the cold, wet spring, small grains show increased acreage everywhere and there is an abundance of pastures.

* * *

Flower and Fruit Bodies Meet.

A joint session of the Minnesota State Horticultural society and its auxiliaries, the Minnesota State Garden Flower society, the Minnesota State Beekeepers' society and the Minnesota State Forists' society will be held at the University farm, June 23.

The main room of the gymnasium will be used for the fruit and flower display. Following the exhibit the flowers will be distributed to Twin Cities hospitals.

A number of demonstrations, including one by Prof. Francis Jager, apiculturist, and spraying experiments are on the program. A picnic dinner and inspection of the grounds will be features.

* * *

Re-decorate Capitol.

After more than twenty months of constant painting and plastering, the ground floor of the State Capitol and the basement have been put into good condition. The cost of the work has been between $5,000 and $6,000. Two painters have been employed constantly, and part of the time men were busy painting over the frescoed designs.

* * *

Fraternal Societies Gain.

Fraternal beneficiary associations in Minnesota issued 2,739 more certificates in 1915 than in 1914, according to the annual report just issued by S. D. Works, commissioner of insurance. The total number of new certificates issued in 1915 was 27,147 and in 1914, 24,408.

* * *

Burnquist Gets Relic.

Henry Buck, one of the pioneers of Minnesota, and now a resident of Le Sueur, has presented to Governor Burnquist a bullet from one of the old Russian muskets used by the early settlers of Le Sueur in defending themselves against the Indians.

* * *

Interprets Workmen's Act.

The workmen's compensation act was further interpreted by the supreme court when that tribunal ruled that the act has no application to a child adopted by a widow after her husband's death.

* * *

Summer Sessions Begin.

Summer sessions of three University departments, the arts college, the agricultural college and the medical school are open.

* * *

Urges Vaccination.

"Vaccination for typhoid fever immunity before taking a vacation is urged by Dr. H. M. Bracken, secretary of the state board of health, in a special bulletin. "Vacationists can make sure the resorts they select are sanitary and supplied with pure milk and water," said Dr. Bracken, "but the only method of obtaining absolute assurance against typhoid fever carriers is in vaccination." The bulletin adds that typhoid vaccine is made at the department laboratories on the University of Minnesota campus and issued free.

Economy.

"You spend entirely too much money on dress," said the man of the house. "That simple little frock Mrs. Smythe wore last night looked a great deal better than that elaborate gown of yours."

"Of course it did, my dear," replied his wife sweetly. "That simple little frock, as you call it, cost three hundred dollars, while mine cost only a hundred and fifty."

"Well, for the love of Mike, go out and buy one about twice as elaborate as the one you've got. Maybe you can get it for nothing."

Business.

"What's in a name?"

"There's money in it. Any man who can think up a good name for a breakfast food can buy sawdust in carload lots and sell it in pound packages at a handsome profit."

Qualifications.

Stella—The ostrich doesn't see much and digests everything.

Bella—What an ideal husband!

Hanford's Balsam of Myrrh is itself an antiseptic and the use of any other remedy before applying it is unnecessary. Adv.

Not Harmonizing.

"The man I am engaged to has been terribly wild, but is going to turn over a new leaf."

"Don't trust such a bad color scheme. Rosy futures seldom grow on purple pasts."

Important to Mothers
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of Chas. H. Fletcher
In Use for Over 30 Years.
Children Cry for Fletcher's Castoria

Might Help.

"I find it almost impossible to keep the wolf from the door!"

"Do you ever try eating an onion?"

For galls use Hanford's Balsam. Adv.

Relief for the Country.

"Give your vacation to your country." And thereby give a little unexpected relief to your country relatives.

IF YOU OR ANY FRIEND
Suffer with Rheumatism or Neuritis, acute or chronic, write for my FREE BOOK on Rheumatism—Its Cause and Cure. Most wonderful book ever written, it's absolutely FREE. Jesse A. Case, Dept. C. W., Brockton, Mass.—Adv.

Changing Maps.

Church—Maps of Greenland have shown it to be about 150,000 square miles larger than formerly believed.

Gotham—Great guns! Has Greenland been carrying on a successful war?—New York Mail.

For fresh cuts apply Hanford's Balsam. Adv.

Saving.

"Old Van Gelder began life as a poor boy, and look at him now. He's worth millions."

"He saved every cent he earned, I suppose."

"Yes, and some that other people earned besides."

HOW TO TREAT DANDRUFF

Itching Scalp and Falling Hair With Cuticura. Trial Free.

On retiring touch spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. A clean, healthy scalp means good hair and freedom, in most cases, from dandruff, itching, burning, crustings and scalings.

Free sample each by mail with Book. Address postcard, Cuticura, Dept. L, Boston. Sold everywhere.—Adv.

Solicitude.

"Of course, you admire the dove of peace."

"Very much. But I don't know whether I care to see it flourishing around under present perilous conditions and running the risk of becoming extinct."

For proud flesh use Hanford's Balsam of Myrrh. Adv.

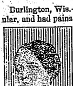
Explained It.

"Father, what is meant by peanut politics?"

"A gubernatorial campaign."

PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and How She was Cured.



Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sanative Wash I am fully convinced that I am entirely cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to restore woman's health and strength.

If there is any peculiarity in your case requiring special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice.

Don't Persecute Your Bowels

Cut out cathartics and purgatives. They are brutal, harsh, unnecessary. Try

CARTER'S LITTLE LIVER PILLS

Purely vegetable. Act gently on the liver, eliminate bile, and soothe the delicate membrane of the bowel. Cure Constipation, Biliousness, Sick Headache and Indigestion, as millions know.

CARTER'S
LITTLE
LIVER
PILLS.

SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature

Brent Good

SWAMP-ROOT Is not recommended for everything; but if you have kidney, liver or bladder trouble it may be found just the remedy you need. At druggists in fifty cent and dollar sizes. You may receive a sample size bottle of this reliable medicine by Parcel Post, also pamphlet telling about it. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents, also mention this paper.

CANCER

Tumors and Lupus successfully treated without knife or pain. All work guaranteed. Come, or write for Free Illustrated Book

Dr. WILLIAMS SANATORIUM
2900 University Av., Minneapolis, Minn.

W. N. U., Minneapolis, No. 26-1916.

Proper Sign.

"I think instead of tobacco stores having them, cut-rate ticket offices ought to have wooden Indians as signs."

"Why so?"

"To show there is a scalping business going on inside."

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

Cautious.

"Don't you think her gown is too short?"

"Well, I'd hardly go so far to say that; but I do think her limbs are ruther long."

Some men take their politics more seriously than their pudding.

Bumper Grain Crops

Good Markets—High Prices

Prizes Awarded to Western Canada for Wheat, Oats, Barley, Alfalfa and Grasses

160 ACRE

WESTERN
CANADA
FREE

The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa.

No less important than the splendid quality of Western Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that country. A recent shipment of cattle to Chicago topped the market in that city for quality and price.

Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, exceptional social conditions, perfect climate and other great attractions. **There is no war tax on land and no conscription.**

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3,1879

The poles at the Primary election in the town of Highlanding, opened promptly on time Monday morning, and the votes began to be cast for favorite candidates. No Democratic tickets were called for until about 12:30 M., when the disciple of the Democratic party, postmaster at Eric, Ed Singer, walked up to the poles and called for a Democratic ticket, and it was not necessary for him to take off his hat in order for those present to observe that his head slanted toward a peak on top. Bear in mind that WM. G. HUNT Postmaster at Sunbeam had voted previous to this time, and that Edward Singer, Postmaster at Eric, has the doubtful honor of polling the first Democratic vote cast at the Primary election in the town of Highlanding.

Congressman Steenerson has secured the passage of a bill in the House allowing the construction of a permanent bridge at Hendrum over the Red River. Such a bridge would be a great convenience. At present low bridges are put in all along the Red river, which have to be removed during high water. — Norman County Index.

The above is the kind of a bridge that the town of Highlanding want to get permission to build at Highlanding, and it seems that we had ought to get it, and we believe we will get the permission granted in the near future.

Before the close of the November campaign the Democratic party may regret the treatment that they have handed out to Bryan. But they have gone far enough to stir up the Irish in Bryan enough so that his voice will be heard with a long enough echo to reach to every voter in the United States, before the November election, and he will not use any "soft soap" in explaining the mistakes made by President Wilson, in the management of this government for the past three years. Bryan would pole more votes next fall as the Democratic nominee than Wilson will.

Straws tell which way the wind blows, and judging from the way straws blew in the town of Highlanding Monday, the people have got their fill of Donkey management. Of course the principle part of the complaint is not against President Wilson himself, but against the gang that he has made bosses of the mail service of this territoty, and as near as we can learn the same condition of affairs exists from California to Maine, and the people are going to vote for a change.

There is no complaint being made by the rank and file of the Republican party of the nominations made by that party for election in November, and the people will ratify those nominations from Hughes to Pound master.

It is amusing to hear the Democratic donkey roar about adopting the Progressive vote, that voted for Roosevelt four years ago. Roosevelt is one of those voters and we are another, come on and capture us to vote for Wilson.

The people living on the north side of Red Lake River voted nearly solid for a change of administration, so as to get better mail service. The way their mail service is now arranged they get only tri-weekly service, in place of daily service, which they could have at exactly the same expense to the government, as their present mail service, if the driver went down to Kratka on the north road and returned by the south road, but of course that way would not give all of the cancellation of the territory to their friend Stephen, Postmaster at Kratka. Is it any wonder that people will vote nearly solid for justice and fairness, instead of a mail service of this kind to favor an individual?

$10,000 Show.

GIGANTIC BUILDING MATERIALS EXHIBIT TO BE DISPLAYED AT THE MINNESOTA STATE FAIR.

A gigantic building materials exhibit costing over $10,000 is to be shown at the Minnesota State Fair, Sept. 4 to 9, to demonstrate the value of lumber in the building of homes. So large is it that it will fill the entire north annex of the Woman's Building.

Nine complete model houses, constructed in detail and landscaped with flowers and shrubs, will be displayed. There will be a large supplementary exhibit of related building materials, consisting of equipment, labor saving devices, finish trim and other home building accessories. Experts in charge, will explain the exhibits to visitors.

The model houses were built originally by the lumber dealers of Cleveland, Ohio, as an exhibit at the Ohio Lumber Dealers' Convention. It is to be shown at the Minnesota State Fair as a result of the joint effort of the White Pine Bureau, representing the Northern Pine Manufacturers of Minnesota, Wisconsin and Michigan and the Association of White Pine Manufacturers of Idaho.

DOES SLOAN'S LINIMENT HELP RHEUMATISM?

Ask the man who uses it, he knows. "To think I suffered all these years when one 25 cent bottle of Sloan's Liniment cured me," writes one grateful user. If you have Rheumatism or suffer from Neuralgia, Backache, Soreness and Stiffness. don't put off getting a bottle of Sloan's. It will give you such welcome relief. It warms and soothes the sore, stiff painful places and you feel so much better. Buy it at any Drug Store, only 25 cents.—Adv.

Crowd of a Million.

It has been estimated that a million persons assembled in a crowd, with due allowance of three square feet a person, would cover an area of about seventy acres.

WILL MY CHILD TAKE DR. KING'S NEW DISCOVERY?

This best answer is Dr. King's New Discovery itself. Its a pleasant sweet syrup, easy to take. It contains the medicines which years of experience have proven best for Coughs and Colds. Those who have used Dr. King's New Discovery longest are its best friends. Besides every bottle is guaranteed. If you don't get satisfaction you get your money back. Buy a bottle, use as directed. Keep what is left for Cough and Cold insurance.—Adv.

WELL CHILDREN ARE ACTIVE.

If your child is dull, pale, fretful and wants to lie around, the chances are it is suffering from worms. Kickapoo Worm Killer, a pleasant candy confection, liked by all children is what your child needs. You only give one-half to one lozenge at a time and you get immediate results. Every mother should have a box on hand. 25c. at all druggists.—Adv.

CITATION FOR HEARING ON PETITION FOR ADMINISTRATION.
ESTATE OF HERMAN V. LARSON
STATE OF MINNESOTA. COUNTY OF PENNINGTON IN PROBATE COURT.

In the Matter of the Estate of Herman V. Larson Decedent.

THE STATE OF MINNESOTA To Mabel Viola Larson, Elmer Victor Larson and all persons interested in the granting of administration of the estate of said decedent:

The petition of Mabel Viola Larson having been filed in this Court, representing that Herman V. Larson, then a resident of the County of Pennington State of Minnesota, died intestate on the 18th. day of May 1916, and praying that letters of administration of his estate be granted to Andrew I. Olson and the Court having fixed the time and place for hearing said petition:

THEREFORE, YOU, AND EACH OF YOU, are hereby cited and required to show cause, if any you have, before this Court at the Probate Court Rooms in the Court House, in the City of Thief River Falls in the County of Pennington, State of Minnesota, on the 1st. day of July 1916, at 10 o'clock A. M., why said petition should not be granted.

WITNESS, the Judge of said Court, and the Seal of the said Court, this 3d day of June 1916.

[COURT SEAL] Wilhelm Michelet
Probate Judge.

"How do you account for his remarkable success?"

"I don't know unless it was that he was always too busy on his own work to stop and spend time trying to account for the success of others."—Detroit Free Press.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

HELPING THE PRESIDENT.

John Cheerfully Backed McKinley In a Diplomatic Crisis.

At the time of the Boxer rebellion President McKinley was taking a needed rest at his home in Canton, O. The long distance telephone was situated between two windows running to the floor of the room. Under one of them, projecting from the foundation of the house, was a faucet of water to the lawn. One morning the president was called to the long distance telephone by Secretaries Hay and Root. A message had been received in Washington from the czar of all the Russias and the German emperor. It requested that the president of the United States should place the American soldiers under the command of Count Waldersee, the German general, in order to insure harmony of action on the part of the allied armies.

There was some paving going on in the street opposite the house, and as the day was warm the workmen became thirsty, so one of their number was sent for water. While the chief executive was consulting with his secretaries concerning this important matter over the telephone, John walked up, hung his pail on the faucet and turned on the water. The water running into the pail made a great deal of noise and disturbed the president, the windows being open. He asked his secretaries to wait a moment, and then, leaning forward and looking out of the window, said:

"John, that water running in the pail makes a very disturbing noise, and I am busy talking over the long distance telephone. Please turn it off for a few moments."

"All right, major," replied John, and turning off the water he filled his pipe and lighted it, and then, sitting down with his back to the house, listened to the conversation which the president was carrying on.

Here was the ruler of a hundred millions of people engaged in the transaction of most important and serious public business, and there was a common laborer intruding himself into the transaction, but McKinley was not impatient, nor did he resent this interference. He dictated to his secretaries over the telephone the reply, consenting that the American troops should be placed under the command of the German general on the condition that this government at any time reserved the right to revoke the permission, provided the policy of the army so commanded ran in any way counter to the ideas of the United States.

Having dictated this important dispatch, the president hung up the receiver.

"John," he said, "I am through now, and you can turn on the water again."

John did so and then, leaning on the window sill, said:

"Major, I hope you are going to settle that Chinese question all right. You don't need to be too dern fielding, for all of us boys are behind you."—New York Times.

Notice For Publication.

First Pub. in The Sunbeam May 12th 1916

Department of the Interior. U. S. Land Office at Crookston Minn. May 3, 1916. Notice is hereby given that Fred Olson of Neptune, Minn. who on June 7th, 1912, made Homestead application Serial No. 08075 for E½ SE¼ and S½ NE¼, Section 1, Township 152, N. Range 39 W. 5th, Principal Meridian has filed notice of intention to make Commutation proof to establish claim to the land above described, before Wilhelm Michelet U. S. Commissioner, for District of Minnesota, at Thief River Falls, Minnesota, on the 21st. day of June, 1916.

Claimant names as witnesses:

John Mostrom, John J. Lunblad Swan Arveson, Albin Arveson, all of Neptune, Minn.

Proof made under act of June 6, 1912.

PETER M. RINGDAHL
Register.

Well Named.

"What do you call your dog?"

"Stock Market."

"What a peculiar name! Any particular reason?"

"I should say so. Most unreliable dog you ever saw. You can never tell what he's going to do next."—Life.

CLEAR SKIN COMES FROM WITHIN.

It is foolish to think you can gain a good clear complexion by the use of face powder. Get at the root of the trouble and thoroughly cleanse the system with a treatment of Dr. King's New Life Pills. Gentle and mild in action, do not gripe, yet they relieve the liver by their actions on the bowels. Good for young, adults and aged. Go after a clear complexion to-day. 25c at your druggist.-adv.

THE SUNBEAM.

MINNESOTA
HISTORICAL
SOCIETY

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JUNE 30, 1916. NO. 16

THE LOCAL NEWS

Mr. and Mrs. T. S, Jacobson, were Goodridge visitors Tuesday.

Miss Marie Causin and Otto and Harry Causin visited at Sunbeam, on last Sunday.

Mr. and Mrs. W. A. Swanson and family, of Deer Park, were visitors at the Walter McAndress home on Sunday last.

R. R. Johnson, proprietor of the Goodridge meat market, was buying cattle in this locality, on Thursday.

Mr. Nelson is putting a water proof roof on his 4th of July bowery, so that the big bowery ball can be given rain or shine.

Karl Korstad has a Ford auto truck, and does all his own hauling of goods, from Thief River Falls to Highlanding.

The ferry at Highlanding is now in fairly good condition for the ferrying of teams across the river at that point.

If it don't rain all day on July 4th, come up to the bowery at Highlanding, and take in the Independence Day celebration.

Beer can now be obtained at the Rhoda post office, by giving old George the wink. Who says eastern Pennington County is not up to date?

Alfred Anderson and family, of Deer Park township, have removed to Trail, Polk County, so as to get up on the sand hills, out of the floods.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

Dedication Services were held at the new Catholic Church at Goodridge yesterday, conducted by Rev. Father Adolph Dingman, of Thief River Falls.

Andrew Ellingson has plenty of timothy and clover seed for sale, to seed down your river bottom lands, where the tame grass has been killed out by the floods this season.

We understand that the Rhoda "nubbin" has not been exhibiting the picture of A. G. Anderson to the farmers lately, as "our next Congressman.

The big county line ditch, through Deer Park and Mayfield townships, is not big enough to drain the territory tributary to it, and there is an attempt being made to make a cut-off into the Clearwater River.

The continual high water in the Red Lake River will keep the meadow lands along its banks flooded so bad that the hay crop will be destroyed. But the continued wet weather has increased the crop on higher lands enough to make up for the loss on the meadow lands.

Attorney Ira C. Richardson of Thief River Falls, will deliver the 4th of July oration at the Highlanding bowery, at 11 o'clock A. M. Mr. Richardson is a good orator, and you will enjoy hearing the history of America, as delivered by him.

One of our usual heavy rain storms visited this locality last night, but it will not do any particular damage to crops, as the line was pretty well drawn between high and low land before, and there is not now any grain growing on land low enough to be affected by any ordinary heavy rains that we have been having with such persistant regularity this season, that we are beginning to get so much accustomed to them, that we would be lonesome if it failed to rain at least three times a week.

Bites the hand that feeds him,

Edward Singer, ex-fireman, and present Postmaster at Erie, accompanied by the Rhoda "nubbin" were on the way to Thief River Falls on Monday, to have the Editor of THE SUNBEAM promptly arrested and dealt with according to law, for the publication of a news item on information furnished the Editor that the famous Edward had voted a Democratic ticket. Since getting the returns from the Primaries, they begin to see that the defeating of Steenerson is a big undertaking, and now want to back out. We of course could not swear that the ex-lamp exploder in heavily insured buildings voted the Democratic ticket, but we asked the town board who had called for a Democratic ticket, and were informed that it was Edward Singer. This shows how much thanks and returns the Democratic party are getting for compelling the people living on the north side of Red Lake River to have their mail go one way one day, and another way the next day, making a three times a week mail service, instead of a daily mail service, by having the mail go down one road and come back another road, which has the appearance of having been done in order to give all of the cancellation of the stamps of the territory to the Democratic delegate, Postmaster at Kratka. The mail route on the south side of the river, put in, in opposition to the petitions of the people, the recommendations of the Postmaster at the head of the route and Congressman Steenerson, which compels the farmers three times a week mail service to lay over two or three days at Sunbeam postoffice has been fully aired in these columns before.

But now after all of these favors the old man Singer and the worthy son of a worthy sire, Postmaster at Erie, want the Editor of THE SUNBEAM arrested for happening to publish that he voted a Democratic ticket. He had ought to feel proud of the fact that he done what he could to return all the favors shown the Singer trio by the present powers that be, and such base ingratitude is enough to make the bones of Grover Cleveland turn in the grave.

WHERE THEY WILL GO.

Now that the Progressive Party have joined the ranks of the dead ones, the same as the People's Party did, there is no one can tell, with what party its members will affiliate. As, for instance, the People's Party of 1892-1894 in northern Minnesota. We find P. M. Ringdal, present Register of the U. S. Land Office at Crookston, one of the People's Party leaders, and Martin O'Brien, L. E. Gossman and many others turned to the Democratic Party, while Senator D. P. O'Neill and many of the prominent leaders of that time, turned back into the Republican Party. So we say, there is no one man, or body of men, that can deliver the votes of the Progressive Party to either of the other parties, as some of them will go back into the Republican Party, others to the Democratic Party, and others to the Socialist and Prohibition Parties.

Seeding was stopped for this year, this week, by limitation of time, with quite a large amount of land that will not be seeded this year, in this township, and a larger amount in Hickory township, which have been kept flooded by the Red Lake River.

Celebrate July 4th three-fourths of a mile east and one half mile south of Highlanding.

There will be a fine program. In the forenoon speeches will be made, and in the afternoon there will be a base ball game, Tug O War, Races, and boat rides. A large bowery is being built for dancing. Everybody come and have a good time.

White Seal Beer for Family Use

		PER CASE
SPECIAL WHITE SEAL (Brewed Specially for Family Use)	24 large or 36 small	$3.95
WHITE SEAL	24 large or 36 small	3.70
RED RIBBON	24 large or 36 small	3.45
		PER CARTON
WHITE SEAL SPECIAL	12 large	$2.00
WHITE SEAL	12 large	1.75
	(No refund on cartons)	
		PER CASK
WHITE SEAL SPECIAL	72 large or 120 small	$11.25
WHITE SEAL	72 large or 120 small	10.50
RED RIBBON	72 large or 120 small	9.75
SUNSET	36 small (case)	3.50
SUNSET	120 small (cask)	9.70

A refreshing and wholesome drink, containing less than one-fourth of one per cent of alcohol. Put up in quarts on request. Can be sold in all places where soft drinks are sold.

CREAM OF MALT TONIC	25 bottles (case) Refund for Empties, $1.00	$2.75
CREAM OF MALT TONIC	12 bottles (cartons) (No refund on Cartons)	1.50

Cream of Malt tonic is universally endorsed by physician as a mild and beneficial drink, and tired, overworked or nursing mothers will find it a boon as it supplies strength and vitality.

KEG BEER	one-half Barrel	$5.25
KEG BEER	one-fourth Barrel	3.15

Rebate On Empty Packages.

We will allow $1.20 rebate on empty cases and bottles, and $3.00 on empty casks and bottles. Refund of $1.00 for each ½ and ¼ bb's. When returning empties, be sure to mail us shipping receipt and voucher covering amount of empties you have shipped.

WILSON'S REPLY TO RECALL DEMAND THREATENS CARRANZA WITH WAR

GIVES MEXICANS WARNING NOT TO ATTACK SOLDIERS

PRESIDENT SENDS SCORCHING ANSWER TO DE FACTO CHIEF —LONG NOTE IS INTENDED FOR THE PEOPLE.

"GRAVE CONSEQUENCE" SEEN

Wilson Refuses to Recall Punitive Expedition—Excoriates Carranza for Failure to Co-operate and Resents Intimations of Bad Faith.

The American government in a long note replying to the latest Mexican withdrawal demand, has threatened General Venustiano Carranza with "the gravest consequences" if he attacks American troops now in Mexico.

The text of the note follows:

"The secretary of state to the secretary of foreign relations of the de facto government of Mexico:

"Department of State,
"Washington, June 20, 1916.

"Sir: I have read your communication which was delivered to me on May 22, 1916, under instructions of the chief executive of the de facto government of Mexico on the subject of the presence of American troops in Mexican territory and I would be wanting in candor if I did not, before making answer to the allegations of fact and the conclusions reached by your government, express the surprise and regret which have been caused this government by the discourteous tone and temper of this last communication of the de facto government of Mexico.

United States Regrets Revolution.

"The government of the United States has viewed with deep concern and increasing disappointment the progress of the revolution in Mexico. Continuous bloodshed and disorders have marked its progress. For three years the Mexican republic has been torn with civil strife; the lives of Americans and other aliens have been sacrificed; vast properties developed by American capital and enterprise have been destroyed or rendered nonproductive; bandits have been permitted to roam at will through the territory contiguous to the United States and to seize, without punishment or without effective attempt at punishment, the property of Americans, while the lives of citizens of the United States who ventured to remain in Mexican territory or to return thereto to protect their interests have been taken, in some cases barbarously taken, and the murderers have neither been apprehended nor brought to justice. It would be difficult to find in the annals of the history of Mexico conditions more deplorable than those which have existed there during these recent years of civil war.

Frontier in Turmoil.

"It would be tedious to recount instance after instance, outrage after outrage, atrocity after atrocity, to illustrate the true nature and extent of the widespread conditions of lawlessness and violence which have prevailed. During the murderers have neither been appreular the frontier of the United States along the lower Rio Grande has been thrown into a state of constant apprehension and turmoil because of frequent and sudden incursions into American territory and depredations and murders on American soil, by Mexican bandits, who have taken the lives and destroyed the property of American citizens, sometimes carrying American citizens across the international boundary with the booty seized. American garrisons have been attacked at night, American soldiers killed and their equipment and horses stolen. American ranches have been raided, property stolen and destroyed and American trains wrecked and plundered.

Uncivilized Acts Perpetrated.

"The attack on Brownsville, Red House Ferry, Progreso postoffice and Las Peladas, all occurring during September last, are typical. In these attacks on American territory Carranzista adherents and even Carranzista soldiers took part in the looting, burning and killing. Not only were these murders characterized by ruthless brutality, but uncivilized acts of mutilation were perpetrated. Representations were made to General Carranza and he was emphatically requested to stop these reprehensible acts in a section which he has long claimed to be under the complete domination of his authority.

"Notwithstanding these representations and the promise of General Nafaretto to prevent attacks along the international boundary, in the following month of October a passenger train was wrecked by bandits and several persons killed seven miles north of Brownsville and an attack was made upon United States troops at the same place several days later.

Outlaws Enjoy Liberty.

"Since these attacks leaders of the bandits, well known both to Mexican civil and military authorities as well as to American officers, have been enjoying with impunity the liberty of the towns of northern Mexico. So far has the indifference of the de facto government to these atrocities gone that some of these leaders, as I am advised, have received not only the protection of that government, but encouragement and aid as well.

"Depredations upon American persons and property within Mexican jurisdiction have been still more numerous. This government has repeatedly requested in the strongest terms that the de facto government safeguard the lives and homes of American citizens and furnish the protection, which international obligation imposes, to American interests in the northern states of Tamaulipas, Neuvo Leon, Coahuila, Chihuahua and Sonora and also in the states to the south.

Activities Known to Officers.

"For example, on Jan. 3, troops were requested to punish the bands of outlaws which looted the Cusi mining property, 80 miles west of Chihuahua, but no effective results came from this request. During the following week the bandit Villa with his band of about 200 men was operating without opposition between Rubio and San Ysabel, a fact well known to Carranzista authorities.

"Meanwhile a party of unfortunate Americans started by train from Chihuahua to visit the Cusi mines, having received assurances from the Carranzista authorities in the state of Chihuahua that the country was safe and that a guard on the train was not necessary. The Americans held passports or safe conducts issued by authorities of the de facto government."

Recalls Massacre.

On Jan. 10 the train was stopped by Villa bandits and 18 of the American party were stripped of their clothing and shot in cold blood in what is now known as "the Santa Ysabel massacre." General Carranza stated to the agent of the department of state that he had issued orders for the immediate pursuit, capture and punishment of those responsible for this atrocious crime, and appealed to this government and to the American people to consider the difficulties of according protection along the railroad where the massacre occurred.

Assurances were also given by Mr. Arredondo, presumably under instructions from the de facto government, that the murderers would be brought to justice and that steps would also be taken to remedy the lawless conditions existing in the state of Durango.

Villa Not Intercepted.

"It is true that Villa, Castro and Lopez were publicly declared to be outlaws and subject to apprehension and execution, but so far as known only a single man personally connected with this massacre has been brought to justice by Mexican authorities.

"Within a month after this barbarous slaughter of inoffensive Americans it was notorious that Villa was operating within 20 miles of Cusihuiriachic and publicly stated that his purpose was to destroy American lives and property. Despite repeated and insistent demands that military protection should be furnished to Americans, Villa still openly carried on his operations, constantly approaching closer and closer to the border. He was not intercepted nor were his movements impeded by troops of the de facto government and no effectual attempt was made to frustrate his hostile designs against Americans.

Americans Pursued Band.

"In fact, as I am informed, while Villa and his band were moving toward the American frontier in the neighborhood of Columbus, N. M., not a single Mexican soldier was seen in his vicinity. Yet Mexican authorities were fully cognizant of his movements, for on March 6, as General Gavira publicly announced, he advised the American military authorities of the outlaw's approach to the border, in apparent recognition on its part of the desirability of putting an end to these systematic raids, or of punishing the chief perpetrators of the crimes committed because they menaced the good relations of the two countries. American forces pursued the lawless bands as far as Parral, where the pursuit was halted by the hostility of Mexicans, presumed to be loyal to the de facto government, who arrayed themselves on the side of outlawry and became in effect protectors of Villa and his band.

Resents Carranza Charges.

"In this manner and for these reasons have the American forces entered Mexican territory. Knowing fully the circumstances set forth, the de facto government cannot be blind to the necessity which compelled this government to act and yet it has seen fit to reiterate groundless sentiments of hostility towards the expedition and to impute to this government ulterior motives for the continued presence of American troops on Mexican soil.

"It is charged that these troops crossed the frontier without first obtaining the consent or permission of the de facto government. Obviously as immediate action alone could avail, there was no opportunity to reach an agreement (other than that of March 10-14, now repudiated by General Carranza) prior to the entrance of such an expedition into Mexico if the expedition was to be effective. Subsequent events and correspondence have demonstrated to the satisfaction of this government that General Carranza would not have entered into any agreement providing for an effective plan for the capture and destruction of the Villa bands."

Impeded Progress.

"While the American troops were moving rapidly southward in pursuit of the raiders, it was the form and nature of the agreement that occupied the attention of General Carranza rather than the particular object which it was to attain—the number of limitations that could be imposed upon the American forces to impede their progress rather than the obstacles that could be raised to prevent the escape of the outlaws.

"It was General Carranza who suspended through your note of April 12 all discussions and negotiations for an agreement along the lines of the protocol the United States and Mexico concluded during the period 1882-1886, under which the two countries had so successfully restored peaceful conditions on their common boundary. It may be mentioned here that, notwithstanding, the statement in your note that 'the American government gave no answer to the note of the 12th of April,' this note was replied to on April 14, when the department instructed Mr. Rogers by telegraph to deliver this government's answer to General Carranza.

Clearly a Mis-statement.

"Shortly after this reply, the conference between Generals Scott, Funston and Obregon began at El Paso, during which they signed, on May 2, a project of a memorandum 'ad referendum' regarding the withdrawal of American troops. As an indication of the alleged bad faith of the American government, you state that though General Scott declared in this memorandum that the destruction and dispersion of the Villa band 'had been accomplished,' yet American forces are not withdrawn from Mexico.

"It is only necessary to read the memorandum, which is in the English language, to ascertain that this is clearly a misstatement, for the memorandum states that 'the American punitive expeditionary forces have destroyed or dispersed many of the lawless elements and bandits or have driven them far into the interior of the republic of Mexico.'"

"And furthermore, the United States forces were then carrying on a vigorous pursuit of such small numbers of bandits or lawless elements as may have escaped.

Lansing Recites Agreement.

"The context of your note gives the impression that the object of the expedition being admittedly accomplished, the United States had agreed in the memorandum to begin the withdrawal of its troops. The memorandum shows, however, that it was not alone on account of partial dispersion of the bandits that it was decided to begin the withdrawal of American forces, but equally on account of the assurances of the Mexican government that their forces were 'at the present time being augmented and strengthened to such an extent that they will be able to prevent a disorder occurring in Mexico that would in any way endanger American territory' and that they would 'continue to diligently pursue, capture or destroy any lawless bands of bandits that may still exist or hereafter exist in the northern part of Mexico,' and that it would 'make a proper distribution of such of its forces as may be necessary to prevent the possibility of invasion of American territory from Mexico.'"

Planned Slow Withdrawal.

"It was because of these assurances and because of General Scott's confidence that they would be carried out, that he stated in his memorandum that the American forces would be 'gradually withdrawn.' It is to be noted, that while the American government was willing to ratify this agreement, General Carranza refused to do so, as General Obregon stated, because among other things, it imposed improper conditions upon the Mexican government.

"Notwithstanding the assurances in the memorandum it is well known that the forces of the de facto government have not carried on a vigorous pursuit of the remaining bandits and that no proper distribution of forces to prevent the invasion of American territory has been made as will be shown by the further facts hereinafter set forth.

"Does Not Desire Capture."

"I am reluctant to be forced to the conclusion which might be drawn from these circumstances that the de facto government in spite of the crimes committed and the sinister designs of Villa and his followers, did not and does not now intend or desire that these outlaws should be captured, destroyed or dispersed by American troops or, at the request of this government by American troops.

"While the conferences at El Paso were in progress and after the American conferences had been assured on May 2 that the Mexican forces in the northern part of the republic were then being augmented so as to be able to prevent any disorders that would endanger American territory, a band of Mexicans on the night of May 5 made an attack at Glenn Springs, Texas, about 20 miles north of the border, killing American soldiers and civilians burning and sacking property and carrying off two Americans as prisoners.

Instructed Obregon.

"Subsequent to this event, the Mexican government as you state, gave instructions to General Obregon to notify that of the United States that it would not permit the further passage of American troops into Mexico on this account, and that orders had been given to all military commanders along the frontier not to consent to same.'

"This government is, of course, not in a position to dispute the statement that these instructions had been given to General Obregon, but it can decisively assert that General Obregon never gave any such notification to General Scott or General Funston, or, so far as known, to any other American official. General Obregon did, however, inquire as to whether American troops had entered Mexico in pursuit of the Glenn Springs raiders and General Funston stated that no orders had been issued to American troops to cross the frontier on account of the raid, but this statement was made before any such orders had been issued, and not afterwards, as the erroneous account of the interview given in your note would appear to indicate. Moreover, no statement was made by the American generals that no more American troops would cross into your territory.

Shows Bandit Protection.

"On the contrary, it was pointed out to General Obregon and to Mr. Juan Amador, who was present at the conference, and pointed out with emphasis, that the bandits De la Rosa and Pedro Vina also had been instrumental in causing the invasion of Texas above Brownsville, were even then reported to be arranging in the neighborhood of Victoria for another raid across the border, and it was made clear to General Obregon that if the Mexican government did not take immediate steps to prevent another invasion of the United States by these marauders, who were frequently seen in the company of General Nafarrete, the constitutionalist commander, Mexico would find in Tamaulipas another punitive expedition similar to that then in Chihuahua.

"American troops crossed into Mexico on May 10, upon notification to the local military authorities, under the repudiated agreement of March 10-13 or in any event in accordance with the practice adopted over 40 years ago, when there was no agreement regarding pursuit of marauders across the international boundary.

Further Proof of Purpose.

"These troops penetrated 168 miles into Mexican territory in pursuit of the Glenn Springs marauders, without encountering a detachment of Mexican troops or a single Mexican soldier. Further discussion of this raid, however, is not necessary, because the American forces sent in pursuit of the bandits recrossed into Texas on the morning of May 22, the date of your note under consideration, a further proof of the singleness of purpose of this government in endeavoring to quell disorder and stamp out lawlessness along the border."

"During the continuance of the El Paso conferences, General Scott, you assert, did not take into consideration the plan proposed by the Mexican government for the protection of the frontier by the reciprocal distribution of troops along the boundary. This proposition was made by General Obregon a number of times, but each time conditioned upon the immediate withdrawal of American troops and the Mexican conferees were invariably informed that immediate withdrawal could not take place, and that therefore it was impossible to discuss the project on that basis.

All Allegations Denied.

"I have noted the fact that your communication is not limited to a discussion of the deplorable conditions existing along the border and their important bearing on the peaceful relations of our governments, but that an effort is made to connect it with other circumstances in order to support, if possible, a mistaken interpretation of the attitude of the government of the United States toward Mexico.

"You state in effect that the American government has placed every obstacle in the way of attaining the pacification of Mexico and that this is shown by the volume of diplomatic representations in behalf of American interests which constantly impede efforts to reorganize the political, economical and social conditions of the country, by the decided aid lent at one time to Villa by American officers and by the department of state, by aid extended by the American Catholic clergy to that of Mexico; by the constant activity of the American press in favor of intervention and the interests of American businessmen; by the shelter and supply of rebels and conspirators on American territory; by the detention of shipments of arms and munitions purchased by the Mexican government; and by the detention of machinery intended for their manufacture.

Replies to Charge.

"In reply to this sweeping charge, I can truthfully affirm that the American government has given every possible encouragement to the de facto government in the pacification and the rehabilitation of Mexico. From the moment of its record it has had the undivided support of this government."

Charges in Carranza's note to this government regarding influences in America that have sought to bring about intervention are answered by citation of inflammatory articles that have appeared in Mexican newspapers despite power of censorship held by Carranza.

"With the power of censorship," says the note, "so rigorously exercised by the defacto government, the responsibility for this activity cannot, it would seem, be avoided by that government and the issue of the appeal of General Carranza himself in the press of March 12, calling upon the Mexican people to be prepared for any emergency which might arise, and intimating that war with the United States was imminent, evidences the attitude of the defacto government toward these publications.

Doubtful of Purpose.

"It should not be a matter of surprise that, after such manifestations of hostile feeling, the United States was doubtful of the purpose for which the large amount of ammunition was to be used which the de facto government appeared eager to import from this country.

"However, the policy of the defacto government in refusing to co-operate and in failing to act independently in destroying the Villa bandits, or in otherwise suppressing outlawry in the vicinity of the border so as to remove the danger of war materials, while passing southward through this zone, falling into the hands of the enemies of law and order, is in the opinion of this government a sufficient ground, even if there were no other, for the refusal to allow such materials to cross the boundary into the bandit-infested region.

Hostility Unconcealed.

"Candor compels me to add that the unconcealed hostility of the subordinate military commanders of the defacto government toward the American troops engaged in pursuing the Villa bands and the efforts of the defacto government to compel their withdrawal from Mexican territory by threats and show of military force, instead of by aiding in the capture of outlaws constitute a menace to the safety of the American troops and to the peace of the border. As long as this menace continues and there is any evidence of an intention on the part of the defacto government or its military commanders to use force against the American troops instead of co-operating with them, the government of the United States will not permit munitions of war or machinery for their men to be exported from this country to Mexico.

Stands in True Light.

"Having corrected the erroneous statements of facts to which I have adverted, the real situation stands forth in its true light. It is admitted that American troops have crossed the international boundary in hot pursuit of the Columbus raiders and without notice to or the consent of your government, but the several protestations on the part of this government by the president, by this department and by other American authorities that the object of the expedition was to capture, destroy or completely disperse the Villa band of outlaws or to turn this duty over to the Mexican authorities when assured that it would be effectively fulfilled, have been carried out in perfect good faith by the United States.

Efforts Obstructed.

"Its efforts, however, have been obstructed at every point; first, by insistence on a palpably useless agreement which you admit was either not to apply to the present expedition or was to contain impracticable restrictions on its organization and operations; then by actual opposition, encouraged and fostered by the defacto government to the further advance of the expedition into Villa territory, which was followed by the sudden suspension of all negotiations for an arrangement for the pursuit of Villa and his followers, and the protection of the frontier; and finally by a demand for the immediate withdrawal of the American troops.

"Meantime conditions of anarchy in the border states of Mexico were continually growing worse.

"In view of the actual state of affairs as I have outlined it above, I am now in a position to consider the conclusions which you have drawn under your acknowledgment from the erroneous statements of fact which you have set forth."

Intimates Insincerity.

"Your government intimates, if it does not openly charge, that the attitude of the United States is one of insincerity, distrust and suspicion toward the de facto government of Mexico and that the intention of the United States in sending its troops to Mexico is to extend its sovereignty over Mexican territory and not merely for the purpose of pursuing marauders and prevent future raids across the border. The de facto government charges by implication which admits of but one interpretation, that this government has as its object territorial aggrandizement even at the expense of a war of aggression against a neighbor weakened by years of civil strife.

"The government of the United States, if it had had designs upon the territory of Mexico, would have had no difficulty in finding during this period of revolution and disorder many plausible arguments for intervention in Mexican affairs. Hoping, however, that the people of Mexico would, through their own efforts, restore peace and establish an orderly government, the United States has awaited with patience the consummation of the revolution.

Hoped to Restore Order.

"When the superiority of the revolution led by General Carranza became undoubted, the United States, after conferring with six other of the American republics, recognized unconditionally the present de facto government. It hoped and expected that that government would speedily restore order.

"This government has waited month after month for the consummation of its hope and expectation. In spite of increasing discouragements, in spite of repeated provocations to exercise force, the government of the United States has refrained from aggressive action and sought by appeals and moderate though explicit demands to impress upon the de facto government the seriousness of the situation.

"In the face of constantly renewed evidence of the patience and restraint of this government in circumstances which only a government imbued with unselfishness and a sincere respect to the full sovereign rights and national dignity of the Mexican people would have endured, doubts and suspicions as to the motives of the government of the United States are expressed in your communication of May 22, for which I can imagine no purpose but to impugn the good faith of this government, for I find it hard to believe that such imputations are not universally known to be without the least shadow of justification in fact.

Could Have Found Pretexts.

"Can the de facto government doubt that if the United States had turned covetous eyes on Mexican territory it could have found many pretexts in the past for the gratification of its desire? Can that government doubt that, months ago, when the war between the revolutionary factions was in progress, a much better opportunity than the present was afforded for American intervention if such had been the purpose of the United States, as the de facto government now insinuates? What motive could this government have had in refraining from taking advantage of such opportunities other than unselfish friendship for the Mexican republic?

"You state that even the American forces along the border 'find themselves physically unable to protect effectively the frontier on the American side.' Obviously, if there is no means of reaching bands roving on Mexican territory and making sudden dashes at night into American territory, it is impossible to prevent such invasions unless the frontier is protected by a cordon of troops. No government could be expected not to maintain a force of this strength along the boundary of a nation with which it is at peace for the purpose of resisting the onslaughts of a few bands of lawless men, especially when the neighboring state makes no effort to prevent these attacks. The most effective method of preventing raids of this nature, as past experience has fully demonstrated, is to visit punishment or destruction on the raiders.

Rejects Arrangement.

"It is precisely this plan which the United States desires to follow along the border, without any intention of infringing upon the sovereign rights of her neighbor, but which although obviously advantageous to the de facto government, it refuses to allow or even countenance.

"The Mexican government further protests that it has 'made every effort on its part to protect the frontier' and that it is doing 'all possible to avoid a recurrence of such acts.' Attention is again invited to the well known and unrestricted activity of De La Rosa, Ancleto Iscano, Pedro Vinos and others in connection with border raids, and to the fact that, as I am advised, up to June 4, De La Rosa was still collecting troops at Monterey for the openly avowed purpose of making attacks on Texan border towns and that Pedro Vinos was recruiting at other places for the same avowed purpose.

Not Doing "All Possible."

"This does not indicate that the Mexican government is doing 'all possible' to avoid further raids.

"It is suggested that the injuries suffered on account of bandits' raids are a matter of 'pecuniary reparation,' but 'never the cause for American forces to invade Mexican soil.' It has grown to be almost a custom not to settle depredations by money alone, but to quell such disorders and to prevent such crimes by swift and sure punishment.

"The de facto government finally urges that 'if the frontier were duly protected from incursions from Mexico there would be no reason for the existing difficulty,' thus the de facto government attempts to absolve itself from the first duty of any government, namely, the protection of life and property. This is the paramount obligation for which governments are instituted and governments neglecting or failing to perform it are not worthy of the name. This is the duty for which General Carranza, it must be assumed, initiated his revolution in Mexico and organized the present government and for which the United States government recognized his government as the de facto government of Mexico.

Cannot Entertain Request.

"The government of the United States does not wish to believe that the de facto government approves these marauding attacks, yet as they continue to be made they show that the Mexican government is unable to repress them.

"In conclusion, the Mexican government invites the United States to support its 'assurances of friendship with real and effective acts, which can be no other than the immediate withdrawal of the American troops.' For the reasons I have herein fully set forth, this request of the de facto government cannot now be entertained.

Gravest Consequences Possible.

"Whenever Mexico will assume and effectively exercise that responsibility, the United States, as it has many times before publicly declared, will be glad to have this obligation fulfilled by the de facto government of Mexico. If on the contrary the de facto government is pleased to ignore this obligation and to believe that 'in case of a refusal to retire these troops there is no further recourse than to defend its territory by an appeal to arms,' the government of the United States would surely be lacking in sincerity and friendship if it did not frankly impress upon the de facto government that the execution of this threat will lead to the gravest consequences. While this government would deeply regret such a result, it cannot recede from its settled determination to maintain its national rights and to perform its natural duty in preventing further invasions of the territory of the United States and in removing the peril which Americans along the international boundary have borne so long in patience and forbearance.

"Robert Lansing."

CARRANZA'S NOTE.

Chicago, June 21.—The full text of the last note from Carranza to President Wilson—sent on May 30 to Secretary of State Robert Lansing by General Candido Aguilar, secretary of exterior relations for the Mexican government has just become known.

It did not come from Washington, as only excerpts from the document have been given out from the capital. It was sent from San Antonio, where in Spanish it was published in La Razo, a Mexican daily newspaper having a wide circulation on the border.

Translation of the note reveals the fact that the threat that "on the face of the refusal of the American government to withdraw its forces, nothing will be left to it (the Mexican government) but to undertake the defense of its territory by force of arms," was by no means the only basis for the anger of President Wilson following his perusal of the note.

Makes Insinuation.

In terms that scarcely can be misconstrued, and under the thin veil of "seeing itself obliged to throw aside diplomatic euphemisms so as to be able to express its ideas with entire clearness," the Mexican government implies that the president has not kept his word with regard to the withdrawal of American soldiers from Mexican territory. It declares as a "patent fact" that such a state of affairs is continued for reasons of American interior "politics"—a hint, perhaps, that the coming presidential election has something to do with the case—and seeks subtly to involve South American and other Central American countries in the crisis by casting doubt as to the sincerity of the expressed intentions of the United States toward them.

That movements of the American troops in northern Mexico might be construed as indicative of "a projected war with Mexico" is another statement made. On the several portions of the note the term "invasion" is applied to the Columbus punitive expedition.

The result of the meeting of military chiefs, General Funston and Scott, for the United tSates, and Secretary of War Obregon, for Mexico, was the draft of a memorandum to both capitols, in which General Scott declared the purpose of the expedition had been reached and that American troops should begin to withdraw under promise of Mexican government to "attempt to guard effectively" the border against new incursions like that at Columbus. The Mexican government rejected the memorandum because of a clause in it by which the American government would be authorized to suspend the withdrawal in case another incident similar to that at Columbus should occur. The Mexican government could not accept this "suspensive condition."

Chiefs Discuss Point.

The military chiefs still were discussing this point when the Glen Springs incident of May 5 occurred. Fearing this would give cause for passage of more troops, the Mexican government gave instructions to General Obregon to notify the United States that no entering of American troops on Mexican soil would be permitted and that border commanders would be so notified. Generals Scott and Funston assured General Obregon that no orders had been given to send more troops, nor would more be sent.

The Mexican government then suggested that troops of both countries be placed along the border to guard against further inroads. On May 11 the conferences ended without any agreement being reached as to the "unconditional withdrawal of American troops," hence the governments were left to take up the matter direct.

Considered Invasion.

The Mexican note continues:

"The Mexican government has just learned that 400 men of the Eighth regiment of the American army are in Mexican territory, having crossed the line near Boquillas about the 10th or 11th of May, and that they are now near a place called El Pino, about 60 miles south of the border.

"The Mexican government can consider this last incident as nothing less than an invasion of our territory on the part of the American forces, against the express will of the Mexican government.

"The Mexican government, therefore, believes the time has arrived to insist that the American government withdraw the new expedition from Boquillas and should abstain hereafter from sending new troops.

"As to the troops that are interned in the state of Chihuahua, owing to the Columbus incident, the Mexican government sees itself obliged to insist on their being withdrawn. The Mexican government knows that, in the face of the refusal of the American government to withdraw these forces, nothing will be left to it but to undertake the defense of its territory by force of arms."

Dutch Establish New Mark.

The drainage of the inland lake of 35,000 acres formed north of Amsterdam by the disastrous floods of January last has been completed, save for one or two of the deeper "polders" or basins in the area in question. The construction and installation of the giant pumping plant on the restored Zuider Zee dikes was carried out in four weeks, and the actual pumping took another four, so that the problem of removing something like 200,000,000 cubic meters of water was dealt with in a matter of two months only. So far as Dutch engineers are aware, this is an unequaled feat in any other country in the world. The advance made by modern hydrographic engineering may be gathered from the fact that after the floods of February, 1825, the draining took until July, 1826, lasting thus a period of 17 months.

From Our New Dictionary.

Cipher—Something one can always get for nothing.

Ignorance—Sometimes it's bliss, and sometimes it blisters.

Clove—A scent frequently used to disguise the breath of suspicion.

Egg—Something a hen lays simply because she can't stand it on end.

Compromise — An agreement by which two parties get what they don't want.—Indianapolis Star.

"Say, how would you class these expert military aviators?"

'Why, as shooting stars."

In this Matter of Health

one is either with the winners or with the losers.

It's largely a question of right eating—right food. For sound health one must cut out rich, indigestible foods and choose those that are known to contain the elements that build sturdy bodies and keen brains.

Grape-Nuts

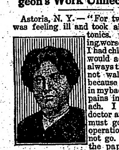
is a wonderfully balanced food, made from whole wheat and barley. It contains all the nutriment of the grain, including the mineral phosphates, indispensable in Nature's plan for body and brain rebuilding.

Grape-Nuts is a concentrated food, easy to digest. It is economical, has delicious flavor, comes ready to eat, and has helped thousands in the winning class.

"There's a Reason"

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.



Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting worse every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KOENIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Some men seem to enjoy being mean.

MEXICANS GIVEN ORDER TO ATTACK, NEW NOTE SHOWS

CARRANZA AVOWS DELIBERATELY HOSTILE ACTION AGAINST UNITED STATES FORCES.

IMMEDIATE RELEASE OF AMERICANS ASKED

Washington Notifies First Chief That United States Expects Early Statement of Purpose of De Facto Government—Says Force Will Be Met With Force.

Washington, June 27.—A demand for the immediate release of the American troopers taken prisoner at Carrizal, coupled with a stern notification that the United States expects an early statement of the purpose of the Carranza government, has been telegraphed to Mexico City by Secretary Lansing.

The note discloses that the State department received a communication from the de facto government, stating that the Carrizal fight was the direct result of orders to attack American soldiers moving otherwise than toward the border, personally issued by General Carranza to General Trevino and by the latter communicated to General Pershing.

Requires Definite Reply.

In reply, Secretary Lansing requires that the de facto government transmit a definite statement "as to the course of action it has determined upon," through the usual diplomatic channels, "and not through subordinate military officers."

The Mexican communication is construed, Secretary Lansing states, "as a formal avowal of deliberately hostile action against the forces of the United States now in Mexico, and of the purpose to attack without provocation whenever they move from their present position, despite the friendly mission on which they are engaged and which is reaffirmed in the American rejoinder."

Force Will Meet Force.

General Carranza is required to place himself on record formally and the plain intimation lies behind the restrained language of Mr. Lansing's communication that force will be met with force. Apparently, however, the Washington government is determined that the de facto government shall not evade responsibility before the world if war is forced upon the United States.

Officials Discuss Situation.

The note and the military situation of the United States were talked over at the White House by the President with Chairman Stone of the Senate foreign relations committee, Senator Lodge, ranking Republican member, and Chairman Flood of the House committee on foreign affairs.

May Address Congress.

After the conference, which lasted more than an hour, Senator Stone said the situation was "exceedingly acute." President Wilson had felt it necessary to acquaint Congress with the state of affairs and the action taken, through the foreign affairs committees. It was indicated that he might desire to address a joint session of the House and Senate in a day or two, but would not take this final step until the Mexican government had been given an opportunity to reply.

Believes War Virtually Here.

"We must have those men," he said solemnly.

The senator made no effort to hide his own belief that war virtually is here. A final report from General Pershing was necessary, he said, that a clear knowledge of what had happened at Carrizal should be at hand. "But if they are going to attack our men without cause," he said, "there is only one thing to do. We will never have peace down there until we use force enough to compel it."

FRENCH DESTROYER AND ITALIAN CRUISER SUNK

Two Warships Are Victims of Submarine in Strait of Otranto, Paris Reports.

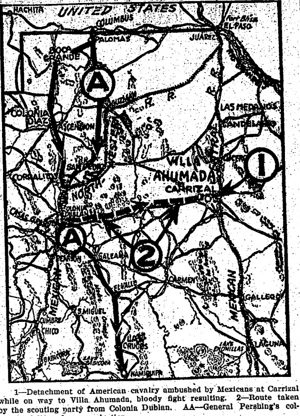
Paris, June 26.—The minister of marine announces that the Italian auxiliary cruiser Citti Di Messina and the French torpedo boat destroyer, Fourche, have been torpedoed in the strait of Otranto.

The Citti Di Messina, which was being escorted by the Fourche, was the first victim of the submarine. The Fourche later attacked the underwater boat which submerged and disappeared. Shortly afterwards the Fourche itself was torpedoed. Almost all its crew was saved.

May Abandon Columbus Base.

Columbus, N. M., June 26.—War talk has gain advanced the possibility of the Columbus base camp being abandoned if intervention comes. A general invasion of Mexico is expected to result in a quick movement to take over the Mexican railroads. Abandonment of the present long communication and supply route south of here will probably be one of the first steps in the campaign. Quiet has been restored along the communication lines. Supplies continue to be rushed to the expeditionary forces.

SCENE OF FIRST BATTLE IN MEXICO



1—Detachment of American cavalry ambushed by Mexicans at Carrizal while on way to Villa Ahumada, bloody fight resulting. 2—Route taken by the scouting party from Colonia Dublan. AA—General Pershing's column and line of communication.

CARRANZA'S NOTE AVOWS ATTACK ON AMERICANS; WILSON DEMANDS EARLY STATEMENT AS TO MEXICAN STAND

Washington, June 27.—The text of the note to the Mexican de facto government, transmitted to James Linn Rodgers, special representative of the American government in Mexico City, says:

"Mr. Arredondo yesterday delivered to this government the following communication:

"'I am directed by my government to inform Your Excellency, with reference to the Carrizal incident, that the chief executive, through the Mexican war department, gave orders to Gen. Jacinto B. Trevino not to permit American forces from General Pershing's column to advance further south, nor to move either east or west from the point where they are located, and to oppose new incursions of American soldiers into Mexican territory.

Pershing Given Warning.

"'These orders were brought by General Trevino to the attention of General Pershing, who acknowledged the receipt of the communication relative thereto. On the 22nd instant, as Your Excellency knows, an American force moved eastward quite far from its base, not withstanding the above orders, and was engaged by Mexican troops at Carrizal, State of Chihuahua. As a result of the encounter several men on both sides were killed and wounded and seventeen American soldiers were made prisoners.'

"You are hereby instructed to hand to the minister of foreign relations of the de facto government the following:

Avowal of Hostile Act.

"'The government of the United States can put no other construction upon the communication handed to the Secretary of State of the United States on June 24 by Mr. Arredondo, under instruction of your government, than that it is intended as a formal avowal of deliberately hostile action against the forces of the United States now in Mexico, and of the purpose to attack them without provocation whenever they move from their present position in pursuance of the objects for which they were sent there, notwithstanding the fact that those objects not only involve no unfriendly intention towards the government and people of Mexico, but are, on the contrary, intended only to assist that government in protecting itself and the territory and people of the United States against irresponsible and insurgent bands of rebel marauders.

Demands Release of Americans.

"'I am instructed, therefore, by my government to demand the immediate release of the prisoners taken in the encounter at Carrizal, together with any property of the United States taken with them and to inform you that the government of the United States expects an early statement from your government as to the course of action it wishes the government of the United States to understand it has determined upon, and it also expects that this statement be made through the usual diplomatic channels and not through subordinate military commanders.'"

Million Dollar Order for Militia.

Philadelphia, June 26.—The Federal government placed approximately $1,000,000 worth of orders for military supplies in the open market here, according to an announcement made at the Schuylkill arsenal. The same amount will be duplicated at once, it was said, and then gradually diminish in total until the 100,000 national guardsmen called out in the various states are fully equipped for service in the field. The orders are for blankets, cloth for uniforms, hats, underwear

* * *

WOOD URGED TO RUSH GUARDSMEN TO BORDER

New York, June 27.—Major General Leonard Wood, commander of the department of the East received from Secretary of War Baker, an urgent appeal to start for the border at once some of the militia organizations under his jurisdiction.

The emergency was considered so important, it was said at Governor's island, that medical examination of the men would be waived.

* * *

PERSHING MOVES NORTHWARD

TROOPERS WITHDRAW TO EL VALLE, TREVINO HEARS.

Inhabitants of Las Cruzes Arm to Drive Americans Away, According to Report.

Chihuahua City, Mex., June 27.—The American expeditionary forces which have been in Namiquipa are withdrawing north to El Valle, 50 miles from the Colonia Dublan base, according to information transmitted to General Jacinto Trevino by Colonel Francisco Borquez at Guerrero.

Colonel Borquez also reports that some time after June 20 an American force, 3,000 strong, with 70 cannons and machine guns, 100 motor trucks and a large number of mule wagons, was at Puerto Las Varas, which is about 40 miles east of El Valle and some 25 miles west of the Mexican Central railway.

Arm to Drive Out Americans.

Previously, he says, on June 19, 1,000 Americans sallied to Puerto Las Varas from San Geronimo, from which point they returned.

In Las Cruzes, he adds, the inhabitants are reported to have armed themselves to drive the Americans away, it being charged that they carried away 200 peaceful citizens from the town. Eventually they let all but two of these people return to their homes. Two they took away, saying they were "Villistas."

HAY MEASURE AMENDED; RELIEF PROVISION FAILS

Committee Reports Resolution Providing for Discharge of Guardsmen Having Dependent Families.

Washington, June 26.—Stripped of its $1,000,000 relief provision for families of militiamen, the senate military committee has ordered favorably reported the Hay resolution adopted by the house to authorize drafting the national guard into the service of the United States. A substitute for the relief provisions directs that militiamen having dependent families should be discharged at once.

Mexican Consul Arrested.

Columbus, N. M., June 24.—Samuel Luis Sandoval, Mexican consul at Palomas, eight miles south of here, was placed under arrest by a State department official here as he was boarding a train for El Paso. He is being detained pending investigation of violation of neutrality charges. His family was permitted to leave town. The Mexican customs officials at Palomas have disappeared, going south on pack mules. The custom house has been

Albumen in Wheat.

Professor Dawley says that chemical analysis of different grains shows wheat to contain a larger amount of albumen than any other grain. Therefore it is the grain to make the base for egg-producing food.

Called.

"My country calls me!" exclaimed the emotional patriot.

"It shouldn't have been necessary to call if you have any useful service to perform. You ought to have been on the job."

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

Heads and "Tales."

When the dynamite trial was held in this city, the name of Charles Miller became a household word. In one small Indiana town the children of a certain family who knew the attorney were fond of acting out Bible scenes. The two elder sisters had decided on the story of John the Baptist, and asked little John to take the part of the Bible hero. John was from Missouri and had to be shown. After carefully explaining the importance of his part to him, and the mighty character whom he was to impersonate, John looked up in disgust, and drawled: "Naw! I ain't goin' to be no John the Baptist. I'd rather be somebody great like Charlie Miller."—Indianapolis News.

Real Humorist.

"My nephew, Perry Pert, ought to be writing button busters for the Starbeams column, right now!" said old Isaac Ickery. "He's a whole lot fuller of youmer than the fellers that are writing 'em. Why, just yesterday I handed him a paper with a picture in it of that 'ere big-nosed Czar Ferdinand of Bulgaria, and says I, "What do you think of him?" And as quick as a flash he answered right back, 'Goodness only nose!' just like that!"—Kansas City Star.

"Where did you get the apples?"
"A nice man gave em to me."
"Did he give you one for me?"

Reminder of Famous Jester.

In Braunschweig, a quaint old German town, is pointed out the building—still used as a bakeshop—where Till Eulenspiegel, famous as a jester in the fourteenth century, worked as a boy. Many who have listened to the musical composition, "Till Eulenspiegel's Merry-Pranks," wich enshrines his name, have never associated this with the merry baker boy of Braunschweig. He is credited with having made many little gingerbread owls and monkeys, which he gave away to children. The shop at No. 11 Backerlint still does a thriving business—or did prior to war times.

Stood Up for His Mother.

Three-year-old Sherman was visiting a neighbor and sat watching her make a cake. As she put in the ingredients he kept asking, "What's that?" Finally he asked her what kind of cake she was making and the lady replied:

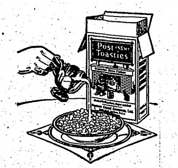
"An angel cake. Don't your mamma ever make angel cake?"

He studied for a little time and then, in a tone of assurance that his mamma could not be outdone by anyone, replied:

"No, she just makes the Lord's cake."

"I may not be a king," said the derby hat, "but I at least wear a crown."

And then the band played.



They Stand Up—

Unlike common corn flakes, the New Post Toasties don't mush down when milk or cream is added.

And they have a charming new flavour—delicious, different, the true essence of the corn—not found in corn flakes heretofore.

The intense heat of the new process of manufacture raises tiny bubbles on each delicious brown flake and these little puffs are the identifying feature.

These new flakes are firmer, crisper, and don't crumble in the package—in comparison, ordinary corn flakes are as "chaff."

Your grocer can send you a package of

New Post Toasties

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 3, 1905, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879.

Frank B. Kellogg certainly put up a strong campaign for his nomination for U. S. Senator, and we believe there is not a voter in the State of Minnesota that has not seen his platform and picture, with a request for their vote. Eberhart also made a strong campaign, while Clapp seemed to have an idea that he would read of many serious accidents the next day after election, caused by the rush of people to get a chance to vote for him. About the only campaign he made was to send out a lot of free government garden seeds about the first of June, and as the people had discovered by the 19th that the seeds failed to grow, and they had lost the use of their land, it made a bad matter worse. Judging by the campaign made by the two above named gentlemen, Kellogg will be of valuable assistance to the party to carry the Republican campaign to a successful victory in November, while Clapp would be so much extra load for them to carry, as they would be held responsible for any mistakes made by him, with comparatively no return assistance from him.

* * *

Wilson's Watchful Waiting Policy is what has brought on the Mexican War. He refused to recognize Huerta, who at least had control enough over the Mexicans to keep them on their own side of the border, and then recognized Carranza, who has shown that he is totally lacking in ability to control the lawless bandits of that country. Wilson has simply fooled around with his granny peace talk, until he has gradually drawn this country into war, by giving the ignorant Mexicans an idea that the United States was afraid of them. He would also have had war with Germany before this time, if the German people had no more intelligence than the Mexican peons. But now that he has got war fairly started, it is the duty of the American people to stand solidly behind him, until they can place Charles Hughes in that chair.

* * *

THE SENTINEL is much disappointed that Justice Schaller was not nominated. As it is the choice as his successor must be either W. B. Anderson, a Minneapolis attorney of Scotch decent, or Judge Quinn of Fairmont.—The Bemidji Sentinel.

Yes, but that s-o-n on the end of the Scotchman's name caught him a lot of votes in northern Minnesota, but he cannot be said to be sailing under false colors, because he is a Scotchman named Anderson. The Sentinel should have explained this before election.

* * *

The sending of handfuls of regular soldiers into Mexico to be slaughtered by overwhelming numbers, adds the crime of murder in the first degree to the other mistakes of the present administration.

* * *

And Duluth also went dry by a good majority, and their intoxicating liquors will be delivered through clubs for the high-toned people, and through "blind pigs" for the lower classes.

* * *

President Wilson issued a note of defiance to the Mexican government, and sent two hundred regulars down to back up his demands. At last accounts only four of them had returned alive.

The Thief River Falls Times sizes up the defeat of some of the Congressmen from Minnesota, as follows:

"Congressman George R. Smith of Minneapolis, was defeated for re nomination. It is claimed that his vote on the McLemore resolution was responsible for this. Congressman Clarence B. Miller was nominated in the Eighth over one of the strongest and most popular men in the state. Miller voted just as Smith did on that more or less momentous resolution and was, presumably, endorsed because of that vote. As a matter of fact, their attitude on that particular measure had very little to do with the result in either case."

If this was what the people of the 9th District were voting on, they certainly indorsed the vote of Congressman Steenerson, who voted the same way Smith did.

* * *

Theodore Roosevelt has pledged his support to Charles E. Hughes, the Republican nominee for President, and calls on the Progressives to assist him to redeem America from the present management of the Democratic Party. The Republican Party was united before the Republican National Convention to give their solid support to the nominee of that convention, and Mr. Roosevelt plainly sees that a side party named Bull Moose or Cow Moose would receive no support from the rank and file of the Republican Party this year, who plainly see their mistake of four years ago, and are going to rectify that mistake this year, by returning the Republican Party to power.

* * *

It was very fortunate that President Wilson did not succeed in getting into war with Germany, for if he had, he would have undoubtedly have sent a gun boat, or a torpedo boat over there to destroy the German navy, which would have been about the same as sending two companies of troops into Mexico to face the Mexican army.

* * *

The Democratic Party need not think that the farmers will swallow any of their dope about the good prices of farm produce, and try to claim credit for the prices made by the European war, as the farmers are "next" to the fact that they would be getting the good old fashioned Grover Cleveland price of forty-five cents a bushel for wheat, if it had not been for the European War.

* * *

DOES SLOAN'S LINIMENT HELP RHEUMATISM?

Ask the man who uses it, he knows. "To think I suffered all these years when one 25 cent bottle of Sloan's Liniment cured me," writes one grateful user. If you have Rheumatism or suffer from Neuralgia, Backache, Soreness and Stiffness, don't put off getting a bottle of Sloan's. It will give you such welcome relief. It warms and soothes the sore, stiff painful places and you feel so much better. Buy it at any Drug Store, only 25 cents.—Adv.

* * *

We wonder if President Wilson has got his campaign speeches on the reduction of the cost of living under a Democratic administration ready for delivery to the people. We would like to arise and inquire how to reduce the cost of living by paying ten cents a pound for sugar; instead of five cents a pound.

* * *

WELL CHILDREN ARE ACTIVE.

If your child is dull, pale, fretful and wants to lie around, the chances are it is suffering from worms. Kickapoo Worm Killer, a pleasant candy confection, liked by all children is what your child needs. You only give one-half to one lozenge at a time and you get immediate results. Every mother should have a box on hand. 25c. at all druggists.—Adv.

DR. H. B. NEWELL,
Druggist.

Didn't Wait the Attack.

At Boulogne during a royal reception some years ago a number of English ladies in their anxiety to see everything pressed with such force against the soldiers who were keeping the line that the soldiers were forced to give way and generally were, as policemen say, "hindered in the execution of their duty." The officer in command, observing the state of affairs, called out: "One roll of the drum! If they don't stand back kiss them all!" After the first sound of the drum the ladies took to flight.

"If they had been French," said a Parisian journal, "they would have remained to a woman."

WILL MY CHILD TAKE DR. KING'S NEW DISCOVERY?

This best answer is Dr. King's New Discovery itself. Its a pleasant sweet syrup, easy to take. It contains the medicines which years of experience have proven best for Coughs and Colds. Those who have used Dr. King's New Discovery longest are its best friends. Besides every bottle is guaranteed. If you don't get satisfaction you get your money back. Buy a bottle, use as directed. Keep what is left, for Cough and Cold insurance.—Adv.

"How do you account for his remarkable success?"

"I don't know unless it was that he was always too busy on his own work to stop and spend time trying to account for the success of others."—Detroit Free Press.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

QUIZZING THE CHEMIST.

Curious and Amusing Experience of Sir Hiram Maxim.

Having occasion to use some metallic mercury in his London laboratory, Sir Hiram Maxim sent his man, Silverman, out to purchase "one pound of metallic mercury in a strong glass bottle with a cork stopper." In "My Life" he tells the story of what happened.

Silverman soon returned and said that he could not find any metallic mercury. I asked him whether he had tried at a shoe shop or a beer shop.

"No," he replied, "at a wholesale chemist's."

I told him he must have made a mess of it somehow, and I sat down and wrote out carefully, "Wanted—one pound of metallic mercury in a strong glass bottle with a cork stopper."

Before long he came back and said that there was no such stuff as "metallic mercury" known in the chemist's shop and that he had been to a wholesale place. As the shop was not more than 200 yards away, I went around with him and said to the man behind the counter:

"I have sent this young man here twice for some metallic mercury, and he tells me that you have nothing of the kind."

"No, we never have any call for it," he replied.

"But is not this a chemist's shop?"

"Yes; one of the largest in London."

"Do you sell all kinds of chemicals?"

"Yes."

"Then how does it happen that you have no metallic mercury?"

"We have never had any call for it before. We do not know what it is."

"Have you any bicarbonate of soda?"

"Yes; tons of it."

"Have you any bicarbonate of potash?"

"Certainly; any amount of it."

"What is bicarbonate of potash a bicarbonate of?"

"Why, naturally of potash."

"Could you let me have some potash before it is made up into a bicarbonate?"

"Certainly."

"Have you any bichloride of mercury?"

"Yes; lots of it."

"What is bichloride of mercury a bichloride of?"

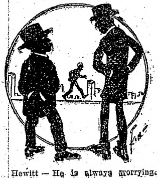
Here I had him. I asked him if it were his first day on duty.

"No; I have been here twenty years."

The head man, who had overheard our conversation, then came up and said, "Why, of course the gentleman wants quicksilver."

Curiously enough, it had never occurred to me to call it by that name, although I ought to have thought of it. However, it is never called quicksilver by scientific men.

Thoughtful Fellow.



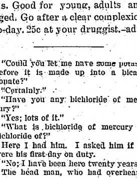
Hewitt — He is always worrying about others.

Jewett—Yes, I shouldn't wonder if he thinks about the corns a centipede has.—New York Globe.

CLEAR SKIN COMES FROM WITHIN.

It is foolish to think you can gain a good clear complexion by the use of face powder. Get at the root of the trouble and thoroughly cleanse the system with a treatment of Dr. King's New Life Pills. Gentle and mild in action, do not gripe, yet they relieve the liver by their actions on the bowels. Good for young, adults and aged. Go after a clear complexion to-day. 25c at your druggist.—adv.

Her Mission.



"Behold the fair damsel coming down the street. She is a miss with a mission."

"What is her mission?"

"Seeking a man with a mansion."—Philadelphia Evening Ledger.

HISTORICAL
SOCIETY

THE SUNBEAM.

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JULY 7, 1916 NO. 17

THE LOCAL NEWS

Mr. and Mrs. Elling Klemmetson left for McIntosh last week, where they will visit relatives.

Mrs. Wm. Causin left for Cavalier, N. Dak, Monday, for an extended visit with friends and relatives.

There was a large crowd at the picnic and Young Peoples' Society held at the Tobias Olson place on last Sunday.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

Ye editor had to be attending court at Thief River Falls this week, which makes local news rather scarce. We as a rule do not like to get into court, but the steady courters of the east end chose us as their latest victim to place on the court calendar as defendent in an action commenced by them.

There was a large number of people of the eastern part of the county attended the picnic at the bowery east of Highlanding on July 4th. Attorney Ira C. Richardson of Thief River Falls delivered the oration in the afternoon to an appreciative audience. The young people had a jolly good time at the big bowery ball held in the afternoon and evening,

British Field Marshals.

A British field marshal never retires from the army. He may be placed on half pay, but is still borne on the active list. By the regulations there must not be more than eight field marshals receiving pay as such—that is, exclusive of honorary field marshals, such as foreign kings, emperors and princes. Of the eight regular field marshals two must be selected from the Indian army. The position of field marshal is a great one. The field marshal commanding in chief in the Mediterranean gets £5,000 a year. Probably a field marshal actively employed will get at least £3,000 a year. This is better than the pay of an admiral of the fleet, who may be said to be a naval field marshal, and gets only a little over £2,000 a year, exclusive of allowances.—Ireland's Own.

Her Revenge.

Girl Shopper—Why did you make that poor salesman pull down all that stuff and then not buy anything? Second Ditto—Why, the mean fellow was in a car yesterday and never offered me his seat, though I looked right at him, so i just decided I would get even.—Boston Transcript.

sistent.

Doobe—Is your wife musical?
Crabbe—Very. She jaws in soprano and sobs in contralto!—Boston Globe.

If thou art terrible to many then beware of many.—Ausonius.

Shrapnel Cartridge Cases.

The material used for shrapnel cartridge cases generally consists of a composition of two parts copper and one part iron. This alloy has been found to possess the best physical qualities—that is, high tensile strength and a large percentage of elongation when properly annealed.—London Standard.

All About Metaphysics.

A Scotchman thus defines metaphysics: "When a mon wha' kens naething aboot any subject takes a subject that nae mon kens anything aboot and explains it to anither mon still more ignorant than himself—that's metaphysics."

CURIOUS ANDORRA

Oldest, Smallest and Strangest of All Republics.

A PATCH IN THE PYRENEES.

This Tiny Nation, Where All Men Are Really Equal, Has Never Produced a Page of Literature, a Bar of Music, a Painting Nor a Leader of Men.

For 1,100 years, since its foundation as a republic in 805 (and no one knows for how many centuries before that), curious little Andorra has gone its own strange way utterly oblivious to the progress of the other nations of Europe. It has its own idea of the meaning of life, and it lives according to that. A traveler entering the republic today will find it exactly as it was 1,000 years ago.

It is a republic which has never achieved anything in its long and vague history; a republic which has never produced a page of literature nor a bar of music nor a painting; a republic which has never had a place in the councils of Europe and has never asked for one; a nation which has never produced an ambitious man.

Andorra consists of six counties and boasts about a dozen towns. Its entire population is 5,000 souls.

The chief occupation of the people of Andorra is cattle raising, and thousands upon thousands of cows may be seen browsing in the rich pastures, yet it has never occurred to Andorrans to milk these cows, and butter and milk are unknown in the republic. Dairy products are nonexistent. The only cheese made is that from the milk of sheep. Visitors find it impossible to procure milk or cream for their coffee. Andorrans themselves use brandy instead and think it is better than anything else in coffee.

In 805 Louis the Debonair laid siege to the city of Urgel, which is to the south of Andorra. The Andorrans, led by Marc Almugaver, took up arms to aid the French, and for their assistance Louis gave them a charter and permitted them to be self governing.

As it now exists it is the smallest republic in the world. It is situated in the Pyrenees between France and Spain. It is about eighteen miles wide and sixteen miles long from north to south. It is difficult of access, as there is not a single railroad running through or near it.

Its capital is Andorra la Viella, with a population of 500 and containing the Casa de la Vall, or house of representatives. This is a large sixteenth century building at the extremity of the town, overlooking the valley toward Spain. It is parliament house, town hall, school, palace of justice and hotel for the councilors all in one. It is also used as a temporary prison in the rare cases when a prison is necessary. Crime in Andorra is practically unknown. The only Andorrans suffering imprisonment are the smugglers of tobacco caught by the French or Spanish custom officers, and these are not looked upon as malefactors by their fellow citizens. Smuggling is regarded as a legitimate trade.

There is no police department and no police. Every citizen has the power to arrest, but this privilege is rarely used.

The territory was once densely wooded and is said to derive its name from the Moorish Aldarra, "the place thick with trees," but almost all the forests have been destroyed for fuel. The climate is generally cold, with very severe winters. The land is chiefly devoted to grazing for the numerous flocks and herds. But on the sheltered southern slopes it is carefully cultivated and produces grain, potatoes, fruit and tobacco. The local industries are of the most primitive kind and show little or no advance since the middle ages.

The only roads are bridle paths, with the exception of one municipal road connecting Andorra with the high road to Seo de Urgel and Manreso by way of the Balira valley.

Andorra is perhaps the truest democracy in the world. There is no nobility, and there is no class distinctions. All men are equal, not only in the eyes of the law but in the fullest sense of the word. The first citizen of the land, the president, is a farmer.

The republic is governed by twenty-four representatives, elected every four years. These representatives choose one of their number as president of the republic. His salary is 80 pesetas a year, or $20. Representatives get 10 pesetas, or $2.50 a year.

There is no such thing as poverty in Andorra. Every one has enough and has no desire for any more. Though they are hard drinkers, cases of intoxication are very rare. They speak their own language, Andorran, but French is taught at the schools. The school system is regulated by the French, and for this service Andorra pays annually to the French government 900 francs, or $180. From this it may be seen that taxation is very low. Doctors' services are absolutely free, and drug stores supply their prescriptions without charge.

Andorrans drink a great deal, and they are untidy in their personal appearance. But they are extremely honest, and theft is unknown in the country. Though descended from an ancient race, they are not good looking. Their faces are hard and uncomely, but that is because their lives are hard. The women work beside the men in the field, and feminine leisure and paint and powder are unknown.—New York Sun.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset-safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

First Chief Seeks to Avoid Blame for Outrages Which Occurred Before De Factor Government was Recognized—Troops Helped in Bandit Chase.

Mexico City, July 3.—The foreign office has issued a three thousand word statement in reply to the Lansing note. The statement contains a strenuous denial of many of the charges made in this communication with counter charges against the United States, but does not contain a repetition of the demand for the withdrawal of American troops.

Replying to the charge that American citizens have been murdered in Mexico, the statement points out that because of internal disturbance Mexican citizens also have suffered from the depredations of bandits and revolutionary forces. It declares it unreasonable to expect that foreigners should be immune under such circumstances.

Carranza Shifts Blame.

It is also asserted that in many instances Mexicans have been murdered on American soil and that their murderers have gone unpunished though the attention of the American States department has been called to these crimes.

The foreign office points out further that many of the alleged outrages complained of by the American government occurred before the United States recognized the Carranza government, and adds that in view of this fact it is not proper to bring these complaints to the attention of the de facto government at this time.

Accused of Bad Faith.

The foreign office resents the charge that Constitutionalist troops have failed to co-operate with the American troops in the hunt for Villa, stating that after the raid on Columbus a Mexican force took the field in pursuit of the Villistas, scattering the bandits.

Blame for the Santa Ysabel massacre is placed on the so-called impulsive and irascible disposition of Charles Watson, general manager of Cusihuriachic company, and General Scott and General Funston are accused of bad faith and lack of honor in misleading General Obregon into an alleged evasive reply regarding the crossing of American troops into Mexico after the Glenn Springs raid.

Mexican Citizens Murdered.

In part, the note says:

"It appears strange that the Department of State of the United States should be displeased with the tone of the note of this government of May 22 which it terms discourteous, when the same department has addressed to the Constitutionalist not one, but many notes in tones not only discourteous, but threatening.

"During the period alluded to in this note, 148 Mexican citizens have been murdered in American territory by American citizens and even by the authorities of the United States, this despite the fact that both nations were in a state of profound peace, and in none of these cases, despite repeated remonstrances by the Mexican ambassador at Washington, have any of the guilty been exemplary punished.

Disloyalty of Troops Denied.

"It is untrue that the Mexican government has protected in any instance criminals attacking American territory. The Mexican government has done all in its power to protect foreign subjects. The fault lies with foreigners, especially Americans, who insisted on remaining in disturbed districts despite the repeated warnings of the Mexican government.

"It is absolutely untrue that the Mexico troops have been guilty of disloyalty as imputed in the note of the Department of State. The Mexican government could do no less than consider improper the presence of American troops on Mexican soil, since the original orders given to them were, according to the American press, to undertake immediate pursuit of the Villa bandits and return to their encampments."

"It is also true that the Constitutionalist government protected American troops against the just indignation of the populace of Parral, who were aroused by their presence.

American Force Protected.

"The note of the Secretary of State described as a convention what was simply a proposition which the Mexican government made conditionally to the government of the United States in the note of March 10 to establish reciprocity in the passage of troops in pursuit of bandits, if, on any other part of the frontier, there should occur acts such as those at Columbus. This provisional proposition could not be called a convention, and consequently it is untrue that the Constitutionalist government has repudiated any convention.

CHICAGO DAILY NEWS.

TROOPS' RELEASE PREVENTS BREAK

NEWS OF FREEING OF CAVALRYMEN BRINGS RELIEF TO OFFICIALS AT WASHINGTON.

MEXICAN PROBLEM IS GRAVE

Preparations for War Continue While Guardsmen Are Rushed to Border —Wilson to Insist Upon Freedom of Movement of Troops.

Washington, June 30.—An immediate break between the United States and the de facto government of Mexico has been averted by compliance with the American demand for release of the 23 troopers captured in the fight at Carrizal.

Whether a state of war has been prevented or merely postponed, no one here would attempt to say.

Official information as to the attitude of General Carranza was lacking. Until his response to Secretary Lansing's note, dispatched Sunday, making two peremptory and distinct demands, is received, there will be no decision on whether President Wilson shall lay the crisis before Congress.

Problem Still Grave.

While it generally is conceded that this move lessens tension and makes the crisis less imminent, no one conversant with the grave problem is losing sight of the all-important question of Carranza's attitude toward the American expedition across the border to protect the territory and citizens of the United States from bandit outrages remains unsettled.

The preparation of the United States for war will go steadily forward.

DEFIANT ANSWER FROM CARRANZA IS ANTICIPATED

Wilson Ready to Act Promptly If Demand Is Not Met by De Facto Government.

Washington, July 1.—Although no official reply from the Carranza government to the American demand for an explanation of its purposes has been received, private advices from Mexico City indicated that a defiant answer was being prepared there.

The unconciliatory character of a memorandum published in Mexico City, specifically denying all the allegations of the previous American note in answer to Carranza's demand for withdrawal of the troops, appears to bear out these advices.

There is every reason to believe that Mr. Wilson will act promptly if the Carranza government formally accepts the construction placed in its orders to General Trevino in Secretary Lansing's note and which it has been asked either to affirm or withdraw. Mr. Lansing characterized the order as an act of deliberate hostility.

THOMAS KELLY FOUND GUILTY

Convicted of Graft Charges at Winnipeg—Sentence Not Passed.

Winnipeg, July 1.—Thomas Kelly was convicted in the assize court here of theft, of the receiving of stolen money, securities or other property, and of obtaining money by false pretenses. Sentence was not passed. The jury was out precisely three hours.

Record in Petroleum Production.

Washington, July 1.—Petroleum production in the United States, the geological survey announces probably will be the greatest of any year in the country's history. The quantity marketed for the first half of the year was 140,000,000 barrels.

Chinese Constitution Restored.

Peking, July 1.—President Li Yuan Hung, in a mandate issued here, proclaimed the restoration of the Nanking provisional constitution which was demanded by the revolutionists and orders the parliament disbanded by Yuan Shi Kai in 1913 reconvened August 1. The mandate appoints Tuan Chi Jui premier. The president declares that the lack of a permanent constitution has been responsible for China's troubles and orders the parliament to make a constitution without delay.

* * *

VILLA JOINS CARRANZA?

Eagle Pass, Texas, July 1.—Juan Rodriguez, a Mexican resident of Texas, arriving here from Torreon, said that Pancho Villa has joined the Carranza forces at Montclova with several hundred men. Rodriguez claims to know Villa well and says he cannot be mistaken regarding his identity.

RUSSIANS CAPTURE KOLOMEA

TAKE IMPORTANT GALICIAN RAILWAY CENTER.

Germans Shift Attack to West Bank of Meuse—French Recapture Positions near Verdun.

Paris, July 1.—Capture of the important Galician railway center of Kolomea by the Russians armies, following the repulse of the Austrian troops in a heavy battle over a front of 25 miles eastward from the city, is announced by the newspaper Echo de Paris. The Vienna war office has admitted a general retirement of Teuton forces before concentrated Slav attacks in the Kolomea region.

French Lose and Then Gain.

The Germans have shifted their attack to the west bank of the Meuse and delivered several violent attacks preceded by liquid fire, between Avocourt and Hill 304, the war office announced.

In a terrific attack upon the French positions at Hill 304 the Germans captured a fortified work in the first line of the French trenches after the garrison had been buried under a storm of shells. The position was recaptured by a brilliant French counterattack, according to an official statement issued by the French war office.

German Efforts Checked.

The Germans also delivered a powerful attack on the French positions in Avocourt wood and east of Hill 304, but all their efforts are declared to have been checked with heavy losses to the attackers. Increased activity is reported on the front from Nieuport to the Aisne.

MILITIA RUSHED TO BORDER

Twenty-three Hundred Illinois Guardsmen Are En Route.

Chicago, July 1. — Twenty-three hundred national guardsmen of the Central department which have been mustered into the federal service composing the First and Second Illinois infantry are en route to border stations.

Reports received from the 14 states composing the Central department show that approximately 40,000 national guardsmen are preparing for federal service, and about one-third of these being mustered in to date.

PAN-AMERICAN POLICE FOR RESTORING MEXICO

Detachments of United States and Latin-American Republics Suggested at Washington.

Washington, July 1.—A Pan-American "police" force composed of detachments of the armies of the United States, Argentine, Brazil, Chile and possibly other Latin-American Republics to restore, not to crush Mexico.

This is the suggestion brought to the attention of the administration and South American officials from certain quarters, which it is believed will eventually lead to serious consideration of the project.

Chicago Forms Aviation Reserve.

Chicago, July 1.—Formal organization of the first squadron, United States central aviation reserve, has been perfected by the Aero club of Illinois. Two machines will be purchased and a school of instruction will be inaugurated.

Senate Wants Copy of New Treaty.

Washington, June 30.—A resolution requesting the president to furnish the senate with a copy of the new commercial treaty being negotiated between France and her allies in the present European war, has been introduced in the senate by Senator W. J. Stone of Missouri, chairman of the foreign relations committee. The purpose of the resolution was to bring before the senate information as to whether the allies contemplate an agreement which is any way inimical to the interests of the United States.

TROOPS CAPTURED AT CARRIZAL ARE SAFE IN AMERICA

SURVIVORS OF BLOODY FIGHT WITH VASTLY SUPERIOR FORCE ARE TURNED OVER TO GENERAL BELL AT EL PASO.

WOUNDED AMERICANS ARE KILLED, PRIVATE ASSERTS

Declares De Facto Troops Went Over Field of Battle After Americans Retired and Slew Several Cavalrymen, Injured, But Still Alive.

Mexico City, July 1.—Minister War Obregon has instructed General Trevino, the Mexican commander at Chihuahua, to inform Consul Garcia at El Paso that no impediment would be placed in the way of the American authorities if they desired to remove the bodies of the American troopers killed at Carrizal to American territory for burial.

El Paso, Texas, July 1.—The 23 negro troopers of the Tenth cavalry, who at Carrizal, Villa Ahumada, Chihuahua City and Juarez have been central figures in the most striking and potential chapters of the Mexican situation, are once more safely out of Mexico.

Survivors of a bloody fight with a vastly superior force, victims twice of mobs that stoned them; more than once gripped with the fear of execution for their part in the Boyd expedition; and, lastly, objects of intercession by the President, they were brought to the border from Chihuahua City on a special train and turned over to General George Bell, Jr., commander of the El Paso base.

Two Different Stories.

With them came Lem H. Spillsbury, the Mormon scout, who guided Capt. Charles T. Boyd and his little command over the trail that led to the Carrizal encounter. The troopers were quartered at Fort Bliss, awaiting orders from General Funston at San Antonio.

Two stories widely divergent, were brought back from their captivity by the prisoners. One, told by Spillsbury, upholds statements he was credited with making at Chihuahua City, charging Captain Boyd with "bullheadedness" in advancing in the face of a certain Mexican attack. The other, narrated by fighting men of the Tenth, declares the Mexicans to have been the aggressors and blames them for the ensuing slaughter.

Kill Wounded After Battle.

Private William D. Gibson declared that he was certain that after the Americans had quit the field of the Carrizal battle, the Mexicans went over it and killed several Americans who were wounded, but still alive.

Gibson's assertion was corroborated by Private Archie Jones and Luther Alexander.

Thousands gathered in El Paso and Juarez to witness the arrival of Spillsbury and the negro troopers.

In Juarez a big crowd at the railroad station viewed the disembarkation of the prisoners with curiosity, but gave no outward evidence of enmity. Now and then as they progressed from the station to the disinfecting plant, from that point to the commandancia and finally to the international bridge, there were scattering disapproving jeers.

FRENCH TAKE TEUTON LINES IN CHAMPAGNE

Repulse German Attacks All Along Verdun Front—Russians Capture Ten Thousand In One Day.

Paris, June 30.—French troops have taken the offensive in the Champagne region and after cleaning out German first line trenches west of Lemesnil, penetrated the enemy's second line, blowing up several shelters, the war office announces.

German attacks along the Verdun front were repulsed. Another powerful Teuton attack delivered near the Thiaumont redoubt, north of the citadel, was checked by French artillery and machine gun fire.

Russians Beat Germans.

Petrograd, June 30.—Russian troops fighting in Volhynia and Galicia took prisoner 221 officers and 10,285 men, says the official statement issued by the Russian war department.

The official statement says the Russians inflicted a severe defeat on the Teutonic troops between the Dniester and Pruth rivers, capturing three lines of trenches.

To Prove Suicide By Psychology?

Waukegan, Ill., July 1.—Will Orpet's attorneys, confident that Orpet's own story of Marion Lambert's death had not been shaken in any main point by the rigid crossexamination he has undergone, have set about to show by science, psychology, maps, mathematics, rumors and letters that Marion committed suicide. J. Cragoe, professor of chemistry at Deerfield township high school, who told the jury Marion was in the chemical laboratory, where cyanide was kept, the day before her death, answered crossexamination.

CANADA'S EXCELLENT FINANCIAL STANDING

Bank Clearings Increase—Agriculture Is a Paying Industry—Manufactures Doing Well.

"Business experts assert that Canada is on the threshold of perhaps the most prosperous era in her history. The unprecedented value of the farm products of 1915, together with the very large output of factories working on munitions of war has suddenly brought the country into a position, financially, scarcely hoped for as a nation for years to come. Export surplus of $50,000,000 a month is making Canada very strong in cash." —Extract from official bulletin of February 11, 1916.

The response by the farmers of Canada to the call for increased production in 1915 was a total net output exceeding one billion dollars, an increase over normal years of at least three hundred millions. The three Prairie Provinces contributed probably nearly one-half of the total product.

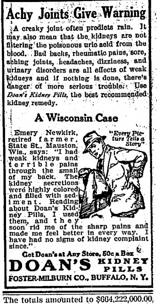
The wheat crop was worth $310,000,000, and accounted for about 30 per cent of the total agricultural product. Other things counted also. Look at dairying. In Ontario the dairy production was increased 20 per cent, and prices were over 10 per cent ahead of 1914. Other provinces shared in the increase, especially Alberta, Saskatchewan, Quebec and Nova Scotia. The dairy cow was "on the job" in 1915. So also were the beef cattle, the pigs and the hens.

It is not fair to the farmers of the Prairies to call the wheat crop of 1915 a "miracle" crop. The farmers cultivated more land and gave attention to their seed. Providence gave them favorable weather. Then they toiled early and late in the harvesting and threshing. Good cultivation gave bigger yields than careless work, 45 bushels as against 25.

The wealth of Western Canada is by no means all in its wheat crop. If the country had no wheat at all it would still be famous as a land of successful farmers on account of its stock production. From one shipping point (High River, Alberta) over $75,000.00 worth of horses have been sold in the last two months. The average price to the farmer has been about $175.00 per head. According to Government returns there are a million and a half horses in Manitoba, Saskatchewan and Alberta, worth probably $150,000,000.

The investments which farmers of Western Canada are making in livestock and farm improvements are good evidence of the fact that they have money for these purposes. It is apparent, however, that they are also spending some of their profits on those things which will bring greater comfort and enjoyment to themselves, their wives and their families. The automobile trade all through the country is particularly active, and farmers are the biggest buyers. A recent report of the Saskatoon district shows that in two months a million dollars' worth of automobiles have been sold, largely to farmers. Nor are all of these cars of the cheaper makes; some high-priced machines are in demand.

Bank clearings throughout the Western Provinces show greater commercial activity than at the same season in 1915 or 1914, the increase for the last week of February being $8,000,000 and almost $9,000,000, respectively, for the first week of March $15,000,000 over 1915 and $18,000,000 over 1914. The same excellent story comes from Moose Jaw, Sask., where they showed from 40 to 100 per cent over the previous year. Calgary, Alta., bank clearings continue to reflect the greatly improved business conditions as compared with a year ago. Canada's bank clearings for the month of February, 1916, were the greatest for any February in the country's history. The totals amounted to $664,222,000.00, as compared with $487,296,000.00 for the same month a year ago. An increase of $177,000,000.00 in bank clearings for the month tells its own story of the country's prosperity.—Advertisement.



Achy Joints Give Warning

A creaky joint often predicts rain. It may also mean that the kidneys are not filtering the poisonous uric acid from the blood. Bad backs, rheumatic pains, sore, aching joints, headaches, dizziness, and urinary disorders are all effects of weak kidneys and if nothing is done, there's danger of more serious trouble. Use *Doan's Kidney Pills*, the best recommended kidney remedy.

A Wisconsin Case

Emery Newkirk, retired farmer, State St., Mauston, Wis., says: "I had weak kidneys and terrible pains through the small of my back. The kidney secretions were highly colored and filled with sediment. Reading about Doan's Kidney Pills, I used them, and they soon rid me of the sharp pains and made me feel better in every way. I have had no signs of kidney complaint since."

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

LYDIA E. PINKHAM

Philosophy teaches us to take things as they come—but the trouble is that they frequently fail to come.

To Save Meteorites.

The South African Journal of Science records the steps that have been thus far taken at the suggestion of the South African Association for the Advancement of Science, to obtain legislation in various countries relative to the preservation of meteorites in the interests of science. The committee of sections A and C of the British association adopted the following resolution at the Australia meeting: "That in view of the fact that meteorites which convey information of world-wide importance are sometimes disposed of privately in such a way as to deprive the public of this information, the council be requested to take such steps as may initiate international legislation to the matter."

Playing Safe.

O'Toole—Phwat's the matter that ye didn't spake to Mulligan just now? Have ye quarreled?

O'Brien—That we have not. That's the insurance av our friendship.

O'Toole—Phwat de ye mane?

O'Brien—Sure, it's this way. Mulligan an' I are that devoted to wan another that we can't bear the idea of a quarrel; an' as we are both moighty quick-tempered we've resolved not to spake to wan another at all, for fear we break the frindship.

It is easier to elect a good man to office than it is to get him to stay good after he is elected.

BURNQUIST GIVEN LARGEST VOTE AT PRIMARY ELECTION

COMPLETE RETURNS SHOW GOVERNOR RECEIVED MAJORITY OF 93,167—SECRETARY OF STATE GETS BIG VOTE.

KELLOGG IS NOMINATED; DWYER DEFEATS WORKS

Candidate for Senator Beats Clapp for Republican Nomination—Frankson, Rines and Mills Win—Lawler is Democratic Nominee for Senator—Prohibition Vote Light.

St. Paul, Minn., June 27.—Complete official returns of Minnesota's primary election have just been compiled in the office of the secretary of state.

According to the figures Governor Burnquist received by far the largest majority, polling 136,122 votes to 42,955 for Samuel G. Iverson.

The complete official returns are as follows:

Republican Party.

Total number of Republican votes cast 168,308.

Senator in Congress.

Moses E. Clapp	27,668
Adolph O. Eberhart	54,890
Frank B. Kellogg	73,818
Charles A. Lindbergh	28,094

Kellogg's Plurality—18,928.

Governor.

J. A. A. Burnquist	136,122
Samuel G. Iverson	42,955

Burnquist's Majority—93,167.

Lieutenant Governor.

Thomas Frankson	71,194
Dr. J. A. Gates	38,886
James A. Peterson	63,067

Frankson's Plurality—8,127.

Secretary of State.

E. K. Sampson	56,691
Julius A. Schmahl	113,214

Schmahl's Majority—56,523.

State Treasurer.

R. L. Johnson	62,940
Henry Rines	81,077
Peter J. Schwarg	25,866

Rines' Plurality—18,137.

Railroad & Warehouse Commissioner.

Ira B. Mills	99,932
Elias Steenerson	64,053

Mills' Majority—35,879.

Democratic Party.

Total Number Decoratic Votes cast 41,462.

Senator in Congress.

Alfred J. Davis	12,685
Daniel William Lawler	26,789

Lawler's Majority—14,104.

Governor.

Thomas P. Dwyer	15,290
Cyrus M. King	11,994
S. D. Works	11,196

Dwyer's Plurality—3,296.

Lieutenant Governor.

Severin N. Sorenson	15,445
Julius Thorson	19,601

Thorson's Majority—4,156.

Prohibition Party.

Total number of Prohibition Votes cast 3,474.

Governor.

Thomas J. Anderson	2,127
Charles W. Dorsett	1,180

Anderson's Majority—947.

Railroad & Warehouse Commissioner.

John Lind	2,603
Lou W. Martin	658

Lind's Majority—1,945.

Non-Partisan Associate Justice of the Supreme Court.

Total number of ballots cast—223,372.

W. B. Anderson	69,219
Thomas Kneeland	25,433
James H. Quinn	58,530
Albert Schaller	53,324

Messrs. Anderson and Quinn having received the highest number of votes will be placed upon the official ballot for November 7, as the two candidates for the one position on the Supreme Bench.

First Congressional District.

Syndney Anderson	11,754
F. A. Duxbury	3,018
Ola M. Levang	915
William B. Richardson	3,910

Anderson's Plurality—7,844.

Third Congressional District.

Charles R. Davis	11,495
George A. Mackenzie	4,713

Davis' Majority—6,782.

Fifth Congressional District.

Ernest Lundeen	9,887
Geo. R. Smith	9,413
Chas. L. Sawyer	3,417

Lundeen's Plurality—474.

Sixth Congressional District.

C. B. Buckman	4,507
Harold Knutson	7,348
Edward L. Rogers	4,760

Knutson's Plurality—2,588.

Eighth Congressional District.

Chas. P. Craig	8,761
Clarence B. Miller	12,685

Miller's Majority—3,924.

Ninth Congressional District.

A. G. Anderson	7,349
Halvor Steenerson	12,555

Steenerson's Majority—5,206.

Tenth Congressional District.

Lowell E. Jepson	11,460
Wm. F. Rogers	6,510

Jepson's Majority—4,950.

The only contest for Representative in Congress by the Democrats was in the First District and the vote was as follows:

Henry M. Lamberton	3,155
Leonard Virtue	1,376

Lamberton's Majority—1,779.

Negro Loses Nickel; Kills Four.

Osceola, Ark., June 27.—Enraged because he had lost a nickel in a dice game with two other negroes and inflamed with liquor, Henry Clark, 30 years old, seized a rifle and began shooting into a crowd of negroes gambling in a cabin on a farm near here. When he finished shooting, two negroes and two negresses were dead and four others were wounded, one of whom died later. Officers from Osceola surrounded Clark in a thicket near the scene of the shooting and he killed himself.

Gopher State Happenings

Important Events of Various Sections of the state reported during last few days.

4,000 MEN AT FORT SNELLING

MINNESOTA'S GUARDSMEN ARE NOW IN CAMP.

Troops Confronted by Stone Wall Line-up of Mustering Board—Must Pass Tests.

Minneapolis, June 28.—Complete war-footing ordnance, consisting of guns and ammunition for the Minnesota brigade, has been shipped to Fort Snelling from the government arsenal at Rock Island, Ill., according to information reaching Camy Bobleter.

More than 4,000 men, Minnesota's entire complement of national guardsmen, are now in Camp Bobleter at Fort Snelling.

When the troops reached the camp some had an idea that they would tarry only a night or two and be on their way. They were confronted, however, by a stone wall line-up constituted of a mustering board of four regular army officers of whom Lieutenant Colonel Arthur Johnson is ranking officer.

Troops Must Pass Test.

When infantry and artillery commanders came bursting into the offices of this mustering board each was treated to a rude shock which sent him back to his tent with a new idea of what the United States government requires before it accepts even a private into the regular army.

The routine through which men and regiments must pass before likely to receive orders to move toward the Mexican border is pretty well covered by three general classifications—inoculation, equipment and mustering in.

GOPHER STATE NOTES

Winona. — Mayor W. A. Hodgins, with the citizens' committee organized here, has arranged for a meeting of employers to urge employes to enlist in the national guard.

Virginia. — Sheriff John Meining declares that he and his men have the strike situation well in hand and that the state militia is not needed, though it is understood an effort is being made to have soldiers brought here.

Bemidji.—Chippewa Indians of this section have offered to organize a battalion of warriors for service in Mexico if a call for volunteers is made by the President. Twenty Indians at Red Lake reservation are in charge of the tentative recruiting.

Thief River Falls. — When a miniature tornado struck this territory, the dog of Ole Svennek, a farmer, was picked up bodily and hurled 50 feet, landing in the crotch of a tree, where it remained, howling and shivering until men from the farm rescued it. Several neighbors of Svennek corroborate the story.

Employes of the state under the board of control who enlist for war service will be cared for by the board. Their positions will be kept open for them. Married men below the rank of commissioned officers will be paid their full salaries for three months. If necessary it may be possible to continue this arrangement as long as they are absent on active duty.

St. Paul. — A plea for additional recruits and for funds to care for Minnesota soldier boys at the border, has been made by Gov. Burnquist in a proclamation just issued. The governor calls upon all citizens to do their share in contributing to the fund which will be used to provide comforts for all Minnesota soldiers. He asks each mayor to collect the funds and forward them to A. C. Gooding, state treasurer.

Minneapolis.—Directors of the industrial survey being taken in Minnesota as a portion of the program launched by the naval consulting board of the United States are aroused over the apparent apathy with which their agents are being met by manufacturers in the state. About 400 reports have been received from the field aides, of which there are 225, but the directors assert many more should have come in by this time.

Bemidji. — When the petition for a county option election to be held in Beltrami county is filled, it will bear the names of about fourteen hundred citizens who want the matter brought to a vote. A county option election has been agitated for some time by persons throughout the county, but more especially by those in the southern part who believed the Indian lid which was clamped on the territory covered by the treaty of 1855 did not cover the proposition sufficiently.

Owatonna.—This city opened its gates and welcomed the Minnesota Music Teachers' association, which convened at Pillsbury academy. Harry Phillips of Macalester college, president, made the opening address. A committee of ten was appointed to plan increased membership.

Staples. — In two days more than five miles of the road between here and Motley was rebuilt and put in passable condition for automobiles, all by volunteer labor. Most of the workers were from this city, but a fair proportion was made up of Motley citizens and farmers along the way.

The Wheat Yield Tells the Story

of Western Canada's Rapid Progress

160 ACRE FARMS IN WESTERN CANADA FREE

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, **upwards of four and a quarter million bushels being exported in less than six weeks,** and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

Write for illustrated pamphlet, reduced railroad rates and other information to Superintendent Immigration, Ottawa, Canada, or

Typewriter Service in Rural Communities

The typewriter is coming into more extended use in rural communities because of the assistance it renders to all classes of people. Here are a few examples of the possibilities of service:

The Farmer: Think of the possibilities of selling produce by the means of typewritten letters sent out to customers? Typewritten letters give the sender a business standing with the people who receive them and also enable the keeping of carbon copies of the correspondence, which many times does away with misunderstandings and lawsuits.

The General Store Merchant: More prompt and courteous treatment is likely to be accorded his orders and correspondence with the City jobber and manufacturer if his letters are typewritten.

In The Home: The boy or girl who is intending to follow a business career can secure no better start than a knowledge of typewriter operating. Children who learn to use the typewriter learn spelling at the same time. The housewife finds it a great convenience in writing recipes and for general correspondence.

The Minister: No Clergyman should be without a typewriter. It is of great assistance in preparing sermons and writing the many letters that a pastor has to write.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam Minn. under the Act of Congress of March 3, 1879

Hughes has been out of politics for six years and now he wants to come back. Jefferies was also out of the prize ring six years when he tried to come back, but failed. Mr. Hughes should take warning and rectify his mistake before it is too late.—The Gully Advance.

There is no danger that Hughes will not come back, and if you want to compare the Presidential race to a prize fight, we will arise to remark that Wilson will stand about as much show of defeating Hughes, as a farmer would have to let go of his plow handles and step into the ring to fight Jess Willard.

As Gully was the former home of THE SUNBEAM, we regret to see that the good loyal Republicans of that locality are dished up such ridiculous political dope, as the above taken from the Advance.

We are publishing, as advertising matter, this week, "Federal Inquiry or Railroad Strike.

While we are always in sympathy with the actual laborers on railroads, or any other kind of labor, yet it seems that there must be some way provided so the entire business of the country will not come to a sudden stop. This country cannot afford to have an industrial worry at the present time, and prompt measures should be taken to prevent it before a strike is declared and the wheels of progress brought to a sudden stop.

Federal Inquiry or Railroad Strike?

Faced by demands from the conductors, engineers, firemen and brakemen that would impose on the country an additional burden in transportation costs of $100,000,000 a year, the railroads propose that this wage problem be settled by reference to an impartial Federal tribunal.

With these employes, whose efficient service is acknowledged, the railroads have no differences that could not be considered fairly and decided justly by such a public body.

Railroads Urge Public Inquiry and Arbitration

The formal proposal of the railroads to the employes for the settlement of the controversy is as follows:

"Our conferences have demonstrated that we cannot harmonize our differences of opinion and that eventually the matters in controversy must be passed upon by other and disinterested agencies. Therefore, we propose that your proposals and the proposition of the railways be disposed of by one or the other of the following methods:

1. Preferably by submission to the Interstate Commerce Commission, the only tribunal which, by reason of its accumulated information bearing on railway conditions and its control of the revenue of the railways, is in a position to consider and protect the rights and equities of all the interests affected, and to provide additional revenue necessary to meet the added cost of operation in case your proposals are found by the Commission to be just and reasonable; or, in the event the Interstate Commerce Commission cannot, under existing laws, act in the premises, that we jointly request Congress to take such action as may be necessary to enable the Commission to consider and promptly dispose of the questions involved; or
2. By arbitration in accordance with the provisions of the Federal law" (The Newlands Act).

Leaders Refuse Offer and Take Strike Vote

Leaders of the train service brotherhoods, at the joint conference held in New York, June 1-15, refused the offer of the railroads to submit the issue to arbitration or Federal review, and the employes are now voting on the question whether authority shall be given these leaders to declare a nation-wide strike.

The Interstate Commerce Commission is proposed by the railroads as the public body to which this issue ought to be referred for these reasons:

No other body with such an intimate knowledge of railroad conditions has such an unquestioned position in the public confidence.

The rates the railroads may charge the public for transportation are now largely fixed by this Government board.

Out of every dollar received by the railroads from the public nearly one-half is paid directly to the employes as wages; and the money to pay increased wages can come from no other source than the rates paid by the public.

The Interstate Commerce Commission, with its control over rates, is in a position to make a complete investigation and render such decision as would protect the interests of the railroad employes, the owners of the railroads, and the public.

A Question For the Public to Decide

The railroads feel that they have no right to grant a wage preferment of $100,000,000 a year to these employes, now highly paid and constituting only one-fifth of all the employes, without a clear mandate from a public tribunal that shall determine the merits of the case after a review of all the facts.

The single issue before the country is whether this controversy is to be settled by an impartial Government inquiry or by industrial warfare.

LURE OF CHECKERS

A Game That Has Been Played For Twenty Centuries.

LONG KNOWN AS "DRAUGHTS."

Plato and Homer Mentioned the Game In Their Writings, and Many Relics of It Have Been Unearthed From the Tombs of Ancient Egypt.

In the messengers' room of a big industrial plant two boys hovered meditatively over a checkerboard of red and black squares and moved their "men" from square to square with much premeditation. An old man chanced that way and, lured by the contest, stopped and looked on. Taking the liberties or the rights that his years warranted, he suggested a move and was soon absorbed in the game. Another man came by and stopped, and soon there was a group around the silent and intent contestants. The lure of checkers was upon them.

This game in slightly modified forms has exercised its fascination upon the human race for centuries that cannot be counted. "Checkers" is a new name for an ancient game. To English speaking people it was long known as "draughts," and in all the languages of civilized men it has a name. There are variations in the way of playing it, but it is the familiar checkers of our time just the same.

So many things come to light out of the ancient tombs of Egypt that it strikes the modern man as remarkable how many articles they buried with men in those dim, long gone ages, but out of tombs at least twenty centuries old explorers, excavators and tomb breakers have brought forth pieces of checkerboards and the disks which for some reason are called "men." And as such things have been found in tombs that were sealed twenty centuries ago it is possible that some time in very much older tombs explorers may find relics of checkers.

In the British museum one of the exhibits in the Egyptian collection is a board and men of the ancient game which came out of one of those ancient tombs. Some of the oldest of the mural decorations of ancient Egypt depict players engaged at draughts, or whatever the ancient Egyptians may have called the game.

Classic references may be found to draughts. Plato mentioned it and writes that it was the invention of an Egyptian whom he called Hermes Trismegistus, but where and how Plato got the information are not clear. It is very easy to say a man invented such and such a game but close investigation usually proves that he hit on some adaptation or variation of a very much older game.

Tracing the genesis of a game of skill or chance usually leads the investigator too far back in the mists of the past to be sure that he has found the correct answer.

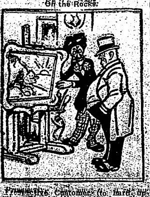
This game is also mentioned by Homer, and he records the observation that it was played during the period with which the "Odyssey" deals. There is little doubt that the Greeks played the game and that at a later period the Romans played a variant of it, which they called "latrunculi."

It was early played through northern Europe and was played there at such a remote period that it was said to have been one of the few things which were not introduced in that region by the Romans.

It was one of the most popular games in Europe during the sixteenth century. In the Library of Congress are several old books treating of the game. Samuel Johnson once wrote a preface to a book on the game of draughts which one William Payne had composed at the expense of much time and effort.

Students of checkers and very old players of the game recall the names of Anderson, an Englishman, and Wyllie, "the herd laddie," who were famous checker players about half a century ago. Wyllie traveled all over the world playing contests with local checker experts and enthusiasts. Martins, an English player, and two Americans, Yates and Barker, succeeded to the fame of Anderson and Wyllie.—Washington Star.

On the Rocks.



Prospective Customer (to hard up artist)—Humph! Not bad. But who's that on the rocks?

Artist—Ah, that's me!—Chicago Herald.

Captain Kidd buried his treasure. "If I were Mrs. Kidd I would hide it in the top bureau drawer," he asserted.—New York Sun.

FIRST STATE BANK,
Of Plummer Minnesota.

THERE is an economy wave over the land. American people are beginning to realize that they are living too fast, beyond their means. It has been the rule that the man with $20,000 a year as well as the man with $2,000 a year lives up to every penny of his income. Slowly but surely this order of things is changing. The era of extravagance and waste in business and personal expenses is nearing an end. Efficiency and economy is the order of the day. Bank deposits are growing.

It is up to every one to economize. The best and surest way to do so is to place your surplus in the bank. If you already have a bank account make it a point from today on to increase it. Add to it weekly, daily, if possible.

IF YOU HAVEN'T A BANK ACCOUNT, DECIDE TO OPEN ONE TODAY.

Proof made under Act June 6, 1912.

Peter M. Ringdal,
Register.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

MINNESOTA
HISTORICAL
SOCIETY

VOL. XVI. SUNBEAM, PENNINGTON COUNTY, MINNESOTA, FRIDAY, JULY 14, 1916. NO. 18

THE LOCAL NEWS

The Red Lake River has commenced to go down slowly.

Miss Leone Wilde was a visitor at Goodridge on Tuesday.

Halvor Myrum has purchased a new Ford automobile recently.

John Nelson transacted business at Goodridge Wednesday.

Miss Annie Olson and Ole Olson were Crookston visitors on last Monday.

There will be a public ball given at the Highlanding bowery to-morrow night.

Mr. and Mrs. Wm. Quirk and family attended church at Goodridge last Sunday morning.

There will be a Young People's Society held at the residence of Ole Howard's on Sunday July 16.

Anyone driving through this part of the country now days will notice that clover thrives in this locality.

Several farmers commenced haying this week, and haying will be the order of the day next week.

The weather has been extremely warm for the past week, which has rushed the growing crops forward rapidly.

Wild strawberries and raspberries are a heavy crop this year, and the raspberry crop is just beginning to get ripe.

Mr. and Mrs. Wm. Quirk and family and Mrs. L. Witcherman, James O'Brien, Abel Bost and Harry Causin visited at Sunbeam on last Sunday.

We have not had a rain storm since one week ago last night, which makes the longest spell of dry weather we have had this spring so far.

Dr. Charest, Physician and Surgeon, will visit professionally Goodridge, Mondays. Wednesday and Friday every week. Headquarters at drug store.—Adv.

The farmers who have any surplus hay on their farms should let the people of Hickory township have it, as a large number of them have lost their entire hay crop by floods.

Lars Hyland had one of his horses overcome by heat last Monday while scraping on the road grade south of Sunbeam, but it is now on the road to recovery.

Miss Erma Parnow, Elsie Witcherman, Elida and Manda Klemmetson, and Edward Klemmetson and Lenard McAndress visited at the Wm. Causin home last Sunday.

County Commissioner P. C. Wold was over on this side of the river last Saturday, looking over the road grades to have some more culverts put in, so as to better drain the land and roads.

Ludvig Larson was down to Highlanding after a load of oats Tuesday, and reports that the greater part of the river bottom lands on Red Lake River, will not produce any hay this year owing to the floods.

We have received a copy of the bill, which Congressman Steenerson now has before Congress to get a permission to construct a bridge across the Red Lake River at Highlanding, and we are in hopes that he will get the bill through at the present session. Whether we are able to get a bridge across the river at this point next year or not, we hope to get the permission, so there can be no farther excuse on that score.

THAT SINGER INDICTMENT

On the complaint of George and Edward Singer the publisher was indicted by the last grand jury.

The action was brought for alleged libelous articles published in THE SUNBEAM which they claim might lead the public to believe that they the poor innocents might be guilty of the crime of arson. We promptly entered a plea of "not guilty," and the trial of the case has been continued until the next regular term of court in January.

We [illegible] that part of the Penal Code which reads:

"Such publication is justified whenever the matter charged as libelous is true and was published with good motives and for justifiable ends. It is excused when honestly made, in belief of its truth, and upon reasonable grounds for such belief."

We expect to produce plenty of evidence to justify all publications made in THE SUNBEAM at the trial of this case, and if we fail to do so, to the entire satisfaction of a jury of twelve citizens of Pennington County, we are ready to take any punishment that the Court sees fit to give us.

SEALED BIDS WANTED

To make 100 rods of ditch between Sec. 34 and 35 in the town of Highlanding. Ditches to be 8 ft. wide on top 6 ft. in the bottom 2 ft. deep. Bids will be received at the Clerk's office on Aug. 1st, at 2 o'clock. The contract must be let at once, so the bidders should be present.

NO MORE DRAINAGE TAXES WANTED.

On our return from Thief River Falls last week, we had quite a talk with Senator D. P. O'Neill regarding the deepening of the channel of Red Lake River to relieve the flood situation along the river, which has done so much damage this year. There is a strong movement going to be made by the people living above Red Lake to try to get a bill through the next Legislature to deepen the channel of the river, and assess the cost to the lands lying along its banks. Mr. O'Neill is opposed to any proposition of this kind, as anyone can plainly see that it would tax the farmers of this county beyond their ability to pay. The people above the lake are in such haste to get the work done that they do not want to wait for the government to do it, and of course would prefer to have the farmers living below the lake have their lands assessed for it, so as to get the work done at once. We are fortunate to have such an able opponent of this scheme in the State Senate as Mr. O'Neill, who is Chairman of the Drainage Committee, and will oppose any proposition to farther tax the farmers for drainage purpose. The government will surely make these improvements for the benefit of their Indian lands, and it is up to us to wait until they do do it, instead of hastening into any deal to further tax the farmers for drainage.

K. A. Korstad transacted business at Thief River Falls Wednesday.

Evan J. Sund is delivering stock to Goodridge to-day, which will be shipped to the St. Paul market.

Goodridge are certainly beginning to put on metropolitan airs, as they are to have a regular circus under canvas next Monday, when the McDonald Bros. circus will exhibit there in the afternoon and evening.

THE SAFETY HABIT

You know the Railroads are talking a good deal these days about the "Safety Habit." It is not a safety razor or a safety bicycle, It's safety for the lives intrusted to their care.

The principle applies to the banking business. Our bank employed the Safety Habit at the outset—safety to the depositors money intrusted to our care. Every dollar left with us will be taken care of. Safety is our watch word. We would like to have your account on this basis.

We pay 6 per cent on time deposit

DEFECTIVE PAGE

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2812 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

Accounting for It.

"Higgins, who is something of a poet, says his muse will run away with him."

"I suppose that is the reason why he is given to writing fugitive poetry."

The Magic Washing Stick

"The Magic Washing Stick is the finest thing in the world. Cleans the clothes without rubbing—makes the whitest clothes I ever saw. I cannot do without it any more. All you say is true, it does all you say it will. I would give it for nothing I have ever used. I hope every lady will try it," writes Mrs. W. F. Gammill, Ashdown, Ark. 15 washings 25c. This peculiar article is sold by all grocers everywhere. **Winston, Harper, Fisher Co.,** Minneapolis, Minn., Distributors.—Adv.

Bill, the Monopolist.

A socialistic writer was talking in Boston about the dye trust recently formed in Germany.

"It includes all the German dye firms," he said. "Talk about a monopoly, eh? Why, it's as bad as Bill Smith.

"Bill Smith went off to the shore for a week or two, and on his return took Sam Jones to task severely.

"'Look here, Sam,' he said, 'I understand that while I was off at the shore you took advantage of my absence to hang around Mabel Green almost every night.'

"'No, Bill,' said Sam, 'you're mistaken. 'It's her sister, Sallie Green, that I've been hangin' round.'

"'Well,' said Bill, 'that makes no difference. I got my eye on both them girls.'"

Much-Wanted Man.

The book agent advanced toward the door.

Mrs. Flinn stood in the doorway with a huge stick in her hand and an ugly frown on her face.

"Good morning," said the stranger, politely, "I'm looking for Mr. Flinn."

"So'm I," announced Mrs. Flinn, shifting the club to the other hand.

A woman can get more pleasure out of a good cry than a man can extract from a good laugh.

So many people wait in vain for their ships to come in because they were never launched.

GIANT SUBMARINE REACHES AMERICA WITH RICH CARGO

GERMAN UNDERSEA MERCHANTMAN SLIPS INTO CHESAPEAKE BAY AFTER COMPLETING 4,000 MILE VOYAGE.

BEARS MESSAGE FROM KAISER TO PRESIDENT

Great Submersible Brings Dyestuffs and Mail on Longest and Most Hazardous Trip Ever Attempted by Any Submarine—Carries Two Small Guns.

Norfolk, Va., July 11.—Bearing a message from Emperor William to President Wilson, running the gauntlet of innumerable dangers from mines, sea sweepers and enemy warships, and bringing a cargo of dyestuffs, chemicals and mail the German undersea merchantman, the Deutschland, quietly slipped into Chesapeake bay at 1:45 a. m.

It was the completion of a 4,000-mile sea voyage, the longest and most hazardous ever attempted by any submarine.

Goes to Baltimore.

Three hours later, led by the tug Thomas F. Timmins, the great submersible began the last leg of its voyage up the Chesapeake bay for Baltimore.

The information that the Deutschland brought in a message from Emperor William to President Wilson was given out by Pilot Cocke, who said he was told of this by Captain Kairig, the submarine commander.

Carries Two Small Guns.

The Deutschland carries, mounted in its conning tower, two small guns, of about three-inch calibre. No torpedo tubes are visible. It is capable of submerging in less than two minutes. On the surface of the water the submersible has speed of from two to three knots an hour more than the average merchant steamer.

According to Captain Frederick Cocke, a Norfolk pilot and the first American to board the Deutschland, the crew wore regulation uniforms of German merchantmen seamen.

No flag was displayed when the Deutschland first appeared off the capes. Later, when inside the bay, the German merchantman ensign was raised.

Starts Underseas Business.

Captain Cocke said the commander of the Deutchland was extremely frank in stating his mission to the United States, that of instituting an undersea merchantman export and import business between the United States and Germany.

The Deutschland left a German port on June 23, and, although it encountered a number of merchantships and one warship, the commander said he easily escaped detection by submerging.

Reaching the vicinity of the Virginia coast the Deutschland remained far outside, knowing that the capes were guarded by enemy warships, and came in that night under cover of darkness.

Passes French Cruiser.

Captain Cocke declared at one time he was within 500 yards of a French cruiser outside the capes, but passed in unobserved.

According to reports brought into Norfolk and credited to members of the Deutschland's crew, the submersible arrived off the capes late Thursday afternoon, but was detected by the English and French cruisers on guard, and was forced to run, the chase lasting until Saturday morning before the warships gave up the hopeless task and returned to their station.

YAQUIS DEVASTATING AMERICANS' PROPERTY

Take Advantage of Withdrawal of Mexican Troops From Southern Sonora—Peons Suffer.

Mazatlan, Mexico, July 10.—Yaqui Indians taking advantage of the withdrawal of Mexican troops from Southern Sonora are reported here to have crossed the Yaqui river and invaded the lands of American settlers and the Richardson Construction company, devastating all property except company headquarters at Esperanza, where a Mexican garrison is maintained.

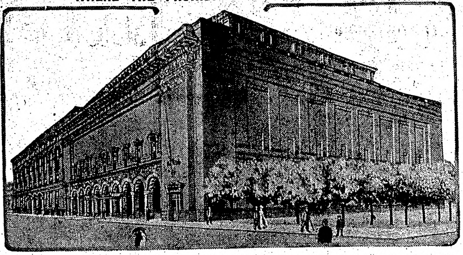
The navy collier Nanshan is expected to leave La Paz shortly with 54 refugees from Guaymas and La Paz.

The peons at La Paz are reported suffering all the rigors of famine. Merchants there absolutely refuse to accept Carranza currency. Horses and mules are dying in large numbers.

Mexican Embargo Raised.

El Paso, Texas, July 10.—The embargo on shipments to Mexico has been lifted, it was announced at department headquarters on everything except munitions of war. A large consignment of coal is expected to be sent across the border at once. It is hoped that the shipment of food supplies by business firms to Casas Grandes over the Mexico Northwestern will be resumed within three weeks. From Casas Grandes the supplies could be distributed to the American expeditionary forces.

WHERE THE PROHIBITIONISTS WILL CONVENE



This is the St. Paul Municipal auditorium in which the Prohibition national convention will be held, beginning July 18. The building, which was erected by popular subscription at a cost of $450,000, has seating capacity for almost ten thousand persons, and its stage is the largest in the United States.

AMERICA READY TO HELP MEXICO

PRESIDENT TELLS CARRANZA UNITED STATE IS PREPARED TO DISCUSS ANY PLANS.

FINANCIAL HELP IS NEEDED

Hundred Million Dollars Would Mean Salvation of Stricken Nation, High Official Says—Loan Sharks Feared—Lansing Takes Vacation.

Washington, July 10.—Inception of the diplomatic conversations, which it is hoped will result in a settlement of differences between the United States and the de facto government of Mexico, awaited a suggestion from General Carranza as to how they should proceed.

State department officials believe more can be accomplished through informal conferences between Eliseo Arredondo, Mexican ambassador designate, and Frank L. Polk, acting secretary of state, than by a more formal change of views. They are willing to accede, however, to some other plan should the de facto government propose it.

Ready to Exchange Views.

Washington, July 8.—Declaring the government of the United States is prepared immediately to exchange views as to a practical plan to remove finally and prevent a recurrence of the difficulties which have been the cause of controversy. Secretary of State Lansing has just dispatched to Mexican Ambassador Arredondo a reply to General Carranza's note of July 4.

The American government comments favorably in the note on the "frank statement of the difficulties which have unfortunately arisen," and expresses gratification over the "unreserved expression of the desire of your government to reach an adjustment."

SMALLER GRAIN YIELD SEEN

Forecasts of Final U. S. Production Announced.

Washington, July 10.—Forecasts of final production of the country's principal farm crops this year have been announced by the Department of Agriculture's bureau of crop estimates, basing its calculation upon the condition of the crops on July 1.

Indications are that the wheat crop this year will be several million bushels less than it was last year, when for the first time in the history of the nation the entire year's wheat output exceeded the billion bushel mark.

Some other crops also will be smaller than they were last year. That is due principally to a reduction in acreage.

NEW YORK EPIDEMIC SPREADS

Infantile Paralysis Scourge Breaks All Records for Development.

New York, July 7.—New York's infantile paralysis epidemic apparently spread to several nearby cities. In the meanwhile it showed great virulence in the greater city itself, breaking all records for development.

Caperton to Command Pacific Fleet.

Washington, July 10.—Rear Admiral W. B. Caperton, now commanding the cruiser squadron in Santo Dominican waters, will succeed Admiral C. McR. Winslow, retiring July 29, in command of the Pacific fleet. The post carries the rank of admiral.

Villa Gains New Strength.

El Paso, July 10.—With Carranza demonstrating his border control by warning Washington to expect another boundary raid and with Pancho Villa riding once more at the head of his butcher band, the borderland is looking forward to any number of important developments before the negotiations between the United States and the de facto government are concluded. Mexico bending to the United States was a bitter pill for the de facto government. The United States bending to Mexico was equally distasteful.

Text of Wilson's Note to Carranza

Washington, D. C., July 8.—A note formally accepting General Carranza's proposal that differences between the United States and the de facto government of Mexico be settled by direct negotiations, has just been handed to Eliseo Arredondo, the Mexican ambassador designate.

The note, which was in reply to that received July 4, from Foreign Secretary Aguilar, follows:

"Sir—I have the honor to acknowledge the receipt of your communication of July 4, 1916, in which you transcribe a note adressed to me by the secretary of foreign relations of your government and to request that you will transmit to him the following reply:

Equally Desires Solution.

"Mr. Secretary—I have the honor to acknowledge the receipt of your courteous note transmitted to me by Senor Arredondo on the 4th inst., in which you refer to my notes of June 20 and June 25 and to assure you of the sincere gratification of my government at the frank statement of the difficulties which have unfortunately arisen in our relations along the international boundary and the unreserved expression of the desire of your government to reach an adjustment of these difficulties on a broad and amicable basis. The same spirit of friendship and of solicitude for the continuance of cordial relations between our two countries inspires my government which equally desires an immediate solution of the matters of difference which have long vexed both governments.

Ready to Negotiate.

"It is especially pleasing to my government that the de facto government of Mexico is disposed to give quick as well as practical consideration in a spirit of concord to the remedies which may be applied to the existing conditions. Reciprocating the same desire the government of the United States is prepared immediately to exchange views as to a practical plan to remove finally and prevent a recurrence of the difficulties which have been the source of the controversy.

"Accept, Mr. Secretary, the renewed assurances of my highest consideration.

"I am, sir,
"Yours very sincerely,
"(Signed) ROBERT LANSING."

WOMEN TO WORK FOR HUGHES

National Organization to Boost Candidate Is Perfected.

Bridgehampton, N. Y., July 10.—Charles E. Hughes devoted the greater part of Friday to meeting women who will work for his election. The nominee and his wife motored nearly 100 miles to the country home of Mrs. Harry Payne Whitney at Roslyn, N. Y., and there received about 300 women workers, most of whom he had met before.

A national organization of women was perfected in the afternoon. The new organization, which has adopted the name "Woman's National Committee of the Hughes Alliance," plans to have branches in all debatable states.

JAPAN AND RUSSIA IN PACT

New Alliance Deals with Commercial Matters Is Belief.

Washington, July 7.—Information has come to Washington that Russia and Japan have negotiated an alliance. Officials are not aware, but would like to know, as to whether the alliance is political, military or commercial, or if it is broad enough to embrace all these factors.

German Shell Hurts Americans.

Paris, July 8.—A six-inch shell which burst near the Richard Norton section of the American automobile ambulance on the Verdun front, wrecked one of the ambulance cars and fragments of the shell struck two American drivers, say reports from the front. Harry Howard Hollinshead of Sparta, N. J., suffered a flesh wound in the left arm and Jacob Wendell of New York, formerly of Sandridgebury, Eng., was wounded in the back. None of the French wounded in the ambulance was struck by shell fragments.

RUSSIANS MENACE GERMANS IN EAST

SLAV FORCES WIN SUCCESS AFTER SUCCESS—CUT OFF GENERAL VON BETHMER.

TEUTON FORCES IN DISORDER

Teuton Dispatches Reflect Anxiety Over Advance of Czar's Men Which May Compel von Lensingen's retirement From Lutsk Salient.

London, July 11.—The Eastern front continues to overshadow the Western from the spectacular viewpoint, the Russian forces going from success to success. Not only has General Letchitzky in the south occupied the railroad junction at Delatyn, west of Kolomea, thus cutting off General Von Bothmer from his supply, but General Frussiloff in the north is making surprising advances on both sides of the Kovel railway toward the Stokhod river.

Slavs Threaten Kovel.

The Russian communication reports the enemy forces in this region retiring in great disorder and adds that the Russians have occupied Huleviche, which is about 24 miles to the east of Kovel, while apparently the Russians are already across the Stokhod river, somewhere in the region of Janovka.

German possession of Baranovichi and Kovel are absolutely essential if she is to retain her hold over the invaded parts of Poland and Lithuania, but it is considered likely that it is only a matter of a few days before the Russians will be in possession of Kovel, which could compel Von Linsingen's retirement from the Lutsk salient.

Major Moraht and other German critics express surprise at the extent and persistence of the Russian offensive and the endless resource of ammunition.

17,000 HEIRS TO CONTEST FOR HETTY GREEN'S MONEY

Son of "Richest Woman in the World" Predicts Fight of "Gigantic Proportions" Over Estate.

New York, July 8.—Colonel E. H. R. Green, son of the late Hetty Green, and with his sister, heir to the millions of the "richest woman in the world," expects a contest over $1,500,000 of the estate left by his mother. And 17,000 persons will be interested in it.

CALL NORTHWEST RESERVES

War Department Has Plans Under Consideration—Needs Men to Organize New Units.

Minneapolis, July 8.—Fort Snelling may be made the mobilization base for federal army reserves in the Northwest. The federal reserves have just been called to the colors by the war department, with orders to report in a few days. There are from 4,000 to 5,000 of them. They are needed to hasten organization of new units provided by the new federal army act.

Former Minister to China Improves.

Chicago, July 10.—The condition of William J. Calhoun, former United States minister to China, who has been seriously ill since last Wednesday, is reported improved.

Austrian Retreat Cut Off.

Petrograd, July 10.—An Austrian force estimated at between 20,000 and 30,000 has been cut off by the Russians southwest of Kolomea. The Austrians were massed east of the railway leading southward through Jablonitza pass. The sudden dash of a Russian infantry body that seized the railway station of Mikluiczyn cut off their retreat to the south. The right wing of the same Russian army, advancing west ward upon Nadvorna severed their connection with the Austrian forces to the north.

WESTERN CANADA AND THE LAND-HUNGRY

It Is Essentially an Agricultural Country.

Western Canada is the Mecca of the land-hungry man who wishes to earn a good living from the soil and save up money to take care of him in his old age without paying a fancy price for the privilege.

Western Canada is the great wheat producing section of the North American continent, with an average production of more than 30 bushels to the acre as compared with an average of 17 bushels to the acre in the States. Wheat raising can hardly be made profitable on land that costs from $50 an acre up unless such land will produce a much higher than a 17 bushel average, or unless the price of the cereal reaches an excessive figure.

The initial investment of $50 an acre is more than the average man can afford to make if he expects to raise wheat and to make a success of it.

A good homestead of 160 acres can still be secured free in Western Canada and additional land admirably suited to the raising of wheat can be secured at so low a cost per acre that it can be made extremely profitable.

No other part of the world offers such tremendous opportunities at the present time to the ambitious young farmer as the three great provinces of Western Canada.

It is worth the while of the land-hungry man to cease his depressing search for local cheap land or for land that is not entirely worked out by long cropping and to look outside his own district. Western Canada is a country that should receive the consideration of all such men. The Western Provinces of Manitoba, Saskatchewan and Alberta are essentially agricultural territory.

Out of 478 million acres there are 180 million acres of first-class agricultural land actually available for development—a block three and a half times as large as the total land area of Minnesota, and equal to the combined land areas of Minnesota, Iowa, Wisconsin, Illinois and Indiana.

But whereas the population of the five states mentioned is fifteen million people, the population of Western Canada is only about one and three-quarter millions.

It has been said that the average yield per acre of wheat in the United States last year was 17 bushels. This average does not, of course, represent the efficiency which may have been reached by individual farmers or by individual states. However, place against this figure the fact that the 1915 Western Canadian average—the average from nearly twelve million acres—was over 30 bushels. In the case of the Province of Alberta, the average reached 32.84 bushels per acre.

There are already a large number of American farmers in Western Canada, so that the newcomer could never—overlooking the fact that the same language is spoken—feel himself in an alien country. There seems, in fact, a tendency to establish little colonies composed of those coming from the same sections. The characteristics of the country, and the climate and season, are very much the same as in Minnesota or North Dakota. Social conditions bear a family resemblance. Education is free, and is good; its cost being defrayed partly by taxation, partly by grants from the Canadian Government, from the sales of school lands, of which, when the country was first surveyed, two sections in every township were allocated. Taxation in every rural district, in many towns and cities, is based practically on land values alone, improvements of all kinds being exempted.—Advertisement.

Nice Distinction.

"I suppose you will send your family away for the summer?"

"No, indeed," answered the meek-looking man. "My wife and daughters would resent the idea of my sending them anywhere. However, they expect to be away all summer."

Trying Ordeal.

"Speaking of hopes deferred and blighted ambition, there's Mr. Scrubly of our town."

"What about him?"

"He's been primed with an interview on the Mexican situation for the past six weeks and hasn't been able to break into print yet."

"I suppose I'll have to be bored by Flubdub's lecture. He's going to speak on Pike's peak."

Then why worry? You can't hear him from that distance."

Forty Weeks.

Sentimental Miss—Do you believe in long engagements?

The Man—Certainly! I am an actor.—Boston Transcript.

THIRD MINNESOTA OFF FOR UNKNOWN POINT ON BORDER

ENTIRE UNIT OF INFANTRY LEAVES CAMP BOBLETER, FORT SNELLING, FOR SERVICE ON MEXICAN FRONTIER.

THREE TRAINS CARRY TROOPS AND BAGGAGE

Surgeons Examine Every Member of Regiment for Contagious Disease—Men of First Draw Equipment and Companies of Second Are Vaccinated By Doctors.

Camp Bobleter, Fort Snelling, July 11.—The entire unit of the Third Minnesota Infantry is southward-bound for some unknown point on the Mexican border.

Huge piles of baggage stood at the ends of the company streets, ready for loading on the last day in camp. Only the field kitchens remained of the camp which had included row upon row of conical tents, flanked by the smaller tents of the staff officers. These had been replaced by shelter tents, and most of the camp paraphernalia had been loaded on freight cars.

Parents Say Farewell.

Standing in small groups were parties of parents and friends who had come to say farewell to the boys in khaki. After the men were dismissed these groups surrounded smaller parties of soldiers and remained with them until taps.

The first battalion, comprising A, B, C and D and the headquarters company, entrained about the middle of the forenoon and were followed by the second and third battalions at half hour intervals. Each battalion had a train consisting of nine sleepers, three flat cars and two baggage cars.

Ten Days' Rations Issued.

Ten days' travel rations were issued to each company and stoves were erected in the baggage cars to prepare coffee for the troops. Each man carried his complete field equipment, including rifle, bayonet, blanket, pack, canteen, cartridge belt and shelter half. Tents and other baggage were carried in wagons which were placed on the flat cars.

Immediately after breaking camp, surgeons examined every member of the regiment for contagious disease or disability which would make necessary a hospital en route. The regiment's medical corps has been divided and a detail assigned to each train for emergencies.

Third Has 1,053 Men.

The Third regiment goes South with 1,053 men and 54 officers. The unit has a machine gun company, medical staff, hospital corps, supply company and 12 companies averaging about 90 men each.

While the Third was preparing to leave, men of the First were drawing equipment and companies of the Second filed by the doctors for vaccination. Vaccination coming with the second anti-typhoid "shot" has been too much for many of the men and it has been necessary to excuse many from work. Surgeons say that one of the three "shots" produces a high temperature and chills, in addition to a painfully lame arm.

BANDITS REPORTED ON WAY TO RAID BORDER

Villistas Rushing Northward Toward Big Bend According to Information Received in El Paso.

El Paso, July 10.—Villistas are rushing toward the Big Bend to raid American towns, according to information received here.

Sweeping across the Chihuahua wastes from Falomir, toward La Mula pass, a band of Villistas of unknown strength is reported to be moving toward Ojinaga and the small American settlements in the Big Bend border country.

Villa's "Wounds" Healed.

It is said that Villa's wounds were caused by a bullet that passed through the back muscles of both thighs without striking a bone and that Villa has recovered sufficiently to walk with a limp and to ride with greater ease, the statement said.

The bandits are believed to be the same of whom Carranza warned Secretary Lansing.

German 'Plane Over English Coast.

London, July 10.—A German aeroplane appeared over the English coast but was driven off and dropped no bombs.

Move for Endowment Fund.

New Rockford, N. D., July 10.—For the purpose of advancing the interests of the New Rockford Collegiate institute, operated under the direction of the North Dakota Congregational conference, the board of trustees has started a movement for the creation of an endowment fund. Rev. E. E. Saunders, elected field secretary, will have charge. Rev. E. H. Stickney of Fargo, who has been chairman of the board of trustees, was elected president of the school. Professor R. L. Campbell will be dean.

* * *

AMERICAN-MEXICAN CONFERENCE IN U. S.

Mexico City, July 11.—The preliminary arrangements for a conference of representatives of the United States and Mexico to be held in some city in the United States have been completed, it is learned from a trustworthy source, and it is believed that shortly Mexican Ambassador Arredondo will advise the State department at Washington details of the plans for peace parleys.

AUSTRIAN FORCE IS CUT OFF

BETWEEN 20,000 AND 30,000 MENACED BY RUSSIANS.

Slavs Attempt to Squeeze Enemy Against Foothills of Carpathians and Effect Capture.

Petrograd, July 10.—An Austrian force estimated at between 20,000 and 30,000 has been cut off by the Russians southwest of Kolomea. The Austrians were massed east of the railway leading southward through Jablonitza pass.

The sudden dash of a Russian infantry body that seized the railway station of Mikluiczvn cut off their retreat to the south. The right wing of the same Russian army, advancing westward upon Nadovorna severed their connection with the Austrian forces to the north.

Scouts Report Retreat.

The latest reports to the war office said that Russian troops were attempting to squeeze the Austrians against the foothills of the Carpathians and effect their capture before they can escape through the mountain passes.

Russian aeroplane scouts report the withdrawal of enemy heavy artillery on the right wing of General von Bothmer's Austro-German army. There are other indications that Von Bothmer, hard pressed by the Russians, advancing on Nadovorna and Stanislau, is preparing to fall back on the whole Galician front.

British Gains Important.

London, July 10.—The British have resumed their sledgehammer blows against the German lines in the Somme sector, and after a day of terrific fighting, carried the German trenches at these points along the front. Latest reports from British headquarters say fierce fighting is continuing.

The British gains are characterized by the war office, as important from a tactical viewpoint. Their greatest success was east of La Boiselle, where they captured German trenches in extent of nearly 2,000 yards and to a depth of 500 yards. This gain is in addition to 1,000 yards of trenches taken by assault Thursday night.

BLOW TO U. S. IS SEEN IN RUSSIA-JAPAN TREATY

Closing of "Open Door" in China Suspected in Many Quarters in America—Officials Uneasy.

Washington, July 10.—Japan benefits at Germany's expense in the new Russo-Japanese treaty, according to statements made in diplomatic quarters here. A summary of the terms was received at the Japanese embassy, where it was declared that the agreement would in no way affect the interests of other powers.

Japan's motive, it is suspected, in many quarters, is to close the door to European and American development in China.

May Close "Open Door."

It is realized at the State department that the treaty may have momentous import for the United States, and the administration will use every effort to prevent American participation in the Chinese loan until it is assured that Japan intends to maintain the "open door."

In spite of the protestations of administration officials that no suspicion of Japan is entertained there is privately the greatest uneasiness over the new developments.

BELL AND GONZALES HOLD CONFERENCE IN SECRET

Juarez Commander Asked to Report News of Movement of Bandits, Is Report.

El Paso, July 10.—General George Bell, Jr., and General Francisco Gonzales, commander at Juarez, held a conference at the international bridge. General Bell, while admitting the meeting was held, refused to say what was discussed.

It was reported, however, from Mexican sources, that usually are reliable, that General Bell asked the Juarez commander to report to him promptly any news of the movement of bandit forces toward the Big Bend district of Texas.

Scores Bull Moose O. K. of Hughes.

New York, July 10.—Mathew Hale of Boston, acting chairman of the Progressive national committee, has made public a statement to delegates of the Progressive national convention, criticizing the indorsement of Charles E. Hughes by the committee. He has conferred recently with Vance McCormick, chairman of the Democratic national committee. Mr. Hale said the indorsement was without authority from the delegates or the state organizations and without any attempt to get authority.

Burnquist Signs Commission.

Governor J. A. A. Burnquist has signed the commission of Lieutenant Hugh McGee, United States cavalry, as lieutenant colonel of the First regiment to succeed Lieutenant Colonel F. B. Bowler, resigned.

★ ★ ★

Enthusiastic for Roads.

Enthusiasm in automobile road work is running high in Northern Minnesota, according to J. H. Mullen, deputy state highway engineer, who has returned from a 1,200-mile trip thru Minnesota in inspecting routes proposed for the Jefferson highway.

★ ★ ★

To Assist Country Papers.

In the interest of a proposed bureau to handle national advertising for country newspapers, advocated by the Minnesota Editorial association, a comprehensive survey of the newspapers of the state will be made soon by the department of journalism of the University of Minnesota.

★ ★ ★

Farmers' League to Expand.

The Nonpartisan Political league of North Dakota, which scored such a sweeping victory in the primaries in that state, is turning its eyes to Minnesota and to a group of midwest states situated similarly to North Dakota, for the purpose of launching a campaign to bring them under the control of the organization.

★ ★ ★

May Settle $1,000,000 Suit.

The drainage trouble between Minnesota and North Dakota, which has led the latter state to file a $1,000,000 damage suit for overflowed lands, may be settled by federal action which will result in reservoir control of the headwaters, both of the Red river and the Minnesota river, according to information received by Representative L. C. Spooner of Morris.

Binder Twine to Cost More.

Indications are that the farmers of Minnesota will pay an increased price for their binding twine next year. This is forecast in raises in the price of sisal received by the state board of control. According to the members of the board, who are now preparing to buy raw material for next year's binding twine to be manufactured at the Stillwater prison, prices of Yucatan sisal have been boosted from 30 to 50 per cent.

GOPHER STATE NOTES

Duluth. — June proved to be the record ore month of the Great Lakes, with total shipments from the Lake Superior district of 9,507,576 tons. Shipments since opening of navigation are 19,615,567 tons.

Brainerd. — Teaching a friend how to swim cost the life of Ben Arnold of Brainerd at Clark lake, when both encountered deep water. His companion struggled to safety. Efforts to resuscitate Arnold with a pulmotor failed.

Fairmont. — Judge J. H. Quinn has filed an order denying a new trial to Ole O. Solem, convicted recently of having poisoned his mother-in-law and given a life sentence at Stillwater. His attorneys will prepare an appeal to the supreme court.

Bena.—At the conclusion of a three days' celebration here the Mississippi river valley Chippewa Indians drafted a petition to be presented to the next congress calling for a government allotment of eighty acres more land for each member of the tribe. They ask that the land be taken from the national forest preserve in Cass county.

Camp Bobleter, Fort Snelling.—"Slackers"—men who refused to take the Federal oath of allegiance—will be dismissed from the camp and dealt with according to state law, it has just been announced. The number of these is too small to concern the war department with at this time and the state regulations will be utilized to cover these cases.

Duluth. — A score of police and sheriff's men are guarding the St. Louis county jail in this city, where are lodged seven I. W. W. members charged with first degree murder in connection with the shooting of Deputy Sheriff James Myron and a bystander at Biwabik. Three of the men are leaders, being Carlo Tresca, F. H. Little and Joseph Gilday. They were not implicated in the actual shooting, but at the order of the county attorney, Warren Greene, were arrested. The sheriff had been warned a rescue might be attempted by the strikers.

St. Paul. — A personal bond of $200,000 for Louis W. Hill, as administrator of the estate of his father, James J. Hill, has been filed with Clerk Fred Gosewisch of the Ramsey county probate court. Judge E. W. Bazille formally appointed Mr. Hill administrator.

Minneapolis. — Officers were elected at the convention of the Mission Covenant of America, held in Minnehaha academy, Thirty-first street and Forty-seventh avenue south. Fifty pastors and about 200 delegates from all over the state attended the annual gathering.

COLT DISTEMPER

SPOHN'S DISTEMPER COMPOUND

You can prevent this loathsome disease from running through your stable and cure all the colts suffering with it when you begin the treatment. No matter how young, SPOHN'S is safe to use on any colt. It is wonderful how it prevents all distempers, no matter how colts or horses at any age are "exposed." All good druggists and turf goods houses and manufacturers sell SPOHN'S at 50 cents and $1 a bottle; $5 and $10 a dozen. SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U. S. A.

REFUSES TO GET EXCITED

Mrs. Midge Considered Information From a Point of View That Was Perfectly Utilitarian.

Mr. Midge took an extraordinary delight in digging little facts out of the papers and holding forth on them to his wife.

One evening, as they sat together, she sewing and he reading, a smothered grunt of satisfaction warned Mrs. Midge that her husband had discovered something which he considered interesting.

"That's a most extraordinary thing—most extraordinary, my dear!"

"What is it?" asked his wife, in a resigned tone that always made him boil inwardly.

"Why, it says here that even if you pumped water out of the sea at the enormous rate of a thousand gallons a second—a thousand gallons!—it would still take twelve millions years to empty it. Marvelous, isn't it?"

"Marvelous! Stuff and rubbish, I call it!"

"Now, Mary," said Midge, beginning the inevitable lecture, "can't you see—"

"Silly nonsense!" said Mary, biting off a bit of cotton. "Where do you suppose they're going to pump all the water to, anyway?"

Janie's Way.

The young man was in love. He had declared his passion to the young lady and she had passed him along to father. Father listened to his tale patiently.

"It's all right so far as I am concerned," the old gentleman said, "but I am afraid that Janie will not marry you."

"Oh, don't say that," the young man pleaded. "Has she—has she said so?"

"No," said the old gentleman, "but from what I know of Janie, if she would, she'd have taken you without referring you to me."—New York Times.

The man who never forgets a favor or forgives an injury isn't apt to make a good friend.

Hair combs with removable teeth that can be replaced when broken have been invented.

Woman's sphere seems to be the earth.

What Worried Johnny.

"This war is making everything more expensive," complained father. "I see by the paper that even castor oil is going up."

"That's nothing in my young life," said little Johnny. "The only time it worries me is when it's going down."

IF YOU OR ANY FRIEND

Suffer with Rheumatism or Neuritis, acute or chronic, write for my FREE BOOK on Rheumatism—Its Cause and Cure. Most wonderful book ever written, it's absolutely FREE. Jesse A. Case, Dept. C. W., Brockton, Mass.—Adv.

The Difference.

Bishop Naphtali Luccock was talking in Helena about golfers.

"A Sunday golfer," he said, "rang the bell at a manse Sunday morning and asked to leave her golf sticks there during the service.

"'I can't hardly let you do that,' said the minister.

"'But,' the Sunday golfer objected, "you've got a sign on the church porch to the effect that bicyclists can leave their machines at the manse during service, haven't you?"

"'Yes, ma'am, I have,' the minister answered. 'You can ride to church on a bicycle, you know; but you can't on a golf stick—unless you happen to be a witch.'"

Poor Service!

The rector of a rural parish in England, says the Manchester Guardian, was trying to make conversation with a parishioner whose son was in the army. Not meeting with much success, he finally ventured: "Naturally I take deep interest in this force at Saloniki. Are you aware, Mrs. X, that these are the Thessalonians to whom St. Paul sent a letter?"

Mrs. X looked up from the washtub. "Well, he may have written there; I'm not saying he didn't. But I'm sorry for 'im if he sent parcels. I sent two to my boy months since, and they ain't been delivered yet."

Small Brother's Criticism.

"I heard him call you 'Duckie,'" announced the small brother.

"Well, what of it?" demanded his sister, defiantly.

"Oh, nothin' much," answered the small brother. "I was only thinkin' maybe it's because of the way you walk, but it ain't very nice of him."

White—Yes; to break it.—Town Topics.

Post Toasties

"DELICIOUS!"

A New Use For This Word

The **New Post Toasties** are truly entitled to the word "delicious."

They're distinguished by the tiny bubbles found on each flake and they carry the full, rich flavour of choice, white Indian corn — not found in corn flakes of the past.

And unlike common corn flakes, they are not "chaffy" in the package and don't grow mushy in milk or cream.

Note carefully the tiny bubbles—then try a handful dry to test the flavour. In comparison, other corn flakes are as "chaff."

New Post Toasties

Sold by Grocers everywhere.

THE SUNBEAM.

BY W. G. HUNT, EDITOR
M. G. HUNT, PUBLISHER.

Published every Friday, at Sunbeam, Pennington County, Minnesota.

Entered as Second-class matter August 30 905, at the post office at Sunbeam Minn. nder the Act of Congress of March 3, 18[illegible]

We publish in another column an article written by Ira C. Richardson, which is worthy of careful persual. As Mr. Richardson has not been located on the ground as we have for the past ten years he has not had as good opportunities to know of conditions as they actually exist as we have had. We pioneered it in Polk county in the early settlement of the Thirteen Towns, and well remember the conditions as they existed there, at the time the farmers got their seed grain loan from the state, and were making loans to carry them through the hard days of pioneering. There the bankers grabbed all the interest and bonus that they could from the necessities of the people. But a different condition has prevailed here. Since the very first settlement of this country the bankers of Thief River Falls and Red Lake Falls have extended the right hand of fellowship to the settlers like brothers, and instead of looking for opportunities to take advantage of the necessities of the people they have loaned them money at a reasonable rate of interest to help them along, and we believe they will continue to do so; and we for one of the farmers of Pennington County would certainly object to going before the Legislature with a plea that Pennington County had arrived at a condition where they were compelled to go before the Legislature, and ask for a seed grain loan, for without regard to the conditions in other localities we think the people of Pennington County will say: "Thank you gentlemen! We have had a bad year, but there is plenty of capital left in Pennington County to furnish seed for our farms next year without any assistance from the state.

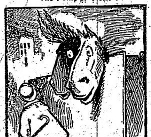
Notwithstanding the extremely wet and unfavorable weather that we have had this spring, crop prospects are looking brighter now, since the warm weather of the past two weeks. The early sown grain is now all headed out and the flax crop was never in a more promising condition at this time of year.

Whatever disgrace we have merited, it is almost always in our power to re-establish our reputation.—La Rochefoucauld.

Cornmeal For the Feet.

Men as well as women are finding cornmeal very beneficial to aching and sore feet. Simply soak the feet in warm water into which a handful of meal has been thrown, and the meal when rubbed over the feet opens up the pores in such a manner as to stop the very disagreeable annoyance of painful feet. It is far superior to salt baths for the feet.—Philadelphia North American.

The Point of View.



The Donk—That man over there must be a fine, smart fellow.

The Steed—What makes you think so?

The Donk—I hear every one speak of him as a perfect donkey.—New York Globe.

NOT A HEADACHE, BUT THOUGHTS AFTER CELEBRATING THE FOURTH AT HIGHLANDING.

In the towns of Highlanding, Star, Hickory and Deer Park in Pennington County Minnesota, there are 500 land-holders, whose acres are as fertile as any in the United States, but Surface Water in the past two years, has rendered the greater part of that area unfit for farming, and the [illegible] has been injuriously affected.

The United States did not give that land to those people but sold it to them and gave the proceeds to Indians.

Those 500 land-holders are tax payers in this County, and have to support their families.

Recently, different good meaning [illegible] have advocated an improvement of the Red Lake and its outlet, the Red Lake River by Congress, to prevent the inundation of those lands; and that is a commendable project.

But the improvement of waterways by the Government are proverbially slow; and the cry of "less pork" for Congressmen will further postpone many needed improvements.

Many of those land-holders had to mortgage their farms several years ago. The interest comes due regularly regardless of crop conditions; and mortgagees are inclined to insist on the prompt payment of it.

When the land is relieved of its burden of surface water, its value will be five times the amount of the mortgages.

As a rule mortgage loans are are made to reap interest; but insistence upon prompt payment of it in this case means confiscation of many farms. Most of those loans were made by bankers and other money-loaners in Pennington and Red Lake Counties, but a large part of the money invested is that of foreign investors, who will want their interest as it falls due.

I do not ask the mortgagees to abate the interest for one, two or three years; but to extend the time of the payment of it.

Foreign investors do not know the real value of the land nor will they reap any incidental benefits, and will not agree to the proposed extension.

All in this community engaged in loaning money have plenty of money for that purpose.

If they have faith in Congressional relief for those people and others more or less affected by the overflow of the Red Lake and the Red Lake and Clearwater Rivers, they can prove their faith by extending the time of the payment of interest payable to them; and by buying mortgages held elsewhere.

The security is ample, because there is not a worthless acre in all that territory.

And it is none too early to consider this plan.

Our Declaration of Independence is for the life, liberty and pursuit of happiness of all men; and life implies an opportunity to earn a living.

Promises of a prize necessarily deferred are glittering hopes; but immediate help is pure gold.

These land-holders need seed grain for next year; and why not apply to the Minnesota Legislature for a seed grain loan as was done in 1887 and 1897?

None of these plans will prevent or postpone action by the Government.

Ira C. Richardson.

Times Change.

"What is the principal difference between modern and ancient times?"

"One of the main points was that the modern earn their living, while the ancient urned their dead."

Specifications Furnished.

"What does our party stand for?" asked the machine senator.

"You, for one thing," replied a facetious voice from the rear of the hall.—Philadelphia Record.

Department of Education
Program of Examinations
For
COMMON SCHOOL CERTIFICATES
Lincoln High School Building,
Thief River Falls, Minn.
July 24, 25 and 26, 1916.

Monday, July 24:
A. M.—8:00 to 8:45 Enrollment.
—8:45 to 9:15 Spelling.
—9:15 to 10:00 Penmanship.
—10:00 to 12:00 Arithmetic.
P. M.—1:15 to 3:00 Geography.
—3:00 to 4:00 Composition.
—4:00 to 5:00 Reading.

Tuesday, July 25.
A. M.—8:00 to 9:45 United States History.
—9:45 to 11:30 English Grammar
—11:30 to 12:00 Music.
P. M.—1:15 to 2:45 Physiology-Hygiene
—2:45 to 4:00 Civics.
—4:00 to 4:45 Drawing.

Wednesday, July 26.
A. M.—8:00 to 8:30 Enrollment.
—8:30 to 10:15 Geometry.
—10:15 to 12:00 Physics.
P. M.—1:15 to 2:45 Algebra.
—2:45 to 4:15 Physical Geography or General History.
— 4:15 to 5:15 Agriculture.

If Geography, Physiology-Hygiene, or Algebra do not require the full time, the remaining time may be used for the subjects that follow.

A state fee of 50 cents is charged each applicant for renewal or examinee. Examinee bring ink, pen and pencil.

E. A. Mostue, Sup't.
